

Exhibit A

WR#3269827

Work to be Performed:

Applicant shall:

- Install all conduit and concrete products based on the attached specifications and in the locations as indicated on the attached drawings.
- Install cable, transformers and switch pads including the primary and secondary cable terminations and connections. FPL will be responsible for energizing the new underground circuit(s) to the existing FPL electrical system.

A hand-drawn location sketch showing a rectangular area bounded by S.R. A-1-A (OCEAN DR) to the north, SHERMAN ST. to the east, and GORDON ST. to the south. The area is filled with diagonal hatching. A small rectangle within the hatched area is labeled 'WELL SITE'. A north arrow points upwards, and a scale bar is located at the bottom.
