Vendor\_Reference\_Form.pdf

HOLD HARMLESS AND INDEMNITY CLAUSE \*

I, an authorized representative, the contractor, shall indemnify, defend and hold harmless the City of Hollywood, its elected and appointed officials, employees and agents for any and all suits, actions, legal or administrative proceedings, claims, damage, liabilities, interest, attorney's fees, costs of any kind whether arising prior to the start of activities or following the completion or acceptance and in any manner directly or indirectly caused, occasioned or contributed to in whole or in part by reason of any act, error or omission, fault or negligence whether active or passive by the contractor, or anyone acting under its direction, control, or on its behalf in connection with or incident to its performance of the contract.

Confirmed

NON-COLLUSION STATEMENT\*

I, being first duly sworn, depose that:

- A. He/she is an authorized representative of the Company, the Proposer that has submitted the attached Proposal.
- B. He/she has been fully informed regarding the preparation and contents of the attached Proposal and of all pertinent circumstances regarding such Proposal;
- C. Such Proposal is genuine and is not a collusion or sham Proposal;
- D. Neither the said Proposer nor any of its officers, partners, owners, agents, representatives, employees or parties in interest, including this affiant has in any way colluded, conspired, connived or agreed, directly or indirectly with any other Proposer, firm or person to submit a collusive or sham Proposal in connection with the contractor for which the attached Proposal has been submitted or to refrain from bidding in connection with such contract, or has in any manner, directly or indirectly, sought by agreement or collusion or communication or conference with any other Proposer, firm or person to fix the price or prices, profit or cost element of the Proposal price or the Proposal price of any other Proposer, or to secure an advantage against the City of Hollywood or any person interested in the proposed Contract; and
- E. The price or prices quoted in the attached Proposal are fair and proper and are not tainted by any collusion, conspiracy, connivance or unlawful agreement on the part of the Proposer or any of its agents, representatives, owners, employees, or parties in interest, including this affiant.

Confirmed

CERTIFICATIONS REGARDING DEBARMENT, SUSPENSION AND OTHER RESPONSIBILITY MATTERS\*

The applicant certifies that it and its principals:

Are not presently debarred, suspended, proposed for debarment, declared ineligible, sentenced to a denial of Federal benefits by a State or Federal court, or voluntarily excluded from covered transactions by any Federal department or agency;

Have not within a three-year period preceding this application been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State, or local) transaction or contract under a public transaction, violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;

Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State, or local) with commission of any of the offenses enumerated in paragraph (b) of this certification; and

Have not within a three-year period preceding this application had one or more public transactions (Federal, State, or local) terminated for cause or default.

Confirmed

DRUG-FREE WORKPLACE PROGRAM\*

- A. IDENTICAL TIE PROPOSALS - Preference shall be given to businesses with drug-free workplace programs. Whenever two or more bids which are equal with respect to price, quality, and service are received by the State or by any political subdivision for the procurement of commodities or contractual services, a bid received from a business that certifies that it has implemented a drug-free workplace program shall be given preference in the award process. Established procedures for processing tie proposals will be followed if none of the tied vendors have a drug-free workplace program. In order to have a drug-free workplace program, a business shall:

1. Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.
2. Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violations.
3. Give each employee engaged in providing the commodities or contractual services that are under bid a copy of the statement specified in subsection (1).
4. In the statement specified in subsection (1), notify the employee that, as a condition of working on the commodities or contractual services that are under bid, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.
5. Impose a sanction on, or require the satisfactory participation in a drug abuse assistance or rehabilitation program (if such is available in the employee's community) by, any employee who is so convicted.
6. Make a good faith effort to continue to maintain a drug-free workplace through implementation of these requirements.

**As the person authorized to sign the statement, I certify that this firm complies fully with the above requirements.**

Confirmed

#### SOLICITATION, GIVING, AND ACCEPTANCE OF GIFTS POLICY\*

Florida Statute 112.313 prohibits the solicitation or acceptance of Gifts. "No Public officer, employee of an agency, local government attorney, or candidate for nomination or election shall solicit or accept anything of value to the recipient, including a gift, loan, reward, promise of future employment, favor, or service, based upon any understanding that the vote, official action, or judgment of the public officer, employee, local government attorney, or candidate would be influenced thereby." The term "public officer" includes "any person elected or appointed to hold office in any agency, including any person serving on an advisory body."

The City of Hollywood/Hollywood CRA policy prohibits all public officers, elected or appointed, all employees, and their families from accepting any gifts of any value, either directly or indirectly, from any contractor, vendor, consultant, or business with whom the City/CRA does business.

The State of Florida definition of “gifts” includes the following:

- Real property or its use,
- Tangible or intangible personal property, or its use,
- A preferential rate or terms on a debt, loan, goods, or services,
- Forgiveness of indebtedness,
- Transportation, lodging, or parking,
- Food or beverage,
- Membership dues,
- Entrance fees, admission fees, or tickets to events, performances, or facilities,
- Plants, flowers or floral arrangements
- Services provided by persons pursuant to a professional license or certificate.
- Other personal services for which a fee is normally charged by the person providing the services.
- Any other similar service or thing having an attributable value not already provided for in this section.

Any contractor, vendor, consultant, or business found to have given a gift to a public officer or employee, or his/her family, will be subject to dismissal or revocation of contract.

As the person authorized to sign the statement, I certify that this firm will comply fully with this policy.

Confirmed

**6. SWORN STATEMENT PURSUANT TO SECTION 287.133 (3) (a) FLORIDA STATUTES ON PUBLIC ENTITY CRIMES\***

THIS FORM STATEMENT IS SUBMITTED TO THE CITY OF HOLLYWOOD BY:\*

(Print individual's name and title) (Print name of entity submitting sworn statement)

Debra McCormick, Chief Administrative Officer for DebrisTech, LLC

SWORN STATEMENT CONTINUATION:\*

Enter business address:

923 Goodyear Boulevard, Picayune MS 39466

SWORN STATEMENT CONTINUATION:\*

Enter Federal Employer Identification Number (FEIN) is:

If the entity has no FEIN, include the Social Security Number of the individual signing this sworn statement.

27-3362906

SWORN STATEMENT CONTINUATION:\*

I understand that "convicted" or "conviction" as defined in Paragraph 287.133(1)(b), Florida Statutes, means a finding of guilt or a conviction of a public entity crime, with or without an adjudication of guilt, in an federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, nonjury trial, or entry of a plea of guilty or nolo contendere.

Confirmed

SWORN STATEMENT CONTINUATION:\*

I understand that "Affiliate," as defined in paragraph 287.133(1)(a), Florida Statutes, means:

1. A predecessor or successor of a person convicted of a public entity crime, or
2. An entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public entity crime. The term "affiliate" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

Confirmed

SWORN STATEMENT CONTINUATION:\*

I understand that "person," as defined in Paragraph 287.133(1)(e), Florida Statutes, means any natural person or any entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which bids or applies to bid on contracts let by a public entity, or which otherwise transacts or applies to transact business with a public entity.

The term "person" includes those officers, executives, partners, shareholders, employees, members, and agents who are active in management of an entity

Confirmed

SWORN STATEMENT CONTINUATION:\*

Based on information and belief, the statement which I have marked below is true in relation to the entity submitting this sworn statement. (Please indicate which statement applies.)

Division of Administrative Hearings, determined that it was not in the public interest to place the entity submitting this sworn statement on the convicted vendor list. (attach a copy of the Final Order).

Neither the entity submitting sworn statement, nor any of its officers, director, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, nor any affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

SWORN STATEMENT CONFIRMATION\*

I UNDERSTAND THAT THE SUBMISSION OF THIS FORM TO THE CONTRACTING OFFICER FOR THE PUBLIC ENTITY IDENTIFIED IN PARAGRAPH 1 (ONE) ABOVE IS FOR THAT PUBLIC ENTITY ONLY AND THAT THIS FORM IS VALID THROUGH DECEMBER 31 OF THE CALENDAR YEAR IN WHICH IT IS FILED. I ALSO UNDERSTAND THAT I AM REQUIRED TO INFORM THAT PUBLIC ENTITY PRIOR TO ENTERING INTO A CONTRACT IN EXCESS OF THE THRESHOLD AMOUNT PROVIDED IN SECTION 287.017 FLORIDA STATUTES FOR A CATEGORY TWO OF ANY CHANGE IN THE INFORMATION CONTAINED IN THIS FORM.

Confirmed

## 7. Exceptions

DOES THE PROPOSER HAVE EXCEPTIONS TO THE SOLICITATION REQUIREMENTS, SCOPE OF WORK OR TERMS AND CONDITIONS?\*

No

IF YOU ANSWERED "YES" TO THE ABOVE QUESTION AND YOU HAVE EXCEPTIONS, PLEASE UPLOAD A SEPARATE ATTACHMENT LISTING THE APPLICABLE SECTIONS IN THE SOLICITATION THAT YOU HAVE EXCEPTIONS TO.

Exceptions must:

- A. Clearly identify the affected article and section, and
- B. Clearly note what language is requested to be modified. Unclear requests will be automatically denied.

The City reserves the right to accept or reject any or all bids/proposals, exceptions, to waive irregularities and technicalities, and request new bids/proposals. The City also reserves the right to award any resulting agreement as it deems will best serve the interests of the city.

Hollywood, FL 33020

**RE: RFP-287-25-AR**  
**Debris Monitoring Services**

To the Selection Committee Members  
of the City of Hollywood,

DebrisTech, LLC, is a full-service debris monitoring firm built upon a foundation of experience, knowledge, and technology. DebrisTech's team possesses proven experience in aiding entities in receiving their **maximum reimbursement from FEMA**. Our management team comes to the table with a combined experience of over half a century of working with FEMA, disasters, and debris removal monitoring. We believe that DebrisTech is the best debris monitoring choice for the following reasons:

**PROVEN, SCALABLE EXPERIENCE:** DebrisTech has provided debris monitoring services in response to hundreds of contract activations across the United States and Puerto Rico. These range from smaller projects following localized storms to massive multi-state projects such as Hurricane Helene (2024). In response to Helene, DebrisTech mobilized simultaneously in 4 states, leading 65 projects, and onboarding over 4,000 new employees. Since our inception, DebrisTech has consistently met every contract activation, responding within 24 hours without exception.

**INDUSTRY-LEADING, COST-SAVING TECHNOLOGY:** DebrisTech has the most innovative, advanced, and user-friendly Automated Debris Management System (ADMS) in the industry. ADMS reduces human error and restricts potentially fraudulent activities which are associated with paper ticket systems. DebrisTech continues to set the standard with upgraded features that lead to significant client savings. This technology results in **faster** project obligation from FEMA and **faster** reimbursement from recipients of federal funds.

DebrisTech's ADMS features allow our Supervisors and Managers to oversee debris operations in real-time and provide immediate feedback to debris monitors. Transparency is an integral feature of any monitoring process having multiple components and large-scale debris operations can have thousands of components daily. FEMA requires the Applicant to monitor all contracted debris operations to ensure the quantities and work claimed are accurate and eligible. DebrisTech's

ADMS is structured so that data is entered once and populates all required documents needed from project obligation to closeout. Supplemental documentation is captured and available as needed to support claimed costs. For instance, in response to changes in FEMA guidance that now requires a single photograph or video that documents the threat to the public right-of-way or improved property, DebrisTech has invested in **DT360** technology that exceeds FEMA documentation standards. Other unique features are highlighted in our **Industry-Leading Reports**.

**SIMPLE, COMPETITIVE PRICING:** DebrisTech offers a simple and transparent pricing structure. Because our Automated Debris Management System (ADMS) seamlessly integrates data entry and documentation, we focus our bids solely on essential field positions involved in debris monitoring operations. Unlike other systems that rely on additional personnel for data entry and administrative tasks, DebrisTech’s fully automated ADMS eliminates the need for non-operational roles such as Data Entry Clerks and Administrative Assistants. These functions are inherently built into our technology, ensuring that all administrative support is absorbed by DebrisTech—not passed along to clients. This efficiency translates to lower costs, reduced overhead, and a more streamlined debris management process. By prioritizing automation and operational efficiency, DebrisTech continues to set the industry standard for cost-saving, technology-driven solutions.

**REAL-TIME DATA, FIRST-CLASS SERVICE:** All of our data is accessible by our Clients in real-time, giving you essential and timely information as you oversee this contract. By building a company solely focused on debris removal monitoring, we are able to provide you with our full and undivided attention. Please don’t hesitate to contact me directly as the main point of contact and authorized negotiator for this proposal either by phone: **601-916-1113**, or by email: **brooks@debristech.com**.

Thank you for your consideration,

**Brooks R. Wallace, P.E.**  
**Founder and Managing Principal**

# DISASTER EXPERIENCE

Since 2010, DebrisTech has served every level of government, with over 300 project activations in response to more than 80 federally declared disasters. Below is a map showing our project locations:

Through our decades of experience and hundreds of project activations, DebrisTech has demonstrated a wide-range of special disaster recovery program documentation in addition to right-of-way debris removal:

### HAZARDOUS LIMBS/TREE REMOVAL

Memphis, TN (2022) *DR-4645-TN*  
Documented 54,063 hazardous limbs

### SIGNIFICANT CULTURAL CONSIDERATIONS

Puerto Rico (2017) *DR-4339-PR*, 1 million CY  
debris with significant culture protected

### PRIVATE PROPERTY/ROE WORK

Kentucky Transportation Cabinet  
(2022) *DR-4663-KY*, 158 ROE packets

### WATERWAYS CLEAN-UP

Montana Dis. & Em. Services *DR-4655-MT*  
143,773 CY of waterway debris documented

### FIRE DEBRIS REMOVAL MONITORING

Oregon Department of Transportation  
(2020) *DR-4562-OR*, 69,278 tons of debris

### BEACH RECOVERY/REMEDIATION

Jacksonville Beach, FL (2017) *DR-4337-FL*  
Hurricane Irma beach recovery/remediation

### HOUSEHOLD HAZARDOUS WASTE

Maui County, HI (2023) *DR-4724-HI*  
Assessed 1625 properties for HHW

### VESSEL AND VEHICLE RECOVERY

Bay County, FL (2018) *DR-4399-FL*  
10 million+ CY for Hurricane Michael

DOCUMENTING DEBRIS REMOVAL FOR **MAXIMUM FEMA REIMBURSEMENT FOR HOLLYWOOD**

# DEBRIS HIGHLIGHTS

Here are highlights of the **over 65 million cubic yards** of debris removal we have monitored:

# FLORIDA EXPERIENCE

Since Hurricane Matthew devastated the state of Florida in 2016, the DebrisTech team has been working in Florida to assist cities and counties by monitoring debris removal for maximum FEMA reimbursement. Since 2016, DebrisTech has responded to 7 federally declared disasters in Florida and has assisted 24 entities, including the Florida Division of Emergency Management. Below is a list of our experience throughout Florida:

**DebrisTech Cities Served:**

City of Arcadia

City of Atlantic Beach

City of Cedar Key

City of Crystal River

City of Holmes Beach

City of Jacksonville Beach

City of Longwood

City of Neptune Beach

City of Panama City

City of Punta Gorda

City of Rockledge

City of St. Augustine

Town of Longboat Key

Town of Yankeetown

**DebrisTech Counties Served:**

Bay County

Citrus County

Columbia County

Glades County

Hardee County

Indian River County

Jackson County

Jefferson County

Santa Rosa County

**Other Entities Served:**

Florida Division of  
Emergency Management

**Federal Disasters in FL:**

DR-4283-FL 2016 Hurricane Matthew

DR-4337-FL 2017 Hurricane Irma

DR-4399-FL 2018 Hurricane Michael

DR-4564-FL 2020 Hurricane Sally

DR-4673-FL 2022 Hurricane Ian

DR-4680-FL 2022 Hurricane Nicole

DR-4734-FL 2023 Hurricane Idalia

# FIRM PROFILE

---

## DebrisTech Profile

DebrisTech is a firm exclusively built to service the needs of debris monitoring for Clients throughout the United States. This singular focus as a firm has allowed DebrisTech to leverage all of its talent, energy and resources into creating a technologically innovative, ever-improving, completely customizable ADMS to fit every Client's unique needs. DebrisTech takes pride in cultivating personal, lasting relationships with our Clients. DebrisTech is committed to providing the detail, attention and service that is second to none.

DebrisTech's monitoring procedures maintain compliance with the most up-to-date FEMA rules and publications. This includes strict adherence to the Public Assistance Program and Policy Guide (PAPPG) v.4 (June 2020), Public Assistance Debris Monitoring Guide (March 2021), and Public Assistance: Category A - Debris Removal including Private Property Debris (May 2023).

The core components of DebrisTech's monitoring approach are as follows:

### PLANNING

DebrisTech plays a vital role in disaster preparedness by crafting Debris Management Plans that are customized to each Client's unique requirements while adhering to Federal, State, and Local regulations. This tailored approach ensures that Clients are well-prepared for efficient and effective debris recovery efforts. This process promotes seamless coordination and communication among stakeholders.

### RESPONSE

DebrisTech is committed to swift and efficient response times. Upon notification, we pledge to deploy an appropriate number of personnel and qualified professionals to begin the monitoring process within 24 hours.

# FIRM PROFILE

## OPERATIONS

Debris removal monitoring is a very engaged process requiring focus and understanding of many areas of operation and federal guidelines. DebrisTech fully understands that these areas include:

- Understanding of removal contracts and reimbursements
- Accurate and objective estimation of debris quantities
- Understanding of all phases of debris management operations
- Knowledge of loading sites, DMSs, and final disposition sites
- Accurate differentiation of debris types
- Adherence to and understanding of site safety procedures
- Effective and efficient communication
- Experience and knowledge of construction machinery

## CONTRACT MANAGEMENT

DebrisTech possesses an extensive and distinguished track record in the effective management of debris removal contracts for a variety of events spanning the nation. Our accomplished Project Management team at DebrisTech collaboratively engages with debris removal contractors of all sizes, consistently upholding a high standard of professionalism through transparent and highly effective communication channels.

## QUALITY ASSURANCE/QUALITY CONTROL

DebrisTech includes QA/QC processes in every step of our operations. Throughout this document you will see the QA/QC icon that indicates the specific QA/QC process for the described step. DebrisTech's QA/QC methodology is that real-time feedback allows managers to monitor data collection before small issues turn into large issues. Daily reconciliation with debris removal contractors results in timely and accurate reporting, invoicing, reimbursement, and closeout.

# LARGE SCALE PROJECTS

DebrisTech has the capacity and experience to handle large-scale disaster events as necessary. Below are the DebrisTech projects where the total amount of debris monitored exceeded 1 million cubic yards.

EVENT	CLIENT	TOTAL CUBIC YARDS	YEAR
<b>HURRICANE HELENE</b> (DR-4830-GA)	Columbia County, GA	3,500,000 and counting	2024
<b>TORNADO</b> (DR-4788-AR)	City of Rogers, AR	1,130,313	2024
<b>ICE STORM</b> (DR-4637-TN)	City of Memphis area, TN	1,000,681	2022
<b>HURRICANE IDA</b> (DR-4611-LA)	St. Charles Parish, LA	1,679,829	2021
<b>DERECHO</b> (DR-4557-IA)	City of Cedar Rapids, IA	4,618,442	2020
<b>DERECHO</b> (DR-4557-IA)	City of Marion, IA	1,114,546	2020
<b>HURRICANE MICHAEL</b> (DR-4399-FL)	City of Panama City, FL	5,843,262	2018
<b>HURRICANE MICHAEL</b> (DR-4399-FL)	Bay County, FL	10,442,409	2017
<b>HURRICANE MARIA</b> (DR-4339-PR)	Department of Transportation and Public Works, Puerto Rico	1,475,332	2017

In addition to large scale projects, DebrisTech has demonstrated experience with large-scaled Clients:

Mississippi Emergency Management Agency

Montana Disaster and Emergency Services

North Carolina Department of Public Safety

Florida Division of Emergency Management

Puerto Rico Department of Transportation and Public Works

# PROJECT LIST

DebrisTech has worked with entities at the local, county and state level across the United States and Puerto Rico to document and monitor debris removal for maximum FEMA reimbursement. The following pages list a comprehensive look at our extensive debris monitoring experience since 2013:

# MS TORNADOES (DR-4697-MS)

8 separate tornadoes tore through the state of Mississippi on March 24, 2023, part of a larger tornado outbreak that claimed 14 fatalities and an estimated \$1.9 billion in damages. MEMA Regions 1, 3, 4 and 5 were affected simultaneously by this event. In response, DebrisTech activated in four of the seven affected counties, as well two cities and the Department of Wildlife, Fisheries and Parks, covering three MEMA Regions. This was in addition to our ongoing projects, including tornadoes that affected Arkansas, Oklahoma and Tennessee during this same time.

At the height of this Mississippi response, DebrisTech deployed 290 monitors and supervisors throughout the state of Mississippi to assist three MEMA Regions with their recovery efforts. In all DebrisTech monitored the removal of **764,368.8 CY** of debris and **2,834** hazardous trees and limbs. The tornado outbreak of March 2023 demonstrates DebrisTech's commitment and capability to assist multiple Clients and Regions of Mississippi should a large-scale disaster event occur. Below are our individual project statistics and reference information:

**DT176 - City of Amory, MS - 520,202.6 CY** POC: Corey Glenn, Mayor, (662) 256-5721

**DT177 - Montgomery County, MS - 20,432.3 CY** POC: Ryan Wood, Chancery Clerk, (662) 283-2333

**DT178 - City of Winona, MS - 19,368.5 CY** POC: Aaron Dees, Mayor, (662) 602-0797

**DT179 - Panola County, MS - 15,945.4 CY** POC: Daniel Cole, EM Director, (662) 801-8536

**DT180 - Carroll County, MS - 34,613.3 CY** POC: Casey Carpenter, Chancery Clerk, (662) 237-9274

**DT181 - Monroe County, MS - 135,129.5 CY** POC: Daniel Williams, Road Manager (662) 304-0019

**DT185 - Itawamba County Railroad - 1,714.2 CY** POC: Stephanie Windham, swindham@itawambacomms.com

**DT212 - Department of Wildlife, Fisheries and Parks - 16,963.99 CY** POC: John Sykes, Procurement Officer (601) 432-2400

# HURRICANE IDALIA (DR-4734-FL)

Hurricane Idalia was a powerful and destructive Category 4 hurricane that caused significant damage across parts of the southeastern United States, especially in North Florida, in late August 2023. It underwent rapid intensification, briefly becoming a Category 4 hurricane prior to making landfall in the Big Bend region of Florida at Category 3 strength on August 30. Idalia remained a hurricane as it moved through Northern Florida and crossed into Southeast Georgia.

Idalia caused significant damage to thousands of homes, businesses, and other infrastructure along its inland path, primarily in Florida, where winds and the resulting floodwaters were highest. Its storm surge was record-breaking from the Big Bend region south to Tampa Bay. Early estimates placed insured losses at \$2.2–5 billion. DebrisTech deployed to eight Clients simultaneously within 24 hours of a Notice to Proceed, monitoring (to date) over 315k CY of debris, over 30k hazardous trees and limbs and deploying 289 field monitors to fully staff all projects.

**DT204 - Jefferson County, FL - 36,900 CY** POC: Shannon Metty, County Manager, (850) 997-3083

**DT205 - Crystal River, FL - 17,500 CY** POC: Douglas Baker, City Manager, (352) 795-4216

# HURRICANE IAN (DR-4673-FL)

In response to Hurricane Ian DebrisTech met all its own contractual obligations and contracted with Landfall Strategies to fulfill their obligations across the state of Florida. During this recovery process the DebrisTech ADMS was used to simultaneously document the removal of nearly 750,000 cy of debris and track the hours of 200+ monitors.

**DT154 - City of Longwood - 18,795 CY** Greg Kirby, Purchasing Manager, gkirby@longwoodfl.org

# DEBRISTECH

REAL-TIME DATA. REAL-TIME RECOVERY.

www.DebrisTech.com  
601-658-9598

## DISASTER DEBRIS MONITORING EXPERIENCE WITH HURRICANE MARIA

On September 20, 2017, Puerto Rico was assaulted by the tenth most intense storm recorded in the Atlantic Ocean. Hurricane Maria swept across the entire island leaving devastation in its wake. That record-setting hurricane left more than 90% of the island in the dark with a debris field that encompassed all of Puerto Rico.

DebrisTech was selected to monitor the debris removal from the East and the North DTOP zones. These zones experienced the first effects of the destructive waves and winds brought on by Maria. Utilizing DebrisTech's ADMS to monitor and record the Contractor's activities, the local government was able to manage the recovery process and ensure the protection of endangered species in these zones with access to real-time information.

Disposal Sites  
in Operation

DebrisTech was contracted by the **Departamento de Recreación y Deportes** to monitor the removal of the debris from all 325+ parks, sports fields and national parks throughout Puerto Rico. In March of 2021 DebrisTech monitored the removal of debris from the world famous **Parque Nacional de las Cavernas del Río Camuy**, allowing it to reopen to the public.

DebrisTech also contracted with the **Autoridad Acueductos y Alcantarillados de Puerto Rico**. This agency serves a critical need in Puerto Rico by providing quality water and sewer service. DebrisTech monitored the debris removal from its infrastructure and facilities (including pump stations and aqueduct facilities), allowing service to be restored quickly. **DebrisTech is proud to partner with and serve Puerto Rico.**

# COMPANY CONTACTS

The authorized contract negotiators for this project are:

**Brooks Wallace, Founder and Managing Principal**

923 Goodyear Blvd., Picayune MS 39466

Phone: 601-916-1113 (cell)

Email: brooks@debristech.com

**Debra McCormick, Chief Administrative Officer**

923 Goodyear Blvd., Picayune MS 39466

Phone: 601-658-9598

Email: debra@debristech.com

Key Personnel Information and Points of Contact for DebrisTech:

**Buck Dickinson, Regional Manager and Public Assistance Director**

335 N. Monroe St., Tallahassee FL, 32301

Phone: 601-658-9598

Email: bdickinson@debristech.com

**John McNeese, Executive Vice President**

923 Goodyear Blvd., Picayune MS 39466

Phone: 601-658-9598

Email: jmcneese@debristech.com

# ORGANIZATIONAL STRUCTURE

The number of Monitors will be dependent on the number of loading operations being operated by the Debris Removal Contractor. The Field Supervisor position will be staffed at one Supervisor per six Monitors.

# AVAILABLE STAFF

## MANAGEMENT TEAM

In the event of a contract activation, DebrisTech has a large and highly-trained Management Team available for immediate deployment. The Experience Matrix on the following pages details our extensive experience.

### Principals

Brooks Wallace  
 Jeff Dungan  
 Ryan Holmes  
 Lee Mock  
 Les Dungan

### Regional Managers

John McNeese  
 Dennis Cruthirds  
 Tyler Williamson  
 Buck Dickinson

### Project Managers

Ivan Ramos  
 Robert Ellis  
 William Harrison  
 Sandra Austin  
 Josh Daffern  
 Heath Johnson  
 Kelly Copp  
 Bobby Odom  
 Hill Johnson  
 Tracey Jordan  
 Chris Arthur

### Operations Managers

Leslie Carmadelle  
 Hayden Bryant  
 Abbie Cruthirds  
 Hunter Austin  
 Jason Harrison  
 Will Jordan  
 Kayla Ulmer  
 Dalton Cruthirds  
 Joseph Genarella  
 Brandy Hedgman  
 Rianna Stryjewski  
 Angela Cruthirds

## NEARBY TRAINED PERSONNEL

Additionally, DebrisTech has **73** trained debris monitors within a 30 mile radius of Hollywood, FL, available for deployment upon a Notice to Proceed.

# BROOKS WALLACE, P.E., President

[brooks@debristech.com](mailto:brooks@debristech.com)

Brooks R. Wallace, P.E. created DebrisTech in 2010 in response to a need for real-time auditing of debris removal projects. He has a vast array of experience in the field of civil engineering and in debris removal monitoring. Working as an engineer on numerous projects in South Mississippi, including

the aftermath of Hurricane Katrina, he was able to identify vulnerabilities and inefficiencies in the process of debris removal operations and monitoring. He realized that the technology was available to provide real-time data to FEMA and municipal supervisors overseeing cleanup efforts while creating a database of information that could be referenced at any time for compliance purposes. Utilizing the technology currently available, Mr. Wallace developed the software platform for what has evolved into a system that is revolutionizing the process of debris monitoring and compliance.

A civil engineer by trade, Mr. Wallace has dealt with countless municipal and county projects involving infrastructure upgrades and the modernization of local and regional maps and surveys. He has worked with law enforcement agencies, municipal governments, state agencies, and FEMA on projects ranging from smart growth plans to large-scale utility and resource redesigns. In addition to the DebrisTech Automated Debris Management System, Mr. Wallace custom-designed the Emergency Operations Supply Tracking (EOST) system for the state of Mississippi to track hundreds of millions of dollars of COVID-19 supplies. Additionally, Mr. Wallace custom-designed the Debris Operations Tracking System (DOTS) for the state of Florida to better respond to statewide disaster events.

Mr. Wallace will perform contractual negotiations, contractor invoicing, software development, and asset/personnel assignment. He is proficient in preparation planning, analysis, monitoring

procedures, and personnel management. The technology he developed, along with previous experience, creates an invaluable leader for the DebrisTech team.

# JOHN MCNEESE, Executive VP

[jmcneese@debristech.com](mailto:jmcneese@debristech.com)

John McNeese is an Executive Vice President and has been working with the DebrisTech management team since 2012. He began as an instrumental part in leading the recovery efforts in Moore, Ok following the aftermath of one of the most devastating tornadoes in US history.

Having an extensive background in communications, cost evaluation and construction, John excelled as a liaison between the client and contractor, aiding in the reimbursement process involved with federal funding. Prior to DebrisTech, John had been involved in recovery efforts as a debris contractor following Hurricane Katrina in 2005 and a project manager during the BP Oil Spill in 2010. Both of these events are considered two of the most historically devastating disasters along the Mississippi Gulf Coast.

Mr. McNeese has since served as a project manager in Puerto Rico following Hurricane Maria, overseeing more than 450 employees and approximately 100 million dollars in debris removal costs. He is currently serving as a project manager for DebrisTech in Mississippi, following a series of devastating storms.

# DENNIS CRUTHIRDS, Executive VP

dennis@debristech.com

Dennis Cruthirds is an Executive Vice President with DebrisTech. His duties include the daily operations of the project, quality assurance/quality control of monitoring operations, the documentation of employee time, and delivering updates to the client's representative. Mr. Cruthirds has 12 years of experience in construction

material testing and 16 years of debris monitoring. He brings a wealth of knowledge, capabilities, and experience to our clients and has worked on numerous debris removal monitoring and disaster recovery projects. During his career, Mr. Cruthirds has successfully managed the monitoring of millions of cubic yards of debris for some of the most catastrophic disasters across the nation. He has served as a project/site manager in Iowa, after the effects of a Derecho. He is currently overseeing operations in Kentucky. His personality and experience affords him a perfect relationship with contractors, as well as our clients.

# TYLER WILLIAMSON, Executive VP

twilliamson@debristech.com

Tyler Williamson is an Executive Vice President with DebrisTech. Collateral duties include overseeing the daily operations of the assigned projects, including coordinating the recovery efforts with the client, FEMA PA consultants, local, state and federal agencies. He has exceptional documentation practices and excels in strategical planning. Mr. Williamson has several years of experience with DebrisTech at nearly every position in the company. He has worked on more than 40 debris removal and disaster recovery projects. He is leading our efforts in Oregon with the training and supervision of hundreds of debris monitors. He also manages data, produces daily reports, for the debris monitoring effort for the several project through the southeast. Mr. Williamson has helped clients address their recovery needs through expertise, technology and knowledge. Utilizing past experience, together with these ever developing skills, make him a valuable asset to DebrisTech.

# BUCK DICKINSON, Public Assistance

[bdickinson@debristech.com](mailto:bdickinson@debristech.com)

Buck Dickinson is the Public Assistance Director at DebrisTech. He comes with a wealth of experience in all aspects of debris management. His previous experience spans every aspect of Public Assistance. As State Public Assistance Officer for the Florida Division of Emergency Management

he led teams comprised of state and private sector consultants for all open events in the State of Florida. Buck has experience in the disaster declaration process, project development, programmatic compliance, project and event closeout and facilitating efficient communication between applicants, state entities, and FEMA. He provides clients with a subject matter expert of the entire Public Assistance program, with an emphasis on ensuring accurate project obligation to closeout. Buck brings a solution-based perspective to project's unique issues resulting in clients gaining program knowledge which prepares them for future events.

# DANIEL BAXTER, C.P.A., Chief Financial Officer

dbaxter@debristech.com

Daniel Baxter is the Chief Financial Officer at DebrisTech. He graduated from the University of Mississippi with a Bachelor of Accountancy and a Master of Accountancy and Data Analytics. He is a licensed certified public accountant in the states of Mississippi and Tennessee and is active in his continued education in

the accounting industry. Prior to DebrisTech, Daniel has experience working at a global accounting firm where he audited the financial statements of large public and private companies in the healthcare and manufacturing industries. He has a background that excels in providing data integrity and assurance from financial audits to disaster response. In addition to his auditing and disaster response experience, Daniel worked in Washington as a junior fellow at the Library of Congress appointed by Congressman Gregg Harper, the Chairman of the Committee on House Administration in 2018, where he made connections and learned about the innerworkings of government and documentation between Congress and the Library of Congress. Daniel is active in the disaster response industry by working with fellow debris contractors and lobbying FEMA on behalf of DebrisTech's clients to fulfill the needs required to make a full recovery after a natural disaster.

As a Data Manager for DebrisTech, Daniel was a part of the team credited with the development of the Emergency Operations Supply Tracking Program. Utilizing this internally developed program Daniel, and the teams of asset managers, are still responsible for tracking over \$100,000,000.00 of PPE.

While managing the EOST program, Daniel also assisted with invoice reconciliation from debris removal projects across the country. His background in accountancy and law work provide him with the knowledge and experience to parse dense removal contractor invoices. These invoices must be compared to the DebrisTech ADMS data and if correct, recommended payment by the client.

Daniel has assisted cities and communities address their recovery needs. Utilizing past experience and ever developing skills make him a valuable part of DebrisTech.

# GARRETT SAULS, Chief Technology Officer

[gsauls@debristech.com](mailto:gsauls@debristech.com)

At DebrisTech Mr. Sauls has been responsible for developing all of our ADMS, GIS, Drone, and roadway video documentation services. He, along with the owner Brooks Wallace, customize the ADMS to meet the exact needs of every client. In his first few years Garrett has made a lasting impact on the level

of services our clients receive. As ADMS and QA/QC specialist he has verified that each ticket on every project is complete and meets the standards that FEMA requires. His most impressive work was for the City of Selma where he used satellite imagery to verify the location of hazardous trees endangering the right-of-way.

## Experience

DebrisTech, LLC

Data Manager - 2021 to present

NASA OCIO Development Intern - Fall

Implementing both previous projects along with other new projects to come.

NASA OCIO Development Intern - Summer

Developed a networkable Foot Traffic Counter for Return to Work scenarios

Networking Assistant

Assisting in complete renovation and reorganization of a 100+ line network.

NASA OCIO Development Intern - Summer

Developed an Asset Tracking system using Bluetooth Low Energy and a Raspberry Pi.

NASA STEM Engagement Intern - Spring

Organized and started the development of a regional wide robotics event.

## M/WBE PARTICIPATION

DebrisTech conscientiously looks for opportunities to work with small, women-, minority-owned and disadvantaged business enterprises whose specific capabilities complement our own skills for the benefit of our Clients. We have established working relationships with a number of small, women, and minority-owned firms, and have worked with many agencies having equal employment opportunity requirements. In addition, we maintain contact and knowledge of the qualifications of these firms in an effort to select appropriate service providers for specific projects. DebrisTech employs RMK Consulting, LLC to staff projects with needed local employees for larger projects. RMK Consulting, LLC is a certified M/WBE company.

RE: DebrisTech, LLC

To Whom It May Concern:

Per your request for evidence of bond ability, this letter is to advise you that DebrisTech, LLC is set up for bonding with NAS Surety Group.

Our company represents DebrisTech, LLC for all their bonding needs and has found them to be an outstanding client. Based on their past experience, we will consider single jobs of \$30,000,000 with an aggregate program of \$50,000,000.

Issuance of final bonds will be subject to standard underwriting at the time of the final bond request, which will include but not be limited to the receipt of current financial information, acceptability of the contract documents, bond forms, and financing. The Surety and BXS Insurance, Inc. along with their agents and owners accept no liability to you or any third party for failure to issue any bonds.

If I can be of additional assistance, please do not hesitate to call.

Sincerely,

A handwritten signature in blue ink, consisting of a large, stylized loop followed by a horizontal line.

David R. Fortenberry  
Vice-President

*Your Hometown Bank Since 1947*

Date: March 23, 2023

Re: DebrisTech, LLC

To Whom It May Concern:

This is to confirm that the above referenced customer is a valued borrower and depositor of the bank. We have handled various financial needs of this customer since the company's inception.

The borrower currently maintains a \$3,600,000.00 business line of credit and a business demand deposit account. Both accounts are handled in a satisfactory manner.

This company is deemed to be credit worthy from every aspect of our credit underwriting and thus a level one borrower. Based on knowledge of this customer's financial strength, the borrower has the capability to finance the anticipated volume of work for a minimum of 60 days without interference or a slowdown in the work whatsoever.

With this letter, we can also confirm that the accounts held and the transactions made by the customer have all been to our satisfaction. During the transactions and operations with our bank, we have not faced any problems of any sort and would entertain future requests from this customer in a most favorable manner.

Should there be any questions, please do not hesitate to call.

A handwritten signature in black ink, appearing to read 'David B. Hemeter', written over a horizontal line.

David B. Hemeter, President & CEO

## LITIGATION SUMMARY

---

DebrisTech, LLC certifies that neither the Company, nor any employee of the Company, has any conflict of interest, either direct or indirect, about the services sought herein pursuant to Federal or State Law or regulations.

DebrisTech, LLC certifies that it has never had any contract cancelled since formation in August of 2010, nor has it operated under any other name since formation in August of 2010.

DebrisTech certifies that it is not operating under Chapter 11 or any other financial restraints that would preclude its ability to enter into equipment leasing or rental arrangement.

DebrisTech certifies that it has not been prohibited from doing business with any government entity for any reason since its formation in 2010.

DebrisTech certifies that it has specific experience providing disaster debris monitoring following natural or manmade disasters.

DebrisTech is not currently involved in and has not had any claims, arbitrations, administrative hearings, or lawsuits related to debris monitoring, disaster recovery, or consulting brought against our company.

- a. DebrisTech certifies that neither it nor any of its employees with the potential to be assigned to the debris removal and site management services, within the past ten (10) years, has been a defendant in any proceedings involving or arising out of debris removal services; and
- b. DebrisTech certifies that neither it or any of its employees with the potential to be assigned to the debris removal and site management services, within the past ten (10) years, has been suspended or debarred from receiving federal funds regardless of whether the Prospective Contractor or the employee(s) was removed from being suspended or debarred; and
- c. DebrisTech certifies that it has never had a contract, related to debris removal, canceled or terminated.

Audited financial statements will be provided directly to the Client upon direct written request. For more information, please contact our Chief Financial Officer, Daniel Baxter. [dbaxter@debristech.com](mailto:dbaxter@debristech.com)

# DISASTER RESPONSE

The **City of Hollywood** is located within Broward County and comprises 30.78 square miles. Its population (2020) is 153,067. Over the past several years, **Hollywood** has been impacted by several natural disasters, including threats from tornadoes, flooding and hurricanes.

### Severe Storms, Tornadoes & Flooding DR-4709-FL (2023)

### Hurricane Dorian DR-4468-FL (2019)

### Future Threat: Hurricane

Utilizing a Debris Management Plan adopted by **Hollywood**, DebrisTech proposes to implement its decades of expertise to assist the Client through all phases of a natural disaster, in this case a theoretical Category 3 Storm.

**PHASE 1: PREPARED READINESS** (Pre-Event to Incident)

**PHASE 2: IMMEDIATE RESPONSE** (Day 0 to Response End)

**PHASE 3: SUSTAINED RESPONSE** (72 hrs to Debris Operations End)

**PHASE 4: DEBRIS OPERATIONS CLOSEOUT AND FINANCIAL RECOVERY**

# TIMELINE PHASES

A Gantt chart titled 'TIMELINE PHASES' showing the duration of various disaster response phases. A vertical orange line with a circular icon at the top marks the start of the incident at the beginning of the '0-72 hrs' column. The phases and their durations are as follows:

Disaster Phases	Pre-Event to Incident	0-72 hrs	72 hrs to Debris Operations End	Post Debris Operations
<b>PREPARED READINESS</b>	Dark blue bar spanning the entire 'Pre-Event to Incident' period.			
<b>IMMEDIATE RESPONSE</b>		Dark blue bar spanning the entire '0-72 hrs' period.		
<b>SUSTAINED RESPONSE</b>			Dark blue bar spanning the entire '72 hrs to Debris Operations End' period.	
<b>DEBRIS OPERATIONS CLOSEOUT AND FINANCIAL RECOVERY</b>				Dark blue bar spanning the entire 'Post Debris Operations' period.

## PREPARED READINESS (Pre-Event to Incident)

### Normal Operations

-  Maintain pre-event contract packets
-  Logistics team maintains debris monitoring support equipment
-  Administration team monitors Federal/State/Local guidelines to ensure regulatory changes are incorporated in debris monitoring processes and procedures

### Elevated Threat

-  DebrisTech notifies key personnel to be prepared to deploy within 24 hours of activation
-  Closely monitor potential area of impact and type of potential event

### Credible Threat

-  Contact Client point of contact informing them that DebrisTech is prepared to deploy if needed
-  Mobilize Project Management Team to safe location that is near the potential area of impact
-  Contact previously hired monitors who live in the impacted and surrounding areas and placing on stand-by

## TIMELINE PHASES

**DEBRISTECH**  
QA/QC

### **PREPARED READINESS Quality Assurance/Quality Control**

Starting well before any event occurs, DebrisTech's Administrative Team stays engaged with policy makers by attending trainings at conferences and by being active members in organizations such as Disaster Recovery Coalition of America (DRCA). DebrisTech stays ahead of all policy changes through these engagements.

DebrisTech's Administrative Team is available to meet with Clients in-person or virtually for pre-season training events to ensure the Client's Emergency Management Team is prepared for potential disasters.

### **IMMEDIATE RESPONSE** (Day 0 to Debris Operations End)

#### **Immediate Response Team Arrives** – First 24 to 48 hrs (depending on level of impact)

Project Management Team to perform administrative tasks:

- Notice to proceed
- Consulting on emergency procurement (if needed)
- Consult on Client's force account debris operations to ensure compliance with reimbursement requirements

Operations Team:

- Set up Mobile Command Unit
- Activate pre-hired monitors to area of response
- Monitor first-push road clearing debris operations (if needed)

#### **Project Startup** – 48 hrs to 72 hrs

Project Management assists/consults with Client for:

- Estimating debris quantities
- Identifying areas of impact
- Debris Management Site activation/authorization
- Coordinating with Debris Removal Contractors to determine staffing needs

## TIMELINE PHASES

### Operations Team:

- Advertising for local hiring
- Training new hires
- Certifying truck capacity, placarding trucks, and registering trucks in ADMS
- Ensure debris management site is compliant with Local/State/Federal regulations
- Begin monitoring right-of-way debris removal operations

**DEBRISTECH**  
QA/QC

### **IMMEDIATE RESPONSE** Quality Assurance/Quality Control

*DebrisTech's ADMS system includes QA/QC in each process step. This reduces the potential for human error in any step that can rely on automation. There are many processes that cannot be automated and allowing team members to focus exclusively on these steps increases efficiency.*

*DebrisTech's Truck Certification Software was custom designed to allow truck certifications to be quickly measured, data entered, volumes calculated and placards affixed to each truck. Calculations are performed within the system which removes the possibility of calculation errors. Trucks are randomly re-certified throughout operations. DebrisTech's ADMS system will not allow for new trucks to be brought into operations without the truck certification process.*

*DebrisTech deploys **DT360** vehicles to every job to capture a visual baseline of the impacted area. This footage is captured exclusively for QA/QC purposes and can be referenced for a variety of uses.*

### **SUSTAINED RESPONSE** (72 hrs to Response End)

#### **Project Management**

Ensures daily debris reports are received by client representatives and contracted debris removal contractor management

Assists with expedited project worksheet development (if needed)

Ensures number of debris monitors is appropriate to the number of debris trucks, tree crews, and private property debris removal (PPDR) teams

## TIMELINE PHASES

Coordinates with Client and Debris Removal Contractors on different potential debris operations:

- ROW Debris
- Leaner/Hanger/Stump removal
- Private Roads ROW Debris – Non-gated and open to public
- Private Roads ROW Debris – Gated, Restricted Access, or infrequently used road.
- PPDR
- Waterway debris removal

Ensures accurate and timely invoices are produced and submitted to Client representative

### Operations Team

Ensures safety compliance through daily safety briefing

Maintains operational control of debris monitoring by:

- Ensuring monitors are knowledgeable of debris regulation and guidance
- Managing daily schedules to prevent burn-out
- Clearly communicating operational changes to all debris monitors
- Ensures quality of debris tickets through daily ticket reviews

Communicates daily activities to Project Management

**DEBRISTECH**  
QA/QC

### **SUSTAINED RESPONSE** Quality Assurance/Quality Control

*DebrisTech iPads capture location by GPS and correlate the GPS location to the address, eliminating the need for monitors to manually type in this data. Images are taken of every debris load at pickup, entry and exit of Debris Management Sites to ensure eligibility. Images are captured of every hazardous limb, hazardous tree, along with measurements to ensure accuracy for invoicing and reimbursement. Project Managers review load tickets in real-time to provide immediate feedback to field monitors which can include field monitors having to recapture images.*

*Because DebrisTech maintains real-time ticket reviews, this allows every debris ticket to be reconciled at the close of business daily. DebrisTech Project Managers reconcile every ticket with Debris Removal Contractors prior to the Daily Reports going out each evening. Daily reconciliation identifies potential reimbursement issues before they become a costly error.*

## TIMELINE PHASES

**DEBRISTECH**  
QA/QC

### **IMMEDIATE RESPONSE Quality Assurance/Quality Control (continued)**

*DebrisTech's Administrative Team reviews Debris Removal invoices and provides recommended payment to each Client. Since data is reconciled daily accurate invoices are developed in a timely manner.*

## **DEBRIS OPERATIONS CLOSEOUT AND FINANCIAL RECOVERY**

### **Project Management**

-  Debris Management Site closeout and reclamation
-  Assist client with after-action-reports
-  Maintain administrative support for Project Worksheet development, obligation, payment, and closeout

**DEBRISTECH**  
QA/QC

### **DEBRIS OPERATIONS CLOSEOUT AND FINANCIAL RECOVERY Quality Assurance/Quality Control**

*DebrisTech field operations end when debris operations conclude but DebrisTech's Administrative Team stays in close contact with every Client through every step of the reimbursement process. DebrisTech also performs project After Action Reviews with each Client to ensure a continual improvement of processes and procedures.*

## AUTOMATED DEBRIS MANAGEMENT SYSTEM

The proprietary DebrisTech ADMS offers real-time access to all aspects of debris removal operations via the DebrisTech database. Debris removal monitors, equipped with our tracking devices, maintain a bulletproof digital record from cradle to grave. DebrisTech's ADMS data enables the debris management team to monitor the whereabouts and progress of debris removal crews, keep tabs on the type and quantity of collected debris, and thoroughly document loading and disposal details, including location, time, date, contractor, personnel, and equipment utilized. Furthermore, DebrisTech's system can grant agencies like FEMA or the Inspector General immediate access to this information. This access enables auditors to initiate their tasks promptly, leading to *faster reimbursement and recovery processes*.

DebrisTech has decades of experience monitoring debris generated from a variety of events that span the United States, its territories, and FEMA regions. Through this wealth of experience, DebrisTech has developed and maintains a **wide range of reporting options**. Clients will receive debris reports daily (or at any specified interval) that are generated directly from DebrisTech's proprietary ADMS software.

**At NO additional cost**, DebrisTech will customize reports to fit the needs of Clients. Report examples included in this response are some of the industry-leading reports provided by DebrisTech. **DebrisTech welcomes the opportunity to share all of our reporting capabilities with potential Clients, which is best accomplished with an in-person presentation.**

# SAMPLE REPORTS

Our Dashboard gives the Client an easily accessible overview of the overall project's status and major statistics. This innovative map is interactive, allowing the Client able to zoom in, click on each individual dot and view the details of that E-Ticket. The color-coding for this **real-time data** is:

- Green Dots** - Vegetative Debris
- Yellow Dots** - Hangers
- Red Dots** - Leaners

Up-to-date totals of total CY of debris hauled and tree hazards removed

Active trucks hauling debris and removing hangers/leaners on this particular day

Daily ticket totals created by DebrisTech monitors

# REAL-TIME DATA

## Real-Time Data

The DebrisTech Automated Debris Management System provides real time access to all aspects of debris removal operations through the DebrisTech Central Information Database. Data is fed to the Central Information Database in real time by Debris Removal Monitors with DebrisTech devices. Authorized users have access to many different reports summarizing daily, weekly, or monthly activity by truck number, subcontractor, Right of Entry number, etc.

This allows the debris management team to track the location and progress of debris removal crews, track the type and quantity of debris being collected, as well as fully document the loading and disposal locations, time, date, contractor, personnel and equipment used. The real time system eliminates the need for a large administrative staff to manually enter paper tickets.

## Scaleable

Because DebrisTech is standardized on Apple's iPads as the basis for its field unit and has partnered with national cellular providers, ramping up to hundreds of units can be done in a brief period. DebrisTech has created a customization system that can transform a best of class consumer-grade tablet to a ruggedized Debris Removal Monitoring Device in minutes — utilizing the iPad's and AppleTV's mirroring feature. The

# SCALABILITY

Mobile Command and Communications Center's outdoor video screen, DebrisTech's first responders, can train large groups of locally hired monitors at any location. Because of the iPad's inherently user-friendly and straightforward design, a typical training class usually lasts less than 2 hours. In a typical deployment, DebrisTech's first responders arrive and assess the severity of the event and determine how many support personnel are required to deploy and fully support the system.

Once the deployment begins, a new server instance of the DebrisTech Debris Management Database System is created and replicated at two or more locations. In the case of this contract, a third replication is set up for government use. One server instance is designated as the primary server, and field devices submit their data to it through a secure channel over a common carrier. The other servers are updated within minutes (usually seconds) and contain an exact copy of the records submitted by the field devices. One of the secondary servers is designated as a failover server should the primary server fail, or be inaccessible due to a regional communications outage. A redundant primary fiber loop serves DebrisTech's primary server location, and its secondary and tertiary servers are geographically remote and served by different ISPs. Upon completion of a mission, a copy of all data collected is delivered to the Client in Microsoft Excel and PDF format. DebrisTech is capable of meeting the daily reporting desired by the Client. The data can also remain accessible through the DebrisTech Debris Management Database for any period as required by the contract. DebrisTech currently maintains a minimum of 1000 devices.

## Paper Tickets Not Necessary

The DebrisTech ADMS is modeled after a proven debris monitoring method that utilized a combination of handwritten paper tickets, electronic databases, and a Geographic Information System (GIS). The DebrisTech system follows this same model but replaces the handwritten tickets with real-time data collection devices. Paper receipts are still available but are no longer the primary record. DebrisTech handheld devices and software add a new level of documentation and security features. The built-in automated fraud detection and audit tools significantly reduce the potential for fraudulent activities that might result in costly de-obligations.

The system can also provide real-time access to agencies, such as FEMA or the Inspector General, so that auditors can begin their task early, rather than months or years later.

# GIS FEATURES

The DebrisTech ADMS provides real-time access to all aspects of debris removal operations through the DebrisTech Central Information Database. Data is fed to the Central Information Database in real-time by Debris Removal Monitors with DebrisTech devices. Authorized users have access to many different reports summarizing daily, weekly, or monthly activity by truck number, subcontractor, Right of Entry number, and other required documentation. This allows the debris management team to track the location and progress of debris removal crews, track the type and quantity of debris being collected, as well as fully document the loading and disposal locations, time, date, contractor, personnel, and equipment used. The real-time system eliminates the need for a large administrative staff to enter paper tickets manually.

## GIS Compatible Geo-Fencing

The DebrisTech System also has interactive mapping features that allow authorized users to view the exact pickup and disposal location for each debris ticket in real-time. Once GIS boundaries are uploaded, the ADMS denies debris ticket acceptance if the contractor loads outside of the prescribed work zone. The ADMS assigns loads to certain districts of the clients maintained territories, such as city council districts or certain private communities.

In the example below, Jackson County, FL is eligible for debris pickup while the individual cities within the County are excluded. Through DebrisTech's GIS capabilities, debris monitors would be unable to produce a load ticket within the excluded entities or outside of the Jackson County limits.

**Ticket: 001470089**

Every load ticket created through DebrisTech’s ADMS has detailed information captured, including load, measurement and disposal information, allowing the Client to track every debris load in real-time from cradle-to-grave with pinpoint accuracy.

**Administration View**

In the desktop platform, clicking on the load’s truck icon from the debris ticket list displays the pickup and disposal point for a specific load on a map. Clicking on the Truck icon in the header displays all loads in the current filter on a map. This feature is especially useful when trying to determine where a specific truck or subcontractor is working or has worked, or simply to see where debris removal operations are taking place in real-time. These are but a few of the extensive Geographical Information System (GIS) capabilities present in DebrisTech’s ADMS system.

# VEHICLE REGISTRATION

## Vehicle Registration

Each vehicle registration identifies the mission (contract number) and a responsible governmental entity. Each registration record permanently ties to the bar code that is affixed to the truck body or trailer body, supplying unique identification data for contractor vehicles and equipment. Standard forms of measure (e.g. feet and inches) records the vehicle volume capacity utilizing industry-standard equations in each registration record created. Optionally, each driver of each truck may be issued a unique barcoded DebrisTech ID that ties the driver to the load and haul vehicle. Each member of the certification team is issued a unique barcoded ID that is scanned and becomes part of the certification registration form. The member certifying the vehicle must also sign the electronic form, using the signature capture feature. The DebrisTech ADMS automatically rejects vehicles that are not certified and associated with the current event and responsible government entity.

Vehicles that need recertification (obscured bar code placards, changes in sideboards, a spot check of capacities for random audits, etc.) can be compared electronically and automatically to the audit tables and other CQC audit records of previous certifications and registrations.

Each monitor is also issued a unique identification badge that contains the employee identification barcode and Project ID barcode. Like the other barcodes, they are used to easily mark the ticket with the identity of the monitor or inspector that collects and reviews the data. Each ticket has its barcode scanned using specially configured iPads. Without a physical ticket, no electronic tickets can be created. This authentication is the first of a three-factor ticket authentication system. The uniquely configured iPad is the second factor. The apps used for collecting data are registered individually to unique serialized iPad IDs and cannot function on unauthorized devices. These iPads, in most cases, are issued to individuals. Still, a third factor, a real signature by the monitor or inspector is required at each data collection point through a built-in signature capture feature of the iPad. This factor reminds the submitter that they are personally responsible for the accuracy of the data submitted.

DebrisTech's **DT360** is a cutting edge innovation designed to assist the Client with additional documentation for the FEMA reimbursement process. DebrisTech has the ability to document 360 degrees of every mile of right-of-way within a Client's area of maintained responsibility. This added documentation is recommended as FEMA's guidance recently changed on September 16, 2022 regarding documentation requirements for hazardous trees and limbs. FEMA now *"requires documentation supporting the specifics of the immediate threat with the location and photograph or video documentation"*.

Costs associated with hazardous tree and limb removal are subject to multiple levels of FEMA review. Documentation is scrutinized and questioned tickets often are removed from project totals. In some cases, the questioned tickets are added back only after a lengthy appeal process. The **DT360** footage is supplemental documentation used in a case-by-case scenario, to help ensure accurate project obligation. [Click this link](#) or scan the QR code to see sample **DT360** footage.

# MOBILE CAPACITY

Since our founding in 2010, DebrisTech, LLC is solely focused on providing its clients with a personalized and professional debris monitoring solution with hundreds of full-time team members.

Our state-of-the-art mobile offices allow us to respond with full force to any Client's need across the country. These mobile offices can be deployed immediately and are fully functional to meet the needs of the Client. Our primary office is located in Picayune, MS, but our mobile command trailers allow us to fully deploy anywhere within the United States.

# DEPLOYABLE EQUIPMENT

---

DebrisTech, LLC is solely focused on providing its clients across the United States with a personalized and professional debris monitoring solution utilizing the following resources:

## **Mobile Command Units**

DebrisTech's multiple state-of-the-art mobile command offices are deployed immediately and are fully functional to meet the needs of the Client. These units are equipped with solar panels, generators, water, Starlinks, restrooms, sleeping quarters, printers, computers, and stocked with pre-printed tickets, tags, and truck placards.

## **Mobile Fuel and Water Storage Units**

With mobile fuel trailers and water storage units, DebrisTech has the capacity to remain completely self-sufficient for the duration of the project to ensure continuity of service to the Client.

## **Staffing**

DebrisTech has partnered with local resources, as well as a W/MBE staffing company, to provide employees for the Client's activation. In addition to the local hires, DebrisTech has proven it can activate more than 500+ employees on a single project.

## **Drones and Cameras**

DebrisTech has cutting edge technology and offers drones and 360° cameras to document road conditions, maintenance, debris estimates, close-out, and other needs of the Client. With the 360 camera, DebrisTech can build a web-based street viewer and share a feature service with the Client. DebrisTech captures and maps all data in real-time and hosts in an industry standard platform. A GIS team will also be dedicated to the Client's project.

## **Equipment, Software, and Supplies**

All equipment, software, and supplies are owned and maintained by the company. DebrisTech keeps 1000+ iPads in stock and ready to deploy in travel-ready cases. The company has an agreement with Apple Business which enables new devices to be shipped within 2 days. Each device comes ready to be deployed with its own designated data plan on AT&T or Verizon Wireless. All tickets and tags are pre-printed and created in-house with an excess of 100,000+ in stock.

## **Company Fleet**

DebrisTech owns a fleet of 4x4 vehicles ready to deploy and assist the Client, if activated. Each vehicle is equipped with a Starlink and supply cases to meet the needs of any activation.

Since its founding in 2010, DebrisTech has never failed to provide a sufficient and continuous workforce per contract specifications. DebrisTech is prepared to deploy as many resources as needed to meet the demand of any project required by the Client.

# COMMENDATION LETTER

*City of Wynne*

206 S. Falls Blvd  
Wynne, Arkansas 72396

JENNIFER HOBBS, MAYOR  
jhobbs@cityofwynne.com

(870)238-0027  
(870)208-1111 fax

April 1, 2024

To Whom It May Concern,

Our city, Wynne, Arkansas, experienced an EF3 rated tornado on March 31, 2023, causing widespread devastation and resulting in the loss of nearly 200 homes and businesses.

Shortly after the tornado hit, I was faced with selecting a debris monitoring company. I chose to work with Debris Tech, a debris removal monitoring company based in Picayune, MS. Debris Tech worked hand-in-hand with my team and our debris removal contractor. The project manager and team they sent were impeccable and I could not have chosen a better company to partner with.

During the term of their contract, Debris Tech exceeded expectations. Their willingness to educate my team on the debris monitoring process, and their ability to get the job done in a swift and efficient manner places them head and shoulders above other contractors in the business. They were flexible and attuned to the needs of the city, willingly adjusting the plan to appropriately fit the demand, and potentially savings our city thousands of dollars.

I would not wish a tragedy like the one we experienced on anyone, but having a partner like Debris Tech has made the clean-up phase run significantly smoother than I could have ever expected. They were a vital piece of the puzzle, and we would not have been successful without them.

I am happy to answer any questions you may have; I can be reached via telephone at 870-238-0027 or via email at [jhobbs@cityofwynne.com](mailto:jhobbs@cityofwynne.com).

Sincerely,

Jennifer Hobbs  
Mayor, Wynne, Ar

## City of *Neptune Beach*

Andrew E. Hyatt  
City Manager

October 23, 2018

To Whom It May Concern:

Re: Debris Tech

The City of Neptune Beach appreciates the efforts put forth by Debris Tech in assisting our city with the clean-up effort in the aftermath of Hurricane Irma. It is with great pleasure that I am writing this letter of recommendation on behalf of the residents of Neptune Beach, Florida.

The entire staff of Debris Tech was professional and trained properly in the reporting techniques required by FEMA. The Debris Tech staff worked closely with our debris removal team making the removal and reporting process efficient all the way to the complete removal of all storm debris. The data provided was presented in a manner that made it easy to reconcile invoices.

We had a very positive experience with Debris Tech and we highly recommend their services. Please let me know if you have any questions regarding the services Debris Tech provided the City of Neptune Beach.

Respectfully,

Leon Smith  
Director of Public Works

116 First Street • Neptune Beach, Florida 32266-6140

DEPARTMENT OF PUBLIC WORKS

October 22, 2018

Mr. Brooks Wallace, P. E.  
Principal  
DebrisTech, LLC (ARX Disaster Management, Inc)  
925 Goodyear Blvd.  
Picayune, MS 39466

Subject: Letter of Recommendation

I am very pleased to say that DebrisTech (Formerly ARX Disaster Management, Inc.) is currently under a five (5) year continuing service contract with the City of Jacksonville Beach to provide debris monitoring services during declared emergencies.

In 2016 and 2017 DebrisTech provided debris monitoring services resulting from Hurricanes Matthew & Irma respectively. Members of their staff were very knowledgeable and up to date with all of the FEMA guidelines and regulations, which helped facilitate both of our claims to FEMA. Whenever we had questions, DebrisTech's staff had the answers. DebrisTech's staff worked very closely with our Debris Recovery Contractor and our in-house cleanup crews to make sure all of the debris and related expenses were accounted for and were able to be retrieved after the cleanup was completed. As a result of their efforts, our claims to FEMA went through without a hitch.

Prior to the issuance of DebrisTech's contract, the City of Jacksonville Beach performed debris monitoring with its in house personnel and it turned out to be a total farce. Records were damaged, lost or forgotten and I am positive that the City of Jacksonville never came close to recovering the amount of money that they could have, if they would have had a contractor like DebrisTech to perform the necessary paperwork.

In closing, I would like to state that it has been a pleasure working with all of the members of DebrisTech and I look forward to continue to work with such a well ran organization.

Sincerely,  
*Dennis R. Dupries*
