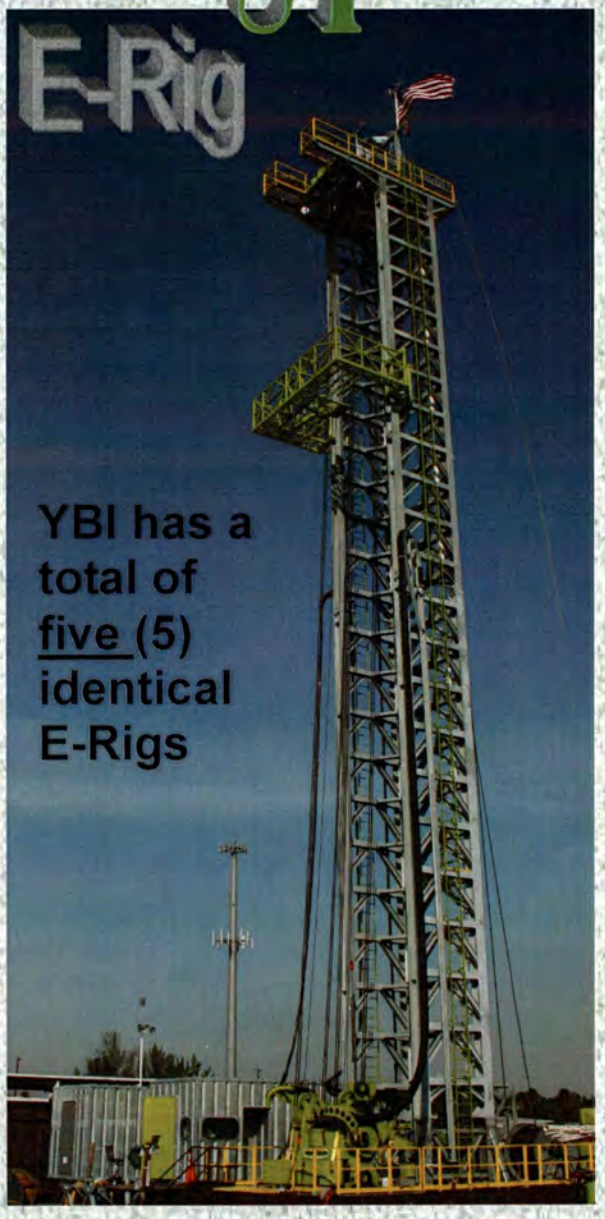
Youngquist Brothers, Inc



Youngquist Brothers, Inc., Electric Drilling Rigs ("E-Rigs") were designed and built in 2007-2008. These rigs are totally electric including the draw works, fluid pumping and air systems. They include an electric substation that is installed at the nearest overhead power line. This substation can safely accept virtually any voltage available by the utility. Power is distributed to our equipment through heavy duty ground fault monitored mining cable at distances of up to 2 miles or greater. The draw-works motor delivers 1230HP performance in an all electric drilling rig, with a rated hook load of over 1 Million pounds.
