In Summary

The Goal of the Solid Waste Authority:

- Encourage recycling, reduction, reuse and divert solid waste from landfills.
- Support regional solutions with other counties with like priorities and goals as Broward County and their municipalities.
- Conduct comprehensive public education campaigns.
- Engage in and/or support research and development into disposal, reduction, recycling, reuse and utilization of the latest technology to create a sustainable and resilient solid waste disposal and recycling materials processing system.

In Summary

There is an urgent need for regional management of solid waste disposal and recyclables processing.

Through the proposed Interlocal Agreement (ILA), Broward County seeks to partner with the municipalities that are willing to work together to develop and implement a long-term, environmentally sustainable, transparent, economically efficient plan and approach for disposal, reduction, recycling, and reuse of waste generated in Broward County.
