To:

Mr. Joel Wasserman  
Director, Procurement Services  
2600 Hollywood Blvd.,  
City of Hollywood, FL 33022

Dear Mr. Wasserman,

Safeware is pleased to provide to the City of Hollywood, Florida a multiple phase security solution which includes Closed Circuit TV Cameras, an Automated License Plate Recognition System, and the connectivity for the CCTV and ALPR System. This Safeware Security Solution is being provided by the partnership team consisting of Safeware, Inc. and ATCi and is being procured under the Safeware US Communities government contract vehicle.

This is a complete turn-key security solution and is being provided at a "firm fixed price" as defined in our line item pricing. The warranty clock on each phase will start after the city has beneficial use of the system on each phase. Payments will be made on a monthly base according to the progress of the project. In closing, Safeware appreciates the trust the City of Hollywood has extended in our team and we feel this security solution will best serve the security and public safety needs of the City of Hollywood.

Sincerely,

A handwritten signature in black ink that reads "Peter Van Kirk". The signature is written in a cursive, flowing style.

Peter Van Kirk  
Director, Government Security Solutions  
Safeware

CC. Mr. John Barletta
