VARIANCE CRITERIA STATEMENT ROOF AREA COVERAGE

Kosher House Hotel (currently Dolce by Wyndham)
5510 S. State Road 7, Hollywood FL 33314
Approved Resolution #19-DP-04
October 15, 2024

A. That the requested Variance maintains the basic intent and purpose of the subject regulations, particularly as it affects the stability and appearance of the city;

The Height Variance request is for an increase to the percentage of roof area allowed to have a covering. The City of Hollywood Land Development code allows a maximum of 30% of the roof area to be covered in the TOC (Transit Oriented Corridor) district. The existing covered area, indoor and outdoor, is about 3129sf or 28%; the addition of the canopy is 2382 sf (there is a smaller overlap with the existing canopy) which is 21.3%. That makes the proposed total coverage just shy of 50%. Currently the indoor dining area is the smaller of the two dining areas, meaning that most of the seating for the restaurant is uncovered.

The roof top amenity Restaurant is Kosher. It is the only Restaurant in a Hotel that houses 100 rooms. Florida's rainfall pattern has changed over the years and is now more frequent, longer lasting and occurs at any time of day. The Restaurant needs to be able to seat guests in a timely manner to ensure and maintain a positive customer experience.

B. That the requested Variance is otherwise compatible with the surrounding land uses and would not be detrimental to the community;

The requested variance does not affect surrounding land uses and will not be detrimental to the community.

C. That the requested Variance is consistent with and in furtherance of the Goals, Objectives and Policies of the adopted Comprehensive Plan, as amended from time to time, the applicable Neighborhood Plan and all other similar plans adopted by the city;

The requested variance is consistent with the goals and objectives of the Comprehensive Plan. Allowing businesses to fully use their spaces and being able to properly offer service to clients,

customers and guests, is in keeping with what the City of Hollywood promotes, ensuring that both residents and visitors have a positive lasting experience.

D. That the need for the requested Variance is not economically based or self-imposed.

The variance being requested is not self-imposed. It is a request born out of needing to improve and preserve the guest experience of the restaurant roof top amenity.

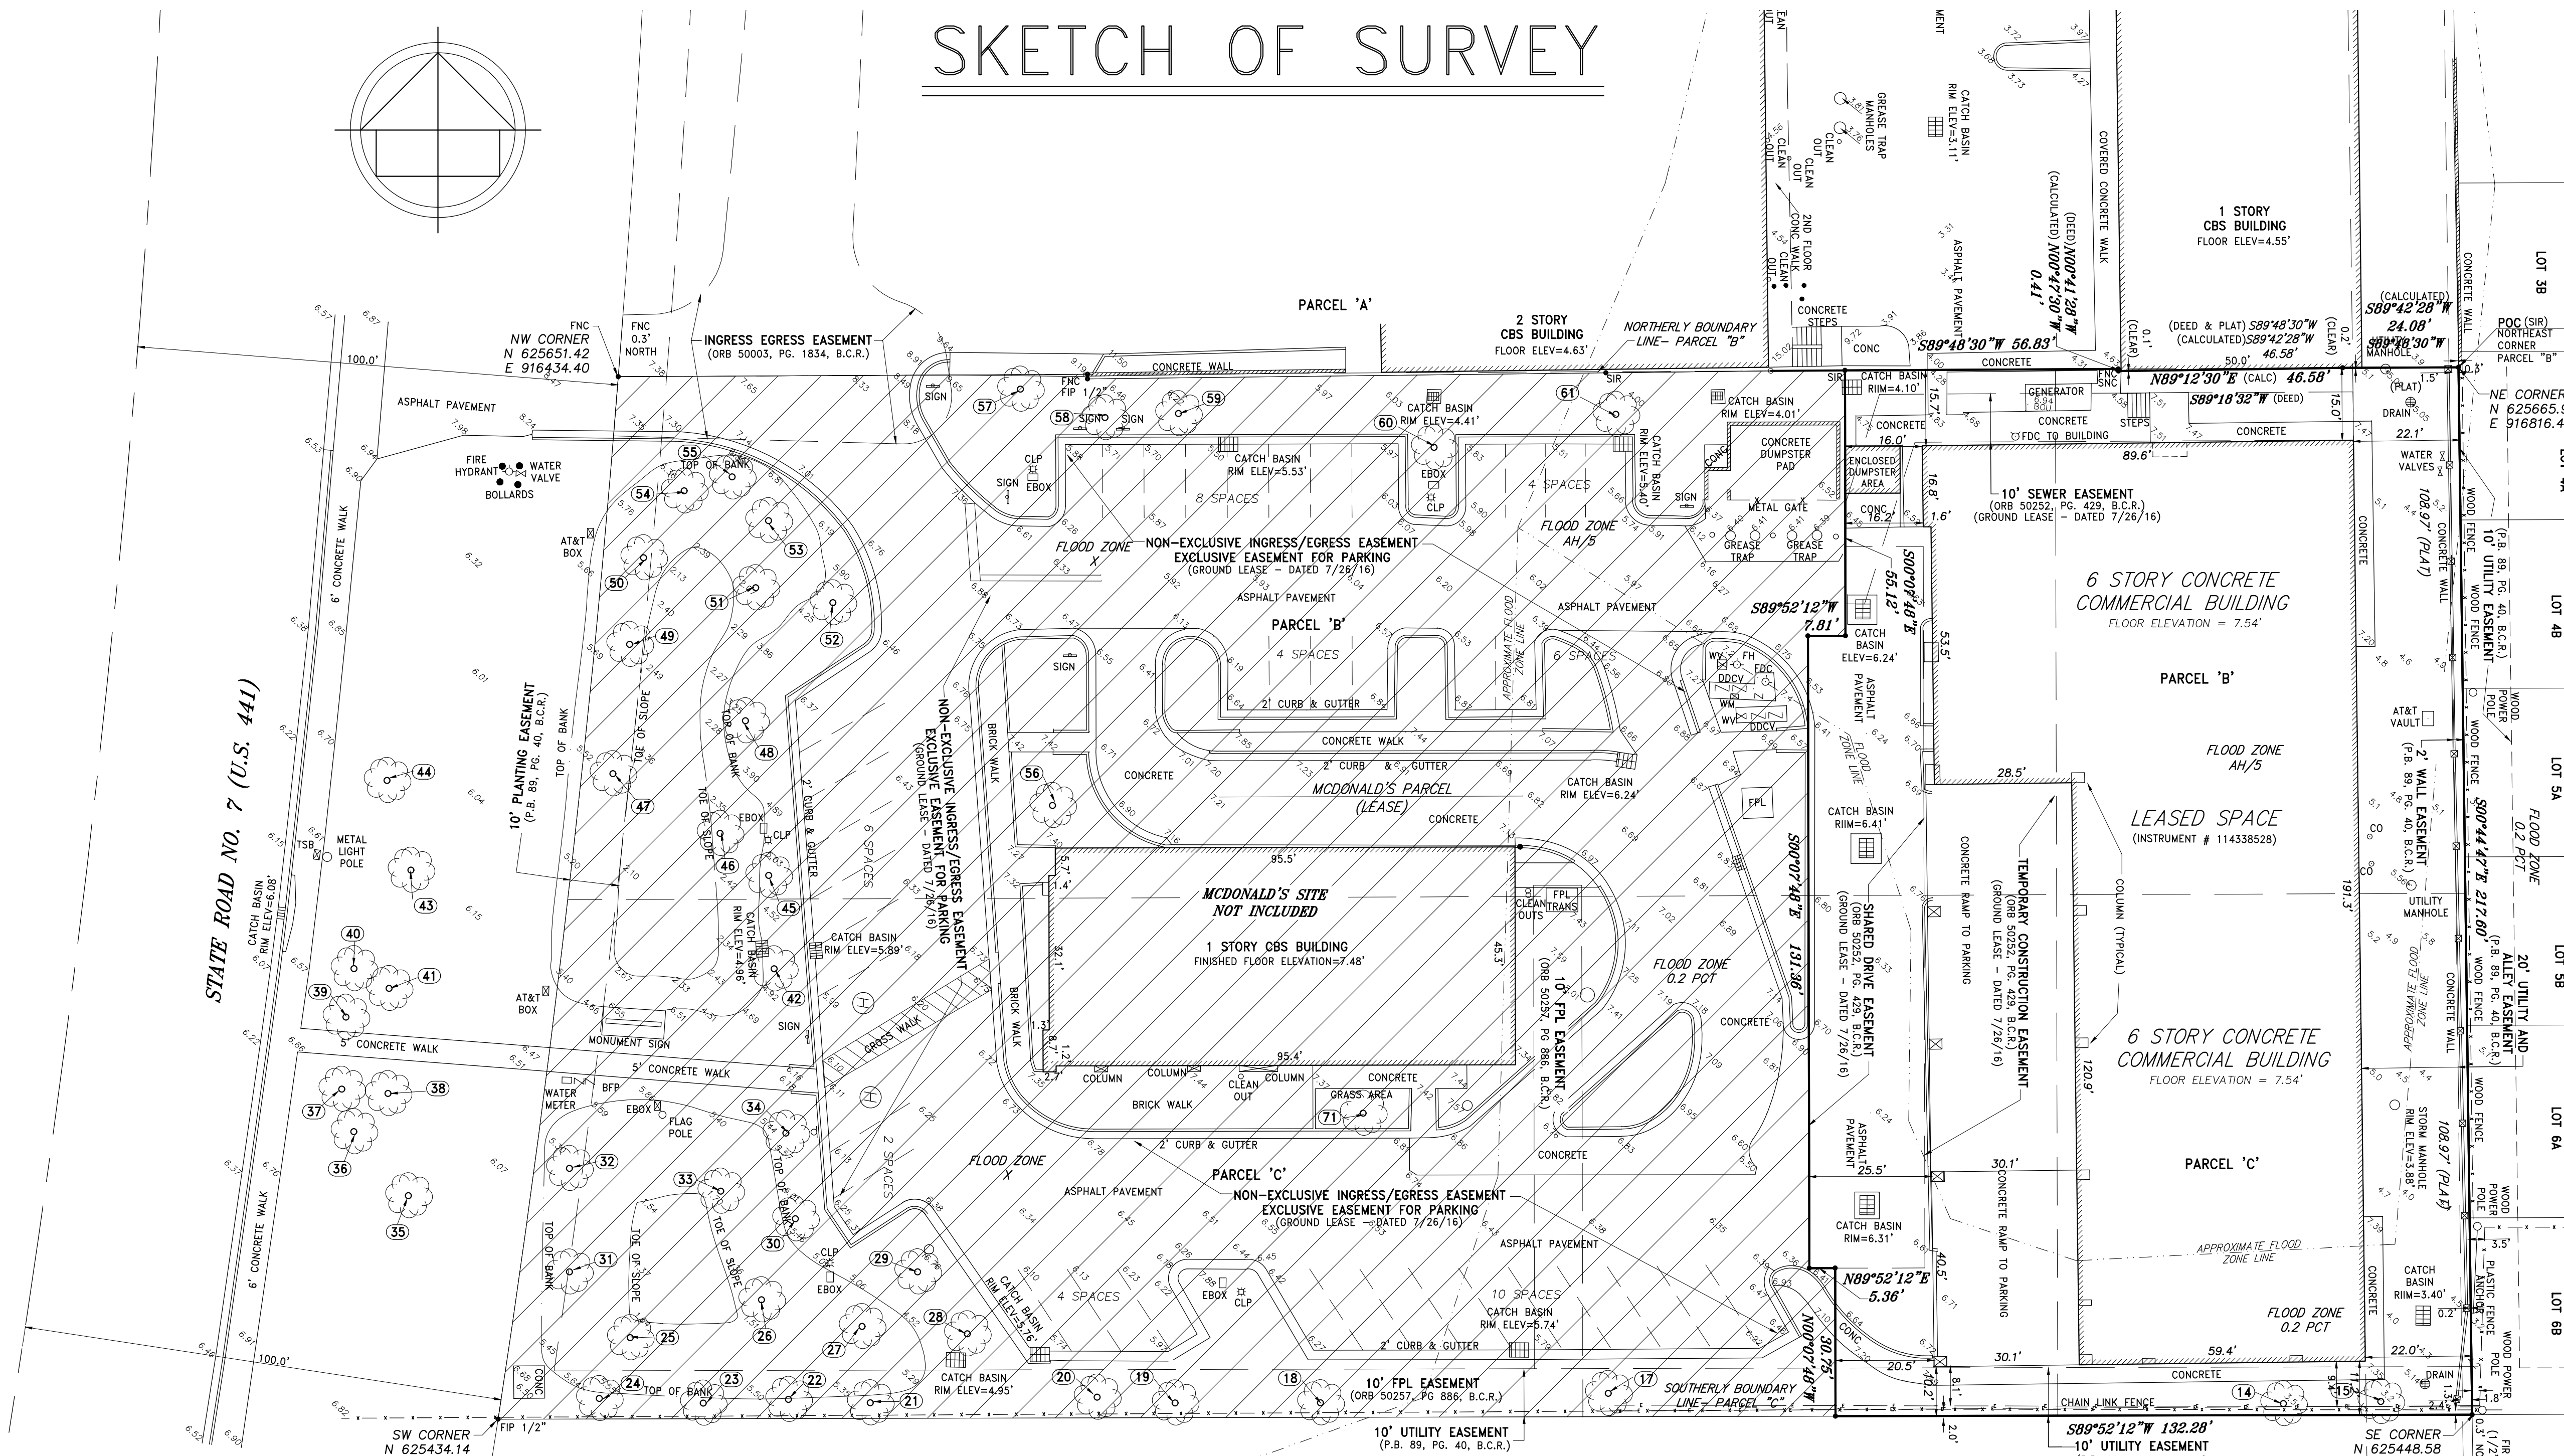

E. That the Variance is necessary to comply with State or Federal Law and is the minimum Variance Necessary to comply with the applicable law.

The Variance being requested does not conflict with any State or Federal Laws.
