Summary Table of Public Comments  
July 11, 2023

|    | Speaker            | Address                  | For/Against | Summary of Comment   |
|----|--------------------|--------------------------|-------------|--|
| 1  | Jack Jafarmadar    | 1619 Harrison Street     | Against     | Traffic problems prevent residents from leaving their homes. There will be health and safety risks due to the traffic. The school is not good for the area.  |
| 2  | Siobhan McLaughlin | 1409 Rodman Street       | Against     | Applicant does not meet basic standards. Citizens' opinions are disregarded when it comes to the concerns of traffic, safety and zoning. This school will cause a traffic bedlam.                                |
| 3  | Alan Paoli         | 1720 Harrison Street     | Against     | School dropoff and pickup causes traffic ingestion. School will interfere with the speaker's law firm where clients have difficulty visiting his office due to current traffic issues.                           |
| 4  | Randall Gilbert    | 1720 Harrison Street     | Against     | Object any school in the area due to traffic ingestion. The school proposes 700 students which would introduce more traffic and cause his business and other business owners to shut down.                       |
| 5  | Joy Satterlee      | 1650 Harrison Street     | Against     | There are current traffic issues on Harrison street and the school would cause more traffic and difficulty in accomodating parking for the Art & Culture Center. Buses will not solve congestion problems.       |
| 6  | Terry Cantrell     | Hollywood Lakes District | Against     | Parking and Traffic problems. There is nowhere for children to play. The plan does not make sense. What recourse does the City, Residents and business owners have if the school fails?                          |
| 7  | Suzanne Gunzburger | 803 N. Southlake Drive   | Against     | This area is not the place for the school. It would interfere with residents getting medication from the local pharmacies. Commutes will be longer. Find a better location in Hollywood for the school.          |
| 8  | Mark Matthews      | 1616 Van Buren           | Against     | The school causes traffic and safety issues for children. Families can't get out homes due to the traffic. This is the wrong location for the school. Teachers park on 15th & 16th Street.                       |
| 9  | Ann Ralston        | 326 S 14th Avenue        | Against     | Traffic problems in the neighborhood. Inappropriate area for the school. Traffic Studies should be conducted when students are dropped off and picked up.  |
| 10 | Jeff Biegelsen     | 1646 Monroe Street       | Against     | Young Circle is growing, but there is no parking.  |
| 11 | Meaghan Kent       | 2030 Sweetbay Way        | Against     | The school is not safe for the children coming in and out of the area.   |
| 12 | Jacob Breakstone   | BTT Partners             | Against     | Every plan presented by the Applicant involved the use of the speaker's property.  |
| 13 | Fred DeBiase       | 1620 Van Buren Street    | Against     | Traffic is really bad and teachers don't park in the provided garage. They park on the streets.  |
| 14 | Miguel Ramos       | 1643 Van Buren Street    | Against     | There are traffic concerns in the area and better decisions need to be made for potential homeowners.  |
| 15 | Jonathan Deutsch   | P.O. Box 817689          | Neutral     | If school is approved via RLUPA, Ben Gamma Charter school will file to expand via RLUPA  |
| 16 | Elinor Razla       | 3900 N 48th Avenue       | For         | The School stands for values. Parents/Teachers have expressed all safety precautions. Bus transportation is safe and does not affect the citizens in the area. The school is beautiful and amazing for children. |
