# COOP PRICING PROPOSAL

## CITY OF HOLLYWOOD

April 14, 2021

FieldTurf USA, Inc. is pleased to present the following proposal. FieldTurf pricing is based on the Sourcwell contract (formerly NJPA). Sourcwell provides predetermined preferential pricing through approved vendors. Since the products have already been bid at the national level, individual municipalities do not have to duplicate the bidding process per Sourcwell Contract # 060518-FTU.

## CONDITIONS

Notwithstanding any other document or agreement entered into by FieldTurf in connection with the supply and installation only of its product pursuant to the present bid proposal, the following shall apply:

- a) This bid proposal and its acceptance is subject to strikes, accidents, delays beyond our control and *force majeure*.
- b) FieldTurf's preferred payment terms are as follows: (i) 50% of the Price upon Customer's execution of contract; (ii) 40% of the Price upon shipment of materials from FieldTurf's manufacturing facility; and (iii) Remaining balance of ten percent (10%) upon substantial completion of the field, which shall be achieved when Customer is able to use the field for its intended purpose, even if punchlist items remain and the Certificate of Completion has not been executed by Customer.
- c) Accounts overdue beyond 30 days of invoice date will be charged at an interest rate of 10% per annum.
- d) FieldTurf requires a minimum of 21 days after receiving a fully executed contract or purchase order and final approvals on shop drawings to manufacture, coordinate delivery and schedule arrival of installation crew. Under typical field size and scenario, FieldTurf further requires a minimum of 28 days per field to install the Product subject to weather and *force majeure*.
- e) FieldTurf requires a suitable staging area. Staging area must be square footage of field x 0.12, have a minimum access of 15 feet wide by 15 feet high, and no more than 100 ft from the site. A 25 foot wide by 25 foot long hard or paved clean surface area located within 50 feet of the playing surface shall be provided for purposes of proper mixing of infill material. Access to any field will include suitable bridging over curbs from the staging area to permit suitable access to the field by low clearance vehicles. Staging area surface shall be suitable for passage with motor vehicles used to transport materials to the site and/or staging area. FieldTurf shall not be liable for any damages to the staging area or its surface unless such damages are caused by FieldTurf's intentional misconduct or negligence.
- f) This proposal is based on a single mobilization. If the site is not ready and additional mobilizations are necessary, additional charges will apply.
- g) Upon substantial completion of FieldTurf's obligations, the Customer shall sign FieldTurf's Certificate of Completion in the form currently in force; to accomplish this purpose, the Customer will ensure that an authorized representative is present at the walk-through to determine substantial completion and acceptance of the field, which may include a list of punch list items.
- h) FieldTurf shall not be a party to any penalty clauses and/or liquidated damages provisions.
- i) FieldTurf shall be entitled to recover all costs and expenses, including attorney fees, associated with collection procedures in the event that FieldTurf pursues collection of payment of any past due invoice.
- j) All colors are to be chosen from FieldTurf's standard colors.

29	FieldTurf Hockey Gold	FieldTurf Hockey Gold	Hockey Speed by FieldTurf was engineered specifically for field hockey; however, numerous sports can benefit from this all weather system and its uniform, predictable levels of friction. In designing Hockey Speed, we consulted with experts in the hockey world to determine the best characteristics desired for superior play at the elite level. The Hockey Speed product was developed for field hockey by focusing on three key hockey-specific elements: Superior Ball Control, Easy Stick Movement, and Excellent Traction. Hockey Speed takes field hockey surfacing to a new level of performance, quality, and value. Designed to provide the best playing characteristics of nylon "wet performance" systems, Hockey Speed is more economical and better designed than competing systems.
