The Consultant agrees to provide complete architectural design services set forth in the five phases enumerated hereinafter and in the Florida Building Code, the City of Hollywood, Florida, Code of Ordinances, Florida Department of Transportation regulations and Broward County requirements; including all mechanical, electrical and plumbing engineering design. Services normally required for a project of specific type, unless modified by a specific Authorization to Proceed, hereinafter collectively called "Basic Services"; as follows:

On projects for which the City has contracted with a Construction Manager, the Consultant shall work in conjunction with the CM to establish goals and produce Construction Documents which meet the City's objectives and budget, noting that the CM shall provide and update the cost estimate and construction schedule as required.

2.01A Phase I – Programming and Schematic Design:

- 1) The Consultant shall confer with representatives of the Director of the Department of Development Services to establish the Program, consisting of a detailed listing of all functions, scope of work, inventory of existing conditions, project vision, requirements and goals, project limits and uses together with each assignable space, image, theme and design vocabulary.

If the project needs are so unique that a special analysis of the requirements is necessary to establish a more detailed program, such services may be authorized as Additional Services.

- 2) The Consultant shall prepare and present, for approval by the City, a Design Concept and Schematics Report, comprising the Schematic Design Studies, including an identification of any special requirement affecting the Project, a Project Development Schedule and Statement of Probable Construction Cost (the estimate will be prepared by the CM if part of the project team) as defined below:
 - a. The Schematic Design Studies shall consist of site and floor plans, elevations, sections, etc. as required by the Project Manager and shall show the scale and relationship of the parts and the design concept of the whole.
 - b. The Project Development Schedule shall show the proposed completion date of each Phase of the Project through design, permitting, bidding, construction, and proposed completion dates.
 - c. The Statement of Probable Construction Cost (when applicable) shall include a summary of the estimated cost of the mechanical, electrical and plumbing elements, professional fees, construction contingency allowance, escalation factors adjusted to the estimated bid date, movable equipment (if any), contingencies (if any), utility service extensions (if applicable), and funding allocation evaluation comprising a brief description of the basis for estimated costs (similar projects) with square foot costs adjusted to bid date, and a preliminary evaluation of the program and the allocated construction funds in terms of each other.
- 3) The Consultant shall submit three copies of all documents required under this Phase, without additional charge, for approval by the City, and the Consultant shall not

proceed with the next Phase until the documents have been approved by the City and an Authorization to Proceed with the next phase has been issued.

2.01B Phase II – Design Development:

- 1) From the approved Schematic Design documents, the Consultant shall prepare and present, for approval by City, Design Development Documents, comprising the drawings, 3-dimensional renderings, contextual perspective renderings, traffic/drainage studies and associated comprehensive multi-disciplinary studies, outline specifications and other documents to delineate and describe the size and character of the entire Project as to mechanical, electrical and plumbing engineering design, construction and finish materials and details and other items incidental thereto, feedback and resubmittal to the governing agencies, and as required by the Project Manager.
- 2) At this presentation the Consultant shall also submit an updated Statement of Probable Construction Cost (which will be prepared by a Construction Manager, if applicable). If the updated Statement of Probable Construction Cost exceeds the total budgeted amount, appropriate cost or scope reduction recommendations must be included.
- 3) The Consultant shall submit three sets of all documents required under this Phase, without additional charge, for approval by the City, and the Consultant shall not proceed with the next Phase until the City has approved the documents.

2.01C Phase III – Construction Documents Development:

From the approved Design Development Documents, the Consultant shall prepare for approval by City, and in accordance with City's format, Final Construction Documents setting forth in detail the requirements for the construction of the Project in accordance with the Project Manager. The Consultant is responsible for full compliance of the design and the Construction Documents with all applicable codes.

1) 50% Construction Documents Submittal:

The Consultant shall make a 50% Construction Documents submittal, for approval by the City, which shall include:

- a. Three sets of prints of all drawings, specifications, perspective and visual supporting graphic information as required by the Project Manager.

- c. Preparation of the Specifications, using FDOT Standard Specifications, CSI Standards, including the 16-Division and 3-part Section format developed and recommended by the Construction Specifications Institute or other industry acceptable specification format as approved by the Director or the Director's representative. The 50% construction documents submittal shall include all sections of applicable Divisions "0" (zero) and "1" and at least 50% of the technical specification sections, each of which should be 100% complete. These specifications should not be merely outline specifications as submitted during the Design Development phase.
- d. Coordinating with the Construction Manager, if available, to provide an updated Statement of Probable Construction Cost, as indicated by time factor, changes in requirements, or general market conditions, and an updated Project Development Schedule.

An Authorization to Proceed with the completion of Phase III will not be issued if the latest Statement of Probable Construction Cost exceeds the Total Authorized Design Value, unless the City increases the Total Authorized Design Value or the Consultant and the City agree on methods of cost reduction sufficient to enable construction within the funds available.

- e. Where applicable, approved additive alternate bid items in the Construction Documents to permit the City to award a Construction Contract within the limit of budgeted amount.
- 2) The Consultant shall not proceed with further development until approval of the 50% documents is received from the City. The Consultant shall make all changes to the documents and resolve all questions indicated on the documents. The 50% complete Check Set shall be returned to the City.
- 3) 100% Construction Documents Submittal:
- a. Upon 100% completion of the Construction Documents, the Consultant shall submit to the City three copies each of check sets of the Drawings, Specifications, reports, programs, etc., together with a final, updated Statement of Probable Construction Cost from the Construction Manager, if applicable.
 - b. The Consultant shall make all required changes or additions and resolve all questions on the documents. The 100% complete Check Set shall be returned to the City. Upon final approval by the City, the Consultant shall furnish one copy of all Drawings and Specifications, along with a reproducible set and an electronic copy to the City without additional charge.
 - c. The Consultant shall assist the City in filing the required documents for approval by governmental authorities having jurisdiction over the Project and in obtaining certifications of "permit approval" by reviewing authorities prior to printing of the Bid Documents. The Consultant shall make the original documents or reproducible copies thereof

available to the City for reproduction of additional copies as may be required for bidding and/or construction purposes. Facilitating a Public Workshop or a City Commission workshop may also be required.

2.01D Phase IV – Bidding and Award of Contract:

1) Bid Documents Approvals and Printing:

Upon obtaining all necessary approvals of the Construction Documents, and approval by the City of the latest Statement of Probable Construction Cost, the Consultant shall assist the City, where applicable, in obtaining bids and awarding construction contracts or coordinating with the Construction Manager for same.

The City may have the drawings and specifications printed for bidding purposes, either through its open agreements with printing firms or as a reimbursable service through the Consultant.

2) Issuance of Bid Documents, Addenda and bid opening, in situations where projects are to be constructed without the services of a Construction Manager:

a. The City shall issue the Bid Documents to prospective bidders and keep a complete "List of Bidders". The Advertisement for Bids will instruct the bidders to pick up the Bid Documents at the Office of the Department of Development Services

b. The Consultant shall prepare addenda, if any are required, for the City to issue to all prospective bidders. No addendum shall be issued without the City's approval.

c. The Consultant shall be present at the bid opening, with the City's representatives.

3) If the lowest responsive, responsible Base Bid received, or the Construction Manager's Guaranteed Maximum Price (GMP), exceeds the Total Authorized Design Value, the City may:

a. Approve the increase in Project cost and award a contract, or

b. Reject all bids and rebid the Project, or if a Construction Manager is being utilized, reject the proposed Guaranteed Maximum Price (GMP) and negotiate with another Construction Manager, within a reasonable time with no change in the Project, or

c. Direct the Consultant to revise the Project scope or quality, or both, as approved by the City, and rebid the Project, or

d. Suspend or abandon the Project.

NOTE: Under item (3)c above the Consultant shall, without additional compensation, modify the Construction Documents as necessary to bring the Probable Construction Cost within the budgeted amount. The providing of such service shall be the limit of the Consultant's responsibility in this regard, and having done so, the Consultant

shall be compensated in accordance with this Agreement. The City may recognize exceptional construction market cost fluctuations before exercising option (3)c above.

It is agreed that any "Statement of Probable Construction Cost" or Detailed Cost Estimate prepared by the Consultant or the Construction Manager (if applicable) represents a reasonable estimate of cost in the Consultant's or Construction Manager's best judgment as a professional familiar with the local construction industry, and that neither the Consultant, Construction Manager nor the City, has any control over the cost of labor, materials, and equipment, bidders' methods of determining bid prices, competitive bidding, or market conditions. Therefore, the Consultant cannot and does not guarantee that bids will not vary from the final Statement of Probable Construction Cost or Detailed Cost Estimate prepared by the Consultant or Construction Manager, if applicable.

If the Latest Statement of Probable Construction Cost exceeds the budgeted amount, the Consultant shall review the materials, equipment, component systems and types of construction included in the Contract Documents and may recommend changes in such items and/or reasonable adjustments in the scope of the Project (to be made at no additional cost to the City) that will result in bids within the available funds.

Evaluations of the City's Project budget, preliminary estimates of construction cost and detailed estimates of construction cost prepared by the Consultant or Construction Manager (if applicable) represent the Consultant's or Construction Manager's best judgment as a professional familiar with the construction industry. Prior to authorizing the Consultant to proceed with preparation of the Final Design, the City may establish and communicate to the Consultant a maximum sum for the cost of construction of the Project ("Construction Budget"). If the City has not advertised for bids within ninety (90) days after the Consultant submits the Final Design to the City, the estimate of the cost of construction may be adjusted. The Consultant cannot and does not guarantee that bids or negotiated prices will not vary from any estimate of construction cost or evaluation prepared or agreed to by the Consultant. Notwithstanding anything above to the contrary, the City may require the Consultant to revise and modify Construction Documents and assist in the re-bidding of the Work at no additional cost to the City if all responsive and responsible bids received exceed the Construction Budget.

2.01E Phase V – Administration of the Construction Contract:

- 1) The Construction Phase will begin with the award of the Construction Contract and will end when the City approves the Contractor's final Payment Certificate. During this period, the Consultant shall provide Administration of the Construction Contract as set forth in the General and Supplementary Conditions of the Construction Contract.
- 2) The Consultant, as the representative of the City during the Construction Phase, shall advise and consult with the City and shall have authority to act on behalf of the City to the extent provided in the General Conditions and the Supplementary Conditions of the Construction Contract.
- 3) The Consultant shall visit the site at least bi-weekly (or as necessary), and at all key construction events, and the Consultant's respective Subconsultants shall visit the site bi-weekly (or as necessary), to ascertain the progress of the Project and to determine in general if the work is proceeding in accordance with the Contract

Documents. On the basis of on-site observations, the Consultant shall endeavor to guard the City against defects and deficiencies in the work. The Consultant will not be required to make extensive inspections or provide continuous daily on-site inspections to check the quality or quantity of the work unless otherwise set forth in this Agreement.

The Consultant will not be held responsible for construction means, methods, techniques, sequences or procedures, or for safety precautions and programs in connection with the Work, nor will the Consultant be held responsible for the Contractor's or Subcontractors', or any of their agents' or employees' failure to perform the Work in accordance with the Contract Documents.

- 4) The Consultant shall furnish the City with a written report of all observations of the work made by the Consultant and the Subconsultants during each visit to the Project. The Consultant shall also note the general status and progress of the work and submit it in a timely manner. The Consultant and the Subconsultants shall ascertain that the Contractor is making timely, accurate, and complete notations on the "as-built" drawings.
- 5) Based on observations at the site and consultation with the Project Manager, the Consultant shall determine the amount due the Contractor on account and shall recommend approval of such amount. This recommendation shall constitute a representation by the Consultant to the City that, to the best of the Consultant's knowledge, information and belief, the Work has progressed to the point indicated and the quality of the Work is in accordance with the Contract Documents subject to:
 - a. An evaluation of the Work for conformance with the Contract Documents upon Substantial Completion.
 - b. The results of any subsequent tests required by the Contract Documents.
 - c. Minor deviations from the Contract Documents correctable prior to completion.
 - d. Any specific qualifications stated in the Payment Certificate and further that the Contractor is entitled to payment in the amount agreed upon at the requisition site meeting.

By recommending approval of a Payment Certificate, the Consultant shall not be deemed to represent that the Consultant has made any examination to ascertain how and for what purpose the Contractor has used the money paid on account of the Construction Contract Sum.

- 6) The Consultant shall be an interpreter of the requirements of the Contract Documents and the judge of the performance thereunder. The Consultant shall render interpretations necessary for the proper execution or progress of the Work with reasonable promptness on written request of either the City or the Contractor, and shall render written decisions, within a reasonable time, on all claims, disputes and other matters in question between the City and the Contractor relating to the execution or progress of the work or the interpretation of the Contract Documents.

- 7) Interpretations and decisions of the Consultant shall be consistent with the intent of, and reasonably inferable from, the Contract Documents and shall be in written or graphic form. In the capacity of interpreter, the Consultant shall endeavor to secure faithful performance by both the City and the Contractor, and shall not show partiality to either.
- 8) The Consultant shall have authority to recommend rejection of work which does not conform to the Contract Documents. Whenever, in the Consultant's reasonable opinion, it is necessary or advisable to insure compliance with the Contract Documents, the Consultant will have authority to recommend special inspection or testing of any work deemed to be not in accordance with the Contract; whether or not such work has been fabricated and delivered to the Project, or installed and completed. The Consultant shall provide such normal mechanical, electrical, structural, landscape or other related inspection expertise as necessary to determine compliance with the Construction Contract.
- 9) The Consultant shall promptly review and approve shop drawings, samples, and other submissions of the Contractor for conformance with the design concept of the Project and for compliance with the Contract Documents. The Consultant shall prepare color boards or illustrative renderings to review the color selections, landscape/lighting/hardscape site furniture, material palette, for all finish materials with the Director of the Department of Development Services and furnish the approved colors to the Contractor in a timely manner so as not to delay the construction progress. Changes or substitutions to the Contract Documents shall not be authorized without concurrence of the Project Manager.
- 10) The Consultant shall initiate Change orders for the City's approval as required by the Consultant's observations, or requested by the City; and review and recommend action on proposed Change Orders within the scope of the Project initiated by others.
- 11) The Consultant shall examine the Work upon receipt of the Contractor's Request for Substantial Completion Inspection of the Project and shall, prior to occupancy, recommend execution of a Certificate of Acceptance for Substantial Completion after first ascertaining that the Project is substantially completed in accordance with the contract requirements. A punch list of any defects and discrepancies in the Work required to be corrected by the Contractor shall be prepared by the Consultant and the Subconsultants in conjunction with representatives of the City, and satisfactory performance obtained thereon before the Consultant recommends execution of a Certificate of Final Acceptance and final payment to the Contractor. The Consultant shall obtain from the Contractor all guarantees, operating and maintenance manuals for equipment, releases of claims and such other documents and certificates as may be required by applicable codes, laws, and the specifications, and deliver them to the City.
- 12) The Consultant shall provide assistance in obtaining the Contractor's compliance with the Contract Documents relative to 1) initial instruction of CITY's personnel in the operation and maintenance of any equipment or system, 2) initial start-up and testing, adjusting and balancing of equipment and systems and 3) final clean-up of the Project.
- 13) The Consultant shall furnish to the City, the original drawings, revised to "as-built" conditions based on information furnished by the Contractor; such drawings shall become the property of the City.

2.02 ADDITIONAL SERVICES:
