**DATE:** September 9, 2025 **FILE:** 25-L-15

**TO:** Planning and Development Board

**VIA:** Anand Balram, Assistant Director/Chief Planner

**FROM:** Carmen Diaz, Planner III

**SUBJECT:** Amendment to the City's Future Land Use Map to change the land use designation of 2.03 acres of land from Medium High Residential 25 (MHRES) to Diplomat Activity Center designation.

**REQUEST:**

Amendment to the City's Future Land Use Map to change the land use designation of 2.03 acres of land from Medium High Residential 25 (MHRES) to Diplomat Activity Center designation.

**RECOMMENDATION:**

Staff recommend the Planning and Development Board, acting as the Local Planning Agency, forward this petition to the City Commission with a recommendation of ***approval*** with the following condition*:*

As part of the application process and prior to City Commission submittal, the applicant shall obtain and submit written confirmation from Broward County that a hurricane evacuation analysis is not required for hotel uses.

**BACKGROUND**

The subject site comprises approximately 2.0 net acres and is a single parcel currently occupied with a surface parking lot. The site is generally located west of South Ocean Drive and north of Hallandale Beach Boulevard.

On May 20th, 1992, the City of Hollywood approved the rezoning of the property on the east side of Ocean Drive at 3555 S. Ocean Drive from Beach Residential District (R-6A) and the Beach Business District (B-1-A) to the City of Hollywood Planned Development District (PD). The intent was to develop a resort community concept that included renovating the existing Diplomat Hotel to include 655 rooms, 386 residential units, and related commercial and recreational facilities.

In 1998 the City Commission granted approval of the Diplomat Planned Development Master Plan for the Diplomat Resort and Country Club. The complex included 19 acres with multifamily residential units, hotel rooms, convention center, retail space, and associated parking.

In 2019, the City Commission approved a Land Use Plan Amendment request (O-2019-24) to create an Activity Center, the Diplomat Activity Center, for the parcels at 3210-3450, 3451-3690, 3724, and 3555 S. Ocean Drive, which included parcels on both the east and west of South Ocean Drive and north of Hallandale Beach Boulevard. The adopted land use change included the addition of 350 multi-family units, 1,500 hotel rooms, 75,000 square feet of commercial/office spaces and 150,000 square feet of convention center space.

The Planned Development has been amended several times through the years. Most recently, August 2023, the City Commission adopted an amendment to the PD and Master Plan (O-2023-11) to add 350 multi-family units and 500 hotel rooms. These allocations were enabled through the subsequent site plan approvals of the Diplomat Condominium (R-2023-255) and Diplomat Hotel (R-2024-076).

Activity Centers are specialized land use designations recognized through the Broward County Comprehensive Plan (Broward Next) as areas with a mix of uses and development limits as determined by local government. Broward County encourages new development and redevelopment within designated activity centers and transit-oriented areas, provided these locations have adequate public facilities and services. Such development should promote a high-quality, mixed-use community with multi-modal transportation, diverse housing options (including affordable housing), green and recreational spaces, community gathering places, and a variety of services to support both residents and businesses.

**REQUEST**

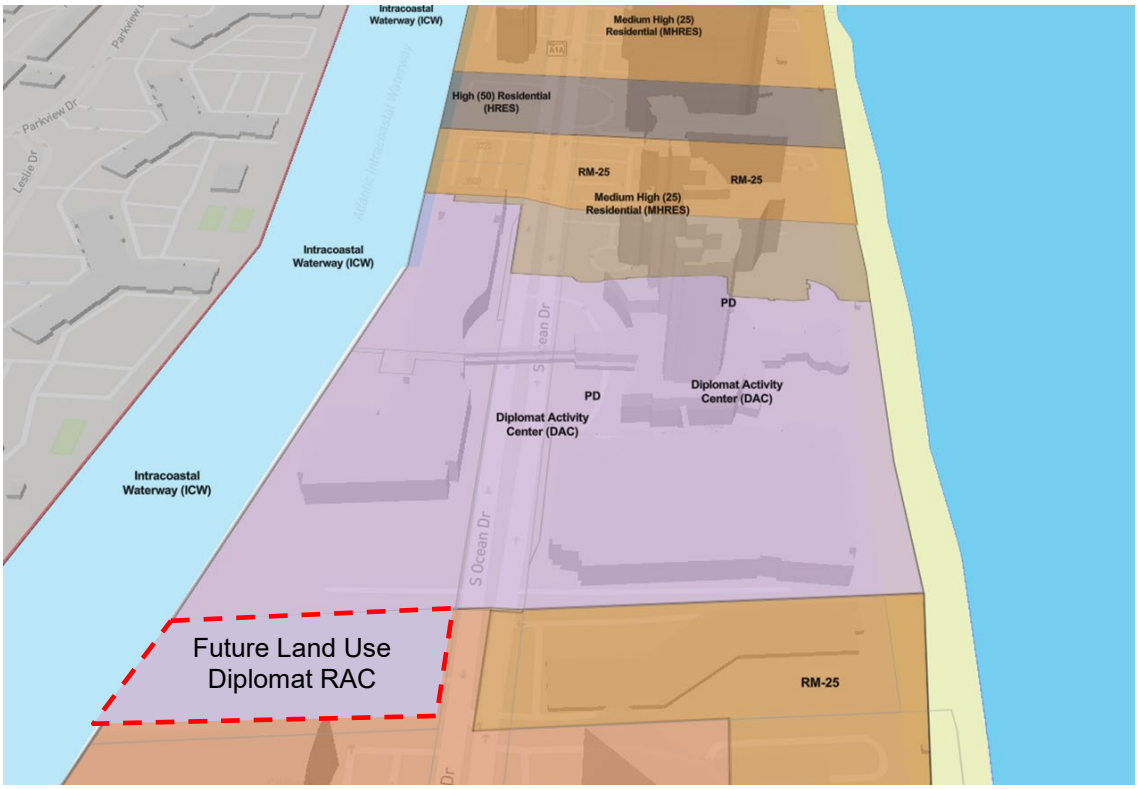
The applicant, Sea Air Owner LLC, is requesting to amend the Land Use element of the City's Comprehensive Plan to change the land use designation from Medium-High Residential 25 (MHRES) to Diplomat Activity Center and has a concurrent request with Broward County Planning Council to amend the County Future Land Use Map from Medium-High Residential 25 (MHRES) to Regional Activity Center. The site comprises one lot totaling 2.25 acres, generally located at 3726 S. Ocean Drive, including the eastern right of way of S. Ocean Drive. The property is currently used as a surface parking lot managed by the operator of the existing Diplomat Hotel and Resort facility.

Development in all Activity Centers are required by the County to be monitored and tracked to ensure compliance with the capacities outlined in the County's Comprehensive Plan. As it pertains to the Diplomat Activity Center, the adopting ordinance, O-2019-24, has the following development limits:

- 75,000 square feet of commercial/office;
- 350 multi-family dwelling units;
- 1500 hotel rooms; and,
- 150,000 square feet of Convention Center.

The requested Land Use Plan Amendment would add 300 hotel rooms to the southwest side of the Activity Center (and of the Master Development Plan), increasing the total hotel counts within the Activity Center to 1,800 hotel rooms (including the 386 units and 655 hotel rooms that existed pre-establishment of the Activity Center in 2019). See Attachment D for the updated Diplomat Activity Center tally.

***Figure 1: Proposed Amendment to the City's Future Land Use Map***



Regarding programming, the applicant is proposing the following future uses on the property:

- Hotel: 300 rooms
- Restaurant/Café: 1,400 S.F.
- Merchandise/Sundries: 1,100 S.F.

The Applicant intends to seek approval for an additional 300 hotel units and 2,500 square feet of commercial spaces on the amendment parcel, which will need to be achieved by future rezoning and site plan approvals. The proposed land use designation will help bring the project to fruition, augmenting the use of the property to provide additional commercial inventory and choice within the City.

The Applicant states the intent of the proposed amendment is *"to continue the vision of The Diplomat Activity Center which was previously approved in June 2019. This project will further the utilization of the convention center at The Diplomat Beach Resort as well as amenities and points of interest in the surrounding area."* The applicant's proposal contemplates additional open space on the property through the southward continuation of the existing intracoastal boardwalk on the Diplomat property to the north and publicly accessible boardwalk parallel to the Intracoastal Waterway.

The proposed amendment promotes a mix of land uses that will enhance the surrounding community and allow the landowners to maximize the use of their property, as suggested in the Goals of the City's Comprehensive Plan. This will provide additional redevelopment opportunities and will allow for a mix of uses that will better support the City's economy and tourism. The proposed amendment also supports

the City-Wide Master Plan guiding principle to "*promote the highest and best use of land in each sector of the City without compromising the goals of the surrounding community".*

**TRAFFIC IMPACT**

Kimley Horn and Associates Inc. conducted a traffic impact study for the requested Land Use Plan Amendment, dated April 2025. The study evaluated existing and future traffic conditions as it pertains to the new land uses requested for the subject site, identifying a projected increase of 2,414 daily trips (up from 200). Key intersections and segments were analyzed, with no significant impact found on surrounding roadway segments under the 2025 or 2045 planning horizons

Findings include:

- Trip Generation Impact:
  - Daily trips increase by 2,414 (from 200 to 2,614).
  - PM peak hour trips increase by 159 (from 20 to 179).

- Traffic Distribution:
  - 35% of site traffic accesses from the north on South Ocean Drive.
  - 18% from the south on South Ocean Drive.
  - 47% from the west on Hallandale Beach Boulevard.

**HURRICANE EVACUATION ANALYSIS**

The amendment site is located within a designated hurricane evacuation zone. In coordination with Broward County, staff are confirming whether a hurricane evacuation analysis is required pursuant to the County Comprehensive Plan. To ensure compliance with County requirements, a condition of approval has been included requiring the applicant to provide documentation from Broward County verifying whether such an analysis is necessary prior to City Commission consideration.

**CONSISTENCY WITH THE COMPREHENSIVE PLAN**

The intent of the Land Use Element of the Comprehensive Plan is to lay out a broad physical plan for the future development of the city. This is the only element describing appropriate locations for future Land Use and declares the policies regulating their location and development. The Land Use Element takes into consideration factors affecting current development trends. The proposed amendment is consistent with the following policies of the Comprehensive Plan:

**Land Use Element:**

***Goal:*** *Promote a distribution of Land Uses that will enhance and improve the residential, business, resort and natural communities while allowing land owners to maximize the use of their property.*

***Policy 1.3:*** *Maintain the City Code or Zoning and Development regulations to require that all new and existing unsewered development, where practical and financially feasible, including new residential units, be connected to the sewer system.*

***Policy 3.1.6:*** Create development nodes at major intersection where opportunity exists for larger parcels to be assembled for redevelopment (CWMP Policy 1.6)

***Objective 3.2:*** *Assist, coordinate and monitor adjacent municipalities' land development efforts along major thoroughfare corridors and, when feasible, implement plans, Capital Improvement Projects and other programs to supplement and enhance economic development, land use changes, streetscape design, and infrastructure service improvements along these corridors.*

***Policy 7.4:*** *Maintain the level of service for the City's park and open space standard of 3 acres per 1000 population to assess adequacy of service.*

***Policy 7.14:*** *Continue to provide enough potable water for a year-round water supply without mining the aquifer and encouraging more saltwater intrusion.*

***Policy 7.41:*** *Coordinate traffic circulation with future Land Use designations as specified by the City's Land Use Plan by reviewing traffic impacts during the development review process and by coordinating with County and State Governments.*

***Policy 8.12:*** *The compatibility of existing and future Land Uses shall be a primary consideration in the review and approval of amendments to the Broward County and City Land Use plans.*

**CONSISTENCY WITH THE CITY-WIDE MASTER PLAN:**

The project is located in Sub-Area 4, Hollywood Beach, is defined by the Atlantic Ocean to the east, the Intracoastal Waterway to the west, Hallandale Beach Boulevard to the south and Dania Beach Boulevard to the north. The beach is comprised of three very distinct areas, North Bech, Central Beach and South Beach which could be broken down further into sub-sectors of activity.

***Guiding Principle:*** *Promote the highest and best use of land in each sector of the City without compromising the goals of the surrounding community.*

***Guiding Principle:*** *Preserve stable single-family neighborhoods while providing alternative housing options that will meet the needs of all residents in the City of Hollywood.*

***Guiding Principle:*** *Preserve, protect and enhance existing open spaces and recreation facilities both public and private.*

***Policy CW.44:*** *Foster economic development through creative land use, zoning and development regulations, City services and City policies.*

**SUMMARY OF FINDINGS:**

1. Pursuant to the City's Comprehensive Plan as identified, Staff finds the proposed Land Use change from to Medium-High (25) Residential (MHRES) to Diplomat Activity Center to be consistent with the City's Comprehensive Plan.

2. Pursuant to the City-Wide Master Plan Guiding Principles as identified, Staff finds the proposed Land Use change from to Medium-High (25) Residential (MHRES) to Diplomat Activity Center, to be consistent with the City-Wide Master Plan.

Additional review will be required during the Rezoning and Site Plan approval process to ensure consistency with the Zoning and Land Development Regulations and the City's vision.

**Re: Sea Air Tower, LLC / Response to Planning Comments/ Proposed Small Scale Land Use Plan Amendment – Diplomat Activity Center – Phase III/ Planning Rationale**

Dear Ms. Diaz:

This letter is provided to you as a planning rationale for Sea Air Tower, LLC's request to re-designate Property with an address of 3726 S. Ocean Blvd (the "Property") to Diplomat Activity Center ("DAC"). The re-designation will permit the development of a Hotel of 300 rooms, a restaurant/café of 1,400 square feet, and a merchandise and sundry shop of approximately 1,100 square feet. The proposed re-designation aligns with several goals, objectives, and policies of the City of Hollywood's Comprehensive Plan:

Goal 1: Promote a distribution of land uses that will enhance and improve the residential, business, resort and natural communities while allowing land owners to maximize the use of their property.

**The redesignation of the Property will improve the business, resort and natural communities while allowing the land owner to maximize its use of the Property. The addition of 300 hotel rooms will enhance the local economy by attracting more visitors, creating jobs, and generating additional revenue for the City. The addition of 300 hotel rooms will attract more visitors, boosting local businesses and creating job opportunities. This economic growth will benefit both residential and business communities by increasing demand for local services and amenities. In addition, the new hotel units will complement the existing 1,000-room hotel, the approved 500-unit hotel, and the 135,000 square foot convention center found in the Diplomat Activity Center (DAC) today. This will enhance Hollywood's capacity to host large events and conventions, making it a more competitive destination for tourists and business travelers.**

**Additionally, the re-designation will generate additional revenue through the Tourist**

**Development Tax, which can be used for beach renourishment projects. This helps to provide more dollars to ensure that the beaches, a key attraction for the resort community, are well-maintained and continue to draw visitors.**

**More importantly, the re-designation allows the Property Owner to maximize its use of the Property by developing it into a high-value property. The proposed development will add valuable and – much needed—hotel units in the DAC, which is a mixed-use area that integrates residential, commercial, and recreational spaces. The re-designation will also help to activate an additional area of the intracoastal broadwalk, further enhancing the recreational opportunities for the City's residents and visitors.**

Policy 1.3: Maintain the City Code or Zoning and Development regulations to require that all new and existing unsewered development, where practicable and financially feasible, including new residential units, be connected to the sewer system

**The re-designation of the Property to DAC will redevelop the Property and ensure that it is connected to the existing sewer system.**

Objective 4: Promote improved architectural and streetscape design standards, code enforcement, economic development, neighborhood planning, and public information dissemination to maintain and enhance neighborhoods, businesses, and tourist areas.

Objective 5: Encourage appropriate infill redevelopment in blighted areas throughout the City and economic development in blighted businesses and tourist areas by promoting improved architectural and streetscape design standards, code enforcement, economic development, neighborhood planning, and public information dissemination.

**Objective 4 and 5 seek to encourage appropriate infill redevelopment in blighted areas and promote economic development in blighted businesses and tourist areas through improved architectural standards and enhanced economic development, which is exactly what this redesignation will accomplish. The redesignation meets this objective because it will convert the Property from an unattractive and underutilized surface parking lot to an architecturally pleasing hotel, significantly enhancing the visual appeal of the area. The new hotel will feature modern and aesthetically pleasing architectural design standards. Furthermore, the hotel will feature an intracoastal broadwalk as a public amenity, providing residents and visitors with a scenic and accessible space for recreation and leisure.**

**The addition of 300 hotel rooms will attract more visitors, boosting local businesses and creating job opportunities. This economic growth will benefit both residential and business communities. Increased tourism will also generate additional revenue through the Tourist Development Tax, which can be used for beach renourishment projects, further enhancing the attractiveness of Hollywood's beaches.**

Objective 6: Encourage multi-use areas and mixed uses concentrations of density near existing or planned major employment centers and major transportation routes in order to promote energy conservation and mass transit, preserve air quality, reduce the cost of services, encourage affordable housing, and promote economic development.

**The re-designation of the Property will further integrate residential, commercial, and recreational spaces, enhancing the vibrant mixed-use area that comprises the DAC. The majority of the DAC is also part of the Community Redevelopment Area (CRA). Redesignating this Property**

**will increase the overall attractiveness and value of the area, generating additional funds that can be utilized for affordable housing initiatives through the increased taxes created in the area abutting the Property. The addition of 300 hotel rooms will attract more visitors, boosting the local economy and supporting the tourism and hospitality sector.**

In short, the proposed re-designation of the Property to Diplomat Activity Center aims to permit the development of 300 hotel rooms. The proposed units will help the City continue to provide world-class service through accommodations that are within the City. This area already hosts a 1,000-room hotel, an approved 500-unit hotel, and a 135,000 square foot convention center, making it a prime location for additional hotel accommodations that will serve as a natural enhancement to the existing residential, hospitality, and recreational accommodations provided for in the DAC.

Sincerely,

Pedro Gassant, Esq.

**D. Applicant's rationale for the amendment. The Planning Council requests a condensed version for inclusion in the staff report (about two paragraphs). Planning Council staff may accept greater than two paragraphs, if submitted in an electronic format.**

The subject property, legally described on **Exhibit A** (the "Property") is currently designated "Medium-High (25) Residential" on the Broward County Land Use Plan Map. The Property is currently designated "Medium/High Residential 16-25 Units" on the City of Hollywood Future Land Use Plan Map. The City of Hollywood Future Land Use Plan Map is in the process of being amended to be consistent with the Broward County Land Use Plan Map. The applicant is requesting to change the current future land use designation of the Property to "Activity Center" on the Broward County Land Use Plan and "Diplomat Activity Center" on the City Land Use Plan. The proposed development program is shown below:

**Amendment Site:** 3726 South Ocean Drive

**Acreage**: Approximately 2.03 gross acres and 1.96 net acres

**General Location**: North of the Intersection of South Ocean Drive and Hallandale Beach Boulevard and south of Magnolia Terrace on west side of South Ocean Drive.

**Contemplated Development Program**:

**Activity Center:**

- Hotel: 300 rooms;
- Restaurant/Café: 1,400 SF
- Merchandise/Sundries: 1,100 SF

The purpose of the land use plan amendment is to continue the vision of The Diplomat Activity Center which was previously approved in June 2019. This project will further the utilization of the convention center at The Diplomat Beach Resort as well as amenities and points of interest in the surrounding area.

The proposed "Diplomat Activity Center" future land use designation is consistent with the Broward County Land Use Plan ("BCLUP"), including Strategy TR-1 (prioritizing new development and redevelopment including reference to the major transit corridors), Strategy MM-2 (recognizing the linkages between transportation and housing), and Strategy EP-4 (providing recreation and open space that is compatible to the area and meets the needs of residents and visitors).

The Property is ideally located south of The Diplomat Activity Center and will provide supporting uses such as condo-hotel units and public open spaces within a defined setting that will enhance the opportunities to utilize and achieve the aforementioned strategies. In addition, the increase in development can be supported by the area's existing public infrastructure including water, wastewater, transportation, parks and recreation facilities, stormwater, etc.

## 3. AMENDMENT SITE DESCRIPTION

**A. Concise written description of the general boundaries and gross acreage (as defined by BCLUP) of the proposed amendment.**

The amendment site encompasses 2.2 gross acres/2.0 net acres located in the City of Hollywood (the "City"). The amendment site is generally located north of Hallandale Beach Boulevard and south of Magnolia Terrace on the west side of South Ocean Drive.

**B. Sealed survey, including legal description of the area proposed to be amended.**

The survey with legal description of the amendment site is provided. See **Exhibit A.**

**C. Map at a scale clearly indicating the amendment's location, boundaries and proposed land uses.**

The location map indicating the amendment site boundaries and proposed land use is provided. See **Exhibit B.**

## 4. EXISTING AND PROPOSED USES

**A. Current and proposed local and Broward County Land Use Plan designation(s) for the amendment site. If multiple land use designations, describe gross acreage within each designation. For Activity Center amendments, the proposed text indicating the maximum residential and nonresidential uses must be included.**

| Table 1: Land Uses | | | | | |
|---|---|---|---|---|---|
| Existing Land Use | | BCLUP Acres (gross/net) | BCLUP DU (gross/net) | City Acres (gross/net) | City DU (gross/net) |
| Medium-High (25) Residential | | 2.2/2.0 | 55 | 2.2/2.0 | 55 |
| Proposed Future Land Use | | | | | |
| County FLU | Activity Center | City FLU | Diplomat Activity Center | | |

| Hotel: 300 rooms | | | | | |
| Restaurant/Café: 1,400 SF | | | | | |
| Merchandise/Sundries: 1,100 SF | | | | | |

Maps of the current City and County future land use designations are provided. See **Exhibit C.**

**B. Indicate if the flexibility provisions of the Broward County Land Use Plan have been used for adjacent areas.**

The flexibility provisions have not been utilized for the adjacent areas.

**C. Existing use of amendment site and adjacent areas.**

The existing uses of the amendment site and adjacent areas are provided in **Table 2** below:

| Table 2: Existing Uses | |
|---|---|
| Amendment Site | Parking lot |
| North | Vacant lot, parking garage |
| South | Multi-family residential |
| West | Waterway, multi-family residential |
| East | Multi-family residential |

**D. Proposed use of the amendment site including proposed square footage (for analytical purposes only) for each non-residential use and/or dwelling unit count. For Activity Center amendments, also provide each existing non-residential use square footage and existing dwelling units for amendment area.**

The uses within the amendment area will be limited to those in **Table 3** below:

| Table 3: Proposed Uses | | | |
|---|---|---|---|
| Proposed Future Land Use | | | |
| County FLU | Activity Center | City FLU | Diplomat Activity Center |
| **Use** | | **Proposed Intensity** | |
| Hotel | | 300 rooms | |
| Restaurant/Café | | 1,4000 SF | |
| Merchandise/Sundries | | 1,100 SF | |

Maps of the proposed City and County future land use designations are provided. See **Exhibit D.**

**E. Maximum allowable development per local government adopted and certified municipal land use plans under existing designation for the site, including square footage/floor area ratio/lot coverage/height limitations/ for each non-residential use and/or dwelling unit count.**

The existing land use designation consists of 2.2 gross acres (2.0 net acres) of Medium-High (25) Residential (County land use)/Medium/High Residential 16-25 Units (City land use). Per the City of Hollywood's Comprehensive Plan, the total dwelling unit count for the property is 55 for the Medium/High Residential 16-25 Units (City land use) designation.

## 5. ANALYSIS OF PUBLIC FACILITIES AND SERVICES

### A. Potable Water Analysis

**1. Provide the potable water level of service per the adopted and certified local land use plan.**

Per the City of Hollywood Comprehensive Plan (2008), Water Sub Element, the level of service

(LOS) standard for water facilities shall be the Florida Department of Environmental Protection permitted capacity of the facility measured by maximum daily flow.

2. **Provide the adoption date of the local government's 10 Year Water Supply Facilities Plan.**

   The City of Hollywood Water Supply Plan, Potable Water Sub-Element was adopted in June 2020.

3. **Identify the potable water facility serving the area in which the amendment is located including the current plant capacity, current and committed demand on the plant and planned plant capacity expansions, including year and funding sources. Identify the well field serving the area in which the amendment is located including the South Florida Water Management District (SFWMD) permitted withdrawal and expiration date of the SFWMD permit.**

   The facility serving the subject location is the City of Hollywood Water Treatment Plant, PWS ID NO. 4060462. The permitted capacity is 59.50 MGD. The current and committed demand comprise approximately 28.398 MGD. There are no planned plant capacity expansions at this time.

   Both City Wellfields and the Broward County South Regional Wellfield provide water from the Biscayne and Floridan aquifers. The City maximum permitted withdrawal is 30.7 MGD from the Biscayne Aquifer and 8.7 MGD from the Floridan Aquifer. SFWMD WATER USE PERMIT 06-00038-W expires on April 10, 2028.

4. **Identify the net impact on potable water demand, based on adopted level of service, resulting from the proposed amendment. Provide calculations, including anticipated demand per square foot or dwelling unit.**

5. **Correspondence from potable water provider verifying the information submitted as part of the application on items 1-3 above. Correspondence must contain name, position and contact information of party providing verification.**

   The letter from the potable water provider is included as **Exhibit E**.

**B. Sanitary Sewer Analysis**

1. **Provide the sanitary sewer level of service per the adopted and certified local land use plan.**

   Per the City of Hollywood Comprehensive Plan, Sanitary Sub Element, the level of service (LOS) standard for wastewater facilities shall be the Florida Department of Environmental Protection Permitted Capacity for the facility measured by average daily flow.

2. **Identify the sanitary sewer facilities serving the area in which the amendment is located including the current plant capacity, current and committed demand on the plant and planned plant capacity expansions, including year and funding source.**

   The facility serving the subject location is within City of Hollywood. The name of the treatment

plant is the Southern Regional Wastewater Treatment Plant (SRWWTP), per DEP Permit Number FL0026255-025-DWIP. The permitted capacity is 55.5 MGD. The current demand is 39.2 MGD, the committed demand is 5.2 MGD. There are no planned capacity expansions at this time.

3. **Identify the net impact on sanitary sewer demand, based on the adopted level of service, resulting from the proposed amendment. Provide calculations, including anticipated demand per square foot or dwelling unit.**

| Table 6: Sewer Demand Existing Land Use Designation | |

4. **Correspondence from sanitary sewer provider verifying the information submitted as part of the application on items 1-3 above. Correspondence must contain name, position and contact information of party providing verification.**

The letter from the sanitary sewer provider is included as **Exhibit F**.

**C. Solid Waste Analysis**

1. **Provide the solid waste level of service per the adopted and certified local land use plan.**

The adopted level of service for the proposed uses are as follows:

| | |
|---|---|
| Residential | 8.9 pounds per unit per day |
| Retail/Service | 4 pounds per day per 100sf |

2. **Identify the solid waste facilities serving the service area in which the amendment is located including the landfill/plant capacity, current and committed demand on the landfill/plant capacity and planned landfill/plant capacity.**

The City of Hollywood has a collection agreement with Waste Connections, which transports the City's solid waste to the Waste Connections Pembroke Parks Transfer Station located at 1899 SW 31st Ave. The Final disposal is at Waste Connection's JED/OMNI Landfill in St. Cloud Florida. The landfill is licensed under FDEP Permit No. 0199726-033-SO-01, issued on June 13, 2017, and expiring on June 13, 2027. The landfill is permitted for 81,505,530 Cubic Yards. Approximately 5,800-6,200 tons of waste are deposited each day. The Facility's 20-year projection shows a remaining capacity of 3,852,819 cubic yards (4.7%) in the year 2038.

3. **Identify the net impact on solid waste demand, based on the adopted level of service, resulting from the proposed amendment. Provide calculations, including anticipated demand per square foot or dwelling unit.**

| Table 8: Total Solid Waste Demand Existing Land Use Designation | |
|---|---|
| Folio: 5142-26-00-0011<br>Parcel: 2.2 Gross Acres<br>Vacant lot/Parking lot | 0 lbs/day |

| ***NET CHANGE*** | ***+2,770 lbs. per day*** |

4. **Correspondence from the solid waste provider verifying the information submitted as part of the application on items 1-3 above. Correspondence must contain name, position and contact information of party providing verification.**

See attached letter for solid waste as **Exhibit G**.

**D. Drainage Analysis**

1. **Provide the drainage level of service per the adopted and certified local land use plan.**

   The City has adopted the following LOS Standards for Drainage per the SFWMD and Broward County Requirements:

   - 5-year 1 day for parking lot protection
   - 10-year 24 hour storm for minimum crown of road
   - 25-year 72 hour for attenuation requirement, allowable discharge and perimeter berm elevation
   - 100-year 72 hour (zero discharge) for minimum finish floor elevation

2. **Identify the drainage district and drainage systems serving the amendment area.**

   The proposed site does not fall within an existing drainage district and is therefore subject to the permitting requirements of the South Florida Water Management District (SFWMD) and the Broward County Environmental Permitting Division, Surface Water Management Licensing Program (BCSWMLP). The SFWMD has delegated review of projects within Broward County not associated with a drainage district to the BCSWMLP who will review the project and issue both a SFWMD permit and SWML permit.

3. **Identify any planned drainage improvements, including year, funding sources and other relevant information.**

   The subject property was not identified as having any existing drainage issues and no capital improvements are proposed for the associated drainage basin covered under the master drainage permit.

4. **Indicate if a Surface Water Management Plan has been approved by, or an application submitted to, the SFWMD and/or any independent drainage district, for the amendment site. Identify the permit number(s), or application number(s) if the project is pending, for the amendment site. If an amendment site is not required to obtain a SFWMD permit, provide documentation of same.**

   The proposed project has not yet been submitted to the BCSWMLP for review at this time. The proposed project will require a full permit submittal to the county for review and approval. All county, state and City requirements will be met at the time of permit submittal.

5. **If the area in which the amendment is located does not meet the adopted level of service and there are no improvements planned (by the unit of local government or drainage authority) to address the deficiencies, provide an engineering analysis which demonstrates how the site will be drained and the impact on the surrounding properties. The information**

**should include the wet season water level for the amendment site, design storm elevation, natural and proposed land elevation, one-hundred-year flood elevation, acreage of proposed water management retention area, elevations for buildings, roads and years, storage and runoff calculations for the design storm and estimated time for flood waters to recede to the natural land elevation.**

The stormwater management system that will be designed and constructed in conjunction with the proposed development will meet all applicable governmental drainage standards. Per the existing 2024 FEMA flood map the Subject Property lies within an AE flood zone with a base elevation of 7.00 NAVD. The Finish Floor elevation for the proposed building will be the higher of the following:

FEMA Flood Base Flood Elevation Plus 1 = 8.00 NAVD

County's Future Conditions 100-year flood elevation map 5.00 NAVD

Calculated 100-year 3 day (zero discharge) peak elevation utilizing pre vs post criteria.

Due to the nature of the material on site, as well as the FEMA Flood Base Flood Elevation of 7.00 NAVD, we are proposing that the finish floor elevations be set at 8.00 NAVD.

See attached drainage calculations in **Exhibit H**.

6. **Correspondence from local drainage district verifying the information submitted as part of the application on items 1-5 above. Correspondence must contain name, position and contact information of party providing verification.**

The project site does not contribute to a drainage district.

**E. Recreation and Open Space Analysis**

1. **Provide the recreation level of service per the adopted and certified local land use plan.**

The adopted level of service for recreation and open space in both the City (Code of Ordinances Chapter 32, Article VI, Division 3, Section 32-887) and Broward County (Broward County Future Land Use Plan Element Strategy EP-4) is 3 acres per 1,000 residents.

2. **For amendments which will result in an increased demand for "community parks" acreage, as required by the Broward County Land Use Plan, an up-to-date inventory of the municipal community parks inventory must be submitted.**

The project will not result in an increase demand for "community parks" acreage as the proposed development program does not include residential uses.

**3. Identify the net impact on demand for "community parks" acreage, as defined by the Broward County Land Use Plan, resulting from this amendment.**

The project will not result in an increase demand for "community parks" acreage as the proposed development program does not include residential uses.

**4. Identify the projected "community parks" acreage needs based on the local government's projected buildout population.**

Table 10: Community Park Needs

| Planning Horizon | Population (Projected)[1] | Park Acreage Demand (amount needed to maintain LOS) | Available[2] | Surplus (+) / Deficit (-) acreage |
|---|---|---|---|---|
| 2020 | 151,818 | 455.45 acres | 734.64 | + 279.19 acres |
| 2025 | 154,582 | 463.75 acres | 734.64 | + 270.89 acres |
| 2030 | 156,063 | 468.19 acres | 734.64 | + 266.45 acres |

(1) Estimates and projections by Shimberg Center for Housing Studies, based on 2000 and 2010 U.S. Census data and population projections by the Bureau of Economic and Business Research, University of Florida.

(2) Source: Broward County GIS

Based on this analysis, the City has adequate parks and open space facilities to meet the anticipated population in both the short term and long term planning horizons.

There are 40 city-owned parks located with 5 miles of the Property ranging in size from 0.11 acres to 260 acres of the amendment site. There are 15 parks within 2 miles of the amendment site. The following parks are located within approximately 1 miles of the amendment site:

**Mini-Neighborhood Parks**

- Keating Park – 0.12 acres
- Harry Berry Park – 0.80 acres
- Hollywood South Beach Cultural Center – 0.98 acres

**Community Parks**

- Three Island Park – 11.45 acres

**County Parks within 5 miles:**

- Sheridan St. Addition – 5.36 acres
- Sheridan St. ESL – 12.45 acres

- Hollywood North Beach – 92.11 acres
- Topeekeegee Yugnee Park – 138.75 acres
- West Lake Park – 1,476.44 acres

**5. As applicable, describe how the local government and/or applicant are addressing Broward County Land Use Plan Policies 2.5.4 and 2.5.5. (a. through e.) regarding the provision of open space.**

POLICY 2.5.4 Broward County shall strongly encourage the preservation of open space areas. Amendments to the Broward County Land Use Plan which would result in the loss of open space shall be strongly discouraged and be required to address how open space and recreation needs of the existing and projected residents of the community will be met, including how the negative impacts of the loss of open space on surrounding neighborhoods will be minimized or mitigated.

Currently a surface parking lot, the property does not meet the open space or recreation needs of the existing community. Redevelopment of the property will provide green/open space opportunities and multi-modal connectivity that align with community needs.

The Property does not contain golf courses therefore POLICY 2.5.5 is not applicable. The re-designation of the Property, however, will create open spaces on the Property through a linear park and publicly accessible broadwalk parallel to the Intracoastal Waterway.

## F. Traffic Circulation Analysis

**1. Identify the roadways impacted by the proposed amendment and indicate the number of lanes, current traffic volumes, adopted level of service and current level of service for each**

Major roadways serving the amendment site include:

- South Ocean Drive (SR-A1A)
- Hallandale Beach Boulevard (SR-858)

***Broward County***

The amendment site is located within the Southeast Concurrency District which is subject to the provisions of the Broward County Transportation Concurrency System. Therefore, the level of service standard determined by the Broward County Development Review Services was considered for this analysis. The level of service standard for all roadways within the impact area is LOS D for long range planning purposes.

***City of Hollywood***

The City of Hollywood recognizes the County's LOS D standards in their adopted Comprehensive Plan. In addition, the level of service standard, corresponding service volumes, existing (2020) peak hour volume and existing (2020) level of service for the surrounding roadway network are summarized in **Table 11**. Note that existing (2020) traffic volumes utilized in the analysis

represent the latest available traffic volumes from the Broward County Metropolitan Planning Organization's (MPO) *Level of Service Spreadsheet-2020*.

Table 11: Existing (2020) Peak Hour Conditions LOS Analysis

| Hallandale Beach Boulevard | East of US 1 E of Pine Island Road | 6LA | 5,390 | 3,420 | C | 59,900 | 36,000 | C |

**2. Identify the projected level of service for the roadways impacted by the proposed amendment for the long-range planning horizons. Please utilize average daily and P.M. peak hour traffic volumes per Broward County Metropolitan Planning Organization plans and projections.**

The projected level of service for the short-term (i.e., 2025) planning horizon was determined using linear interpolation of the currently available (2020) peak hour volumes and the long-term (2045) peak hour volumes to obtain the short-term peak hour volume. Once the interpolated value was obtained, FDOT's 2020 *Quality/Level of Service Handbook* was used to find the appropriate level of service standard. The level of service for the short-term planning horizon is summarized in **Table 12**.

Long-term (2045) projected level of service was determined using 2045 traffic volume forecasts obtained from the Broward Country MPO's *Level of Service Spreadsheet-2020*. The level of service for the long-term planning horizon is summarized in **Table 13.**

3. **Planning Council staff will analyze traffic impacts resulting from the amendment. The applicant may provide a traffic impact analysis for this amendment – calculate anticipated average daily and pm peak hour traffic generation for the existing and proposed land use designations. If the amendment reflects a net increase in traffic generation, identify access points to/from the amendment site and provide a distribution of the additional traffic on the impacted roadway network for the long-range planning horizon.**

   The trip generation potential for the amendment site was calculated using rates reported by the Institute of Transportation Engineers' (ITE) Trip Generation Manual, 11th Edition. The existing land use designation allows for 55 dwelling units. The proposed land use designation allows for a maximum of 300 hotel rooms and 1,400 s.f of restaurant use.

   The site trip generation potential under existing conditions was evaluated using ITE LUC 221 (Multifamily Housing [Mid-Rise]). The site trip generation potential under the proposed conditions was evaluated utilizing ITE LUC 310 (Hotel).

   The proposed amendment is expected to generate 1,207 more inbound trips and 1,207 more outbound trips, resulting in a total increase of 2,414 trips daily, and 79 more inbound trips and

80 more outbound trips, resulting in a total increase of 159 trips during the P.M. peak hour. A summary of the trip generation rates and calculations is presented in **Table 14**. Detailed trip generation calculations are presented in **Exhibit I**.

Source: ITE *Trip Generation Manual*, 11th Edition.

External amendment traffic was distributed to the surrounding roadway network based on a select zone analysis performed utilizing the Florida Standard Urban Transportation Model Structure (FSUTMS) Southeast Regional Planning Model (SERPM).

It is expected that 35 percent (35%) of project traffic will access the site to/from the north on South Ocean Drive, 18 percent (18%) of project traffic will access the site to/from the south on South Ocean Drive, and 47 percent (47%) of project traffic will access the site to/from the west on Hallandale Beach Boulevard. The FSUTMS SERPM output of the external amendment traffic distribution is contained in **Exhibit J**.

Impacts to the surrounding roadway network were evaluated to identify specific links that would be both significantly and adversely impacted as a result of the increase in project traffic associated with the proposed land use plan amendment. Links were considered to be significantly impacted if the proposed land use amendment contributed net new external trips in excess of 3.0 percent (3.0%) of the roadway's maximum service volume reported in the Broward County MPO's Level of Service Spreadsheet-2020. This approach is consistent with the current methodology for impact determination used by the Broward County Planning Council. Significantly impacted links were considered to be adversely impacted when the total traffic volume reported for the horizon year exceeded the maximum service volume reported for the appropriate level of service standard. The short-term (2025) and long-term (2045) analyses are summarized in **Table 15** and **Table 16**.

Based on the short-term (2025) and long-term (2045) analyses, the roadway segments will not be significantly impacted by the development.

**4. Provide any transportation studies relating to this amendment, as desired.**

No supplemental studies are being provided at this time. A site-specific Traffic Study will be prepared at a later date during the site plan entitlement process.

## G. Mass Transit Analysis

**1. Identify the mass transit modes, existing and planned mass transit routes and scheduled service (headway) serving the amendment area within one-quarter of a mile.**

Existing Broward County Transit (BCT) Bus Service

- Broward County Transit (BCT) Route 4 operates along South Ocean Drive and Hallandale Beach Boulevard within the vicinity of the amendment. This route serves RK Diplomat Center, Hollywood North Beach Park, The Casino at Dania Beach, Dania Beach Fishing Pier, International Game Fish Association, Hollywood Beach Boardwalk, Dania Beach City Hall, and The Big Easy Casino/Mardi Gras Casino. Route 4 operates with approximately 40-minute headways in both the northbound and southbound direction during the P.M. peak hours within the vicinity of the amendment.
- BCT Cloud Bus Route 1 operates as a circulator along Hallandale Beach Boulevard within the

vicinity of the amendment. This route serves Hallandale Beach Boulevard Wal-Mart, Diplomat Mall, Winn-Dixie, Hallandale Beach City Hall, and Hallandale Beach Branch Public Library, the Big Easy Casino, Young Circle, Publix Golden Isles, Ocean Drive/County Line, and the North Beach Fire Station and surrounding neighborhood. Cloud Bus Route 1 operates with approximately 30-minute headways during the P.M. peak hours.

Planned Mass Transit Routes

- There are no mass transit routes planned to operate on South Ocean Drive or Hallandale Beach Boulevard within the vicinity of this project.

Detailed route information described above is provided in **Exhibit K**.

**2. Describe how the proposed amendment furthers or supports mass transit use.**

It is anticipated that the proposed development will support mass transit use as it is located within ¼ mile of one (1) existing Broward County Transit bus route and one (1) BCT Cloud bus route. It is expected that a portion of residents, employees, patrons, and guests will choose to use public transit to and from the proposed redevelopment.

**3. Correspondence from transit provider verifying the information submitted as part of the application on items 1-2 above. Correspondence must contain name, position and contact information of party providing verification.**

A copy of correspondence sent to BCT is presented as **Exhibit L.**

**H. Public Education Analysis**

**1. Public School Impact Application (School Consistency Review Report)**

A letter exempting the project from Public School concurrency was issued since there are no residential units as part of the proposed development program to generate any students.

See **Exhibit M** for a copy of the exemption letter received from the School Board of Broward County Facility Planning and Real Estate Department.

**2. The associated fee in the form of a check made payable to the SBBC.**

The Public School Impact Application and payment were submitted to the School Board of Broward County. Please see **Exhibit M** for a copy of the School Consistency Review Report received from the School Board of Broward County Facility Planning and Real Estate Department.

## 6. ANALYSIS OF NATURAL AND HISTORIC RESOURCES

### A. Historic sites or districts on the National Register of Historic Places or locally designated historic sites.

A review of the records of the Florida Department of State, Division of Historical Resources, State Historic Preservation Officer (SHPO), and the Broward County Historical Commission indicates no historical sites listed with the National Register of Historic Places (NRHP) are located within the amendment site. One (1) resource group (SR-A1A; Site ID: BD04776) has been identified within the 0.25-mile buffer area of the project site, however this resource is not eligible for listing within the NRHP. Additionally, this project will not impact SR A1A. Therefore, the proposed plan amendment would not impact any historic resources.

### B. Archaeological sites listed on the Florida Master Site File

A review of the Records of the Florida Master Site File by the Department of State, Division of Historical Resources, SHPO indicates there are no archeological sites located within or adjacent to the amendment site. Therefore, this project is unlikely to impact any archaeological resources.

### C. Wetlands

Field reconnaissance was conducted on November 22, 2024. No wetlands or surface waters were present within the amendment site. Habitats on-site were mapped utilizing the Florida Land Use, Cover and Forms Classification System (FLUCFCS). A FLUCFCS Map depicting the land uses is attached as **Exhibit N**. The land use consists of impervious surfaces, specifically a concrete paved private parking lot enclosed by a chain link fence. The Intracoastal Waterway (ICWW) borders the site to the west. There is an existing concrete seawall with a four (4) foot concrete cap and concrete piles. Vegetation observed within the site consist of canopy and groundcover species including cabbage palm (*Sabal palmetto*), Australian pine *(Casuarina equisetifolia)*, umbrella tree *(Schefflera arboricola),* beggarticks (*Bidens alba)*, crowfoot grass *(Dactyloctenium aegyptium),* white moneywort *(Alysicarpus vaginalis),* broomsedge bluestem *(Andropogon virginicus sp.),* tall flatsedge *(Cyperus eragrostis),* Brazilian pepper (*Schinus terebinthifolia*), and bahia grass (*Paspulum notatum*).

### D. Local Areas of Particular Concern as identified within the Broward County Land Use Plan

The amendment site is near the following Cultural Resources/Local Areas of Particular Concern (Historic Site) according to the Broward County Land Use Plan Natural Resource Map adopted in September 2021: the Hallandale Cemetery (600 Northwest 7th Street, Hallandale Beach), the Old Hallandale Schoolhouse (648 Northwest 2nd Street, Hallandale Beach), and the J.W. Moffitt House (324 Southwest 2nd Avenue, Hallandale Beach) which are designated by Broward County as historic

resource sites. However, as the amendment site is over 0.50 miles away from these historic sites, the proposed plan amendment would not impact the sites or any other Local Areas of Particular Concern.

**E. Priority Planning Area map and Broward County Land Use Plan Policy 2.21.1 regarding sea level rise.**

The amendment site is not within a Priority Planning Area for sea level rise.

The Eastern Broward County Priority Planning Areas for Sea Level Rise Map was adopted in 2012 and updated in 2015 and 2021. The map identifies areas near tidal water bodies at increased risk of inundation under a 3.3-foot sea level rise scenario, projected to occur as soon as 2070.

**F. "Endangered" or "threatened species" or "species of special concern" or "commercially exploited" as per the Florida Fish and Wildlife Conservation Commission (fauna), the U.S. Fish and Wildlife Service (flora and fauna), or the Florida Department of Agriculture and Consumer Services (fauna). If yes, identify the species and show the habitat location on a map.**

Based on a review of the Florida Natural Areas Inventory (FNAI) Biodiversity Matrix, there are no documented-historic occurrences of listed species on or near this amendment site (see **Exhibit O – *FNAI Report).*** Although the FNAI Report lists the loggerhead sea turtle, green sea turtle, hawksbill sea turtle, leatherback sea turtle, Florida burrowing owl, piping plover, American crocodile gopher tortoise, rim rock crowned snake, Florida manatee, and several listed plant species as potentially occurring with the project area, there is no habitat on-site to support any of these species.

The FNAI Report also lists the Florida bonneted bat as potentially occurring on-site. During field reconnaissance, a limited roost structure survey was conducted. There are existing trees on-site that could potentially provide suitable roosting for the bonneted bat. However, during field reconnaissance, no bonneted bats or evidence of bonneted bat roost utilization was noted within any of the suitable trees or structures located on-site. No emergent openings were observed in any trees or structures and no guano was observed and therefore it is not likely that the bonneted bat is roosting on-site. Although the site could be utilized for foraging by the bat, there would be no loss of foraging habitat if the site is redeveloped. Appropriate avoidance measures (e.g., BMPs) can be incorporated to minimize any potential impacts to the bat such that take is not expected to occur as a result of the proposed project, including constructing buildings that prevent any bats from entering/roosting within the buildings. Further coordination for the bonneted bat will take place with the USFWS during any future environmental permitting.

A review of Florida Fish and Wildlife Conservation Commission (FWC) bald eagle nests and wading bird rookeries showed no documented nests or rookeries within 0.25 miles from the site. Lastly, no listed species were observed on-site during the field reconnaissance. Wildlife species observed during field reconnaissance included the green iguana (*Iguana iguana*), mourning dove *(Zenaida macroura),* and sheepshead *(Archosargus probatocephalus)*.

**G. Plants listed in the Regulated Plant Index for protection by the Florida Department of**

**Agriculture and Consumer Services**

There is no evidence to date of any plant species listed on the Regulated Plant Index being located on the amendment site. Additionally, there is no native habitat on-site which could support listed plant species.

**H. Wellfields – indicate whether the amendment is located within a wellfield protection zone of influence as defined by Broward County Code, Chapter 27, Article 13 "Wellfield Protection." If so, specify the affected zone and any provisions which will be made to protect the wellfield.**

According to the Broward County Wellfield Protection Zones Map, the amendment site does not identify within the zones of influence for wellfield protection areas.

**I. Soils – describe whether the amendment will require the alteration of soil conditions or topography. If so, describe what management practices will be used to protect or mitigate the area's natural features.**

Development resulting from this amendment will not require the alteration of soil conditions or topography other than typical construction activity. No special soil conditions exist on-site that would affect the land development activity. Any site alterations that may be necessary will meet applicable regulations. A section of the NRCS *Soil Survey of Broward County, East Part, Florida (1984)* Soils Map is attached as **Exhibit P**.

**J. Beach Access – Indicate if the amendment site fronts the ocean or would impact access to public beaches. If so, describe how public beach access will be addressed.**

The amendment site does not front the ocean, nor contain access to public beaches.

## 7. AFFORDABLE HOUSING

**Describe how the local government is addressing Broward County Land Use Plan Policy 2.16.2 consistent with Article 5 of this Document.**

The local government has established a requirement that all proposed amendments shall conform to Broward County Land Use Plan Policy 2.16.2 for affordable housing.

The abovementioned policy is not applicable to the project as residential units are not part of the proposed development program.

## 8. LAND USE COMPATIBILITY

**Describe how the amendment is consistent with existing and planned future land uses in the area (including adjacent municipalities and/or county jurisdictions). Identify specific land development**

**code provisions or other measures that have or will be utilized to ensure land use compatibility.**

The Project is currently designated Medium-High (25) Residential. The proposed land use is compatible with the surrounding uses depicted in the table below **(Table 17)** based on the policies identified below in Section 13.

The development program advances the goals of the City's Land Use element by facilitating the redevelopment of the property with a project that enhances and improves the business/resort community and maximizes the use of the property.

In addition, a petition will be submitted to change the zoning of the property to Planned Development (PD) and a PD Master Plan amendment. The amendment will be an expansion of The Diplomat Planned Development. The petition is also compatible with surrounding uses and matches uses found in The Diplomat Planned Development. The proposed change will help to ensure a productive use is provided on the Property by activating the site with condo/hotel units. The proposed change will provide for additional hospitality uses in close proximity to key points of interest such as the nearby waterways and The Diplomat Resort.

Table 17: Surrounding Land Uses

| | **Land Use – City** | **Land Use - County** | **Actual Use** |
|---|---|---|---|
| **North** | Diplomat Activity Center | Activity Center | Vacant parcel |
| **South** | Medium/High Residential 16-25 Units | Medium-High (25) Residential | Condominiums |
| **West** | N/A – Hallandale Beach | Medium-High (25) Residential | Condominiums/apartments |
| **East** | Medium/High Residential 16-25 Units | Medium-High (25) Residential | Condominiums |

## 9. HURRICANE EVACUATION ANALYSIS

***(Required for those land use plan amendments located in a hurricane evacuation zone as identified by the Broward County Emergency Management Division).***

**Provide a hurricane evacuation analysis based on the proposed amendment, considering the number of permanent and seasonal residential dwelling units (including special residential facilities) requiring evacuation, availability of hurricane shelter spaces, and evacuation routes and clearance times. The hurricane evacuation analysis shall be based on the best available data/modeling techniques as identified by the Broward County Emergency Management Division.**

The amendment site is located in a hurricane evacuation zone. See **Exhibit Q.** A hurricane evacuation analysis is not applicable for hotels.

## 10. REDEVELOPMENT ANALYSIS

**Indicate if the amendment is located in an identified redevelopment area (i.e., Community**

**Redevelopment Agency, Community Development Block Grant). If so, describe how the amendment will facilitate redevelopment and promote approved redevelopment plans.**

The project site is not located in an identified redevelopment area.

## 11. INTERGOVERNMENTAL COORDINATION

**Indicate whether the proposed amendment site is adjacent to other local governments. If so, please provide additional copies for the notification and/or review by adjacent local governments.**

The amendment site is adjacent to the City of Hallandale Beach. The proposed amendment is in the City of Hollywood's jurisdiction.

## 12. PUBLIC OUTREACH

**Describe how the applicant and/or local government notified and coordinated with adjacent property owners, master associations, homeowner associations, etc.**

Applicant is in the process of scheduling meetings with adjacent residential associations and landowners.

## 13. CONSISTENCY WITH HIGHLIGHTED REGIONAL ISSUES AND POLICIES OF THE BROWARD COUNTY LAND USE PLAN

In this section, we will address how the re-designation of the Property from Medium-High 25 Residential will be consistent with, and in furtherance of, the BrowardNext County Land Use Plan and the City's Future Land Use Element. With respect to the County's Land Use Plan, the re-designation is consistent with the following strategies, goals, objectives and policies.

**Consistency with County's Land Use Plan:**

The re-designation of the Property to Activity Center on the County's Future Land Use Map is consistent with the following policies:

***POLICY 2.4.2 At least two non-residential uses must be permitted in the Activity Center as a principal use: e.g. retail, office, restaurants and personal services, hotel/motel, light industrial (including "live work" buildings), research business, civic and institutional. (f/k/a Policy 18 and Combined Policies 10.04.03 and 10.05.03)***

Strategy TR-1 is underscored by the recognition that "Broward County must efficiently accommodate population and economic growth…." Efficiently accommodating population and economic growth requires that the County approve land use re-designations that will allow people to live, work and play within the same area. The amendment project site development program proposes to redevelop an underutilized property with a singular and limited use into a development incorporating and integrating condominium/hotel and restaurant/café uses at intensities supportive of accommodating population

and economic growth. Visitors to the site will have access to world class accommodations including lodging and a restaurant/café. The project design also includes shared access, multi-modal mobility options that connects the property with The Diplomat Planned Development, South Ocean Drive, and nearby waterways.

***Policy 2.4.4: Local land use elements shall require design guidelines that incorporate pedestrian and bicycle paths and greenways to accomplish fully-connected routes to all destinations within the Local Activity Center. The paths should be spatially defined by buildings, trees and lighting, and should incorporate designs which discourage high speed traffic. (f/k/a Policy 23 and Revised Policy 10.03.07).***

One element of the proposed site design is a pedestrian walkway on the north side of the parcel. Visitors and nearby residents will have an enhanced pedestrian and bicyclist experience through strategic landscaping compared to the site's current use of a parking lot. An additional enhancement includes updated crossing treatments to address potential safety concerns crossing South Ocean Drive from the site.

***POLICY 2.4.10 Local governments shall include within their land use element policies to ensure Activity Centers contain design features that promote and enhance pedestrian mobility and safety, based on the following characteristics:***

- ***Integrated transit stops or stations (within the area) to encourage transit usage/multimodalism and provide safe and comfortable service including amenities such as seating on benches or planter ledges, shade, lighting, trash receptacles, information kiosks and bicycle parking.***
- ***Wide (5 feet shall be the minimum consistent with ADA requirements) pedestrian and bicycle paths that minimize conflicts with motorized traffic and discourage high speed traffic. The paths should be spatially defined by buildings, adequately landscaped and lighted, and provide ample opportunities for shade and shelter from the elements.***
- ***Buildings should front the street (zero or minimal setbacks are encouraged).***
- ***Vehicle parking strategies that encourage and support transit usage (such as parking that does not front the street, shared parking, parking structures, and/or reduced parking ratios).***
- ***Streets (internal and adjacent to the area) should be designed to discourage isolation and provide connectivity (such as streets in the grid pattern).***
- ***One of the core implementation strategies of Strategy EP-3 is to promote the use of alternative modes of transportation and alternative fuels to reduce the negative impacts of exhaust fumes on air quality. The development of a mixed-use community, which will feature retail, hotel and residential uses will incentivize pedestrianism and will make the use of a car inefficient and unnecessary. By discouraging dependence on automobiles, the Applicant is furthering Strategy EP-3.***

Under the proposed site design, a transit stop in front of the property will be maintained and unobstructed. The proposed connected walking area will be at least five feet wide. The lone building on the site will be oriented toward the street which will provide a welcoming environment for guests. By providing a public restaurant/café, visitors would not need to use their vehicles to drive elsewhere for dining options. Those staying at The Diplomat Resort will also have access to the public amenities

offered by the site.

**Consistency with the City of Hollywood Comprehensive Plan**:

The re-designation of the Property to the Diplomat Activity Center on the City's Future Land Use Map is consistent with the following objectives and policies:

**Land Use Element**

**GOAL: Promote a distribution of land uses that will enhance and improve the residential, business, resort, and natural communities while allowing land owners to maximize the use of their property.**

**Objective 7: Achieve consistency with the Broward County Land Use Plan by adopting the following goals, objectives, and policies into the City's *Land Use* E*lement*, by reference, from other elements of the City's Comprehensive Plan. See Exhibit A at the end of the *Land Use Element*.**

**Policy 7.7: Adequate public access to public beaches will continue to be provided and upgraded in the City of Hollywood in accordance with recommendations set forth by the Beach Redevelopment Plan.**

**Policy 7.38: Prioritize shoreline land uses based on water use and tourism.**

The proposed development program includes condominium/hotel units and restaurant/café space which drastically elevates the usefulness of the site from its existing state. The project will attract more tourism to the area, specifically to The Diplomat Resort Conference Center. The site is currently a parking lot which is not the highest and best use given the proximity to points of interest and the local waterways.

**Coastal Element**

**GOAL II: Coastal - To enhance and improve the Business Resort, Residential and Natural Coastal Community.**

**Objective 6: Redevelop business/tourist areas.**

**Policy 6.1: Continue to redevelop the downtown and also consider the historical and architectural link between the downtown and the beach area.**

The proposed design preserves the existing shoreline and uses the water as a major focal point for the design. The proposed development program adds additional hotel space near existing hotels and resorts creating greater options for those visiting the area and those seeking event space.

## 14. ADDITIONAL SUPPORT DOCUMENT

A. **Other support documents or summary of support documents on which the proposed amendment is based.**

Not applicable.

B. **Any proposed voluntary mitigation or draft agreements.**

Not applicable.

## 15. PLAN AMENDMENT COPIES

**A. 3 hard copies and 10 digital copies (13 copies total) for the BCPC (Please include additional copies, if amendment site is adjacent to other municipalities and/or county jurisdictions). Additional copies may be requested by the Planning Council Executive Director after the initial application submittal.**

To be provided with transmittal.

**B. If requesting concurrent transmittal to DEO, 1 hard copy and 10 digital copies (11 copies total), as required by DEO, of the corresponding local land use plan amendment application, including transmittal letter from municipality to DEO.**

To be provided with transmittal.

KNOW ALL MEN BY THESE PRESENTS, THAT I, Thos. B. Hamilton, in my own right and as executor of the last will and testament of Thos Hamilton, deceased, late of Dade County, and as trustee of the estate of the said Thos. Hamilton, deceased, have caused the foregoing amended plat of Seminole Beach to be prepared and filed according to a survey made by Chas. G. Hannock C.E. of all those lots or tracts of land lying and being in the County of Broward and State of Florida described as follows; to wit:

Lot 1 of Section 25 and Lots 1 and 2 of Section 26 Twp 51 S, R 42 E.

An easement or right of way over, across and upon all streets, avenues or other highways shown on the said amended plat of Seminole Beach is hereby dedicated to the perpetual use of the public, it being understood however that the undersigned reserves the right of way for a road fifty (50) ft. in width, and extending from Hallandale Ave. southerly through the subdivision following, as nearly as practicable, the line of mangrove timber, as indicated by the dotted line on the map.

It is further understood that Thos. B. Hamilton and his grantees are the owners of the northerly part of the lands embraced in said plat beginning at the north line thereof, at its intersection with the shore of the Atlantic Ocean, and extending southerly to a point on said shore two hundred and fifty (250) ft. south of Hallandale Ave. and thence at right angles to said shore of the Atlantic Ocean on a line extending westerly to the East Coast Canal; and that the remaining portion of the lands shown on said plat is the estate of Thos. Hamilton, deceased.

The plat of Seminole Beach, a subdivision of lot 1, Section 25; lot 1, Section 26 and a part of lot 2 Section 26 Twp 51 S, R 42 E. as recorded on page 179, book of plats No. 3, Records of Dade County, is hereby revoked.

It is further understood that the fee simple title in and to such streets avenues and highways shown on the said amended plat be reserved in the dedicators, together with the right of possession and ownership should the same be discontinued for any cause.

In witness whereof, the undersigned has hereunto set his hand and seal, in his own right and as executor and trustee as beforesaid, this 8 day of April 1918.

and

Thos. B. Hamilton (Seal)

As executor of the last will and testament of Thos. Hamilton, deceased and trustee of the estate of said Thos. Hamilton, deceased, and in his own right

STATE OF FLORIDA

Mr. Marlow,

This is in response to your request regarding the water service available for the subject project. There are existing water mains along the A1A/S Ocean Drive right-of-way adjacent to the property for service connection. This is to affirm the existing Hollywood Water Treatment Plant has the capacity to supply the water demand of the subject project site to maintain concurrence. Note this is based on the current demands and capacity which are subject to change due to additional permitted development.

Should you need additional assistance, please do not hesitate to contact me at 954-921-3302 or via email at averea-feria@hollywoodfl.org. Thank you.

# MEMORANDUM

To: City of Hollywood
From: Jeffrey J. Reynolds, P.E.
Kimley-Horn and Associates, Inc.
Date: January 6, 2025
Subject: **Hollywood Sea Air Tower – Proposed Water and Wastewater Demand Estimate**

The proposed project is located at 3725 South Ocean Drive in Hollywood, Florida. The proposed development includes a 300 unit Condominium/Hotel with a 1,400 SF cafe on the bottom floor and an 1,100 SF sundries/merchandise space. Please refer to the attached appendix for the Broward County Guidelines for Determining Ability to Provide Potable Water and Wastewater Service. This memo serves to inform the City of Hollywood of the future sanitary sewer and potable water flows for the proposed development. No credit has been taken into account as the existing site sits as a vacant parking lot. The estimated potable water demand for the proposed building is 42,840 GPD. The estimated sewer demand for the proposed building is 30,439 GPD. Please refer to Table 1 and Table 2 (listed below) for the potable water and sewer demand calculations to be used for the City of Hollywood's capacity evaluation.

# GUIDELINES FOR DETERMINING ABILITY TO PROVIDE POTABLE WATER AND WASTEWATER SERVICE

**Date Issued: April 2, 2012**
Date Previously Issued: January 18, 2007
Date First Issued: July, 2001

Broward County's Water and Wastewater Services (WWS) must determine its ability to provide the appropriate level of service to potential potable water and/or wastewater customers. Tables 1 and 2 contain WWS' potable water and wastewater level of service standards, respectively.

Table 1 - Potable Water Level of Service Standards

| Facility | Level Of Service Standard |
|---|---|
| Raw Water Supply and Treatment Plant | Maximum Day |
| Distribution System | The most stringent of:<br>(1) Peak Hour at 45 psi residual pressure, or<br>(2) Maximum Day Plus Fire Flow at 25 psi residual pressure. |

Table 2 - Wastewater Level of Service Standards

| Facility | Level Of Service Standard |
|---|---|
| Treatment Plant and Effluent Disposal | Average Day |
| Collection System | Peak Hour |

Often, the demand from a potential customer is so small that an engineering analysis is not necessary to determine if WWS can provide the appropriate level of service. For example, an engineering analysis would not be necessary to connect one single family residence or a fire hydrant to the system. Other times, either because of the amount of demand, or the location in the system, an engineering analysis is necessary.

WWS reserves the right to perform an engineering analysis when it deems the analysis necessary. The analysis will follow the guidelines contained herein.

These Guidelines are based on a combination of information from the 2002 Retail Service Water and Wastewater Master Plan, 2011 WWS Alternative Water Supply Conceptual Master Plan and a 2011 customer usage study conducted by WWS.

WWS' commitment to provide service to new customers occurs when the potential customer pays certain fees and charges.

No guideline can cover all varying circumstances, so WWS reserves the right to act in the best interest of its existing customers.

## POTABLE WATER

Determining WWS' ability to serve a potential potable water customer starts with calculating average day demand for the potential customer.

### Average Day Demand

Table 3 will be used to calculate average day demand, in gallons per day (gpd).

Table 3 - Potable Water Average Day Demands

| Type of Use | Unit | Demand (gpd/unit) |
|---|---|---|
| Condominium, Apartment | each | 141 |
| Day Child Care | 1000 SF of gross building area | 124 |

| Self Service Storage | 1000 SF of gross building area | 9 |
| Single Family Residential | each | 199 |
| Vehicular Repair | 1000 SF of gross building area | 97 |

| Warehouse (homogeneous, bulk storage) | 1000 SF of gross building area | 26 |

Source: 2011 Usage Study of WWS customers and
2011 Alternative Water Supply Conceptual Master Plan
Normal landscape irrigation requirements are included.
System uses and losses of 8% are included.
WWS reserves the right to develop similar values for other specific types of use not listed above.

**Raw Water Supply and Water Treatment Plant**

The potable water average day demand calculated above is multiplied by a factor from Table 4 to determine maximum day demand, the level of service condition for raw water supply and water treatment plants. WWS operates four independent water systems, called Districts, and each District has its own factor.

Table 4 - Potable Water Maximum Day Factors

| Factor | District 1 | District 2 | District 3A | District 3BC |
|---|---|---|---|---|
| Maximum Day To Average Demand Factor | 1.28 | 1.30 | *** | *** |

Source: Analysis of plant flow from 1998 thru 2008
Normal landscape irrigation requirements are included in these maximum day factors.
*** Raw water supply and water treatment plant supplied by the City of Hollywood.

Any analysis of available capacity must include prior commitments to serve permitted but not yet constructed developments, as well as existing customer flow. Therefore, the sum of existing customer maximum day flow, prior commitments and potential customer maximum day flow is compared to the facility's permitted capacity.

| | | |
|---|---|---|
| Example: | Existing customer average day flow | = 4,000,000 gpd |
| | Prior commitments average day flow | = 1,000,000 gpd |
| | Potential customer average day flow | = 500,000 gpd |
| | Total average day flow | = 5,500,000 gpd |
| | Times maximum day factor of 1.30 | = 7,150,000 gpd |
| | Facility permitted capacity | = 8,000,000 gpd |

Existing customer flow plus prior commitments plus potential customer maximum day demand equals 7,150,000 gpd, which is less than the facility's permitted capacity of 8,000,000 gpd. Therefore, WWS can provide the appropriate raw water supply and water treatment plant level of service to this potential customer.

**Water Distribution System**

Detailed analysis of the distribution system may be done by WWS when WWS reviews detailed engineering issues with the developer as part of WWS' developer coordination process. Distribution system issues are not considered in WWS' earlier reviews, since the nature of the distribution system changes over time as improvements are made. A potential customer must make whatever distribution system improvements are necessary to provide the required level of service in order to proceed with their project.

Before the distribution system analysis can begin, the development plan must be detailed enough to be able to use Table 3 – Potable Water Average Day Demands to calculate the potential customer's average day demand. The potential customer's average day demand will be increased by 50% for use in distribution system analysis and sizing. The increased average day demand is then multiplied by a peak factor from Table 5 to determine maximum day and peak hour demand.

Table 5 – Potable Water Peaking Factors

| Factor | District 1 | District 2 | District 3A | District 3BC |
|---|---|---|---|---|
| Maximum Day To Average Demand Factor | 1.28 | 1.30 | 1.37 | 1.46 |
| Peak Hour To Average Demand Factor | 1.73 | 2.27 | 1.58 | 1.86 |

Source: Maximum Day - Analysis of plant flow from 1998 thru 2008
Peak Hour - Master Plan Table 4-27

The distribution system must be able to provide fire protection as well as water for consumptive uses. Table 6 is WWS' fire protection goals in gallons per minute (gpm).

Table 6 - Fire Protection Goals

| Type of Structure | Goal (gpm) |
|---|---|
| Single Family Residential | 1000 |
| Multi-Family Residential | 2000 |
| Mobile Home | 2000 |
| Small Commercial | 2500 |
| Medium Commercial | 3000 |
| School | 3500 |
| Large Commercial | 3500 |

WWS recognizes that these goals are general in nature and will use a specific fire protection requirement determined by the Fire Marshal or a licensed fire protection specialist, if available. However, in any case, WWS will not be responsible for providing fire protection in excess of 3500 gpm. In setting a top end goal of 3500 gpm, WWS recognizes that individual developments may elect to provide more than 3500 gpm through privately owned and maintained on-site facilities.

Any analysis of available capacity must include prior commitments to serve as well as existing customer flow. There is no "permitted capacity" for a distribution system. Determining if the distribution system can provide the appropriate level of service is accomplished by analyzing the distribution system in each of two loading conditions:

Loading Condition 1. The distribution system is loaded with peak hour demands of existing customers, prior commitments and the potential customer. Under these loading conditions the residual pressure anywhere in the system cannot be less than 45 psi.

Loading Condition 2. The distribution system is loaded with maximum day demands of existing customers, prior commitments and the potential customer; and the potential customer's fire protection demand. Under these loading conditions the residual pressure anywhere in the system cannot be less than 25 psi.

When doing the above analysis, WWS will include representative potential customer on-site piping. In doing so, WWS will determine the minimum size for on-site piping.

Further, the distribution system will be analyzed in two configurations: existing system and future system.

If the distribution system (including the potential customer's on-site piping) meets the minimum residual pressure for each of the two loading conditions, in both the existing and future configuration, then the system can provide the required level of service. If the system cannot provide the required level of service, improvements are necessary to allow the potential customer's project to proceed.

## WASTEWATER

Determining WWS' ability to serve a potential wastewater customer starts with calculating average day demand for the potential customer.

### Average Day Demand

Table 7 will be used to calculate average day demand, in gallons per day (gpd).

Table 7 – Wastewater Average Day Demands

| Type of Use | Unit | Demand (gpd/unit) |
|---|---|---|
| Condominium, Apartment | Each | 100 |
| Day Child Care | 1000 SF of gross building area | 101 |
| Fast Food Service | 1000 SF of gross building area | 385 |
| Gas Station (fueling only) | fuel pump | 57 |
| Hotel | rental room | 77 |
| Laundry (coin operated machines) | 1000 SF of gross building area | 1063 |
| Merchandising | 1000 SF of gross building area | 30 |
| Mobile Home | Lot | 111 |
| Office | 1000 SF of gross building area | 34 |
| Place of Worship | 1000 SF of gross building area | 38 |
| Restaurant | 1000 SF of gross building area | 290 |
| School | Student | 7 |
| Self Service Storage | 1000 SF of gross building area | 7 |
| Single Family Residential | Each | 142 |
| Vehicular Repair | 1000 SF of gross building area | 79 |
| Warehouse (mixed use) | 1000 SF of gross building area | 27 |
| Warehouse (homogeneous, bulk storage) | 1000 SF of gross building area | 21 |

Source: Table 3, adjusted for average irrigation usage (30% for residential and 20% for commercial) and system uses and losses
Infiltration/ inflow of 10% is included.
WWS reserves the right to develop similar values for other specific types of use not listed above.

**Wastewater Treatment Plant and Effluent Disposal**

The wastewater average day demand calculated above is used for the level of service condition for wastewater treatment plant and effluent disposal.

Any analysis of available capacity must include prior commitments to serve permitted but not yet constructed developments, as well as existing customer flow. Therefore, the sum of existing customer average day flow, prior commitments and potential customer average

day demand is compared to the facility's permitted capacity.

Example:

| | |
|---|---|
| Existing customer average day flow | = 4,000,000 gpd |
| Prior commitments average day flow | = 1,000,000 gpd |
| Potential customer average day flow | = 500,000 gpd |
| Total average day flow | = 5,500,000 gpd |
| | |
| Facility permitted capacity | = 6,000,000 gpd |

Existing customer average day flow plus prior commitments plus potential customer average day demand equals 5,500,000 gpd, which is less than the facility's permitted capacity of 6,000,000 gpd. Therefore, WWS can provide the appropriate wastewater treatment and effluent disposal level of service to this potential customer.

**Wastewater Collection System**

Detailed analysis of the collection system may be done by WWS when WWS reviews detailed engineering issues with the developer as part of WWS' developer coordination process. Collection system issues are not considered in WWS' earlier reviews, since the nature of the collection system changes over time as improvements are made. A potential customer must make whatever collection system improvements are necessary to provide the required level of service in order to proceed with their project.

Before the collection system analysis can begin, the development plan must be detailed enough to be able to use Table 7 – Wastewater Average Day Demands to calculate the potential customer's average day demand. The potential customer's average day demand will be increased by 50% for use in collection system analysis and sizing.

The increased average day demand is then multiplied by a factor from Table 8 to determine peak demand.

Table 8 – Wastewater Peaking Factors

| Number of ERU | Factor |
|---|---|
| 1 to 250 | 4.2 |
| 251 to 600 | 4.0 |
| 601 to 1200 | 3.8 |
| 1201 and above | 3.5 |

Any analysis of available capacity must include prior commitments to serve as well as existing customer flow. There is no "permitted capacity" for a collection system. Determining if the collection system can provide the appropriate level of service is accomplished by analyzing the collection system in a peak loading condition. That is, the

collection system is loaded with the peak demand of existing customers, prior commitments and the potential customer. To accomplish this analysis, WWS will construct a steady state model that approximates the affected portion of the collection system. The model will be based on pipe roughness factors selected by WWS and peak demand flows. Under the peak demand loading condition:

1. All gravity sewers must be able to pass the wastewater without exceeding 90% of full pipe capacity;
2. All force mains must be able to pass the wastewater at a velocity less than 5 feet per second;
3. All pump stations must be able pump the wastewater with an average pump run time of less than 8 hours per day (when pumping non-peak flows) and without the use of the station's standby pump; and
4. Existing pump station pump discharge flow can not be lowered by more than 10%.

Further, the collection system will be analyzed in two configurations: existing system and future system.

If the collection system meets the loading condition criteria in both the existing and future configurations, then the system can provide the required level of service. If the system cannot provide the required level of service, improvements are necessary to allow the potential customer's project to proceed. Improvements may include additional pumping capacity at existing pump stations, additional force main capacity, additional gravity sewer capacity or some combination thereof. In determining the necessary improvements, WWS will not increase pumping capacity in an existing pump station by more that one standard horsepower size, for example, 5 HP can be increased to 7.5 HP; 10 HP can be increased to 15 HP. These horsepower changes can not result in a requirement to change the wetwell size and can not result in a requirement to change the pump station electrical service from 230 volt to 460 volt. If more than 30% of the pump stations (or one station, whichever is greater) in the model require horsepower changes, WWS will require piping improvements that reduce the need to change pump station horsepower to 30% or less of the pump stations in the model(or one station, whichever is greater).

**Re: Sewer Availability for**
**3725 South Ocean Drive, Hollywood, FL 33019**
**Folio ID #s: 514226000011**

Mr. Marlow,

This is in response to the request regarding sewer availability for the subject property. The closest public sewer point of connection to the above referenced property is the existing sewer manhole adjacent to the southeast corner of the property connected to an 8-inch CIP and 12-inch CIP cured-in-place gravity sewer main.

The gravity sewer mains flow into Lift Station E-07 (located at 3516 S Ocean Drive), rehabilitated in 2012, which then discharges into Lift Station E-03 (located at 804 S Ocean Drive).

The Southern Regional Wastewater Treatment Plant (SRWWTP) receives all the wastewater flow transmitted through the existing subaqeuous18-inch HDPE forcemain, installed in 2011, crossing the Intracoastal Waterway.

This is to affirm the SRWWTP has the capacity to treat the proposed demand of 30,439GPD for the subject project site to maintain concurrence.

However, the Lift Station E-03 will require improvements to prevent surcharging the system.
The Developer shall be fiscally responsible for the improvements to the City's infrastructure based preliminarily on the percentage of demand flow.

Note this is based on the current demands and capacity which are subject to change due to additional permitted development.

Should you need additional assistance, please do not hesitate to contact me at 954-921-3302 or via email at averea-feria@hollywoodfl.org. Thank you.

# GUIDELINES FOR DETERMINING ABILITY TO PROVIDE POTABLE WATER AND WASTEWATER SERVICE

**Date Issued: April 2, 2012**
Date Previously Issued: January 18, 2007
Date First Issued: July, 2001

Broward County's Water and Wastewater Services (WWS) must determine its ability to provide the appropriate level of service to potential potable water and/or wastewater customers. Tables 1 and 2 contain WWS' potable water and wastewater level of service standards, respectively.

Table 1 - Potable Water Level of Service Standards

| Facility | Level Of Service Standard |
|---|---|
| Raw Water Supply and Treatment Plant | Maximum Day |
| Distribution System | The most stringent of:<br>(1) Peak Hour at 45 psi residual pressure, or<br>(2) Maximum Day Plus Fire Flow at 25 psi residual pressure. |

Table 2 - Wastewater Level of Service Standards

| Facility | Level Of Service Standard |
|---|---|
| Treatment Plant and Effluent Disposal | Average Day |
| Collection System | Peak Hour |

Often, the demand from a potential customer is so small that an engineering analysis is not necessary to determine if WWS can provide the appropriate level of service. For example, an engineering analysis would not be necessary to connect one single family residence or a fire hydrant to the system. Other times, either because of the amount of demand, or the location in the system, an engineering analysis is necessary.

WWS reserves the right to perform an engineering analysis when it deems the analysis necessary. The analysis will follow the guidelines contained herein.

These Guidelines are based on a combination of information from the 2002 Retail Service Water and Wastewater Master Plan, 2011 WWS Alternative Water Supply Conceptual Master Plan and a 2011 customer usage study conducted by WWS.

WWS' commitment to provide service to new customers occurs when the potential customer pays certain fees and charges.

No guideline can cover all varying circumstances, so WWS reserves the right to act in the best interest of its existing customers.

## POTABLE WATER

Determining WWS' ability to serve a potential potable water customer starts with calculating average day demand for the potential customer.

### Average Day Demand

Table 3 will be used to calculate average day demand, in gallons per day (gpd).

Table 3 - Potable Water Average Day Demands

| Type of Use | Unit | Demand (gpd/unit) |
|---|---|---|
| Condominium, Apartment | each | 141 |
| Day Child Care | 1000 SF of gross building area | 124 |

**Raw Water Supply and Water Treatment Plant**

The potable water average day demand calculated above is multiplied by a factor from Table 4 to determine maximum day demand, the level of service condition for raw water supply and water treatment plants. WWS operates four independent water systems, called Districts, and each District has its own factor.

Table 4 - Potable Water Maximum Day Factors

| Factor | District 1 | District 2 | District 3A | District 3BC |
|---|---|---|---|---|
| Maximum Day To Average Demand Factor | 1.28 | 1.30 | *** | *** |

Source: Analysis of plant flow from 1998 thru 2008
Normal landscape irrigation requirements are included in these maximum day factors.
*** Raw water supply and water treatment plant supplied by the City of Hollywood.

Any analysis of available capacity must include prior commitments to serve permitted but not yet constructed developments, as well as existing customer flow. Therefore, the sum of existing customer maximum day flow, prior commitments and potential customer maximum day flow is compared to the facility's permitted capacity.

| | | |
|---|---|---|
| Example: | Existing customer average day flow | = 4,000,000 gpd |
| | Prior commitments average day flow | = 1,000,000 gpd |
| | Potential customer average day flow | = 500,000 gpd |
| | Total average day flow | = 5,500,000 gpd |
| | Times maximum day factor of 1.30 | = 7,150,000 gpd |
| | Facility permitted capacity | = 8,000,000 gpd |

Existing customer flow plus prior commitments plus potential customer maximum day demand equals 7,150,000 gpd, which is less than the facility's permitted capacity of 8,000,000 gpd. Therefore, WWS can provide the appropriate raw water supply and water treatment plant level of service to this potential customer.

**Water Distribution System**

Detailed analysis of the distribution system may be done by WWS when WWS reviews detailed engineering issues with the developer as part of WWS' developer coordination process. Distribution system issues are not considered in WWS' earlier reviews, since the nature of the distribution system changes over time as improvements are made. A potential customer must make whatever distribution system improvements are necessary to provide the required level of service in order to proceed with their project.

Before the distribution system analysis can begin, the development plan must be detailed enough to be able to use Table 3 – Potable Water Average Day Demands to calculate the potential customer's average day demand. The potential customer's average day demand will be increased by 50% for use in distribution system analysis and sizing. The increased average day demand is then multiplied by a peak factor from Table 5 to determine maximum day and peak hour demand.

Table 5 – Potable Water Peaking Factors

| Factor | District 1 | District 2 | District 3A | District 3BC |
|---|---|---|---|---|
| Maximum Day To Average Demand Factor | 1.28 | 1.30 | 1.37 | 1.46 |
| Peak Hour To Average Demand Factor | 1.73 | 2.27 | 1.58 | 1.86 |

Source: Maximum Day - Analysis of plant flow from 1998 thru 2008
Peak Hour - Master Plan Table 4-27

The distribution system must be able to provide fire protection as well as water for consumptive uses. Table 6 is WWS' fire protection goals in gallons per minute (gpm).

Table 6 - Fire Protection Goals

| Type of Structure | Goal (gpm) |
|---|---|
| Single Family Residential | 1000 |
| Multi-Family Residential | 2000 |
| Mobile Home | 2000 |
| Small Commercial | 2500 |
| Medium Commercial | 3000 |
| School | 3500 |
| Large Commercial | 3500 |

WWS recognizes that these goals are general in nature and will use a specific fire protection requirement determined by the Fire Marshal or a licensed fire protection specialist, if available. However, in any case, WWS will not be responsible for providing fire protection in excess of 3500 gpm. In setting a top end goal of 3500 gpm, WWS recognizes that individual developments may elect to provide more than 3500 gpm through privately owned and maintained on-site facilities.

Any analysis of available capacity must include prior commitments to serve as well as existing customer flow. There is no "permitted capacity" for a distribution system. Determining if the distribution system can provide the appropriate level of service is accomplished by analyzing the distribution system in each of two loading conditions:

Loading Condition 1. The distribution system is loaded with peak hour demands of existing customers, prior commitments and the potential customer. Under these loading conditions the residual pressure anywhere in the system cannot be less than 45 psi.

Loading Condition 2. The distribution system is loaded with maximum day demands of existing customers, prior commitments and the potential customer; and the potential customer's fire protection demand. Under these loading conditions the residual pressure anywhere in the system cannot be less than 25 psi.

When doing the above analysis, WWS will include representative potential customer on-site piping. In doing so, WWS will determine the minimum size for on-site piping.

Further, the distribution system will be analyzed in two configurations: existing system and future system.

If the distribution system (including the potential customer's on-site piping) meets the minimum residual pressure for each of the two loading conditions, in both the existing and future configuration, then the system can provide the required level of service. If the system cannot provide the required level of service, improvements are necessary to allow the potential customer's project to proceed.

## WASTEWATER

Determining WWS' ability to serve a potential wastewater customer starts with calculating average day demand for the potential customer.

### Average Day Demand

Table 7 will be used to calculate average day demand, in gallons per day (gpd).

Table 7 – Wastewater Average Day Demands

| Type of Use | Unit | Demand (gpd/unit) |
|---|---|---|
| Condominium, Apartment | Each | 100 |
| Day Child Care | 1000 SF of gross building area | 101 |
| Fast Food Service | 1000 SF of gross building area | 385 |
| Gas Station (fueling only) | fuel pump | 57 |
| Hotel | rental room | 77 |

Infiltration/ inflow of 10% is included.
WWS reserves the right to develop similar values for other specific types of use not listed above.

**Wastewater Treatment Plant and Effluent Disposal**

The wastewater average day demand calculated above is used for the level of service condition for wastewater treatment plant and effluent disposal.

Any analysis of available capacity must include prior commitments to serve permitted but not yet constructed developments, as well as existing customer flow. Therefore, the sum of existing customer average day flow, prior commitments and potential customer average

day demand is compared to the facility's permitted capacity.

Example:

| | |
|---|---|
| Existing customer average day flow | = 4,000,000 gpd |
| Prior commitments average day flow | = 1,000,000 gpd |
| Potential customer average day flow | = 500,000 gpd |
| Total average day flow | = 5,500,000 gpd |
| | |
| Facility permitted capacity | = 6,000,000 gpd |

Existing customer average day flow plus prior commitments plus potential customer average day demand equals 5,500,000 gpd, which is less than the facility's permitted capacity of 6,000,000 gpd. Therefore, WWS can provide the appropriate wastewater treatment and effluent disposal level of service to this potential customer.

**Wastewater Collection System**

Detailed analysis of the collection system may be done by WWS when WWS reviews detailed engineering issues with the developer as part of WWS' developer coordination process. Collection system issues are not considered in WWS' earlier reviews, since the nature of the collection system changes over time as improvements are made. A potential customer must make whatever collection system improvements are necessary to provide the required level of service in order to proceed with their project.

Before the collection system analysis can begin, the development plan must be detailed enough to be able to use Table 7 – Wastewater Average Day Demands to calculate the potential customer's average day demand. The potential customer's average day demand will be increased by 50% for use in collection system analysis and sizing.

The increased average day demand is then multiplied by a factor from Table 8 to determine peak demand.

Table 8 – Wastewater Peaking Factors

| Number of ERU | Factor |
|---|---|
| 1 to 250 | 4.2 |
| 251 to 600 | 4.0 |
| 601 to 1200 | 3.8 |
| 1201 and above | 3.5 |

Any analysis of available capacity must include prior commitments to serve as well as existing customer flow. There is no "permitted capacity" for a collection system. Determining if the collection system can provide the appropriate level of service is accomplished by analyzing the collection system in a peak loading condition. That is, the

collection system is loaded with the peak demand of existing customers, prior commitments and the potential customer. To accomplish this analysis, WWS will construct a steady state model that approximates the affected portion of the collection system. The model will be based on pipe roughness factors selected by WWS and peak demand flows. Under the peak demand loading condition:

1. All gravity sewers must be able to pass the wastewater without exceeding 90% of full pipe capacity;
2. All force mains must be able to pass the wastewater at a velocity less than 5 feet per second;
3. All pump stations must be able pump the wastewater with an average pump run time of less than 8 hours per day (when pumping non-peak flows) and without the use of the station's standby pump; and
4. Existing pump station pump discharge flow can not be lowered by more than 10%.

Further, the collection system will be analyzed in two configurations: existing system and future system.

If the collection system meets the loading condition criteria in both the existing and future configurations, then the system can provide the required level of service. If the system cannot provide the required level of service, improvements are necessary to allow the potential customer's project to proceed. Improvements may include additional pumping capacity at existing pump stations, additional force main capacity, additional gravity sewer capacity or some combination thereof. In determining the necessary improvements, WWS will not increase pumping capacity in an existing pump station by more that one standard horsepower size, for example, 5 HP can be increased to 7.5 HP; 10 HP can be increased to 15 HP. These horsepower changes can not result in a requirement to change the wetwell size and can not result in a requirement to change the pump station electrical service from 230 volt to 460 volt. If more than 30% of the pump stations (or one station, whichever is greater) in the model require horsepower changes, WWS will require piping improvements that reduce the need to change pump station horsepower to 30% or less of the pump stations in the model(or one station, whichever is greater).

**Re: Waste Connections Landfill Tonnage Capacity**
**Hollywood Sea Air Tower**
**3752 S Ocean Drive**
**Hollywood, FL**

To Whom It May Concern:

This letter serves as an attestation of the Waste Connections JED Landfill tonnage capacity.

Waste Connections of Florida JED Landfill is located in St. Cloud, Florida. The Landfill is licensed under FDEP Permit no. 0199726-033-SO-01, issued June 13, 2017, and expiring June 13, 2027, for 81,505,530 cubic yards. Approximately 5,800-6,200 tons of waste are deposited each day. The Facility's 20-year projection shows a remaining capacity of 3,852,819 Cubic years (4.7%) in the year 2038.

The Landfill has the capacity for the proposed demand for the new development; Hollywood Sea Air Tower, 3725 S Ocean Drive. The proposed project has 300 units, 1,400 SF of restaurant/café space and 1,100 SF of merchandise/sundries space.

Sincerely,
Susana Martinez

Drainage Calculations

**ENGINEER'S DRAINAGE STATEMENT**
**Hollywood Sea Air Tower**
**Hollywood, Florida**

## PROJECT DESCRIPTION

The proposed project includes construction of a 300 unit 40-story condo/hotel building located on +/- 1.96 acres, currently an existing surface parking lot, located at 3725 S Ocean Drive in the City of Hollywood. The site is situated along S Ocean Dr, a few parcels northeast of Hallandale Beach Blvd. The proposed improvements will include construction of a 40-story condo/hotel building (300 units) and a 6-story parking garage (478 parking spaces).

## EXISTING DRAINAGE CONDTIONS

After looking through South Florida Water Management District's (SFWMD) Regulatory Permitting website, no existing Environmental Resource permits were found to be attached to the subject property. A site visit was conducted on November 19th, 2024, where one existing catch basin can be seen on-site. This catch basin has a PVC outlet pipe that outfalls into the intercoastal directly west of the site.

## DRAINAGE FACILITIES

The proposed drainage system will be designed in accordance with the City of Hollywood, Broward County, and SFWMD's requirements. The stormwater management system will require approximately 533 linear feet of exfiltration trench to provide water quality treatment and storm attenuation. The system will consist of a series of interconnected catch basins, manholes, pipe and drainage wells. Roof leaders from the building will tie into the manholes and drainage wells being proposed, both of which will have bolt down lids. All stormwater is to be retained on-site and no off-site discharge is anticipated or proposed. To ensure that proposed construction activities do not degrade adjacent off-site areas, the permittee will install temporary erosion control barriers that will be removed upon completion of construction activities. No adverse water quality impacts are anticipated as a result of the proposed project.

## Preliminary Drainage Calculations

The attached drainage calculations are preliminary in nature and are subject to change. These calculations were used to determine the approximate water quality volume required for the site (0.240 ac-ft). The calculations attached herein do not recognize the use of the proposed drainage wells. This is a conservative measure to encapsulate the total exfiltration trench volume that would ultimately be required. Drainage well calculations will be provided during the permitting process.

### I. LAND USE:

| | | | |
|---|---|---|---|
| 1 | Building | 0.94 ac. | 47.96% |
| 2 | Garages | 0.00 ac. | 0.00% |
| 3 | Asphalt / Sidewalk / Other Imp. | 0.60 ac. | 30.61% |
| 4 | Lake Surface | 0.00 ac. | 0.00% |
| 5 | Lake Banks | 0.00 ac. | 0.00% |
| 6 | Dry Detention Bottom | 0.00 ac. | 0.00% |
| 7 | Dry Detention Banks | 0.00 ac. | 0.00% |
| 8 | Landscaping | 0.42 ac. | 21.43% |
| | **Total =** | **1.96 ac.** | **100%** |

**Total overall impervious surface with building = 78.57%**
**Is the site within a basin discharging to WNAS?** No

### II. WATER QUALITY CRITERIA:

Quality standards shall be provided during a 3 year, 1 hour storm event for one of the following three combinations:

1. If a wet detention system, then whichever is the greater of the following:
   a. The first inch of runoff from the entire project site.
   b. The amount of 2.5 inches times the percent impervious for the project site.
2. Exfiltration trench requires the volume required for the wet detention system.
3. If the site is within a basin that discharges to an Impaired Water Body (Waters Not Attaining Standards - WNAS), must provide an additional 50% of Required Water Quality Volume as reasonable assurance to not impact water quality.

### III. WATER QUALITY COMPUTATIONS:

1. Compute the first inch of runoff from the entire developed project site:
   = 1.00 inch X 1.96 acres X ( 1 foot / 12 inches )
   = **0.163 ac-ft for the first inch of runoff**

2. Compute 2.5 inches times the percent impervious for the developed project site:
   a. Site area for water quality pervious / impervious calculations only:
      = Total Project - ( Lake + Buildings)
      = 1.96 acres - ( 0.00 acres + 0.94 acres)
      = **1.02 acres of site area for water quality calculations**

   b. Impervious area for water quality pervious / impervious calculations only:
      = Site area for water quality - Pervious area
      = 1.02 acres - 0.42 acres
      = **0.60 acres of impervious area for water quality calculations**

   c. Percentage of impervious area for water quality:
      = Impervious area for water quality / Site area for water quality x 100%
      = 0.60 acres / 1.020 acres x 100%
      = **58.82 % Impervious**

   d. For 2.5 inches times the percentage of impervious area:
      = 2.5 inches X 58.82 %
      = **1.47 inches to be treated**

   e. Compute volume required for quality detention:
      = Inches to be treated X ( Total Site Area - Lake Area )
      = 1.47 inches X ( 1.96 acres - 0.000 acres ) x ( 1 foot / 12 inches )
      = **0.24 ac-ft required for detention storage**

3. The first inch of runoff from the entire developed site = 0.163 ac-ft
   2.5 inches times the percentage of impervious area = 0.240 ac-ft

   Additional 50% if within WNAS (0.000 ac-ft if not within WNAS) = 0.000 ac-ft

| **WQ volume of 0.240 ac-ft required** |

## Reading A Timetable - It's Easy

1. The map shows the exact bus route.
2. Major route intersections are called time points. Time points are shown with the symbol ☐.
3. The timetable lists major time points for bus route. Listed under time points are scheduled departure times.
4. Reading from left to right, indicates the time for each bus trip.
5. The bus picks up and drops off riders at all BCT bus stop signs along the route where there is a Broward County bus stop sign.
6. Arrive at the bus stop five minutes early. Buses operate as close to published timetables as traffic conditions allow.

**Not paying your fare is a crime per Florida Statute 812.015. Violation constitutes a misdemeanor, punishable by jail time and/or a fine.**

## CITY OF HALLANDALE BEACH
## CLOUD BUS ROUTE 1

The City of Hallandale Beach and Broward County Transit (BCT) have partnered to provide The Hallandale Beach Cloud Bus Route 1. This bus service will increase the number of destinations and connections that can be reached through public transit. Destinations along the Hallandale Beach Route 1 include: Hallandale Beach Boulevard Wal-Mart, Diplomat Mall, Winn-Dixie, Hallandale Beach City Hall and Hallandale Beach Branch Public Library, The Big Easy Casino, Young Circle, Publix Golden Isles, Ocean Drive/County Line, North Beach Fire Station, and surrounding neighborhood.

Connections are available to BCT Routes US1 Breeze (101), 1, 4, 5, 7, 28 and Miami Dade Transit MDT "E" and Hallandale Beach Community Shuttle Routes 2, 3 and 4.

All shuttles on this route are air-conditioned and wheelchair accessible in accordance with the Americans with Disabilities Act (ADA). Bicycle racks are also provided. Please refer to this pamphlet for instructions on how to correctly use the bicycle racks.

The Hallandale Beach Route 1 is free of charge, but riders making connections to BCT routes are expected to pay the appropriate fares.

## HOURS OF OPERATION

**Monday Through Friday: 7:00 am – 7:45 pm**
**Saturday: 7:00 am – 7:54 pm**

The Hallandale Beach Route 1 operates approximately every 36-38 minutes, with assigned stops.

Please refer to the timetable and map on the reverse side of this pamphlet. The shuttle will operate as close to schedule as possible. Traffic conditions and/or inclement weather may cause the shuttle to arrive earlier or later than the expected time. Please allow yourself enough time when using this service.

The Hallandale Beach Route 1 will not operate once a hurricane warning has been issued or if other hazards do not allow for the safe operation of the shuttle.

**PLEASE NOTE, THE CLOUD BUS WILL ONLY STOP AT DESIGNATED BUS STOP**

## HOLIDAYS

Hallandale Beach Route 1 does not operate on the following holidays observed by the City of Hallandale Beach:

- New Year's Day
- 4th of July
- Thanksgiving Day
- Christmas Eve/Day

If the holidays fall on a Saturday or Sunday they are not observed.

## BIKE RACKS

Bike Racks are available on the Hallandale Beach Community Shuttles. Bike Racks are designed to carry two bikes only. It is important to have the operator's attention before loading and unloading your bike. As the shuttle approaches, have your bike ready to load. Remove any loose items that may fall off.

**Loading**

- Always load your bike from the curbside of the street.
- Lower-Squeeze the handle and pull down to release the folded bike rack.
- Lift your bike into the rack, fitting the wheels into the slots of the vacant position closest to the shuttle.
- Latch-Pull and release the support arm over the front tire, making sure the support arm is resting on the tire, not on the fender or frame.

**Unloading**

- Before exiting, notify the operator you are removing your bike.
- Pull the support arm off the tire. Move the support arm down and out of the way. Lift your bike out of the rack. If your bike is the only one on the rack, return the rack to, the upright position.
- **Move quickly to the curb.**

500 copies of this public document were promulgated at a gross cost of $20.00 or $0.04 per copy to inform the public about community shuttle service between Broward County Transit and the City of Hallandale Beach. Printed 04/24

RE: Land Use Plan Amendment (LUPA) – S. Ocean Dr Hallandale Beach Blvd-Magnolia Terr – Transit Verification Letter

Dear Chad Davis,

Broward County Transit (BCT) has reviewed your correspondence dated January 14, 2025, regarding the proposed Land Use Plan Amendment (LUPA) for the area of South Ocean Drive between Hallandale Beach Boulevard and Magnolia Terrace, FL 33019 for current and planned transit service. The transit service provided within a quarter mile of the amendment site is limited to BCT Fixed Routes 4, 28, and Hallandale Beach Community Shuttle Route 1. Please refer to the following table for detailed information.

| BUS ROUTE | DAYS OF SERVICE | SERVICE SPAN A.M. – P.M. | SERVICE FREQUENCY |

BCT can accommodate additional transit demand, as described in the Mass Transit Analysis, with planned fixed route bus service to the amendment site.

As part of the Transportation Surtax, BCT will be implementing fixed route bus improvements, including shorter headways and increased span of service on weekdays and weekends, in addition to new service types like demand-response. The development of subject property will support the utilization of mass transit by increasing the residential opportunities along an existing transit route. The proposed development will provide safe circulation routes for pedestrians and bicycles including transit connectivity between existing sidewalks and proposed future bus stops.

Please be advised that the needs of any existing or future bus stops located adjacent or within the amendment site will be addressed during the project's development review process.

Please feel free to call me at 954-357-5481 or email me at dacohen@broward.org if you require any additional information or clarification on this matter.

Sincerely,

*Daniel Cohen*

Hello All,

We have began drafting a new land use plan amendment (LUPA) for a site generally located along S Ocean Drive between Hallandale Beach Boulevard/858 and Magnolia Terrace in Hollywood. As part of the LUPA's traffic circulation analysis, the application asks that we confirm existing and future transit in the area with the transit agency. We have gone through the BCT routes and planned projects and put together the below. Can you please confirm the following information is correct? Thank you!

1. **Identify the mass transit modes, existing and planned mass transit routes and scheduled service (headway) serving the amendment area within one-quarter of a mile.**

Existing Broward County Transit (BCT) Bus Service

- Broward County Transit (BCT) Route 4 operates along South Ocean Drive and Hallandale Beach Boulevard within the vicinity of the amendment. This route serves RK Diplomat Center, Hollywood North Beach Park, The Casino at Dania Beach, Dania Beach Fishing Pier, International Game Fish Association, Hollywood Beach Boardwalk, Dania Beach City Hall, and The Big Easy Casino/Mardi Gras Casino. Route 4 operates with approximately 40-minute headways in both the northbound and southbound direction during the P.M. peak hours within the vicinity of the amendment.
- BCT Cloud Bus Route 1 operates as a circulator along Hallandale Beach Boulevard within the vicinity of the amendment. This route serves Hallandale Beach Boulevard Wal-Mart, Diplomat Mall, Winn-Dixie, Hallandale Beach City Hall, and Hallandale Beach Branch Public Library, the Big Easy Casino, Young Circle, Publix Golden Isles, Ocean Drive/County Line, and the North Beach Fire Station and surrounding neighborhood. Cloud Bus Route 1 operates with approximately 30-minute headways during the P.M. peak hours.

Planned Mass Transit Routes

- There are no mass transit routes planned to operate on South Ocean Drive or Hallandale Beach Boulevard within the vicinity of this project.

2. **Identify the mass transit modes, existing and planned mass transit routes and scheduled service (headway) serving the amendment area within one-quarter of a mile.**

It is anticipated that the proposed development will support mass transit use as it is located within ¼ mile of one (1) existing Broward County Transit bus route and one (1) BCT Cloud bus route. It is expected that a portion of residents, employees, patrons, and guests will choose to use public transit to and from the proposed redevelopment.

## Comments

This land use plan amendment does not include residential use and as such, is not anticipated to generate additional students into Broward County Public Schools. Additionally, the site is not located directly adjacent to existing public schools and as proposed, is not anticipated to have any direct physical impact on Broward County Public Schools.

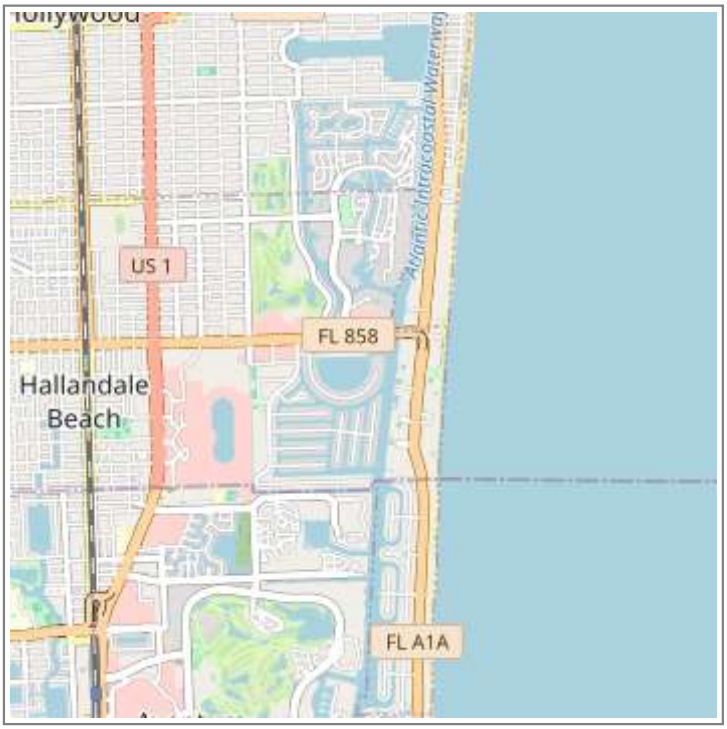
Created 11/18/2024

(Contact the FNAI Data Services Coordinator at 850.224.8207 or kbrinegar@fnai.fsu.edu for information on an official Standard Data Report)

NOTE: The Biodiversity Matrix includes only rare species and natural communities tracked by FNAI.

**Report for 1 Matrix Unit: 68906**



**Descriptions**

**DOCUMENTED** - There is a documented occurrence in the FNAI database of the species or community within this Matrix Unit.

**DOCUMENTED-HISTORIC** - There is a documented occurrence in the FNAI database of the species or community within this Matrix Unit; however the occurrence has not been observed/reported within the last twenty years.

**LIKELY** - The species or community is *known* to occur in this vicinity, and is considered likely within this Matrix Unit because:

1. documented occurrence overlaps this and adjacent Matrix Units, but the documentation isn't precise enough to indicate which of those Units the species or community is actually located in; *or*
2. there is a documented occurrence in the vicinity and there is suitable habitat for that species or community within this Matrix Unit.

**POTENTIAL** - This Matrix Unit lies within the known or predicted range of the species or community based on expert knowledge and environmental variables such as climate, soils, topography, and landcover.

Gross Acreage Determination Letter

BROWARD COUNTY Planning Council

April 2, 2025

Chad Davis, AICP, Project Analyst
Kimley-Horn and Associates
8201 Peters Road, Suite 2200
Plantation, Florida 33324

*Via Email Only*

Dear Mr. Davis:

**Subject: Hollywood - Acreage Determination**

This letter is in response to your request of March 17, 2025, to verify the gross acreage and BrowardNext - Broward County Land Use Plan (BCLUP) designation for a parcel of land generally located on the west side of Ocean Drive/State Road A1A, between Magnolia Terrace and Seacrest Parkway, in the City of Hollywood.

The BCLUP utilizes the following definition to calculate gross acreage:

- "Gross Acre" – means the total number of acres in an area, including acreage used or proposed for streets, lakes and waterways, exclusive of the rivers and canals of the primary drainage system.

It is noted that the Intracoastal Waterway is included in the primary drainage system, and therefore, is excluded from the acreage calculations.

Based on the survey and legal description you have provided and our Geographical Information System (GIS), Planning Council staff calculations indicate that the total area encompasses approximately 2.2 gross acres, which is designated by the BCLUP as indicated below:

| PARCEL | ACRES | BROWARDNEXT - BCLUP DESIGNATION |
|---|---|---|
| Parcel | 2.0 | Medium-High (25) Residential |
| **NET ACRES** | **2.0** | |
| Parcel Right-of-Way | 0.2 | Medium-High (25) Residential |
| **TOTAL GROSS ACRES** | **2.2** | |

The contents of this correspondence are not a judgment as to whether this development proposal complies with State or local vehicular access provisions, the Broward County Trafficways Plan, permitted uses and densities, local zoning, the land development regulations of the municipality or development review requirements of the BCLUP, including concurrency requirements.

Planning Council staff notes that this calculation is based on the information that you provided and should not be utilized for official purposes unless independently accepted by the local government.

Please note that the $400.00 fee submitted for this acreage determination request may be deducted from the application fee for a corresponding BCLUP amendment, if filed within 18 months of the date of this letter.

If you have any additional questions in this regard, please feel free to contact Huda Ashwas of Planning Council staff.

Respectfully,

Barbara Blake Boy

**COMMUNITY MEETING CITY OF HOLLYWOOD**

**DIPLOMAT PHASE III**
**3726 S. Ocean Drive Hollywood Fl, 33020**
**Land Use Plan Amendment Community Meeting**
April 3, 2025 at 6:00 p.m.

Diplomat Sales Gallery
3660 S. Ocean Drive
Hollywood, Fl, 33020

**Key Issue:** Parking

**1. Question: 99-year lease on the property with many parking spaces, taxes will increase, and view will be obstructed, how will that be handled? ( *Several of the same question asked regarding where neighbors will be able to park once the project is approved*).**

**Response:** Parking spaces will be honored. The easement currently has a 1500 ft radius limitation for moving spaces and that will be honored.

**2. Question: How is Traffic analyzed?**

**Response:** We are still in the planning stages, but we are within the rule on impacting roads. The impact is at 3% and the analysis is based on the conditions at the planning level, but will be analyzed in more detail at the zoning and site plan stages.

**3. Question/comment: The view will be obstructed.**

**Response:** We believe the view will be enhanced. The Atlantic Ocean view will not be obstructed.

**4. Question: Does the traffic analysis account for all project approved? When is it done? Weekdays and afternoons and peak time?**

**Response:** The traffic analysis is layered and it is required to take into account all approved projects in addition to the current project. We are still in planning stages and more details will follow.

**5. Question: Does the traffic analysis include the valet for parking and how it will be impacted? There will be a longer walk to get across the street.**

**Response:** The valet is not a part of the traffic analysis. It should be noted that currently the Property Owner can transfer parking because its within their authority by way of the easement in place. We are going to comply with the easement. The issue with parking is a separate discussion in terms of how to mitigate the impact, and it can be discussed in a separate meeting on that specific issue alone, but it is not including in the traffic study as part of the land use armament plan.

**6. Question: Is the Hotel-condo a time share?**

**Response:** The hotel condo is not a time share property.

**7. Question**: **What is included within the 1500 feet radius to move parking, what is the starting point of the 1500 ft radius?**

**Response**: The easement does not specify that specific issue. The 1500 feet is a starting point.

**8. Question: What about access to the beach and how that will be impacted? T*he people from the Hotel project will now use our beach access and that will impact us.***

**Response:** It's a public beach and everyone has access to the beach. The public will still access the bridge and not go through your property to access the beach.

**9. Question: We need a detailed plan for the parking. Our fear is that we wont have parking. When this project be completed?**

**Response:** There is a process of hearing, and approvals on individual aspects of the project, such a the land use plan amendment discussed today, zoning, site plan, and all have to be approved and go to hearing by the City and also by Broward County. The site plan change will not be done in 6 months. It could be third or fourth quarte of 2026.

**10. Question: What information from this meeting will you take back to the Developers in terms of our feedback?**

**Response:** The developers will be provided that there is no issue with the land use amendment which is the purpose of this meeting, but that there are underlying concerns with parking.

**1. Question: Is this a condo/hotel? If you don't get permission to change the zoning what will it be?**

**Response:** The property will be a condo-hotel Under Live Local there could be an affordable housing project built administratively, with no need for community hearing. We, however, believe that a Hotel is more consistent with what is currently in the area.

**2. Question: How will parking be addressed to help us? *(several questions on the same topic regarding parking)***

**Response:** We are committed to preserving 125 spaces as agreed to in the Easement Agreement. There is also a provision in the Easement that allows relocation within 1500 sq ft. The project will probably start in 2030, so we are looking at where we can move in close proximity to the property. Negotiations with the Association is ongoing regarding the actual number of spaces utilized versus what is currently allowed and how we can work together to address additional items.

**3. Question/comment: What is the height of the building? How many stories will the parking garage be? The view will be impeded regardless correct?**

**Response:** The Building is contemplated to be 459 ft and we don't know the exact height of the garage yet.

**4. Question: How will the taxes be allocated for Sea Air Towers?**

**Response:** This issue has been raised by the Board and we are discussing with the Board. We understand that you have existing obligation to pay taxes. It has been identified and highlighted by Board.

**5. Question: Are the amenities on top of the parking garage?**

**Response:** It is currently contemplated that there will be a design with amenities on the the parking garage.

**6. Question: Will the retail/restaurants and cafes be accessible to the public? The square footage is quite small, so there is not much to offer.**

**Response:** The restaurants are contemplated to be accessible by the public. The square foot on this phase may seem small, however, it is part of the larger phase development and the retail that will be included with the other phases.

**7. Question**: **The traffic near the exit is quite congested. There is a traffic light, a bus stop, and you have a crosswalk which will require another traffic light correct? Also the lanes in front of the Hotel will be further taken up by Buses. Has the Traffic Study taken that into consideration?**

**Response**: We will have a parking garage for parking. We are at the high-level planning stage right now and next year during the zoning and site plan phase we will get into granular detail and discuss the impacts of traffic. The traffic lights are done in coordination with FDOT. There are standards that need to be met for additional traffic lights as the FDOT looks at different types of impact. Given that we are at the planning stage, we are not yet in the detailed analysis concerning the circulation. That circulation will be reviewed during the site plan process.

**8. Question: If there is not much detail on the traffic and the design, how can there be an approval at the hearing on June 10? What will be happening?**

**Response:** During the June 10th hearing, we are only looking at the Planning portion which looks at the Land Use application and provides a recommendation on whether the application should be approved. The information regarding design, setbacks, trees, and the site plan will take place at a later date, if we are fortunate to obtain approval of the land use amendment next year.

**9. Question: Who is the Owner of Sea Air Tower parking lot?**

**Response:** Sea Air Towers, LLC.

**10. Question: Will all parking be in the garage? How close will the garage be to Hallmark?**

**Response:** All parking is currently contemplated to be in the parking garage. There may be some outside of the garage. The Property is not immediately adjacent to Hallmark, perhaps 60 ft in between buildings. Details will be determined during the site plan phase.

**11. Question: Will there be notices sent for each of the upcoming Phases and meetings?**

**Response:** Yes. There will continue to be notices sent. It will take time to develop the Hotel. We are starting with Phase 1, which will break ground at the end of this year. Next we will start the Hotel. That will break ground around 2027, so we it will likely be 5 years before we put shovels in the ground for Phase III of the Project.

PO-2018-15

ORDINANCE NO. O-2019-24

(18-L-08)

AN ORDINANCE OF THE CITY OF HOLLYWOOD, FLORIDA, AMENDING THE CITY'S ADOPTED COMPREHENSIVE PLAN BY AMENDING THE LAND USE ELEMENT TO ESTABLISH THE DIPLOMAT ACTIVITY CENTER LAND USE CATEGORY; AMENDING THE FUTURE LAND USE ELEMENT MAP TO REFLECT SAID CHANGES; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City adopted its Comprehensive Plan in September 1989 pursuant to Ordinance O-89-54, and has over the years amended its plan; and

WHEREAS, Section 163.3184, Florida Statutes, allows for amendments to the comprehensive plan; and

WHEREAS, Article 1 of the Broward County Administrative Rules Document and the Broward County Land Use Plan, specifically Policy Nos. 2.4.2 through 2.4.20, have established Activity Centers which allow for the flexibility to facilitate multi-use and mixed-use development; and

WHEREAS, the Activity Center Land Use Designation encourages redevelopment and development within the designated area; and

WHEREAS, the creation of the Diplomat Activity Center will allow for greater flexibility in uses such as residential, commercial, and assembly facilities; and

WHEREAS, the purpose of an Activity Center is to allow for forms of development that provide a balanced and interconnected mix of land uses, encourages mass transit and non-motorized transportation, reduces the need for automobile travel, provides incentives for quality development, and gives definition to the urban form; and

WHEREAS, the intent of the Land Use Element of the City's Comprehensive Plan is to lay out the physical plan for future development of the City; and

WHEREAS, the Land Use Element describes appropriate locations for future land uses and declares the policies regulating the location and development of all land uses; and

WHEREAS, pursuant to state law, the Planning and Development Board, acting in its capacity as the Local Planning Agency, held a duly noticed public hearing on June 14, 2018, to review the proposed comprehensive plan amendment along with the change to the land use designation of certain Diplomat property to the Diplomat Activity Center and has forwarded a recommendation of approval to the City Commission; and

WHEREAS, Section 163.3184, Florida Statutes, requires that the adoption of plan amendments shall be by ordinance; and

WHEREAS, pursuant to state law, the City Commission (local governing body) has conducted two duly advertised public hearings on the proposed plan amendments to the Comprehensive Plan's Land Use Element and land use map series for the future land use element, one at transmittal stage and one at the adoption stage in compliance with Section 163.3184, Florida Statutes and local ordinances, including review of the objections, recommendations and comments of the Department of Community Affairs, if any; and

WHEREAS, the City Commission, after due consideration of all matters, finds that the proposed amendments are consistent with the City's Comprehensive Plan and the Broward County Comprehensive Plan, the State of Florida Plan, the South Florida Regional Planning Council Regional Plan, and complies with the requirements of the Local Government Comprehensive Planning and Land Development Act; and

WHEREAS, the City Commission, after review of the recommendations of the Planning Division, the Local Planning Agency, comments made at a public hearing, and careful consideration of the issues, finds that the proposed amendments are in the best interest of the health, safety, and welfare of the citizens of the City; and

WHEREAS, the City Commission is transmitting to the Broward County Planning Council an amendment to the City's Land Use Element of its Comprehensive Plan; and

WHEREAS, the City is requesting that Broward County transmit the City's land use amendment for review by the Department of Community Affairs.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COMMISSION OF THE CITY OF HOLLYWOOD, FLORIDA:

Section 1: That the foregoing "WHEREAS" clauses are ratified and confirmed as being true and correct and are incorporated into this Ordinance.

Section 2: That the Land Use Element of the City of Hollywood's Comprehensive Plan is amended as more specifically set forth in the attached Exhibit "A."

Section 3: That the attached plan amendment set forth in Exhibit "A" to the City of Hollywood's Comprehensive Plan shall be transmitted to the State of Florida Department of Community Affairs in compliance with Chapter 163, Florida Statutes, and also to the Broward County Planning Council for recertification.

Section 4: That the City of Hollywood's Comprehensive Plan Future Land Use Element map shall be amended to reflect the proposed Land Use Element changes.

Section 5: If any word, phrase, clause, subsection, or section of this Ordinance is for any reason held unconstitutional or invalid, the invalidity thereof shall not affect the validity of any remaining portions of this Ordinance.

Section 6: The effective date of this Ordinance shall be the date upon which the following events have occurred:

(a) The plan amendment is recertified by the Broward County Planning Council once one of the following has occurred:

(1) a final order is issued by the Department of Community Affairs finding the amendment to be in compliance with Section 163.3184, Florida Statutes; or

(2) a notice of intent is issued by the Department of Community Affairs Administrative Commission finding the amendment to be in compliance with Chapter 163, Florida Statutes.

Section 7: That no development orders, development permits, or land uses dependent on this amendment may be issued or commenced before it has become effective. If a final order of non-compliance is issued by the Administrative Commission, this amendment may nevertheless be made effective by adoption of a resolution affirming its effective status, a copy of which resolution and ordinance shall be sent to the Department of Community Affairs, Division of Community Planning, Plan Processing Team, 2555 Shumard Oak Blvd., Tallahassee, Florida 32399-2100.

ADVERTISED August 13, 2018.

I. TRANSMITTAL INFORMATION

A. Letter of transmittal from municipal mayor or manager documenting that the local government took action by motion, resolution or ordinance to transmit a proposed amendment to the Broward County Land Use Plan. Please attach a copy of the referenced motion, resolution or ordinance. The local government's action to transmit must include a recommendation of approval, denial or modification regarding the proposed amendment to the Broward County Land Use Plan.

**To be provided.**

B. Date local governing body held transmittal public hearing.

**To be provided.**

C. Whether the amendment area is within an Area of Critical State Concern or proposed for adoption under a joint planning agreement pursuant to Section 163.3171, Florida Statutes.

**The amendment site is not located in an Area of Critical State Concern or part of a joint planning agreement.**

D. Whether the amendment is one of the following:

*Development of Regional Impact
*Small scale development activity (per Florida Statutes)
*Emergency (please describe on separate page)
*Other amendments which may be submitted without regard to FL statutory limits regarding submittals (Brownfield amendments, etc.).

**Not applicable.**

II. LOCAL GOVERNMENT INFORMATION

A. Local land use plan amendment or case number.

**To be determined.**

B. Proposed month of adoption of local land use plan amendment.

**December 2018.**

C. Name, title, address, telephone, facsimile number and email of the local government contact.

D. Planning Council fee for processing the amendment in accordance with the attached Exhibit C, "Fee Schedule for Amendments to the Broward County Land Use Plan and Local Land Use Elements."

**To be provided.**

E. Applicant's rationale for the amendment. The Planning Council requests a condensed version for inclusion in the staff report (about two paragraphs). Planning Council staff may accept greater than two paragraphs, if submitted in an electronic format.

**The subject site is situated on the east and west sides of A1A north of Hallandale Beach Boulevard. The portion of the subject property on the east side of A1A is currently developed with the Diplomat Hotel, hotel offices, hotel food/beverage, convention/meeting space, and associated parking garage. The portion of the subject property on the west side of A1A is currently developed with commercial, a parking garage and surface parking.**

**The applicant proposes to redevelop the subject property situated on the west side of A1A with hotel rooms, dwelling units, retail and meeting space. The proposed use will enhance and further support the existing 128,000 square foot convention facility.**

**The applicant wishes to amend the future land use designation of the subject site to Activity Center (AC). The purpose of creating the AC will enable greater flexibility in allocating land uses within the subject area while maintaining existing uses.**

**The intent is to direct currently permitted densities and intensities, along with additional compatible uses, within this area of Hollywood. This will provide additional redevelopment opportunities and will allow for a mix of uses and the permitting of densities and intensities that will better support the City's economy and tourism.**

**In addition to the above, the proposed Activity Center meets the criteria for Activity Centers as outlined below:**

- **The proposed mix of uses includes four (4) different uses including 350 residential units, Commercial/Office, Hotel, and Convention center.**
- **Plaza/Open space available to the public is proposed along the Intracoastal Waterway via a meandering path along the waterfront.**
- **BCt and community shuttle mass transit routes are conveniently located along A1A. The proposed mix, density and intensity of uses promotes an active node of development. Due to the location and configuration of the amendment area, pedestrian could circulate between uses in less than 10-minutes. In addition, pedestrian could reach other nearby activities within that timeframe.**
- **The local land use plan specifies an FAR of 3.0 for non-residential uses.**
- **An inter-local agreement between the City of Hollywood and the County will be executed. The proposal will be subject to a broad public participation process.**

## IV. AMENDMENT SITE DESCRIPTION

A. Concise written description of the general boundaries and gross acreage (as defined by BCLUP) of the proposed amendment.

**The proposed amendment site contains approximately 19.1 gross acres. The amendment site is generally situated on the east and west sides of A1A north of E. Hallandale Beach Boulevard in the City of Hollywood.**

B. Sealed survey, including legal description of the area proposed to be amended.

**Please see Attachment I.**

C. Map at a scale of 1"=300' clearly indicating the amendment's location, boundaries and proposed land uses. (Other scales may be accepted at the discretion of the Planning Council Executive Director. Please contact the Planning Council office in this regard, prior to the submittal of the application.)

**Please see Exhibit A: Location Map.**

## V. EXISTING AND PROPOSED USES

A. Current and proposed local and Broward County Land Use Plan designation(s) for the amendment site. If multiple land use designations, describe gross acreage within each designation.

| TABLE 1<br>CURRENT AND PROPOSED LAND USE DESIGNATIONS | | | | |
|---|---|---|---|---|
| Acres | Current | | Proposed | |
| | City | County | City | County |
| 16.9 | MHRES | MH25 | Activity Center | |
| 2.2 | GBUS | Commerce | | |

B. Current land use designations for the adjacent properties.

**The current land use designations for the properties surrounding the amendment site are provided below:**

| TABLE 2<br>ADJACENT LAND USES | | |
|---|---|---|
| | CITY | COUNTY |
| **North** | MHRES | MH25 |
| **South** | MHRES | MH25 |
| **East** | MHRES | MH25 |
| **West** | Water | Water |

*Electrical Generation Facilities

C. Indicate if the flexibility provisions of the Broward County Land Use Plan have been used for adjacent areas.

**Flexibility provisions have not been used for adjacent areas but have been utilized on the subject site.**

D. Existing use of amendment site and adjacent areas.

| TABLE 3<br>EXISTING USES | |
|---|---|
| **Subject Site** | Hotel, Convention/Meeting Space, Retail, Parking Garage, Surface Parking |
| **North** | Condo, Surface Parking |
| **South** | Condo, Surface Parking |
| **East** | A1A, Beach/Ocean |
| **West** | A1A, Intracoastal Waterway |

E. Proposed use of the amendment site including proposed square footage* for each non-residential use and/or dwelling unit count. For RAC, LAC, TOC, TOD and MU-R amendments, please provide each existing non-residential use square footage and existing dwelling units for amendment area.

**The subject site is situated on the east and west sides of A1A north of Hallandale Beach Boulevard. The portion of the subject property on the east side of A1A is currently developed with the Diplomat Hotel, hotel offices, hotel food/beverage, convention/meeting space, and associated parking garage. The portion of the subject property on the west side of A1A is currently developed with commercial, a parking garage and surface parking.**

**The applicant proposes to redevelop the subject property situated on the west side of A1A with hotel rooms, dwelling units, retail and meeting space. The convention center will be an integral part of the Activity Center.**

**In consideration of the existing uses and the future development of the property, the proposed future land use is Activity Center with the following permitted uses:**

**TABLE 4**
**PROPOSED FUTURE LAND USE**

| **ACTIVITY CENTER** | |
|---|---|
| Multi Family | 350 units |
| Hotel[1] | 1,500 rooms |
| Commercial/Office | 75,000 square feet |
| Convention Center | 150,000 square feet |

[1] Permits ancillary office, restaurants, meeting space.

**Development on the site will comply with the City's Land Development Regulations.**

F. Maximum allowable development per local government land use plans under existing designation for the site, including square footage for each non-residential use and/or dwelling unit count.

**Existing designation includes residential and non-residential uses. Per Broward County Land Use Plan Policy 2.4.12, the Activity Center impact analysis may be based on the intensity standards of the Hollywood Land Use Plan. For Commercial use, the City's Plan establishes a FAR of 3.0. The maximum allowable development under the current land use designation is:**

| Existing Land Use City/County | Calculation | Max. Allowable Development |
|---|---|---|
| MHRES/MH25 | 25 du/ac x 16.9 acres | = 422 d.u. |
| GBUS/Commerce | 2.2 acres x 43,560 sf = 95,832 sf<br>X 3.0 FAR = 287,496 sf | = 287,496 sf |

G. Indicate if the amendment is part of a larger development project that is intended to be developed as a unit such as a site plan, plat or DRI. If so, indicate the name of the development; provide the site plan or plat number, provide a location map; and, identify the proposed uses.

**The amendment is not part of a larger development project such as a site plan, plat or DRI.**

## VI. ANALYSIS OF PUBLIC FACILITIES AND SERVICES

The items below must be addressed to determine the impact of an amendment on existing and planned public facilities and services. Provide calculations for each public facility and/or service. If more than one amendment is submitted, calculations must be prepared on an individual and cumulative basis.

### A. Sanitary Sewer Analysis

1. Identify whether the amendment site or a portion is currently and/or proposed to be serviced by septic tanks.

   **Septic tanks will not be used to serve the amendment site.**

2. Identify the sanitary sewer facilities serving the amendment site including the current plant capacity, current plus committed demand on plant capacity, and planned plant capacity.

C. Drainage Analysis

1. Provide the adopted level of service standard for the service area in which the amendment is located.

**Private Property:** Retain on property and dispose of 1/2 inch of storm runoff during any five minute period.

**Single Family:** Maintain minimum of 30% pervious area on site. Buildings: To have the lowest floor elevation no lower than the elevation for the respective area depicted on the National Flood Insurance Rate Map (FIRM) by Federal Emergency Management Agency (FEMA) for flood hazard areas based on 100 year flood elevation, or; for commercial properties 6 inches for residential properties 18 inches above the

crown of the adjacent public street or road - whichever is the highest.

All commercial properties and residential properties with more than 10 parking spaces must obtain drainage permits for site development from other regulatory authorities having jurisdiction prior to obtaining a building permit from the City. Since the City of Hollywood is a built-out municipality with emphasis slowly shifting toward redevelopment and with only limited water management review and permitting conducted in house, the standards of Broward County (in most cases) and sometimes the South Florida Water Management District or Central and South Broward Drainage Districts are enforced on larger projects through regulatory programs. To increase the efficiency and eliminate duplication in the area of environmental regulation, Hollywood relies heavily on the Broward County which possesses the expertise and resources to enforce the following standards:

**Broward County Adopted Level of Service Standard**

**Road Protection:** Residential streets not greater than fifty feet wide right-of-way to have crown elevations no lower than the elevation for the respective area depicted on the ten year "Flood Criteria Map." Rights-of-way greater than fifty feet wide to have an ultimate edge of pavement no lower than the elevation for the respective area depicted on the ten year "Flood Criteria Map."

**Buildings:** To have the lowest floor elevation no lower than the elevation for the respective area depicted on the "100 Year Flood Criteria Map," or the FEMA Based Flood Elevation, whichever is higher.

**Off Site Discharge:** Not to exceed the inflow limit of SFWMD primary receiving canal or the local conveyance system, whichever is less.

**Storm Sewers:** Design frequency minimum to the three year rainfall intensity of the State Department of Transportation Zone 10 rainfall curves.

**Flood Plain:** Calculated flood elevations based on the ten-year and one hundred year return frequency rainfall of three day duration shall not exceed the corresponding elevations of the ten year "Flood Criteria Map" and "100-Year Flood Elevation Map."

**Antecedent Water:** The higher elevation of either the control Level elevation or the elevation depicted on the map "Average Wet Season Water Levels."

**On Site Storage:** Minimum capacity above antecedent water level and below flood plain routing elevations to be design rainfall volume minus off site discharge occurring during design rainfall.

**Best Management:** Prior to discharge to surface or ground water BMP's will be used to reduce pollutant loading from stormwater runoff.

2. Identify the drainage district and drainage systems serving the amendment area.

**The canal system within Hollywood is controlled by the South Florida Water Management District (SFWMD). The SFWMD operates and maintains the C-10 canal and establishes discharge limits.**

**SFWMD regulates discharge limitations to allow surplus capacity for future developments in the County and to preserve the aquifer recharge potential through performance based criteria for water management systems to be constructed by the developers on site. This policy encourages detention drainage systems consistent with the limitations set by SFWMD.**

**Properties without access to canals or lakes must provide full on-site retention, which is usually provided through a system of french drains and deep swales of the adequate capacity to provide the required level of service.**

**Most of the eastern part of the City (east of the Federal Highway (U.S. 1) and east of 16th Avenue, which was developed more than 30 years ago,**

**drains the overflow from the intense storms through the positive drainage system, consisting of storm sewers or drainage ditches into the Intracoastal Waterway and the connected lakes. These waters are saline and subject to tidal influence, therefore they are not in SFWMD jurisdiction. Florida Department of Environmental Protection classified these waters as Type III (recreational use). Due to the historical redevelopment discharge of rainfall into these waters, no capacity limitations exist on the discharge. Only on-site detention and treatment of the first one-inch of runoff is required.**

3. Identify any planned drainage improvements, including year, funding sources and other relevant information.

**All improvements required to meet the adopted level of service will be installed in conjunction with new development.**

4. Indicate if a Surface Water Management Plan has been approved by, or an application submitted to, the SFWMD and/or any independent drainage district, for the amendment site. Identify the permit number(s), or application number(s) if the project is pending, for the amendment site. If an amendment site is not required to obtain a SFWMD permit, provide documentation of same.

**A Surface Water Management Permit has been issued for the site and will be updated as needed.**

5. If the area in which the amendment is located does not meet the adopted level of service and there are no improvements planned (by the unit of local government or drainage authority) to address the deficiencies, provide an engineering analysis which demonstrated how the site will be drained and the impact on the surrounding properties. The information should include the wet season water level for the amendment site, design storm elevation, natural and proposed land elevation, one hundred year flood elevation, acreage for proposed water management retention area, elevations for buildings, roads and years, storage and runoff calculations for the design storm and estimated time for flood waters to recede to the natural land elevation.

**Development within the site will be required to meet the drainage standards of the City, Broward County Department of Planning and Environmental Protection, and the South Florida Water Management District. The subject site will meet the level of service when development of the site is complete.**

6. Correspondence from local drainage district verifying the information submitted as part of the application on items 1-5 above. Correspondence must contain name, position and contact information of party providing verification.

2. Identify the solid waste facilities serving the service area in which the amendment is located including the landfill/plant capacity, current plus committed demand on landfill/plant capacity, and planned landfill/plant capacity.

**Solid waste pickup services are provided by Progressive/Waste Connection. Waste is collected and hauled to Port St. Cloud.**

**The landfill capacity is approximately 2,000 tons per day. The landfill demand is below capacity. The Progressive/Waste Connection facility has sufficient capacity to handle the proposed amendment area.**

3. Identify the net impact on solid waste demand resulting from the proposed amendment. Provide calculations, including anticipated demand per square foot or dwelling unit.

E. <u>Recreation and Open Space Analysis</u>

1. Provide the adopted level of service standard for the service area in which the amendment is located and the current level of service.

**The adopted level of service for recreation and open space in the City is 3 acres/1,000 residents.**

2. Identify the parks serving the service area in which the amendment is located including acreage and facility type, e.g. neighborhood, community or regional park.

| Name | Type | Acreage |
|---|---|---|
| Hollywood Beach Community Center | Community | 1.78 ac |
| Keating Park | Community | 1.01 ac |

3. Planning Council staff will analyze traffic impacts resulting from the amendment. You may provide a traffic impact analysis for this amendment - calculate anticipated average daily and p.m. peak hour traffic generation for the existing and proposed land use designations. If the amendment reflects a net increase in traffic generation, identify access points to/from the amendment site and provide a distribution of the additional traffic on the impacted roadway network and identify the resulting level of service change for the short (5 year) and long range planning horizons.

4. Provide any transportation studies relating to this amendment, as desired.

**None provided at this time.**

G. Mass Transit Analysis

1. Identify the mass transit modes, existing and planned mass transit routes and scheduled service (headway) serving the amendment area within one-quarter of a mile.

3. Correspondence from transit provider verifying the information submitted as part of the application on items 1-2 above. Correspondence must contain name, position and contact information of party providing verification.

**See Attachment IV: Mass Transit Correspondence and below:**

**Name:** Mabelle Mittleberg
**Agency:** Broward County Transit Division
**Position:** Senior Planner
**Ph:** 954-357-8381

4. Describe how the amendment furthers or supports mass transit use.

**The subject site supports the utilization of mass transit by developing along and near roadways which are currently served by mass transit services.**

VII. ANALYSIS OF NATURAL AND HISTORIC RESOURCES

Indicate if the site contains, is located adjacent to or has the potential to impact any of the natural and historic resource(s) listed below, and if so, how they will be protected or mitigated. Planning Council staff will request additional information from Broward County regarding the amendment's impact on natural and historic resources.

A. Historic sites or districts on the National Register of Historic Places or locally designated historic sites.

**A review of the Records of the Florida Department of State, Division of Historical Resources, Broward County Historical Commission and the City's Comprehensive Plan indicates that no known historical resources are located on or adjacent to the site.**

B. Archaeological sites listed on the Florida Master Site File.

**A review of the Records of the Florida Department of State, Division of Historical Resources, Broward County Historical Commission and the City Comprehensive Plan indicates that no archeological sites are located on the site.**

C. Wetlands

**No known wetlands are located on or adjacent to the site.**

D. Local Areas of Particular Concern as Identified within the Broward County Land Use Plan.

**A review of the Broward County Comprehensive Plan indicates there are no Local Areas of Particular Concern affecting the amendment site.**

E. Indicate if the site contains, is located adjacent to or has the potential to impact any "Priority Planning Areas for Sea Level Rise" and if so, how they will be protected or mitigated.

**A review of the Priority Planning Area Map indicates the subject site is not located within a Priority Planning Area.**

F. "Endangered" or "threatened species" or "species of special concern" or "commercially exploited" as per the Florida Fish and Wildlife Conservation Commission (fauna), the U.S. Fish and Wildlife Service (flora and fauna), or the Florida Department of Agriculture and Consumer Services (fauna). If yes, identify the species and show the habitat location on a map.

**There are no endangered or threatened species or species of special concern known to inhabit the subject site.**

G. Plants listed in the Regulated Plant Index for protection by the Florida Department of Agriculture and Consumer Services.

**The applicant is not aware of any listed species on the site.**

H. Wellfields – Indicate whether the amendment is located within a wellfield protection zone of influence as defined by Broward County Code, Chapter 27, Article 13 "Wellfield Protection." If so, specify the protected zone and any provisions, which will be made to protect the wellfield

**The Broward County Wellfield Protection Zones Map does not identify any potable water wellfield protection zones of influence on the amendment site.**

I. Soils – Describe whether the amendment will require the alteration of soil conditions or topography. If so, describe what management practices will be used to mitigate the area's natural features

**Any site alterations that may be necessary will meet applicable government regulations.**

J. Beach Access – Indicate if the amendment is ocean-front. If so, describe how public beach access will be addressed.

**The portion of the subject site located east of A1A is ocean-front.**

**Based upon the City's Comprehensive Plan, swimming is permitted along the entire 6.85 miles of Hollywood's beach. Extending from Port Everglades to Hallandale Beach Boulevard, over half of this beach is part of two regional parks**

**- John U. Lloyd and North Beach. Several street ends and an easement allow access to other portions of the beach; most of the street ends are located along Central and North Beach. Access is sparser along South Beach but still available. Hollywood also has a beach community center and theater, an art and culture center, and two large lakes with ocean access.**

**On South Beach, which is the vicinity of the subject area, Harry Berry Park, Keating Park, and the Art and Culture Center contain or are adjacent to parking facilities. They also provide direct pedestrian access to the beach. A few street ends are also available for parking. South Beach has about 532 parking spaces. The City maintains 292 spaces along street ends at North Beach (Sherman Street northward). North Beach Park has an additional 346 spaces.**

VIII. AFFORDABLE HOUSING

Describe how the local government is addressing Broward County Land Use Plan Policy 1.07.07.

**Not applicable. The amendment proposes a reduction in residential units.**

IX. LAND USE COMPATIBILITY

Describe how the amendment is consistent with existing and planned future land uses in the area (including adjacent municipalities and/or county jurisdictions). Identify specific land development code provisions or other measures that have or will be utilized to ensure land use compatibility.

**The applicant is requesting a change in land use designation from residential (25 du/ac) and commercial to Activity Center.**

**The proposed uses are compatible with land uses both adjacent to the site and in the vicinity. In fact, the proposed activity center uses encompass and enhance what is existing on the subject area today, and proposes additional hotel rooms and residential units.**

| ADJACENT LAND USES | |
|---|---|
| **North** | MHRES (25 du/ac) |
| **South** | MHRES (25 du/ac) |
| **West** | A1A, ICWW |
| **East** | A1A, Beach/Ocean |

**In addition, the proposed land use demonstrates infill development which utilizes under-utilized parcels within existing urban areas that are already largely developed. Infill development maximizes the use of existing public facilities and focuses on crafting**

**a complete, integrated fabric of development.**

**The site will be developed in accordance with the City's Land Development Regulations, which ensure compatibility through appropriate setbacks and buffers between uses.**

X. HURRICANE EVACUATION ANALYSIS

(Required for amendments located in hurricane evacuation zone as identified by the Broward County Emergency Management Agency). Provide a hurricane evacuation analysis based on the proposed amendment, considering the number of permanent and seasonal residential d.u.'s (including special residential facilities) requiring evacuation, availability of hurricane shelter spaces, and evacuation routes and clearance times. The hurricane evacuation analysis shall be based on the best available data/modeling techniques as identified by the Broward County Emergency Management Agency.

**The amendment site is located in a hurricane evacuation zone.**

**Because hurricanes impact large areas, the evacuation data presented in the City's Comprehensive Plan is the data specific to Broward County from the *2006 South Florida Regional Hurricane Evacuation Traffic Study*. This study was prepared by the South Florida Regional Planning Council. The South Florida Region includes Broward, Miami-Dade and Monroe Counties.**

**The region must be prepared to evacuate highly vulnerable populations on critical routes. As such local public shelters and inland hotel/motels are available on a first-come basis. Watkins Elementary School is the shelter located closest to the subject area. Many other shelters exist nearby/within the County. The Broward County Human Services Department provides the special needs community with registration assistance for special needs shelters and transportation services.**

**During a hurricane evacuation, a significant number of vehicles will have to be moved across the local and regional road network. The quantity of evacuating vehicles will vary depending upon the magnitude of the hurricane, publicity and warnings provided about the storm and particular behavioral response characteristics of the vulnerable population. The *2006 South Florida Regional Hurricane Evacuation Traffic Study* identifies the following data for Broward County:**

**Existing Permanent Population – 1,700,499 people**

**Permanent occupied dwelling units – 674,304 units**

**Mobile homes – 20,224 units**

**Tourist/seasonal units – 34,615 units**

**People per permanent unit – 2.52**

**Vehicles per permanent unit – 1.58**

**Local Public Shelter Capacity – 37,135 People**

**The City of Hollywood's population in 2006 was 143,287, 12% of the population of Broward County. The following information pertains to the Broward County population total. The study reports:**

- **For a low tourist occupancy Category 1-2 event, it is calculated there will be 219,402 people in 110,640 vehicles evacuating with a public shelter demand of 5,538 people.**

- **For a low tourist occupancy Category 3 event, it is calculated there will be 312,270 people in 158,494 vehicles evacuating with a public shelter demand of 15,731 people.**

- **For a low tourist occupancy Category 4-5 event, it is calculated there will be 391,293 people in 193,189 vehicles evacuating with a public shelter demand of 36,304 people.**

- **For a high tourist occupancy Category 1-2 event, it is calculated there will be 227,723 people in 111,521 vehicles evacuating with a public shelter demand of 5,621 people.**

- **For a high tourist occupancy Category 3 event, it is calculated there will be 320,177 people in 164,743 vehicles evacuating with a public shelter demand of 15,820 people.**

- **For a high tourist occupancy Category 4-5 event, it is calculated there will be 400,640 people in 199,727 vehicles evacuating with a public shelter demand of 36,493 people.**

**The study identified the critical roadway location segments within and adjacent to the City of Hollywood as:**

- **Hallandale Beach Boulevard bridge over the Intracoastal;**
- **Hollywood Boulevard bridge over the Intracoastal;**
- **Sheridan Street bridge over the Intracoastal;**
- **Dania Beach Boulevard bridge over the Intracoastal.**

**The study identified the following data for projected clearance times. Table CM-7 from the City's Comprehensive Plan shows the projected clearance times for all regional**

**routes out of South Florida and the critical links within and adjacent to the City of Hollywood analyzed under the six baseline hurricane evacuation scenarios.**

**The Baseline Scenario Definitions are defined as follows:**

- **1A Category 1-2 Storm Conditions with Low Tourist Occupancy**
- **1B Category 1-2 Storm Conditions with High Tourist Occupancy**
- **2A Category 3 Storm Conditions with Low Tourist Occupancy**
- **2B Category 3 Storm Conditions with High Tourist Occupancy**
- **3A Category 4-5 Storm Conditions with Low Tourist Occupancy**
- **3B Category 4-5 Storm Conditions with High Tourist Occupancy**

| Dania Beach Blvd. bridge over the Intracoastal | 3.2 | 3.4 | 3.5 | 3.8 | 4.2 | 3.7 |

*The **clearance times** shown represent the traffic volume-to-roadway capacity ratio, in hours, for each specified critical link. These times are mutually exclusive and are not cumulative. Under each hurricane evacuation scenario, each county's overall clearance time is defined as the number of hours it takes total evacuating vehicles to traverse that county's most limiting critical link (the critical link with the highest volume-to-capacity ratio). For the regional roadways, clearance time is the amount of time it takes the total evacuating vehicles on each regional roadway to exit the region under each hurricane evacuation scenario.

## XI. REDEVELOPMENT ANALYSIS

Indicate if the amendment is located in an identified Redevelopment (i.e., Community Redevelopment Agency, Community Development Block Grant) area. If so, describe how the amendment will facilitate redevelopment and promote approved redevelopment plans.

**The subject site is located within the Beach CRA. The proposed activity center will further the goals of the CRA while enhancing and expanding uses which further the redevelopment of the beach.**

XII. INTERGOVERNMENTAL COORDINATION

Indicate whether the proposed amendment site is adjacent to other local governments. If so, please provide additional copies for the notification and/or review by adjacent local governments.

**The amendment site is located adjacent to the City of Hallandale Beach (west side of Intracoastal Waterway)**

XIII. CONSISTENCY WITH GOALS, OBJECTIVES AND POLICIES OF THE COUNTY LAND USE PLAN

**Activity Centers**

**POLICY 2.4.1** Permitted residential densities and hotel rooms within areas designated "Activity Center" on the Broward County Land Use Plan (except for any "Activity Center" located east of the Intracoastal Waterway) may be increased by 20% or 500 dwelling units and/or hotel rooms, whichever is less, no earlier than every five (5) years via a local land use plan amendment and recertification by the Broward County Planning Council, and/or permitted non-residential intensities within areas designated "Activity Center" on the Broward County Land Use Plan may be increased by 20% or 200,000 square feet, whichever is less, every five (5) years via a local land use plan amendment and recertification by the Broward County Planning Council, subject to the following:

a. The local government must document that no more than 10% of permitted residential units and/or non-residential intensities proposed for increase are available for allocation at the time the local land use plan amendment is considered by the local government at a hearing.

b. "Every five (5) years" means starting from the date the 2016 Broward County Land Use Plan is effective for "Activity Centers" included in that Plan, or when a new or revised "Activity Center" is adopted by the County Commission and is effective.

c. An application for a Broward County Land Use Plan amendment may be submitted at any time for "Activity Center" proposals which would exceed the above referenced residential and non-residential density/intensity increases.

d. The local land use plan shall include policies addressing the affordable/workforce housing needs of "Activity Centers."

e. The local land use plan shall demonstrate sufficient capacity for public facilities and services, including coordination with public schools. (f/k/a New Policy 15)

**POLICY 2.4.2** Local governments may propose a specific area for designation on the Broward County Land Use Plan as an Activity Center. The municipality shall include within their land use element policies that ensure the proposed Activity Center will support the location of uses in a manner oriented around the five-minute (i.e. quarter-mile) walk and/or within approximately quarter-mile on either side of a transit corridor. Multiple nodes of activity oriented around the five-minute (i.e. quarter-mile) walk or transit corridor may be included within one Activity Center. The municipality shall include within their land use element policies that ensure that the proposed Activity Center will support the location of uses and internal circulation such that pedestrian mobility is a priority. All land uses in an Activity Center shall be directly accessed via pedestrian ways, and accessible to existing or future alternate public transportation modes, including bicycle and transit. (f/k/a Policy 16 and Combined Policies 10.03.02 and 10.04.01)

**POLICY 2.4.3** Residential use is required as a principal component within an Activity Center. Maximum residential density must be specified by the local government, and must be described in the permitted uses section of the Broward County Land Use Plan. Residential densities may be specified either as units per gross acre in geographically designated areas and/or as a maximum number of permitted units (e.g. pool of units in the Activity Center). (f/k/a Policy 17 and Combined Policies 10.03.04, 10.04.02, 10.05.01 and 10.05.02)

**POLICY 2.4.4** At least two non-residential uses must be permitted in the Activity Center as a principal use: e.g. retail, office, restaurants and personal services, hotel/motel, light industrial (including "live work" buildings), research business, civic and institutional. (f/k/a Policy 18 and Combined Policies 10.04.03 and 10.05.03)

**POLICY 2.4.5** Minimum and Maximum FAR (Floor Area Ratio) for non-residential uses within an Activity Center must be specified by the local government and described in the permitted uses section of the Broward County Land Use Plan. Minimum non-residential FARs (Gross) of 2 are encouraged. Non-residential intensities may vary along transit corridors and may be specified at the option of the local government, either as a maximum FAR in geographically designated areas and/or as an overall maximum square footage by use [e.g. pool of square footage by permitted use (retail, office etc.) or land use category (commercial)]. (f/k/a Policy 19 and Combined Policies 10.04.04 and 10.05.05)

**POLICY 2.4.6** For proposed new or revised Activity Centers, Broward County shall, to address new proposed dwelling units and impacts, coordinate and cooperate in assisting municipalities to identify existing and proposed policies, methods and programs to achieve and/or maintain a sufficient supply of affordable housing to serve such areas. (f/k/a Policy 20 and Revised Policy 10.01.04)

**POLICY 2.4.7** Local governments shall consider community needs for affordable housing when proposing a Local an Activity Center and include within their local land use element

policies which encourage affordable housing opportunities, through various mechanisms such as the direction of public housing program funds into the Activity Center, reduced lot size for dwelling units, construction of zero lot line and cluster housing, vertical integration of residential units with non-residential uses, the allowance of accessory dwelling units, or through other mechanisms proven effective in increasing the affordable housing stock. To promote Local Activity Centers which propose to include "low income" housing as a viable component, Broward County shall support all reasonable means and methods to mitigate potential negative impacts to public facilities and services which may result from the amendment. (f/k/a Policy 21 and Revised Policy 10.03.05)

**POLICY 2.4.8** Local governments shall include within their local land use element policies that promote the preservation, rehabilitation and use of historic buildings within a proposed Activity Center. (f/k/a Revised Policy 22 and Revised Policy 10.03.06)

**POLICY 2.4.9** Local land use elements shall require design guidelines that incorporate pedestrian and bicycle paths and greenways to accomplish fully-connected routes to all destinations within the Local Activity Center. The paths should be spatially defined by buildings, trees and lighting, and should incorporate designs which discourage high speed traffic. (f/k/a Policy 23 and Revised Policy 10.03.07)

**POLICY 2.4.10** To reduce reliance on automobile travel, local governments shall ensure convenient access to high use mass transit stops or multi-modal facilities within a proposed Activity Center. (f/k/a Revised Policy 24 and Revised Policy 10.03.08)

**POLICY 2.4.11** Local governments shall include within their local land use element policies that encourage internal transit systems to serve the residents and employees within the proposed Activity Center (e.g. trolley, community transit services). Transit shelters should be incorporated in the local design guidelines to provide safe and comfortable service and to encourage transit usage. (f/k/a Policy 25 and Revised Policy 10.03.09)

**POLICY 2.4.12** In consideration of non-residential land uses in areas proposed for designation as an Activity Center, the impact analysis for the designation in the Broward County Land Use Plan may be based on the amount of non-residential development which could be permitted as per the intensity standards of the effective local government land use element, rather than the alternative 10,000 square feet per gross acre standard utilized for non-residential impact analysis. (f/k/a Policy 25a and Revised Policy 10.05.10)

**POLICY 2.4.13** Local land use element policies must include guiding principles for municipal design guidelines to adequately address the transition to adjacent residential development and to promote connectivity to transit stations and stops. (f/k/a Policy 26 and Policy 10.04.06)

**POLICY 2.4.14** Park land, public plazas, urban open space or green space/pocket park uses that are accessible to the public must be provided as an integrated component within a

proposed Activity Center. (f/k/a Policy 27 and Combined Policies 10.02.09 and 10.03.03 and 10.04.07)

**POLICY 2.4.15** The municipality shall include within their land use element policies that ensure that areas designated as Activity Centers include design features that promote and enhance pedestrian mobility, including connectivity to transit stops and stations, based on the following characteristics: • Integrated transit stop with shelter, or station (within the area). • Wide (5 feet shall be the minimum consistent with ADA requirements) pedestrian and bicycle paths that minimize conflicts with motorized traffic and are adequately landscaped, shaded and provide opportunities for shelter from the elements. • Buildings should front the street (zero or minimal setbacks are encouraged). • Vehicle parking strategies that encourage and support transit usage (such as parking that does not front the street, shared parking, parking structures, and/or reduced parking ratios). • Streets (internal and adjacent to the area) should be designed to discourage isolation and provide connectivity (such as streets in the grid pattern). (f/k/a Policy 28 and Combined Policies 10.04.08 and 10.05.06)

**POLICY 2.4.16** Local plan policies must include requirements for internal pedestrian and transit amenities to serve the residents and employees within the area designated as an Activity Center (such as seating on benches or planter ledges, shade, light fixtures, trash receptacles, information kiosks, bicycle parking) or other amenities that could be incorporated into adjacent publicly accessible areas and plaza (such as clocks, fountains, sculpture, drinking fountains, banners, flags and food and refreshment vendor areas.) (f/k/a Policy 29 and Combined Policies 10.04.09 and 10.05.07)

**POLICY 2.4.17** The intent of the required design features is to provide guidelines for municipal implementation of the Activity Center land use category. Municipalities are encouraged to use some or all of the above design elements, or to develop other design strategies, which accomplish the goals of using design elements to enhance pedestrian and transit mobility. County review of applications seeking the Activity Center land use category designations will only determine whether the municipality has adopted, through plan policies, a cohesive set of implementation strategies to accomplish the design strategies sought, and will not seek to require a specific design approach or a fixed set of design approaches as a requirement for County approval of the land use designation sought. (f/k/a Policy 30 and Revised Policy 10.05.08)

**POLICY 2.4.18** Municipalities which propose an Activity Center designation shall include policies within their land use element which establish design guidelines for mixed use within their land development codes. Policies should promote an urban form which creates well integrated land use combinations, balances intensity and density, and promotes the safe, interconnectivity of vehicular, pedestrian and other non-motorized movement. Policies should integrate the public realm, through open space, urban public plazas and/or recreational areas. (f/k/a Policy 31 and Revised Policy 10.06.03)

**POLICY 2.4.19** Municipalities which propose a an Activity Center designation shall include policies within their land use element which establish appropriate design standards, within their land development codes, to ensure a mixed use development is compatible with adjacent land uses and adjacent adopted Future Land Use designations. (f/k/a Policy 32 and Revised Policy 10.06.04)

**POLICY 2.4.20** An interlocal agreement between the municipality and Broward County must be executed no later than six months from the effective date of the adoption of an Activity Center which provides that monitoring of development activity and enforcement of permitted land use densities and intensities shall be the responsibility of the affected municipality. (f/k/a Policy 33 and Combined Policies 10.04.13 and 10.05.11)

XIV. CONSISTENCY WITH GOALS, OBJECTIVES, AND POLICIES OF THE CITY LAND USE PLAN

**Land Use Element**

**GOAL:** Promote a distribution of land uses that will enhance and improve the residential, business, resort, and natural communities while allowing land owners to maximize the use of their property.

**Objective 7:** Achieve consistency with the Broward County Land Use Plan by adopting the following goals, objectives, and policies into the City's *Land Use Element*, by reference, from other elements of the City's Comprehensive Plan. See Exhibit A at the end of the *Land Use Element*.

**Policy 7.7:** Adequate public access to public beaches will continue to be provided and upgraded in the City of Hollywood in accordance with recommendations set forth by the Beach Redevelopment Plan.

**Policy 7.38:** Prioritize shoreline land uses based on water use and tourism.

**Coastal Element**

**GOAL II: Coastal** - To enhance and improve the Business Resort, Residential and Natural Coastal Community.

**Objective 6:** Redevelop business/tourist areas.

**Policy 6.1:** Continue to redevelop the downtown and also consider the historical and architectural link between the downtown and the beach area.

XV. POPULATION PROJECTIONS

A. Population projections for the 20-year planning horizon (indicate year).

| Year | Population |
|---|---|
| 2030 | 155,105 |
| 2040 | 157,179 |
| Source: Broward County TAZ and Municipal Forecast Update 2014 | |

B. Population projections resulting from proposed land use (if applicable).

**350 units x 1.5 persons per unit = 525 people**

C. Using population projections for the 20 yr planning horizon, demonstrate the effect of the amendment on the land needed to accommodate projected population.

**The proposed amendment will help provide additional housing opportunities to serve the city's current and future population.**

XVI. ADDITIONAL SUPPORT DOCUMENTS

A. Other support documents or summary of support documents on which the proposed amendment is based.

**Not applicable.**

B. Any proposed voluntary mitigation or draft agreements.

**Not applicable.**

XVII. PUBLIC EDUCATION ANALYSIS

Please be advised that the Planning Council staff will request from the Broward County School Board an analysis of the impacts of the amendment on public education facilities as indicated below. Please note that as per the School Board of Broward County Policy 1151, the applicant will be subject to a fee for the review of the application. The applicant is encouraged to contact the School Board staff to discuss these issues as soon as possible.

A. Identify the existing public elementary and secondary education facilities serving the area in which the amendment is located.

**The following schools serve the area.**

**Elementary:** **Hollywood Central Elementary**
**Middle:** **Olsen Middle**

**High School:** **Hallandale High**

B. Identify the existing school enrollment and permanent design capacity of the public elementary and secondary education facilities serving the area.

| School | Benchmark Enrollment | Gross Capacity | Over + Under - |
|---|---|---|---|
| Hollywood Central Elementary | 488 | 709 | -221 |
| Olsen Middle | 708 | 1125 | -417 |
| Hallandale High | 1403 | 1821 | -418 |
| Source: SBBC Planning Tool for Enrollment accessed 12/12/2017 | | | |

C. Identify the additional student demand resulting from this amendment - calculations must be based on applicable student generation rates specified in the Broward County Land Development Code.

**TABLE 21**
**SCHOOL IMPACT**

| | | Elementary | Middle | High |

| | Convention Center: 150,000 sf | N/A | N/A | N/A |
| | **Change** | **-7 students** | **+/- 0 students** | **-1 student** |

D. Identify the planned and/or funded improvements to serve the area in which the amendment is located as included within the School Board's five year capital plan - provide student demand projections and information regarding planned permanent design capacities and other relevant information.

**The School District's *Tentative District Educational Facilities Plan* shows no planned capacity improvements for the schools serving the subject site**

E. Identify other public elementary and secondary school sites or alternatives (such as site improvements, nominal fee lease options, shared use of public space for school purposes etc.), not identified in Item #4 above, to serve the area in which the amendment is located.

**Applicant will pay school impact fees.**

XVIII. PLAN AMENDMENT COPIES

A. 15 copies for the BCPC. Additional copies may be requested by the Planning Council Executive Director after the initial application submittal.

**To be provided with transmittal.**

B. 10 copies of corresponding local land use plan amendment application, if transmitting concurrent to DCA, include transmittal letter from municipality to DCA.

**To be provided with transmittal.**

**Re: Diplomat Land Use Plan Amendment – Sanitary Sewer, Potable Water, and Drainage Analysis**

Mr. Zephyr:

My office is preparing an application for a land use plan amendment to the City of Hollywood Beach Comprehensive Plan. As you are aware, we are required to assess the impacts of the proposed amendment and confirm the effect on Sanitary Sewer, Potable Water and Drainage.

I have attached a copy of the analysis we have prepared and a site location map. I would appreciate your review of the materials and a written response concerning the accuracy of this information. Please provide me with your response at your earliest convenience.

If you should have any questions or require additional information, do not hesitate to contact me.

Thank you for your assistance in this matter.

Sincerely,

Kelly Ray

## A. PROJECT INFORMATION

The subject site is situated on the east and west sides of A1A north of Hallandale Beach Boulevard. The portion of the subject property on the east side of A1A is currently developed with the Diplomat Hotel, hotel offices, hotel food/beverage, convention/meeting space, and associated parking garage. The portion of the subject property on the west side of A1A is currently developed with commercial, a parking garage and surface parking.

The applicant proposes to redevelop the subject property situated on the west side of A1A with hotel rooms, dwelling units, retail and meeting space. The proposed use will enhance and further support the existing 128,000 square foot convention facility.

The applicant wishes to amend the future land use designation of the subject site to Activity Center (AC).

### Existing Land Use

| Existing Land Uses | | |
|---|---|---|
| **Acres** | **City** | **County** |
| 16.9 | MHRES | MH25 |
| 2.2 | GBUS | Commerce |

### Maximum Allowable Development Under the Current Land Use Designation

**Existing designation includes residential and non-residential uses. Per Broward County Land Use Plan Policy 2.4.12, the Activity Center impact analysis may be based on the intensity standards of the Hollywood Land Use Plan. For Commercial use, the City's Plan establishes a FAR of 3.0. The maximum allowable development under the current land use designation is:**

| Existing Land Use City/County | Calculation | Max. Allowable Development |
|---|---|---|
| MHRES/MH25 | 25 du/ac x 16.9 acres | = 422 d.u. |
| GBUS/Commerce | 2.2 acres x 43,560 sf = 95,832 sf<br>X 3.0 FAR = 287,496 sf | = 287,496 sf |

**Proposed Land Use**

| PROPOSED FUTURE LAND USE | |
|---|---|
| **ACTIVITY CENTER** | |
| Multi Family | 350 units |
| Hotel[1] | 1,500 units |
| Commercial/Office | 75,000 square feet |
| Convention Center | 150,000 square feet |

[1] Permits ancillary office, restaurants, meeting space.

## B. SANITARY SEWER ANALYSIS

1. Identify whether the amendment site or a portion is currently and/or proposed to be serviced by septic tanks.

   **Septic tanks will not be used to serve the amendment site.**

2. Identify the sanitary sewer facilities serving the amendment site including the current plant capacity, current plus committed demand on plant capacity, and planned plant capacity.

| SANITARY SEWER DEMAND AND CAPACITY<br>City of Hollywood Wastewater Treatment Plant | | |

## D. Drainage Analysis

1. Provide the adopted level of service standard for the service area in which the amendment is located.

**Private Property:** Retain on property and dispose of 1/2 inch of storm runoff during any five minute period.

**Single Family:** Maintain minimum of 30% pervious area on site. Buildings: To have the lowest floor elevation no lower than the elevation for the respective area depicted on the National Flood Insurance Rate Map (FIRM) by Federal Emergency Management Agency (FEMA) for flood hazard areas based on 100 year flood elevation, or; for commercial properties 6 inches for residential properties 18 inches above the crown of the adjacent public street or road - whichever is the highest.

All commercial properties and residential properties with more than 10 parking spaces must obtain drainage permits for site development from other regulatory authorities having jurisdiction prior to obtaining a building permit from the City. Since the City of Hollywood is a built-out municipality with emphasis slowly shifting toward redevelopment and with only limited water management review and permitting conducted in house, the standards of Broward County (in most cases) and sometimes the South Florida Water Management District or Central and South Broward Drainage Districts are enforced on larger projects through regulatory programs. To increase the efficiency and eliminate duplication in the area of environmental regulation, Hollywood relies heavily on the Broward County which possesses the expertise and resources to enforce the following standards:

**Broward County Adopted Level of Service Standard**

**Road Protection:** Residential streets not greater than fifty feet wide right-of-way to have crown elevations no lower than the elevation for the respective area depicted on the ten year "Flood Criteria Map." Rights-of-way greater than fifty feet wide to have an ultimate edge of pavement no lower than the elevation for the respective area depicted on the ten year "Flood Criteria Map."

**Buildings:** To have the lowest floor elevation no lower than the elevation for the respective area depicted on the "100 Year Flood Criteria Map," or the FEMA Based Flood Elevation, whichever is higher.

**Off Site Discharge:** Not to exceed the inflow limit of SFWMD primary receiving canal or the local conveyance system, whichever is less.

**Storm Sewers:** Design frequency minimum to the three year rainfall intensity of the State Department of Transportation Zone 10 rainfall curves.

**Flood Plain:** Calculated flood elevations based on the ten-year and one hundred year return frequency rainfall of three day duration shall not exceed the corresponding elevations of the ten year "Flood Criteria Map" and "100-Year Flood Elevation Map."

**Antecedent Water:** The higher elevation of either the control Level elevation or the elevation depicted on the map "Average Wet Season Water Levels."

**On Site Storage:** Minimum capacity above antecedent water level and below flood plain routing elevations to be design rainfall volume minus off site discharge occurring during design rainfall.

**Best Management:** Prior to discharge to surface or ground water BMP's will be used to reduce pollutant loading from stormwater runoff.

2. Identify the drainage district and drainage systems serving the amendment area.

**The canal system within Hollywood is controlled by the South Florida Water Management District (SFWMD). The SFWMD operates and maintains the C-10 canal and establishes discharge limits.**

**SFWMD regulates discharge limitations to allow surplus capacity for future developments in the County and to preserve the aquifer recharge potential through performance based criteria for water management systems to be constructed by the**

**developers on site. This policy encourages detention drainage systems consistent with the limitations set by SFWMD.**

**Properties without access to canals or lakes must provide full on-site retention, which is usually provided through a system of french drains and deep swales of the adequate capacity to provide the required level of service.**

**Most of the eastern part of the City (east of the Federal Highway (U.S. 1) and east of 16th Avenue, which was developed more than 30 years ago, drains the overflow from the intense storms through the positive drainage system, consisting of storm sewers or drainage ditches into the Intracoastal Waterway and the connected lakes. These waters are saline and subject to tidal influence, therefore they are not in SFWMD jurisdiction. Florida Department of Environmental Protection classified these waters as Type III (recreational use). Due to the historical redevelopment discharge of rainfall into these waters, no capacity limitations exist on the discharge. Only on-site detention and treatment of the first one-inch of runoff is required.**

3. Identify any planned drainage improvements, including year, funding sources and other relevant information.

   **All improvements required to meet the adopted level of service will be installed in conjunction with new development.**

4. Indicate if a Surface Water Management Plan has been approved by, or an application submitted to, the SFWMD and/or any independent drainage district, for the amendment site. Identify the permit number(s), or application number(s) if the project is pending, for the amendment site. If an amendment site is not required to obtain a SFWMD permit, provide documentation of same.

   **A Surface Water Management Permit has been issued for the site and will be updated as needed.**

5. If the area in which the amendment is located does not meet the adopted level of service and there are no improvements planned (by the unit of local government or drainage authority) to address the deficiencies, provide an engineering analysis which demonstrated how the site will be drained and the impact on the surrounding properties. The information should include the wet season water level for the amendment site, design storm elevation, natural and proposed land elevation, one hundred year flood elevation, acreage for proposed water management retention area, elevations for buildings, roads and years, storage and runoff calculations for the design storm and estimated time for flood waters to recede to the natural land elevation.

   **Development within the site will be required to meet the drainage standards of the City, Broward County Department of Planning and Environmental Protection, and the**

**South Florida Water Management District. The subject site will meet the level of service when development of the site is complete.**

6. Correspondence from local drainage district verifying the information submitted as part of the application on items 1-5 above. Correspondence must contain name, position and contact information of party providing verification.

2. Identify the solid waste facilities serving the service area in which the amendment is located including the landfill/plant capacity, current plus committed demand on landfill/plant capacity, and planned landfill/plant capacity.

**Solid waste pickup services are provided by Progressive/Waste Connection. Waste is collected and hauled to Port St. Cloud.**

**The landfill capacity is approximately 2,000 tons per day. The landfill demand is below capacity. The Progressive/Waste Connection facility has sufficient capacity to handle the proposed amendment area.**

3. Identify the net impact on solid waste demand resulting from the proposed amendment. Provide calculations, including anticipated demand per square foot or dwelling unit.

RE: Transit Verification Letter – "Diplomat" LUPA

Dear Ms. Ray:

Broward County Transit (BCT) has reviewed your correspondence dated December 28, 2017 regarding the Diplomat Land Use Plan Amendment (LUPA) located in the City of Hollywood Beach for current and planned transit service. The current transit service provided within one-quarter mile from the amendment site is limited to BCTs fixed-route 4 and Hollywood Beach Community Bus Beach Line (BCT Route 758) and Downtown/Beach - South (BCT Route 756). Please refer to the following table for detailed information:

Future fixed-route bus improvements including shorter headways are specified in the Broward County Transit Development Plan (TDP) or Broward MPO 2040 Long Range Transportation Plan (LRTP).

Broward County Transit Division can accommodate additional transit demand, as described in the Mass Transit Analysis, with existing and planned fixed-route bus service to the amendment site.

Transit Division has no objections to this LUPA, however BCT recommends that any proposed development on the amendment site is designed to provide safe movement for pedestrians and bicycles including transit connectivity to the existing sidewalk/bicycle network and bus stops along S Ocean Drive.

Please be advised, Transit Division will request ADA improvements for bus stop ID#1576 and #1591 located adjacent to the amendment site along S Ocean Drive. This request will be made separately as a part of the future development or plat review process.

Please feel free to call (954) 357-8554 or email me mmittelberg@broward.org if you require any additional information or clarification on this matter.

Sincerely,

Mabelle Mittelberg.

**Re: Diplomat Land Use Plan Amendment – Mass Transit Analysis**

Ms. Mittleberg:

My office is preparing an application for a land use plan amendment to the City of Hollywood Beach Comprehensive Plan. As you are aware, we are required to assess the impacts of the proposed amendment and confirm the effect on Mass Transit.

I have attached a copy of the analysis we have prepared and a site location map. I would appreciate your review of the materials and a written response concerning the accuracy of this information. Please provide me with your response at your earliest convenience.

If you should have any questions or require additional information, do not hesitate to contact me.

Thank you for your assistance in this matter.

Sincerely,

Kelly Ray

## A. PROJECT INFORMATION

The subject site is situated on the east and west sides of A1A north of Hallandale Beach Boulevard. The portion of the subject property on the east side of A1A is currently developed with the Diplomat Hotel, hotel offices, hotel food/beverage, convention/meeting space, and associated parking garage. The portion of the subject property on the west side of A1A is currently developed with commercial, a parking garage and surface parking.

The applicant proposes to redevelop the subject property situated on the west side of A1A with hotel rooms, dwelling units, retail and meeting space. The proposed use will enhance and further support the existing 128,000 square foot convention facility.

The applicant wishes to amend the future land use designation of the subject site to Activity Center (AC).

### Existing Land Use

| Existing Land Uses | | |
|---|---|---|
| **Acres** | **City** | **County** |
| 16.9 | MHRES | MH25 |
| 2.2 | GBUS | Commerce |

### Maximum Allowable Development Under the Current Land Use Designation

**Existing designation includes residential and non-residential uses. Per Broward County Land Use Plan Policy 2.4.12, the Activity Center impact analysis may be based on the intensity standards of the Hollywood Land Use Plan. For Commercial use, the City's Plan establishes a FAR of 3.0. The maximum allowable development under the current land use designation is:**

| Existing Land Use City/County | Calculation | Max. Allowable Development |
|---|---|---|
| MHRES/MH25 | 25 du/ac x 16.9 acres | = 422 d.u. |
| GBUS/Commerce | 2.2 acres x 43,560 sf = 95,832 sf<br>X 3.0 FAR = 287,496 sf | = 287,496 sf |

**Proposed Land Use**

| PROPOSED FUTURE LAND USE | |

**Proposed Text Amendment**
**To the City of Hollywood Comprehensive Plan**

HOLLYWOOD PLAN

## Permitted Uses in Areas Designated Activity Center

The areas designated for activity center use on the Future Hollywood Land Use Plan Map are intended to facilitate a balanced and interconnected mix of land uses, encourage mass transit, and non-motorized transportation, reduce the need for automobile travel, provide incentives for quality development and give definition to the urban form. Development patterns shall generally reflect planning and design principles that support mixed-use development to integrate housing, employment, retail, recreation and local and regional community facilities with a primary orientation toward a multi-modal transportation system.

Recognizing the importance of a multi-modal transportation system, the geographical area of an Activity Center must be served by regional and neighborhood transit stations along existing and planned high performance transit service corridors as designated in the Broward County Comprehensive Plan Transportation Element, the Broward County Transit Master Plan and Broward County Metropolitan Planning Organization's (MPO) Long Range Transportation Plan, Broward County Transit Development Plan, or local adopted financially feasible transportation or transit plan. Hollywood land use designations that are under the umbrella of activity center include Local Activity Center, Regional Activity Center, Transit Oriented Corridor, Transit Oriented Development and Mixed-Use Residential.

For an area to qualify as an Activity Center, the following criteria must be met:

- Substantial housing opportunities must be a component of any Activity Center (AC).
- At least two non-residential uses must be permitted.
- Affordable housing needs of the AC must be addressed within the local land use plan.
- Park land and/or open space that is open to the public must be included as a functional component.
- Convenient access to mass transit and/or multi-modal facilities must be ensured.
- The development of key intersections or major transit stops to create nodes of development should be promoted.
- Pedestrian circulation between non-residential activity nodes and residential to non-residential activity nodes should be based, at a maximum, on a 10 minute or half-mile walk.
- Minimum and maximum FAR (Floor Area Ratio) for non-residential uses must be specified by the local government in the local land use plan.
- An inter-local agreement between the municipality and County for monitoring development activity must be executed no later than 6 months after the effective date of adoption.
- Prior to submitting an AC amendment, the municipality shall ensure that the proposal has been subject to a broad public participation process, including explanatory information concerning the AC category and a description of potential effects on individual property

rights to property owners within and surrounding the AC amendment area. Examples of a broad public participation process may include, but not be limited to: mailed notices to affected property owners, advertised public workshops, and meetings targeting all stakeholders.

## Goals, Objectives and Policies

**OBJECTIVE 14 – Activity Center**

**Policy 14.1** Permitted residential densities and hotel rooms within areas designated "Activity Center" on the Broward County Land Use Plans (except for any "Activity Center" located east of the Intracoastal Waterway) may be increased by 20% or 500 dwelling units and/or hotel rooms, whichever is less, no earlier than every five (5) years via a local land use plan amendment and recertification by the Broward County Planning Council, and/or permitted non-residential intensities within areas designated "Activity Center" on the City and Broward County Land Use Plan may be increased by 20% or 200,000 square feet, whichever is less, every five (5) years via a local land use plan amendment and recertification by the Broward County Planning Council, subject to the following:

a. The local government must document that no more than 10% of permitted residential units and/or non-residential intensities proposed for increase are available for allocation at the time the local land use plan amendment is considered by the local government at a hearing.
b. "Every five (5) years" means starting from the date the 2016 Broward County Land Use Plan is effective for "Activity Centers" included in that Plan, or when a new or revised "Activity Center" is adopted by the County Commission and is effective.
c. An application for a Broward County Land Use Plan amendment may be submitted at any time for "Activity Center" proposals which would exceed the above referenced residential and non-residential density/intensity increases.
d. The local land use plan shall include policies addressing the affordable/workforce housing needs of "Activity Centers."
e. The local land use plan shall demonstrate sufficient capacity for public facilities and services, including coordination with public schools.

**Policy 14.2** Local governments may propose a specific area for designation on the Broward County Land Use Plan as an Activity Center. The municipality shall include within their land use element policies that ensure the proposed Activity Center will support the location of uses in a manner oriented around the five-minute (i.e. quarter-mile) walk and/or within approximately quarter-mile on either side of a transit corridor. Multiple nodes of activity oriented around the five-minute (i.e. quarter-mile) walk or transit corridor may be included within one Activity Center. The municipality shall include within their land use element policies that ensure that the proposed Activity Center will support the location of uses

and internal circulation such that pedestrian mobility is a priority. All land uses in an Activity Center shall be directly accessed via pedestrian ways, and accessible to existing or future alternate public transportation modes, including bicycle and transit.

**Policy 14.3** Residential use is required as a principal component within an Activity Center. Maximum residential density must be specified by the local government, and must be described in the permitted uses section of the Broward County Land Use Plan. Residential densities may be specified either as units per gross acre in geographically designated areas and/or as a maximum number of permitted units (e.g. pool of units in the Activity Center).

**Policy 14.4** At least two non-residential uses must be permitted in the Activity Center as a principal use: e.g. retail, office, restaurants and personal services, hotel/motel, light industrial (including "live work" buildings), research business, civic and institutional.

**Policy 14.5** Minimum and Maximum FAR (Floor Area Ratio) for non-residential uses within an Activity Center must be specified by the local government and described in the permitted uses section of the City Land Use Plan. Minimum non-residential FARs (Gross) of 2 are encouraged. Non-residential intensities may vary along transit corridors and may be specified at the option of the local government, either as a maximum FAR in geographically designated areas and/or as an overall maximum square footage by use [e.g. pool of square footage by permitted use (retail, office etc.) or land use category (commercial)].

**Policy 14.6** For proposed new or revised Activity Centers, the City and Broward County shall, to address new proposed dwelling units and impacts, coordinate and cooperate in assisting municipalities to identify existing and proposed policies, methods and programs to achieve and/or maintain a sufficient supply of affordable housing to serve such areas. (f/k/a Policy 20 and Revised Policy 10.01.04)

**Policy 14.7** Local governments shall consider community needs for affordable housing when proposing an Activity Center and include within their local land use element policies which encourage affordable housing opportunities, through various mechanisms such as the direction of public housing program funds into the Activity Center, reduced lot size for dwelling units, construction of zero lot line and cluster housing, vertical integration of residential units with non-residential uses, the allowance of accessory dwelling units, or through other mechanisms proven effective in increasing the affordable housing stock. To promote Activity Centers which propose

to include "low income" housing as a viable component, City and Broward County shall support all reasonable means and methods to mitigate potential negative impacts to public facilities and services which may result from the amendment.

**Policy 14.8** Local governments shall include within their local land use element policies that promote the preservation, rehabilitation and use of historic buildings within a proposed Activity Center.

**Policy 14.9** Local land use elements shall require design guidelines that incorporate pedestrian and bicycle paths and greenways to accomplish fully-connected routes to all destinations within the Activity Center. The paths should be spatially defined by buildings, trees and lighting, and should incorporate designs which discourage high speed traffic.

**Policy 14.10** To reduce reliance on automobile travel, local governments shall ensure convenient access to high use mass transit stops or multi-modal facilities within a proposed Activity Center.

**Policy 14.11** Local governments shall include within their local land use element policies that encourage internal transit systems to serve the residents and employees within the proposed Activity Center (e.g. trolley, community transit services). Transit shelters should be incorporated in the local design guidelines to provide safe and comfortable service and to encourage transit usage.

**Policy 14.12** In consideration of non-residential land uses in areas proposed for designation as an Activity Center, the impact analysis for the designation in the City and Broward County Land Use Plan may be based on the amount of non-residential development which could be permitted as per the intensity standards of the effective local government land use element, rather than the alternative 10,000 square feet per gross acre standard utilized for non-residential impact analysis.

**Policy 14.13** Local land use element policies must include guiding principles for municipal design guidelines to adequately address the transition to adjacent residential development and to promote connectivity to transit stations and stops.

**Policy 14.14** Park land, public plazas, urban open space or green space/pocket park uses that are accessible to the public must be provided as an integrated component within a proposed Activity Center.

**Policy 14.15** The municipality shall include within their land use element policies that ensure that areas designated as Activity Centers include design features that promote and enhance pedestrian mobility, including connectivity to transit stops and stations, based on the following characteristics: • Integrated transit stop with shelter, or station (within the area). • Wide (5 feet shall be the minimum consistent with ADA requirements) pedestrian and bicycle paths that minimize conflicts with motorized traffic and are adequately landscaped, shaded and provide opportunities for shelter from the elements. • Buildings should front the street (zero or minimal setbacks are encouraged). • Vehicle parking strategies that encourage and support transit usage (such as parking that does not front the street, shared parking, parking structures, and/or reduced parking ratios). • Streets (internal and adjacent to the area) should be designed to discourage isolation and provide connectivity (such as streets in the grid pattern).

**Policy 14.16** Local plan policies must include requirements for internal pedestrian and transit amenities to serve the residents and employees within the area designated as an Activity Center (such as seating on benches or planter ledges, shade, light fixtures, trash receptacles, information kiosks, bicycle parking) or other amenities that could be incorporated into adjacent publicly accessible areas and plaza (such as clocks, fountains, sculpture, drinking fountains, banners, flags and food and refreshment vendor areas.)

**Policy 14.17** The intent of the required design features is to provide guidelines for municipal implementation of the Activity Center land use category. The City is encouraged to use some or all of the above design elements, or to develop other design strategies, which accomplish the goals of using design elements to enhance pedestrian and transit mobility. County review of applications seeking the Activity Center land use category designations will only determine whether the municipality has adopted, through plan policies, a cohesive set of implementation strategies to accomplish the design strategies sought, and will not seek to require a specific design approach or a fixed set of design approaches as a requirement for County approval of the land use designation sought.

**Policy 14.18** The City which proposes an Activity Center designation shall include policies within their land use element which establish design guidelines for mixed use within their land development codes. Policies should promote an urban form which creates well integrated land use combinations, balances intensity and density, and promotes the safe, interconnectivity of vehicular, pedestrian and other non-motorized movement. Policies should integrate the public realm, through open space, urban public plazas and/or recreational areas.

**Policy 14.19** The City which proposes a an Activity Center designation shall include policies within their land use element which establish appropriate design standards, within their land development codes, to ensure a mixed use development is compatible with adjacent land uses and adjacent adopted Future Land Use designations.

**Policy 14.20** An interlocal agreement between the City and Broward County must be executed no later than six months from the effective date of the adoption of an Activity Center which provides that monitoring of development activity and enforcement of permitted land use densities and intensities shall be the responsibility of the affected municipality.

PO-2023-10

ORDINANCE NO. O-2023-11

(23-Z-33)

AN ORDINANCE OF THE CITY OF HOLLYWOOD, FLORIDA, AMENDING THE APPROVED PLANNED DEVELOPMENT (PD) MASTER DEVELOPMENT PLAN FOR THE PROPERTY LOCATED AT 3451-3690 AND 3210-3450 SOUTH OCEAN DRIVE TO ALLOW FOR THE DEVELOPMENT OF 350 RESIDENTIAL UNITS AND A 500 KEY HOTEL IN ACCORDANCE WITH THE RECENTLY ADOPTED DIPLOMAT ACTIVITY CENTER LAND USE CATEGORY AS APPROVED BY ORDINANCE NO. O-2019-25; ESTABLISH DIMENSIONAL STANDARDS FOR THE 350 RESIDENTIAL UNITS AND 500 KEY HOTEL; MODIFYING EXHIBIT "G" CONDITIONS TO THE PD MASTER PLAN TO INCORPORATE THE DIMENSIONAL STANDARDS FOR THE 350 RESIDENTIAL UNITS AND 500-KEY HOTEL; PROVIDING FOR A SEVERABILITY CLAUSE AND A REPEALER CLAUSE.

WHEREAS, the property legally described in the attached Exhibit "A" ("Property") was rezoned to PD (Planned Development) by Ordinance No. O-92-31; and

WHEREAS, Ordinance No. O-92-31 was amended by Ordinance No. O-96-13 and Resolution No. R-97-212 (Ordinance No. O-92-31, as amended, is referred to as the "Rezoning Ordinance"); and

WHEREAS, the Rezoning Ordinance was amended in part by Ordinance Nos. O-98-13, O-99-23, O-2000-31 and O-2016-05; and

WHEREAS, pursuant to Ordinance No. O-2019-25, the Property was re-designated to the Diplomat Activity Center Land Use Category to allow for the development of 350 residential units and a 500 key hotel on the west side of A1A; and

WHEREAS, the City's Zoning and Land Development Regulations provide for the amendment of a PD Master Plan; and

WHEREAS, on March 15, 2023, an application was filed by HFL Landings Owner, LLC and Landings Venture, LLC ("Applicants") requesting approval of an amendment to the PD Master Plan for the Property by amending the development program for the PD to permit 350 residential units and a 500 key hotel development; and

WHEREAS, the Applicants also seek to modify Exhibit "G" of Ordinance No. O-98-13, as amended by O-2000-31, to clarify the dimensional standards applicable to the PD; and

WHEREAS, the Director of the Community Planning Division, after analyzing the application and its associated documents, determined that the proposed amendments to the PD Master Plan are consistent with the City's Comprehensive Plan; and

WHEREAS, on June 13, 2023, the Planning and Development Board reviewed the proposed amendments to the PD Master Plan and voted unanimously to recommend approval of the amendments; and

WHEREAS, the City Commission finds that the proposed amendments to the PD Master Plan are consistent with the City's Comprehensive Plan and the Zoning and Land Development Regulations and are in the best interest of the citizens of the City.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COMMISSION OF THE CITY OF HOLLYWOOD, FLORIDA:

Section 1: That the foregoing "WHEREAS" clauses are ratified and confirmed as being true and correct and are incorporated in this Ordinance.

Section 2: That the Applicants have presented competent substantial evidence that the proposed Amended PD Master Plan satisfies the intent of the City's Zoning and Land Development Regulations and all other applicable City ordinances, and that the proposed changes in the proposed development are suitable in terms of their relationship to the City of Hollywood Comprehensive Plan and the surrounding areas and are consistent with the adopted goals, policies and objectives for growth and development.

Section 3: That Ordinance No. O-2016-05, which amended the PD Master Plan for the Property (originally approved by Ordinance No. O-92-31 and amended by Ordinance O-96-13, Resolution No. R-97-212, Ordinance No. O-99-23, and Ordinance No. O-2000-31) shall be further amended to allow an additional 500 key hotel and an additional 350 residential units on the Property.

Section 4: That it approves the modification to Exhibit "G" of the PD Master Plan relating to the dimensional standards as more specifically set forth in the attached Exhibit "G".

Section 5: That those provisions of Ordinance No. O-92-31 as amended by Ordinance No. O-96-13, Resolution No. R-97-212 as amended by Ordinance No. O-98-13, and Ordinance No. O-2000-31 and Ordinance No. O-2016-05, which are not amended by this Ordinance, shall remain in full force and effect along with all other conditions set forth in Exhibit "G".

Section 6: That the City Commission, pursuant to Section 166.041(3)(c), Florida Statutes, elects by a majority plus one vote to conduct the second reading prior to 5:00 p.m. at a regularly scheduled City Commission public hearing

AN ORDINANCE AMENDING THE APPROVED PLANNED DEVELOPMENT (PD) MASTER DEVELOPMENT PLAN FOR THE PROPERTY LOCATED AT 3451-3690 AND 3210-3450 SOUTH OCEAN DRIVE TO ALLOW FOR THE DEVELOPMENT OF 350 RESIDENTIAL UNITS AND A 500 KEY HOTEL IN ACCORDANCE WITH THE RECENTLY ADOPTED DIPLOMAT ACTIVITY CENTER LAND USE CATEGORY AS APPROVED BY ORDINANCE NO. RESOLUTION NO. R-2023-255

(23-DP-33a)

A RESOLUTION OF THE CITY COMMISSION OF THE CITY OF HOLLYWOOD, FLORIDA, CONSIDERING A REQUEST FOR DESIGN AND SITE PLAN APPROVAL FOR A 350-UNIT MULTI-FAMILY DEVELOPMENT LOCATED AT 3451-3690, SOUTH OCEAN DRIVE, HOLLYWOOD, FLORIDA.

WHEREAS, the City's Zoning and Land Development Regulations require that all development projects located in a Planned Development ("PD") District must receive approval from the City Commission prior to the issuance of any building permits for Modifications, Design and Site Plan; and

WHEREAS, the Planning and Development Board ("Board") is charged with, among other things, the responsibility of considering requests for Modification, Variances, Design Review, and Site Plan approval, forwarding its recommendation to the City Commission; and

WHEREAS, HFL Landings Owner, LLC. ("Applicant"), has applied for Design, and Site Plan approval for a development project known as "Diplomat Landing Condominium", consisting of a multi-family residential development of 350 units located at 3451-3690 S. Ocean Drive, as more particularly described in the attached Exhibit "A"; and

WHEREAS, Planning and Urban Design Division staff ("staff") reviewed the Applicant's request for Design in accordance with the criteria set forth in Section 5.3.I.4.a.(1) through (4) of the Zoning and Land Development Regulations, and recommended that the Board forward a recommendation of approval for the requested Design to the City Commission; and

WHEREAS, in accordance with Article 6 of the Zoning and Land Development Regulations, the Technical Advisory Committee reviewed the Applicant's request for Site Plan and recommended that the Board forward a recommendation of approval for the Site Plan to the City Commission; and

WHEREAS, on July 11, 2023, the Board met and held an advertised public hearing to consider the Applicant's requests and have forwarded its recommendations to the City Commission as follows:

1. That the Design meets the criteria set forth in Section 5.3.I.4.a (1) through (4) of the City's Zoning and Land Development Regulations and should be approved with the condition that the Applicant shall continue to work with staff regarding all signage design; and

2. That the Final Site Plan meets the Review Standards set forth in Article 6 of the Zoning and Land Development Regulations and should be approved with the following conditions:

   a. Prior to issuance of a Building Permit, the amendment to the restrictions on the face of the plat to allow the 350 multi-family dwelling units shall be recorded in the Broward County Public Records and submitted to the City;

   b. An easement for unrestricted public access to the boardwalk, in a form acceptable to the City Attorney, shall be submitted prior to the issuance of a Building Permit and recorded in the Public Records of Broward County by the City prior to the issuance of a Certificate of Occupancy;

   c. The Water Main and Sewer Main Extension will require signed and sealed plans from a licensed engineer an FDEP/Broward County wastewater license and FDEP/Broward County Department of Health main extension permit. All work must be performed by a certified utility contractor;

   d. Prior to issuance of a Building Permit, the amendment to Non-Vehicular Access Line S. Ocean Drive to reflect the new/relocated vehicular access points shall be recorded with Broward County Public Records and submitted to the City;

   e. The applicant shall ensure that the site plan is modified in accordance with the City's engineering code requirements and corresponding traffic study comment as outlined on July 7, 2023 by Lisa S. Bernstein, PE. The site plan shall be modified to the satisfaction of the Planning Manager and City Engineer prior to the approval of the City Commission ; and

WHEREAS, subsequent to the Board hearing, Engineering Division and Planning Division Staff reviewed and accepted changes to the traffic study and the Site Plan, therefore satisfying Board condition 2.e; and

WHEREAS, the City Commission has reviewed the Applicant's request for Design in accordance with the criteria set forth in Section 5.3.I.4.a (1) through (4) of the City's Zoning and Land Development Regulations, along with staff's and the Board's recommendations, and has determined that the Design should be approved with conditions and

WHEREAS, the City Commission has reviewed the proposed Site Plan in accordance with the review standards set forth in Article 6 of the City's Zoning and Land Development Regulations along with the Technical Advisory Committee's and the Board's recommendations, and has determined that the Site Plan should be approved with conditions, as set forth herein.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF HOLLYWOOD, FLORIDA:

Section 1: That the foregoing "WHEREAS" clauses are ratified and confirmed as being true and correct and are incorporated in this Resolution.

Section 2: That following review of the Staff Summary Report, the Applicant's application and supporting documents and materials, and all submitted written and oral testimony received during the public hearing from all parties and speakers, the Board's recommendation, and the consideration of the Design criteria set forth in Section 5.3.4.I.a.(1) through (4) of the City's Zoning and Land Development Regulations, the City Commission finds the necessary criteria have, and the Design attached as Exhibit "B" is approved with the conditions set for herein.

Section 3: That following review of the Staff Summary Report, the Applicant's application and supporting documents and materials, and all submitted written and oral testimony received during the public hearing from all parties and speakers, the Board's recommendation with conditions, and consideration of the Site Plan review standards set forth in Article 6 of the Zoning and Land Development Regulations, the City Commission finds that the necessary review standards have been met, and the Site Plan attached as Exhibit "B" is approved with the conditions set for herein.

Section 4: That the Applicant shall have up to 24 months from the date of Design approval to apply for all necessary building permits required to proceed with construction, and failure to submit an application within the required time period shall render all approvals null and void.

Section 5: That the Applicant shall have up to 24 months from the date of Site Plan approval to apply for all necessary building permits required to proceed with construction, and failure to submit an application within the required time period shall render all approvals null and void.

Section 6: That this Resolution shall be in full force and effect immediately upon its passage and adoption.

A RESOLUTION OF THE CITY COMMISSION OF THE CITY OF HOLLYWOOD, FLORIDA, CONSIDERING A REQUEST FOR DESIGN AND SITE PLAN APPROVAL FOR A 350-UNIT MULTI-FAMILY DEVELOPMENT LOCATED AT 3451-3690, SOUTH OCEAN DRIVE, HOLLYWOOD, FLORIDA.

RESOLUTION NO. R-2024-076

(23-DP-49)

A RESOLUTION OF THE CITY COMMISSION OF THE CITY OF HOLLYWOOD, FLORIDA, APPROVING THE DESIGN AND SITE PLAN FOR A 500-KEY HOTEL DEVELOPMENT (DIPLOMAT) LOCATED AT 3451-3690 SOUTH OCEAN DRIVE, HOLLYWOOD, FLORIDA.

WHEREAS, the City's Zoning and Land Development Regulations require that all development projects located in a Planned Development District must receive approval from the City Commission prior to the issuance of any building permits for Modifications, Design and Site Plan; and

WHEREAS, the Planning and Development Board ("Board") is charged with, among other things, the responsibility of considering requests for Modification, Variances, Design Review, and Site Plan approval, and forwarding its recommendations to the City Commission; and

WHEREAS, HFL Landings Owner, LLC ("Applicant") has applied for Design and Site Plan approval for a development project known as "Diplomat Landing Hotel", consisting of a 500 hotel rooms located at 3451-3690 S. Ocean Drive, as more particularly described in the attached Exhibit "A"; and

WHEREAS, Planning and Urban Design Division staff ("Staff") reviewed the Applicant's request for Design in accordance with the criteria set forth in Section 5.3.I.4.a.(1) through (4) of the Zoning and Land Development Regulations, and recommended that the Board forward a recommendation of approval for the requested Design to the City Commission; and

WHEREAS, in accordance with Article 6 of the Zoning and Land Development Regulations, the Technical Advisory Committee reviewed the Applicant's request for Site Plan and recommended that the Board forward a recommendation of approval for the Site Plan to the City Commission; and

WHEREAS, on January 23, 2024, the Board met and held an advertised public hearing to consider the Applicant's requests and have forwarded its recommendations to the City Commission as follows:

1. That the Design meets the criteria set forth in Section 5.3.I.4.a (1) through (4) of the City's Zoning and Land Development Regulations and should be approved with the condition that the Applicant shall continue to work with staff regarding all signage design; and

2. That the Final Site Plan meets the Review Standards set forth in Article 6 of the Zoning and Land Development Regulations and should be approved with the following conditions:

   a. Prior to issuance of a Building Permit, the amendment to the restrictions on the face of the plat to allow the 500 hotel rooms shall be recorded in the Public Records of Broward County and submitted to the City;

   b. If Broward County determines platting/replatting of the property is required, prior to issuance of a Building Permit, such plat/replat shall be recorded in the Public Records of Broward County and submitted to the City;

   c. An easement for unrestricted public access to the Broadwalk, in a form acceptable to the City Attorney, shall be submitted prior to the issuance of a Building Permit and recorded in the Public Records of Broward County by the City prior to the issuance of a Certificate of Occupancy;

   d. The water main and sewer main extension will require signed and sealed plans from a licensed engineer, and FDEP/Broward County wastewater license and FDEP/Broward County Department of Health main extension permit. All work must be performed by a certified utility contractor;

   e. Prior to issuance of a Building Permit, the amendment to Non-Vehicular Access Line along S. Ocean Drive to reflect the new / relocated vehicular access points shall be recorded in the Public Records of Broward County and submitted to the City; and

   f. Prior to the issuance of a Building Permit, the City, CRA, and the Applicant will work together to request relief from the Florida Department of Transportation regarding the state's stacking lane requirements ; and

WHEREAS, subsequent to the Board hearing, Engineering Division and Planning Division staff reviewed and accepted changes to the traffic study and the Site Plan, therefore satisfying Board condition 2.e; and

WHEREAS, the City Commission has reviewed the Applicant's request for Design in accordance with the criteria set forth in Section 5.3.I.4.a (1) through (4) of the City's Zoning and Land Development Regulations, along with the staff and Board recommendations, and has determined that the Design should be approved with conditions; and

WHEREAS, the City Commission has reviewed the proposed Site Plan in accordance with the review standards set forth in Article 6 of the City's Zoning and Land Development Regulations along with the Technical Advisory Committee and the Board recommendations, and has determined that the Site Plan should be approved with conditions, as set forth herein.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF HOLLYWOOD, FLORIDA:

Section 1: That the foregoing "WHEREAS" clauses are ratified and confirmed as being true and correct and are incorporated in this Resolution.

Section 2: That following review of the Staff Summary Report, the Applicant's application and supporting documents and materials, and all submitted written and oral testimony received during the public hearing from all parties and speakers, the Board's recommendation, and consideration of the Design criteria set forth in Section 5.3.4.I.a.(1) through (4) of the City's Zoning and Land Development Regulations, the City Commission finds the necessary criteria have been met, and the Design attached as Exhibit "B" is approved with the conditions set forth herein.

Section 3: That following review of the Staff Summary Report, the Applicant's application and supporting documents and materials, and all submitted written and oral testimony received during the public hearing from all parties and speakers, the Board's recommendation with conditions, and consideration of the Site Plan review standards set forth in Article 6 of the Zoning and Land Development Regulations, the City Commission finds that the necessary review standards have been met, and the Site Plan attached as Exhibit "B" is approved with the conditions set forth herein.

Section 4: That the Applicant shall have up to 24 months from the date of Design approval to apply for all necessary building permits required to proceed with construction, and failure to submit an application within the required time period shall render all approvals null and void.

Section 5: That the Applicant shall have up to 24 months from the date of Site Plan approval to apply for all necessary building permits required to proceed with construction, and failure to submit an application within the required time period shall render all approvals null and void.

Section 6: That this Resolution shall be in full force and effect immediately upon its passage and adoption.

A RESOLUTION OF THE CITY COMMISSION OF THE CITY OF HOLLYWOOD, FLORIDA, APPROVING THE DESIGN AND SITE PLAN FOR A 500-KEY HOTEL DEVELOPMENT LOCATED AT 3451-3690 SOUTH OCEAN DRIVE, HOLLYWOOD, FLORIDA.
