

- Develop a master program schedule with milestone tracking using platforms such as Primavera P6 or MS Project, integrated with GIS-based visual reporting.
- Implement centralized financial oversight tools to track budgets, funding source compliance (e.g., grants, bonds), and deliver quarterly financial performance reports.
- Prepare and negotiate clear, well-defined task orders, ensuring scope, deliverables, and costs align with City objectives.
- Use a phased delivery strategy to address urgent interim needs while setting the foundation for long-term capital investments.
- Establish baseline schedules with critical path analysis to monitor progress, manage float, and anticipate delays—enabling data-driven schedule updates and early risk mitigation for projects within the program.

We anticipate **Rashmi Koul** is our Program Controls team to continue to assist with strategic planning and prioritization efforts. Additionally **Bryant Facey, PE**, as the Program Planning/Design Manager Lead will assist with strategic planning and prioritization efforts associated with anticipated or future design efforts.

3. Technical and Design Oversight

We will deliver consistency and quality across all stormwater infrastructure projects through:

- Lead the development of City-wide design standards to ensure consistency, scalability, and regulatory compliance.

- Provision of in-house design services for selected projects, including site analysis, hydraulic modeling, and final construction documentation.
- Design oversight of third-party consultants, with QA/QC processes to verify completeness, compliance, and constructability.
- Integration of BIM and GIS tools to support design reviews, utility coordination, and efficient permitting.
- Integrate adaptive design practices and green infrastructure where appropriate to maximize long-term value.

Bryant Facey will also provide leadership, with support from our H&H/stormwater modelers, stormwater conveyance & pipeline, and stormwater pump station engineers and technical staff. This team will work together oversee design projects, provide design reviews, complete preliminary design services, etc. throughout the duration of the program.

4. Funding Strategy and Grant Support Services

- Our research and stakeholder-focused approach to grant application packages helps government agencies and authorities meet their objectives in the face of limited budgets and competitive funding pools, and our ability to provide compliance assistance enables clients to avoid unnecessary delays in funding.
- Our team will provide the right balance of project management to technical services to make certain that each step of the Alternative Grant lifecycle is completed successfully.

Figure E-4. Resource Loaded Schedule and Cash Flow. GFT will use resource management tools throughout the program to manage schedule and budget.

5. Permitting, Procurement, and Construction Management

To provide seamless project delivery, GFT will:

- Develop a project-specific permitting matrix, identifying necessary approvals, timelines, and agency points of contact. Proactively engage with permitting agencies (FDOT, SFWMD, Broward County) to streamline approvals and minimize delays.
- Prepare technically sound permit applications and respond swiftly to agency comments.
- Support procurement efforts by developing clear RFPs/RFQs, assisting with evaluations and contract negotiations, and ensuring task orders are competitively priced and properly scoped.
- Provide full-service construction management oversight, including review of submittals, RFIs, pay applications, and change orders.
- Implement field documentation protocols, conduct site inspections, and coordinate construction meetings to ensure safety, quality, and progress.

6. Public Outreach and Stakeholder Engagement

GFT understands that public trust is critical to successful program delivery. We acknowledge that the City has embarked on an educational campaign to educate and communicate with its residents about stormwater, water quality, and SLR challenges in the community. We understand the need for consistent public engagement and continued education. We will:

- Develop and execute a Public Involvement Plan, including stakeholder mapping, outreach timelines, and communications strategies (e.g., town halls, workshops, digital campaigns).
- Serve as a visible and responsive representative of the City, participating in public meetings, City Commission briefings, and neighborhood outreach efforts to explain project benefits and timelines.
- Develop communication materials to clearly convey project benefits, timelines, and impacts to the community.

Our Program Planning/Design, Construction Management, and Support Staff are anticipated to be involved with permitting, procurement, and construction management tasks. **Martin Benzaquen, PE, ENV SP** will serve as the Construction Program Manager. He has full support from our team of local construction managers, pre-construction surveys & utilities engineering support subconsultants, construction safety, and construction inspectors. We also have permitting support from Keisha Westbrook, PE and Tavares Jackson. Our staff will work together to complete the tasks previously mentioned.

Figure E-5. Programmatic Project Delivery System. Our PMP will include drivers and risks, governance, workflow, and delivery improvement with consistency and transparency throughout the program.

- Foster strong relationships with the community, public agencies, elected officials, and private developers to ensure transparency and collaboration throughout the program lifecycle.

Carolina Cubides, PE, PMP, will serve as the Stakeholder Liaison & Community Support Lead. She will work with public outreach and media relations experts such as **Nicole Brown**, as well as **Dayana Sanurjo** and **Paulette Summers** from MRG and **Edgar Fernandez** from Arrow that will collaborate with the City and other program leads, stakeholders, etc. to maintain public trust and provide clear communication throughout the program.

We view this role as a strategic partner and trusted extension of the City's leadership team. Through collaborative planning, regulatory coordination, and transparent communication, we are committed to delivering results with efficiency, responsiveness, and accountability.

With decades of experience managing complex infrastructure programs, GFT Program Management is uniquely positioned to help the City implement its SWMP successfully—advancing resiliency, fiscal responsibility, and quality of life for all residents.

7. Asset Management and Future Planning

- Support the City's asset management strategy by integrating infrastructure data, modeling stormwater scenarios, and informing maintenance planning.
- Develop preventive maintenance templates and capital reinvestment triggers to ensure long-term sustainability of assets.
- Deliver annual CIP updates, adjusting priorities based on data, funding availability, and emerging community needs.

This is a critical leadership role in advancing the City of Hollywood's long-term stormwater resiliency, infrastructure modernization, and sustainable growth. GFT brings a proven track record of technical excellence and deep expertise in both program and project management. Our approach is rooted in technical rigor, disciplined execution, and proactive stakeholder and public engagement.

E.3. CURRENT WORKLOAD

GFT monitors and forecasts staffing availability to appropriately resource and commits the right personnel to the projects we undertake, from kickoff to construction conclusion. Knowing our staff's availability allows us to accurately develop schedules for successful project delivery. We have assembled our team of professionals based on their expertise in program management, stormwater management, and local engineering expertise as well as their availability for the duration of this program. The individuals assigned to this project will be available full-time, when required, to fulfill their tasks and schedule commitments. We forecast workload monthly and adjust resource allocation accordingly. Our team can efficiently execute this program. Integrating our current and projected workload and the anticipated schedule for this contract, our team can meet and sustain the necessary assignments to successfully deliver projects under this program.

E.4. ABILITY TO SOLVE COMPLEX ISSUES

E.4.1. SLR Adaptation Design Considerations

South Florida is front and center on the effects of sea level rise and its effects in all types of infrastructure projects. Currently South Florida, including the City of Hollywood, is dealing with saltwater intrusion threatening our ground water sources. SLR also affects the life span of underground infrastructure and can attribute to increase in infiltration into sanitary sewer systems, thus affecting the capacity in the sewer system. SLR also impacts the ability for continuing or to maintain or provide adequate stormwater management and drainage of our local neighborhoods roadways in particular low laying areas into the future.

These issues will exacerbate the need for resilient infrastructure to continue to provide the level of service for South Florida residents and the City will have to incorporate infrastructure solutions to mitigate some impacts at the local level of responsibility. We understand that the solution is not for the City alone to tackle, but that the adaptation of these challenges will have to be in collaboration with agencies such as SFWMD, USACE, FEMA, FDOT, and other stakeholders. We are already working with local and State agencies on identifying and implementing infrastructure to mitigate future conditions.

E.4.2. Construction Considerations

GFT has supported clients with solving varying infrastructure issues, such as aging facilities, pump and motor problems, or surge and water hammer effects, space constraints, code compliance, regulatory drivers, transited corridors, and others. Other constraints we addressed or advised our clients on were related to operations, funding, the need for optimization and energy savings, and workforce issues. Our team has designed new pump stations and rehabilitated existing facilities where we had to select pumping configurations to match technical requirements while also adhering to site limitations within residential areas. The definition of success of a project is not limited to construction completion. It is also defined by

SPOTLIGHT PROJECT

Lake Belmar Stormwater Pump Station

For the Miami Dade DTPW, the team is designing the Lake Belmar Stormwater pump station within a coastal neighborhood in North Miami to provide pumping capacity to alleviate current and future stormwater runoff. We are taking into consideration pre-treatment measures to mitigate nutrient loading into Biscayne Bay, providing a less intrusive design to be aesthetically in line with its surroundings, incorporate by design hardening materials and increase elevation to protect electrical and I&C equipment. We are coordinating with Florida Power & Light (FPL) and DTPW closely to maintain facility function and meet O&M requirements. The site also presents challenges due to the constraint space where this facility will be located.

seamless construction execution so that residents or businesses in the surrounding area aren't adversely impacted. We work with clients to add special conditions to contract documents for documenting, tracking, reporting, and closing third-party impacts. This includes audiovisual documentations and surveying existing conditions, controlling vibration and monitoring settling throughout construction, and providing final clearance.

Whether constructing new pipelines or building sewer or stormwater pump stations, our team is ready to apply sustainable solutions to meet the City's infrastructure challenges today and prepare your community for the future.

E.5. AVAILABLE RESOURCES AND TECHNOLOGY

E.5.1. InfoWater/InfoSWMM

GFT has comprehensive experience with industry-standard computer software for modeling distribution systems, transmission systems, gravity sewers, stormwater and drainage systems. We currently hold full suite licenses for multiple modeling software including Innovyze (an Autodesk company) InfoSWMM, InfoWorks CS, InfoWater and others. The selection of the modeling tool will depend on project requirements and/or our client preferences.

For water distribution modeling and management, we have used InfoWater modeling software, which is fully integrated with the Esri ArcGIS® platform. InfoWater can be used to perform comprehensive hydraulic analyses for effective, economical selection and sizing of water distribution piping and appurtenances, achieve adequate pressure and flow in the system, and fire flow protection requirements.

We applied InfoWater modeling for evaluation, prioritization, and validation of design requirements on our Allentown Division System Water Main Replacement for Lehigh County Authority, where our team managed and designed approximately 20 miles of water main replacement of unlined cast iron pipe over a period 8 years.

Other projects include Virginia American Water's Alexandria and Hopewell District Water Main Replacement where InfoWater was used to determine water main sizes and fire flow coverage and capacity evaluations. Additionally, our team has in-depth experience using InfoSWMM modeling tool for evaluating backflow, surcharge, and overflow analysis for determining performance of sanitary sewer systems. Additionally InfoSWMM is a powerful modeling tool for evaluating drainage systems providing analysis for the planning and management of stormwater networks.

E.5.2. CFD Modeling

With a comprehensive, expert-level understanding of hydraulics, GFT's experienced and talented hydraulic engineers are problem-solvers, using advanced and highly-detailed 3D CFD models to perform analyses leading to a more thorough understanding of the hydraulics and designs,

Figure E-6. CFD Model. GFT completed a CFD model for SFWMD's S-426 Pump Station.

resulting in significant cost savings to our clients. Additionally, we have a successful history teaming with a hydraulics laboratories that aid in our pump station designs by providing physical models to better determine project elements that may affect pump performance, allowing us to provide recommendations for design revisions that could potentially provide cost savings and improve operations for our clients.

E.5.3. Stormwater Modeling

GFT team has vast experience in the analysis and design of stormwater systems for different types of roadway and infrastructure projects. Our team uses several stormwater analysis programs, including Geo-Hec-Ras, ASAD, Arc-GIS, Mike-She, Mike-11, XPSWMM, and ICPR V4 1D/2D with the capabilities of ArcGIS integration to provide a more thorough analysis and design.

E.5.4. BIM Integration

We will assign design projects that require the preparation of drawings a CAD/BIM coordinator responsible for setting up the design production requirements. This person will prepare a Project Information Management Plan delineating design execution based on the platform used. The CAD/BIM coordinator is also responsible for managing access, attributes, and updates of the Autodesk Collaborate Pro collaboration platform. We have extensive experience working with Autodesk and serve as a technical advisor to their Water Advisory Council for industry guidance and leadership.

The GFT team has members in the Autodesk Expert Elite program, where users are recognized for their contributions to the software community and provide instructors to Autodesk University. Our engineering technology division support every design team to from planning, setup and execution of BIM models in Autodesk platforms.

For the City of Hollywood, we proposed design platforms including Revit, Inventor, AutoCAD Plant 3D, Civil 3D, AutoCAD MEP, Autodesk BIM 360 online tools, providing realistic representations of a project at each stage of project and encouraging innovation and collaboration throughout its lifecycle. We will continue to comply with your deliverable requirements in the AutoCAD format anticipated by the City. These design tools are standard to produce efficient drainage utility, pump stations, or other stormwater facilities.

E.5.5 GIS

GFT is an Esri® Release Ready Platinum Partner and has experience implementing in-depth location analytics, utility network, and adding robust asset management systems can dramatically increase the value of your operations. For utility projects, we use Esri's ArcGIS Utility Network is a GIS for water distribution systems that displays the components that make up a utility in a detailed yet simple-to-understand interactive visual. For water distribution systems, these components would include mains, valves, pressure zones, fittings, and other field assets. The ArcGIS Utility Network also allows to build real-world behavior into the features you model. It can take complex structures such as pump stations and backflow systems and show them as a single unit, or it can open them up to view all the detailed assets within.

E.5.6. Notify

GeoDecisions, GFT's geospatial division, has decades of experience developing innovative solutions for local, state, federal, and private clients. One of the premier products GeoDecisions has developed, Notify, was built initially for the water industry. Notify is an advanced, high-speed alert notification system designed to deliver mass voice, text, and email messages to utilities, businesses, communities, and schools within

minutes. It is flexible enough to be used as the primary customer and employee communications platform for your organization. This web-based solution leverages your organization's existing customers, employees, and GIS mapping information to distribute critical information during an emergency quickly and securely. Combining Notify and Utility Network allows users to identify or isolate the clients impacted by a water main break or other issue. Notify will send text, email, or voice messages within minutes to these clients to provide additional information or directions. In addition to Notify, GeoDecisions has developed several other custom applications and products including field collection tools, dashboards, a vehicle tracking application (Track) and GeoPlan.

E.5.7. Cybersecurity

GFT's Security and Safety business line was founded in 2005 to serve all of the critical infrastructure markets that GFT supports. From a staff of two to now more than 30 professional security and safety personnel, our team's vision is to be a driving force in improving the security, safety, emergency preparedness and resiliency of our clients, communities, and their supporting infrastructure. We can provide a detailed understanding of the City's compliance to the industry standards for cybersecurity, and help streamline their system so that it remains consistent, repeatable, and defensible, allowing the City to be confident in understanding the cybersecurity risks to your system.

Figure E-7. Cybersecurity. We conduct cybersecurity assessments of clients' operation technology infrastructure according to the National Institute of Science and Technology (NIST) Risk Management Framework (RMF) and Cybersecurity Framework (CSF), AWWA Cybersecurity Assessment Guidance and Tool.

E.5.8. Drone Evaluation and Inspection

GFT has implemented drone technology on more than 100 projects, helping us to minimize inspection hours. We are using drones on some of our on-going projects with FDOT in South Florida. Drones can inspect areas with difficult access and conduct vertical inspection where there are safety concerns. We also use drones with LiDAR technology to track field quantities, conduct land surveys, and collect data for as-built and post-construction asset management programs.

E.5.9. Virtual Reality (VR) and Augmented Reality (AR)

Virtual and augmented reality is integral to some of our major construction projects. We recently implemented VR technology on a large facility project in northern Virginia, where we performed constructability reviews during design. The owner/operators were able to tour the facility in VR, which allowed them to identify potential conflicts with equipment operability. We have also been piloting augmented reality hardware on our design and construction projects. Our field inspectors use iPad cameras to capture a composite view of the real world overlaid with the 2D or 3xD design, which helps them quickly identify work that is out of compliance and/or admissible for punchlist development. Our inspectors are equipped with tablets that can support BIM 360 models, and the

3D views allow both the inspector and contractor to easily identify and articulate potential conflicts with the designers.

E.5.10. 360 Cameras and Time-Lapsed Videos

Using 360 cameras on linear projects to document site conditions during preconstruction surveys allows us to thoroughly evaluate site conditions and provide accurate data for claim reviews. 360 scanners on facility projects (with unavailable as-builts) document dimensions and proximity of objects to create accurate as-built conditions. Data is more readily available with time-lapsed videos when compared to tracking daily work reports, which helps us efficiently track contractors' down time during claim and change-orders evaluation associated with time extension request.

E.6. PROPOSED SCHEDULING METHODOLOGY

For tasks assigned, our team will prepare and submit for review and approval, a project management control schedule, in Gantt Chart format, using MS Project software which will incorporate all the work elements defined in the negotiated contract documents. The draft schedule will include all tasks and milestones necessary to provide an approved Bid-Ready Package, including

Figure E-8. VR/AR. Reality capture is integral to some of our major construction projects.

the necessary permits, by the date to be specified by the City. We will submit the schedule to the City's Project Manager promptly on notice to proceed (NTP). The schedule will be maintained on interactive eBuilder Microsoft Project Scheduler. Allowances for City review will also be included as determined in final contract negotiations.

E.6.1. Respond Quickly to Task Assignments

Smaller task order assignments must often be addressed quickly and efficiently—particularly when they are in response to emergency or urgent requests. This is not an uncommon occurrence for us. Our clients often use us as an extension of staff, and clients also use us for urgent needs. The task is initiated with a simple purchase order type of contract.

On some task order agreements, we include contingency “un-opened” tasks to be used to address urgent tasks without the need for additional paperwork. Owner risk is minimal because these tasks are typically of short duration where little budget can be expended.

E.6.2. Ability to Complete Tasks on Accelerated Schedules

GFT can reach hundreds of employees with water utility experience at all levels: from planning to CAD design details. Our Program Leads, with decades of municipal utility experience, have experience with tasks requiring accelerated schedules. Our schedule tracking process allows us to evaluate whether we are performing on time and if we need to make any adjustments to rectify any instances when we are not meeting

schedule requirements. Additionally, if warranted and feasible, we can embed staff in the City. This will reduce costs, improve communications and accessibility, and truly extend your staff.

E.7. APPROACH TO SCALABILITY

Our staff has become adept at understanding and implementing multiple concurrent projects while meeting our clients' unique needs. We typically structure our continuing service contract teams to include several Task Leads, so we can undertake multiple task orders concurrently. We are extraordinarily successful in serving our many and varied clients through this method of service delivery by bringing leadership and comprehensive resources to each assignment. We understand the significant coordination needed on these types of contracts with the various entities and key stakeholders. Our knowledge and understanding will guide our design and construction approach to achieve clear and effective coordination and gain support from all affected parties to enhance the likelihood of a successful project outcome that meets the program schedule.

So we can effectively manage and complete multiple concurrent task orders, GFT will identify Task Leads for each assigned work order. These individuals can use the support staff to perform services under each task order assignment. We can also provide efficiency during task order execution. On previous similar contracts, we have minimized project start-up time by assigning similar task managers, discussing several task orders at one kick-off or progress meeting, and using experienced team members with similar project knowledge and experience. We adjust to our client's needs to meet budget, schedule, and regulatory requirements for each task order.

TAB F

**KNOWLEDGE OF SITE
AND LOCAL CONDITIONS**

KNOWLEDGE OF SITE AND LOCAL CONDITIONS

F.1. KNOWLEDGE OF SITE, REQUIREMENTS, CODES, AND ORDINANCES

Gannett Fleming, Inc. (now known as GFT Infrastructure, Inc.) brings in-depth familiarity with local codes, ordinances, permitting processes, and site-specific requirements that will directly inform the successful execution of stormwater projects across all phases of the program.

As PgM, we will endeavor for every project—whether a long-term capital improvement, urgent interim task, or renewal and replacement effort—to comply with the City of Hollywood Code of Ordinances Chapter 54, which governs the City’s Stormwater Utility. This chapter sets the foundation for stormwater system operation, funding, and maintenance, and aligns directly with the SWMP’s goals of reducing flooding, improving water quality, and building long-term resilience.

Our team is fluent in the City’s Land Development Regulations (LDRs), including Article VII – Site Development Standards, which establish minimum criteria for stormwater infrastructure design, such as retention requirements, system sizing, and elevation thresholds. These standards are critical to managing the program’s portfolio of projects in areas with high groundwater tables, and coastal exposure—such as the Hollywood Lakes, South Lake, and Boulevard Heights neighborhoods.

As the City’s representative, GFT will oversee design consistency and permitting compliance across all task orders. This includes verifying projects align with the City of Hollywood Engineering Design Standards and Specifications Manual, as well as with Broward County Ordinance Chapter 27, Article V governing surface water management. Where feasible, we will integrate LID features such as swales, pervious surfaces, and recharge systems to complement the City’s NPDES permit and TMDL compliance strategies.

During construction management, GFT enforces compliance with erosion and sedimentation controls under Chapter 151 and construction activity regulations in Chapter 100, ensuring that all field activities align with the City’s expectations for safety, environmental protection, and public communication. Our internal QA/QC processes and field protocols will verify that infrastructure is delivered in accordance with the City’s restoration and inspection standards and is eligible for acceptance and long-term.

F.2. EXPERIENCE WORKING IN LOCAL AREAS

GFT has extensive experience delivering complex infrastructure projects in South Florida’s low-elevation, hurricane-prone environments, where storm surge, SLR, high groundwater levels, and extreme wind forces must be addressed through every phase of planning, design, permitting, and construction.

Our team is deeply familiar with the unique environmental, geotechnical, and regulatory challenges that shape infrastructure delivery in these sensitive coastal regions.

Our work spans multiple municipalities and counties, including the City of Hollywood, Miami-Dade County, Broward County, North Bay Village, and the City of North Miami, and many more beyond South Florida and throughout the eastern United States and includes stormwater pump stations, large-diameter culverts, regional drainage upgrades, and wastewater treatment infrastructure—all designed with an emphasis on resilience and regulatory compliance.

For example, GFT led the engineering, permitting, and construction support for a stormwater pump stations in the Lake Belmar neighborhood of Miami-Dade County and for North Bay Village,

both areas highly vulnerable to coastal flooding and storm surge. The project involved:

- Elevated design of all critical infrastructure—including control panels, generators, and fuel storage—above Category 5 hurricane surge levels
- An energy-dissipating outfall structure and new seawall at Biscayne Bay to prevent shoreline erosion
- Integration of a multi-stage filtration system to reduce nutrient loading from stormwater runoff into the Bay
- Coordination with key regulatory agencies including USACE, SFWMD, and Miami-Dade Building Department

In the City of Hollywood, GFT provided full design lifecycle services for a critical stormwater culvert installation on Johnson Street, enhancing flood protection and connectivity between FDOT and City stormwater systems. The culvert was hydraulically modeled for 83 cfs under a 10-year storm event, carefully designed to pass beneath existing utilities and integrated with reinforced concrete end structures. This location, adjacent to flood-prone swales and low-lying parklands, requires close coordination with FDOT and City agencies to ensure long-term functionality under extreme rainfall and high groundwater conditions.

Additionally, GFT plays a vital role in MDWASD's major infrastructure programs:

- As part of the OOL Program, we managed design and construction support for the NE-1 75 mgd Injection Wells and Pump Station, located in a coastal flood zone and requiring detailed planning for flood protection, stormwater systems, and municipal permitting
- Under the CD Program, GFT has led program management, permitting oversight, QA/QC, and engineering review for collection system and treatment facility upgrades in high-risk flood and hurricane impact zones

SPOTLIGHT PROJECT

Countywide SWMP Update

Miami-Dade County Department of RER

We also supported Miami-Dade County's Department of RER in updating the Countywide SWMP, which included:

- Creation of vulnerability assessment maps for low-elevation basins
- Integration of groundwater and SLR projections into stormwater and septic risk models
- GIS support for managing more than 40,000 elevation certificates and developing countywide elevation and flood mitigation databases
- Spatial analysis for canal bank enhancements, critical facility mapping, and FEMA compliance

F.3. KNOWLEDGE OF LOCAL PERMITTING AGENCIES, PROCEDURES, & TESTING PROTOCOLS

GFT has a history of delivering projects in Florida for more than 60 years, which has allowed us to gain a comprehensive understanding of local and state permitting processes and regulatory requirements for infrastructure projects. From the CD Program and OOL Program in Miami Dade County to various stormwater improvement projects for City of Hollywood like the Johnson St. Culvert, and stormwater pump station projects throughout South Florida, GFT has a proven track record navigating the multi-layered permitting processes required at the municipal, county, regional, and state levels, ensuring that projects are delivered efficiently, in full compliance, and without delays.

GFT's deep understanding of local topography, regional hydrology, and climate vulnerabilities—combined with our established relationships with local permitting agencies and stakeholders—positions us to proactively guide clients through each step of the infrastructure delivery process. Our ability to anticipate site-specific flood risks, design for long-term wind and water resilience, and navigate complex permitting environments ensures that the infrastructure we deliver is not only technically-sound, but climate-ready and community-centered.

In Hollywood, stormwater projects typically require coordination with the City's Department of Public Utilities, as well as external agencies such as Broward County Environmental Engineering and Permitting Division, SFWMD, and in some cases FDEP. We understand the County's delegation agreement with SFWMD, which requires Environmental Resource Permits (ERP) for projects with significant land disturbance or impervious surface area. Additionally, we are well-versed in the Broward County Surface Water Management Licensing Program, which mandates permits for any construction activity that alters natural surface water flow.

Our team is familiar with the Environmental Review Approval (ERA) process required prior to the issuance of building permits and has successfully supported clients through conceptual permit applications for system-wide stormwater improvements, followed by phased construction and operational permits.

Equally important, we have in-depth knowledge of the testing standards and inspection protocols necessary for stormwater infrastructure in Hollywood. This includes conformance with FDOT and Broward County stormwater design criteria, adherence to standard operating procedures for pipe, structure, and outfall inspections, and coordination of as-built surveys, CCTV inspections, and post-construction hydrologic testing as required for permit closeout and system acceptance.

F.4. EXPERIENCE WORKING WITH COMPLEX LOGISTICAL CHALLENGES

GFT's experience in delivering programs and infrastructure projects in densely developed urban areas and sensitive environments, where public safety, coordination with occupied facilities, and stringent safety protocols are paramount. Our team consistently addresses complex logistical challenges by implementing well-defined planning, communication, and construction sequencing strategies that minimize disruption and maintain safety for the public, workers, and adjacent stakeholders.

Similarly, our design and oversight role in the Lake Belmar Stormwater Pump Station project for Miami-Dade County DTPW involved a complex site within a constrained ROW, directly adjacent to residential neighborhoods and near Biscayne Bay. This required:

- Detailed staging plans to minimize disruptions in a high-visibility area
- Implementation of environmental and storm surge protection measures

SPOTLIGHT PROJECT

Johnson Street Stormwater Culvert *City of Hollywood*

In the City of Hollywood, our work on the Johnson Street Stormwater Culvert Installation required careful coordination across multiple public-facing and utility-impacted corridors. The installation of a 140 LF reinforced concrete culvert beneath an active roadway—surrounded by residential neighborhoods, FDOT infrastructure, and public parklands—demanded constructability evaluations, and careful traffic control coordination to provide uninterrupted public access and mitigate risk, our team developed and supported:

- Maintenance of Traffic (MOT) plans
- Utility coordination and protection strategies
- Construction sequencing to limit roadway closures

- Installation of standby power systems and elevated equipment to preserve operation during storm events while maintaining safe access for crews and emergency responders
- Supporting stakeholder communications and public meetings to discuss project impacts and mitigation strategies

As part of the MDWASD OOL and CD Programs, GFT has worked on multiple infrastructure upgrades at active wastewater treatment facilities. These projects require:

- Coordination with facility operations teams to maintain uninterrupted service
- Strict adherence to confined space, electrical, and trenching safety protocols
- Scheduling of construction activities around peak demand periods and community access windows

Our ability to successfully manage these logistical and safety challenges stems from our collaborative project management approach, deep understanding of local conditions, and commitment to protecting the public, our workers, and the environment during the delivery of essential stormwater infrastructure.

SUB CONSULTANT INFORMATION

SUB CONSULTANT INFORMATION

Our sub consultants complement our comprehensive team with locally based, qualified personnel and extensive prior municipal experience in specialty disciplines needed to successfully complete the potential projects under this program.

Gannett Fleming, Inc. (now known as GFT Infrastructure, Inc.) has engaged subconsultant firms with the right experience, knowledge, qualifications, and commitment to address the infrastructure needs of the City of Hollywood. All members of our team will leverage a shared vision of teamwork, innovation, and proven approaches to deliver accurate, easily accessible results across a project's life-span. We strategically built our team with seven businesses, including Broward County-certified minority businesses. Each offers services that enhance our capabilities to anticipate and meet the contract requirements and the City's program goals. We also understand with federal funding, certification, reporting, and goal setting, to include diverse firms in contracting and subcontracting maybe be required. If so, GFT will verify compliance with our subconsultants and federal funding requirements.

GFT has significant experience in managing multiple subconsultants under large program and task order contracts. We understand that we are ultimately accountable for the performance of our subconsultants and treat them as an extension of our staff so you receive quality services.

Our approach to managing subconsultants includes:

- ✓ Selecting qualified and experienced subconsultants with whom we have previously worked or with a known quality reputation
- ✓ Having a subcontractor agreement detailing subconsultants scope of services, deliverables, schedules, and budget
- ✓ Maintaining regular communication and conducting periodic audits of work products
- ✓ Requiring adherence to our quality assurance policies and procedures

AREHNA | Engineering, Inc.

- Certified Business Enterprise with Broward County, FDOT DBE and SBE, and Certified WBE with the State of Florida Office of Supplier Diversity
- Providing innovative and comprehensive geotechnical and structural forensic engineering throughout the state
- Extensive experience in Broward County, including with the City of Hollywood

Engineering & Design

- Have been providing Surveying/SUE and other engineering services since 1984
- Working for similar clients in FL for the past 11 years
- Experience collaborating with GFT for nearly 10 years

Compass Point
surveyors

- Certified Business Enterprise with Broward County and SFWMD
- Providing surveying services for stormwater/storm sewer projects for City of Fort Lauderdale and Pompano Beach
- Team brings nearly 80 years of field and office surveying experience

- 26K+ SUE projects completed
- Bring decades of experience, industry expertise and specified focus
- SUE Quality Level A-D capabilities, as well as underwater location, utility coordination, GIS support, and aerial pole data

Media Relations Group, LLC

- Certified woman-owned Public Information Company, specializing in public and private sector public involvement campaigns
- Experience with the City of Hollywood, Broward Metropolitan Planning Organization (BMPO), City of Fort Lauderdale and FDOT District Four within Broward County
- Long-standing relationship with GFT starting in 2004

- Certified Small and Disadvantaged Business with Broward County
- Providing MEP solutions to Florida communities and their water and wastewater systems since 2008
- Extensive experience in Broward County, including with the City of Hollywood

- Portfolio ranges from small, localized improvements to regionally significant, large-scale infrastructure projects
- Nearly 15 years of experience providing H&H modeling, drainage design, and permitting (FDOT and local agencies)
- No. 1-ranked firm in Planning, PD&E, and Design by FDOT over the past two fiscal years

- Provide regulatory guidance and funding support for condition assessments, operations evaluations, adequacy of the capital improvement program, and renewal and replacement for water and wastewater infrastructure
- Bring connections throughout Florida's legislative, executive, and local government spheres

REQUIRED FORMS

REQUESTED MODIFICATIONS TO RFQ REQUIREMENTS/OPENGOV LANGUAGE

Due to inherent limitations of OpenGov, Gannett Fleming, Inc. (now known as GFT Infrastructure, Inc.) has accepted and confirmed all language in order to submit this Statement of Qualifications. GFT kindly requests the modification of the following language:

Section 9.12 Competency of the Proposers

For the City Attorney's consideration, we kindly request modifying the first paragraph under Section 9.12 Competency of the Proposers in the RFQ for compliance with industry professional liability insurance as established under the law. We understand that this request will require effort and coordination, thus understand that this clarification can be carried out in the next phase of this solicitation:

RFQ Language:

Pre-award inspection of the Proposer's facility may be made prior to the award of a contract. Bids/proposals will be considered only from firms which are regularly engaged in the business of providing the goods and/or services as described in this SOLICITATION(s); have a record of performance for a reasonable period of time; and have sufficient financial support, equipment and organization to ensure that they can satisfactorily deliver the material and/or services if awarded a Contract under the terms and conditions herein stated. The terms "equipment and organization" as used herein shall be construed to mean a fully equipped and well established company in line with the best business practices in the industry and as determined by the proper authorities of the City.

Proposed Modification:

Pre-award inspection of the Proposer's facility may be made prior to the award of a contract. Bids/ proposals will be considered only from firms which are regularly engaged in the business of providing the goods and/or services as described in this SOLICITATION(s); have a record of performance for a reasonable period of time; and have sufficient financial support, equipment and organization to deliver the material and/or services if awarded a Contract under the terms and conditions herein stated. The terms "equipment and organization" as used herein shall be construed to mean a fully equipped and well established company in line with performing in accordance with the "Standard of Care."

Sections 9.46 Indemnification and Hold Harmless Agreement and 8.3.2 Hold Harmless and Indemnity Clause

For the City Attorney's clarification, please clarify Sections 9.46 Indemnification and Hold Harmless Agreement in the RFQ and 8.3.2 Hold Harmless and Indemnity Clause in the Vendor Questionnaire. We request clarification as to the intent on incorporation of provisions into the agreement.

For the City Attorney's consideration, we kindly request modifying the paragraph under Section 9.46 Indemnification and Hold Harmless Agreement in the RFQ. We understand that this request will require effort and coordination, thus understand that this clarification can be carried out in the next phase of this solicitation.

RFQ Language:

The Contractor shall indemnify and hold harmless the City of Hollywood and its officers, employees, agents and instrumentalities from any and all liability, losses or damages. In addition, the City shall be entitled to attorney's fees and costs of defense, which the City of Hollywood, or its officers, employees, agents or instrumentalities may incur as a result of claims, demands, suits, causes of actions or proceedings of any kind or nature arising out of, relating to or resulting from the performance of this project by the awarded proposer or its employees, agents, servants, partners, principals or subcontractors. Furthermore, the awarded proposer shall pay all claims and losses

in connection therewith and shall investigate and defend all claims, suits or actions of any kind of nature in the name of the City of Hollywood, where applicable, including appellate proceedings, and shall pay all costs, judgments, and attorney's fees which may issue thereon.

The awarded proposer expressly understands and agrees that any insurance protection required by the resulting agreement or otherwise provided by the awarded proposer shall cover the City of Hollywood, its officers, employees, agents and instrumentalities and shall include claims for damages resulting from and/or caused by the negligence, recklessness or intentional wrongful misconduct of the Contractor and persons employed by or utilized by the Contractor in the performance of the contract.

Proposed Modification:

The Contractor shall indemnify and hold harmless the City of Hollywood and its officers, employees, designated agents and instrumentalities from liability, losses or damages to the extent caused by the Contractor's negligent acts, errors, or omissions. In addition, the City shall be entitled to reasonable attorney's fees and costs of defense, which the City of Hollywood, or its officers, employees, designated agents or instrumentalities incur as a result of the negligent performance of this project by the Contractor or its employees, agents, servants, partners, principals or subcontractors. Furthermore, the Contractor shall pay losses to the extent of the Contractor's negligence in connection therewith and shall investigate and defend (except as limited below) claims, suits or actions in the name of the City of Hollywood, where applicable, including appellate proceedings, and shall pay costs, judgments, and reasonable attorney's fees to the extent caused by the Contractor's negligence. The Contractor expressly understands and agrees that any insurance protection required by the resulting agreement or otherwise provided by the Contractor shall cover the City of Hollywood, its officers, employees, designated agents and instrumentalities and shall include claims for damages to the extent caused by the negligence, recklessness or intentional wrongful misconduct of the Contractor and persons employed by or utilized by the Contractor in the performance of the contract. The aforementioned duty to defend shall not apply to claims for damages of a professional nature or to claims that would be subject to coverage under the Contractor's professional liability insurance policy.

Section 9.57 Nature of The Agreement

For the City Attorney's consideration, we kindly request modifying the fourth paragraph under Section 9.57 Nature of The Agreement in the RFQ for inclusion of the "Standard of Care" definition. We respectfully request the addition of this definition in accordance with industry professional liability insurance established using the standard upheld under the law. We understand that this request will require effort and coordination, thus understand that this clarification can be carried out in the next phase of this solicitation.

RFQ Language:

The Proposer shall furnish all labor, materials, tools, supplies, and other items required to perform the work and services that are necessary for the completion of this Contract. All work and services shall be accomplished at the direction of and to the satisfaction of the City's Project Manager.

Proposed Modification:

The Proposer shall furnish all labor, materials, tools, supplies, and other items required to perform the work and services that are necessary for the completion of this Contract. All work and services shall be accomplished with that degree of care and skill ordinarily exercised by members of the same profession currently practicing under similar conditions at the same time and locality of the Project (the "Standard of Care") at the direction of the City's Project Manager.

FORM 1

SUBMITTAL CHECKLIST FORM

The items below are required components of your solicitation response in order for your bid/proposal/submittal to be considered responsive and responsible. Please complete and submit this submittal checklist form as the cover page of your submittal with all of the items below in the order listed.

Please indicate Yes or No in the "Submitted (Yes/No)" column below to indicate which required components were provided with your submittal.

Submitted (Yes/No)	Required Bid Components
	This Submittal Checklist Form completed and included as the cover page of your submittal.
	A Table of Contents that clearly identifies each section and page number of your submittal.
	Information and/or documentation that addresses and/or meets the requirements outlined in Section III – Scope of Work/Services, including any procedural or technical enhancements/innovations which do not materially deviate from the objectives or required content of the Scope of Work/Services.
	Forms (Completed) Form 1 Submittal Checklist Form* Form 2 Acknowledgement and Signature Page Form 3 Bid Form* Form 4 Vendor Reference Form* Form 5 Hold Harmless and Indemnity Clause Form 6 Non-Collusion Affidavit Form 7 Sworn Statement...Public Entity Crimes Form 8 Certifications Regarding Debarment... Form 9 Drug-Free Workplace Program Form 10 Solicitation, Giving, and Acceptance... Form 11 W-9 (Request for Taxpayer Identification)
	Certificate(s) of insurance that meet the requirements of Section 2.17
	Proof of State of Florida Sunbiz Registration

This checklist is only a guide, please read the entire solicitation to ensure that your submission includes all required information and documentation.

FORM 2

ACKNOWLEDGMENT AND SIGNATURE PAGE

This form must be completed and submitted by the date and the time of bid opening.

Legal Company Name (include d/b/a if applicable): Gannett Fleming, Inc. (now known as GFT Infrastructure, Inc.)

If Corporation - Date Incorporated/Organized: 10/13/1989 Federal Tax Identification Number: 25-1613591

State Incorporated/Organized: Delaware

Company's Internet Web Address: gftinc.com

IT IS HEREBY CERTIFIED AND AFFIRMED THAT THE BIDDER/PROPOSER CERTIFIES ACCEPTANCE OF THE TERMS, CONDITIONS, SPECIFICATIONS, ATTACHMENTS AND ANY ADDENDA. THE BIDDER/PROPOSER SHALL ACCEPT ANY AWARDS MADE AS A RESULT OF THIS SOLICITATION. BIDDER/PROPOSER FURTHER AGREES THAT PRICES QUOTED WILL REMAIN FIXED FOR THE PERIOD OF TIME STATED IN THE SOLICITATION.

Bidder/Proposer's Authorized Representative's Signature:  Date: 7/2/2025

Type or Print Name: Yurfa Glenny, PMP, ENV SP, Vice President

THE EXECUTION OF THIS FORM CONSTITUTES THE UNEQUIVOCAL OFFER OF BIDDER/PROPOSER TO BE BOUND BY THE TERMS OF ITS PROPOSAL. FAILURE TO SIGN THIS SOLICITATION WHERE INDICATED BY AN AUTHORIZED REPRESENTATIVE SHALL RENDER THE BID/PROPOSAL NON-RESPONSIVE. THE CITY MAY, HOWEVER, IN ITS SOLE DISCRETION, ACCEPT ANY BID/PROPOSAL THAT INCLUDES AN EXECUTED DOCUMENT WHICH UNEQUIVOCALLY BINDS THE BIDDER/PROPOSER TO THE TERMS OF ITS OFFER.

SUBMISSION

How to submit bids/proposals: Vendor's solicitation response may be submitted electronically through BidSync, the City's designated electronic bidding system, or by mail or hand delivery to the address noted above. It is the Vendor's sole responsibility to assure its response is submitted and received by the date and time specified in the solicitation. Any timeframe references are in Eastern Standard Time. The official time for electronic submittals is BidSync's servers, as synchronized with the atomic clock. All parties without reservation will accept the official time.

Important Notice:

The Procurement Services Division shall distribute all official changes, modifications, responses to questions or notices relating to the requirements of this document. Any other information of any kind from any other source shall not be considered official, and bidders relying on other information do so at their own risk.

The responsibility for submitting a bid/proposal on or before the time and date is solely and strictly the responsibility of the bidder/proposer, the City will in no way be responsible for delays caused by technical difficulty or caused by any other occurrence. No part of a bid/proposal can be submitted via FAX or via direct Email to the City. No variation in price or conditions shall be permitted based upon a claim of ignorance.

FORM 7

SWORN STATEMENT PURSUANT TO SECTION 287.133 (3) (a) FLORIDA STATUTES ON PUBLIC ENTITY CRIMES

THIS FORM MUST BE SIGNED AND SWORN TO IN THE PRESENCE OF A NOTARY
PUBLIC OR OTHER OFFICIAL AUTHORIZED TO ADMINISTER OATHS

1. This form statement is submitted to the City of Hollywood by
Yurfa Glenny, PMP, ENV SP, Vice President for Gannett Fleming, Inc. (now known as GFT Infrastructure, Inc.)
(Print individual's name and title) (Print name of entity submitting sworn statement)
whose business address is
800 NW 62nd Avenue, Suite 490, Miami, FL 33126

and if applicable its Federal Employer Identification Number (FEIN) is 25-1613591. If the
entity has no FEIN, include the Social Security Number of the individual signing this sworn
statement.

-
2. I understand that "public entity crime," as defined in paragraph 287.133(1)(g), Florida Statutes, means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or with the United States, including, but not limited to, any bid, proposal, reply, or contract for goods or services, any lease for real property, or any contract for the construction or repair of a public building or public work, involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misinterpretation.
3. I understand that "convicted" or "conviction" as defined in Paragraph 287.133(1)(b), Florida Statutes, means a finding of guilt or a conviction of a public entity crime, with or without an adjudication of guilt, in an federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, nonjury trial, or entry of a plea of guilty or nolo contendere.
4. I understand that "Affiliate," as defined in paragraph 287.133(1)(a), Florida Statutes, means:
1. A predecessor or successor of a person convicted of a public entity crime, or
 2. An entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public entity crime. The term "affiliate" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

5 I understand that "person," as defined in Paragraph 287.133(1)(e), Florida Statutes, means any natural person or any entity organized under the laws of any state or of the

United States with the legal power to enter into a binding contract and which bids or applies to bid on contracts let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, executives, partners, shareholders, employees, members, and agents who are active in management of an entity.

6. Based on information and belief, the statement which I have marked below is true in relation to the entity submitting this sworn statement. (Please indicate which statement applies.)

☒ Neither the entity submitting sworn statement, nor any of its officers, director, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, nor any affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

☐ The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

☐ The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime, but the Final Order entered by the Hearing Officer in a subsequent proceeding before a Hearing Officer of the State of the State of Florida,

Division of Administrative Hearings, determined that it was not in the public interest to place the entity submitting this sworn statement on the convicted vendor list. (attach a copy of the Final Order).

I UNDERSTAND THAT THE SUBMISSION OF THIS FORM TO THE CONTRACTING OFFICER FOR THE PUBLIC ENTITY IDENTIFIED IN PARAGRAPH 1 (ONE) ABOVE IS FOR THAT PUBLIC ENTITY ONLY AND THAT THIS FORM IS VALID THROUGH DECEMBER 31 OF THE CALENDAR YEAR IN WHICH IT IS FILED. I ALSO UNDERSTAND THAT I AM REQUIRED TO INFORM THAT PUBLIC ENTITY PRIOR TO ENTERING INTO A CONTRACT IN EXCESS OF THE THRESHOLD AMOUNT PROVIDED IN SECTION 287.017 FLORIDA STATUTES FOR A CATEGORY TWO OF ANY CHANGE IN THE INFORMATION CONTAINED IN THIS FORM.

DRUG-FREE WORKPLACE PROGRAM

IDENTICAL TIE PROPOSALS - Preference shall be given to businesses with drug-free workplace programs. Whenever two or more bids which are equal with respect to price, quality, and service are received by the State or by any political subdivision for the procurement of commodities or contractual services, a bid received from a business that certifies that it has implemented a drug-free workplace program shall be given preference in the award process. Established procedures for processing tie proposals will be followed if none of the tied vendors have a drug-free workplace program. In order to have a drug-free workplace program, a business shall:

1. Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.
2. Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violations.
3. Give each employee engaged in providing the commodities or contractual services that are under bid a copy of the statement specified in subsection (1).
4. In the statement specified in subsection (1), notify the employee that, as a condition of working on the commodities or contractual services that are under bid, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.
5. Impose a sanction on, or require the satisfactory participation in a drug abuse assistance or rehabilitation program (if such is available in the employee's community) by, any employee who is so convicted.
6. Make a good faith effort to continue to maintain a drug-free workplace through implementation of these requirements.

As the person authorized to sign the statement, I certify that this firm complies fully with the above requirements.

FORM 10

SOLICITATION, GIVING, AND ACCEPTANCE OF GIFTS POLICY

Florida Statute 112.313 prohibits the solicitation or acceptance of Gifts. "No Public officer, employee of an agency, local government attorney, or candidate for nomination or election shall solicit or accept anything of value to the recipient, including a gift, loan, reward, promise of future employment, favor, or service, based upon any understanding that the vote, official action, or judgment of the public officer, employee, local government attorney, or candidate would be influenced thereby." The term "public officer" includes "any person elected or appointed to hold office in any agency, including any person serving on an advisory body."

The City of Hollywood/Hollywood CRA policy prohibits all public officers, elected or appointed, all employees, and their families from accepting any gifts of any value, either directly or indirectly, from any contractor, vendor, consultant, or business with whom the City/CRA does business.

The State of Florida definition of "gifts" includes the following:

- Real property or its use,
- Tangible or intangible personal property, or its use,
- A preferential rate or terms on a debt, loan, goods, or services,
- Forgiveness of indebtedness,
- Transportation, lodging, or parking,
- Food or beverage,
- Membership dues,
- Entrance fees, admission fees, or tickets to events, performances, or facilities,
- Plants, flowers or floral arrangements
- Services provided by persons pursuant to a professional license or certificate.
- Other personal services for which a fee is normally charged by the person providing the services.
- Any other similar service or thing having an attributable value not already provided for in this section.

Any contractor, vendor, consultant, or business found to have given a gift to a public officer or employee, or his/her family, will be subject to dismissal or revocation of contract.

As the person authorized to sign the statement, I certify that this firm will comply fully with this policy.

**Request for Taxpayer
Identification Number and Certification**

Go to www.irs.gov/FormW9 for instructions and the latest information.

**Give form to the
requester. Do not
send to the IRS.**

Before you begin. For guidance related to the purpose of Form W-9, see *Purpose of Form*, below.

Print or type. See Specific Instructions on page 3.	1 Name of entity/individual. An entry is required. (For a sole proprietor or disregarded entity, enter the owner's name on line 1, and enter the business/disregarded entity's name on line 2.) GFT Infrastructure, Inc.	
	2 Business name/disregarded entity name, if different from above.	
	3a Check the appropriate box for federal tax classification of the entity/individual whose name is entered on line 1. Check only one of the following seven boxes. ☐ Individual/sole proprietor ☒ C corporation ☐ S corporation ☐ Partnership ☐ Trust/estate ☐ LLC. Enter the tax classification (C = C corporation, S = S corporation, P = Partnership) Note: Check the "LLC" box above and, in the entry space, enter the appropriate code (C, S, or P) for the tax classification of the LLC, unless it is a disregarded entity. A disregarded entity should instead check the appropriate box for the tax classification of its owner. ☐ Other (see instructions)	4 Exemptions (codes apply only to certain entities, not individuals; see instructions on page 3): Exempt payee code (if any) <u>5</u> Exemption from Foreign Account Tax Compliance Act (FATCA) reporting code (if any) (Applies to accounts maintained outside the United States.)
	3b If on line 3a you checked "Partnership" or "Trust/estate," or checked "LLC" and entered "P" as its tax classification, and you are providing this form to a partnership, trust, or estate in which you have an ownership interest, check this box if you have any foreign partners, owners, or beneficiaries. See instructions ☐	
	5 Address (number, street, and apt. or suite no.). See instructions. 300 Sterling Parkway Suite 200 6 City, state, and ZIP code Mechanicsburg, PA 17050-2902 7 List account number(s) here (optional)	Requester's name and address (optional)

Part I Taxpayer Identification Number (TIN) Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the instructions for Part I, later. For other entities, it is your employer identification number (EIN). If you do not have a number, see <i>How to get a TIN</i> , later. Note: If the account is in more than one name, see the instructions for line 1. See also <i>What Name and Number To Give the Requester</i> for guidelines on whose number to enter.	Social security number or Employer identification number 25-1613591
--	---

Part II Certification Under penalties of perjury, I certify that: 1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and 2. I am not subject to backup withholding because (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and 3. I am a U.S. citizen or other U.S. person (defined below); and 4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct. Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and, generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions for Part II, later.	Signature of U.S. person  Date 6/25/2025
---	---

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to www.irs.gov/FormW9.

What's New

Line 3a has been modified to clarify how a disregarded entity completes this line. An LLC that is a disregarded entity should check the appropriate box for the tax classification of its owner. Otherwise, it should check the "LLC" box and enter its appropriate tax classification.

New line 3b has been added to this form. A flow-through entity is required to complete this line to indicate that it has direct or indirect foreign partners, owners, or beneficiaries when it provides the Form W-9 to another flow-through entity in which it has an ownership interest. This change is intended to provide a flow-through entity with information regarding the status of its indirect foreign partners, owners, or beneficiaries, so that it can satisfy any applicable reporting requirements. For example, a partnership that has any indirect foreign partners may be required to complete Schedules K-2 and K-3. See the Partnership Instructions for Schedules K-2 and K-3 (Form 1065).

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS is giving you this form because they

PROPOSAL

TO THE MAYOR AND COMMISSIONERS
CITY OF HOLLYWOOD, FLORIDA

SUBMITTED June 25, 2025

Dear Mayor and Commissioners:

The undersigned, as BIDDER, hereby declares that the only person or persons interested in the Proposal as principal or principals is or are named herein and that no other person than herein mentioned has any interest in this Proposal or in the Contract to be entered into; that this Proposal is made without connection with any other person, company or parties making a Bid or Proposal; and that it is in all respects fair and in good faith without collusion or fraud.

The BIDDER further declares that he has examined the site of the Work and informed himself fully in regard to all conditions pertaining to the place where the Work is to be done; that he has examined the Drawings and Specifications for the Work and contractual documents relative thereto, including the Notice to Bidders, Instructions to Bidders, Proposal Bid Form, Form of Bid Bond, Form of Contract and Form of Performance Bond, General, Supplementary and Technical Specifications, Addenda, Drawings, and Local Preference Program, Exhibit A, and has read all of the Provisions furnished prior to the opening of bids; and that he has satisfied himself relative to the work to be performed.

The undersigned BIDDER has not divulged to, discussed or compared his bid with other bidders and has not colluded with any other BIDDER of parties to this bid whatever.

If this Proposal is accepted, the undersigned BIDDER proposes and agrees to enter into and execute the Contract with the City of Hollywood, Florida, in the form of Contract specified; of which this Proposal, Instructions to Bidders, General Specifications, Supplementary Conditions and Drawings shall be made a part for the performance of Work described therein; to furnish the necessary bond equal to one hundred (100) percent of the total Contract base bid, the said bond being in the form of a Cash Bond or Surety Bond prepared on the applicable approved bond form furnished by the CITY; to furnish all necessary materials, equipment, machinery, tools, apparatus, transportation, supervision, labor and all means necessary to construct and complete the work specified in the Proposal and Contract and called for in the Drawings and in the manner specified; to commence Work on the effective date established in the "Notice to Proceed" from the ENGINEER; and to substantially complete all Contract Work within _____ days with final completion within _____ days, and stated in the "Notice to Proceed" or pay liquidated damages for each calendar day in excess thereof, or such actual and consequential damages as may result therefrom, and to abide by the Local Preference Ordinance, Exhibit A.

The BIDDER acknowledges receipt of the any and all addenda.

And the undersigned agrees that in case of failure on his part to execute the said Contract and

the Bond within ten (10) days after being presented with the prescribed Contract forms, the check or Bid Bond accompanying his bid, and the money payable thereon, shall be paid into the funds of the City of Hollywood, Florida, otherwise, the check or Bid Bond accompanying this Proposal shall be returned to the undersigned.

Attached hereto is a certified check on the

_____ Bank of _____

or approved Bid Bond for the sum of

_____ Dollars (\$) according to the conditions under the Instructions to Bidders and provisions therein.

NOTE: If a Bidder is a corporation, the legal name of the corporation shall be set forth below, together with signature(s) of the officer or officers authorized to sign Contracts on behalf of the corporation and corporate seal; if Bidder is a partnership, the true name of the firm shall be set forth below with the signature(s) of the partner or partners authorized to sign Contracts in behalf of the partnership; and if the Bidder is an individual, his signature shall be placed below; if a partnership, the names of the general partners.

OFFICE OF ECONOMIC AND SMALL BUSINESS DEVELOPMENT

Governmental Center Annex

115 S. Andrews Avenue, Room A680 • Fort Lauderdale, Florida 33301 • 954-357-6400

October 2, 2024

ANNIVERSARY DATE: August 27th.

Mr. Rajaram Vijayendran
METCO SERVICES SOUTHEAST, LLC
800 W. Cypress Creek Road Suite 501
Fort Lauderdale, FL, 33309

Dear Mr. Vijayendran:

The Broward County Office of Economic and Small Business Development (OESBD) is pleased to announce that your firm's **County Business Enterprise (CBE) certification** has been renewed.

Your firm's certifications are continuing from your anniversary date but are contingent upon the firm verifying its eligibility annually through this office. You will be notified in advance of your obligation to continue eligibility in a timely fashion. **However, the responsibility to ensure continued certification is yours.** Failure to document your firm's continued eligibility for the CBE and SBE programs within **thirty (30) days** from your anniversary may result in the expiration of your firm's certifications. Should you continue to be interested in certification after it has expired, you will need to submit a new application, and all required supporting documentation for review.

To access and respond to Broward County's solicitations, you will need to be a registered vendor with Broward County. The current web-based procurement platform is **BPRO**, powered by Bonfire. All vendors must complete the vendor registration process in Broward County's **BPRO** system. It is free to do so. Information on how to register your company can be found on the Purchasing Division's webpage: www.broward.org/Purchasing. Alternatively, you may use your camera to scan the QR code in this letter.

To review current Broward County Government bid opportunities visit: www.broward.org/Purchasing and click on "Current Solicitations and Results." Also, from this website, you can log into your firm's profile in **BPRO** to ensure you have added all appropriate classification codes. Bid opportunities over \$3,500 will be advertised to vendors via e-mail and according to classification codes, so please ensure that both the Purchasing Division and OESBD are apprised of your current e-mail address.

Your primary certification group is: **Architecture & Engineering**. This is also how your listing in our directory will read. You may access your firm's listing by visiting the Office of Economic and Small Business Development Directory, located on the internet at: www.broward.org/EconDev and click on "Certified Firm Directories."

Broward County Board of County Commissioners

Mark D. Bogen • Lamar P. Fisher • Beam Furr • Steve Geller • Robert McKinzie • Nan H. Rich • Hazelle P. Rogers • Tim Ryan • Michael Udine
www.broward.org

Your firm may compete for, and perform work on Broward County projects in the following area:

NAICS CODE: 541330, 221320, 237110, 221310

We look forward to working with you to achieve greater opportunities for your business through county procurement.

Sincerely,

MARIBEL
