Karyn,

I do not see the piggyback contract as that is something you would write. The contract expires 3 years from the date of execution. The full contract is posted to

<http://discover.pbcgov.org/engineering/roadwayproduction/Pages/CCNA.aspx>

Scroll down a short way and design annuals are in the center column and construction annuals are in the right column. Liquidated damages are covered under SS-1. The bid tabulations are also posted to the website above.

Good morning,

I am looking to hire All Paving, Inc and would like to Piggyback off the contract for project #2020055. I have attached the contract that they sent me. I was hoping that you could help me answer a few questions pertaining to this contract, or if you could point me in the direction of someone who can help me.

- Does the piggyback contract allow the utilization of the contract by other entities, such as the City of Hollywood?
- Does this contract have an expiration date?
- Can you tell me how many companies responded to the RFP?
- Is there an extended contract that I do not have that has warranty conditions?
- Does the contract include liquidated damages?

Any help that you can provide to me would be greatly appreciated.

Thank you,

Karyn Sashi
