The Recipient further agrees to comply and cooperate with any inspections, reviews, investigations or audits deemed necessary by the Florida Chief Financial Officer or Auditor General. In addition, the Division will monitor the performance and financial management by the Recipient throughout the contract term to ensure timely completion of all tasks.

(9) LIABILITY

(a) Unless Recipient is a State agency or subdivision, as defined in Section 768.28, Fla. Stat., the Recipient is solely responsible to parties it deals with in carrying out the terms of this Agreement, and shall hold the Division harmless against all claims of whatever nature by third parties arising from the work performance under this Agreement. For purposes of this Agreement, Recipient agrees that it is not an employee or agent of the Division, but is an independent contractor.

(b) Any Recipient which is a state agency or subdivision, as defined in Section 768.28, Fla. Stat., agrees to be fully responsible for its negligent or tortious acts or omissions which result in claims or suits against the Division, and agrees to be liable for any damages proximately caused by the acts or omissions to the extent set forth in Section 768.28, Fla. Stat. Nothing herein is intended to serve as a waiver of sovereign immunity by any Recipient to which sovereign immunity applies. Nothing herein shall be construed as consent by a state agency or subdivision of the State of Florida to be sued by third parties in any matter arising out of any contract.

(10) DEFAULT.

If any of the following events occur ("Events of Default"), all obligations on the part of the Division to make further payment of funds shall, if the Division elects, terminate and the Division has the option to exercise any of its remedies set forth in Paragraph (11). However, the Division may make payments or partial payments after any Events of Default without waiving the right to exercise such remedies, and without becoming liable to make any further payment:

(a) If any warranty or representation made by the Recipient in this Agreement or any previous agreement with the Division is or becomes false or misleading in any respect, or if the Recipient fails to keep or perform any of the obligations, terms or covenants in this Agreement or any previous agreement with the Division and has not cured them in timely fashion, or is unable or unwilling to meet its obligations under this Agreement;

(b) If material adverse changes occur in the financial condition of the Recipient at any time during the term of this Agreement and the Recipient fails to cure this adverse change within thirty days from the date written notice is sent by the Division.

(c) If any reports required by this Agreement have not been submitted to the Division or have been submitted with incorrect, incomplete or insufficient information;

(d) If the Recipient has failed to perform and complete on time any of its obligations under this Agreement.

(11) REMEDIES.

If an Event of Default occurs, then the Division shall, after thirty calendar days written notice to the Recipient and upon the Recipient's failure to cure within those thirty days, exercise any one or more of the following remedies, either concurrently or consecutively:

(a) Terminate this Agreement, provided that the Recipient is given at least thirty days prior written notice of the termination. (b) Begin an appropriate legal or equitable action to enforce performance of this Agreement;

(c) Withhold or suspend payment of all or any part of a request for payment;

(d) Require that the Recipient refund to the Division any monies used for ineligible purposes under the laws, rules and regulations governing the use of these funds.

1. request additional information from the Recipient to determine the reasons for or the extent of non-compliance or lack of performance,

2. issue a written warning to advise that more serious measures may be taken if the situation is not corrected,

3. advise the Recipient to suspend, discontinue or refrain from incurring costs for any activities in question or

4. require the Recipient to reimburse the Division for the amount of costs incurred for any items determined to be ineligible;

(f) Exercise any other rights or remedies which may be available under law.

(g) Pursuing any of the above remedies will not stop the Division from pursuing any other remedies in this Agreement or provided at law or in equity. If the Division waives any right or remedy in this Agreement or fails to insist on strict performance by the Recipient, it will not affect, extend or waive any other right or remedy of the Division, or affect the later exercise of the same right or remedy by the Division for any other default by the Recipient.

(12) TERMINATION.

(a) The Division may terminate this Agreement for cause after thirty days written notice. Cause can include misuse of funds, fraud, lack of compliance with applicable rules, laws and regulations, failure to perform on time, and refusal by the Recipient to permit public access to any document, paper, letter, or other material subject to disclosure under Chapter 119, Fla. Stat., as amended.

(b) The Division may terminate this Agreement for convenience or when it determines, in its sole discretion, that continuing the Agreement would not produce beneficial results in line with the further expenditure of funds, by providing the Recipient with thirty calendar days prior written notice.

(c) The parties may agree to terminate this Agreement for their mutual convenience through a written amendment of this Agreement. The amendment will state the effective date of the termination and the procedures for proper closeout of the Agreement.

(d) In the event that this Agreement is terminated, the Recipient will not incur new obligations for the terminated portion of the Agreement after the Recipient has received the notification of termination. The Recipient will cancel as many outstanding obligations as possible. Costs incurred after receipt of the termination notice will be disallowed. The Recipient shall not be relieved of liability to the Division because of any breach of Agreement by the Recipient. The Division may, to the extent authorized by law, withhold payments to the Recipient for the purpose of set-off until the exact amount of damages due the Division from the Recipient is determined.

Additional Planning Information

The National Preparedness Directorate (NPD) offers technical assistance (TA) that is designed to provide grantees and sub-grantees with specialized expertise to improve their emergency plans and planning. TA deliveries are designed specifically to improve and enhance the continuing development of state and local emergency management across the five mission areas of the National Preparedness Goal and across all core capabilities. TA provides the opportunity to engage emergency managers, emergency planners, and appropriate decision-makers in open discussion of options to improve plans and planning in light of their jurisdiction's needs. There is no cost to approved jurisdictions for FEMA TA.

TA deliveries combine current emergency management best practices with practical consideration of emerging trends, through discussion facilitated by FEMA contract specialists and with the support of FEMA Region operational specialists. While the invitation of participants is up to the requesting jurisdiction, FEMA encourages requesting jurisdictions to include the broadest practical range of its emergency managers and planners in all TA deliveries. TA deliveries should be made open to neighboring jurisdictions. As necessary, FEMA may also invite other Federal experts and practitioners to participate. Additionally, peer-to-peer representation may also be included from other jurisdictions that have recently used TA for the same planning issue.

The TA catalog, showing the full range of TA available across all five mission areas and by all providers, and the TA request form can be accessed at <http://www.fema.gov/national-incident-management-system/fema-technical-assistance-division>.

The following are allowable only within the period of performance of the contract:

- Recurring fees/charges associated with certain equipment, such as cell phones, faxes, etc.
- Leasing and/or renting of space for newly hired personnel during the period of performance of the grant program.

B. Organization (SHSP and UASI Only)

Organizational activities include:

- Program management;
- Development of whole community partnerships, through groups such as Citizen Corp Councils;
- Structures and mechanisms for information sharing between the public and private sector;
- Implementing models, programs, and workforce enhancement initiatives to address ideologically-inspired radicalization to violence in the homeland;
- Tools, resources and activities that facilitate shared situational awareness between the public and private sectors;
- Operational Support;

- Utilization of standardized resource management concepts such as typing, inventorying, organizing, and tracking to facilitate the dispatch, deployment, and recovery of resources before, during, and after an incident;
- Responding to an increase in the threat level under the National Terrorism Advisory System (NTAS), or needs in resulting from a National Special Security Event; and
- Paying salaries and benefits for personnel to serve as qualified intelligence analysts.

States and Urban Areas must justify proposed expenditures of SHSP or UASI funds to support organization activities within their IJ submission by using historical data or other analysis. All States are allowed to utilize up to 50 percent (50%) of their SHSP funding and all Urban Areas are allowed up to 50 percent (50%) of their UASI funding for personnel costs. At the request of a recipient of a grant, the Administrator may grant a waiver of the 50 percent (50%) limitation noted above. Organizational activities under SHSP and UASI include:

- **Intelligence analysts.** Per the *Personnel Reimbursement for Intelligence Cooperation and Enhancement (PRICE) of Homeland Security Act* (Public Law 110-412), SHSP and UASI funds may be used to hire new staff and/or contractor positions to serve as intelligence analysts to enable information/intelligence sharing capabilities, as well as support existing intelligence analysts previously covered by SHSP or UASI funding. In order to be hired as an intelligence analyst, staff and/or contractor personnel must meet at least one of the following criteria:
 - Successfully complete training to ensure baseline proficiency in intelligence analysis and production within six months of being hired; and/or,
 - Previously served as an intelligence analyst for a minimum of two years either in a Federal intelligence agency, the military, or State and/or local law enforcement intelligence unit

As identified in the *Maturation and Enhancement of State and Major Urban Area Fusion Centers* priority, all fusion center analytic personnel must demonstrate qualifications that meet or exceed competencies identified in the *Common Competencies for State, Local, and Tribal Intelligence Analysts*, which outlines the minimum categories of training needed for intelligence analysts. A certificate of completion of such training must be on file with the SAA and must be made available to the grantee's respective FEMA Program Analyst upon request. In addition to these training requirements, fusion centers should also continue to mature their analytic capabilities by addressing gaps in analytic capability identified during the fusion center's annual assessment.

- **Overtime costs.** Overtime costs are allowable for personnel to participate in information, investigative, and intelligence sharing activities specifically related to homeland security and specifically requested by a Federal agency. Allowable costs are limited to overtime associated with federally requested participation in eligible fusion activities, including anti-terrorism task forces, Joint Terrorism Task Forces (JTTFs), Area Maritime Security Committees (as required by the *Maritime Transportation Security Act of 2002*), DHS Border Enforcement Security Task Forces, and Integrated Border Enforcement Teams. Grant funding can only be used in proportion to the Federal man- hour estimate, and only after funding for these activities from other Federal sources (i.e., FBI JTTF payments to State and local agencies) has been exhausted. Under no

circumstances should DHS grant funding be used to pay for costs already supported by funding from another Federal source.

- **Operational overtime costs.** In support of efforts to enhance capabilities for detecting, deterring, disrupting, and preventing acts of terrorism, operational overtime costs are allowable for increased security measures at critical infrastructure sites. SHSP or UASI funds for organizational costs may be used to support select operational expenses associated with increased security measures at critical infrastructure sites in the following authorized categories:
 - Backfill and overtime expenses for staffing State or Major Urban Area fusion centers;
 - Hiring of contracted security for critical infrastructure sites;
 - Participation in Regional Resiliency Assessment Program (RRAP) activities;
 - Public safety overtime;
 - Title 32 or State Active Duty National Guard deployments to protect critical infrastructure sites, including all resources that are part of the standard National Guard deployment package (Note: Consumable costs, such as fuel expenses, are not allowed except as part of the standard National Guard deployment package); and
 - Increased border security activities in coordination with CBP, as outlined in IB 135 (<http://www.fema.gov/grants/grant-programs-directorate-information-bulletins>).

SHSP or UASI funds may only be spent for operational overtime costs upon prior approval provided in writing by the FEMA Administrator.

C. Training

FY 2014 SHSP and UASI funds may be used to support attendance to allowable training deliveries and programs, as described below. FEMA funds must be used to supplement, not supplant, existing funds that have been appropriated for the same purpose. Allowable training-related costs include, but are not limited to, the following:

Developing, Delivering, and Evaluating Training. Includes costs related to administering the training, planning, scheduling, facilities, materials and supplies, reproduction of materials, disability accommodations, and equipment.

Training that promotes individual, family, or community safety and preparedness is encouraged, including: all-hazards safety training such as emergency preparedness, basic first aid, lifesaving skills, crime prevention and terrorism awareness, school preparedness, public health issues, chemical facility incidents, mitigation/property damage prevention, safety in the home, light search and rescue skills, principles of NIMS/ICS, volunteer management and volunteer activities, serving and integrating people with disabilities, pet care preparedness, CPR/AED training, identity theft workshops, terrorism awareness seminars, and disability-inclusive community preparedness conferences. The delivery of the CERT Basic Training Course and supplemental training for CERT members who have completed the basic training, the CERT Train-the-Trainer Course, and the CERT Program Manager course are strongly encouraged.

- Conducting, hosting, or participating in training related to IED prevention, protection, mitigation, or response to include:
- Awareness and education for the public, private sector and first responders;
- Suspicious activity identification and reporting, including the Surveillance Detection and Bomb-Making Materials Awareness Program (BMAP);

- Management of bomb threats;
- Physical protective measures;
- Diversion control measures for dual-use explosive precursor chemicals, including the Surveillance Detection and Bomb-Making Materials Awareness Program (BMAP);
- Training for specialized IED prevention and protection teams or OPacks such as Public Safety Bomb Squads, Explosives Detection Canine Teams, and Mobile Explosive Device Screening Teams in accordance with applicable guidelines, certification, or accreditation requirements.
- Overtime and Backfill. The entire amount of overtime costs, including payments related to backfilling personnel, which are the direct result of attendance at FEMA and/or approved training courses and programs, are allowable. These costs are allowed only to the extent the payment for such services is in accordance with the policies of the State or unit(s) of local government and has the approval of the State or the awarding agency, whichever is applicable. In no case is dual compensation allowable. That is, an employee of a unit of government may not receive compensation from their unit or agency of government and from an award for a single period of time (e.g., 1:00 p.m. to 5:00 p.m.), even though such work may benefit both activities. Requests for overtime or backfill must be reduced by the number of hours of leave taken in the pay period. For the purposes of this agreement, leave and pay period are defined according to the Fair Labor Standards Act (FLSA).
- Travel. Costs (e.g., airfare, mileage, per diem, hotel) are allowable as expenses by employees who are on travel status for official business related to approved training.
- Hiring of Full or Part-Time Staff or Contractors/Consultants. Payment of salaries and fringe benefits to full or part-time staff or contractors/consultants must be in accordance with the policies of the State or unit(s) of local government and have the approval of the State or awarding agency, whichever is applicable. Such costs must be included within the funding allowed for program management personnel expenses. In no case is dual compensation allowable.
- Certification/Recertification of Instructors. States are encouraged to follow the NTE Instructor Quality Assurance Program to ensure a minimum level of competency and corresponding levels of evaluation of student learning. This is particularly important for those courses that involve training of trainers. This information is contained in IB 193, issued October 20, 2005. Additional information can be obtained at http://www.fema.gov/good_guidance/download/10146.
- Training and exercises for the public or civilian volunteer programs supporting first responders, including CERTs, before, during and after disasters should address the needs of the Whole Community. Allowable training includes: all-hazards safety such as emergency preparedness, basic first aid, lifesaving skills, crime prevention and terrorism awareness, school preparedness, youth preparedness, public health issues, chemical facility incidents, mitigation/property damage prevention, safety in the home, light search and rescue skills, principles of NIMS and ICS, volunteer management, serving and integrating people with disabilities, pet care preparedness, training necessary to participate in volunteer activities, fulfill surge capacity roles, integration and coordination of faith community roles, communication in disaster or promotes individual, family, or whole community safety and preparedness. Exercises that include members of the public or that are conducted for the public should be coordinated with local CERTs and/or Citizen Corps Councils as well as organizations outside of emergency management and focus on the importance of personal preparedness and protective actions.

Per FEMA Grant Programs Directorate Policy FP 207-008-064-1, Review and Approval Requirements for Training Courses Funded Through Preparedness Grants, issued on September 9, 2013, States, territories, Tribal entities and urban areas are no longer required to request approval from FEMA for personnel to attend non-FEMA training as long as the training is coordinated with and approved by the State, territory, Tribal or Urban Area Training Point of

Contact (TPOC) and falls within the FEMA mission scope and the jurisdiction's Emergency Operations Plan (EOP). The only exception to this policy is for Countering Violent Extremism courses. The Policy can be accessed at <http://www.fema.gov/media-library/assets/documents/34856>.

FEMA will conduct periodic reviews of all State, territory, and Urban Area training funded by FEMA. These reviews may include requests for all course materials and physical observation of, or participation in, the funded training. If these reviews determine that courses are outside the scope of this guidance, grantees will be asked to repay grant funds expended in support of those efforts.

For further information on developing courses using the instructional design methodology and tools that can facilitate the process, SAAs and TPOCs are encouraged to review the TED Responder Training Development Center (RTDC) available at <http://www.firstrespondertraining.gov/rtdc/state/>.

Additional Training Information

FEMA Provided Training. These trainings include programs or courses developed for and delivered by institutions and organizations funded by FEMA. This includes the Center for Domestic Preparedness (CDP), the Emergency Management Institute (EMI), and the National Training and Education Division's (NTED) training partner programs including, the Continuing Training Grants, the National Domestic Preparedness Consortium (NDPC) and the Rural Domestic Preparedness Consortium (RDPC).

Approved State and Federal Sponsored Course Catalogue. This catalogue lists State and Federal sponsored courses that fall within the FEMA mission scope, and have been approved through the FEMA course review and approval process. An updated version of this catalog can be accessed at <http://www.firstrespondertraining.gov>.

These trainings includes courses that are either State sponsored or Federal sponsored (non-FEMA), coordinated and approved by the SAA or their designated TPOC, and fall within the FEMA mission scope to prepare State, local, Tribal, and territorial personnel to prevent, protect against, mitigate, respond to, and recover from acts of terrorism or catastrophic events.

State Sponsored Courses. These courses are developed for and/or delivered by institutions or organizations other than Federal entities or FEMA and are sponsored by the SAA or their designated TPOC.

Joint Training and Exercises with the Public and Private Sectors. These courses are sponsored and coordinated by private sector entities to enhance public-private partnerships for training personnel to prevent, protect against, mitigate, respond to, and recover from acts of terrorism or catastrophic events. Overtime pay for first responders and emergency managers who participate in public-private training and exercises is allowable. In addition, States, territories, Tribes, and Urban Areas are encouraged to incorporate the private sector in government-sponsored training and exercises.

Additional information on both FEMA provided training and other federal and state training can be found at <http://www.firstrespondertraining.gov>.

Training Information Reporting System ("Web-Forms"). Web-Forms is an electronic form/data management system built to assist the SAA and its designated State, territory and Tribal Training Point of Contact (TPOC). Reporting training activities through Web-Forms is not required under FY 2014 HSGP, however, the system remains available and can be accessed through the FEMA Toolkit located at <http://www.firstrespondertraining.gov/admin> in order to support grantees in their own tracking of training.

FDEM State Training Office conditions: For the purposes of this Agreement, any training course listed on the DHS approved course catalog qualifies as an authorized course. The Recipient can successfully complete an authorized course either by attending or conducting that course.

- In order to receive payment for successfully attending an authorized training course, the Recipient must provide the Division with a certificate of course completion; additionally, the Recipient must provide the Division with all receipts that document the costs incurred by the Recipient in order to attend the course.
- In order to receive payment for successfully conducting an authorized course, the Recipient must provide the Division with the course materials and a roster sign-in sheet; additionally, the Recipient must provide the Division with all receipts that document the costs incurred by the Recipient in order to conduct the course."
- For courses that are non-DHS approved training, recipient must request approval to conduct training through the use of the Non-TED Form and provide a copy, along with email, showing approval granted for conduct.
- For the conduct of training workshops, recipient must provide a copy of the course materials and sign-in sheets.
- The number of participants must be a minimum of 15 in order to justify the cost of holding a course. For questions regarding adequate number of participants please contact the FDEM State Training Officer for course specific guidance. Unless the recipient receives advance written approval from the State Training Officer for the number of participants, then the Division will reduce the amount authorized for reimbursement on a pro-rata basis for any training with less than 15 participants.

D. Exercises

Allowable exercise-related costs include:

- **Funds Used to Design, Develop, Conduct, and Evaluate an Exercise** – Includes costs related to planning, meeting space and other meeting costs, facilitation costs, materials and supplies, travel, and documentation. Grantees are encouraged to use government or free public space/locations/facilities, whenever available, prior to the rental of space/locations/facilities. Exercises should provide the opportunity to demonstrate and validate skills learned, as well as to identify any gaps in these skills. Any exercise or exercise gaps, including those for children and individuals with disabilities or access and functional needs, should be identified in the AAR/IP and addressed in the exercise cycle.
- **Hiring of Full or Part-Time Staff or Contractors/Consultants** – Full or part-time staff may be hired to support exercise-related activities. Such costs must be included within the funding allowed for program management personnel expenses.

- **Overtime and Backfill** – The entire amount of overtime costs, including payments related to backfilling personnel, which are the direct result of time spent on the design, development, and conduct of exercises are allowable expenses. These costs are allowed only to the extent the payment for such services is in accordance with the

policies of the State or unit(s) of local government and has the approval of the State or the awarding agency, whichever is applicable. In no case is dual compensation allowable. That is, an employee of a unit of government may not receive compensation from their unit or agency of government AND from an award for a single period of time (e.g., 1:00 p.m. to 5:00 p.m.), even though such work may benefit both activities. Requests for overtime or backfill must be reduced by the number of hours of leave taken in the pay period. For the purposes of this agreement, leave and pay period are defined according to the Fair Labor Standards Act (FLSA).

- **Travel** – Travel costs are allowable as expenses by employees who are on travel status for official business related to the planning and conduct of exercise project(s) or HSEEP programmatic requirements as described in the HSEEP website (e.g., Improvement Plan Workshops, Training and Exercise Plan).

- **Other Items** – These costs include the rental of equipment and other expenses used specifically for exercises, costs associated with inclusive practices and the provision of reasonable accommodations and modifications to provide full access for children and adults with disabilities.

Unauthorized exercise-related costs include:

- Reimbursement for the maintenance and/or wear and tear costs of general use vehicles (e.g., construction vehicles) medical supplies, and emergency response apparatus (e.g., fire trucks, ambulances).
- Equipment that is purchased for permanent installation and/or use, beyond the scope of exercise conduct (e.g., electronic messaging signs).
- The purchase of food is not permissible under this grant, subject to prior approval of the Department of Financial Services, explicitly authorized by 2 CFR, Part 225, Appendix B. While this is an allowable purchase by DHS, please note that FDEM adheres to Florida Statutes, which are more stringent than federal guidance. Such expenditures are restricted to the rates specified for Class C meals in Section 112.061, Florida Statutes.

Exercise Requirements

Training and Exercise Plan Workshop. States and Urban Areas are required to conduct an annual Training and Exercise Plan Workshop (TEPW). A Multi-year Training and Exercise Plan must be developed from the workshops on an annual basis and submitted to the States respective Exercise Program point of contact. The State Exercise Program point of contact should submit a copy of the State and Urban Area plans to hseep@dhs.gov.

The Training and Exercise Plan will include the State's program priorities and a Multi-Year Training and Exercise Plan (schedule) that supports the identified priorities and aligned capabilities. In addition to submission of the Multi-Year Training and Exercise Plan to hseep@dhs.gov, all scheduled training and exercises should be entered into the HSEEP National Exercise Scheduling (NEXUS) System, located in the HSEEP Toolkit on the HSEEP website <https://hseep.dhs.gov>.

States must complete a cycle of progressive exercise activities during the period of this grant. Exercises conducted by States and Urban Areas may be used to fulfill similar exercise requirements required by other grant programs. For example, HHS preparedness programs require joint exercises between public health departments, the health care sector and medical countermeasure authorities including law enforcement which could provide collaborative opportunities. To this end, grantees are encouraged to invite representatives/planners involved with other federally-mandated or private exercise activities. States and Urban Areas are encouraged to share, at a minimum, the multi-year training and exercise schedule with those departments, agencies, and organizations included in the plan.

- **Exercise Scenarios.** The scenarios used in HSGP-funded exercises must be based on the State/Urban Area's THIRA. The scenarios used in HSGP-funded exercises must focus on testing capabilities, must be large enough in scope and size to exercise multiple activities and warrant involvement from multiple disciplines and/or jurisdictions and non-governmental organizations, and take into account the needs and requirements for individuals with disabilities. Exercise scenarios should align with priorities and capabilities identified in the Multi-year Training and Exercise Plan.
- **Special Event Planning.** If a State or Urban Area will be hosting a special event (e.g., Super Bowl, G-8 Summit) the special event planning should be considered as a training or exercise activity for the purpose of the Multi-year Training and Exercise Plan. The State or Urban Area should plan to use SHSP or UASI funding to finance training and exercise activities in preparation for those events. States and Urban Areas should also consider exercises at major venues (e.g., arenas, convention centers) that focus on evacuations, communications, and command and control. States should also anticipate participating in at least one Regional Exercise annually. States must include all confirmed or planned special events in the Multi-year Training and Exercise Plan.
- **Exercise Evaluation and Improvement.** Exercises should evaluate performance of the objectives and capabilities required to respond to the exercise scenario. Guidance related to exercise evaluation and improvement planning is defined in the HSEEP located at <https://hssep.dhs.gov>.
- **Self-Sustaining Exercise Programs.** States are expected to develop a self-sustaining exercise program. A self-sustaining exercise program is one that is successfully able to implement, maintain, and oversee the Multi-Year Training and Exercise Plan, including the development and delivery of HSGP-funded exercises. The program must utilize a multi-disciplinary approach to the development and delivery of exercises, and build upon existing plans, training, and equipment.
- **Role of Non-Governmental Entities in Exercises.** Non-governmental participation in all levels of exercises is strongly encouraged. Leaders from nongovernmental entities should be included in the planning, conduct, and evaluation of an exercise. State, local, tribal, and territorial jurisdictions are encouraged to develop exercises that test the integration and use of non-governmental resources provided by non-governmental entities, defined as the private sector and private non-profit, faith-

based, community, disability, volunteer, and other non-governmental organizations. Non-governmental participation in exercises should be coordinated with the local Citizen Corps Council(s) or their equivalent and other partner agencies. The scenarios used in HSGP-funded exercises must focus on validating existing capabilities, must comply with and be large enough in scope and size to exercise multiple activities and warrant involvement from multiple jurisdictions and disciplines and non-governmental organizations, and take into account the needs and requirements for individuals with disabilities.

FDEM State Training Office conditions for Exercises: For the purposes of this Agreement, any exercise which is compliant with HSEEP standards and contained in the State of Florida (and County or Regional) MYTEP qualifies as an authorized exercise. The Recipient can successfully complete an authorized exercise either by attending or conducting that exercise.

- In order to receive payment for successfully attending an authorized exercise, the Recipient must provide the Division with a certificate of completion or similar correspondence signed by the individual in charge of the exercise; additionally, the Recipient must provide the Division with all receipts that document the costs incurred by the Recipient in order to attend the exercise.

- In order to receive payment for successfully conducting an authorized exercise, the Recipient must provide the Division with an ExPLAN, AAR/IP, IPC/MPC/FPC Meeting Minutes and Sign-in Sheet for exercise attendees; additionally, the Recipient must provide the Division with all receipts that document the costs incurred by the Recipient in order to conduct the exercise.

The Recipient must include with the reimbursement package a separate copy of the page(s) from the Exercise Plan which identifies the participant agencies and a printed page(s) from the State (and County or Regional) MYTEP reflecting the exercise.

- If you require food/water for this event, request must come to the Division within 25 days of event in the following format:

E. Procurement

All procurement transactions will be conducted in a manner providing full and open competition and shall comply with the standards articulated in:

- 44 Code of Federal Regulation, Section 13.36;
- Chapter 287, Florida Statutes; and,
- any local procurement policy.

To the extent that one standard is more stringent than another, then the subgrantee must follow the more stringent standard. For example, if a State statute imposes a stricter requirement than a Federal regulation, then the subgrantee must adhere to the requirements of the State statute.

The Division shall pre-approve all scopes of work for projects funded under this agreement. Additionally, the subgrantee shall not execute a piggy-back contract unless the Division has approved the scope of work contained in the original contract that forms the basis for the piggy-back contract. Also, in order to receive reimbursement from the Division, the subgrantee must provide the Division with a suspension and debarment form for each vendor that performed work under the agreement. Furthermore, if requested by the Division, the subgrantee shall provide copies of solicitation documents including responses and justification of vendor selection.

F. Piggy-backing

The practice of procurement by one agency using the agreement of another agency is called piggybacking. The ability to piggyback onto an existing contract is not unlimited. The existing contract must contain language or other legal authority authorizing third parties to make purchases from the contract with the vendor's consent. The terms and conditions of the new contract, including the scope of work, must be substantially the same as those of the existing contract. The piggyback contract may not exceed the existing contract in scope or volume of goods or services. An agency may not use the preexisting contract merely as a "basis to begin negotiations" for a broader or materially different contract.

Section 215.971, Florida Statutes

Statutory changes enacted by the Legislature impose additional requirements on grant and subgrant agreements funded with Federal or State financial assistance. In pertinent part, Section 215.971(1) states:

(1) An agency agreement that provides state financial assistance to a recipient or subrecipient, as those terms are defined in s. 215.97, or that provides federal financial assistance to a subrecipient, as defined by applicable United States Office of Management and Budget circulars, must include all of the following:

(a) A provision specifying a scope of work that clearly establishes the tasks that the recipient or subrecipient is required to perform.

(b) A provision dividing the agreement into quantifiable units of deliverables that must be received and accepted in writing by the agency before payment. Each deliverable must be directly related to the scope of work and specify the required minimum level of service to be performed and the criteria for evaluating the successful completion of each deliverable.

(c) A provision specifying the financial consequences that apply if the recipient or subrecipient fails to perform the minimum level of service required by the agreement. The provision can be excluded from the agreement only if financial consequences are prohibited by the federal agency awarding the grant. Funds refunded to a state agency from a recipient or subrecipient for failure to perform as required under the agreement may be expended only in direct support of the program from which the agreement originated.

(d) A provision specifying that a recipient or subrecipient of federal or state financial assistance may expend funds only for allowable costs resulting from obligations incurred during the specified agreement period.

(e) A provision specifying that any balance of unobligated funds which has been advanced or paid must be refunded to the state agency.

(f) A provision specifying that any funds paid in excess of the amount to which the recipient or subrecipient is entitled under the terms and conditions of the agreement must be refunded to the state agency.

(g) Any additional information required pursuant to s. 215.97.

Failure to comply

Failure to comply with any of the provisions outlined above shall result in disallowance of reimbursement for expenditures.

G. Equipment Acquisition

The 21 allowable prevention, protection, mitigation, response, and recovery equipment categories and equipment standards for HSGP are listed on the web-based version of the Authorized Equipment List (AEL) on the Lessons Learned Information System at <http://llis.gov/>. Unless otherwise stated, equipment must meet all mandatory regulatory and/or DHS-adopted standards to be eligible for purchase using these funds. In addition, agencies will be responsible for obtaining and maintaining all necessary certifications and licenses for the requested equipment.

Grant funds may be used for the procurement of medical countermeasures. Procurement of medical countermeasures must be conducted in collaboration with State/city/local health departments who administer Federal funds from HHS for this purpose. Procurement must have a sound threat based justification with an aim to reduce the consequences of mass casualty incidents during the first crucial hours of a response. Prior to procuring pharmaceuticals, grantees must have in place an inventory management plan to avoid large periodic variations in supplies due to coinciding purchase and expiration dates. Grantees are encouraged to enter into rotational procurement agreements with vendors and distributors. Purchases of pharmaceuticals must include a budget for the disposal of expired drugs within each fiscal year's the period of performance for HSGP. The cost of disposal cannot be carried over to another FEMA grant or grant period.

The equipment, goods, and supplies ("the eligible equipment") purchased with funds provided under this agreement are for the purposes specified in "Florida's Domestic Security Strategy". Equipment purchased with these funds will be utilized in the event of emergencies, including, but not limited to, terrorism-related hazards. The sub-recipient shall place the equipment throughout the State of Florida in such a manner that, in the event of an emergency, the equipment can be deployed on the scene of the emergency or be available for use at a fixed location within two (2) hours of a request for said deployment. The Florida Division of Emergency Management (FDEM) must approve any purchases of equipment not itemized in a project's approved budget in advance of the purchase.

The sub-recipient will, in accordance with the statewide mutual aid agreement or other emergency response purpose as specified in the "Florida Domestic Security Strategy," ensure that all equipment purchased with these funds is used to respond

to any and all incidents within its regional response area as applicable for so long as this Agreement remains in effect. Prior to requesting a response, the FDEM will take prudent and appropriate action to determine that the level or intensity of the incident is such that the specialized equipment and resources are necessary to mitigate the outcome of the incident.

The sub-recipient shall notify the FDEM Office of Domestic Preparedness at 2555 Shumard Oak Blvd., Tallahassee, Florida 32399 one year in advance of the expiration of the equipment's posted shelf-life or normal life expectancy or when it has been expended. The sub-recipient shall notify the FDEM immediately if the equipment is destroyed, lost, or stolen.

The recipient shall enter all equipment items with a purchase price of \$1000 or more purchased with these funds in the State Resource Management Network (SRMN) within 90 calendar days of delivery. Recipients shall work with the Regional Domestic Security Task Force (RDSTF) Emergency Management (EM) Planner for access and assistance with equipment data entry.

The sub-recipient shall not transfer, rent, sell, lease, alienate, donate, mortgage, encumber or otherwise dispose of the eligible equipment without the prior written consent of the FDEM.

The following are allowable only within the period of performance of the contract:

- Recurring fees/charges associated with certain equipment, such as cell phones, faxes, etc.
- Leasing and/or renting of space for newly hired personnel during the period of performance of the grant program

H. Management and Administration - no more than 5% of each sub-recipient's total award may be expended on Management and Administration costs.

- To assist with the management of the respective grant program
- To assist with application requirements
- To assist with the compliance with reporting and data collection requirements

Development of operating plans for information collection and processing necessary to respond to FEMA data calls

Overtime costs - Overtime are allowable for personnel to participate in information, investigative, and intelligence sharing activities specifically related to homeland security and specifically requested by a Federal agency. Allowable costs are limited to overtime associated with federally requested participation in eligible fusion activities including anti-terrorism task forces, Joint Terrorism Task Forces (JTTFs), Area Maritime Security Committees (as required by *Maritime Transportation Security Act of 2002*), DHS Border Enforcement Security Task Forces, and Integrated Border Enforcement Teams. Grant funding can only be used in proportion to the Federal man-hour estimate, and only after funding for these activities from other Federal sources (i.e. FBI JTTF payments to State and local agencies) has been exhausted. Under no circumstances should DHS grant funding be used to pay for costs already supported by funding from another Federal source.

Operational overtime costs. In support of efforts to enhance capabilities for detecting, deterring, disrupting, and preventing acts of terrorism, operational overtime costs are

allowable for increased security measures at critical infrastructure sites. FY 2014 SHSP or UASI funds for organizational costs may be used to support select operational expenses associated with increased security measures at critical infrastructure sites in the following authorized categories:

- Backfill and overtime expenses (as defined in FOA) for staffing State or Major Urban Area fusion centers;
- Hiring of contracted security for critical infrastructure sites;
- Public safety overtime (as defined in FOA)
- Title 21 or State Active Duty National Guard deployments to protect critical infrastructure sites, including all resources that are part of the standard National Guard deployment package); and

I. Unauthorized Expenditures

- a. Activities unrelated to the completion and implementation of the grant program
- b. Funding may not be used to supplant ongoing, routine public safety activities of state and local emergency responders, and may not be used to hire staff for operational activities or backfill. Funds cannot not replace (supplant) funds that have been appropriated for the same purpose.

J. National Incident Management System (NIMS) Implementation

HSPD-5, "*Management of Domestic Incidents*," mandated the creation of NIMS and the National Response Framework (NRF). NIMS provides a consistent framework for entities at all jurisdictional levels to work together to manage domestic incidents, regardless of cause, size, or complexity. To promote interoperability and compatibility among Federal, State, local, and tribal capabilities, NIMS includes a core set of guidelines, standards, and protocols for command and management, preparedness, resource management, communications and information management, supporting technologies, and management and maintenance of NIMS. Prior to the allocation of any Federal preparedness awards in FY2014, grantees must ensure and maintain adoption and implementation of NIMS. Additionally, grantees and sub-grantees will be required to

meet certain NIMS compliance requirements. This includes all emergency preparedness, response, and/or security personnel in the organization participating in the development, implementation, and/or operation of resources and/or activities awarded through this grant must complete training programs consistent with the NIMS Training Plan. Florida Division of Emergency Management US Department of Homeland Security Grants Program Grant Monitoring Process

Florida has enhanced state and local capability and capacity to prevent, prepare and respond to terrorist threats since 1999 through various funding sources including federal grant funds. The Florida Division of Emergency Management (FDEM) has a responsibility to track and monitor the status of grant activity and items purchased to ensure compliance with applicable SHSGP grant guidance and statutory regulations. The monitoring process is designed to assess a recipient agency's compliance with applicable state and federal guidelines.

Monitoring is accomplished utilizing various methods including desk monitoring and on-site visits. There are two primary areas reviewed during monitoring activities - financial and programmatic monitoring. Financial monitoring is the review of records associated with the purchase and disposition of property, projects and contracts. Programmatic monitoring is the observation of equipment purchased, protocols and other associated records. Various levels of financial and programmatic review may be accomplished during this process.

Desk monitoring is the review of projects, financial activity and technical assistance between FDEM and the applicant via e-mail and telephone. On-Site Monitoring are actual visits to the recipient agencies by a Division representative who examines records, procedures and equipment.

Frequency of annual monitoring activity:

Each year the FDEM will conduct monitoring for up to 50% of their sub-grantees. It is important to note that although a given grant has been closed, it is still subject to either desk or on-site monitoring for a five year period following closure.

Areas that will be examined include:

- Management and administrative procedures;
- Grant folder maintenance;
- Equipment accountability and sub-hand receipt procedures;
- Program for obsolescence;
- Status of equipment purchases;
- Status of training for purchased equipment;
- Status and number of response trainings conducted to include number trained;

Status and number of exercises;
Status of planning activity;
Anticipated projected completion;
Difficulties encountered in completing projects;
Agency NIMS/ICS compliance documentation;
Equal Employment Opportunity (EEO Status);
Procurement Policy

FDEM may request additional monitoring/information if the activity, or lack thereof, generates questions from the region, the sponsoring agency or FDEM leadership. The method of gathering this information will be determined on a case-by-case basis.

Desk monitoring is an on-going process. Recipients will be required to participate in desk top monitoring on an annual basis and as determined by the FDEM. This contact will provide an opportunity to identify the need for technical assistance (TA) and/or a site visit if the FDEM determines that a recipient is having difficulty completing their project.

As difficulties/deficiencies are identified, the respective region or sponsoring agency will be notified by the program office via email. Information will include the grant recipient agency name, year and project description and the nature of the issue in question. Many of the issues that arise may be resolved at the regional or sponsoring agency level. Issues that require further TA will be referred to the FDEM for assistance. Examples of TA include but are not limited to:

- ✦ Equipment selection or available vendors
- ✦ Eligibility of items or services
- ✦ Coordination and partnership with other agencies within or outside the region or discipline
- ✦ Record Keeping
- ✦ Reporting Requirements
- ✦ Documentation in support of a Request for Reimbursement

On-Site Monitoring will be conducted by the FDEM or designated personnel. On-site Monitoring visits will be scheduled in advance with the recipient agency POC designated in the grant agreement.

The FDEM will also conduct coordinated financial and grant file monitoring. These monitoring visits will be coordinated with the capability review visits. Subject matter experts from other agencies within the region or state may be called upon to assist in the form of a peer review as needed.

All findings related to the capability review will be documented and maintained within the FDEM.

On-site Monitoring Protocol

On-site Monitoring Visits will begin with those grantees that are currently spending or have completed spending for that federal fiscal year (FFY). Site visits may be combined when geographically convenient. There is a financial and programmatic on-site monitoring checklist to assist in the completion of all required tasks.

Site Visit Preparation

A letter will be sent to the recipient agency Point of Contact (POC) outlining the date, time and purpose of the site visit before the planned arrival date.

The appointment should be confirmed with the grantee in writing (email is acceptable) and documented in the grantee folder.

The physical location of any equipment located at an alternate site should be confirmed with a representative from that location and the address should be documented in the grantee folder before the site visit.

On-Site Monitoring Visit

Once FDEM personnel have arrived at the site, an orientation conference will be conducted. During this time, the purpose of the site visit and the items FDEM intends to examine will be identified. If financial monitoring visit will be conducted, they will then explain their objectives and will proceed to perform the financial review.

FDEM personnel will review all files and supporting documentation. Once the supporting documentation has been reviewed, a tour/visual/spot inspection of equipment will be conducted.

Each item should be visually inspected whenever possible. Bigger items (computers, response vehicles, etc.) should have an asset decal (information/serial number) placed in a prominent location on each piece of equipment as per recipient agency requirements. The serial number

should correspond with the appropriate receipt to confirm purchase. Photographs should be taken of the equipment (large capital expenditures in excess of \$1,000. per item).

If an item is not available (being used during time of the site visit), the appropriate documentation must be provided to account for that particular piece of equipment. Once the tour/visual/spot inspection of equipment has been completed, the FDEM personnel will then conduct an exit conference with the grantee to review the findings.

Other programmatic issues can be discussed at this time, such as missing quarterly reports, payment voucher/reimbursement, equipment, questions, etc.

Post Monitoring Visit

FDEM personnel will review the on-site monitoring review worksheets and backup documentation as a team and discuss the events of the on-site monitoring.

Within 30 calendar days of the site visit, a monitoring report will be generated and sent to the grantee explaining any issues and corrective actions required or recommendations. Should no issues or findings be identified, a monitoring report to that effect will be generated and sent to the grantee. The grantee will submit a Corrective Action Plan within a timeframe as determined by the FDEM. Noncompliance on behalf of sub-grantees is resolved by management under the terms of the Sub grant Agreement.

The On-Site Monitoring Worksheets, the monitoring report and all back up documentation will then be included in the grantee's file.
