Subject: FW: Dump agreement for Bergeron Sites

Hi Paul - The below and attached information is for the dump costs for the Bergeron TDMS. Christy Fink is the contact at Bergeron who does their contract stuff. I will work on getting total cost estimate for the BPO.

Subject: Dump agreement for Bergeron Sites

Karen,

Per our conversation please see the proposed agreement to bring vegetative debris to one of the Bergeron Sites for final haul. Please remember this is all based on us being able to get more per cubic yard from the curbside to haul the material this far.

Also please see the fully executed agreements from Oakland park and Davie.

Our sites are FDEP approved and have been used for disasters since Hurricane Wilma.

Please let me know if you have any questions

Respectfully,

Jason Otilige, Operations Manager
