July 2023 Market Update: Is there light at the end of the tunnel?

With the open of 2024 order banks, the auto industry appears to be emerging from the global supply chain shortages. We are being provided a positive outlook by some of our manufacturers while others are having a more difficult time.

- Toyota – Good allocation for full product line of 2024 vehicles, pricing to be released in August/September.
- Nissan – Good allocation for full product line of 2024 vehicles, all pricing is currently available
- Ford – Good allocation for full product line of 2024 vehicles, all pricing is currently available. Every vehicle order will have to be approved through the Ford Order Verification Program (FOVP). This requires a signed quote and Letter of Intent or a Signed PO for every order placed.
- Stellantis (Chrysler, Dodge, JEEP, RAM) – We will have limited offerings, but most pricing is currently available. Unfortunately, we will not have access to Promaster nor 3500/4500/5500 Chassis for municipal fleet once again for 2024 production.
- General Motors – The entire product line from GM is on what has been termed controlled allocation. This is unprecedented ideology in municipal fleet as we have never worried about allocation. As GM's largest volume municipal dealer in the US, Alan Jay is working diligently to obtain as much allocation as possible to fill your agency's needs. Though many GM vehicles have pricing released for 2024, we are still awaiting others.

The following is listing of 2024 production vehicles and associated equipment in conformance with our Sourcwell bid award. Please note that all models listed are not currently available & those without pricing indicated have yet to be published. Updates with additional pricing will follow.

“Strive not to be a success, but rather to be of value.” – Albert Einstein.

**THE E-VERIFY
MEMORANDUM OF UNDERSTANDING
FOR EMPLOYERS**

**ARTICLE I
PURPOSE AND AUTHORITY**

The parties to this agreement are the Department of Homeland Security (DHS) and the Alan Jay Automotive Management (Employer). The purpose of this agreement is to set forth terms and conditions which the Employer will follow while participating in E-Verify.

E-Verify is a program that electronically confirms an employee's eligibility to work in the United States after completion of Form I-9, Employment Eligibility Verification (Form I-9). This Memorandum of Understanding (MOU) explains certain features of the E-Verify program and describes specific responsibilities of the Employer, the Social Security Administration (SSA), and DHS.

Authority for the E-Verify program is found in Title IV, Subtitle A, of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (IIRIRA), Pub. L. 104-208, 110 Stat. 3009, as amended (8 U.S.C. § 1324a note). The Federal Acquisition Regulation (FAR) Subpart 22.18, "Employment Eligibility Verification" and Executive Order 12989, as amended, provide authority for Federal contractors and subcontractors (Federal contractor) to use E-Verify to verify the employment eligibility of certain employees working on Federal contracts.

**ARTICLE II
RESPONSIBILITIES**

A. RESPONSIBILITIES OF THE EMPLOYER

1. The Employer agrees to display the following notices supplied by DHS in a prominent place that is clearly visible to prospective employees and all employees who are to be verified through the system:
 - a. Notice of E-Verify Participation
 - b. Notice of Right to Work
2. The Employer agrees to provide to the SSA and DHS the names, titles, addresses, and telephone numbers of the Employer representatives to be contacted about E-Verify. The Employer also agrees to keep such information current by providing updated information to SSA and DHS whenever the representatives' contact information changes.
3. The Employer agrees to grant E-Verify access only to current employees who need E-Verify access. Employers must promptly terminate an employee's E-Verify access if the employer is separated from the company or no longer needs access to E-Verify.

Company ID Number: 1201859

4. The Employer agrees to become familiar with and comply with the most recent version of the E-Verify User Manual.

5. The Employer agrees that any Employer Representative who will create E-Verify cases will complete the E-Verify Tutorial before that individual creates any cases.

a. The Employer agrees that all Employer representatives will take the refresher tutorials when prompted by E-Verify in order to continue using E-Verify. Failure to complete a refresher tutorial will prevent the Employer Representative from continued use of E-Verify.

6. The Employer agrees to comply with current Form I-9 procedures, with two exceptions:

a. If an employee presents a "List B" identity document, the Employer agrees to only accept "List B" documents that contain a photo. (List B documents identified in 8 C.F.R. § 274a.2(b)(1)(B)) can be presented during the Form I-9 process to establish identity.) If an employee objects to the photo requirement for religious reasons, the Employer should contact E-Verify at 888-464-4218.

b. If an employee presents a DHS Form I-551 (Permanent Resident Card), Form I-766 (Employment Authorization Document), or U.S. Passport or Passport Card to complete Form I-9, the Employer agrees to make a photocopy of the document and to retain the photocopy with the employee's Form I-9. The Employer will use the photocopy to verify the photo and to assist DHS with its review of photo mismatches that employees contest. DHS may in the future designate other documents that activate the photo screening tool.

Note: Subject only to the exceptions noted previously in this paragraph, employees still retain the right to present any List A, or List B and List C, document(s) to complete the Form I-9.

7. The Employer agrees to record the case verification number on the employee's Form I-9 or to print the screen containing the case verification number and attach it to the employee's Form I-9.

8. The Employer agrees that, although it participates in E-Verify, the Employer has a responsibility to complete, retain, and make available for inspection Forms I-9 that relate to its employees, or from other requirements of applicable regulations or laws, including the obligation to comply with the antidiscrimination requirements of section 274B of the INA with respect to Form I-9 procedures.

a. The following modified requirements are the only exceptions to an Employer's obligation to not employ unauthorized workers and comply with the anti-discrimination provision of the INA: (1) List B identity documents must have photos, as described in paragraph 6 above; (2) When an Employer confirms the identity and employment eligibility of newly hired employee using E-Verify procedures, the Employer establishes a rebuttable presumption that it has not violated section 274A(a)(1)(A) of the Immigration and Nationality Act (INA) with respect to the hiring of that employee; (3) If the Employer receives a final nonconfirmation for an employee, but continues to employ that person, the Employer must notify DHS and the Employer is subject to a civil money penalty between \$550 and \$1,100 for each failure to notify DHS of continued employment following a final nonconfirmation; (4) If the Employer continues to employ an employee after receiving a final nonconfirmation, then the Employer is subject to a rebuttable presumption that it has knowingly

Company ID Number: 1201859

employed an unauthorized alien in violation of section 274A(a)(1)(A); and (5) no E-Verify participant is civilly or criminally liable under any law for any action taken in good faith based on information provided through the E-Verify.

b. DHS reserves the right to conduct Form I-9 compliance inspections, as well as any other enforcement or compliance activity authorized by law, including site visits, to ensure proper use of E-Verify.

9. The Employer is strictly prohibited from creating an E-Verify case before the employee has been hired, meaning that a firm offer of employment was extended and accepted and Form I-9 was completed. The Employer agrees to create an E-Verify case for new employees within three Employer business days after each employee has been hired (after both Sections 1 and 2 of Form I-9 have been completed), and to complete as many steps of the E-Verify process as are necessary according to the E-Verify User Manual. If E-Verify is temporarily unavailable, the three-day time period will be extended until it is again operational in order to accommodate the Employer's attempting, in good faith, to make inquiries during the period of unavailability.

10. The Employer agrees not to use E-Verify for pre-employment screening of job applicants, in support of any unlawful employment practice, or for any other use that this MOU or the E-Verify User Manual does not authorize.

11. The Employer must use E-Verify for all new employees. The Employer will not verify selectively and will not verify employees hired before the effective date of this MOU. Employers who are Federal contractors may qualify for exceptions to this requirement as described in Article II.B of this MOU.

12. The Employer agrees to follow appropriate procedures (see Article III below) regarding tentative nonconfirmations. The Employer must promptly notify employees in private of the finding and provide them with the notice and letter containing information specific to the employee's E-Verify case. The Employer agrees to provide both the English and the translated notice and letter for employees with limited English proficiency to employees. The Employer agrees to provide written referral instructions to employees and instruct affected employees to bring the English copy of the letter to the SSA. The Employer must allow employees to contest the finding, and not take adverse action against employees if they choose to contest the finding, while their case is still pending. Further, when employees contest a tentative nonconfirmation based upon a photo mismatch, the Employer must take additional steps (see Article III.B. below) to contact DHS with information necessary to resolve the challenge.

13. The Employer agrees not to take any adverse action against an employee based upon the employee's perceived employment eligibility status while SSA or DHS is processing the verification request unless the Employer obtains knowledge (as defined in 8 C.F.R. § 274a.1(l)) that the employee is not work authorized. The Employer understands that an initial inability of the SSA or DHS automated verification system to verify work authorization, a tentative nonconfirmation, a case in continuance (indicating the need for additional time for the government to resolve a case), or the finding of a photo mismatch, does not establish, and should not be interpreted as, evidence that the employee is not work authorized. In any of such cases, the employee must be provided a full and fair opportunity to contest the finding, and if he or she does so, the employee may not be terminated or suffer any adverse employment consequences based upon the employee's perceived employment eligibility status

(including denying, reducing, or extending work hours, delaying or preventing training, requiring an employee to work in poorer conditions, withholding pay, refusing to assign the employee to a Federal contract or other assignment, or otherwise assuming that he or she is unauthorized to work) until and unless secondary verification by SSA or DHS has been completed and a final nonconfirmation has been issued. If the employee does not choose to contest a tentative nonconfirmation or a photo mismatch or if a secondary verification is completed and a final nonconfirmation is issued, then the Employer can find the employee is not work authorized and terminate the employee's employment. Employers or employees with questions about a final nonconfirmation may call E-Verify at 1-888-464-4218 (customer service) or 1-888-897-7781 (worker hotline).

14. The Employer agrees to comply with Title VII of the Civil Rights Act of 1964 and section 274B of the INA as applicable by not discriminating unlawfully against any individual in hiring, firing, employment eligibility verification, or recruitment or referral practices because of his or her national origin or citizenship status, or by committing discriminatory documentary practices. The Employer understands that such illegal practices can include selective verification or use of E-Verify except as provided in part D below, or discharging or refusing to hire employees because they appear or sound "foreign" or have received tentative nonconfirmations. The Employer further understands that any violation of the immigration-related unfair employment practices provisions in section 274B of the INA could subject the Employer to civil penalties, back pay awards, and other sanctions, and violations of Title VII could subject the Employer to back pay awards, compensatory and punitive damages. Violations of either section 274B of the INA or Title VII may also lead to the termination of its participation in E-Verify. If the Employer has any questions relating to the anti-discrimination provision, it should contact OSC at 1-800-255-8155 or 1-800-237-2515 (TDD).

15. The Employer agrees that it will use the information it receives from E-Verify only to confirm the employment eligibility of employees as authorized by this MOU. The Employer agrees that it will safeguard this information, and means of access to it (such as PINS and passwords), to ensure that it is not used for any other purpose and as necessary to protect its confidentiality, including ensuring that it is not disseminated to any person other than employees of the Employer who are authorized to perform the Employer's responsibilities under this MOU, except for such dissemination as may be authorized in advance by SSA or DHS for legitimate purposes.

16. The Employer agrees to notify DHS immediately in the event of a breach of personal information. Breaches are defined as loss of control or unauthorized access to E-Verify personal data. All suspected or confirmed breaches should be reported by calling 1-888-464-4218 or via email at E-Verify@dhs.gov. Please use "Privacy Incident – Password" in the subject line of your email when sending a breach report to E-Verify.

17. The Employer acknowledges that the information it receives from SSA is governed by the Privacy Act (5 U.S.C. § 552a(i)(1) and (3)) and the Social Security Act (42 U.S.C. 1306(a)). Any person who obtains this information under false pretenses or uses it for any purpose other than as provided for in this MOU may be subject to criminal penalties.

18. The Employer agrees to cooperate with DHS and SSA in their compliance monitoring and evaluation of E-Verify, which includes permitting DHS, SSA, their contractors and other agents, upon

Company ID Number: 1201859

reasonable notice, to review Forms I-9 and other employment records and to interview it and its employees regarding the Employer's use of E-Verify, and to respond in a prompt and accurate manner to DHS requests for information relating to their participation in E-Verify.

19. The Employer shall not make any false or unauthorized claims or references about its participation in E-Verify on its website, in advertising materials, or other media. The Employer shall not describe its services as federally-approved, federally-certified, or federally-recognized, or use language with a similar intent on its website or other materials provided to the public. Entering into this MOU does not mean that E-Verify endorses or authorizes your E-Verify services and any claim to that effect is false.

20. The Employer shall not state in its website or other public documents that any language used therein has been provided or approved by DHS, USCIS or the Verification Division, without first obtaining the prior written consent of DHS.

21. The Employer agrees that E-Verify trademarks and logos may be used only under license by DHS/USCIS (see [M-795 \(Web\)](#)) and, other than pursuant to the specific terms of such license, may not be used in any manner that might imply that the Employer's services, products, websites, or publications are sponsored by, endorsed by, licensed by, or affiliated with DHS, USCIS, or E-Verify.

22. The Employer understands that if it uses E-Verify procedures for any purpose other than as authorized by this MOU, the Employer may be subject to appropriate legal action and termination of its participation in E-Verify according to this MOU.

B. RESPONSIBILITIES OF FEDERAL CONTRACTORS

1. If the Employer is a Federal contractor with the FAR E-Verify clause subject to the employment verification terms in Subpart 22.18 of the FAR, it will become familiar with and comply with the most current version of the E-Verify User Manual for Federal Contractors as well as the E-Verify Supplemental Guide for Federal Contractors.

2. In addition to the responsibilities of every employer outlined in this MOU, the Employer understands that if it is a Federal contractor subject to the employment verification terms in Subpart 22.18 of the FAR it must verify the employment eligibility of any "employee assigned to the contract" (as defined in FAR 22.1801). Once an employee has been verified through E-Verify by the Employer, the Employer may not create a second case for the employee through E-Verify.

a. An Employer that is not enrolled in E-Verify as a Federal contractor at the time of a contract award must enroll as a Federal contractor in the E-Verify program within 30 calendar days of contract award and, within 90 days of enrollment, begin to verify employment eligibility of new hires using E-Verify. The Employer must verify those employees who are working in the United States, whether or not they are assigned to the contract. Once the Employer begins verifying new hires, such verification of new hires must be initiated within three business days after the hire date. Once enrolled in E-Verify as a Federal contractor, the Employer must begin verification of employees assigned to the contract within 90 calendar days after the date of enrollment or within 30 days of an employee's assignment to the contract, whichever date is later.

Company ID Number: 1201859

- b. Employers enrolled in E-Verify as a Federal contractor for 90 days or more at the time of a contract award must use E-Verify to begin verification of employment eligibility for new hires of the Employer who are working in the United States, whether or not assigned to the contract, within three business days after the date of hire. If the Employer is enrolled in E-Verify as a Federal contractor for 90 calendar days or less at the time of contract award, the Employer must, within 90 days of enrollment, begin to use E-Verify to initiate verification of new hires of the contractor who are working in the United States, whether or not assigned to the contract. Such verification of new hires must be initiated within three business days after the date of hire. An Employer enrolled as a Federal contractor in E-Verify must begin verification of each employee assigned to the contract within 90 calendar days after date of contract award or within 30 days after assignment to the contract, whichever is later.
- c. Federal contractors that are institutions of higher education (as defined at 20 U.S.C. 1001(a)), state or local governments, governments of Federally recognized Indian tribes, or sureties performing under a takeover agreement entered into with a Federal agency under a performance bond may choose to only verify new and existing employees assigned to the Federal contract. Such Federal contractors may, however, elect to verify all new hires, and/or all existing employees hired after November 6, 1986. Employers in this category must begin verification of employees assigned to the contract within 90 calendar days after the date of enrollment or within 30 days of an employee's assignment to the contract, whichever date is later.
- d. Upon enrollment, Employers who are Federal contractors may elect to verify employment eligibility of all existing employees working in the United States who were hired after November 6, 1986, instead of verifying only those employees assigned to a covered Federal contract. After enrollment, Employers must elect to verify existing staff following DHS procedures and begin E-Verify verification of all existing employees within 180 days after the election.
- e. The Employer may use a previously completed Form I-9 as the basis for creating an E-Verify case for an employee assigned to a contract as long as:
- i. That Form I-9 is complete (including the SSN) and complies with Article II.A.6,
 - ii. The employee's work authorization has not expired, and
 - iii. The Employer has reviewed the Form I-9 information either in person or in communications with the employee to ensure that the employee's Section 1, Form I-9 attestation has not changed (including, but not limited to, a lawful permanent resident alien having become a naturalized U.S. citizen).
- f. The Employer shall complete a new Form I-9 consistent with Article II.A.6 or update the previous Form I-9 to provide the necessary information if:
- i. The Employer cannot determine that Form I-9 complies with Article II.A.6,
 - ii. The employee's basis for work authorization as attested in Section 1 has expired or changed, or
 - iii. The Form I-9 contains no SSN or is otherwise incomplete.

Note: If Section 1 of Form I-9 is otherwise valid and up-to-date and the form otherwise complies with

Company ID Number: 1201859

Article II.C.5, but reflects documentation (such as a U.S. passport or Form I-551) that expired after completing Form I-9, the Employer shall not require the production of additional documentation, or use the photo screening tool described in Article II.A.5, subject to any additional or superseding instructions that may be provided on this subject in the E-Verify User Manual.

g. The Employer agrees not to require a second verification using E-Verify of any assigned employee who has previously been verified as a newly hired employee under this MOU or to authorize verification of any existing employee by any Employer that is not a Federal contractor based on this Article.

3. The Employer understands that if it is a Federal contractor, its compliance with this MOU is a performance requirement under the terms of the Federal contract or subcontract, and the Employer consents to the release of information relating to compliance with its verification responsibilities under this MOU to contracting officers or other officials authorized to review the Employer's compliance with Federal contracting requirements.

C. RESPONSIBILITIES OF SSA

1. SSA agrees to allow DHS to compare data provided by the Employer against SSA's database. SSA sends DHS confirmation that the data sent either matches or does not match the information in SSA's database.

2. SSA agrees to safeguard the information the Employer provides through E-Verify procedures. SSA also agrees to limit access to such information, as is appropriate by law, to individuals responsible for the verification of Social Security numbers or responsible for evaluation of E-Verify or such other persons or entities who may be authorized by SSA as governed by the Privacy Act (5 U.S.C. § 552a), the Social Security Act (42 U.S.C. 1306(a)), and SSA regulations (20 CFR Part 401).

3. SSA agrees to provide case results from its database within three Federal Government work days of the initial inquiry. E-Verify provides the information to the Employer.

4. SSA agrees to update SSA records as necessary if the employee who contests the SSA tentative nonconfirmation visits an SSA field office and provides the required evidence. If the employee visits an SSA field office within the eight Federal Government work days from the date of referral to SSA, SSA agrees to update SSA records, if appropriate, within the eight-day period unless SSA determines that more than eight days may be necessary. In such cases, SSA will provide additional instructions to the employee. If the employee does not visit SSA in the time allowed, E-Verify may provide a final nonconfirmation to the employer.

Note: If an Employer experiences technical problems, or has a policy question, the employer should contact E-Verify at 1-888-464-4218.

D. RESPONSIBILITIES OF DHS

1. DHS agrees to provide the Employer with selected data from DHS databases to enable the Employer to conduct, to the extent authorized by this MOU:

a. Automated verification checks on alien employees by electronic means, and

Company ID Number: 1201859

- b. Photo verification checks (when available) on employees.
2. DHS agrees to assist the Employer with operational problems associated with the Employer's participation in E-Verify. DHS agrees to provide the Employer names, titles, addresses, and telephone numbers of DHS representatives to be contacted during the E-Verify process.
3. DHS agrees to provide to the Employer with access to E-Verify training materials as well as an E-Verify User Manual that contain instructions on E-Verify policies, procedures, and requirements for both SSA and DHS, including restrictions on the use of E-Verify.
4. DHS agrees to train Employers on all important changes made to E-Verify through the use of mandatory refresher tutorials and updates to the E-Verify User Manual. Even without changes to E-Verify, DHS reserves the right to require employers to take mandatory refresher tutorials.
5. DHS agrees to provide to the Employer a notice, which indicates the Employer's participation in E-Verify. DHS also agrees to provide to the Employer anti-discrimination notices issued by the Office of Special Counsel for Immigration-Related Unfair Employment Practices (OSC), Civil Rights Division, U.S. Department of Justice.
6. DHS agrees to issue each of the Employer's E-Verify users a unique user identification number and password that permits them to log in to E-Verify.
7. DHS agrees to safeguard the information the Employer provides, and to limit access to such information to individuals responsible for the verification process, for evaluation of E-Verify, or to such other persons or entities as may be authorized by applicable law. Information will be used only to verify the accuracy of Social Security numbers and employment eligibility, to enforce the INA and Federal criminal laws, and to administer Federal contracting requirements.
8. DHS agrees to provide a means of automated verification that provides (in conjunction with SSA verification procedures) confirmation or tentative nonconfirmation of employees' employment eligibility within three Federal Government work days of the initial inquiry.
9. DHS agrees to provide a means of secondary verification (including updating DHS records) for employees who contest DHS tentative nonconfirmations and photo mismatch tentative nonconfirmations. This provides final confirmation or nonconfirmation of the employees' employment eligibility within 10 Federal Government work days of the date of referral to DHS, unless DHS determines that more than 10 days may be necessary. In such cases, DHS will provide additional verification instructions.

ARTICLE III

REFERRAL OF INDIVIDUALS TO SSA AND DHS

A. REFERRAL TO SSA

1. If the Employer receives a tentative nonconfirmation issued by SSA, the Employer must print the notice as directed by E-Verify. The Employer must promptly notify employees in private of the finding and provide them with the notice and letter containing information specific to the employee's E-Verify

Company ID Number: 1201859

case. The Employer also agrees to provide both the English and the translated notice and letter for employees with limited English proficiency to employees. The Employer agrees to provide written referral instructions to employees and instruct affected employees to bring the English copy of the letter to the SSA. The Employer must allow employees to contest the finding, and not take adverse action against employees if they choose to contest the finding, while their case is still pending.

2. The Employer agrees to obtain the employee's response about whether he or she will contest the tentative nonconfirmation as soon as possible after the Employer receives the tentative nonconfirmation. Only the employee may determine whether he or she will contest the tentative nonconfirmation.
3. After a tentative nonconfirmation, the Employer will refer employees to SSA field offices only as directed by E-Verify. The Employer must record the case verification number, review the employee information submitted to E-Verify to identify any errors, and find out whether the employee contests the tentative nonconfirmation. The Employer will transmit the Social Security number, or any other corrected employee information that SSA requests, to SSA for verification again if this review indicates a need to do so.
4. The Employer will instruct the employee to visit an SSA office within eight Federal Government work days. SSA will electronically transmit the result of the referral to the Employer within 10 Federal Government work days of the referral unless it determines that more than 10 days is necessary.
5. While waiting for case results, the Employer agrees to check the E-Verify system regularly for case updates.
6. The Employer agrees not to ask the employee to obtain a printout from the Social Security Administration number database (the Numident) or other written verification of the SSN from the SSA.

B. REFERRAL TO DHS

1. If the Employer receives a tentative nonconfirmation issued by DHS, the Employer must promptly notify employees in private of the finding and provide them with the notice and letter containing information specific to the employee's E-Verify case. The Employer also agrees to provide both the English and the translated notice and letter for employees with limited English proficiency to employees. The Employer must allow employees to contest the finding, and not take adverse action against employees if they choose to contest the finding, while their case is still pending.
2. The Employer agrees to obtain the employee's response about whether he or she will contest the tentative nonconfirmation as soon as possible after the Employer receives the tentative nonconfirmation. Only the employee may determine whether he or she will contest the tentative nonconfirmation.
3. The Employer agrees to refer individuals to DHS only when the employee chooses to contest a tentative nonconfirmation.
4. If the employee contests a tentative nonconfirmation issued by DHS, the Employer will instruct the

Company ID Number: 1201859

employee to contact DHS through its toll-free hotline (as found on the referral letter) within eight Federal Government work days.

5. If the Employer finds a photo mismatch, the Employer must provide the photo mismatch tentative nonconfirmation notice and follow the instructions outlined in paragraph 1 of this section for tentative nonconfirmations, generally.

6. The Employer agrees that if an employee contests a tentative nonconfirmation based upon a photo mismatch, the Employer will send a copy of the employee's Form I-551, Form I-766, U.S. Passport, or passport card to DHS for review by:

- a. Scanning and uploading the document, or
- b. Sending a photocopy of the document by express mail (furnished and paid for by the employer).

7. The Employer understands that if it cannot determine whether there is a photo match/mismatch, the Employer must forward the employee's documentation to DHS as described in the preceding paragraph. The Employer agrees to resolve the case as specified by the DHS representative who will determine the photo match or mismatch.

8. DHS will electronically transmit the result of the referral to the Employer within 10 Federal Government work days of the referral unless it determines that more than 10 days is necessary.

9. While waiting for case results, the Employer agrees to check the E-Verify system regularly for case updates.

ARTICLE IV SERVICE PROVISIONS

A. NO SERVICE FEES

1. SSA and DHS will not charge the Employer for verification services performed under this MOU. The Employer is responsible for providing equipment needed to make inquiries. To access E-Verify, an Employer will need a personal computer with Internet access.

ARTICLE V MODIFICATION AND TERMINATION

A. MODIFICATION

1. This MOU is effective upon the signature of all parties and shall continue in effect for as long as the SSA and DHS operates the E-Verify program unless modified in writing by the mutual consent of all parties.

2. Any and all E-Verify system enhancements by DHS or SSA, including but not limited to E-Verify checking against additional data sources and instituting new verification policies or procedures, will be covered under this MOU and will not cause the need for a supplemental MOU that outlines these changes.

Company ID Number: 1201859

B. TERMINATION

1. The Employer may terminate this MOU and its participation in E-Verify at any time upon 30 days prior written notice to the other parties.
2. Notwithstanding Article V, part A of this MOU, DHS may terminate this MOU, and thereby the Employer's participation in E-Verify, with or without notice at any time if deemed necessary because of the requirements of law or policy, or upon a determination by SSA or DHS that there has been a breach of system integrity or security by the Employer, or a failure on the part of the Employer to comply with established E-Verify procedures and/or legal requirements. The Employer understands that if it is a Federal contractor, termination of this MOU by any party for any reason may negatively affect the performance of its contractual responsibilities. Similarly, the Employer understands that if it is in a state where E-Verify is mandatory, termination of this by any party MOU may negatively affect the Employer's business.
3. An Employer that is a Federal contractor may terminate this MOU when the Federal contract that requires its participation in E-Verify is terminated or completed. In such cases, the Federal contractor must provide written notice to DHS. If an Employer that is a Federal contractor fails to provide such notice, then that Employer will remain an E-Verify participant, will remain bound by the terms of this MOU that apply to non-Federal contractor participants, and will be required to use the E-Verify procedures to verify the employment eligibility of all newly hired employees.
4. The Employer agrees that E-Verify is not liable for any losses, financial or otherwise, if the Employer is terminated from E-Verify.

ARTICLE VI PARTIES

- A. Some or all SSA and DHS responsibilities under this MOU may be performed by contractor(s), and SSA and DHS may adjust verification responsibilities between each other as necessary. By separate agreement with DHS, SSA has agreed to perform its responsibilities as described in this MOU.
- B. Nothing in this MOU is intended, or should be construed, to create any right or benefit, substantive or procedural, enforceable at law by any third party against the United States, its agencies, officers, or employees, or against the Employer, its agents, officers, or employees.
- C. The Employer may not assign, directly or indirectly, whether by operation of law, change of control or merger, all or any part of its rights or obligations under this MOU without the prior written consent of DHS, which consent shall not be unreasonably withheld or delayed. Any attempt to sublicense, assign, or transfer any of the rights, duties, or obligations herein is void.
- D. Each party shall be solely responsible for defending any claim or action against it arising out of or related to E-Verify or this MOU, whether civil or criminal, and for any liability wherefrom, including (but not limited to) any dispute between the Employer and any other person or entity regarding the applicability of Section 403(d) of IIRIRA to any action taken or allegedly taken by the Employer.
- E. The Employer understands that its participation in E-Verify is not confidential information and may be disclosed as authorized or required by law and DHS or SSA policy, including but not limited to,

Company ID Number: 1201859

Congressional oversight, E-Verify publicity and media inquiries, determinations of compliance with Federal contractual requirements, and responses to inquiries under the Freedom of Information Act (FOIA).

F. The individuals whose signatures appear below represent that they are authorized to enter into this MOU on behalf of the Employer and DHS respectively. The Employer understands that any inaccurate statement, representation, data or other information provided to DHS may subject the Employer, its subcontractors, its employees, or its representatives to: (1) prosecution for false statements pursuant to 18 U.S.C. 1001 and/or; (2) immediate termination of its MOU and/or; (3) possible debarment or suspension.

G. The foregoing constitutes the full agreement on this subject between DHS and the Employer.

To be accepted as an E-Verify participant, you should only sign the Employer's Section of the signature page. If you have any questions, contact E-Verify at 1-888-464-4218.

6. PARTICIPATING ENTITY USE AND PURCHASING

A. ORDERS AND PAYMENT. To access the contracted Equipment, Products, or Services under this Contract, a Participating Entity must clearly indicate to Supplier that it intends to access this Contract; however, order flow and procedure will be developed jointly between Sourcewell and Supplier. Typically, a Participating Entity will issue an order directly to Supplier or its authorized subsidiary, distributor, dealer, or reseller. If a Participating Entity issues a purchase order, it may use its own forms, but the purchase order should clearly note the applicable Sourcewell

contract number. All Participating Entity orders under this Contract must be issued prior to expiration or cancellation of this Contract; however, Supplier performance, Participating Entity payment obligations, and any applicable warranty periods or other Supplier or Participating Entity obligations may extend beyond the term of this Contract.

Supplier's acceptable forms of payment are included in its attached Proposal. Participating Entities will be solely responsible for payment and Sourcewell will have no liability for any unpaid invoice of any Participating Entity.

B. ADDITIONAL TERMS AND CONDITIONS/PARTICIPATING ADDENDUM. Additional terms and conditions to a purchase order, or other required transaction documentation, may be negotiated between a Participating Entity and Supplier, such as job or industry-specific requirements, legal requirements (e.g., affirmative action or immigration status requirements), or specific local policy requirements. Some Participating Entities may require the use of a Participating Addendum; the terms of which will be negotiated directly between the Participating Entity and the Supplier. Any negotiated additional terms and conditions must never be less favorable to the Participating Entity than what is contained in this Contract.

C. SPECIALIZED SERVICE REQUIREMENTS. In the event that the Participating Entity requires service or specialized performance requirements not addressed in this Contract (such as e-commerce specifications, specialized delivery requirements, or other specifications and requirements), the Participating Entity and the Supplier may enter into a separate, standalone agreement, apart from this Contract. Sourcewell, including its agents and employees, will not be made a party to a claim for breach of such agreement.

D. TERMINATION OF ORDERS. Participating Entities may terminate an order, in whole or in part, immediately upon notice to Supplier in the event of any of the following events:

1. The Participating Entity fails to receive funding or appropriation from its governing body at levels sufficient to pay for the equipment, products, or services to be purchased; or

The Administrative Fee must be included in, and not added to, the pricing. Supplier may not charge Participating Entities more than the contracted price to offset the Administrative Fee.

The Supplier will submit payment to Sourcewell for the percentage of administrative fee stated in the Proposal multiplied by the total sales of all Equipment, Products, and Services purchased

by Participating Entities under this Contract during each calendar quarter. Payments should note the Supplier's name and Sourcewell-assigned contract number in the memo; and must be mailed to the address above "Attn: Accounts Receivable" or remitted electronically to Sourcewell's banking institution per Sourcewell's Finance department instructions. Payments must be received no later than 45 calendar days after the end of each calendar quarter.

Many of the Fleet Managers who started with us in 2010 are still with us today.</p> <p>Through the years, we have evolved and adapted to the new technology driven trends that are revolutionizing the automotive industry today. However, our brand's fundamental core values have remained unchanged – We are committed to do right for the members. We are willing and eager to soon extend our business model and network into Canada. We believe partnering with local Canadian based dealer groups is key to success in the Canadian market. To circumvent this potential issue, members allow us to add these extra shipping and port costs to their quotes.	*

Line Item	Question	Response *
35	Describe your marketing strategy for promoting this contract opportunity. Upload representative samples of your marketing materials (if applicable) in the document upload section of your response.	<p>National Auto Fleet Group encompasses a variety of marketing strategies to promote our products and services to streamline the vehicle purchasing process for government entities. Below are a few strategies used to serve as the gateway between our business and public agencies.</p> <p>Website and Inbound Marketing: The creation of a professional customer-focused website is one of our main features to market our products and services. The NAFG website encourages our members to interact and browse through products offered along with pricing and information about National Auto Fleet Group. Inbound marketing is created when potential members are directed to the company website. With this method, we are able to not only connect with members but to put the purchasing ability into the hands of each member. Our inbound marketing strategy attracts members by creating valuable content and experiences tailored to the needs of each individual. Examples include email campaign flyers on our products, informative and how-to videos, social media and engaging members with top-notch customer service to build brand awareness.</p> <p>Email Marketing: One of the main strategies used to engage current and potential members is Email Marketing. Our emails include different types of flyers that consist of information of the Sourcewell contract, promoting manufacturer brands, holiday themed flyers, discounts offered to first time buyers, important cutoff date reminders and upcoming products and events.</p> <p>The use of marketing campaigns plays a major role in enhancing the growth of our client database. Emails are a big part of our daily lives due to government agency employees utilizing emails as their main source of communication. We use campaigner.com as the emailing platform to reach our target members. Videos and descriptive images are used on all flyers and are compatible with a desktop or mobile device. Messages are short and to the point with links leading to the Sourcewell and NAFG homepage. The Campaigner email system allows the ability to track email activity based on open rate, unsubscribes and link clicks which is beneficial to understanding email effectiveness.</p> <p>Once potential members are directed to our website, they are welcomed with a wide range of options to explore an array of our products and services. They are able to register to become a member, view pricing, explore available in-stock vehicles, view how-to-videos, build a vehicle online to request an immediate quote or use our live chat assistant or call/email for live support.</p> <p>Face to Face Marketing Strategies: This strategy has proven to be successful in generating leads and creating lasting relationships by developing genuine connections with prospective members. National Auto Fleet Group attends several trades shows per year to engage members and put a face to the company. This in person meeting aids to build the brand by nurturing relationships between members and other vendors associated through the process. Trade shows attended include GFX, IAPPO, NIGP, ACT, CAPPO, and CASBO throughout the United States.</p> <p>NAFG has many opportunities to make in person presentations to propose products, services offered and to answer any questions potential members may have. These PowerPoint Presentations include topics on NAFG/Sourcewell process, how to facilitate the vehicle purchasing without bidding, informational videos, and the brands and services we provide. These meetings have been held at local cities, counties, school districts, water districts and ports.</p> <p>Relationship Marketing is a vital strategy used in building and maintaining long-term relationships practiced by National Auto Fleet Group on a daily basis.</p> <p>NAFG strives to create a positive and supportive connection with members by providing personalized and responsive customer service practices. The sales team has worked tirelessly to focus on providing outstanding customer support to create a powerful rapport with existing and new members. By going above and beyond, they have enhanced existing relationships and executed customer loyalty with repeat businesses. They strive to deviate from the "Car Salesperson" mentality which is 100% sales driven to a more product and customer service approach by instilling a sense of confidence in our clients. The goal is to regularly assist clients and address any needs and concerns even after the purchase has occurred. The strive to focus on solution selling vs. product selling develops into a mutually beneficial agreement for members and the business.</p> <p>Below are a few examples on successful relationship marketing from our Fleet Department:</p> <p>We had a member call in to request financing/lease options for a truck needed through our National Auto Fleet Group/Sourcewell vehicle contract. I contacted another Sourcewell vendor, Matt Geiselhart from NCL Gov Capital and he was happy to assist with a financing quote. The member also requested to trade in a current vehicle in their fleet and was directed to Govdeals for assistance in removing the outdated unit through an auction. The member was able to utilize three Sourcewell contracts to complete his transaction which simplified the entire process. The member was very satisfied with the amount of care and ease through his experience and became a repeat customer. By utilizing a cross-selling strategy, National Auto Fleet Group became his one stop shop to fulfill all fleet vehicle purchasing needs.</p> <p>"I had a member call in desperate to obtain a new truck because an employee had gotten into a serious accident and had the truck totaled. Due to covid restrictions, most manufacturers are currently experiencing microchip shortages which relays to production delays at the factory. We were able to direct buyer to our in-stock inventory on the NAFG website and member was ecstatic to locate truck to meet their needs. Instead of having to wait 30 weeks to receive the new vehicle, member was able to obtain the new truck within 3 weeks."</p>

"I once had a member contact us two years after purchasing a vehicle from us. They had a malfunction with the liftgate on the box truck which caused a logistical nightmare. I was able to contact one of our body vendors that upfitted the lift gate installation and a service technician was able to go onsite to resolve the liftgate issue at no additional cost. The member was very impressed with the quality of our customer service even after purchase. "

"I had a member request a ¾ ton truck pricing but was unsure about their budget at the time. I took the time to go through each option with the client to provide a Sourcewell pricing quote through multiple manufacturers from Ram, Chevrolet and Ford. This empowered the member to have multiple pricing options for review to align with their budget as well as eliminating the need to shop anywhere else. "

"We work with many body companies to assist customers with the body upfitting process. One of our members called in a request to expedite a particular vehicle that was held up at one of their local body upfitters. I contacted the body company representative and put in a request to expedite the upfitting per request of the member. The body company was able to comply with the request and delivery was made sooner than expected."

Word-of-Mouth Marketing: The positive quality of service has led to more sales based on previous customers' impressions on their experience. NAFG's goal is to provide exemplary customer service throughout the entire purchasing process to encourage repeat business and advocate services to other members. NAFG has been fortunate to experience multiple instances of leads generated based solely on word-of-mouth marketing through our existing customers.

Cross-promotion: National Auto Fleet Group is currently collaborating with another Sourcewell Vendor, NCL Government Capital to promote each other's products and services. NCL Government Capital specializes in providing competitive equipment financing programs for municipalities and public education entities across the United States. As a team, NCL and NAFG produced a variety of marketing materials such as videos, flyers and info graphs to promote purchasing and leasing opportunities.

Hoglund Bus Company is another cross-promotion vendor NAFG had the opportunity to create a partnership with. Flyers were created to advertise Chassis from NAFG along with a variety of bus bodies from Hoglund Bus Company.

With cross-promotion, companies exchange knowledge and provide endorsements on websites, social media, and email campaigns. This strategy creates an influx of new leads, brand awareness, increased sales and recurrence of customers. National Auto Fleet Group will continue to create new partnerships and facilitate more cross-promotion opportunities in the near future to provide turnkey solutions for a variety of vehicle purchasing needs.

Coming in 2022, National Auto Fleet Group will be launching a NAFG Partner Website to further increase business growth. The website www.nafgpartner.com is expected to launch next year in 2022. The site encourages body upfitting companies throughout the United States to partner up with NAFG to become a preferred member. The benefits of becoming a preferred member include endorsements on website and social media avenues along with word-of-mouth referral for clients with upfitting needs. Our dedicated public relations representative will conduct phone and in person meetings to discuss the advantages of partnering up with NAFG, therefore generating more cross-promotion opportunities.

Members from government agencies are encouraged to go on the site to search for local body upfitting companies they are interested in working with. As a prerequisite in becoming a preferred vendor, they are required to advertise NAFG and the Sourcewell contract on their business website and refer their clients to purchase their cab/chassis needs through NAFG. This establishes a partnership that will generate increased sales all around. We are still currently building the website and interacting with body companies across the United States that would be interested in partnering up with NAFG.

36	Describe your use of technology and digital data (e.g., social media, metadata usage) to enhance marketing effectiveness.	<p>Social media plays a crucial element in the way people communicate and connect with each other. LinkedIn is the go-to platform used by NAFG as it offers a variety of ways to expand our network by locating and connecting with relevant professionals in the industry. National Auto Fleet Group has utilized LinkedIn to engage current and potential members through personalized messages and posts. Personalized messages include thanking them for registering on site as well as directing them to our link to the website, LinkedIn, YouTube, Facebook and Instagram company pages. The goal is to unite with people already on our database as well as people that would benefit from our products and services. Current flyers or messages about our company are also posted on the LinkedIn site to generate and attract more business. Time is also spent on reading posts from connections and observe any needs that National Auto Fleet Group may assist with.</p> <p>National Auto Fleet Group has begun utilizing video marketing strategies to further promote and market products by engaging on social media channels and email flyers. Programs such as Vimeo, Video Scribe, Cartoon Animator, Adobe Animate, Illustrate, Captive, Photoshop and Movavi Video Editor Plus are employed to edit and create videos to assist in endorsing our company. The following videos were recently created by our marketing department along with outside video production companies:</p> <p>Explainer Video: The first video created was a 90 second explainer video about National Auto Fleet Group that used animated characters to visualize our products and services along with information on the Sourcewell awarded contract. The video has been incorporated into all our weekly email flyers and social media platforms as an informative video on our products and how to purchase vehicles off Sourcewell Government Contract.</p> <p>How To Videos: National Auto Fleet Group has also created step-by-step How-To videos on the process to purchase both Light Duty and Heavy-Duty vehicles off the contract.</p> <p>In Stock Vehicles: This video showcases our in-stock vehicles available and the process of requesting a quote.</p> <p>ETA Tracking System: This video was created to not only introduce but to encourage clients to self-track their vehicle status.</p> <p>Holiday Themed Videos: These amusing videos were created to celebrate the holidays and add humor and lightness to our company and products sold.</p> <p>Cross Promotion Video: This video markets our relationship with NCL Government Capital and Sourcewell to endorse EV vehicles.</p> <p>Videos for social media: Mini videos were created to advertise new vehicles available, pricing and cutoff date reminders.</p> <p>NAFG has recently introduced a newly built live chat feature on our website for customer convenience as well as improving customer service. Visitors have access to chat with a live sales representative 24 hours a day, 7 days a week. With this feature potential customers are provided with another avenue for assistance in addition to emailing and phone calls. The benefits of a live chat option include quicker response time to assist buyers in reaching a purchasing decision and answer their questions.</p> <p>Improving customer service will also lead to increased sales, customer loyalty and engagement. Many studies have shown a strong correlation between live chat and increase in conversion rates. Potential clients appreciate having their questions answered in real-time when trying to build a vehicle quote online and allowing the user to multi-task different projects.</p>
37	In your view, what is Sourcewell's role in promoting contracts arising out of this RFP? How will you integrate a Sourcewell-awarded contract into your sales process?	<p>Sourcewell's mission states: "Our commitment to service and exceeding client expectations." This statement integrates with our relationship marketing strategy with our commitment to go above and beyond for all our members. Sourcewell is a trusted brand that government entities can rely on to access a wide variety of products and services for their everyday needs. With over 40 years of partnerships and relationship building, they are the glue that connects government, education, and nonprofit agencies to companies of all sizes to offer turnkey solutions to their needs.</p> <p>Sourcewell is also a reliable resource for vendors by not only connecting with potential prospects but by providing valuable marketing materials readily available for download on their website. Resources and tools provided include flyers, vendor training videos along with compliance information.</p> <p>The Sourcewell brand integrates a thorough documentation review of all vendors prior to awarding their cooperative contracts to ensure products and services are from reputable vendors. The brand provides a sense of legitimacy of our company name and members recognize that products and services are from reliable sources that will meet their needs.</p> <p>Sourcewell's aim is to simplify the purchasing and procurement process of government entities by eliminating the costly bidding procedure. The process of researching the right vendor is not only stressful and time-consuming but can be expensive as well. Sourcewell has completed the bidding for government entities which simplifies the overall purchasing process by providing access to competitively bid contracts procured by a government agency.</p> <p>Sourcewell has provided NAFG with overwhelming opportunities to work with government agencies across the United States. The Sourcewell name represents a high standard of integrity and ethics which is a dynamic National Auto Fleet Group is proud to be part of. Sourcewell members have access to a contract that is more flexible than the standard bidding process. Sourcewell is an organization that aids government entities to stay competitive without the frustrations and issues involved with the traditional bidding process. This contract can be customized to meet the unique needs of each client. The sales team has incorporated not only this standard of integrity in their sales practice ensuring clients' purchasing needs will always be met. The cost savings and stress-free nature of the cooperative contracts favors that of the traditional bidding process. It enables vendors to work with qualifying government entities in a more efficient manner. We vow to maintain these levels of standards across the board throughout all departments within the company.</p>

38	Are your products or services available through an e-procurement ordering process? If so, describe your e-procurement system and how governmental and educational customers have used it.	<p>Our website provides a hands-on empowering approach to ordering vehicles online. Clients can search through many vehicles makes and models with the ability to customize a vehicle tailored to their specific needs of their agency. A personalized quote with pricing can be available in as little as 5 minutes depending on the complexity of the vehicle. If upfitting is needed, the buyer can list the details of the up-fit while building their vehicle on our website to receive a complete quote or a sales representative can be reached through phone, email or our new live chat feature built on our website.</p> <p>We have recently created and uploaded a "How-To Videos" section on the homepage of our website which highlights a step-by-step process on how to build an online quote. This informative video demonstrates how to navigate the website in how to generate a vehicle quote with or without upfitting options. It begins by explaining how to register on our website as a member and then details on how to select vehicle model and type and the factory options needed.</p> <p>Once a customized quote is built, clients have the option to finalize the sales transaction by submitting a purchase order to our sales team via email. This gives complete autonomy to the client to purchase vehicles without the need to speak to a sales rep. If assistance is needed, they can contact sales through email, live chat or phone.</p> <p>If assistance is required to build a quote, our sales rep is also available to walk a client through the e-procurement process step by step. This ensures someone is available to answer any questions if needed and empowering the client to make any future purchases on their own. Clients may also call or email the needs of the company and receive a customized vehicle quote.</p>	*

Provide sufficient detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template.	Sourcewell participating members are able to obtain proper pricing directly from our website, where they are able to use our user-friendly design to build and price their vehicles. 68	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	One of the internal metrics NAFG uses to track and measure success with the Sourcewell Contract is maintained through our website. Our website keeps a detailed log of quotes that members are generating. We oversee and keep track of how many quotes are being generated and which quotes are met with a purchase order. Every month we evaluate our sales indicators and closely monitor the volume and frequency of sales. One example is by evaluating which members are purchasing from our platform – new members or frequent members to ensure we are growing our member base. We use these metrics to measure our projected growth rate and work to exceed our expectations.
69	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	NAFG will submit \$ 300 per vehicle purchased through NAFG and \$ 200 per vehicle purchased through our partner dealer Alan Jay Automotive. Sourcewell is a State of Minnesota local government agency and service cooperative created under the laws of the State of Minnesota (Minnesota Statutes Section 123A.21) that offers cooperative procurement solutions to government entities. Participation is open to federal, state/province, and municipal governmental entities, higher education, K-12 education, nonprofit, tribal government, and other public entities located in the United States and Canada.

Vendor desires to contract with Sourcewell to provide equipment, products, or services to Sourcewell and the entities that access Sourcewell's cooperative purchasing contracts (Participating Entities).

1. TERM OF CONTRACT

- A. **EFFECTIVE DATE.** This Contract is effective upon the date of the final signature below.
- B. **EXPIRATION DATE AND EXTENSION.** This Contract expires August 1, 2024, unless it is cancelled sooner pursuant to Article 24. This Contract may be extended up to one additional one-year period upon request of Sourcewell and with written agreement by Vendor.
- C. **SURVIVAL OF TERMS.** Articles 11 through 16 survive the expiration or cancellation of this Contract.

2. EQUIPMENT, PRODUCTS, OR SERVICES

- A. **EQUIPMENT, PRODUCTS, OR SERVICES.** Vendor will provide the Equipment, Products, or Services as stated in its Proposal submitted under the Solicitation Number listed above. Vendor's Equipment, Products, or Services Proposal (Proposal) is attached and incorporated into this Contract.

All Equipment and Products provided under this Contract must be new/current model. Vendor may offer close-out or refurbished Equipment or Products if they are clearly indicated in

Vendor's product and pricing list. Unless agreed to by the Participating Entities in advance, Equipment or Products must be delivered as operational to the Participating Entity's site.

This Contract offers an indefinite quantity of sales, and while substantial volume is anticipated, sales and sales volume are not guaranteed.

B. **WARRANTY.** Vendor warrants that all Equipment, Products, and Services furnished are free from liens and encumbrances, and are free from defects in design, materials, and workmanship. In addition, Vendor warrants the Equipment, Products, and Services are suitable for and will perform in accordance with the ordinary use for which they are intended. Vendor's dealers and distributors must agree to assist the Participating Entity in reaching a resolution in any dispute over warranty terms with the manufacturer. Any manufacturer's warranty that is effective past the expiration of the Vendor's warranty will be passed on to the Participating Entity.

C. **DEALERS, DISTRIBUTORS, AND/OR RESELLERS.** Upon Contract execution, Vendor will make available to Sourcewell a means to validate or authenticate Vendor's authorized dealers, distributors, and/or resellers relative to the Equipment, Products, and Services related to this Contract. This list may be updated from time-to-time and is incorporated into this Contract by reference. It is the Vendor's responsibility to ensure Sourcewell receives the most current version of this list.

3. PRICING

All Equipment, Products, or Services under this Contract will be priced as stated in Vendor's Proposal.

When providing pricing quotes to Participating Entities, all pricing quoted must reflect a Participating Entity's total cost of acquisition. This means that the quoted cost is for delivered Equipment, Products, and Services that are operational for their intended purpose, and includes all costs to the Participating Entity's requested delivery location.

Regardless of the payment method chosen by the Participating Entity, the total cost associated with any purchase option of the Equipment, Products, or Services must always be disclosed in the pricing quote to the applicable Participating Entity at the time of purchase.

A. **SHIPPING AND SHIPPING COSTS.** All delivered Equipment and Products must be properly packaged. Damaged Equipment and Products may be rejected. If the damage is not readily apparent at the time of delivery, Vendor must permit the Equipment and Products to be returned within a reasonable time at no cost to Sourcewell or its Participating Entities. Participating Entities reserve the right to inspect the Equipment and Products at a reasonable time after delivery where circumstances or conditions prevent effective inspection of the Equipment and Products at the time of delivery.

Vendor must arrange for and pay for the return shipment on Equipment and Products that arrive in a defective or inoperable condition.

Sourcwell may declare the Vendor in breach of this Contract if the Vendor intentionally delivers substandard or inferior Equipment or Products. In the event of the delivery of nonconforming Equipment and Products, the Participating Entity will notify the Vendor as soon as possible and the Vendor will replace nonconforming Equipment and Products with conforming Equipment and Products that are acceptable to the Participating Entity.

B. SALES TAX. Each Participating Entity is responsible for supplying the Vendor with valid tax-exemption certification(s). When ordering, a Participating Entity must indicate if it is a tax-exempt entity.

C. HOT LIST PRICING. At any time during this Contract, Vendor may offer a specific selection of Equipment, Products, or Services at discounts greater than those listed in the Contract. When Vendor determines it will offer Hot List Pricing, it must be submitted electronically to Sourcwell in a line-item format. Equipment, Products, or Services may be added or removed from the Hot List at any time through a Sourcwell Price and Product Change Form as defined in Article 4 below.

Hot List program and pricing may also be used to discount and liquidate close-out and discontinued Equipment and Products as long as those close-out and discontinued items are clearly identified as such. Current ordering process and administrative fees apply. Hot List Pricing must be published and made available to all Participating Entities.

4. PRODUCT AND PRICING CHANGE REQUESTS

Vendor may request Equipment, Product, or Service changes, additions, or deletions at any time. All requests must be made in writing by submitting a signed Sourcwell Price and Product Change Request Form to the assigned Sourcwell Contract Administrator. This form is available from the assigned Sourcwell Contract Administrator. At a minimum, the request must:

- Identify the applicable Sourcwell contract number;
- Clearly specify the requested change;
- Provide sufficient detail to justify the requested change;
- Individually list all Equipment, Products, or Services affected by the requested change, along with the requested change (e.g., addition, deletion, price change); and
- Include a complete restatement of pricing documentation in Microsoft Excel with the effective date of the modified pricing, or product addition or deletion. The new pricing restatement must include all Equipment, Products, and Services offered, even for those items where pricing remains unchanged.

A fully executed Sourcewell Price and Product Request Form will become an amendment to this Contract and be incorporated by reference.

5. PARTICIPATION, CONTRACT ACCESS, AND PARTICIPATING ENTITY REQUIREMENTS

A. PARTICIPATION. Sourcewell's cooperative contracts are available and open to public and nonprofit entities across the United States and Canada; such as federal, state/province, municipal, K-12 and higher education, tribal government, and other public entities.

The benefits of this Contract should be available to all Participating Entities that can legally access the Equipment, Products, or Services under this Contract. A Participating Entity's authority to access this Contract is determined through its cooperative purchasing, interlocal, or joint powers laws. Any entity accessing benefits of this Contract will be considered a Service Member of Sourcewell during such time of access. Vendor understands that a Participating Entity's use of this Contract is at the Participating Entity's sole convenience and Participating Entities reserve the right to obtain like Equipment, Products, or Services from any other source.

Vendor is responsible for familiarizing its sales and service forces with Sourcewell contract use eligibility requirements and documentation and will encourage potential members to join Sourcewell. Sourcewell reserves the right to add and remove Participating Entities to its roster during the term of this Contract.

B. PUBLIC FACILITIES. Vendor's employees may be required to perform work at government-owned facilities, including schools. Vendor's employees and agents must conduct themselves in a professional manner while on the premises, and in accordance with Participating Entity policies and procedures, and all applicable laws.

6. PARTICIPATING ENTITY USE AND PURCHASING

A. ORDERS AND PAYMENT. To access the contracted Equipment, Products, or Services under this Contract, a Participating Entity must clearly indicate to Vendor that it intends to access this Contract; however, order flow and procedure will be developed jointly between Sourcewell and Vendor. Typically, a Participating Entity will issue an order directly to Vendor. If a Participating Entity issues a purchase order, it may use its own forms, but the purchase order should clearly note the applicable Sourcewell contract number. All Participating Entity orders under this Contract must be issued prior to expiration of this Contract; however, Vendor performance, Participating Entity payment, and any applicable warranty periods or other Vendor or Participating Entity obligations may extend beyond the term of this Contract.

Vendor's acceptable forms of payment are included in Attachment A. Participating Entities will be solely responsible for payment and Sourcewell will have no liability for any unpaid invoice of any Participating Entity.

B. **ADDITIONAL TERMS AND CONDITIONS/PARTICIPATING ADDENDUM.** Additional terms and conditions to a purchase order may be negotiated between a Participating Entity and Vendor, such as job or industry-specific requirements, legal requirements (e.g., affirmative action or immigration status requirements), or specific local policy requirements. Some Participating Entities may require the use of a Participating Addendum; the terms of which will be worked out directly between the Participating Entity and the Vendor. Any negotiated additional terms and conditions must never be less favorable to the Participating Entity than what is contained in this Contract.

C. **PERFORMANCE BOND.** If requested by a Participating Entity, Vendor will provide a performance bond that meets the requirements set forth in the Participating Entity's order.

D. **SPECIALIZED SERVICE REQUIREMENTS.** In the event that the Participating Entity requires service or specialized performance requirements (such as e-commerce specifications, specialized delivery requirements, or other specifications and requirements) not addressed in this Contract, the Participating Entity and the Vendor may enter into a separate, standalone agreement, apart from this Contract. Sourcwell, including its agents and employees, will not be made a party to a claim for breach of such agreement.

E. **TERMINATION OF ORDERS.** Participating Entities may terminate an order, in whole or in part, immediately upon notice to Vendor in the event of any of the following events:

The Administrative Fee must be included in, and not added to, the pricing. Vendor may not charge Participating Entities more than the contracted price to offset the Administrative Fee.

The Vendor will submit a check payable to Sourcewell for the administrative fee amount of \$400 multiplied by the total number of trucks purchased by Participating Entities from Vendor under this Contract, and \$200 multiplied by the number of trucks purchased by Participating Entities from Vendor's partner dealer Alan Jay Automotive in Florida, during each calendar quarter. Payments should note the Sourcewell-assigned contract number in the memo and must be mailed to the address above "Attn: Accounts Receivable." Payments must be received no later than 45 calendar days after the end of each calendar quarter.

7	Provide a brief history of your company, including your company's core values, business philosophy, and industry longevity related to the requested equipment, products or services.	<p>NAFG, was originally established in 1987 when we went by Wondries Fleet Group located in Southern California. Starting with a single automobile dealership, my father Clarke Cooper has grown our network to over 35 dealerships both in and outside of California. We have always hired and promoted from within our organization to help promote our culture. Most of our Fleet Division Managers who started with us back in 1987 are still with us today.</p> <p>We have evolved over the decades to adapt to the improving industry technology to the advancement of once gas-powered vehicles to now fuel cell powered. Even in today's fast changing marketplace, our core values have never changed. Members will then be able to drill down for the right selection by picking from the filter menu of what cab there looking for (Regular, Extended or Crew) to 2 wheel or 4 wheel drive down to the bed length there looking for. All factory options are then presented for the member to select from, this will show all current factory order-able options, taking the guess work out for the member. Once a member selects a desired build, they will see there Sourcewell Price report showing the MSRP, there contract price, the saving in real dollars and as a percentage. In the PDF example you can see a saving of \$ 9,175.96 of 22.345% to the member showing a significant savings. Members then can chose to add extra's to there order like extra keys' service manuals, sales tax and even request an upfit to be added to there quote. Lastly they will be given a complete turn key quote package to print which will include there customized Quote ID, Description and Specifications of what they built.</p> <p>How Members and Upfitters can Partner with NAFG: Our dedicated website www.NAFGPartner.com was built to accommodate the member who would like a certain upfitter to upfit there vehicles. It was also built for upfitters to have a place to go where they can find information on how to partner with NAFG to better serve there local members.</p> <p>Example of A Member with Upfit Quote: This is an example of how we use our Cab Chassis and combine them with an upfit to provide a turnkey solution for the member in a simple to follow format.</p> <p>ETA System for Members Walk Through: This is where members can easily come to our website, the same website they built there chassis on and track there order like they would a UPS package. We have a very simple display on our homepage "Track your order" where members can enter one of the following: Purchase Order Number, Quote ID, Upfit Quote ID or vin to easily see there in the process there particular order is in.</p> <p>Courtesy Confirmation Explained: After NAFG receives an order from a Member, we always like to send the member a Courtesy Confirmation. This is were the member will double check some particulars on there order like, Color, Quantity, Upfit and to ensure all Specification's are all correct before order placement. We also like to ask for title information at this point so we can help process the paperwork at delivery promptly.</p> <p>Factory Order Cut Off Notices: Here is were we like to highlight were members can access any upcoming factory order cut off dates. We walk the member through the process step by step to ensure the member knows the upcoming factory order cut off date, we even print this information (if known at the time) right on the cover page of there quotes.</p> <p>Validation Walk Through Example: To demonstrate a price validation, we show what a member would see when they build a truck on our site. At check out the member would see the Total Configured MSRP of \$ 35,730.00, A Sourcewell Price of \$ 27,331.68, Total Saving of \$ 8,398.32 or 23.505% for a 2020 F-250 followed by the pricing page which shows the Minimum Discount of at least 18.50%. 27	Identify your ability and willingness to provide your products and services to Sourcewell participating entities in the United States.	We have provided a list of our top 1,000 member/clients demonstrating our ability to service all members nationwide. Located in the Marketing Place ZIP file as "NAFG Top 1,000 Member Clients" PDF.	*
28	Identify your ability and willingness to provide your products and services to Sourcewell participating entities in Canada.	Our ability and know how to carry our business model into Canada has never been as strong as it is today, we believe a simple US Dollar to Canadian exchange rate coupled with our pricing structure will allow NAFG to finally be in a position to serve members in Canada by partnering with Canadian based dealer groups.	*
29	Identify any geographic areas of the United States or Canada that you will NOT be fully serving through the proposed contract.	NAFG will service 100 % of the United States of America and attempt to build the same model to service all of Canada. We do not know yet what regions we will encounter difficulty and how long the solution will take, but we will strive to service all of Canada.	*

30	Identify any Sourcewell participating entity sectors (i.e., government, education, not-for-profit) that you will NOT be fully serving through the proposed contract. Explain in detail. For example, does your company have only a regional presence, or do other cooperative purchasing contracts limit your ability to promote another contract?	We will service all Sourcewell Members through our 24 hours a day 365-year website except Non Profits. Non-Profits would be subject to a different pricing program and would need to be handled on a case by case basis. Non-Profits mostly do not qualify for the discount governments qualify for.	*
31	Define any specific contract requirements or restrictions that would apply to our participating entities in Hawaii and Alaska and in US Territories.	The only requirement for members in Alaska, Hawaii and US Territories would be logistical shipping constraints the region would hold. For example, we currently provide members in Alaska chassis cabs with upfits and the member allows us to add the extra shipping cost, port cost and driver cost to load and unload there vehicles from port to port. This would be required if needed to be added to any quote in these regions.	*

Upload representative samples of your marketing materials (if applicable) in the document upload section of your response.</p>	<p>In addition to the Sample Marketing Flyers and Marketing Department Charts uploaded in the link "Marketing Plan/Samples"</p> <p>National Auto Fleet Group facilitates a variety of marketing strategies to promote our products and services to reach out to government entities.</p> <p>Our company encompasses mainly outbound marketing strategies to promote the Sourewell Government Vehicle Contract.</p> <p>Email Marketing: Part of our outbound strategy includes paid online marketing techniques such as the use of email campaign blasts. This process includes creation of multiple campaign flyers used to convey key messages to our targeted audience. Flyer messages consist of the types of vehicle contracts, brands sold, special discounts offered to first time buyers, holiday themed flyers, vehicles offered, new website features and many more. This method encourages potential customers to our website to explore our products and services. Our marketing team works continuously to gather emails from government entities though out the United States to compile a database of clientele.</p> <p>Event Marketing: This strategy has proven to be a successful avenue to generate leads and create lasting relationships. National Auto Fleet Group attends several trades shows per year to engage customers in person along with upsell opportunities. Meeting prospects face-to-face forms a lasting impression not available through other methods of selling. Trade shows attended include GFX, IAPPO, NIGP, ACT, CAPPO, CASBO throughout the United States.</p> <p>Relationship Marketing: This is utilized once a client is directed though our website though online methods. Once a potential client registers and becomes a member on our website, our sales team will personally reach out via phone or email to provide further assistance. The role of the sales team is to continue to support and empower clients and educate them on products and services offered. The team will go the extra mile for subscribers, prospects, and customers even after a sales transaction is completed.</p> <p>Our sales team has worked tirelessly to focus on providing outstanding customer support to create powerful rapport with our clients. By going above and beyond, we have enhanced existing relationships and executed customer loyalty with repeat businesses. They strive to deviate from the "Car Salesperson" mentality which is 100% sales driven to a more product and customer service approach by instilling a sense of confidence to our clients. Their constant goal is to regularly assist clients and address any needs during the entire sales process. Striving to focus on solution selling vs. product selling develops into a mutually beneficial agreement for customers and the business.</p> <p>Referral/Word of mouth: This strategy ties into our outstanding relationship marketing to clients. The positive quality of service experienced by customers has led to an increased number of sales through referrals. Our goal is to provide exemplary customer service throughout entire selling process to encourage repeat business and referrals.</p> <p>Coming late summer of 2020, National Auto Fleet Group will be launching a NAFG Partner Website to increase the growth of our business. The website www.nafgpartner.com is expected to launch late summer/early fall of 2020. The site encourages body upfitting companies throughout the United States to partner up with us to become a preferred member. The benefits of becoming a preferred member is to have their business advertised on our site as well as referring any clients with upfitting needs to a local body company within their general vicinity. Our buyers from government agencies are encouraged to go on the site as well and look for local body upfitting companies they are interested in working with. To join our network, they are required to advertise NAFG and the Sourcewell contract on their business website and refer their clients to purchase their cab/chassis needs through NAFG. This creates a relationship that will generate increased sales from both the sides. We are still currently building the website and searching for body companies across the states that would be interested in partnering up with NAFG.</p> <p>Direct Marketing: Prior to the Covid-19 outbreak, our company was promoting direct marketing strategies by contacting local businesses and setting up in person meetings with our dedicated public relations representative. The role of our dedicated representative included in person meetings to discuss our products and services, present website features and to drop off sales contact information for further questions.</p>

Proposer's Affidavit

PROPOSER AFFIDAVIT AND ASSURANCE OF COMPLIANCE

I certify that I am the authorized representative of the Proposer submitting the foregoing Proposal with the legal authority to bind the Proposer to this Affidavit and Assurance of Compliance:

1. The Proposer is submitting this Proposal under its full and complete legal name, and the Proposer legally exists in good standing in the jurisdiction of its residence.
2. The Proposer warrants that the information provided in this Proposal is true, correct, and reliable for purposes of evaluation for contract award.
3. The Proposer, including any person assisting with the creation of this Proposal, has arrived at this Proposal independently and the Proposal has been created without colluding with any other person, company, or parties that have or will submit a proposal under this solicitation; and the Proposal has in all respects been created fairly without any fraud or dishonesty. The Proposer has not directly or indirectly entered into any agreement or arrangement with any person or business in an effort to influence any part of this solicitation or operations of a resulting contract; and the Proposer has not taken any action in restraint of free trade or competitiveness in connection with this solicitation. Additionally, if Proposer has worked with a consultant on the Proposal, the consultant (an individual or a company) has not assisted any other entity that has submitted or will submit a proposal for this solicitation.
4. To the best of its knowledge and belief, and except as otherwise disclosed in the Proposal, there are no relevant facts or circumstances which could give rise to an organizational conflict of interest. An organizational conflict of interest exists when a vendor has an unfair competitive advantage or the vendor's objectivity in performing the contract is, or might be, impaired.
5. The contents of the Proposal have not been communicated by the Proposer or its employees or agents to any person not an employee or legally authorized agent of the Proposer and will not be communicated to any such persons prior to Due Date of this solicitation.
6. If awarded a contract, the Proposer will provide to Sourcwell Participating Entities the equipment, products, and services in accordance with the terms, conditions, and scope of a resulting contract.
7. The Proposer possesses, or will possess before delivering any equipment, products, or services, all applicable licenses or certifications necessary to deliver such equipment, products, or services under any resulting contract.
8. The Proposer agrees to deliver equipment, products, and services through valid contracts, purchase orders, or means that are acceptable to Sourcwell Members. Unless otherwise agreed to, the Proposer must provide only new and first-quality products and related services to Sourcwell Members under an awarded Contract.
9. The Proposer will comply with all applicable provisions of federal, state, and local laws, regulations, rules, and orders.
10. The Proposer understands that Sourcwell will reject RFP proposals that are marked "confidential" (or "nonpublic," etc.), either substantially or in their entirety. Under Minnesota Statutes Section 13.591, subdivision 4, all proposals are considered nonpublic data until the evaluation is complete and a Contract is awarded. At that point, proposals become public data. Minnesota Statutes Section 13.37 permits only certain narrowly defined data to be considered a "trade secret," and thus nonpublic data under Minnesota's Data Practices Act.
11. Proposer its employees, agents, and subcontractors are not:
 - a. Included on the "Specially Designated Nationals and Blocked Persons" list maintained by the Office of Foreign Assets Control of the United States Department of the Treasury found at: <https://www.treasury.gov/ofac/downloads/sdnlist.pdf>;
 - b. Included on the government-wide exclusions lists in the United States System for Award Management found at: <https://www.sam.gov/portal/3>; or
 - c. Presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from programs operated

by the State of Minnesota; the United States federal government or the Canadian government, as applicable; or any Participating Entity. Vendor certifies and warrants that neither it nor its principals have been convicted of a criminal offense related to the subject matter of this solicitation.

☒ By checking this box I acknowledge that I am bound by the terms of the Proposer's Affidavit, have the legal authority to submit this Proposal on behalf of the Proposer, and that this electronic acknowledgment has the same legal effect, validity, and enforceability as if I had hand signed the Proposal. This signature will not be denied such legal effect, validity, or enforceability solely because an electronic signature or electronic record was used in its formation. - Jesse Cooper, Fleet Manager, 72 Hour LLC, DBA Naional Auto Fleet Group

The Proposer declares that there is an actual or potential Conflict of Interest relating to the preparation of its submission, and/or the Proposer foresees an actual or potential Conflict of Interest in performing the contractual obligations contemplated in the bid.
