RE: Project #16-7081 Gravity Sewer System Condition Assessment and Renewal and Replacement (Inflow / Infiltration – I/I) Excavated point Repairs, Contract Extension

Dear Mr. Polanco,

On behalf of EnviroWaste Services Group, Inc. (ESG), we are pleased to present this request and proposal for an extension of the above referenced contract to the City of Hollywood.

Pursuant to our recent discussions and the terms of our existing contract, we would like to confirm our willingness and intent to offer a renewal of the contract with the same pricing, terms and conditions as currently stipulated. The current agreement offers very favorable pricing and represents a significant value.

As you know, we have had a strong working relationship with the City of Hollywood since 2008, providing a range of services including timely response to emergency service requests and partnering with the City in evaluating systems issues and potential point repairs. We understand the City continues to have needs in maintaining its sanitary sewer basins, and we stand ready to assist you in this regard.

As always, we appreciate the opportunity to present this request and look forward to continuing our partnership with the City of Hollywood. If you have any questions or need anything further regarding this matter, please do not hesitate to contact Eddy Barba or myself. I can be reached directly via my cell phone at 305-527-2101.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Paul Quentel', is written over a light blue circular stamp.

Paul Quentel
Chief Executive Officer
Envirowaste Services Group, Inc.
