Re: Employer: City of Hollywood
 Employee: Andreas Pantaloukas
 Claim No.: WC1182017133654
 D/A: 08/30/17

The employee is a police officer. While driving his police cruiser he was involved in a motor vehicle accident. He is currently treating with a neurologist for head trauma, for this he has not been placed at maximum medical improvement. He also treated with a hand surgeon to remove glass from his hands. The procedure to remove the glass was completed on December 1st, 2017, for which he was placed at maximum medical improvement on December 13th, 2017 with a 1% permanent impairment rating. A field case manager has been assigned to the file to obtain overall MMI from the neurologist.

Relation, on behalf of the City of Hollywood, subrogated against the at fault party. The employee is being represented for the third party claim only. He has not litigated his workers compensation claim. His third party attorney has tentatively settled his third party claim for \$50,000. The industry standard for lien reimbursement is about 12% of the lien amount. They have offered us 15% of our current lien amount for reimbursement towards what we have spent. To date, we have spent \$46,342.74 which means the reimbursement would be \$6,951.41. The employee will net roughly \$18,000 after payment of attorney fees, costs and the reimbursement to workers' compensation.

Sincerely,

Christina Rodriguez
