Utilizing this system to remotely open locked doors and gain access to fortified areas dramatically increases Officer Safety. The addition of the camera system allows for the remote operation of the robot system within a high threat area. This again increases officer safety, while minimizing risk and/or injury to victims or innocent civilians within the threat area.

Members of the Hollywood SWAT Team have field tested this product on several occasions as well as researched local police departments that utilize this same product. Currently, the Hollywood Police Departments SWAT Team uses a RoboteX product, the Avatar II, purchased in 2013. We have had great success with this piece of equipment. The members of the Team are extremely familiar with its care, set-up, and operation. The batteries and chargers from our current Avatar II robot are interchangeable with the new Avatar III. The old Avatar II does not have the breaching capabilities that are such a valuable life safety enhancement available with the Avatar III. This robot is specifically designed to meet the needs and overall objectives of the Hollywood Police Department. Based on our personal observations and experience with the product, as well as positive reviews and recommendations by agencies such as the Broward Sheriff's Office; which has three of the robots; I am requesting to purchase the Avatar III Tactical Package Robot.

5. Please explain what process the Department/Office took to verify and/or identify this contract. The Department searched the GSA contract vendor lists for the vendor and product. The RoboteX Avatar III is distributed by AADVARK, an authorized GSA contract provider. All pricing is per GSA contract. GSA Contract number GS-07F-141DA

We currently own a sister product which has been successfully used operationally and in training for seven years. This product has been field tested and proven reliable. AADVARK is the only RoboteX United States distributor. All pricing is in-line with GSA pricing and contracts.
