COMPANY HISTORY

In 1922, Ebsary Foundation Company began as a partnership between Henry L. Ebsary and a man named Mr. Comer, who was believed to be a Key West Marine Contractor. The first job the Comer-Ebsary Partnership performed was the original City of Miami Docks near the site of today's Bayside Marina and by 1928 the Comer-Ebsary partnership completed the foundation system for the Second Avenue Bridge over the Miami River. Ebsary Foundation Company was formally incorporated in 1930 by brothers William H. and Henry L. (Lew) Ebsary with initial capitalization of \$500. Since 1930, four generations of the Ebsary family have guided the company in the business of installing all types of foundation systems.

In 1940, Henry L. Ebsary passed the company to two of his sons, William L. (Bill) Ebsary and Richard H. (Dick) Ebsary who continued to manage and grow the company for 35 years. In the late 1940's Bill and Dick Ebsary purchased the Miami River waterfront property at 2154 NW North River Drive in Miami FL, where it is headquartered today. In 1975, Dick Ebsary passed ownership of the company to his son Richard W. Ebsary and his cousin Bob Ebsary. Eventually, Richard W. Ebsary purchased full ownership of the Company and remained President and sole owner until 2010. After serving 16 years with Ebsary Foundation Company including 12 years as Vice President, Scott A. Alfele, the Great Grandson of founder Henry L. Ebsary, became a shareholder and its current President.

Since 1922, Ebsary Foundation Company has continued to provide innovative foundation and construction services to the Southeastern United States and the Caribbean. Ebsary has over 100 years of experience in all types of foundation installation which has provided extensive understanding and expertise in all of Florida's geotechnical conditions. Since its inception, Ebsary has built numerous landmark and historical structures in South Florida; examples include, large sections of the seawall and bulkhead at the Port of Miami and Port Everglades, the original Pan American Airlines Seaplane Ramp and bulkhead on Dinner Key in Coconut Grove, FL, the foundation system for the Miami Metromover and track sections for the Metrorail System; the US Coast Guard Bridge on Miami Beach, and during WWII, the construction of the docks for Miami Ship Building Corp, a contractor building boats for the U.S. Navy.

Ebsary Foundation Company has renovated its entire waterfront bulkhead and barge slip to include a rebuilt industrial seawall and maintenance dredge which will allow for convenient waterway access for its marine equipment. Additionally, Ebsary has purchased a second land-based yard and corporate office located in western Broward County adjacent to US-27.

Ebsary Foundation Company Specializes in Bridge Construction, Marine Construction, Augered Cast-in-Place Foundation Piling, Caissons and Drilled Shafts, Steel Sheet Piling and Support of Excavation, Design and Construction of Cofferdams, Tremie Seal placement, Driven Concrete, Steel and Timber Piling, Seawalls and Bulkheads, Mooring Dolphins and Fender Systems, Docks and Marinas and Dredging.

**TIDAL FLOODING AND SHORELINE PROTECTION PROJECT - CITY OF HOLLYWOOD, FL
BID FORM**

CITY PROJECT No.: DCM-001187 and FDEP Grant 22FRP13

IFB-267-25-WV Sites 3, 4, 5, 11, 12, 7, 8, 14, 15 & 16

VARIANCES AND VARIATIONS TO SPECIFICATIONS, TERMS AND CONDITIONS

Ebsary's bid pricing is contingent upon award of all seawall sections identified in this Bid. Partial award will result in increased pricing

The only Engineering included in Ebsary's bid is Signed and Sealed Floating Dock Drawings/submittal. No other engineering is included.

The bid form for Bid Sites 7, 8, 14, 15 & 16 is incorrect. Ebsary did not change the bid form from what the city provided. However, the City should be made aware that the quantities outlined in items 6.2 and 6.3 do not match the bid drawings. Proper quantities are 51.5 LF for bid item 6.2 and 50.5 LF for bid item 6.3. Additionally, the sheet piling section for item 6.3 should be NZ14. The City should be aware that Ebsary included pricing for NZ14 sheet piling and the unit pricing reflects what the unit pricing should be if the units are reduced to the proper amount. The City may reduce the quantities for these two line items to 51.5 and 50.5 respectively to determine the actual contract price.

The provided pricing does not include material price increases due to any imposed Tariffs after the bid submission date

Drawings do not specify coating limits. Ebsary has included coating of sheet piling on top 10ft both sides at all locations. Ebsary has included interlock sealant on seawall interlocks only.

Drawings reference Asphalt Paving; however limits or need for asphalt and paving isn't provided. Ebsary has not included any replacement Asphalt or Paving in the bid

Appendix B—Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion—Lower Tier Covered Transactions

Instructions for Certification

1. By signing and submitting this proposal, the prospective lower tier participant is providing the certification set out below.
2. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered. If it is later determined that the prospective lower tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.
3. The prospective lower tier participant shall provide immediate written notice to the person to which this proposal is submitted if at any time the prospective lower tier participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
4. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of rules implementing Executive Order 12549. You may contact the person to whom this proposal is submitted for assistance in obtaining a copy of those regulations.

The prospective lower tier participant agrees by submitting this proposal that it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency with which this transaction originated.
6. The prospective lower tier participant further agrees by submitting this proposal that it will include this clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion—Lower Tier Covered Transaction," without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
7. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List.
8. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
9. Except for transactions authorized under paragraph 5 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

IDENTICAL TIE PROPOSALS - Preference shall be given to businesses with drug-free workplace programs. Whenever two or more bids which are equal with respect to price, quality, and service are received by the State or by any political subdivision for the procurement of commodities or contractual services, a bid received from a business that certifies that it has implemented a drug-free workplace program shall be given preference in the award process. 3. Give each employee engaged in providing the commodities or contractual services that are under bid a copy of the statement specified in subsection (1).
4. In the statement specified in subsection (1), notify the employee that, as a condition of working on the commodities or contractual services that are under bid, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.
5. Impose a sanction on, or require the satisfactory participation in a drug abuse assistance or rehabilitation program (if such is available in the employee's community) by, any employee who is so convicted.
6. Make a good faith effort to continue to maintain a drug-free workplace through implementation of these requirements.

SOLICITATION, GIVING, AND ACCEPTANCE OF GIFTS POLICY

Florida Statute 112.313 prohibits the solicitation or acceptance of Gifts. "No Public officer, employee of an agency, local government attorney, or candidate for nomination or election shall solicit or accept anything of value to the recipient, including a gift, loan, reward, promise of future employment, favor, or service, based upon any understanding that the vote, official action, or judgment of the public officer, employee, local government attorney, or candidate would be influenced thereby." The term "public officer" includes "any person elected or appointed to hold office in any agency, including any person serving on an advisory body."

The City of Hollywood/Hollywood CRA policy prohibits all public officers, elected or appointed, all employees, and their families from accepting any gifts of any value, either directly or indirectly, from any contractor, vendor, consultant, or business with whom the City/CRA does business.

The State of Florida definition of "gifts" includes the following:

- Real property or its use,
- Tangible or intangible personal property, or its use,
- A preferential rate or terms on a debt, loan, goods, or services,
- Forgiveness of indebtedness,
- Transportation, lodging, or parking,
- Food or beverage,
- Membership dues,
- Entrance fees, admission fees, or tickets to events, performances, or facilities,
- Plants, flowers or floral arrangements
- Services provided by persons pursuant to a professional license or certificate.
- Other personal services for which a fee is normally charged by the person providing the services.
- Any other similar service or thing having an attributable value not already provided for in this section.

Any contractor, vendor, consultant, or business found to have given a gift to a public officer or employee, or his/her family, will be subject to dismissal or revocation of contract.

As the person authorized to sign the statement, I certify that this firm will comply fully with this policy.

BUILD AMERICA, BUY AMERICA ACKNOWLEDGEMENT

On November 15, 2021, President Biden signed into law the Infrastructure Investment and Jobs Act (“IIJA”), Pub. L. No. 117-58, which includes the Build America, Buy America Act (“the Act”). Pub. L. No. 117-58, §§ 70901-52. The Act requires that, no later than May 14, 2022—180 days after enactment of the IIJA—the head of each covered Federal agency shall ensure that “none of the funds made available for a Federal financial assistance program for infrastructure, including each deficient program, may be obligated for a project unless all of the iron, steel, manufactured products, and construction materials used in the project are produced in the United States.”

The Act requires compliance with the following Build America, Buy America requirements regarding materials used in infrastructure projects funded in whole or in part by federal funds – except for projects where a waiver has been granted or for projects funded wholly from the American Rescue Plan Act’s Coronavirus State and Local Fiscal Recovery Funds (“SLFRF”) program:

1. All iron and steel used in the project must be produced in the United States. This means that all manufacturing processes, from the initial melting stage through the application of coatings, must occur in the United States.
2. All manufactured products used in the project must be produced in the United States. This means that all such manufactured products must be physically manufactured in the United States, and the cost of all components of such manufactured products that are mined, produced, or manufactured in the United States must be greater than fifty-five percent (55%) of the total cost of all components of the manufactured products, unless another standard for determining the minimum amount of domestic content of the manufactured products has been established under applicable law or regulation.
3. All construction materials used in the project must be manufactured in the United States. This means that all manufacturing processes for such construction material must occur in the United States.
4. The bidder for this proposed contract must include in all contracts and purchase agreements for this project the following contract language:

The Contractor hereby presents and warrants to and for the benefit of the Owner and State that: (a) the Contractor has reviewed and understands all requirements of the Build America, Buy America Act applicable to this project; (b) all of the products used in this project will be and/or have been produced in the United States in a manner that complies with the Build America, Buy America Act, unless a waiver of applicable requirement(s) is approved; and (c) the Contractor will provide any further verified information, certification, or assurance of compliance with this Acknowledgement, or information necessary to support a valid waiver of the Build America, Buy America Act, as may be requested by the Owner or the State.

DAVIS-BACON ACT ACKNOWLEDGEMENT

Contractors may be subject to the requirements of the Davis-Bacon Act when SLFRF funds are used in conjunction with another federal program that requires enforcement of the Davis-Bacon Act. For those **Contractors** receiving federal funding other than SLFRF funds for a project with a total project cost over \$10 million, the following provisions apply:

PROJECTS WITH TOTAL PROJECT COSTS OVER \$10 MILLION

1. Wage Certification

Contractors may provide a certification that all laborers and mechanics employed by Contractor in the performance of such project are paid wages at the rates not less than those prevailing, as determined by the U.S. Secretary of Labor in accordance with the Davis-Bacon Act, for the corresponding classes of laborers and mechanics employed projected of a character similar to the contract work in the civil subdivision of Florida in which the work is to be performed. If the

Contractor does not provide such certification, the Contractor must provide a project employment and local impact report detailing:

- i. The number of employees of contractors and sub-contractors working on the project;
- ii. The number of employees on the project hired directly and hired through a third party;
- iii. The wages and benefits of workers on the project by classification; and
- iv. Whether those wages are at rates less than those prevailing.

Contractor must maintain sufficient records to substantiate this information upon request.

2. Project Labor Agreements

Contractors may provide a certification that the project includes a project labor agreement, meaning a pre-hire collective bargaining agreement consistent with the section 8(f) of the National Labor Relations Act (29 U.S.C. 158(f)). If the Contractor does not provide such certification, the Contractor must provide a project workforce continuity plan, detailing:

- i. How the Contractor will ensure the project has ready access to a sufficient supply of appropriately skilled and unskilled labor to ensure high-quality construction throughout the life of the project;
- ii. How the Contractor will minimize risks of labor disputes and disruptions that would jeopardize timeliness and cost-effectiveness of the project;
- iii. How the Contractor will provide a safe and healthy workplace that avoids delays and costs associated with workplace illnesses, injuries, and fatalities;
- iv. Whether workers on the project will receive wages and benefits that will secure an appropriately skilled workforce in the context of the local or regional labor market; and
- v. Whether the project has completed a labor agreement.

3. Other Reporting Requirements

Contractors must report whether the project prioritizes local hires and whether the project has a Community Benefit Agreement, with a description of any such agreement, if applicable.

I acknowledge that I have read and understand the applicable requirements and provisions of the Build America, Buy America Act and the Davis Bacon Act and agree to comply with the terms and conditions provided herein. Additionally, I certify that I am legally authorized to sign and submit this information on behalf of the entity that is being awarded project funding. I understand that any misrepresentation or failure to disclose information requested may be grounds for recapture of grant funds awarded or received by the grant based on fraud or omission.
