Subject: Draft Fire Pension Ordinance - Definition of Beneficiary

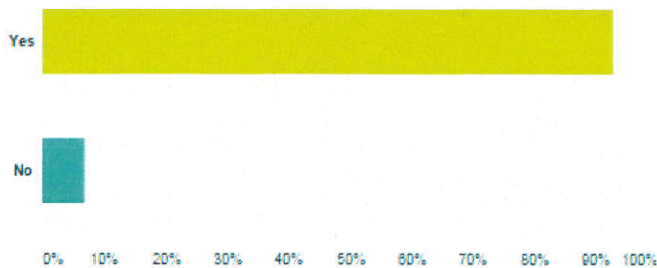

Good morning Alan,

Please see below results from our membership and advise me please when this item will be placed on the Commission Agenda for first reading.

Thank you.

The Firefighter's Pension and Retirement Fund has recommended a change to the provisions of the Plan to allow members and retirees to name a Trust as a beneficiary of lump sum benefit distributions. Currently, the Plan only allows a person to be named as a beneficiary, so the change would allow added flexibility for Plan members/retirees. The Code of the City of Hollywood provides that any change to Plan terms must be approved by a majority of the membership of the Plan. Please submit your vote as to whether you approve the amendment to the Plan provisions.
