1. I do not live in a low and moderate income neighborhood.
2. I believe that the City needs to find as many ways as possible to provide affordable housing, assure that our residents are not hungry and that all children have access to a good education, whatever that takes. I also believe that job training opportunities should be available for unemployed and underemployed citizens.
3. A healthy neighborhood is crime-free, has ample access to purchase food, has schools within the neighborhood and promotes neighbors helping neighbors.
4. I believe the Community Development Advisory Board needs to help assure that the City accesses as many Federal and State grants as are available and that those funds are responsibly and honestly apportioned throughout the City, as appropriate, and that there is proper oversight of the funded projects.
5. I believe I am qualified because I have a background in community planning, have degrees in social work and human services, and am committed to education as a solution to poverty and the challenges caused by poverty (hunger, homelessness, etc.)

Education Advisory Committee - Questions*

Challenges:

1. I think there is a lack of community involvement in the schools.
2. Teachers are not feeling appreciated and parents are not respecting what is happening in school and how much their children can be helped.
3. There is a drain, which will probably now get worse, on public school funding and a brain drain of talented students from the public to the private schools.

Vision:

My vision is for today's schools to be a central meeting point in the neighborhoods in our community and to involve communities in the schools.

Primary Work:

That would depend mostly on how the committee has defined it or what their charge was when they were appointed. I would like to find ways to enhance community involvement and to work and advocate with the Broward County School System to assure that our schools in Hollywood are getting whatever they can in terms of funding, programs and staffing. Deciding on what is most important should be done with input from the county commission, parents, school leaders and representative high school students. In order to know if the mission and goals are being accomplished they need to be clearly defined and have benchmarks that can be measured.

What do you see as the primary work of the Education Advisory Committee? 4. With only one meeting a month, the Committee is limited in what it can do.
