Continuing Contract for Structural Engineering Services (PW 14-009)

Dear Evaluation Committee:

BCC Engineering, Inc. (BCC) is pleased to submit this Letter of Intent and Summary to provide the required professional structural engineering services for the above referenced request for qualifications (RFQ). As you will see in our response, we offer the City of Hollywood the most effective, efficient, and innovative team for this proposal.

BCC was incorporated in the State of Florida, founded in Miami-Dade County and has provided professional engineering services since 1994. We have offices located in Miami, Fort Lauderdale, Orlando and Tampa. This project would be overseen by our Fort Lauderdale location. We offer our clients the unique blend of personalized service with the resources and experience of a national firm. This combination has contributed to our success and continued growth.

We understand the requirements of a continuing services contract, having provided similar type services to the City of Miami, City of Miami Beach and Miami-Dade County Public Schools. Our firm is experienced in working on task orders issued simultaneously and providing the forensic investigations required to determine existing conditions. We also are accustomed to working in facilities that are occupied where care is taken to ensure minimal disruption to daily activities of staff, clients, customers or residents.

Thank you for your time and consideration. We look forward to working with you.

Sincerely,
BCC Engineering, Inc.

Daniel J. Raymat, PE
Principal-in-Charge

DJR/smg

12. NAME	13. ROLE IN THIS CONTRACT	14. YEARS EXPERIENCE	
		a. TOTAL	b. WITH CURRENT FIRM
Daniel Raymat, PE	Structural Engineer	14	10

15. FIRM NAME AND LOCATION (City and State)

BCC Engineering, Ft. Lauderdale, FL

16. EDUCATION (DEGREE AND SPECIALIZATION)

BSCE, Florida International University 2000

17. CURRENT PROFESSIONAL REGISTRATION (STATE AND DISCIPLINE)

Professional Engineer, 2005 / Florida # 63111

18. OTHER PROFESSIONAL QUALIFICATIONS (Publications, Organizations, Training, Awards, etc.)

19. RELEVANT PROJECTS

	(1) TITLE AND LOCATION (City and State)	(2) YEAR COMPLETED	
		PROFESSIONAL SERVICES	CONSTRUCTION (If applicable)
a.	Dadeland Mall Office Expansion and Remodeling Miami-Dade County, FL	2005	2006
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm Design Engineer for approx. 8000 S.F. of a two-story office expansion. Project included the demolition of the interior of the first floor offices, including a concrete mezzanine, and providing openings in the existing exterior walls. Project also included the addition of an elevator. Building structure consisted of a steel frame for both floors supported on exterior masonry bearing walls. The foundation consisted of spread footings. Project Role: Design Engineer		
b.	Structural Design of Fabric Awning Tri-County Area, FL	2006	2007
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm Engineer of Record for the structural design of numerous types (+20) of fabric covered awning structures for residences and businesses. The size of awnings varies from as small as 60 S.F. for residences to more than 4000 S.F. for a car dealership. Awning structures consist of freestanding structures or cantilevered structures attached to existing buildings. STAAD.Pro software was used to analyze the steel frame of the awnings and the Florida Building Code and ASCE were used for Design Criteria. Project Role: EOR		
c.	SR 112 Toll Plaza Modifications / Miami-Dade Expressway Authority Miami, FL	2005	2006
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm Engineer of Record for structural design associated with improvements to the SR 112 Mainline Toll Plaza near NW 27th Avenue. Improvements consist of reconfiguring the existing Toll Plaza to provide an additional manual booth and two dedicated AVI lanes. Services included the design and plans preparation of new gantry to support the AVI equipment, modifications to the existing toll plaza canopy and support details for new signage. Project Role: EOR		
d.	US1 Busway Extension – Segment II Miami, FL	2004	2004
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm Design Engineer for the design of bus shelter structures along a seven-mile extension of the South Dade Busways. Responsibilities included the design and plan preparation for two distinct types of bus shelter structures (MDT Prototype and Homestead shelters). The MDT prototype structure used built-up curved steel members cantilevered to support the roof canopy. In Homestead, the project aesthetic requirements called for a structure that resembled a historic Train Depot. Roof structures for the Homestead shelters were supported by a single column line on drilled shaft foundations. Roof structures were comprised of tubular steel sections. STAAD.Pro software was used to analyze the shelters and the Florida Building Code was used for Design Criteria including Hurricane wind loadings. Shelters were permitted through Miami-Dade County Building and Zoning. Project Role: Design Engineer		
e.	Weir Design for Deering Glade Rehydration Project Miami, FL	2004	2006
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm Engineer of Record for the design of a weir structure located on the Deering Estate, immediately adjacent to a historic rock bridge. The weir consisted of cast-in-place retaining wall with interchangeable wood panels to allow the owner to vary the amount of water impounded behind the structure. The weir was design for a maximum height of seven feet with an opening of six feet wide. The weir was designed to aesthetically blend in with its surrounding environment. Consideration of construction methods and equipment was required due to the lack of access to the weir location and to minimize the damage to the environment from construction activities. Project Role: Project Engineer		

E. RESUMES OF KEY PERSONNEL PROPOSED FOR THIS CONTRACT

BCC Engineering, Ft. Lauderdale, FL

16. EDUCATION (DEGREE AND SPECIALIZATION)

MBA, 1983, Cornell University / MS Civil Engineering, 1982, Cornell University / BS Civil Engineering, 1981, Cornell University

17. CURRENT PROFESSIONAL REGISTRATION (STATE AND DISCIPLINE)

Professional Engineer: Florida # 44423, 1991
Special Inspector: License # 1070, 1995

18. OTHER PROFESSIONAL QUALIFICATIONS (Publications, Organizations, Training, Awards, etc.)

American Society of Civil Engineers (ASCE)-Fellow, American Concrete Institute (ACI), Florida Engineering Society (FES). Florida Structural Engineers Association (FSEA), Professional Member of AISC, CRSI & PCI **Awards:** 2003 Engineer of the Year, ASCE Florida Section / 2002, 2012 Engineer of the Year, ASCE Miami-Dade Branch / 2002 Project of the Year, Westin Diplomat Resort, ASCE Florida Section / 2002 Project of the Year, Westin Diplomat Resort, ASCE Broward Branch

19. RELEVANT PROJECTS

	(1) TITLE AND LOCATION (City and State)	(2) YEAR COMPLETED	
		PROFESSIONAL SERVICES	CONSTRUCTION (If applicable)
a.	Miami Women's Club Seawall & Baywalk Miami-Dade County, FL	2011	2014
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm Task Work Order from Miscellaneous Civil Engineering Services Contract. The project consists of Seawall improvements and the new construction of a proposed walkway along the back of the Miami Women's Club, 1737 N Bayshore Drive. Project Role: Structural Project Manager, responsible for design of walkway behind Miami Women's Club property, on Biscayne Bay connecting Doubletree Hotel and Margaret Pace Park. Walkway consists of the elevated concrete structure supported by piles driven into the floor of the bay. Existing seawall is being modified to accommodate walkway.		
b.	Miami Art Central Miami-Dade County, FL	2013	2014
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm Served as Project Manager for modifications to a 36,000 SF storage and administration building. Brought 1945 building, altered without permits in 2004, into compliance with Building Code. Reviewed original and alteration drawings. Performed field investigations to obtain missing information. Performed analysis to verify adequacy of completed alterations. Designed retrofits where alterations did not comply with Building Code. Role: Project Manager		
c.	San Marco Island and Biscayne Island – Task Order through a Continuing Services Contract, Miami, FL	2010	2013
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm Task Work Order for a project that project involved roadway reconstruction and the drainage improvements. In order to implement the drainage improvements, an underground pump station and valve box was constructed. Due to the high water table level, the underground structures were submerged and required a system of tiedowns to counteract the buoyancy forces. Primary Role: Structural Project Manager responsible for the design of the pump station structure, valve box structure and generator/fuel tank foundation. Coordinated structure with utilities and pumping equipment.		
d.	Zoo Miami (Formerly Miami Metrozoo) – Amazon & Beyond Exhibit Miami, FL	2007	2008
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input type="checkbox"/> Check if project performed with current firm The project was comprised twelve low rise buildings. These buildings included viewing pavilions, animal holding facilities, food and gift pavilion and meeting space. The project also included site structures such as pedestrian bridges, retaining walls and artificial rockwork. Role: Project Manger		
e.	Devon Seafood Miami-Dade County, FL	2011	2013
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm Served as Project Manager for restaurant located in The Palms at Town & Country shopping mall. One story building consists of steel roof deck supported by structural steel joists and beams. Roof system is supported by structural steel tube columns and CMU bearing walls. Building includes glulam wood canopies. Role: Project Manager

	(1) TITLE AND LOCATION (City and State)	(2) YEAR COMPLETED	
		PROFESSIONAL SERVICES	CONSTRUCTION (If applicable)
a.	Miami Art Central Miami-Dade County, FL	2011	2014
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm Modified a 36,000 SF storage and administration building. Brought 1945 building, altered without permits in 2004, into compliance with Building Code. Reviewed original and alteration drawings. Performed field investigations to obtain missing information. Performed analysis to verify adequacy of completed alterations. Designed retrofits where alterations did not comply with Building Code. Role: Project Engineer		
b.	Shoppes at Ocean Drive, Miami International Airport, Miami, FL	2009	2012
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm Project Engineer responsible for design and preparation of the construction documents for new retail build out at Miami International Airport's North Terminal. Project used cold-formed stud design and structural steel. Also required analysis of existing floor framing for new loads. Role: Project Engineer		
c.	Downtown Doral Vista Blanca Tower & Vista Blanca Town Homes, Miami, Florida	2008	N/A
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input type="checkbox"/> Check if project performed with current firm 451,000 square foot residential tower complex including 152,000 square foot, 458 space parking garage. Project Engineer responsible for the design and preparation of construction documents for 19, 15, 11 &, 5 story reinforced concrete buildings supported on deep and shallow foundations. Shear walls required $f'_c=7000$ psi due to high shear. Special detailing was required for expansion joint. Provided construction administration services that included responding to information. Primary Role: Project Engineer		
d.	Village at Doral Commercial (Bldg. L-1), Miami, Florida	2008	2010
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input type="checkbox"/> Check if project performed with current firm A 200,000 square foot retail building with 334 space parking garage. Project Engineer responsible for the design and construction documents for 5 story reinforced concrete building supported on shallow foundations. Provided analysis and design for the gravity and lateral system. Structural design incorporated elevator and stairs cores as shear walls. Primary Role: Project Engineer		
e.	Devon Seafood Miami-Dade County, FL	2011	2013
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm Restaurant located in The Palms at Town & Country shopping mall. One story building consists of steel roof deck supported by structural steel joists and beams. Roof system is supported by structural steel tube columns and CMU bearing walls. Building includes glulam wood canopies. Role: Project Engineer

BCC Engineering, Ft. Lauderdale, FL

16. EDUCATION (DEGREE AND SPECIALIZATION)

BS Architectural Engineering, 1996
University of Miami

17. CURRENT PROFESSIONAL REGISTRATION (STATE AND DISCIPLINE)

Professional Engineer, 2002 Florida # 58611

18. OTHER PROFESSIONAL QUALIFICATIONS (Publications, Organizations, Training, Awards, etc.)

19. RELEVANT PROJECTS

	(1) TITLE AND LOCATION (City and State)	(2) YEAR COMPLETED	
		PROFESSIONAL SERVICES	CONSTRUCTION (If applicable)
a.	Circle B Bar Reserve Boardwalk Polk County, FL (3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input type="checkbox"/> Check if project performed with current firm The project structural design involved a pressure-treated lumber deck and stringer system supported by 10" diameter treated timber piling. The rail system was comprised of 4" x 4" posts and horizontal rails. Due to the sensitivity of the environment, the 10" piling was encased in grout-filled HDPE casing in order to prevent leaching of the wood preservatives into the surrounding water. The design and layout were performed in accordance with Florida Building Code and National Design Standards and the boardwalk ramps, decking, and rails were constructed according to ADA criteria. Mr. Forand provided QC review of the boardwalk plans. Role: Project Engineer	2008	2008
b.	Flynn Dock Deerfield Beach, FL (3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input type="checkbox"/> Check if project performed with current firm Engineer of Record for an "environmentally friendly" dock adjacent to the Intracoastal Waterway. This project involved a special-design dock layout and orientation in order to avoid impact to several endangered sea grass beds in an environmentally sensitive area to move the project forward with minimal permitting and mitigation efforts. Dock specifications included a grated walking surface in order to minimize shading of resources, decorative lighting, and considerations such as a golf cart live load and 10,000 lb boat lift. Role: EOR	2007	2007
c.	El Rio Fishing Pier Boca Raton, FL (3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input type="checkbox"/> Check if project performed with current firm Prepared design plans and specifications for a concrete pile-supported wooden recreational deck included in the El Rio Canal Shared Use Trail project. Role: Project Engineer	2006	2006
d.	St. Johns Shipbuilding Shipyard Improvements Putnam County, FL (3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input type="checkbox"/> Check if project performed with current firm Engineer of Record for over 2,600 feet of anchored steel sheet pile bulkhead wall. The project required special design considerations in order to enable new construction directly adjacent to high-load launch rails while maintaining the operation of those rails as part of a fully functioning in-service shipyard. Post Design services included rapid-response support to the Contractor during construction and close coordination with Putnam County to keep construction on-track. Role: EOR	2008	2008
e.	Coconut Creek Casino Bulkhead Wall, Seminole Indian Tribe of Florida Broward County, FL (3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input type="checkbox"/> Check if project performed with current firm Engineer of Record for a cantilevered steel sheet pile bulkhead wall, decorative planter cap, and cast-in-place retaining wall structures. Checked the design for the bulkhead, which included a cast-in-place panel required to accommodate a 36" drainage pipe, and checked the retaining wall design and detailing. The project also included Post Design services during construction. After the Contractor failed to install sheet piling to the required depths, an innovative rapid-response redesign was performed to keep the project on schedule. Design was in accordance with the AASHTO Standard Specifications and the FDOT Structural Design Guidelines. Role: EOR	2006	2006

	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input type="checkbox"/> Check if project performed with current firm The project located in Hallandale Beach, involved the construction of 3 new building, along with a playground area. The existing utilities had to be re-designed to accommodate the new improvements. Potable water, fire, sanitary sewer and storm drainage improvements were provided. Project Role: Project Manager		
b.	(1) TITLE AND LOCATION (City and State) Garfield Garage, Hollywood, FL	(2) YEAR COMPLETED	
		PROFESSIONAL SERVICES 2003	CONSTRUCTION (If applicable) 2005
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input type="checkbox"/> Check if project performed with current firm The project located in The City of Hollywood, involved the design and construction of a 5 story garage and rec. building. Potable water, sanitary sewer and a storm drainage well as well as fire system was provided. Project Role: Project Manager		
c.	(1) TITLE AND LOCATION (City and State) Equipco Site Improvements Project Miami, Florida	(2) YEAR COMPLETED	
		PROFESSIONAL SERVICES 2010	CONSTRUCTION (If applicable) 2011
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm Assistant Project Engineer responsible for the design, drafting and utility coordination and for the development of construction and building plans. The project consisted on the design of a new parking area along NW 74th Street. Complete analysis of the existing drainage system, preparation of plans to relocate the existing lift station valve box and electrical panel outside of the dedicated right-of way line for NW 74th Street. Coordinate all permitting through the Miami-Dade County Water and Sewer Department (WASD), Department of Environmental Resources Management (DERM) and City of Medley Public Works Department. In addition, extensive utility coordination for the new location of the sanitary lift station components, the drainage structures proposed by the County Project along NW 74th Street and water lines that service the property. Project Role: Designer, Drafter and Inspector.		
d.	(1) TITLE AND LOCATION (City and State) 4041 Warehouse Recertification Miami, Florida	(2) YEAR COMPLETED	
		PROFESSIONAL SERVICES 2009	CONSTRUCTION (If applicable) 2010
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm Assistant Project Engineer responsible for the design, drafting and utility coordination and for the development of construction and building plans. The project involved a 6" fire line to be connected to an existing 8" water main that was owned by the Miami-Dade Water and Sewer Department to provide fire protection to the existing building. In addition, the project included installation of backflow preventer devices to provide fire service to the existing building. All connections required utility coordination to avoid conflicts with existing infrastructure. Project Role: Designer, Drafter and Inspector.		
e.	(1) TITLE AND LOCATION (City and State) Bob Graham Education Center Miami-Dade County, FL	(2) YEAR COMPLETED	
		PROFESSIONAL SERVICES 2010	CONSTRUCTION (If applicable) Est. 2014
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm The project consisted of a 2 story building for classrooms and office space on the ground floor. Work included 480 LF of exfiltration trench, with a modification to an existing weir that overflows to a DERM canal, site grading, fire and domestic water services, a new parking lot, and a sanitary sewer extension. The project also included obtaining permits from the Town of Miami Lakes, Miami-Dade County Public School, DERM and modification to an Environmental Resource Permit (ERP) from the South Florida Water Management District. Project Role: Designer, Drafter and Inspector

Miami Art Central

Modified 42,000 sq. ft. storage and administration building for company supplying art for exhibitions. Brought 1945 building, altered without permits in 2004, into compliance with Building Code. Reviewed original and alteration drawings. Performed field investigations to obtain missing information. Performed analysis to verify adequacy of completed alterations. Established load test criteria for floor slab with unknown reinforcing. Designed retrofits where alterations did not comply with Building Code.

Retrofits include column jackets at roll-up door, strengthening of exterior structural steel stair, strengthening of rooftop equipment supports and replacement of parking lot screen walls and light poles.

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT *(Include scope, size, and cost)*

San Marco Island Drainage Improvements

BCC Engineering was selected to provide General Engineering Services for the City of Miami. San Marco Island was one of the assignments completed under this contract.

Scope of Services: Roadway and Drainage improvements, including new pump station and structural modification of existing seawall.

Analyze different alternative drainage designs/systems that can be used to resolve flooding issues associated with San Marcos Island. Once analysis was completed and solution was selected, designed pump station consisting of two cast-in-place concrete below grade chambers capable of resisting hydrostatic uplift and supporting traffic loads above. Structural design included detailed coordination with piping and equipment design

Professional Fees: \$290,000

Devon Seafood

Designed 7,800 sq. ft. restaurant located in The Palms at Town & Country shopping mall. One story building consists of steel roof deck supported by structural steel joists and beams. Roof system is supported by structural steel tube columns and CMU bearing walls. Building includes glulam wood canopies. Foundation system consists of spread footings.

Portions of building were supported on existing boardwalk structure adjacent to lake. Special provisions were required to avoid overloading existing structure.

Sadkin Community Center

Design of roof structure replacement for 7,000 square foot gymnasium in City of Lauderhill, built in approximately 1978. Original roof structure consisted of cementitious wood fiber deck supported by steel joists. Project consisted of stripping the roofing, removing the cementitious deck and replacing it with metal deck.

Tasks included preparation of design drawings and specifications, including those by architectural sub-consultant, preparation of bid forms, evaluation of bids and construction administration services.

Approximate construction cost - \$165,000

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT *(Include scope, size, and cost)*

Miami River Greenways

BCC Engineering provided structural engineering services for the design of pedestrian walkways on both banks of the Miami River beneath both the Metrorail and Metromover tracks. These new portions of the walkways connect previously constructed portions of walkway, in order to provide a continuous path along the river. At some of the sites, new sheet pile walls were designed in order to retain the fill needed to create the walkway surface. At other sites, existing seawalls were rehabilitated. At all sites, intensive coordination was required to avoid interferences with electrical and communication utility lines. Manatee gates were designed to comply with environmental requirements.

Design Fee: \$109,000.00

Services Provided:

BCC Engineering Inc. offers a wide-range of services and has the resources and experience to carry out any assignment. Our engineers are leaders in the Florida consulting industry and the staff has all the requisite skill sets needed to assure success on a project.

PRELIMINARY ENGINEERING / PLANNING

- Preliminary Engineering Studies
- NEPA Documentation
- Master Planning
- Corridor Studies

HIGHWAY / TRANSPORTATION SERVICES

- Roadway Design
- Drainage Analysis & Design
- Pavement Marking & Signage Design
- Traffic Control Plans
- Roadway Lighting & Signalization Design
- Environmental Permitting

STRUCTURAL ENGINEERING SERVICES

- Industrial & Commercial Building Design
- Condition Assessment
- Peer Review
- Value Engineering
- Forensic Investigation
- Rehabilitation
- Bridge and Transit Structures
- Conventional Walls, Sheet Pile Walls, & MSE Retaining Walls
- Structural Design of ITS, High Mast Lighting, Signal and Overhead Sign Structures
- Bridge Inspection, Analysis & Load Ratings
- Rehabilitation of Existing Bridge & Building Structures

TRAFFIC ENGINEERING SERVICES

- Traffic Studies & Traffic Simulation
- Long Range Transportation Plans
- Travel Demand Modeling
- Traffic Counts & Traffic Projections for planned development generated traffic including trip generation,

distribution and assignment

- Traffic Impact Analysis
- Roadway capacity and level of service analysis for signalized and unsignalized intersections, & signalized intersection warrant analysis
- Signalization Design

CONSTRUCTION ENGINEERING SERVICES

- Construction Management
- Construction Engineering and Inspection for Roadway & Bridge Projects
- Document Control
- Shop Drawings
- Design / Build
- Value Engineering
- Claims Analysis
- Scheduling

AIRPORT SERVICES

- Airside and Landside Paving, Grading, Drainage Design
- Utility Relocation
- Administration Building & Cargo Building Renovation & Inspections

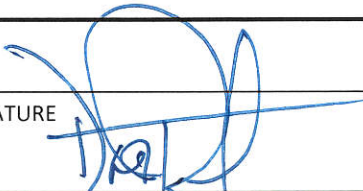

CIVIL ENGINEERING SERVICES

- Site Development
- Paving, Grading & Drainage Design for Residential, Commercial & Industrial Sites
- Parking Lot Design
- Storm Sewer Design and Water Retention /Detention Systems
- Potable Water Systems
- Gravity and Force Main Sanitary Sewer Systems
- Structural Design

FIRM PROFILE

BCC Engineering, Inc. was established in Miami-Dade County in 1994. Since that time the firm has diligently worked to meet the needs of our private and public sector clients. BCC Engineering specializes in providing planning, design and construction management services, for civil, structural, and transportation related engineering projects. **BCC Engineering** routinely takes a lead role on civil, transportation and structural projects and has been responsible for some of the most interesting and complex projects in South Florida.

The firm is one of the fastest growing engineering firms in Florida with four regional offices, including one in Broward County, and easy accessibility to our clients. The firm's Principals and Senior Engineers bring a wealth of experience having worked on major building, infrastructure and transportation projects all over the State. That experience has led to the Company's growth in providing both Design-Bid-Build and Design-Build services.

BCC Engineering offers a wide-range of services and has the resources and experience to carry out any assignment. Our engineers are leaders in the Florida consulting industry and the staff has all the requisite skill sets needed to assure success on a project. **BCC Engineering's** in-house design and construction staff totals one hundred-four (104) including thirty-seven (37) registered Professional Engineers, fourteen (14) Engineers in Training (EI's) and one LEED® Accredited Professional. The staff is fully equipped with state of the art computers, plotters, printers, scanners, and design software. **BCC Engineering** prides itself on innovative approaches to solve the difficult challenges faced by our clients. Our staff makes every effort to understand the concerns and needs of our clients and are committed to providing optimal solutions for any issue that may arise.

An excellent working relationship with our clients and the regulatory agencies has afforded **BCC Engineering** the opportunity to continuously work on interesting and challenging projects. Public sector clients have included: Florida Department of Transportation (Districts Two, Three, Four, Five, Six, Seven & FDOT Central Office), Florida's Turnpike Enterprise, the Miami-Dade Expressway Authority, Miami-Dade County Public Works, the Department of Environmental Resource Management, Florida Department of Environmental Protection, Broward County, Palm Beach County, the City of Miami, the City of Miami Beach, the City of Doral, the City of Homestead, and the City of Key West. Private sector clients have included a variety of architects, developers, and owners.

Subject: Reference Letter for BCC Engineering, Inc.

Name of Project: Aventura Waterways K-8 Center – Canopy Expansion

Scope of work: Extension of Covered Walkway to provide alternate location for school bus boarding

Value of project: \$95,339.00 Value of Design Services: \$8,314.20

Delivery method: Design-Bid-Build (CM@Risk) / Design-Build / Other (_____)

Design completed on time & within budget Yes / No

If no, was the Consultant at fault or contribute to the delay(s) or increased cost? Yes / No

Quality of Design: Above Expectations / Average / Below Expectations

Errors & Omissions: Above Expectations / Average / Below Expectations
(Above expectations means there were fewer errors & omissions than anticipated)

Did Errors & Omissions result in increased construction cost? Yes / No

Did Consultant provide Construction Administration services? Yes / No / Limited Scope

Was the Consultant responsive to the Owner & Contractor? Yes / No

Was Consultant timely in its reviews and submittals? Yes / No

Subject: Reference Letter for BCC Engineering, Inc.

Name of Project: Flagler Street – Downtown Beautification (Biscayne Blvd - West 2nd Avenue)

Scope of work: Survey, Civil, Landscape Architecture Services for Roadway/Utility Relocation

Construction Value: \$_____ Design Services Value: \$292,000

Delivery method: Design-Bid-Build / CM@Risk / Design-Build / Other (_____)

Design completed on time & within budget: Yes / No

If no, was the Consultant at fault or contribute to the delay(s) or increased cost? Yes / No

Quality of Design: Above Expectations / Average / Below Expectations

Errors & Omissions: Above Expectations / Average / Below Expectations

(Above expectations means there were fewer errors & omissions than anticipated)

Did Errors & Omissions result in increased construction cost? Yes / No

Did Consultant provide Construction Administration services? Yes / No / Limited Scope

Was the Consultant responsive to the Owner & Contractor? Yes / No

Was Consultant timely in its reviews and submittals? Yes / No

Comments:

I am pleased to recommend BCC Eng. Inc. for engineering design services. For the past few years, their project managers have worked directly with the City of Miami on various projects within the City limits. BCC's Engineers have been dedicated, responsive and technically capable to provide quality services to the City of Miami. I would highly recommend their services and entrust their continued good work.

NOTICE TO PROPOSERS

NOTICE IS HEREBY GIVEN, that the City Commission of the City of Hollywood, Florida is advertising for Sealed Request for Qualifications, which will be received by the City Clerk of the City of Hollywood, Florida until **3:00 P.M., May 30, 2014**, at which time they will be opened and publicly read in the Procurement Services Division, Room 303, City Hall, 2600 Hollywood Boulevard, Hollywood, Florida. FOR: **Continuing Contract for Structural Engineering Services (PW 14-009)**

RFQ NO. 4421-14-RD
ADDENDUM NO. 1

Please make the following changes (additions, deletions or corrections) in the above named RFQ.

Questions submitted in regards to the above RFP and corresponding answers:

Q1: We have the following questions/clarifications in regards to the RFQ referenced above: Page 5 – 2nd bullet: "Perform all field tests, laboratory test and collect...."
Question: what type of testing? Load tests, test pits, magnetic scanning, etc.
OR Geotechnical studies

A1: CLARIFICATION:

Any testing to be done would be determined on a project by project basis. If any required testing cannot be done by the Structural Consultant then the City would order the testing directly from other Testing Services".

Q2: Page 11 Top of page states "Eight (8) Copies..." however the Page 16 checklist states 1 Original and 10 copies – Please clarify.

A2: Page 16 is correct: please submit one (1) original and ten (10) copies of entire proposal with addendums.

All other specifications, terms & conditions remain the same.

MAILED RFQ'S

If you have already submitted your printed Request for Qualifications, it will be retained in the City Clerk's Office until the Proposal opening time and date. If you wish to pick up your RFQ that has already been submitted, you can do so by showing proper identification, in the Office of the City Clerk, 2600 Hollywood Blvd, Room 221, Hollywood, Florida 33020.

Please sign and return with your RFQ.

COMPANY NAME: BCC Engineering

PROPOSER'S SIGNATURE 

Dated this 20th day of May 2014

of this Contract, or find the Consultant in default and terminate this Contract.

- E. Said insurance shall be written by a company or companies licensed to do business in the State of Florida and rated no less than A+ in the latest edition of "Best's Key Rating Guide," published by A.M. Best Company.
- F. Recognizing that the work governed by this contract involves the furnishing of advice or services of a professional nature, the Contractor shall purchase and maintain, throughout the life of the contract, **Professional Liability Insurance** which will respond to damages resulting from any claim arising out of the performance of professional services or any error or omission of the Contractor arising out of work governed by this contract.

The minimum limits of liability shall be:
\$250,000 per occurrence/\$500,000 Aggregate

HOLD HARMLESS AND INDEMNITY CLAUSE:

BCC Engineering, Inc.

Daniel Raymat

(Company Name and Authorized Signature, Print Name)

,the contractor shall indemnify, defend and hold harmless the City of Hollywood, its elected and appointed officials, employees and agents for any and all suits, actions, legal or administrative proceedings, claims, damage, liabilities, interest, attorney's fees, costs of any kind whether arising prior to the start of activities or following the completion or acceptance and in any manner directly or indirectly caused, occasioned or contributed to in whole or in part by reason of any act, error or omission, fault or negligence whether active or passive by the contractor, or anyone acting under its direction, control, or on its behalf in connection with or incident to its performance of the contract.

BCC Engineering, Inc.

Daniel Raymat

(Company Name and Authorized Signature, Print Name)

further certifies that it will meet all insurance requirements of the City of Hollywood and agrees to produce valid, timely certificates of coverage.

XVII. TRUTH-IN-NEGOTIATION CERTIFICATE:

Signature of this Contract by Consultant shall act as the execution of a truth-in-negotiation certificate stating that wage rates and other unit costs supporting the compensation of this Contract are accurate, complete, and current at the time of contracting. The original contract price and any additions thereto shall be adjusted to exclude any significant sums by which the City determines the contract price was increased due to inaccurate, incomplete, or non-current wage rates and other unit costs. All such contract adjustments shall be made within one (1) year following the end of this Contract.

XVIII. MAINTENANCE OF RECORDS:

The Consultant and all subconsultants shall keep all books, documents, papers, accounting records and other evidence pertaining to cost incurred and shall make such materials available at all reasonable times during the Contract period and for three (3) years from the date of final payment under this Contract, for inspection by authorized representatives of the City and applicable regulatory agencies, if any. Copies thereof shall be furnished, if requested, and the City shall pay a reasonable cost of reproduction. Incomplete or incorrect entries in such books and records will be grounds for the disallowance of any fees or expenses based on such entries.

XIX. RIGHT TO REDUCE THE SCOPE OF WORK:

The City reserves the right to reduce the scope of work under this Contract at any time, and if such is done, the total fees to Consultant shall be reduced in the same ratio as the estimated cost of the deleted work to the cost of the work as originally planned, or when appropriate, the Consultant's fees shall be re-computed for the reduced scope of work in the same manner used for determining the original fee, provided that if work has already been performed on the portion of services to be eliminated, the Consultant shall be paid for the actual time spent plus any associated direct expenses.

XX. RIGHT TO TERMINATE:

The City reserves the right to terminate this Contract at any time, and if this project should be abandoned, or the processing of same indefinitely postponed, or the Contract terminated for any other reasonable value by the City for work delivered, or ready for delivery upon receipt thereof, such determination by the City shall be conclusive and binding.

XXI: DISCLOSURE OF CONFLICT OF INTEREST:

Vendor shall disclose below, to the best of his or her knowledge, any City of Hollywood officer or employee, or any relative of any such officer or employee as defined in Section 112.3135, Florida Statutes, who is an officer, partner, director or proprietor of, or has a material interest in the vendor's business or its parent company, any subsidiary, or affiliated company, whether such City official or employee is in a position to influence this procurement or not.

Failure of a vendor to disclose any relationship described herein shall be reason for debarment in accordance with the provisions of the City of Hollywood Purchasing Ordinance.

Name

Relationship

N/A

In the event the vendor does not indicate any names, the City shall interpret this to mean that no such relationship exists.
