General Obligation Bond Oversight Advisory Committee - Questions*

I am a lifelong resident of the City of Hollywood and am now raising my family in Hollywood. I am committed to ensuring our neighborhoods remain safe and appealing for people of all ages to live and grow. I want my children to grow up in a beautiful prosperous city and learn the importance of community involvement and see the impact of engaged citizens participating in local government.

I have been working for local government since I was 16 years old and have worked for the State of Florida, the Town of Davie, and most of my career has been with Broward County. I appreciate the amount of thought, time, and resources local governments put into different initiatives and projects. I am persistent and committed to my job and the many long term projects that I have seen take place and prepare for.

I am most interested in the Neighborhoods and Resiliency Initiative. I have seen the changes in traffic patterns and the changes in social responsibility that impact local roads and the neighborhoods serviced by them. Larger Department of Transportation projects and development have also impacted local traffic. During my family's street cleanup along 64th Ave., participation in Cub Scout Pack 412's street cleanup along 58th Ave. and during our evening dog walks, my family observes traffic conditions and distracted drivers throughout the city. I also work along the New River and have observed the impact of King Tides in Fort Lauderdale and have seen the reverse flow of tidal water along A1A on Hollywood Beach. I am interested in engineering and design that will enhance the resiliency of our coastal city and add to its aesthetic appeal and ecological functioning.

I have seen and appreciate the increase in the tax base and increased tourism that can maintain economic development. These revenues can be used to continue the trend and further increase prosperity for businesses the serve tourists and locals. I hope to see revenues applied throughout neighborhoods.

Please answer these four questions above. Why do you want to join the GO Bond Oversight Advisory Committee? 2. Explain how your personal and/or professional experiences will contribute to the meeting the goal(s) of the Board or City. 3. Which Bond interests you the most? Public Safety? 5. I do not think I can actually pin point a life experience that has motivated me to volunteer, I have always been a person who thinks its important to be heard, and a true believer that; if nothing happens, then nothing happens. So its important to get out and help, even if its for free.

Education Advisory Committee - Questions*

1. Although, Broward County has made strives to move more towards the cultural awareness portion of students' learning by incorporating the Social Emotional Learning (SEL) aspect to the District's curriculum, we still have a way to go. Cultural awareness is a challenge facing education. This is especially important with inner cities such as Hollywood, where the demographics of our Tier 1 schools are low achieving, and low income families who's schools are often limited on the resources or services needed to ensure quality education. On a political note, the challenges facing Education is pay. According to data recently done by the DOE, 3.2 million full-time public teachers (k-12) are earning less on average, in Inflation-adjusted dollars, than we did in 1990. This is one among hundreds of facts, statistics, and reasons that explain how teacher pay, the cutting of benefits across states and the slashing of pensions are causing a decrease in people who seek teaching as a profession. In fact, the amount of graduates who major in and enter the teaching profession has dropped 23% in the past years. Not to mention, we are losing amazing teachers everyday across the country because they can not support their families on a salary and benefits that is actually 1.8% less per week compared to the salaries of other professions that require the same credentials.

2. My vision for education in Hollywood is equity of resources, more attention paid to the social development of students, and higher paid teachers,

3. I believe the primary work of the committee is to take the pulse of the community and identify the needs of the schools and education in Hollywood, then brainstorm to address it.

4. The committee should decide what's most important by sending out surveys to schools or educational programs in the neighborhood to identify the main need when it comes to education.

2. As an activist, I am comfortable with working with elected officials and citizens to try to find common ground to address needs and concerns. Some of my current work responsibilities: Regularly report on progress of campaign deliverables and field activities, and lead the charge for overcoming obstacles to ensure goals and objectives are met. Track time, expenses, activities and progress towards goals regularly, meeting all deadlines established by the field director and managers.

3. I am interested in all bonds, but especially parks/open space and neighborhoods/resiliency.

4. I have no problem paying taxes if I feel the city is using the money wisely and if the public will be pleased on how the money has been spent. It is important to have a lot of public input every step of the way if it is public money. There should be continuous outreach to the public and opportunities for feedback. In listening to residents, they want a safe, quaint town full of the original character of Hollywood while improving roads and increasing our appeal to bring in quality businesses. Nothing is more frustrating than when the majority of the public wants one thing and the city does the other. There needs to be a focus on open communication in every stage of development. Obviously if tax money is spent wisely, there can be a huge return in quality of life and property values.

Please answer these four questions above. Why do you want to join the GO Bond Oversight Advisory Committee? 2. Explain how your personal and/or professional experiences will contribute to the meeting the goal(s) of the Board or City. 3. Which Bond interests you the most? Public Safety?  2. Yes, I have attended about 5 green team meetings.
 3. Because I've worked on ocean campaigns with Surfrider Broward and with Oceana, and volunteer in my community, I have been part of a huge network of people who I've learned from. I also know some of the concerns from the green team because I've attended several meetings. I have a knowledge of federal, state, and local environmental legislative issues. I travel to Tallahassee for Oceans and Coasts Day. I am passionate about reducing single use plastics and marine litter. I enjoy educating the public about environmental issues.
 4. Surfrider Foundation Broward Chapter and Oceana.
 5. Yes I can attend meetings.
 6. I would like to see the committee continue to be dedicated to protecting and enforcing our plastic/foam ordinances. I would like to see what recycling issues we can address, but also educate the public in reducing, refusing, and reusing. I would like to see our city set an example by reducing plastic and foam at city events and meetings. Citizens care about green spaces and trees, and we should listen to their suggestions. Signs and video PSA's could help educate the public about caring for our environment here in Hollywood.

What knowledge, skills, and abilities would you bring to the green team if appointed? 4. What other organizations, clubs, or associations are you involved in? 5. 1. Yes - I live in an LMI Neighborhood.

2. Safety, Superior Housing, Cultural Development, building the "local" feel of Hollywood Businesses to drive commerce into downtown and surrounding business areas.

3. I believe a healthy neighborhood is one in which residents are engaged with each other and the community at large. Residents are able to enjoy their home and surrounding areas in a safe, maintained and healthy manner. Residents of all ages should feel a sense of pride and a general responsibility for making their neighborhood flourish.

4. The CDAB should focus on the community as a whole and engage all residents, not a select few, to find true coalescence about issues and initiatives, and more importantly work together on common, focused and attainable goals. The CDAB should strive daily to engage residents and allow all Hollywood Neighborhoods to represent the best Florida has to offer in housing, programs and activities.

5. Simply I feel I bring a perspective from a newer resident, not burdened with "what was" and solely focused on what is and more importantly what can be. As a resident and business owner, I would bring a balance of both the resident and businesses. More over, I have a capacity to find commonalities and seek to unite otherwise polar viewpoints into actionable and achievable goals.

Please answer these five questions above. 1. Do you reside in a low and moderate income (LMI) neighborhood in Hollywood per the most recent US Census data? A Hollywood LMI Map is located at www.hollywoodfl.org on the Community and Economic Development webpage. 2. What Community Development issues do you believe are the most important to Hollywood? 3. General Obligation Bond Oversight Advisory Committee - Questions*

1. I feel the oversight of this program is of utmost importance. The long-term success of our city depends upon the reasonable, rational and budget conscious management of the program and associated projects and programs spawned.

2. I have decades of Corporate Management and Business Ownership experience that will enable me to be highly objective in my assessment and engagement with the various committees and programs. Further as both a business owner and resident, I will not just have a single focus. There is a balance between the residential and commerce aspects of growing our city. My life experience has enabled me to be visionary, collaborative and goal focused.

3. Neighborhoods & Resiliency

4. I have seen the quality of life improve over the past 5 years in Hollywood. There is still much to achieve, however. The quality of life throughout the city requires a united focus and shared effort between government, business and the residents. Engaged and committed residents are the key to ensuring a truly improved quality of life. Programs can be developed and funded, but without the commitment from the residents, the long-term success is not viable. Healthy neighborhoods are reflected in their residents sense of security and engagement. Healthy Neighborhoods will drive improvements, lower costs and improve the economic development through increased patronage from outside consumers, and a growing residential base. Ultimately, each of these will help drive a strong tax base, not through additional taxes or higher rates, but an overall increase resulting from the newly developed neighborhoods and commerce.

Please answer these four questions above. Why do you want to join the GO Bond Oversight Advisory Committee? 2. Explain how your personal and/or professional experiences will contribute to the meeting the goal(s) of the Board or City. 3. Which Bond interests you the most? Public Safety? 4) To create a team that has a vision for the future of the city of Hollywood.

5) I have grown up in Hollywood basically my whole life, I was raised in Cooper City which I think was part of Hollywood at one time. When my wife and I got married and it was time to buy a house I knew I wanted to move to east Hollywood and fix up a old property. I am sick of driving down federal highway and seeing old run down motels and drugs and violence. As a licensed general contractor specializing in commercial work I have seen how the cities works. A simple change of use will trigger possible parking lot work, drainage, and landscape work. I believe some of these obstacles actually hurt business and development growth instead of prompting them. I think the city of Hollywood can due better. I know change takes time and the things wrong in our city will take 5-10 years to correct. As I have become a little older (I'm 35) I feel like now I have enough knowledge to make a change and try and help my city become better.

I care about making our city a better place, happy to sit on any board or committee to get a start, thanks for considering me for this position

3) Honestly no idea, but I live in Hollywood Lakes and want to help my city change for the better.

4) As a builder I think the slick modern box type exterior elevation are boring and have no charm. I love the old style houses in Hollywood built in the 20's and 30's

5) Like riding my bike on the weekend and seeing the old properties that have managed to survive almost 100 years in the area. These houses were built well by craftsman who took pride in there work. Can we do something with the building on the cat 309 Arizona st? This building is awesome and is need of restoration but yet it is just sitting and rotting. Why is that?

3) I don't have much knowledge about the tax base. I would love to learn and make our city a better place by making taxes affordable but at the same time giving citizens the amnesties they want (parks, bike paths, beaches, schools, police, golf courses) so they move to Hollywood and pay taxes.

4) Arts park at young circle, new publix at the circle,

5) Comprehensive plan includes looking at all phases of development for a long term vision. Need to determine needs of the city, determine the plan, and then execute that plan.

3) Nobody but the building official, probably police or fire department are allowed also in event of emergency

4) I'm sure it could be, according to Florida Building code construction is allowed to commence as long as permits have been applied for and you have the approval of the building approval. You will be working at your own risk and your plans might never be approved and you are not allowed to work past the point of first inspection. Just because a permit was not pulled doesn't mean the work is deemed "unsafe". Permits are a big issue, the cities make them so difficult and expensive to obtain at times people are forced to work without permits.

5) Majority of unsafe structure issue are probably contained to low income housing (just guessing). As a licensed general contractor I feel I could be an asset to the unsafe structure board.
