

PARKS AND RECREATION DIVISION - MARINE ADVISORY COMMITTEE
950 N.W. 38th St. • Oakland Park, FL 33309 • 954.357.8133 • FAX 954.357.5991
Established in 1974 by the Broward County Board of County Commissioners

Broward Boating Improvement Program Requests for Grant Proposals: Fiscal Year 2025/2026 Cycle

The Broward County Marine Advisory Committee (MAC) will accept grant proposals for Broward Boating Improvement Program (BBIP) projects through September 16, 2024, for the 2025-2026 Fiscal Year. Attached to the e-mail are copies of the BBIP Grant Application Submission Requirements, BBIP Grant Application, BBIP Funding Guidelines, BBIP Rules, BBIP Grant Procedures Manual, and the BBIP Competitive Ranking Criteria which explain the BBIP and the types of projects that are eligible for funding.

Preliminary proposals for funding must contain the following information to be eligible for review:

- Broward Boating Improvement Program Grant Application
- Official Resolution by the Applicant's Governing Board (Municipalities)
- Letter of Submission Signed by Head of Agency (Agencies)
- Location Map
- Boundary Map
- Site Plan
- Proof of Site Control if property is leased

A letter acknowledging receipt and staff review of your proposal for completeness and eligibility for funding, plus notification of a review and presentation date before the MAC will be issued. Projects approved by the MAC will be sent to the Broward County Board of County Commissioners for their review and approval as part of the Fiscal Year 2025-2026 Budget. Funds for approved projects will be available October 1, 2025. Since the Broward County Parks and Recreation Division administers the MAC's programs, please submit **one original and 19 copies** of your BBIP proposal no later than **5:00 PM, September 16, 2024**, to:

Jay Sanford, Project/Program Coordinator, Senior
Broward County Parks and Recreation Division
950 N.W. 38th Street
Oakland Park, FL 33309

It is very advisable to discuss the feasibility of your project before submission. If you require additional information, or wish to discuss your project, please call Jay Sanford, MAC Liaison, at 954-357-8133.

BROWARD BOATING IMPROVEMENT PROGRAM

**FISCAL YEAR 2025/2026
GRANT PROCEDURES MANUAL**

BROWARD BOATING IMPROVEMENT PROGRAM

PROCEDURES MANUAL

INTRODUCTION

The purpose of this manual is to provide an explanation of the necessary administration of the Broward Boating Improvement Program (BBIP), and to describe the procedures by which municipal governments may apply for the award of BBIP funds for their respective projects.

During its 1974 session, the Florida Legislature enacted certain changes in the regulation of motorboats and provided for an appropriation specifically earmarking funds for recreational boating improvement projects such as channel marking, public docking and mooring facilities, public boat launching facilities, artificial reefs, channel dredging and other boating related activities as specified in the State BBIP rules.

Pursuant to Chapter 328.72(15) of the Florida Statutes, a portion of the funds collected from the registration of recreational vessels shall remain with the county that collected them to be used for the sole purpose of ***maintaining or operating recreational channel markings and other uniform waterway markers, public boat ramps, lifts, and hoists, marine railways, boat piers, docks and mooring buoys, and other public launching facilities, and removing derelict vessels, debris that specifically impede boat access, not including the dredging of channels, and vessels and floating structures deemed a hazard to public safety and health for failure to comply with Florida Statute 327.53.*** It is the option of the counties as to whether the municipalities can access these funds. Allocations are made based on the amount collected by recreational vessel registrations in the respective county. The allocations are distributed in the form of grants for the sole purpose of providing for the aforementioned recreational boating improvement projects. Broward County is one of the few counties in Florida which has opted to allow municipalities to access these funds. These funds are distributed under rules of the Broward Boating Improvement Program (BBIP).

BBIP GRANT APPLICATIONS

Applicants in Broward County for the BBIP grants are normally municipalities. The Broward County Parks and Recreation Division, acting as the County Commission's appointed liaison to the Broward County Marine Advisory Committee, sends out requests for proposals for BBIP grants usually in July of every fiscal year to twenty-nine (29) cities in Broward County. The notifications along with the BBIP Grant Application and rules are addressed to the mayor or city manager of the municipality. The municipalities are invited to actively participate in the BBIP grant program.

MARINE ADVISORY COMMITTEE BBIP APPLICATION

It is the responsibility of the applicants to recommend proposed projects as soon as possible, but no later than September 16th or the date specified in the requests for proposals sent to the mayors or city managers. The applicant is to submit one original and 19 copies of the Broward County Marine Advisory Committee BBIP Grant Application to the Broward County Marine Advisory Committee (MAC) through the Broward County Parks & Recreation Division (MAC Liaison Office). The BBIP grant application is reviewed by the MAC liaison for project eligibility and is then scheduled for review by the MAC at their following meetings. The MAC will review each proposed BBIP project and will rank each project on the merits of the submitted BBIP grant application proposal. Projects with the highest score will be funded in full. This will continue down the ranking list until all Broward County BBIP funds are allocated. It is possible for the last application to receive only partial funding, or no funding due to available monies. All projects must have a minimum score of 70 to receive funding.

Projects can be submitted in two phases. Phase I projects will be for design, engineering and permitting (no administrative costs allowed) costs, and Phase II projects will be for solely for construction costs. This allows an applicant to apply just for the costs associated for the design, engineering and permitting of a project. Upon completion of the design, engineering, and permitting, the applicant can then apply for a Phase II grant to cover the cost of the construction of the project. Phase I grant costs **will not** be reimbursed to the applicant until the beginning of construction of Phase II.

Applications will not be accepted if bound in three ring loose leaf binders. All information is to be included in the application; no supplemental pages will be accepted. All attachments shall be 8.5" x 11", or 8.5" x 14" folded to 8.5" x 11".

REQUIRED ATTACHMENTS - SUPPORT DATA

The required support data for each project grant application shall include the following:

- Application
- Official Resolution (Municipalities)
- Letter of Submission Signed by Head of Agency (Agencies)
- Location Map
- Boundary Map
- Site Plan
- Proof of Site Control if Project Property is leased

PROJECT AGREEMENT REVIEW AND EXECUTION

The MAC will make its formal recommendation to the Board of County Commissioners for funding of the BBIP grant applications at their December meeting. Afterwards, the Broward County Parks and Recreation Division will submit to the Broward County Office of Management and Budget the recommended projects for inclusion in the next fiscal year Broward County Budget. The projects will be approved by the Broward County Board of County Commissioners during their public hearings to approve the County Budget in September. In July, the County will send the applicant three copies of the standard form BBIP Project Agreement to be reviewed and signed as to form by the municipality's attorney, and then be approved by the municipality's council or commission, and executed by the mayor. Upon receipt by the County of the Project Agreement, along with the required insurance information, from the municipality, the Agreement will be reviewed by County Risk Management for insurance requirements, plus reviewed and signed as to form by the Office of the County Attorney. After the County Commission has approved the County Budget, the Project Agreements will be forwarded to the County Administrator for execution on behalf of the County Commission. Following the execution of the Agreement by the County, one original Project Agreement will be returned to the applicant, along with the Project Close-out Document requirements and forms. When the municipality has final site plans or construction drawings, they must meet again with the MAC for final approval. The MAC does not meet during the summer. Therefore, the municipality must plan on bringing their plans for final approval to the MAC at one of their normal meeting dates. After MAC final approval, the municipality will be sent a Notice to Proceed. Anything constructed that is not on the MAC approved plans **will not** be reimbursed.

PROJECT MONITORING

As provided in the Project Agreement, ***the municipal project liaison agent shall forward quarterly written status reports*** on Broward County provided BBIP forms, which specify percentages of completion of each element of the project and any problems encountered, to the Broward County Parks & Recreation Division (Liaison Office). These are to be submitted within 30 days after the end of the quarter. Failure to provide quarterly reports can jeopardize future BBIP funding.

PROJECT COMPLETION

Once the project is completed, it is the responsibility of the municipality to provide all project completion documentation and accounting data on signed Broward County BBIP forms to the County BBIP Liaison Officer. The Liaison and a MAC member will verify the project completion. After verification, a request by the County BBIP liaison to the Broward County Accounting Division is made to reimburse the municipality the actual cost of the

project, not to exceed the project's allocation agreed to in the Project Agreement. Items to be included for reimbursement are:

All required signed BBIP Closeout forms; photographs of the completed project, the required BBIP acknowledgment sign; a signed project completion certificate; a signed as-built site plan; and a signed Notice of Limitation of Use/Site Dedication.

PAYMENT PROCESSING

After review and approval by the Broward County Parks and Recreation Division and the Broward County Accounting Division, a check payable to the municipality will be drafted. The Parks & Recreation Division will forward the check to the municipality or present the check to the city council or commission at a public meeting if it is desired. Phase I projects will not be reimbursed until the construction begins on Phase II.

**BROWARD COUNTY MARINE ADVISORY COMMITTEE
BROWARD BOATING IMPROVEMENT PROGRAM**

GRANT APPLICATION SUBMISSION REQUIREMENTS

To submit a Broward Boating Improvement Program grant, send or deliver one signed original and 19 copies of the grant application to:

**Jay Sanford, Program/Project Coordinator, Senior
Broward County Parks & Recreation Division
950 N. W. 38th Street
Oakland Park, FL 33309**

To ensure eligibility of the grant application, the following must be included with the grant submission:

**Broward Boating Improvement Program Grant Application
Official Resolution (Municipalities)
Letter of Submission Signed by Head of Agency (Agencies)
Location Map
Boundary Map
Site Plan
Proof of Site Control if Project Property is Leased**

If there are any questions about the grant program, grant application, or grant submission requirements, please call Jay Sanford at 954-357-8133.

Applications received after the submission deadline are subject to rejection at the discretion of the Broward County Marine Advisory Committee.

**BROWARD COUNTY MARINE ADVISORY COMMITTEE

FUNDING GUIDELINES

PHASE I REQUESTED GRANT AMOUNT (TOTAL)

(Planning, engineering, permitting and design costs)

MATCH

\$1 TO UNLIMITED50% MINIMUM

PHASE II REQUESTED GRANT AMOUNT (TOTAL)

(Construction costs)

MATCH

\$1 TO \$50,0000%

\$50,001 TO \$100,00025%

\$100,001 TO UNLIMITED50%

All project administration, land acquisition costs, signage, landscaping & irrigation, fishing facilities, maintenance, or renovation of FBIP or BBIP projects funded within the past 25 years, tools, equipment, boats, boat motors, office equipment, and materials not used exclusively for the project are ineligible for funding.

BROWARD COUNTY MARINE ADVISORY COMMITTEE

BROWARD BOATING IMPROVEMENT PROGRAM RULES

The purpose of the Broward Boating Improvement Program (BBIP) is to implement provisions of Florida Statute 328.72(15) which provides that a portion of the funds received from recreational vessel registration fees and retained by County governments to provide recreational channel marking and other uniform waterway markers, public boat ramps, lifts, and hoists, marine railways, and other public launching facilities, derelict vessel removal, and removal of vessels and floating structures deemed a hazard to public safety and health for failure to comply with Florida Statute 327.53.

DEFINITIONS:

APPLICATION - means the formal request for financial assistance consisting of a complete proposal with required supporting documentation submitted to Broward County.

APPLICANT - means the municipality, government agency, or organization which is responsible for the submission of an application.

COMMITTEE - means the Broward County Marine Advisory Committee.

COUNTY - means the Broward County Board of County Commissioners.

DIVISION - means the Broward County Parks and Recreation Division.

FUND - means the Broward Boating Improvement Program.

GRANT - means funds authorized by the Florida Fish and Wildlife Conservation Commission for Broward County to use for the Broward Boating Improvement Program project.

LIAISON - means the officially designated representative of the Broward County Parks and Recreation Division authorized to act on behalf of the Marine Advisory Committee on all matters related to participation in the program.

POWERBOAT - means any registered vessel used for recreational purposes which is propelled or powered by machinery and which is used or capable of being used as a means of transportation on water.

PROGRAM - means the Broward Boating Improvement Program (BBIP).

PROJECT - means a planned undertaking consisting of eligible Program facilities, improvements or expenses for the public use and benefit of the general recreational boating public.

PROJECT AGREEMENT - means an executed contract between the County and the project applicant setting forth mutual obligations regarding a grant project.

STATE - means the State of Florida.

POLICY:

1. Financial assistance in the form of grants from the Fund shall be made available to Broward County municipalities, and government agency or organization deemed eligible by the Committee for the purpose of providing recreational channel marking and public launching facilities and other public boating-related facilities as permitted by State Statute.
2. Contingent upon the State of Florida permitting recreational vessel registration fees to be retained by the County, the Division shall send out "Requests for Proposals" to each Broward municipality. The allocation is based on the number of non-commercial power vessels registered in Broward County during the preceding County Fiscal Year (October 1 to September 30).
3. Projects shall be approved by the Committee and recommended to the County Commission for funding in accordance with these rules.
4. The County and municipality, non-county government agency or organization shall enter into a Project Agreement prior to the release of Program funds.
5. Unless otherwise specified in the Project Agreement, a project may not commence until the Project Agreement is fully executed by all parties and a notice to proceed is sent.
6. Program funds may be used as the local cash matching requirement from the Florida Recreation Development Assistance Program, the Florida Inland Navigation District Waterway Assistance Program, Florida Boating Improvement Program or any other eligible grant programs.
7. The site of a proposed land-based development project shall be dedicated for public recreational use. If owned, the project site must be dedicated in perpetuity. The dedication shall extend for a minimum period of 25 years after project completion if control of the site is by lease, permit, management agreement or other similar

instrument. The dedication shall be recorded in the public property records.

8. The location of any vessel launching facility and access to the water body it serves shall not pose a threat to other boating or recreational activities on the water body it serves.

APPLICATION REQUIREMENTS

1. The Broward Boating Improvement Program Application Form is hereby incorporated by reference and is available from the Division at 950 N.W. 38th Street, Oakland Park, Florida 33309. One (1) original and nineteen (19) copies of the Grant Application request for funding will be submitted during the application submission period stated in the Request for Proposal. Included with the application should be an official resolution by the applicant's governing body, submission letter, location map, boundary map, site plan, and proof of site control if project site is leased. Emergency requests for funding may be submitted at any time on an official BBIP Application by a municipality or government agency and will be reviewed at the next scheduled Committee meeting. All applications will be reviewed for eligibility and completeness by the liaison. The applicant will be notified if the application is ineligible or is not complete, and will be allowed to correct all deficiencies before formal recommendations are made to the County Commission. Emergency BBIP applications will be reviewed for the validity of the emergency. All applications will be reviewed, scored, and ranked by the MAC. Funding of BBIP Applications will be determined by the availability of BBIP funds.
2. A Municipality shall approve the submission of an application by official resolution. A copy of that resolution shall be submitted with the application. All other applicants shall submit a letter with the application authorizing the submission of the application.
3. Once the County has approved a project, the County and municipality, non-county government agency, or organization shall enter into a Project Agreement which sets forth the responsibilities and duties of each party regarding the project administration. Special terms and conditions shall be incorporated into the Project Agreement as particular circumstances dictate. County agencies will enter into an inter-divisional letter of understanding.
4. The County may reject applications from municipalities, and all government agencies and organizations which have not met their obligations under the terms of previous Project Agreements.

PROJECT ELIGIBILITY

- 1.** Monies from the Fund shall be used for projects aimed at improving recreational boating for the public. Any project developed with assistance from this Program shall be for the use and benefit of the general boating public.
- 2.** Program funds may be used for projects such as:
 - a.** Construction, expansion, renovation, or installation of the following for public use on land and waters:
 - (1)** Recreational powerboat boat ramps, lifts and hoists, marine railways, and other public launching facilities
 - (2)** Recreational channel marking and other uniform waterway markers.
 - (3)** Public docking and mooring facilities for recreational powerboats.
 - (4)** Access roads and parking for recreational powerboat public launching facilities.
 - (5)** Dredging which is ancillary to a project which provides access to a publicly owned or maintained marine facility
 - (6)** Recreational boating related support facilities and utilities such as restrooms, lighting, water, sewer, and electrical that are part of a recreational powerboat public launching facility.
 - (7)** Bulkheads, rip-rap, and seawall construction relative to the construction of a recreational powerboat public launching facility.
 - (8)** Removing derelict vessel, debris that specifically impede boat access, not including the dredging of channels, and vessels and floating structures deemed a hazard to public safety and health for failure to comply with Florida Statute 327.53.
 - (9)** Design and engineering costs, and permit fees are permitted to be submitted as a Phase I project with the maximum amount to be funded at fifty percent (50%). Phase II provides for the construction of the project that is designed, engineered and permitted in Phase I. The County will not reimburse Phase I design, engineering and permitting costs until the beginning of construction of Phase II.

3. Project costs which are eligible for funding include only those necessary for the construction and completion of an eligible project.
4. Project construction expenses that are eligible for funding include payments to construction contractors, vendors for purchase of materials, rental of equipment or lump sum labor contracts.
5. Ineligible expenses include project administration, land acquisition, signage, landscaping and irrigation, docks or facilities used for fishing, crabbing or other forms of aquatic harvesting, maintenance or renovation of previously funded Florida Boating Improvement or BBIP projects funded within the past 25 years, tools, equipment, boats, boat motors, office equipment, and materials not used exclusively for the project.
6. Eligible expenses include the maximum of fifty percent (50%) of project design and engineering costs and permit fees.

PROJECT DESIGN CRITERIA

1. All projects shall be designed in accordance with standard engineering practices, and implemented in compliance with state and local building codes and applicable laws.
2. All local, State and Federal permits, leases, easements, management agreements, or other similar required authorizations for the project shall be obtained prior to the commencement of project construction.
3. The Committee shall review and approve all final site plans or construction plans before the commencement of project construction. Construction commencement before plan approval by the Committee will result in non-reimbursement of the project.

GRANT CONDITIONS

1. Facilities funded in whole or in part by Program Funds shall be administered and made available to the general public on a non-exclusive basis without regard to race, color, religion, sex, national origin, age, marital status, political affiliation, disability, sexual orientation, pregnancy, or gender identity or expression (Broward County Code of Ordinances, Chapter 16 ½-3(p)), the political jurisdiction in which a person resides, or any other factor which cannot be lawfully or appropriately used as a basis for service delivery.

2. The applicant shall not unlawfully discriminate against any person in its operations and activity, in its use or expenditure of Program Funds and shall affirmatively comply with all applicable provisions of the Americans With Disabilities Act (ADA) in the course of providing any facility funded in whole or in part by the County, including Titles I and II of the ADA (regarding nondiscrimination on the basis of disability), and all applicable regulations, guidelines and standards.
3. The municipality, agency or organization must submit to the Division a Project Completion Certificate upon completion of the project, with the Division required close-out documents for reimbursement, available from the Division at 950 NW 38th Street, Oakland Park, Florida 33309.
4. The Applicant shall be responsible to the County for insuring the satisfactory operation and maintenance of sites and facilities funded under this Program for a minimum of 25 years from the date of project completion.
5. Proposed changes to the Project Agreement (i.e., scope of the project, project period, or grant amount) must be submitted to the Division in writing at least six months in advance of the project construction completion date by the Applicant, accompanied by a statement of justification for the proposed changes. Proposed changes will be submitted to the Committee by the Division, at the Committee's next scheduled meeting, for their review and recommendation to the County Commission. Agreed changes shall be evidenced by a formal Amendment to the Project Agreement, or a new agreement. Minor changes in the scope of the project shall be submitted to the Division in writing. The minor change will be reviewed by the Liaison and submitted to the Committee at their next scheduled meeting for their approval. If a project is constructed and is not consistent with the scope of the project listed in the Project Agreement and the construction plans approved by the Committee, the County shall withhold reimbursement until all items listed in the scope of the project and approved plans are completed.
6. The County shall have the right to terminate a Project Agreement or demand refund of Program Funds for non-compliance with the terms of the Project Agreement or these rules. Failure of an Applicant to comply with the provisions of a Project Agreement or the rules shall result in the County declaring the Applicant ineligible for further participation the Program until such time as the Applicant completes the terms of the Project Agreement or Rules.
7. The Applicant shall be responsible for the erection and maintenance of a permanent BBIP acknowledgment sign or plaque at the project site for the life of the project. Appropriate wordage for the sign or plaque is included in the close-out documents.
8. Facilities funded with BBIP monies shall be used only for recreational power boating

purposes and are not to be used for any commercial purposes, fishing or crabbing or other forms of aquatic harvesting. Fishing lines or crab lines cannot block access to docks or ramps funded with BBIP monies.

9. The BBIP definition of a derelict vessel is a vessel that has been abandoned by the owner and is creating a navigational hazard by blocking or intruding into a navigational channel, or creating an environmental hazard by due to its unique location. Vessels that are behind private property or at a private marina or dock are prohibited being removed with BBIP funds.

ACCOUNTABILITY

The following procedures shall govern the accountability of Program grant funds:

1. Each applicant is responsible for maintaining an accounting system which meets generally accepted accounting principles and for maintaining such financial records for a period of seven years, as necessary to properly account for all Program funds.
2. All required close-out documents, available from the Division at 950 NW 38th Street, Oakland Park, Florida 33309, shall be submitted to the Division prior to reimbursement of Funds.
3. All project Funds are reimbursable only upon full completion of the project.
4. The Liaison or County personnel may inspect completed projects and audit project financial records.
5. If found by any State, County or independent audit that Project Funds have not been used in accordance with the Project Agreement, Rules, or applicable laws, the Applicant shall be responsible for repayment of misused funds with interest from the date the funds were allocated to the Applicant, using the Consumer Price Index for all Urban Consumers for Miami/Fort Lauderdale, to the County for deposit in the Fund, and may result in the County declaring the Applicant ineligible for further participation the Program.

Prepared by: Liaison, MAC, August 18, 1998.

BROWARD COUNTY MARINE ADVISORY COMMITTEE BROWARD BOATING IMPROVEMENT PROGRAM

COMPETITIVE RANKING CRITERIA

To assist the Marine Advisory Committee (MAC) in establishing project priorities, each project will undergo a ranking based on criteria developed by the MAC as shown below. Each category is weighted as indicated below. Each project must score an average minimum of 70 points to be considered eligible for funding by the MAC. The maximum score is 100 points. The high and low committee member scores for each project will not be used to rank a project. You will have the option of providing information that is unique to your project. Be sure to address each category as it relates to your project. The use of graphics or maps to illustrate your project is recommended.

CRITERIA

1. What is the proposed use by boaters? Will the application provide a project that will benefit a large number of recreational boaters? **0-40 Points**
2. Is there adequate availability of navigable waters for boaters to use the project? Will project be constructed in a location where there is enough water depth, or will the project require dredging? What are the distances from navigation channels North, South, East, and West, water depth at low tide and bridge clearances? **0-15 Points**
3. Has the applicant shown effective implementation of previously awarded FBIP or BBIP funds, and has the continued operation of such funded facilities been in accordance with FBIP or BBIP rules? **0-10 Points**
4. Are there adequate available ancillary facilities at the proposed project site? Ancillary facilities include, but are not limited to, restrooms, paved adequate parking, drinking water, laundry facilities, pump-out stations, wash down areas, etc. **0-5 Points**
5. Are there similar facilities in the vicinity of the proposed project or is the project meeting an unmet demand? What is the distance from similar facilities? **0-5 Points**
6. Are recreational power boaters the proposed target of the project? How many boaters are anticipated using this proposed facility? **0-5 Points**
7. Are the required permits already received, or what is the status of the required permits. Projects that have all the required permits will receive full score, projects with applications submitted for permits, or have received a portion of the required permits, will receive partial score. Projects that have yet to submit applications for permits will receive no score. Projects that require no permits will receive full score. Phase I projects get 0 points, Phase II projects get up to 5 points. **0-5 Points**
8. Is there 24-hour public access and handicapped access to the project site? **0-5 Points**
9. Are there user costs, and charges to the public for use of the proposed recreational boating facility? **0-5 Points**
10. Are there any environmental and/or ecological benefits that the proposed project would provide? **0-5 Points**
