RE: RFQ-4436-14-RD > Continuing Contract for Architectural Design Services

Dear Purchasing Division Committee,

We are pleased to submit, herewith, this Letter of Interest and data which demonstrates and expresses not only our sincere interest for your project, but also our qualifications.

Singer Architects was established in 1964. Our 51 years of experience in Broward County includes master planning, complex programming and various governmental administration projects. Among our many successful projects are the Hollywood Library at City Hall Circle, Broward County Government Center West Renovations, the FAU/BCC Higher Education Downtown Complex, the Jewish Adoption Foster Care Option (JAFCO) Respite and Residential Center, the Boca Raton Museum of Art, the Fort Lauderdale - Hollywood International Airport Hibiscus Garage and the Fort Lauderdale City Park Municipal Garage. The Firm was recognized in 1997 as the Firm of the Year by the Florida / Caribbean American Institute of Architects for outstanding achievement in design, as well as our community involvement, contribution to education and service to the profession. Our Fort Lauderdale City Park Municipal Garage that incorporates retail spaces and restaurants into the garage was the only building in Broward County to be awarded the **Florida Architecture 100 Years, 100 Places award**. The firm has received more than 50 awards for design excellence and has been published in all major architectural journals as well as in Japan and Belgium.

Our team of highly qualified design professionals pledge to you the hands-on effort, the availability and the first person concern required to accomplish your projects in a timely and effective manner. We respectfully request the opportunity to come before you to further present our qualifications and discuss your projects. Thank you for allowing us to present our experience and credentials. We look forward to hearing from you.

Sincerely,

Teen Woon, AIA, LEED AP
Vice President

19. RELEVANT PROJECTS

(1) TITLE AND LOCATION (City and State)		(2) YEAR COMPLETED	
		PROFESSIONAL SERVICES	CONSTRUCTION (If applicable)
JAFCO Respite and Residential Center for Children with Development Disabilities, Sunrise, FL		2008-2014	2014
a.	<p>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</p> <p>From programming and site development to the close-out phase, Mr. Woon served as the Project Architect for this \$7.5 million 52,000 SF project. The project's main facility provides therapy services to children with developmental disabilities, while on-site supervised residential homes accommodate children over-night for periods up to two weeks. Site design played an integral role in the facility's operation by affording differing levels of security throughout the site to ensure the children's constant protection and safety.</p>		
Fort Lauderdale/Hollywood International Airport Architecture, Engineering and Interior Design Services		2001-Current	Ongoing
b.	<p>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</p> <p>In the five years of this continuing services agreement, Teen Woon has been project designer and project manager for many Singer Architects projects at the Fort Lauderdale/Hollywood International Airport. Projects include Terminal 4 Pedestrian Bridge Renovation, three modular building projects including Community Outreach, URS Corporation and BCAD offices, and Information Booths at Terminals 1. Singer Architects was recently awarded this continuing services contract again for an additional three years.</p>		
City of Sunrise Spring Tree WTP Operation Building		2011-2014	2014- Current
c.	<p>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</p> <p>This is a 10,000 sq.ft., two story administration and Water Treatment Plant Control building located in the City of Sunrise. The scope of work includes programming, schematic design, design development, construction documents, permitting and construction administration. Teen Woon served as Project Architect throughout all phases of this process.</p>		
Broward County A & E Continuing Services Broward County, FL		1998-2014	On going
d.	<p>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</p> <p>Between 1998 and 2001 Singer Architects provided architectural services to Broward County for over 45 projects of varying scope as part of a continuing services contract. Projects included Existing Conditions Reports, Design-Build Criteria Packages, miscellaneous renovations / additions, Programs and Master Plans. Teen Woon served as Project Manager for many of these projects including renovations to Rooms 240 and 760 in the Judicial Complex, Main Library Auditorium Renovation and the Mass Transit Design Criteria Package.</p>		
City of Hollywood Annex Building Hollywood, FL		2006	2006
e.	<p>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</p> <p>After successfully completing the joint use Hollywood Community Library for Broward County and the City of Hollywood, Singer Architects was requested to completed the design of the second floor shell space that will serve as the City of Hollywood Annex offices. Teen Woon is the Project Manager and Lead Architect for this continued project.</p>

19. RELEVANT PROJECTS

a.	(1) TITLE AND LOCATION (City and State) Fort Lauderdale / Hollywood International Airport, Terminal 1 & 2, New restaurant and concessions	(2) YEAR COMPLETED	
		PROFESSIONAL SERVICES 2004	CONSTRUCTION (If applicable) 2005
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE SingerArchitects was commissioned to provide design services to renovate the two 90,000 square foot buildings and provide a new four-story atrium that connects the two buildings. The project was conceived to house all Broward County permitting and licensing departments in one convenient location. Craig Barry provided quality assurance/quality control, project management and construction administration services for this highly complex project.		
b.	(1) TITLE AND LOCATION (City and State) Fort Lauderdale/Hollywood International Airport Architecture, Engineering and Interior Design Services	(2) YEAR COMPLETED	
		PROFESSIONAL SERVICES 2001-Current	CONSTRUCTION (If applicable) Ongoing
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE In the five years of this continuing services agreement, Craig Barry has handled the quality assurance/quality control aspects for many SingerArchitects projects at the Fort Lauderdale/Hollywood International Airport. Construction Documents are often completed under challenging schedules. Craig Barry is instrumental in meeting these tight deadlines by overseeing the Quality Control at every phase of design and submission. SingerArchitects was recently awarded this continuing services contract again for an additional three years..		
c.	(1) TITLE AND LOCATION (City and State) Broward County Emergency Hurricane Repairs Broward County, FL	(2) YEAR COMPLETED	
		PROFESSIONAL SERVICES 2005-2007	CONSTRUCTION (If applicable) 2006-2008
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE Broward County has recently retained the services of SingerArchitects to assess approximately 25 buildings seriously damaged by Hurricane Wilma and to make recommendations and implement the solutions in a timely and cost-effective manner. Craig Barry has served as Project Manager for several of these projects as well as providing in-depth code research that is needed to cost-effectively repair these battered facilities.		
d.	(1) TITLE AND LOCATION (City and State) Broward County A & E Continuing Services Broward County, FL	(2) YEAR COMPLETED	
		PROFESSIONAL SERVICES 2006-2009	CONSTRUCTION (If applicable) 2006-Present
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE Between 2006 and 2009 SingerArchitects provided architectural services to Broward County for over 45 projects of varying scope as part of a continuing services contract. Projects included Existing Conditions Reports, Design-Build Criteria Packages, miscellaneous renovations / additions, Programs and Master Plans. Craig Barry served as Project Manager and Quality Control Manager for projects at the One University Drive Governmental Center and the downtown Broward County Governmental Center.		
e.	(1) TITLE AND LOCATION (City and State) Hollywood Community Library Hollywood, FL	(2) YEAR COMPLETED	
		PROFESSIONAL SERVICES 2002	CONSTRUCTION (If applicable) 2005
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE As part of the \$140 million Broward County Bond Program SingerArchitects was commissioned to design a 30,000 square foot library. The City of Hollywood donated the northeast quadrant of their City Hall Circle located on Hollywood Boulevard for the Library's site. To accommodate the growing City's needs, a second floor is planned as the new City Hall Annex to house City offices. Craig Barry provided quality assurance/quality control and construction administration services to this public project..

23. PROJECT OWNER'S INFORMATION

a. PROJECT OWNER JAFCO (Jewish Adoption Foster Care Option)	b. POINT OF CONTACT Sarah Franco	c. POINT OF CONTACT TELEPHONE NUMBER (954) 749-7230
---	--	---

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT

JAFCO Respite and Residential Center for Children with Development Disabilities is ground breaking facility of this type in the world located in the City of Sunrise, Florida. It is an expansion of JAFCO Jewish Adoption Foster Care Option service to the community. The 4.9 acres site is located adjacent to Daniel D. Cantor Senior Center and Federation Housing Incorporated. There are two major components of this project; **3 residential homes**, approximately 4,200 square feet each and a **support facility**, approximately 48,000 square feet.

The purpose of the **residential homes** is to provide **respite care** to allow the parents and the other siblings to have an essential break from the sometimes-overwhelming stressors of parenting a child with special needs. They can also be used as temporary shelter of foster care placement for child who is at-risk.

The **support facility** will provide state-of-the-art treatment, support, research and education for parents, siblings and professionals in the community relating to the care of children with developmental disabilities.

The **support facility** is fronting Nob Hill Road with an elliptical drive way and parking receiving guests from a private street. The support facility also creates a buffer between the public spaces and the **3 residential homes**. A park with playground and trails interweave both facilities blurring the interior-exterior boundary.

The three private one-story **residential homes** each has an open floor plan layout taking full advantage of South Florida's environment, overlooking the natural trails and gardens. The layout of interconnecting spaces also provides visibility and line of sight for the person in charge without visual obstruction such as corridors and walls.

The **support facility** is divided into three groups of spaces, which are delineated by the three wings of the building: **Administrative**, **Therapy** and **Multipurpose**. A centralized lobby connects the three wings to the entrance.

The **Multipurpose** and **Therapy** wings form a buffer along the residences to the north. The **Administrative wing** intersects the **Multipurpose/Therapy** wings to define public space to the southwest, semi-public space within the facility and private spaces to the northeast of the site that consist of nature trails, and garden connecting to the **3 residential homes**. The nature trails and garden interweave both facilities blurring the interior-exterior boundary.

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT

Broward County has recently retained the services of **SingerArchitects** to assess approximately 25 buildings seriously damaged by Hurricane Wilma and to make recommendations and implement the solutions in a timely and cost-effective manner. Tasks in the process include:

- Damage assessment reports
- Code research and meetings with local code officials
- Meetings with the Owner's insurance agents and their technical experts
- Preparation of Construction Documents for use in permitting repair work.
- Construction cost estimates
- Meetings with and assistance with FEMA reimbursement rules

Issues that the Owner and **SingerArchitects** face range from window glazing and roof replacement to structural damage, structural roof damage, water intrusion, replacement of finishes and light pole replacement.

Projects include the Broward County Main and Midrise Courthouses, the Main Library, the Downtown Government Center, Riverland Library, the Edgar P. Mills Multi-Purpose Center, the Public Safety Complex, the Mosquito Control Center, Fleet Services 2 and 3 and the Health Department Complex on State Road 84.

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT
 When the ARFF (Airfield Rescue and Fire Fighting Facility) at the Fort Lauderdale – Hollywood International Airport was experiencing leaks and water infiltration, **SingerArchitects** was called upon to evaluate and analyze the situation. We prepared a detailed report describing water infiltration problems from stucco wall cracks, stucco parapet cracks, aluminum window leaks, hollow metal door frame leaks, etc. Our scope included construction documents outlining the required repairs including door and window replacements, stucco removal and reinstallation, parapet enhancements, etc. Bidding/permitting services, construction administration and resident field representative services necessary to ensure a watertight building envelope were also provided. Mold remediation and coordination with Broward County Risk Management were required as the drywall had been wet for some time. The lightning protection systems and numerous antennas and satellite dishes were relocated and reinstalled after parapet work was completed.

23. PROJECT OWNER'S INFORMATION		
a. PROJECT OWNER Broward County	b. POINT OF CONTACT Jack Shim	c. POINT OF CONTACT TELEPHONE NUMBER (954) 357-8628

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT
Prior to the County's decision to purchase One University Drive Governmental Center West, **SingerArchitects** provided an Existing Conditions Report consisting of ADA and building code review, systems quality report and repair estimates. Based on this report, the County was able to negotiate a significantly lower purchase price.

Subsequently, **SingerArchitects** was commissioned to provide design services to renovate the two 90,000 square foot buildings and provide a new four-story atrium that connects the two buildings. The project was conceived to house all Broward County permitting and licensing departments in one, convenient location. The project includes interior renovations for: the Department of Planning and Environmental Protection (DPEP); Water Resources, Biological Resources, Administration, Planning Services, Transportation Planning, Pollution Prevention and Remediation, Air Quality, Development Management and Land Use Permit; Department of Safety and Emergency Services (DSES); Zoning Code Services, Building Code Services (including Trade Licenses) and Plans Review Section of Fire Marshal; Public Works Department; Engineering; Board of Rules and Appeals; Parks and Recreation; and the Office of Integrated Waste Management.

The building includes accommodations such as hurricane resistant windows and an emergency generator that will allow the Emergency Operations Division to utilize the building as a disaster recovery center. The project includes infrastructure upgrades consisting of a new roof, new chiller and cooling tower, fresh air dehumidification system, stucco repair, electrical upgrades and ADA complaint restroom upgrades. The new skylit atrium space will provide a grand lobby, information center and waiting area for patrons. This four-story space contains connecting bridges at Floors 2, 3 and 4 and an escalator for easy access to second floor meeting rooms.

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT

The Pompano Beach Facility Assessments were conducted to determine the conditions and propose improvements to 178 city-owned buildings and infrastructure. **SingerArchitects** led a comprehensive team of planners, architects, and engineers in performing evaluations for approximately 750,000 square feet of facilities including: community centers, municipal buildings, fire stations, utilities, and parks. These assessments were summarized into reports that outlined the conditions and deficiencies for each facility as well as prioritizing needs, developing a preventative maintenance plan and ultimately a cost to repair. The report indicated a capital need of \$21 million now and an additional \$ 7 million over the next five years. The goal of the condition assessments is to improve the quality of life and the condition of the infrastructure across the City of Pompano Beach.

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT

Carollo Engineers, Inc. was commissioned by the City of Sunrise to implement a 3 MGD of reverse osmosis membrane treatment to increase treatment plant capacity to meet existing and future water supply needs. **SingerArchitects** collaborated closely with Carollo to provide architectural services of the two functional buildings, one 5,250 square foot and the other 1,680 square foot while Carollo Engineers, Inc. provides Structural, Mechanical, Electrical, Plumbing, Water Treatment Specialties, and Civil Engineering disciplines.

The floor plan layouts are based on the functions of the reverse osmosis treatment system and the constraints of the existing site; one stand alone Reverse Osmosis Water Treatment Plant is approximately 70'-0" x 75'-0" and another stand alone structure to house the Reverse Osmosis Chemical Storage Feed system is approximately 42'-0" x 40'-0". Both buildings were designed to match adjacent existing structures with typical masonry construction and stucco finish to provide a consistent appearance.

SingerArchitects' scope of work includes Architectural Design, Construction Documents and Assisting in Permitting and Bidding.

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT

The City of Hollywood commissioned **SingerArchitects** to develop a Master Plan for City Hall Circle, a key site in the overall scheme of the City that was laid out in the 1920's and is built around three major traffic circles. The Broward County Libraries Program followed with a commission for a 30,000 square foot Community Library.

The site, 10 acres in the heart of Hollywood, is site of the current City Hall (a 4-story, 63,000 square foot building), City Hall Annex (18,000 square feet) and an existing library (10,000 square feet). The current plan has a difficult parking layout with numerous dead ends and visitors must traverse vehicular areas to access buildings. The most beautifully landscaped portion of the site (the northeast quadrant) is not utilized.

SingerArchitects Master Plan unifies the site into a major public gathering place. This place is welcoming to the public yet sheltered from vehicular traffic and parking. Significant existing mature canopy trees between the Annex and the Library will not only be saved, but will also create a welcoming, shaded spot to read a book.

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT

As part of the \$140 million dollar Broward County Bond Program SingerArchitects was commissioned to design a 30,000 square foot library. The City of Hollywood donated the northeast quadrant of their City Hall Circle located on Hollywood Boulevard for the Library's site. To accommodate the growing City's needs, a second floor is planned as the new City Hall Annex to house City offices.

The building is integrated on the site to capture views, with generous glazing, of large existing hardwood and Royal Palm trees. The facility addresses the implementation of the Circle's Master Plan by locating the main entrance adjacent to the proposed Civic Mall.

Bright accent colors, transparency and protected walkways of the exterior invite library patrons to a creative,lofty, and rich experience inside.

Design elements of the Library include an east facing light well that harnesses useable daylight within a tall reading space and provides shading from the strong South Florida sun. At night the light well transforms into a lantern by utilizing high efficient lights that draws visual interest from passing vehicular traffic. Covered walkways provide weather protection for visitors and additional shading of the interior at critical times of the day.

Because of the collaborative nature of the facility between the City and County, the lobby houses a multipurpose room, conference room and restrooms that may be utilized by community groups after normal business hours.

21. TITLE AND LOCATION (City and State) Broward County Transit – Large and Small Prototype Bus Shelters Broward County, FL		22. YEAR COMPLETED PROFESSIONAL SERVICES 2010-Present CONSTRUCTION (If applicable) 2011-Present
23. PROJECT OWNER'S INFORMATION		
a. PROJECT OWNER Broward County	b. POINT OF CONTACT Adriana Toro	c. POINT OF CONTACT TELEPHONE NUMBER 945-357-6064
24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT <p>SingerArchitects, commissioned by Broward County Transit, developed a prototype series of five 20' x 20' bus stop shelters, designed to enhance the county's transit system. State-of-the-art technology, including solar panels, efficient LED lighting and remote real-time information sign, merges with basic vernacular concepts of shade and rain protection to define a comfortable, informative, and self sustaining place for waiting.</p> <p>The prototype designs are planned to be constructed in various cities throughout Broward County on different sites with varying orientations. Determining constants and variables played a big role in realizing basic function: the L-shaped plan, as it surrounds a bench seating area, offers the user an unobstructed focus toward the approaching bus, at any orientation. This basic plan is maintained as the structural form varies for five distinct prototype designs. Each shelter incorporates a sloped roof, angled to mount the solar panels at their optimal orientation, while shedding water away from the site.</p> <p>The prefabricated structures were designed in three different sizes: 3ft x 14ft, 5ft x 14ft, and 7ft x 14ft. Two schemes were designed: one consists of a tapered column structure, and the other is a round column design. The design of certain components such as the back panel configuration, side panel size, panel infill material, and roofing materials opaque aluminum versus translucent polycarbonate may vary in each scheme based on the preference of each City to make it unique for themselves. Furthermore, the solar panels supported on the roof of the structure may vary in orientation depending on the location of the shelter to achieve the highest performance of the units. The interchangeable nature of all these items allows for some flexibility in the design of each shelter. All shelters in this prototype series employ steel with the means of structure and cover, protective coated for Broward County to call their own for many years to come.</p>

---	--	---

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT
The project is the design of a parking master plan for the Fort Lauderdale-Hollywood International Airport and the 5,000 space structure which will be constructed as the first phase of that plan. Ultimate development will provide 12,000 parking spaces.

The new parking structure has been conceived to integrate with the existing terminals, the new terminals and the roadway system which are being designed independently and which will be constructed at the same time as the garage.

Parkers staying only hours will enter the airport and proceed via a direct ramp to the second level. That level is given a 13 foot 6 inch headroom, higher than normal lighting levels and direct access - via pedestrian bridges - to the terminals. It is estimated that 75% of the parkers stay for three hours or less. Those parkers will utilize level 2 and move to the terminal, on foot, with no level change. The pedestrian path will be articulated, lighted and integrated with the detailing of the vertical circulation cores.

All parkers will move to one of the two 54 foot by 300 foot lightwells as a point of reference and access to terminals. The vertical circulation cores contain elevators as well as escalators connecting levels 1-3. Bridges to the terminals are to be designed in conjunction with the terminals.

The building is conceived to simplify the parking experience, to provide an open, airy parking place and to maintain an understanding for all parkers as to where they are and where they want to be.

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT

The Commissioners of the City of Fort Lauderdale made a commitment to the City's Downtown, a commitment to assist in its rebirth by constructing a parking facility which would provide interested developers and governmental agencies with parking necessary for viable Downtown development.

The site, selected in conjunction with the Master Plan of the Downtown Development Authority, encompasses one entire city block and half of another. It is bisected by a city street which is a major traffic feed into and out of the Downtown. Surrounding the site are locations for future commercial office buildings on the North, South, East and West as well as a major regional Library at the Northwest corner, an Art Museum at the Southwest corner, a church at the Northeast corner and a Community College Downtown Campus at the Southeast corner.

The parking structure also incorporates a mall area with shops and eateries and is a vibrant downtown gathering place.

The structure became a connector, street to parking, automobile to pedestrian, pedestrian to destination, one portion of Downtown to another.

The structure continues to be a vital part of the City and **SingerArchitects** was asked to continue their work in 2001 by overseeing a minor renovation project to make needed updates to the garage.

In 2012, The Fort Lauderdale City Park Municipal Garage that incorporates retail spaces and restaurants into the garage was the only building in Broward County to be awarded the Florida Architecture 100 Years, 100 Places award.

a. PROJECT OWNER Florida Atlantic University & Broward College	b. POINT OF CONTACT Jeffrey Thompson	c. POINT OF CONTACT TELEPHONE NUMBER (954)-357-8460

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT

The resources of Florida Atlantic University and Broward Community College have combined to provide this 150,000 square foot, 12 story classroom and office tower in Fort Lauderdale's downtown Higher Education Complex.

SingerArchitects met the challenge of Master Planning the 1.3 acre downtown site for ongoing campus development and integrating the new, state-of-the-art facility into the urban fabric of the city. The building's design is planned to establish strong relationships with Las Olas Boulevard, the existing University and College buildings and nearby cultural and governmental agencies. BCC offers a fully automated student services facility easily accessible from the street.

The design utilizes a combination of architectural concrete, white and grey cement pre-cast concrete panels and stucco to articulate massing representative of function. In similar fashion, the glazing was chosen in two distinct colors to define varying usage. The use of the space includes fully computer-ready classrooms, tiered classrooms, computer and science labs, community teaching labs, School of Public Administration, the College of Urban and Public Affairs with its new, fully accredited School of Architecture and the Executive Suites for both institutions.

In many aspects of the building's design, decisions regarding the selections of building systems, products and materials were motivated by the desire to maintain an environmental consciousness. So called "Green Building" technology influenced the building's orientation, the open stairway design and the use of "Low-E" glass. The choice to use locally manufactured products and materials was made to save energy consumed in transportation.

The completed structure will house staff of 140 and provide classroom space for over 1,200 students at any given time.

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT

The site, an oddly shaped 1.3 acres, at the northernmost end of a shopping plaza, was gifted by the City to "jump start" a Culture Park. The City aspires to add a Concert Hall and an outdoor Amphitheater. The perimeter 2-story colonnade of the Amphitheater is to function as a "unifying element".

The Museum's entry point responds to the concept of the Culture Park. The Entrance Courtyard was designed to satisfy two needs - establishment of an ambiance unique to the Museum and separate access for children anticipated in the Educational Program.

The social needs of the Museum demand spaces with natural light and a strong sense of community. The Main Hall, a forty-foot high space filled with light from the Entrance Courtyard and from the light monitor above, connects visitors to the first and second floor Galleries, Meeting Room and Gift Shop.

The exhibits require spaces with controlled light, temperature and humidity. The galleries, away from natural light, are organized to fit the needs of the Museum with flexible spaces for traveling exhibits on the first floor and divided display spaces for the permanent collection on the second.

The design focuses on the image and shape of ongoing life, using ornamentation created out of the nature of the material itself, light, geometry and function.

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT

The Environmental Services Laboratory, SFWMD, consists of a new construction two story office and laboratory building totaling 34,778 square feet on a 1 acre site. The objective was to obtain LEED Silver Certification by addressing site issues, utilizing recycling materials, water efficiency, lighting and HVAC efficiency, and considerations of indoor and environmental quality, solar thermal water heating, among other items. During the process the Project team was encouraged to strive for a higher Level of Certification. On July 5, 2012 the Environmental Services Laboratory, SFWMD, was awarded USGBC LEED Gold Certification.

The Environmental Services Laboratory, SFWMD, will serve as an example for the community as well as the staff. The cistern is a focal point of the project and emphasizes the importance of water to the South Florida Water Management District and to the community at large.

The Environmental Services Laboratory, SFWMD, LEED Certification because they understand the benefits of green buildings to reduced operating costs. The Environmental Services Laboratory, SFWMD reasons for adopting green design principles are best summarized in the following principles for sustainability:

- Provides a healthy indoor environment, which is associated with the health and well being of their staff and increased productivity
- Helps meet SFWMD fiscal responsibility by contributing significant savings in both energy and water usage. Encourages other office buildings and laboratories in Palm Beach County to "go green".

F. EXAMPLE PROJECTS WHICH BEST ILLUSTRATE PROPOSED TEAM'S QUALIFICATIONS FOR THIS CONTRACT (Present as many projects as requested by the agency, or 10 projects, if not specified. Complete one Section F for each project.)		20. EXAMPLE PROJECT KEY NUMBER 38
21. TITLE AND LOCATION (City and State) Edgar P. Mills Multi-Purpose Center Lauderhill, Florida		22. YEAR COMPLETED PROFESSIONAL SERVICES 2010-2011 CONSTRUCTION (If applicable) 2011
23. PROJECT OWNER'S INFORMATION		
a. PROJECT OWNER Broward County	b. POINT OF CONTACT Ariadna Musarra	c. POINT OF CONTACT TELEPHONE NUMBER (561) 791-4079
24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT		

The Edgar P. Mills – Multi Purpose Center project is comprised of a 56,997 square foot, 3 stories building with an adjacent 285 car parking structure, constructed on a 3.19 acre site in Fort Lauderdale, Florida. The building will accommodate numerous Broward County social service agencies serving the neediest residents of the County, including elderly and veterans' services, women, infant and children services, addiction recovery and a health and dental clinic, among others. The staffing for the building is projected to be 197 full and part time personnel and the projection, of visitor trips, is estimated at 450 visitors per day. The buildings and site have been designed with full consideration of LEED principles.

This center provides services to the public such as: emergency assistance, case management, counseling and recovery, housing, health care, dental care, elderly and veterans assistance. It is a focal point for thousands seeking services to better their lives and creating a brighter future. It is one of five Family Success Centers in the county – facilities that are one-stop sources of social services information, referrals and services to assist individuals and families in setting goals, learning skills, and accessing the services they need to build a stronger, healthier and self-sufficient family unit.

a. PROJECT OWNER Village of Wellington	b. POINT OF CONTACT Jim Barnes	c. POINT OF CONTACT TELEPHONE NUMBER (561) 791-4079

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT

The Wellington Municipal Complex is a 54,000sf, two story, tilt-wall concrete building and was a design build delivery method with the Weitz Company as the General Contractor and Leo A Daly as the Architect. The overall budget for this project was \$15 million dollars.

The project initially intended to meet LEED silver requirements and wound up obtaining Gold Certification. The complex houses several different departments for the Village including: Planning and Zoning, Project Management, Village Clerk, Human Resources, Elected Officials, and the Council Chambers. The entire complex is capable of running on its own generator and the council chambers will be hardened for uses during and after hurricane events. Some of the LEED specific aspects of the project include: double pane high efficiency glazing systems; Dual flush water closets; Sun shading at the windows; and high efficiency lighting.

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT						

Through an innovative and unique public-private partnership, this Museum and Public Library project has become a groundbreaking example of the immense benefits of an integrated, sustainable design process. This publicly funded project is the result of a rare partnership and forward-thinking, client-led initiative which will serve children and families today and for generations to come. Through the joint development of this facility and its many cooperative programs, it serves as a model for other museums and libraries throughout the country.

Constructed on 11.7 acres of publicly owned land, this 56,500 square foot facility will serve an estimated 300,000 children and adults annually and touch an additional 200,000 community members through a robust outreach program. After being open to the public less than three months, the new cultural epicenter already has seen more than 50,000 visitors! Easily accessible to Palm Beach, Broward and Miami-Dade's 4 million residents, this project is in close proximity to several major expressways and has been designed as a recognizable icon for long-time patrons and first-time visitors alike.

In this integrated platform, children and families will use art and reading to better understand the world, from multicultural explorations to geography and environmental science.

SINGER ARCHITECTS
A RUSSELL AND DAWSON COMPANY

A > ORGANIZATION

State whether your organization is national, regional or local.

Singer Architects, Inc. is a local South Florida architectural firm which offers its clients 51 years of experience and a consistent commitment to excellence in the design work it produces and the relationship it has with the community. All professional and business direction is local. Donald Singer formed Donald Singer, Architect PA in 1964 based on the fundamental idealism that architecture is not taste, whim, imitation or decoration of function. In 1999 the name was changed to Singer Architects, Inc. to reflect a new, more diverse ownership group. As a Russell and Dawson Company, Singer Architects, Inc. has professional and technical support available in structural engineering and code compliance.

Hollywood Library- Singer Architects

SINGER ARCHITECTS
A RUSSELL AND DAWSON COMPANY

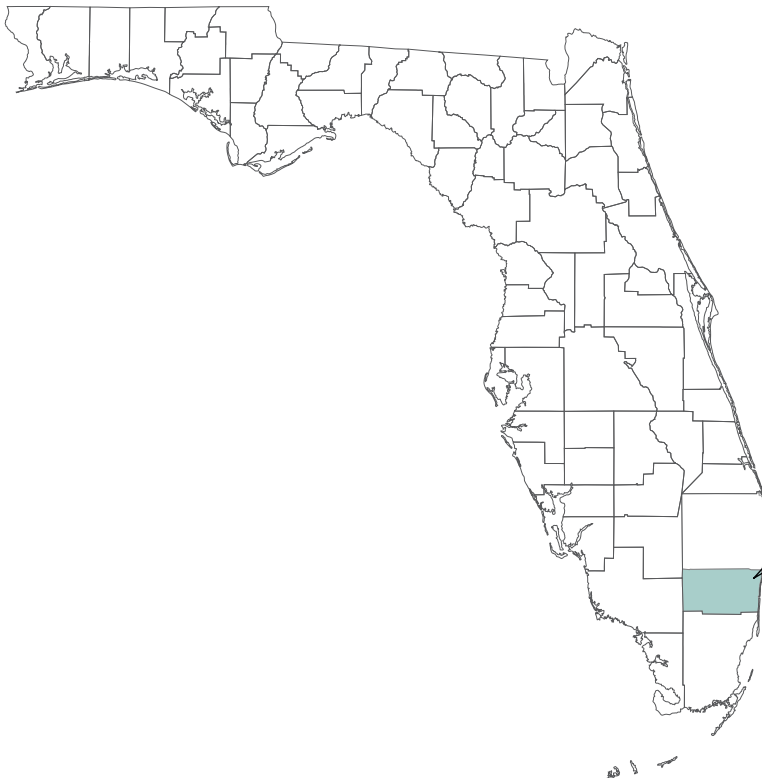

B > LOCATION

State the location of the office from which your work is to be performed.

Singer Architects, Inc. is located at 915 Middle River Drive, Suite 404, Ft. Lauderdale, Florida 33304; where all work shall be performed.

Active in Architecture in the tri-county area since 1964, Singer Architects has established a national reputation for innovative and qualitative architectural design. Beginning with City Park, the one million square foot urban plaza and parking structure which was the cornerstone for the resurgence of the urban core of Fort Lauderdale and Broward County, Singer Architects has produced signature projects in the areas of public education and private commercial enterprise which have been key to the development of the area. The location of the office from which our work will be done is Ft. Lauderdale.

The firm has received more than fifty awards for design excellence and has been published in all major U.S. architectural journals as well as in Japan and Belgium. The Firm was recognized in 1997 by the Florida / Caribbean American Institute of Architects as its Firm of the Year, for outstanding achievement in design, community involvement, education and service to the profession. In 2012, the Fort Lauderdale Chapter of the American Institute of Architects granted Singer Architects the Award of Excellence for the JAFCO Respite and Residential Center. Our Fort Lauderdale City Park Municipal Garage that incorporates retail spaces and restaurants into the garage was the only building in Broward County to be awarded the **Florida Architecture 100 Years, 100 Places award.**

D > EXAMPLE

Provide a list and description of similar municipal and other projects satisfactorily completed within the past four (4) years. For each project listed, include the name and telephone number of a representative for whom the project was undertaken who can verify satisfactory performance.

Singer Architects' team has extensive experience in full renovation fit out projects in South Florida during the past 50 years. We have renovated hundreds of thousands of square feet of interior build out space and exterior envelope performance improvement. The team members for this project include LEED, MEP, and BIM experts.

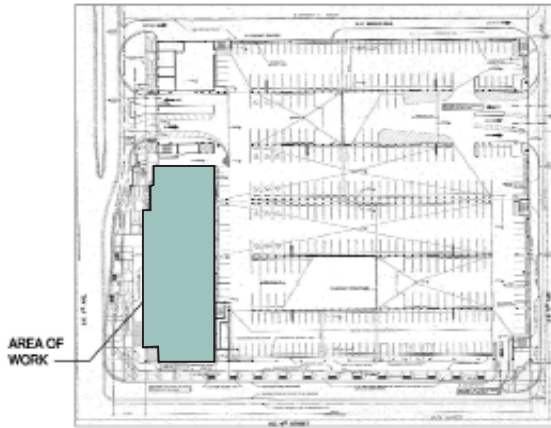

Example of successfully completed projects related to the ones in Exhibit 01 include:

■ Broward County Judicial Complex Midrise Building Experience > Renovation of Third Floor

Singer Architects completed the construction documents for the renovation of the third floor of the Broward County Judicial Complex Midrise Building, an approximately 17,000 square feet full renovation fit-out project with the goal of LEED Gold certification.

The scope of work for this renovation project also included site investigations, modifications and verification of the Owner's provided schematic design and resolved per-existing ADA issues.

Singer Architects reviewed and designed the floor plan as required to ensure the compliance of current code requirements since the existing facility was designed prior to the mandatory implementation of ADA. The reconfiguration of restrooms and other common areas were required to be compliant with ADA.

Working closely with the Building Department in resolving code compliant issues during the design phase is a key factor to avoid unanticipated delays. The team also worked closely with the Owner throughout the design phase in implementing LEED strategies and planning. We were able to pursue the LEED Gold certification with confidence.

The team were able to ensure that the most appropriate and highest performance products and building systems were implemented through coordination with building maintenance and the end users. The team understands the importance of team effort for a successful project such as this. The construction documents were completed on time and to the satisfaction of the Owner.

SINGER ARCHITECTS
A RUSSELL AND DAWSON COMPANY

MIDRISE COURTHOUSE > HURRICANE DAMAGE ASSESSMENT

For the Midrise Courthouse, significant damage occurred to the roofing system and window system such that both systems required complete replacement. After preparing the Damage Assessment Report, we prepared construction documents suitable for permitting and provided construction administration/inspection services. Detailed phasing, temporary barriers, and staff relocation drawings were prepared so that building could remain functional while the entire glazing system was replaced. Since much of the work was performed at night and on weekends, the City of Fort Lauderdale granted Singer Architects special permission to perform code required inspections on behalf of the city. This demonstrates the confidence that the city has in our work. As the replacement of the window system and roofing at the Midrise Courthouse are very similar to upgrades required by this RLI, our experience with staff relocations and phasing will be extremely valuable.

MIDRISE > GLAZING REPLACEMENT

The glazing replacement which was performed on the North Wing consisted of replacing all 2,030 panes of glass (broken and unbroken glass). The Pedestrian Bridge connecting North & East Wings of the Courthouse also replaced all 70 panes of glass (broken and unbroken). There were 220 panes of glass replaced for the North Wing's Rotunda. All the glass provided and installed for the above mentioned areas received 9/16" laminated glass, 1/4" heat strengthened outboard, 1/4" heat strengthened inboard, .090 SGP interlayer - Large Missile, or .060 PVB - Small Missile. All new pressure bars were produced and installed to accommodate the new glazing thickness. Beauty caps have also been provided and installed at all windows.

Interior finish replacement / repairs such as gypsum wallboard, wall covering, ceiling tiles, vertical blinds, vinyl baseboard, light fixtures and carpet clean up has been performed and completed in lobby areas, courtrooms, Judge's office's, reception lobbies, etc. of all seven floors.

SINGER ARCHITECTS
A RUSSELL AND DAWSON COMPANY

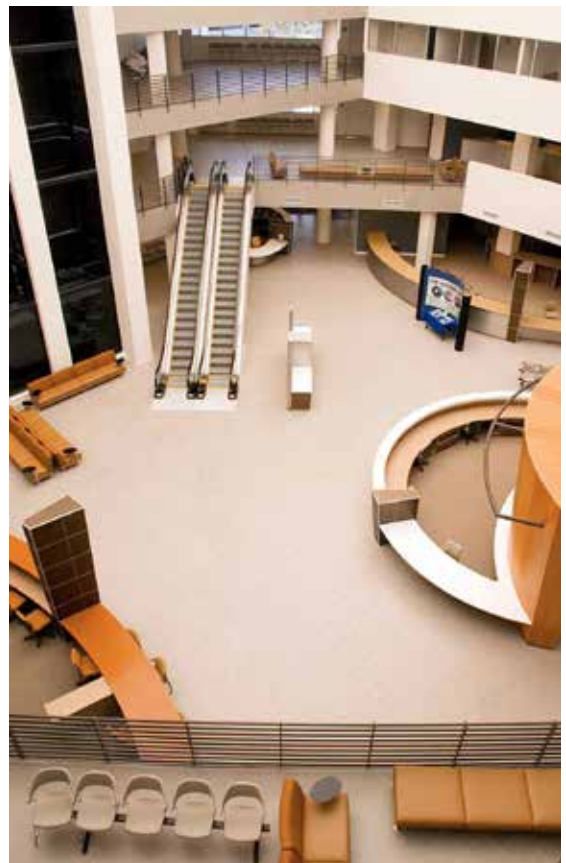

GOVERNMENTAL CENTER WEST > INTERIOR RENOVATIONS

Prior to the County's decision to purchase One University Drive Governmental Center West, Singer Architects provided an Existing Conditions Report consisting of ADA and building code review, systems quality report and repair estimates. Based on this report, the County was able to negotiate a significantly lower purchase price.

Subsequently, Singer Architects was commissioned to provide design services to renovate the two 90,000 square foot buildings and provide a new four-story atrium that connects the two buildings. The project was conceived to house all Broward County permitting and licensing departments in one, convenient location. The project includes interior renovations for: the Department of Planning and Environmental Protection (DPEP); Water Resources, Biological Resources, Administration, Planning Services, Transportation Planning, Pollution Prevention and Remediation, Air Quality, Development Management and Land Use Permit; Department of Safety and Emergency Services (DSES); Zoning Code Services, Building Code Services (including Trade Licenses) and Plans Review Section of Fire Marshal; Public Works Department; Engineering; Board of Rules and Appeals; Parks and Recreation; and the Office of Integrated Waste Management.

The building includes accommodations such as hurricane resistant windows and an emergency generator that will allow the Emergency Operations Division to utilize the building as a disaster recovery center. The project includes infrastructure upgrades consisting of a new roof, new chiller and cooling tower, fresh air dehumidification system, stucco repair, electrical upgrades and ADA complaint restroom upgrades.

The new skylit atrium space will provide a grand lobby, information center and waiting area for patrons. This four-story space contains connecting bridges at Floors 2, 3 and 4 and an escalator for easy access to second floor meeting rooms.

SINGER ARCHITECTS
A RUSSELL AND DAWSON COMPANY

PROGRAMMING + SPACE PLANNING

When expansion of Customs/FIS into the existing BCAD offices in Terminal 4 required the Aviation Department to look to a new site and space, they enlisted the design and management skills of Singer Architects to assist them in the process.

The project site is an approximately 5 acre parking lot located just south of the main terminal complex and accessed from Perimeter Road.

Singer Architects was commissioned to produce detailed programming and site analysis for the implementation of BCAD Office Move Project.

The design of the project provides a functional floor plan layout and a pleasant environment within the constraint of prefabricated modular structures. The circulation of the facility is simple and straightforward.

The BCAD program consisting of ten separate departments inspired the site plan and 54,000 square foot building layout in a radial/pinwheel/star design. This star-shaped plan resolves the goal of maximizing the amount of natural light into the facility by creating more exterior walls that are equipped with windows, creating a more pleasant working environment. The spatial layout provides optimal interaction among the users and the specific functions within the building.

The prefabricated modular structures were constructed off-site so that fabrication time could coincide with that of the required site-work. Existing pavement and utilities were utilized to the greatest extent possible to streamline site-work cost and permitting and construction time.

The new facility is well-planned and economical. It provides adequate space, proper departmental adjacencies and a pleasant environment so that the Aviation Department can function efficiently.

SINGER ARCHITECTS
A RUSSELL AND DAWSON COMPANY

PROGRAMMING / SPACE PLANNING > FAU + BCC

The resources of Florida Atlantic University and Broward Community College have combined to provide this 150,000 square foot, 12-story classroom and office tower in Fort Lauderdale's downtown Higher Education Complex.

Singer Architects met the challenge of Master Planning the 1.3 acre downtown site for ongoing campus development and integrating the new, state-of-the-art facility into the urban fabric of the city. The building's design is planned to establish strong relationships with Las Olas Boulevard, the existing University and College buildings and nearby cultural and governmental agencies. BCC offers a fully automated student services facility easily accessible from the street.

The design utilizes a combination of architectural concrete, white and gray cement per-cast concrete panels and stucco to articulate massing representative of function. In similar fashion, the glazing was chosen in two distinct colors to define varying usage.

The use of the space includes fully computer-ready classrooms, tiered classrooms, computer and science labs, community teaching labs, School of Public Administration, the College of Urban and Public Affairs with its new, fully accredited School of Architecture and the Executive Suites for both institutions.

In many aspects of the building's design, decisions regarding the selections of building systems, products and materials were motivated by the desire to maintain an environmental consciousness. So called "Green Building" technology influenced the building's orientation, the open stairway design and the use of "Low-E" glass. The choice to use locally manufactured products and materials was made to save energy consumed in transportation.

The completed structure will house staff of 140 and provide classroom space for over 1,200 students at any given time.

SINGER ARCHITECTS
A RUSSELL AND DAWSON COMPANY

■ PROGRAMMING + SPACE PLANNING

West Regional Courthouse

Since 2009, Singer Architects has been developing programs and preparing space plans for the 34,000sf first floor of the West Regional Courthouse. The program includes spaces for Clerk of Courts cashiers, offices, and imaging department, BSO Probation offices and a new Traffic Courtroom. Compliance with code requirements such as dead end corridors, travel distances to exits, common path of travel, fire rated corridors, etc. is ensured when developing space plans. Construction of the Clerk of Courts area is nearing completion and the BSO Probation offices and Traffic Courtroom are currently in the construction document phase.

■ Edgar P. Mills Center

As part of a continuing services contract, Singer Architects was commissioned by Broward County Construction Management Division to prepare a Program of Spaces for the Edgar P. Mills Center located in the northwest area of Fort Lauderdale.

The Mills Center is a 38,000sf multipurpose facility that houses offices and clinics for 10 agencies such as Broward Addiction Recovery, Health Department, Women, Infant and Children (WIC), Elderly and Veteran Services, HHope Act, Homeless Services, Children Services, Family Success Administration, and Community Action Agency. Our work included a series of detailed interviews with all these agencies, development of space and square footage needs, relationships between spaces and development of typical room layouts. This information was the basis for the design of a new facility.

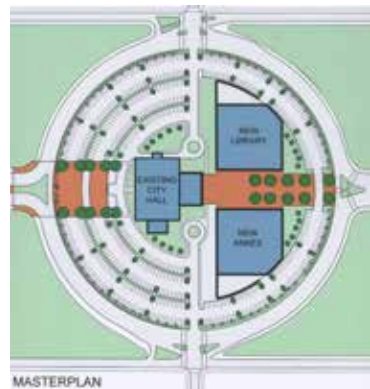

SINGER ARCHITECTS
A RUSSELL AND DAWSON COMPANY

Between 2006 and 2009 Singer Architects provided Architectural and Engineering services to Broward County for over 25 projects of varying scope as part of a continuing services contracts. Projects included Existing Conditions Reports, Design-Build Criteria Packages, miscellaneous renovations / additions, Programs and Master Plans.

Projects include:

Tradewinds Park HVAC Review
Pompano Neighborhood Transit Center (NTC) Canopy and Platform
Main Courthouse North Wing Window Glazing Replacement
OIT Data Center Upgrade Study – Midrise Courthouse
Main Library HVAC Unit Replacements
Mass Transit Copans Road HVAC Review
South Regional Courthouse ADA Study
South Regional Courthouse Parking Garage Structural Failure
Government Center Parking Garage Stucco Repair
BSO Women's Detention Facility Demolition
OIT 12 SE 7th Street Study
Moisture Testing, Roof at Women's North Jail
19th Street Henderson Mental Health Facility Study
Main Jail Test and Balance Engineering
Government Center Parking Structure Concrete Beam Repair
Consultant Services for Demolition of 4th Floor, NBC Space
ETS Space Planning Floor 4A BC Government Center West
40 Year Building Safety Inspections (4 Bldgs)
North Broward Detention Center Demolition
Office for Commissioner at Government Cntr. West (Lieberman)
BCJC Entry Canopy
North Animal Care Crematory
Main Library Fountain Pump Relocation
Main Library Cooling Tower Beam Repair
Broward County Civil/Family Courthouse Independent A/E Fee Review
Long Key Nature Center Artwork
North Regional Courthouse Renovation Study
FLL Terminal 2 - Community Gallery

C: PROJECT>NAME>LOCATION>ADDRESS

JAFCO
City of Sunrise
4200 N University Drive, Sunrise, FL 33351

D: DESCRIPTION OF WORK

The scope of work for this groundbreaking facility type includes two major components on the 4.9 acre site located in Sunrise, Florida: three (3) residential homes (approximately 4,200 square feet each) and a support facility (approximately 48,000 square feet). Clearing and platting were required for the site's development. Extensive programming was performed with the owner ensuring the facility performed on all levels of design.

E: CONTRACT AMOUNT AWARDED TO YOUR FIRM

\$700,000.00. This fee is inclusive of programing, schematic-design, design-development, construction documents and construction administration.

F: LENGTH OF CONTRACT >TIME EXTENSION, IF ANY

5 years.

G: DETAILED INFORMATION ON ANY CHANGE ORDERS. INCLUDE AMOUNT AND DESCRIPTION OF CHANGE ORDER AND REASON FOR CHANGE ORDER.

The total construction cost is \$8,000,000. Under budget after value engineering, 1 million savings.

Mac Dill Air Force Main Exchange Image Upgrade
Tampa, Florida
3108 N Boundary Boulevard Bldg. 926, Tampa, Florida
33621-5050

D: DESCRIPTION OF WORK

Interior and exterior renovation project of approximately 80,000 square feet. The scope of work includes interior image upgrade, structural stiffening of an existing steel frame building to meet the current Hurricane Code and the renovation of the Outdoor Sales area of approximately 10,000 square feet to meet ADA requirements. The intricate phasing of construction was established to have the Main Exchange in full operation at all times during the construction. Extensive coordination with the Contractor and Owner was required.

E: CONTRACT AMOUNT AWARDED TO YOUR FIRM

\$451,000.00. This fee is inclusive of site investigation, building condition assessment, development of new scope due to unforeseen condition in addition to typical design, design development, construction documents and construction administration.

F: LENGTH OF CONTRACT >TIME EXTENSION, IF ANY

2 years and six months. The length of the contract was adjusted due to the change of scope of work.

G: DETAILED INFORMATION ON ANY CHANGE ORDERS. INCLUDE AMOUNT AND DESCRIPTION OF CHANGE ORDER AND REASON FOR CHANGE ORDER.

The total construction cost is \$1,814,000.00. The change orders for error and omission is less than 1%. The total change order generated from additional scope of work requested by owner and for unforeseen condition is \$92,973.00. The architect and structural engineer generated a cost savings change order of -\$34,540.00 in revising the prefab steel structure sys.

G > PROJECT TEAM

Describe the organization of the proposed project team, stressing level of experience and qualification, detailing the level of involvement, field of expertise and estimated hours for each member of the team.

Singer Architects are available and ready to begin the tasks specified promptly for this RFQ. Singer Architects has a total of 13 employees: 01 hands-on president and 01 principle, 01 senior project manager, 01 project architect, 4 project managers, 01 assistant project/BIM manager, 3 intern and 1 administration staff. This Continuing Contract for Architectural Design Service will fall perfectly into our schedule as a few of our projects will be completed in the upcoming months and several staff members will be available to take on this project with undivided attention or as needed. Please view our current load of work on page 127 to confirm Singer Architects' availability to begin immediately and to continue the work on an on-going and/or as needed basis.

Singer Architects in-house expertise for other disciplines required for building, structure and infrastructure renovations and repairs. Due to our extensive experience in building structure and infrastructure renovations and repairs, Singer Architects have developed a well rounded expertise to ensure a successful project.

Teen Woon and Michael Noell are LEED accredited and have in depth understanding of construction and construction administration issues. Michael Noell has 35 years of in-depth experience and understanding of South Florida construction, Code and ADA requirements. He will provide valuable QA/QC (Quality Assurance/Quality Control) and code review for design, detailing and construction documents. Singer Architects is experienced in Design Build and the development of Design Build Criteria Package for bidding purpose. We have over 50 years of experience in providing our client competent and unmatched Architecture/Engineering services in Broward County

Singer Architects has established and extensive experience with continuing services work having provided ongoing A/E services for Broward County from 1998 through 2002, from 2006 through 2009, and 2010 through current. Since 2001, continuing services for over 200 projects have been provided for the Broward County Aviation Department at Fort Lauderdale / Hollywood International Airport and North Perry Airport.

SINGER ARCHITECTS
A RUSSELL AND DAWSON COMPANY

H > MUNICIPAL STAFF

Describe what municipal staff support is anticipated for this type of engagement.

Singer Architects views every project as a challenge. Our first step in any assignment is to analyze the need and develop a solution that is unique to the challenge utilizing all the best and most appropriate resources we have available. Often the Owners staff are one of those resources, people who work for The City of Hollywood understand the issues surrounding Continuing Contract Projects, so our first task is always listening. Listening to our client is one of our best skills, one which lays the ground work for a successful outcome for everyone involved.

Once we understand the project specific challenge we will strive toward building consensus through a cooperative effort between The City of Hollywood staff, any consultants you may have, and our team of professionals. Once we have developed a consensus on an appropriate design solution, the team will strive towards reaching our common goals. We will always begin by understanding your needs and verifying an appropriate scope of work.

Our project **team** has been thoughtfully selected to accomplish the above-stated goals. Each consultant has been carefully chosen for their expertise in their specialty and their experience in working with Singer Architects as a **team**.

Singer Architects makes a concerted effort to actively involve all consultants early in a project. Consultant involvement in early phases is critical in managing the budget and becomes the “roadmap” for success through the development of construction documents and further ensures program needs are met. During the construction phase, we also maintain a team approach, adding the selected contractor to the team, knowing that their knowledge and experience can also add value, avoiding pitfalls that each contractor may have experienced over their careers.

For the Hollywood Continuing Contract there are three key elements that must be controlled:

- Understanding the scope and quality requirements of the facility as described by your staff, and tracking the program and all aspects of the project from start to successful finish.
- Developing, tracking and maintaining the schedule for design and construction of the project. This will ensure that milestones and delivery are completed in a timely basis. We

JAFCO Photo By: Robin Hill

SINGER ARCHITECTS
A RUSSELL AND DAWSON COMPANY

understand the importance of time and the orderly completion of the facility in the City's timeline

- Establishing, tracking and compliance with the budgets: With every project, you as owner want to avoid surprises. The City of Hollywood has an established budget that we will work towards. We will communicate cost issues during the budgeting process and we will track forecasted costs as the design is further developed are further developed, contingencies will be adjusted as unknowns are confirmed and actual costs will be kept within the budgets. You will be pleased at our ability to manage your projects to successful completion.

Our Team will manage the Continuing Contract Projects and work closely with The City of Hollywood municipal staff to achieve your goals for each project. Our tried and proven methodology will accomplish your goals in a timely and cost effective manner.

SINGER ARCHITECTS
A RUSSELL AND DAWSON COMPANY

I > APPROACH

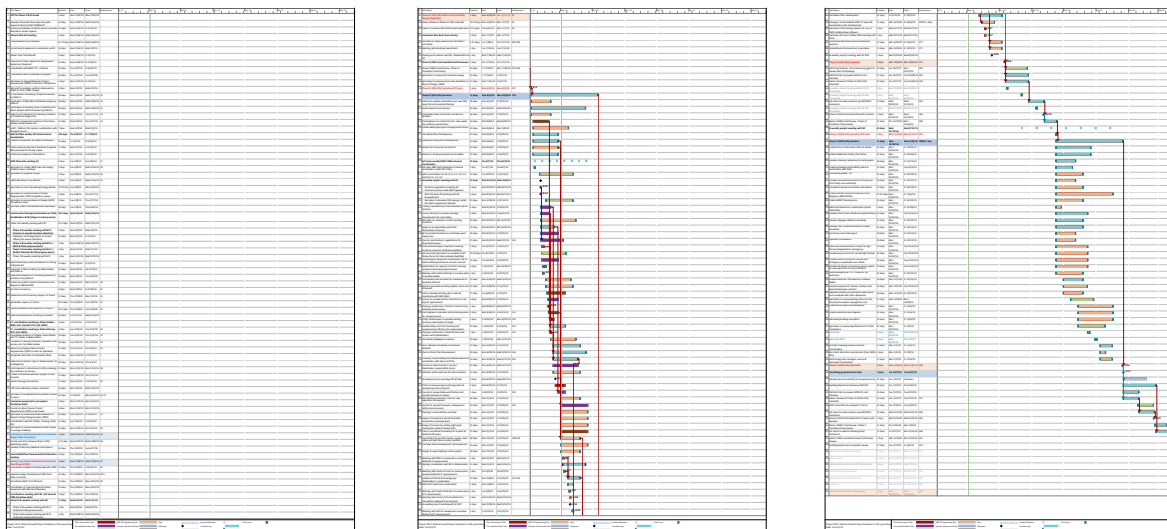

Describe your approach to performing the work. This should include your role and that of other parties involved in the data gathering, data analysis and recommendation process.

SCHEDULE CONTROL:

Every Architect/Owner team should practice schedule control. The first action is to determine when the project is actually needed. The overall schedule will then reflect all tasks from the beginning to the completion. To control the schedule means to contract with all parties so that the goals are met. That means protecting against slippage. Good contract language will help but the real key is managing float. Float is simply defined as extra time within the schedule which may not be needed. If you left extra time in a contractors schedule they would likely put things off that they could have done earlier. So in managing the schedule, you as owner want to control the float. That way if someone does not perform on time, you own the extra days in the schedule. You can decide to extend a contract or not. It could be that owner driven changes require more time (you would need the float time). It could be that weather drives the contractors schedule behind (you still need the float to solve the problem). It could be that the building department takes longer than expected for permit review. Every way you turn, you will need to make up for some delay that is likely outside of your control. As consultants we always encourage Owners to build float into their schedules, but do not allow your contractors to have control over it. It is rightfully the tool of the Owner.

Developing, tracking and maintaining the schedule is a critical management task for Singer Architects and CMS. Expediting projects to meet difficult schedules is our forte as we have proven on several recent projects completed for the Broward County Aviation Department including the Terminal 3 Checkpoint Renovation/Expansion project and the Trailer Office Relocation Cost Study.

A detailed Microsoft Project schedule and weekly updates for the Owner, our staff and sub-consultants ensures internal milestones and owner required deadlines are met. Singer Architects team will meet any reasonable schedule provided by the Owner. Below is a sample of what a project implemented in Microsoft Project conveys:

BCJC Midrise Renovation Project (Mid Rise Schedule)-Singer Architects

SINGER ARCHITECTS
A RUSSELL AND DAWSON COMPANY

COST CONTROL:

Every Owner wants their project delivered under budget. Certain tools are effective in maintaining adequate budget. The first such tool is a solid estimate of all the project costs. The Architect/Owner team should have a complete detailed cost estimate of every aspect of the project. That knowledge will go a long way in understanding the many things that will happen along the life of a project. The architect's fee will likely be based on the construction budget. The contractor's bids will be evaluated based on the construction estimate, and final costs will be judged compared to the estimate. The cost estimate is a tool. It should be prepared with everything you can imagine included. Subsequent to developing a construction estimate, the Architect/Owner team should add a design budget, an Owners Allowance, and potentially a Construction Contingency. Typically we would recommend different approval levels of authority for an Owners Allowance, which might be within a construction agreement, but not touchable by the contractor without explicit approval by the Owner. A Construction Contingency may be spendable by the contractor under certain criteria. Either way, a properly managed project will have adequate funds in those areas knowing that there are issues in construction that may need to be paid for. Funds should be readily available to the Owner to resolve issues. Budgetary constraints are a fact of life and this project will be no exception.

QUALITY CONTROL:

The Singer Architects staff will work in unison with the design team and city staff to arrive at a fully functional, value engineered project which yields the best construction value within the projects constraints and within the budget. CMS will develop detailed construction cost estimates during each phase to ensure budget compliance and their value engineering suggestions will be incorporated as necessary.

Addendum issued.

SINGER ARCHITECTS
A RUSSELL AND DAWSON COMPANY

City of Hollywood, Florida

PROCUREMENT SERVICES RM. 303
P. O. Box 229045 ZIP 33022-9045

NOTICE TO PROPOSERS

NOTICE IS HEREBY GIVEN, that the City Commission of the City of Hollywood, Florida is advertising for Sealed Request for Qualifications, which will be received by the City Clerk of the City of Hollywood, Florida until **3:00 P.M., November 6, 2014**, at which time they will be opened and publicly read in the Procurement Services Division, Room 303, City Hall, 2600 Hollywood Boulevard, Hollywood, Florida. FOR: **Continuing Contract for Architectural Design Services (PW14-016)**

RFQ NO. 4436-14-RD
ADDENDUM NO. 1

Please make the following changes (additions, deletions or corrections) in the above named RFP.

Questions submitted in regards to the above RFP and corresponding answers:

- Q1: Are we required to include sub-consultants for services that we cannot provide in-house?
- A1: **Sub-consultants for services that you cannot provide in-house should be included in the submittal. The selection of the Architectural firm however does not guarantee that the services of the sub-consultants will be utilized.**
- Q2: If so, are we required to submit a 330 for each sub or can we combine them under one?
- A2: **A 330 for each sub-consultant should be included.**
- Q3: Are looking for a design team which includes engineering consultants or just qualifications for architectural services?
- A3: **This is an RFQ for Architectural Services, that said it is understood that the architectural firm would have a preferred group of sub-consultants that they would prefer to work with and have a successful record of working together.**
- Q4: If we are to submit with a design team can we include a firm that currently has a continuing contract with the City/
- A4: **Your submittal can included sub-consultants that currently have a continuing contract with the City.**
- Q5: Is it permissible to print on both sides of the paper?
- A5: **It is permissible to print on both sides of the paper provided that the binding is such that it is easy to view the back side of the page.**

SINGER ARCHITECTS
A RUSSELL AND DAWSON COMPANY

RFQ NO. 4436-14-RD
ADDENDUM NO. 1

Q6: Are soft cover bindings for original and copies acceptable?

A6: **Soft cover bindings are acceptable.**

Q7: When putting my team together are you looking for a full Architectural and Engineering Team, or just Architectural Services? Other than mentioning Testing there isn't any mention of services other than architectural.

A7: **Please review the answers to Question #1 and Question #3.**

Q8: Is there a page limit?

A8: **There is not a page limit but the submittal should be concise.**

All other specifications, terms & conditions remain the same.

MAILED RFQ'S

If you have already submitted your printed Request for Qualifications, it will be retained in the City Clerk's Office until the Proposal opening time and date. If you wish to pick up your RFP that has already been submitted, you can do so by showing proper identification, in the Office of the City Clerk, 2600 Hollywood Blvd, Room 221, Hollywood, Florida 33020.

Please sign and return with your RFQ.

RFP CHECKLIST

Please check each line item after the completion of the appropriate item.

TW

I verify that the signature on page number one (1) is the signature of the person authorized to bind the agreement. (Preferably in blue ink)

TW

I acknowledge reading and signing the Hold Harmless Statement.

TW

I have included all information, certificates, licenses and additional documentation as required by the City in this RFP document.

TW

I have checked for any addendums to this RFP, and will continue to check for any addendums up to the due date and time of this RFP.

TW

I have submitted one (1) original and eight (8) copies and one (1) electronic copy (CD) of the entire proposal with addendums.

TW

I have verified that the outside address label of my RFP package is clearly marked to include my company's name, address, RFP number and date of RFP opening.

TW

I have read and completed (if applicable) the "Disclosure of Conflict of Interest".

TW

I am aware that a Notice of Intent to award this bid shall be posted on the City's website at www.hollywoodfl.org and on the Procurement Services bulletin board in room 303 at City Hall, and that it is my responsibility to check for this posting. Also, I have provided my email address, as the City, at its discretion, may provide me information by such means regarding this procurement process.

TW

I have submitted all supporting documentation for local preference eligibility, which must be received with the bid package prior to the bid opening date and time (if applicable).

**SWORN STATEMENT PURSUANT TO SECTION 287.133 (3) (a) FLORIDA
STATUTES ON PUBLIC ENTITY CRIMES**

THIS FORM MUST BE SIGNED AND SWORN TO IN THE PRESENCE OF A NOTARY PUBLIC OR
OTHER OFFICIAL AUTHORIZED TO ADMINISTER OATHS

1. This form statement is submitted to CITY OF HOLLYWOOD
by TEEN WOON / VICE PRESIDENT for SINGER ARCHITECTS, INC.
(Print individual's name and title) (Print name of entity submitting sworn statement)
whose business address is 915 MIDDLE RIVER DRIVE #404, FT. LAUDERDALE, FL 33304
and if applicable its Federal Employer Identification Number (FEIN) is 59-2127487 If the entity has no FEIN,
include the Social Security Number of the individual signing this sworn statement.

2. I understand that "public entity crime," as defined in paragraph 287.133(1)(g), Florida Statutes, means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or with the United States, including, but not limited to, any bid, proposal, reply, or contract for goods or services, any lease for real property, or any contract for the construction or repair of a public building or public work, involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misinterpretation.

3. I understand that "convicted" or "conviction" as defined in Paragraph 287.133(1)(b), Florida Statutes, means a finding of guilt or a conviction of a public entity crime, with or without an adjudication of guilt, in an federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, nonjury trial, or entry of a plea of guilty or nolo contendere.

4. I understand that "Affiliate," as defined in paragraph 287.133(1)(a), Florida Statutes, means:

1. A predecessor or successor of a person convicted of a public entity crime, or
2. An entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public entity crime. The term "affiliate" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

5. I understand that "person," as defined in Paragraph 287.133(1)(e), Florida Statutes, means any natural person or any entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which bids or applies to bid on contracts let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, executives, partners, shareholders, employees, members, and agents who are active in management of an entity.

6. Based on information and belief, the statement which I have marked below is true in relation to the entity submitting this sworn statement. (Please indicate which statement applies.)

☒ Neither the entity submitting sworn statement, nor any of its officers, director, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, nor any affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

☐ The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

SINGER ARCHITECTS
A RUSSELL AND DAWSON COMPANY

City of Hollywood, Florida

Bid RFQ-4436-14-RD

City of Hollywood, Florida
Solicitation #RFQ-4436-14-RD

The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime, but the Final Order entered by the Hearing Officer in a subsequent proceeding before a Hearing Officer of the State of the State of Florida, Division of Administrative Hearings, determined that it was not in the public interest to place the entity submitting this sworn statement on the convicted vendor list. (attach a copy of the Final Order).

I UNDERSTAND THAT THE SUBMISSION OF THIS FORM TO THE CONTRACTING OFFICER FOR THE PUBLIC ENTITY IDENTIFIED IN PARAGRAPH 1 (ONE) ABOVE IS FOR THAT PUBLIC ENTITY ONLY AND THAT THIS FORM IS VALID THROUGH DECEMBER 31 OF THE CALENDAR YEAR IN WHICH IT IS FILED. I ALSO UNDERSTAND THAT I AM REQUIRED TO INFORM THAT PUBLIC ENTITY PRIOR TO ENTERING INTO A CONTRACT IN EXCESS OF THE THRESHOLD AMOUNT PROVIDED IN SECTION 287.017 FLORIDA STATUTES FOR A CATEGORY TWO OF ANY CHANGE IN THE INFORMATION CONTAINED IN THIS FORM.

DRUG-FREE WORKPLACE PROGRAM

IDENTICAL TIE BIDS - Preference shall be given to businesses with drug-free workplace programs. Whenever two or more bids which are equal with respect to price, quality, and service are received by the State or by any political subdivision for the procurement of commodities or contractual services, a bid received from a business that certifies that it has implemented a drug-free workplace program shall be given preference in the award process. Established procedures for processing tie bids will be followed if none of the tied vendors have a drug-free workplace program. In order to have a drug-free workplace program, a business shall:

1. Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.
2. Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violations.
3. Give each employee engaged in providing the commodities or contractual services that are under bid a copy of the statement specified in subsection (1).
4. In the statement specified in subsection (1), notify the employee that, as a condition of working on the commodities or contractual services that are under bid, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.
5. Impose a sanction on, or require the satisfactory participation in a drug abuse assistance or rehabilitation program (if such is available in the employee's community) by, any employee who is so convicted.
6. Make a good faith effort to continue to maintain a drug-free workplace through implementation of these requirements.

As the person authorized to sign the statement, I certify that this firm complies fully with the above requirements.

NAME OF COMPANY

DRUG FREE WORKPLACE

Our policy regarding the work-related effects of drug use and the unlawful possession of controlled substances on Company premises is as follows:

Employees are expected and required to report to work on time and in appropriate mental and physical condition for work. It is our intent and obligation to provide a drug-free, healthful, safe and secure work environment.

The unlawful manufacture, distribution, dispensation, possession, use or influence of a controlled substance on Company premises or while conducting Company business either on or off Company premises is prohibited. Violations of this policy will result in disciplinary action, up to and including termination, and may have legal consequences.

This Company recognizes drug dependency as an illness and a major health problem. This Company also recognizes drug abuse as a potential health, safety, and security problem. Employees needing help in dealing with such problems are encouraged to seek counseling or contact one of the Principals for a list of counseling centers. Conscientious efforts to seek help will not jeopardize any employee's job.

Employees must, as a condition of employment, abide by the terms of the above policy and report any conviction under a criminal drug statute for violations occurring on or off Company premises while conducting Company business. A report of conviction must be made to the Principals of Singer Architects within five (5) days after the conviction. (This requirement is mandated by the Drug-Free Workplace Act of 1988.)

SOLICITATION, GIVING, AND ACCEPTANCE OF GIFTS POLICY

Florida Statute 112.313 prohibits the solicitation or acceptance of Gifts. - "No Public officer, employee of an agency, local government attorney, or candidate for nomination or election shall solicit or accept anything of value to the recipient, including a gift, loan, reward, promise of future employment, favor, or service, based upon any understanding that the vote, official action, or judgment of the public officer, employee, local government attorney, or candidate would be influenced thereby." The term "public officer" includes "any person elected or appointed to hold office in any agency, including any person serving on an advisory body."

The City of Hollywood policy prohibits all public officers, elected or appointed, all employees, and their families from accepting any gifts of any value, either directly or indirectly, from any contractor, vendor, consultant, or business with whom the City does business.

The State of Florida definition of "gifts" includes the following:

- Real property or its use,
- Tangible or intangible personal property, or its use,
- A preferential rate or terms on a debt, loan, goods, or services,
- Forgiveness of indebtedness,
- Transportation, lodging, or parking,
- Food or beverage,
- Membership dues,
- Entrance fees, admission fees, or tickets to events, performances, or facilities,
- Plants, flowers or floral arrangements
- Services provided by persons pursuant to a professional license or certificate.
- Other personal services for which a fee is normally charged by the person providing the services.
- Any other similar service or thing having an attributable value not already provided for in this section.

Any contractor, vendor, consultant, or business found to have given a gift to a public officer or employee, or his/her family, will be subject to dismissal or revocation of contract.

As the person authorized to sign the statement, I certify that this firm will comply fully with this policy.
