Affordable Housing Advisory Committee - Questions*

1. The greatest challenge to keeping affordable housing in Hollywood is education; our residents must be readily aware of the resources and tools available at their fingertips to help them to own homes and to renovate them. They must be educated in credit repair and in saving so that they are not stuck renting. Additionally, for those who do rent and for their landlords, we need to find opportunities and programs that will result in keeping rent affordable, rather than \$4,000 or more a month.
2. As a school district administrator, I am most adept at administrative and educational functions. These would include Home Purchase Education and Affordable Housing Activism
3. I am most passionate about Ownership Housing Affordability, Rental Housing Affordability and Fair Housing.
4. My experience as the only son of a single, working mother, has led me to volunteer on multiple fronts, for my children's schools, my community, and my profession. It is only through education that I was saved from a life of poverty or worse. Having advocates in my corner made a difference. And, I now desire to be that advocate for as many people as I can so that I can elevate our entire community.
5. Housing diversity is key in driving our city's economic health. Rather than having solely housing for singles, or for families, having housing opportunities for all family types, from homemakers to business professionals, increases the demand for a multitude of products and services within our community. It also ensures that families of all socioeconomic backgrounds can find a home and a place within our city. This drives a diverse and fair tax base that will increase municipal capacity to provide services of all kinds to our entire community.

Please answer these five questions above. 1. In your opinion what is the greatest challenge to keeping housing affordable in Hollywood? 2. Which of the following disciplines are you most skilled? • Home Purchase Education, • Housing Market Employment, • Housing Market Stability, • Affordable Housing Construction, * Affordable Housing Activism. 3. Which of the following disciplines are you most passionate? • Ownership Housing Affordability, • Rental Housing Affordability, • Housing Market Stability, • New Housing Construction, * Fair Housing. 4. What (if any) life experience motivated you toward volunteerism? 5. What role does housing diversity play in Hollywood's economic health?

Community Development Advisory Board - Questions*

1. No

2. The community development issues that are important to Hollywood include: equipping and empowering residents with the capability and resources to afford a home, the ability of residents to upkeep and sustain their homes, and empowering neighborhood associations and building leadership capacity within them.

3. A healthy neighborhood is one in which all residents have equitable access and opportunities. Such neighborhoods include strong schools, safe housing and safe conditions within the neighborhood as a whole, access to public transportation, access to health care, opportunities to publicly address neighborhood issues and lead initiatives within them, and equitable access to emergency and support services (such as code compliance), without fear of retribution, etc.

4. The primary work and vision of the Community Development Advisory Board is to represent the voices of residents of Hollywood and to provide consultation to the city's staff and elected leaders in setting long-term and short-term priorities and plans in community development, as well as to evaluate the effectiveness of the implementation of prior plans to drive systemic change/strengthening of practice to increase the overall chances of effectiveness of future initiatives.

5. I am uniquely qualified as a renter in Hollywood with a family of four (one elementary school aged child, one toddler, and two adults). As a community family and child advocate, I am adept at working within our communities to identify and synthesize priorities held collectively as a community, and to advocate for policy/practice that furthers those priorities.

Please answer these five questions above. 1. Do you reside in a low and moderate income (LMI) neighborhood in Hollywood per the most recent US Census data? What is your definition of a healthy neighborhood? 4. What do you believe is the vision and primary work of the Community Development Advisory Board? 5. What do you believe uniquely qualifies you to serve on the Community Development Advisory Board?

Education Advisory Committee - Questions*

1 The current challenges facing education in Hollywood include: (1) Budgetary shortcomings (including the mishandling of \$800 million bond referendum), and its effects, including the potential closure of school buildings, (2) facilities in disrepair with the update/repair timelines taking far longer than should be reasonably expected, and (3) school safety initiatives that will ensure that intruders and weapons are kept out, that students are emotionally and physically safe, and that are articulated in a fashion that maintains positive parental and community perception.

2. My vision for education in Hollywood is a world-class free public education and pristine school building in each and every community for each and every child and family. Children should not have to hunt for the best school or hope to be accepted into a lottery to have the equitable access to a stellar public education that they all deserve. I desire to see Hollywood schools the most-sought after schools in Broward County.

3. EAC members represent the voices of their communities to advocate for partnerships, programs, and resources that enhance both school-day education efforts and extracurricular/organizational programs that continue to educate our city's youth beyond the school day. Further, they serve as a voice to city staff and elected leaders to keep vital issues of education in the forefront of conversations, assisting city leaders to continue to advocate at all levels for matters of education that are important to our city's residents and children.

4, The best way for the committee to prioritize its work would be to develop a comprehensive educational needs assessment that considers input of the public and private schools, leaders, and residents, and develop a five year strategic plan around the CNA, developing one year plans or "action agendas" to drive their work, completing a new CNA every 5 years.

5. The committee should create annual SMART goals and measure those quarterly..

Please answer these five questions above. 1. What are the current challenges facing education? 2. What is your vision for education in Hollywood? 3.
