Vehicle Purchasing for Your Government Agency

WHO WE ARE:

National Auto Fleet Group (NAFG) is a minority family-owned all-in-one vehicle vendor that caters to government agencies across the United States. With two generations of experience, we understand the complexities involved in government fleet vehicle purchasing. Our fast, reliable, and hassle-free [Sourcewell vehicle contracts](#) empower members to seek alternatives to the tedious bidding process. Our effective and simple online quoting system offers resources to assist public agencies with a variety of fleet purchasing solutions.

NAFG & SOURCEWELL:

Sourcewell holds hundreds of competitively solicited contracts ready for use. Their concept is simple: "we do the bidding for you." Sourcewell is a government agency that has fulfilled the bidding requirements on behalf of their members.

As a Sourcewell vendor with two awarded contracts, NAFG has revolutionized government vehicle purchasing by linking our nationwide network of manufacturers and upfitters to meet agency upfitting needs.

SOURCEWELL CONTRACTS:

Contract # 091521-NAF offers class 1-3 light duty trucks, cars, vans, SUVs, cab chassis, electric vehicles with all upfitting.

Contract # 060920-NAF offers class 4-8 chassis with related equipment with all upfitting to government entities.

OUR MISSION:

Our motto is simple – provide hassle-free purchasing so you can save valuable time and money that could be spent on other projects. With thousands of public agencies as members, NAFG continues to excel in delivering exceptional customer service.

Whether it's purchasing a single passenger van for a school district in a small rural town, or replacing a fleet of 500 utility trucks for a major metropolitan city, our company will go above and beyond to meet your needs.

NAFG's story:

NAFG was founded on the premise of introducing hassle-free fleet procurement options to government agencies. On average, government procurement employees spend an excessive amount of time and money on the traditional bidding process. Our innovative approach allows members to simplify the purchasing process to just three minimal steps: request a quote, get approval and issue a purchase order all based off contract.

Our objective is to transform and streamline the purchasing process to reflect the fast paced and modern society we live in today. With a team of over 50 years of experience servicing public agencies through contracts, NAFG is turning this goal into a reality.

Our journey began when we acquired our Chevrolet of Watsonville dealership franchise in August of 2008. Following a chance meeting with one of the founders of NJPA, now Sourcewell, we were able to envision the integration of their government contract to offer vehicles to government agencies. This partnership, along with our experience in government fleet purchasing and contracts, became our pathway to success.

After being awarded our first Sourcewell government vehicle contract in 2011, we grew from providing vehicles from ten agencies to thousands of agencies across the United States. In addition to providing light duty vehicles, we have witnessed a tremendous growth on the heavy-duty division of our company. By offering contract solutions as an alternative to bidding, NAFG has become a leader in the government fleet market.

Our story is not over yet! Since winning over 5 Sourcewell contracts throughout the past decade, we are continuing to grow by marketing to potential members every day.

NAFG strives to create a diverse and inclusive work environment for our employees by valuing each individual's unique perspective. Many of our original employees that started with the company are still here to this day.

From obtaining a quote, vehicle, vehicle delivery, every stage of the vehicle ordering process will be addressed. Our team at NAFG eagerly awaits to hear from you! Please contact us via email, phone, or live chat to discuss your possibilities! We are passionate about what we do and will continue to reinvent and support the government procurement process by building a foundation of trust with all agencies and members.
