We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly in all material respects, the financial position of Giannetti Contracting Corporation, as of November 30, 2012 and 2011, and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United State of America.

GIANNETTI CONTRACTING CORPORATION
NOTES TO FINANCIAL STATEMENTS
November 30, 2012 and 2011

NOTE 1: DESCRIPTION OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Company is primarily engaged in the installation of underground sewer and water supply systems in Southeast Florida.

The following is a summary of the Company's significant accounting policies:

Revenue Recognition

The Company records revenue on construction contracts by the percentage of completion method. The percentage of completion is determined by the ratio of costs incurred to estimates of total costs to be incurred. Losses on contracts are provided for in their entirety when estimates indicate that a loss will be incurred. Changes in job performance, job conditions, and estimated profitability may result in revisions to costs and income, which are recognized in the period in which the revisions are determined. A contract is considered complete when all costs except insignificant items have been incurred or when the work performed under the contract has received final acceptance from the owner. Because of the inherent uncertainties in estimating costs and revenues, it is reasonably possible that the estimates used will change within the near term.

Concentration of Risk

The Company maintains their cash balances in a single financial institution. The balances, at times, may exceed federally insured limits.

Accounts Receivable

The Company considers accounts receivable to be fully collectible based on prior experience of collections; accordingly, no allowance for doubtful accounts has been provided.

Fixed Assets

Machinery, transportation equipment, office equipment and leasehold improvements are recorded at cost and are depreciated using the straight-line method over the following estimated useful lives:

	Years
Machinery and equipment	5 - 10
Transportation equipment	5
Office equipment	5
Leasehold improvements	5

GIANNETTI CONTRACTING CORPORATION
NOTES TO FINANCIAL STATEMENTS
November 30, 2012 and 2011

NOTE 1: DESCRIPTION OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Fixed Assets - Continued

Maintenance, repairs and renewals, including replacement of minor items to physical properties, are charged to income; major additions to physical properties are capitalized.

Depreciation expense was \$241,063 and \$232,579 for the years ended November 30, 2012 and 2011, respectively.

Income Taxes

The Company has elected by unanimous consent of its stockholders to be taxed as an "S" Corporation under provisions of the Internal Revenue Code. Under those provisions, the Company does not pay federal corporate income taxes on its taxable income. Instead, the stockholders are liable for individual federal income taxes on their respective shares of the Company's taxable income.

The Company has adopted accounting rules that prescribe when to recognize and how to measure the financial statement effects of income tax positions taken or expected to be taken on its income tax returns. These rules require management to evaluate the likelihood that, upon examination by relevant taxing jurisdictions, those income tax positions would be sustained. Based on that evaluation, the Company only recognizes the maximum benefit of each income tax position that is more than 50% likely of being sustained. To the extent that all or a portion of the benefits of an income tax position are not recognized, a liability would be recognized for the unrecognized benefits, along with any interest and penalties that would result from disallowance of the position. Should any such penalties and interest be incurred, they would be recognized as operating expenses.

Based on the results of management's evaluation, adoption of the rules did not have a material effect on the accompanying financial statements. Consequently, no liability is recognized in the accompanying balance sheets for unrecognized income tax positions. Further, no interest or penalties have been accrued or charged to expense as of November 30, 2012 and 2011, or for the years then ended. With limited exceptions, the Company is no longer subject to federal tax audits for years prior to 2009 and state tax audits for years prior to 2008.

Cash Flows

For purposes of the Statements of Cash Flows, the Company considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents.

Subsequent Events

Management has evaluated subsequent events through February 15, 2013, the date on which the financial statements were available to be issued.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.
