Re: ACOE PERMIT  
Carol Camillo  
1006 N. Southlake Drive  
Hollywood, FL 33109

Description: Install new batter pilings, 90'x40" seawall cap and replace 6'x60' dock  
on existing pilings.

To whom it may concern,

Let this letter be on record as an understanding between the contractor and the city regarding the above mentioned customer's seawall/dock project. Morrison Contractors is aware that both Bldg -structural and engineering reviews may be noted as conditional approvals because the ACOE permit has not been issued yet.

We understand that according to 2012 Florida Statute 166.033 a municipality may not require as a condition of processing or issuing a development permit that an applicant obtain a permit or approval from any state or federal agency. We also understand the issuance of a development permit by a municipality does not create any liability on the part of the municipality for the issuance of the permit if the applicant fails to obtain requisite approvals by a state or federal agency. We understand that the ACOE permit must be issued and submitted to the city prior to final inspection.

Please process our permit as soon as possible.

Thank You,

Michael Morrison

## PROPOSAL

We will supply all of the labor, material and equipment to make emergency and necessary repairs to the existing 90' seawall that is structurally failing and will soon collapse into the lake. The recommended repair is called a "batter pile reinforcement system". It is necessary to remove the 8' x 60' dock to facilitate the seawall repairs. The specifications and construction methods are as follows:

1. Carefully remove the dock. Salvage the existing electrical. The pilings are to remain. Dock frame and surface are to be disposed of.
2. Provide and drive one 12"x12" concrete "King" piling vertically and one matching 12"x12" concrete "Batter" piling at a 15 degree angle end to end at 10' apart. Across the 90' seawall that is a total of 10 kings and 10 batters (20 piles total) against the wall.
3. Remove the entire seawall cap. Dispose of all concrete and steel.
4. Form and pour a new 20" x 40" x 90' concrete seawall cap that will cover the seawall replacing the old one AND cover the newly installed row of concrete pilings. The cap uses #5 rebar steel reinforcement as designed by James Bushouse, P.E. and 5000 psi pumped concrete mix.
5. Pressure wash the wet face of the old seawall panels. Remove all marine growth to reveal all cracks and holes that may exist.
6. Using high strength marine grout we will fill in and seal all seawall panels joints and fill all cracks or holes that are present.
7. Remove all form work.
8. Using barge and crane, realign the existing 7 wood dock pilings as best as possible without breaking them. Note that broken piles will be replaced at cost of \$500.00/each.
9. Upon pilings realigned or replaced, begin the reconstruction of the dock which will now be approximately 6' - 6 1/2' wide x 60' long (due to concrete cap is larger).
10. All dock framing is 2x6 marine .60 CCA treated. All bolts are stainless steel.

11. New dock floor surface will be #1 grade 2x6 marine decking fastened with stainless steel screws.

12. Replace the 1x2 trim on the pilings.

13. Replace the bench seat and rail on each end of the dock 6' long.

14. Replace 4' long rail on seawall.

15. (2) truck loads of backfill are included.

*16. Temp CONC PILING  
to be installed  
7-10-13 mm Col*

**Lump Sum Bid Price: \$30,500.00**

Note: any piling that may be required to be replaced will be at an additional cost of **\$500.00/each** \_\_\_\_\_ Initial

Optional:

8' long black rubber bumpers **\$179.00/each** \_\_\_\_\_ Initial

12" S-cleats **\$39.00/each** \_\_\_\_\_ Initial

5 step aluminum ladder **\$199.00/each** \_\_\_\_\_ Initial

Conditions:

1. The existing electrical will be salvaged to the best of our ability. In any event that repairs or replacement are needed, these costs are additional and will be determined by a licensed subcontracted electrician.

2. There is no water supply or plumbing in this quote.

3. Backfilling the wall and/or landscape removal is ~~by others~~

*included  
mm 7-8-13  
Col*

4. 2 year structural guarantee.

5. Job duration is 3 weeks.

6. Permit time is approximately 6-12 weeks.

7. Temporary concrete pilings will be installed at NO COST to secure the wall safely during the permit process time.

8. Requirements or restrictions of the city, county or state (governmental agencies) may change this proposal. Until preliminary plans are submitted, the exact configuration cannot be confirmed. Any changes will be made in writing with your approval.

9. If you have an HOA, an approval must be obtained prior to submitting plans to any of the governmental agencies.

10. Contractor to obtain all permits and licenses. Have engineer draw and seal plans. Record Notice of Commencement and have all insurance in place including Longshore & Harborworkers Federal Coverage (USLH). Call all inspections. **An allowance of \$1,000.00 is included in the quote for permitting.** Any fees in excess of this amount will be billed separately.

Terms:

Deposit 25%

Upon pilings installed 25%

Upon cap formed 25%

Upon dock and job complete 25%

*Aird Inspected  
mm 7-8-13 Col*

I have read, understand and accept this agreement including all provisions on the reverse side hereof. If received by facsimile provisions will be found on page 4.

SAJ-2013-02195 (GP-DP)

Carol Camillo  
1006 North Southlake Drive  
Hollywood, Florida 33019

Dear Ms. Camillo:

Your application for a Department of the Army permit received on August 5, 2013, has been assigned number SAJ-2013-02195. A review of the information and drawings provided shows the proposed work is to: 1) remove and replace existing batter piles and 20-inch by 40-inch by 90-foot seawall cap; 2) replace an existing dock 6-foot by 60-foot dock, in the same footprint. The project is located in South Lake; 1006 North Southlake Drive, in Section 14, Township 51 South, Range 42 East, Broward County, Florida.

Your project, as depicted on the enclosed drawings, is authorized by Regional General Permit (GP) SAJ-20 and 46. This authorization is valid until March 22, 2018. Please access the Corps' Regulatory webpage to view the special and general conditions for SAJ-20 and 46, which apply specifically to this authorization. The website address is as follows:

<http://www.saj.usace.army.mil/Missions/Regulatory.aspx>

Please be aware this web address is case sensitive and should be entered as it appears above. Once there you will need to click on "Source Book"; and, then click on "General Permits." Then you can click on the specific SAJ permit. You must comply with all of the special and general conditions and any project-specific conditions of this authorization or you may be subject to enforcement action. The following project-specific conditions are included with this authorization:

1. Within 60 days of completion of the work authorized, the attached "Self-Certification Statement of Compliance" must be completed and submitted to the U.S. Army Corps of Engineers. Mail the completed form to the Regulatory Division, Mr. Robert Kirby, Special Projects and Enforcement Branch, 9900 SW 107 Avenue, Miami, Florida 33176.

2. The Permittee understands and agrees that, if future operations by the United States require the removal, relocation, or other alteration, of the structures or work herein authorized, or if, in the opinion of the Secretary of the Army or his authorized representative, said structure or work shall cause unreasonable obstruction to the free navigation of the navigable waters, the Permittee will be required, upon due notice from the U.S. Army Corps of Engineers, to remove, relocate, or alter the structural work or obstructions caused thereby, without expense to the

Reviewed for Code Compliance  
SEP 19 2013  
City of Hollywood, Florida  
Structural

United States. No claim shall be made against the United States on account of any such removal or alteration.

3. Manatee Conditions: The Permittee shall comply with the "Standard Manatee Conditions for In-Water Work – 2011" provided with this permit.

4. Sea Turtle and Smalltooth Sawfish Conditions: The Permittee shall comply with National Marine Fisheries Service's "Sea Turtle and Smalltooth Sawfish Construction Conditions" dated March 23, 2006 and provided with this permit.

5. Turbidity Barriers: Prior to the initiation of any of the work authorized by this permit the Permittee shall install floating turbidity barriers with weighted skirts that extend to within one foot of the bottom around all work areas that are in, or adjacent to, surface waters. The turbidity barriers shall remain in place and be maintained until the authorized work has been completed and all erodible materials have been stabilized.

6. Cultural Resources/Historic Properties:

a. No structure or work shall adversely affect, impact, or disturb properties listed in the National Register of Historic Places (NRHP) or those eligible for inclusion in the NRHP.

b. If during the ground disturbing activities and construction work within the permit area, there are archaeological/cultural materials encountered which were not the subject of a previous cultural resources assessment survey (and which shall include, but not be limited to: pottery, modified shell, flora, fauna, human remains, ceramics, stone tools or metal implements, dugout canoes, evidence of structures or any other physical remains that could be associated with Native American cultures or early colonial or American settlement), the Permittee shall immediately stop all work in the vicinity and notify the Corps. The Corps shall then notify the Florida State Historic Preservation Officer (SHPO) and the appropriate Tribal Historic Preservation Officer(s) (THPO(s)) to assess the significance of the discovery and devise appropriate actions.

c. A cultural resources assessment may be required of the permit area, if deemed necessary by the SHPO, THPO(s), or Corps, in accordance with 36 CFR 800 or 33 CFR 325, Appendix C (5). Based, on the circumstances of the discovery, equity to all parties, and considerations of the public interest, the Corps may modify, suspend or revoke the permit in accordance with 33 CFR Part 325.7. Such activity shall not resume on non-federal lands without written authorization from the SHPO and the Corps.

d. In the unlikely event that unmarked human remains are identified on non-federal lands, they will be treated in accordance with Section 872.05 Florida Statutes. All work in the vicinity shall immediately cease and the Permittee shall immediately notify the medical examiner, Corps, and State Archeologist. The Corps shall then notify the appropriate SHPO and THPO(s). Based, on

the circumstances of the discovery, equity to all parties, and considerations of the public interest, the Corps may modify, suspend or revoke the permit in accordance with 33 CFR Part 325.7. Such activity shall not resume without written authorization from the State Archeologist, SHPO and the Corps.

7. This authorization does not obviate the necessity to obtain any other Federal, State, or local permits, which may be required. Prior to the initiation of any construction, projects qualifying for this NWP/RGP permit must qualify for an exemption under section 403.813(1), F.S. or 373.406, F.S., or otherwise be authorized by the applicable permit required under Part IV of Chapter 373, F.S., by the Department of Environmental Protection, a water management district under section 373.069, F.S., or a local government with delegated authority under section 373.441, F.S., and receive Water Quality Certification (WQC) and applicable Coastal Zone Consistency Concurrence (CZCC) or waiver thereto, as well as any authorizations required for the use of state-owned submerged lands under Chapter 253, F.S., and, as applicable, Chapter 258, F.S. You should check State-permitting requirements with the Florida Department of Environmental Protection or the appropriate water management district.

8. No installation of any type of piling greater than 24-inch in diameter or installation of any size of metal piling or sheet piling by impact hammer is authorized by this permit.

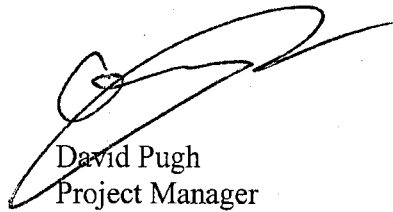

This authorization does not include conditions that would prevent the 'take' of a state-listed fish or wildlife species. These species are protected under sec. 379.411, Florida Statutes, and listed under Rule 68A-27, Florida Administrative Code. With regard to fish and wildlife species designated as species of special concern or threatened by the State of Florida, you are responsible for coordinating directly with the Florida Fish and Wildlife Conservation Commission (FWC). You can visit the FWC license and permitting webpage (<http://www.myfwc.com/license/wildlife/>) for more information, including a list of those fish and wildlife species designated as species of special concern or threatened. The Florida Natural Areas Inventory (<http://www.fnai.org/>) also maintains updated lists, by county, of documented occurrences of those species.

This authorization does not give absolute Federal authority to perform the work as specified on your application. The proposed work may be subject to local building restrictions mandated by the National Flood Insurance Program. You should contact your local office that issues building permits to determine if your site is located in a flood-prone area, and if you must comply with the local building requirements mandated by the National Flood Insurance Program.

If you are unable to access the internet or require a hardcopy of any of the conditions, limitations, or expiration date for the above referenced RGP, please contact David Pugh by telephone at 561-472-3514.

Thank you for your cooperation with our regulatory program. The Corps Jacksonville District Regulatory Division is committed to improving service to our customers. We strive to perform our duty in a friendly and timely manner while working to preserve our environment. We invite you to take a few minutes to visit <http://per2.nwp.usace.army.mil/survey.html> and complete our automated Customer Service Survey. Your input is appreciated – favorable or otherwise.

Sincerely,

A handwritten signature in black ink, appearing to be 'David Pugh', written over the printed name and title.

GENERAL CONDITIONS

33 CFR PART 320-330

PUBLISHED FEDERAL REGISTER DATED 13 NOVEMBER 1986

1. The time limit for completing the work authorized ends on **date identified in the letter**. If you find that you need more time to complete the authorized activity, submit your request for a time extension to this office for consideration at least one month before the above date is reached.
2. You must maintain the activity authorized by this permit in good condition and in conformance with the terms and conditions of this permit. You are not relieved of this requirement if you abandon the permitted activity, although you may make a good faith transfer to a third party in compliance with General Condition 4 below. Should you wish to cease to maintain the authorized activity or should you desire to abandon it without a good faith transfer, you must obtain a modification of this permit from this office, which may require restoration of the area.
3. If you discover any previously unknown historic or archeological remains while accomplishing the activity authorized by this permit, you must immediately notify this office of what you have found. We will initiate the Federal and state coordination required to determine if the remains warrant a recovery effort or if the site is eligible for listing in the National Register of Historic Places.
4. If you sell the property associated with this permit you must obtain the signature of the new owner in the space provided and forward a copy of the permit to this office to validate the transfer of this authorization.
5. If a conditioned water quality certification has been issued for your project, you must comply with the conditions specified in the certification as special conditions to this permit. For your convenience, a copy of the certification is attached if it contains such conditions.
6. You must allow a representative from this office to inspect the authorized activity at any time deemed necessary to ensure that it is being or has been accomplished in accordance with the terms and conditions of your permit.

**DEPARTMENT OF THE ARMY PERMIT TRANSFER REQUEST**

**PERMIT NUMBER: SAJ-2013-02195 (GP-DP)**

When the structures or work authorized by this permit are still in existence at the time the property is transferred, the terms and conditions of this permit will continue to be binding on the new owner(s) of the property. Although the construction period for works authorized by Department of the Army permits is finite, the permit itself, with its limitations, does not expire.

To validate the transfer of this permit and the associated responsibilities associated with compliance with its terms and conditions, have the transferee sign and date below and mail to the U.S. Army Corps of Engineers, Enforcement Section, Post Office Box 4970, Jacksonville, FL 32232-0019.

### Seawall Repair - Plan View

Scale: 1/4" = 1'-0"

#### General Notes:

- Licensed Contractor shall verify the existing conditions prior to commencement of the work. Any conflicts or omissions between existing conditions or the various elements of the working drawings shall be brought to the attention of the Engineer prior to the commencement of the work. The Licensed Contractor and all subcontractors are responsible for all lines, elevations, and measurements.
- Do not scale drawings for dimensions.
- All unanticipated or unforeseen demolition and/or new construction conditions which require deviation from the plans and notes herein shall be reported to the Engineer prior to commencement of work.
- Licensed Contractor to verify location of existing utilities prior to commencing work.
- The Licensed contractor to install and remove all shoring and bracing as required for the proper execution of the work.
- Licensed Contractor to obtain all permits as necessary from all Local, State, and Federal agencies.
- For all prestressed piles, extend pile strands a min. of 18" into cap steel or cut strands even w/ top of pile & dowel & epoxy (2) #5 L-bars, 24" long w/ 12" bend, into top of pile, w/ a min. of 4" embedment.
- Existing seawall panels, new batter pilings and new king pilings to have a minimum 4" penetration into the new seawall cap forms.
- Concrete piling to be 12"x12" prestressed piles with (4) 7/16" strands.
- Piles to be driven a minimum of 8' into berm with a minimum bearing capacity of 10 tons.
- Piles to be driven with a drop hammer or gravity hammer. The hammer weight shall not be less than 3,000 lbs and the fall shall not exceed 6 feet.
- Concrete to be min. 5000 psi @ 28 days, .40 water/cement ratio.
- Reinforcing steel shall be in conformance with the latest version of ASTM A615 Grade 60 Specifications. All reinforcement shall be placed in accordance with ACI 315 and ACI Manual of Standard Practice.
- Splices in reinforcing bars shall not be less than 48 bar diameters and reinforcing shall be continuous around all corners and changes in direction. Continuity shall be provided at corners or changes in direction by bending the longitudinal steel around the corner 48 bar diameters.
- Owner shall employ and pay for testing services from an independent testing laboratory for concrete sampling and testing in accordance with ASTM.
- All framing materials to be pressure treated, southern pine, grade 2 or better, min. Fb = 1450 psi or better.
- All hardware to be galvanized or stainless steel.
- Elevations shown are based on the national geodetic vertical datum of 1929.
- Design in accordance with 2010 Florida Building Code.

## STANDARD MANATEE CONDITIONS FOR IN-WATER WORK

2011

The permittee shall comply with the following conditions intended to protect manatees from direct project effects:

- a. All personnel associated with the project shall be instructed about the presence of manatees and manatee speed zones, and the need to avoid collisions with and injury to manatees. The permittee shall advise all construction personnel that there are civil and criminal penalties for harming, harassing, or killing manatees which are protected under the Marine Mammal Protection Act, the Endangered Species Act, and the Florida Manatee Sanctuary Act.
- b. All vessels associated with the construction project shall operate at "Idle Speed/No Wake" at all times while in the immediate area and while in water where the draft of the vessel provides less than a four-foot clearance from the bottom. All vessels will follow routes of deep water whenever possible.
- c. Siltation or turbidity barriers shall be made of material in which manatees cannot become entangled, shall be properly secured, and shall be regularly monitored to avoid manatee entanglement or entrapment. Barriers must not impede manatee movement.
- d. All on-site project personnel are responsible for observing water-related activities for the presence of manatee(s). All in-water operations, including vessels, must be shutdown if a manatee(s) comes within 50 feet of the operation. Activities will not resume until the manatee(s) has moved beyond the 50-foot radius of the project operation, or until 30 minutes elapses if the manatee(s) has not reappeared within 50 feet of the operation. Animals must not be herded away or harassed into leaving.
- e. Any collision with or injury to a manatee shall be reported immediately to the Florida Fish and Wildlife Conservation Commission (FWC) Hotline at 1-888-404-3922. Collision and/or injury should also be reported to the U.S. Fish and Wildlife Service in Jacksonville (1-904-731-3336) for north Florida or in Vero Beach (1-772-562-3909) for south Florida, and emailed to FWC at [ImperiledSpecies@mfwc.com](mailto:ImperiledSpecies@mfwc.com).
- f. Temporary signs concerning manatees shall be posted prior to and during all in-water project activities. All signs are to be removed by the permittee upon completion of the project. Temporary signs that have already been approved for this use by the FWC must be used. One sign which reads *Caution: Boaters* must be posted. A second sign measuring at least 8½" by 11" explaining the requirements for "Idle Speed/No Wake" and the shut down of in-water operations must be posted in a location prominently visible to all personnel engaged in water-related activities. These signs can be viewed at [http://www.mfwc.com/WILDLIFE-HABITAT/manatee\\_sign\\_vendors.htm](http://www.mfwc.com/WILDLIFE-HABITAT/manatee_sign_vendors.htm). Questions concerning these signs can be forwarded to the email address listed above.

CAUTION, MANATEE HABITAT

Southeast Regional Office  
263 13th Avenue South  
St. Petersburg, FL 33701

## SEA TURTLE AND SMALLTOOTH SAWFISH CONSTRUCTION CONDITIONS

The permittee shall comply with the following protected species construction conditions:

- a. The permittee shall instruct all personnel associated with the project of the potential presence of these species and the need to avoid collisions with sea turtles and smalltooth sawfish. All construction personnel are responsible for observing water-related activities for the presence of these species.
- b. The permittee shall advise all construction personnel that there are civil and criminal penalties for harming, harassing, or killing sea turtles or smalltooth sawfish, which are protected under the Endangered Species Act of 1973.
- c. Siltation barriers shall be made of material in which a sea turtle or smalltooth sawfish cannot become entangled, be properly secured, and be regularly monitored to avoid protected species entrapment. Barriers may not block sea turtle or smalltooth sawfish entry to or exit from designated critical habitat without prior agreement from the National Marine Fisheries Service's Protected Resources Division, St. Petersburg, Florida.
- d. All vessels associated with the construction project shall operate at "no wake/idle" speeds at all times while in the construction area and while in water depths where the draft of the vessel provides less than a four-foot clearance from the bottom. All vessels will preferentially follow deep-water routes (e.g., marked channels) whenever possible.
- e. If a sea turtle or smalltooth sawfish is seen within 100 yards of the active daily construction/dredging operation or vessel movement, all appropriate precautions shall be implemented to ensure its protection. These precautions shall include cessation of operation of any moving equipment closer than 50 feet of a sea turtle or smalltooth sawfish. Operation of any mechanical construction equipment shall cease immediately if a sea turtle or smalltooth sawfish is seen within a 50-ft radius of the equipment. Activities may not resume until the protected species has departed the project area of its own volition.
- f. Any collision with and/or injury to a sea turtle or smalltooth sawfish shall be reported immediately to the National Marine Fisheries Service's Protected Resources Division (727-824-5312) and the local authorized sea turtle stranding/rescue organization.
- g. Any special construction conditions, required of your specific project, outside these general conditions, if applicable, will be addressed in the primary consultation.

Revised: March 23, 2006

**BROWARD COUNTY  
PLANNING & ENVIRONMENTAL REGULATION  
ENVIRONMENTAL RESOURCE GENERAL LICENSE**

**No: HWD1308-004**

**Broward County Code 27-336(1) (a) & (b)**

**Applicant: Carol Camillo**

**Description: Install new batter pilings, 90' x 40" seawall cap  
and replace 6' x 60' dock on existing pilings**

**Issued Date: 8/2/13**

**Expiration Date: 8/2/15**

The above project has been reviewed and has been verified to meet the criteria outlined in Chapter 27-336(a) (1) of the Broward County Natural Resource Protection Code for the issuance of this Environmental Resource General License (GL). This approval is specific for the plans and description described on this verification. Any change to project footprint, design or size must be reviewed by this Department and may require additional licensing.

Construction shall be in accordance with the submitted Application, the approved plans and the attached General Conditions. **This approval does not authorize impacts to natural resources (mangroves, sea grasses, etc.).** Failure to comply with the license conditions may result in suspension or revocation of the license and/or enforcement actions.

Issuance of this license does not relieve the licensee from obtaining any other required federal, state or local permits or authorizations required for this project prior to commencement.

*Per Section 27-58(b)(9), "The licensee, by acceptance of this license, specifically agrees to allow access and shall allow access to the licensed source, activity, or facility at times to the COUNTY personnel for the purposes of inspection and testing to determine compliance with this license and this chapter."*

**Aquatic & Wetland Resources Reviewer: Linda Sunderland *LS***

**Telephone: 954-519-1454**

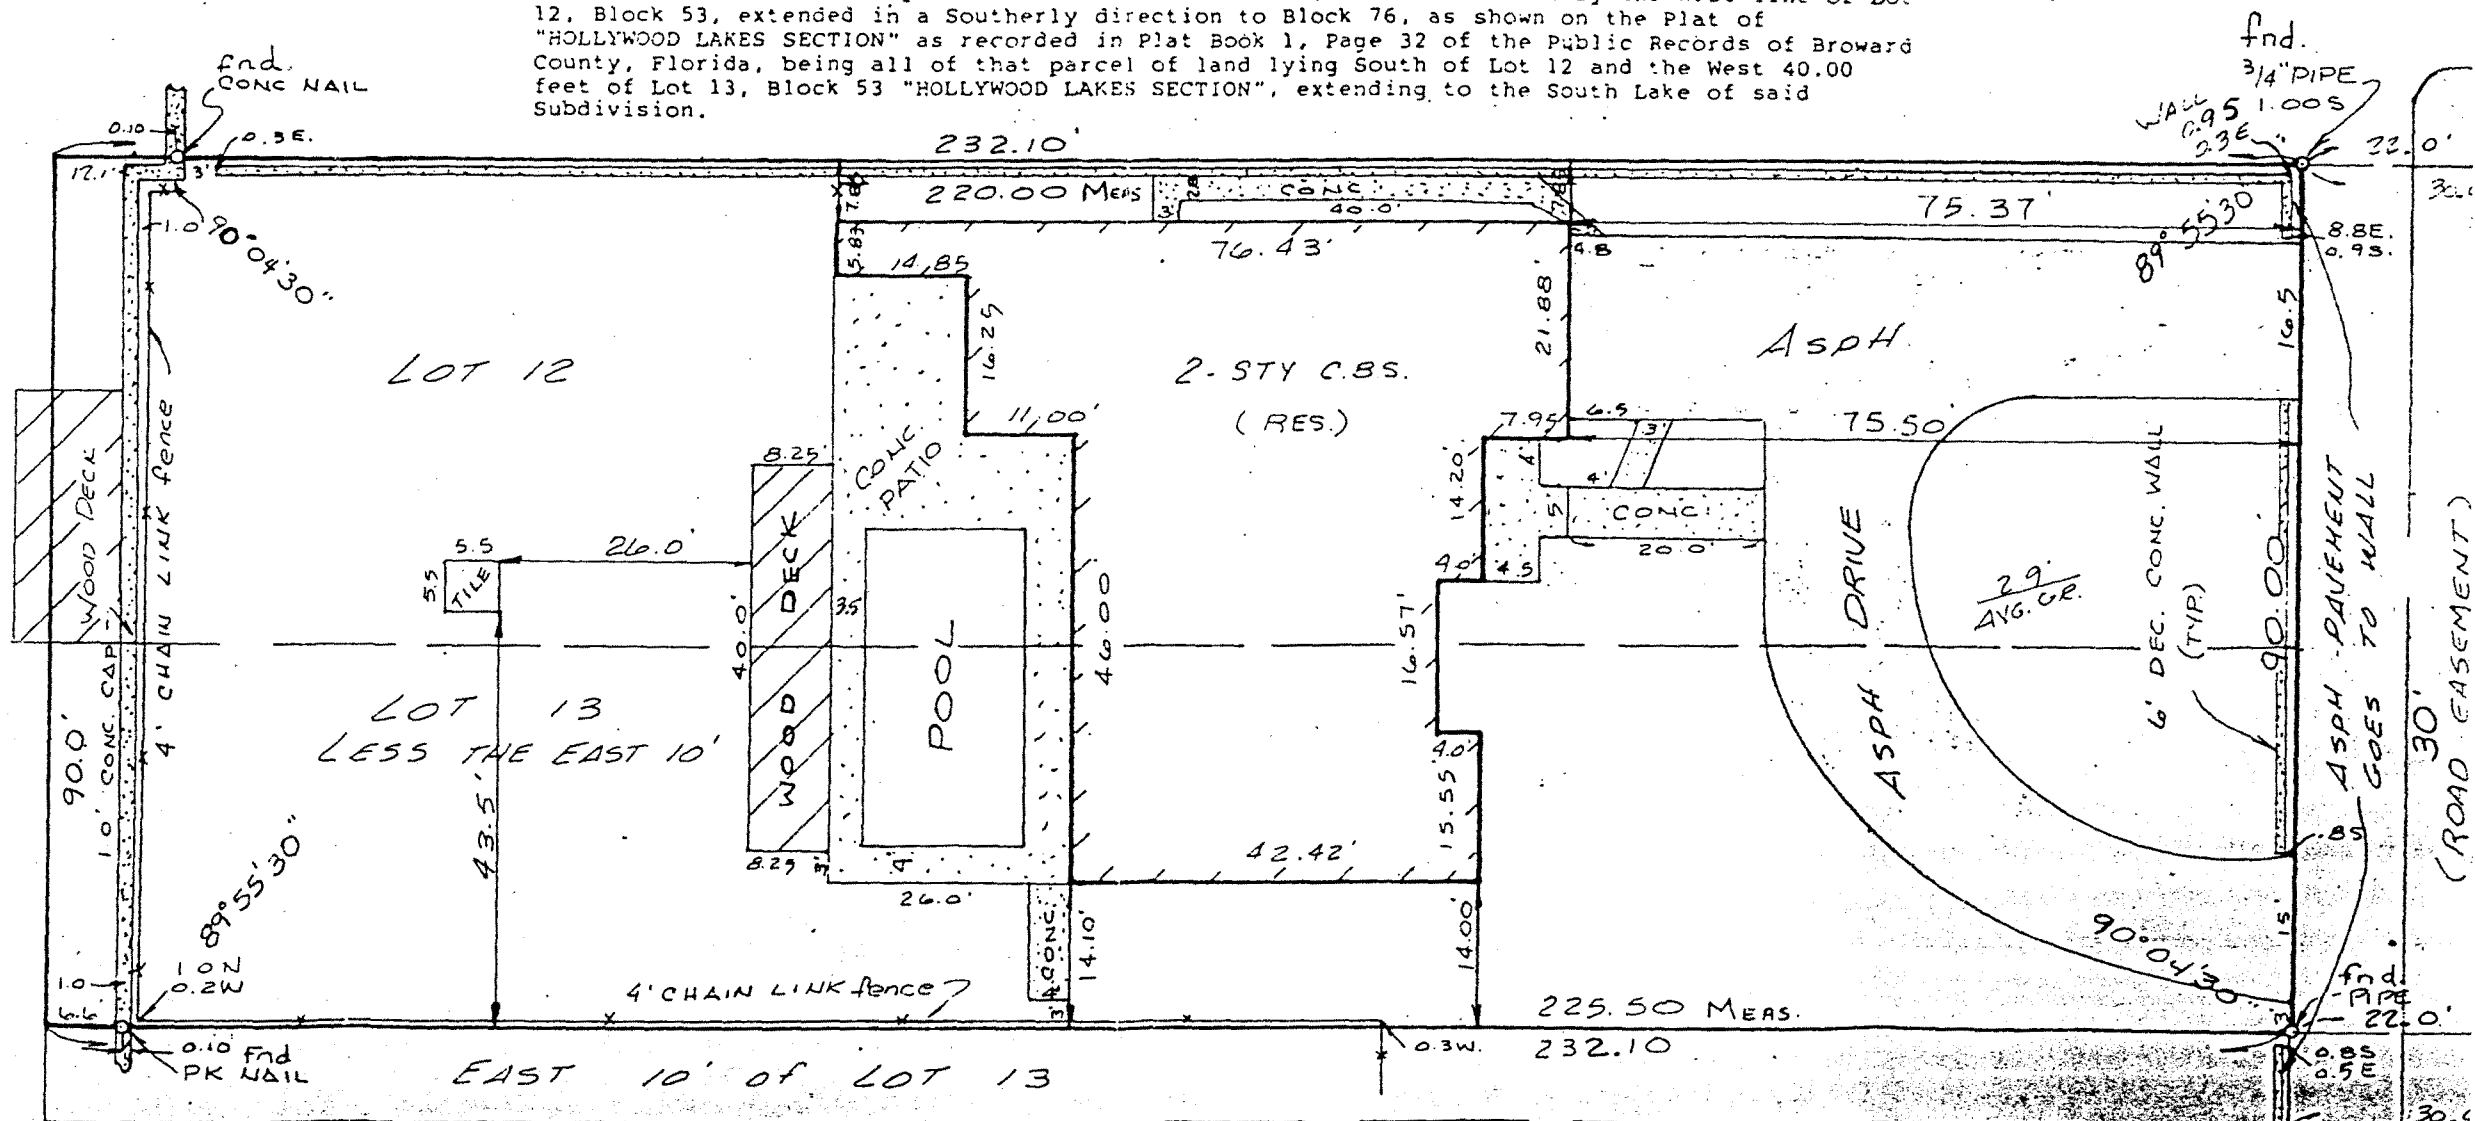

**email: lsunderland@broward.org**

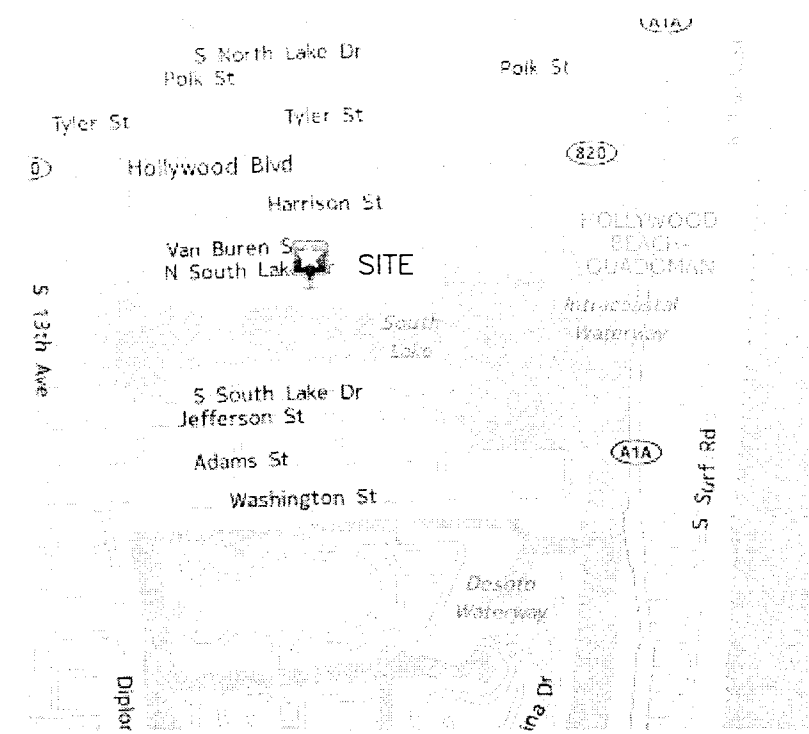

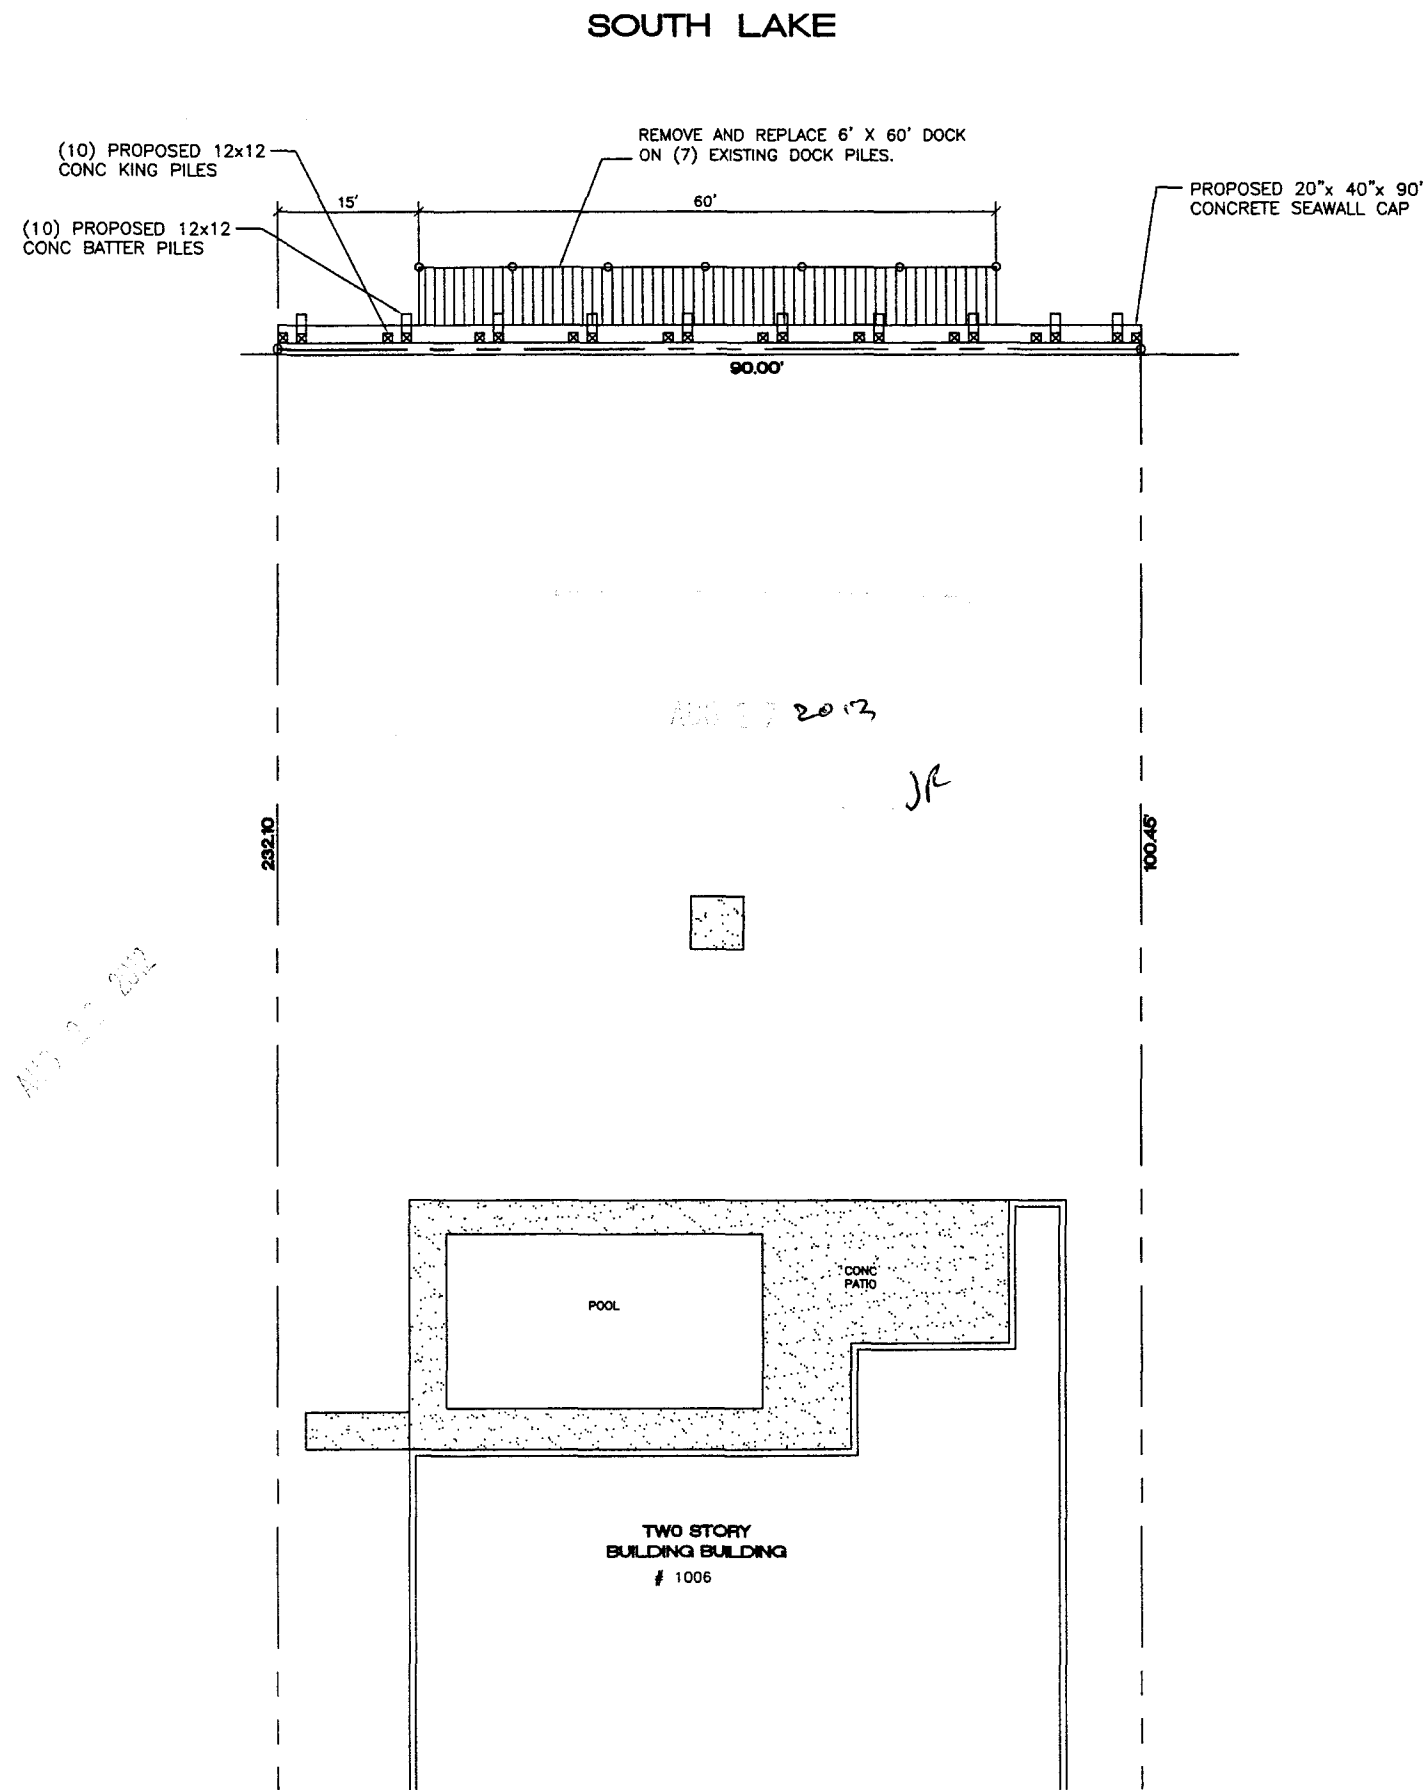

## **GENERAL CONDITIONS:**

**GL # HWD1308-004**

1. The terms, conditions, requirements, limitations and restrictions set forth herein are accepted by the licensee and enforceable by EPGMD pursuant to this chapter. EPGMD will review this license periodically and may revoke the license, initiate administrative and/or judicial action for any violation of the conditions by the licensee, its agents, employees, servants or representatives or principals.
2. This license is valid only for the specific uses set forth in the license application, and any deviation from the approved uses may constitute grounds for revocation and enforcement action by EPGMD.
3. In the event the licensee is temporarily unable to comply with any of the conditions of the license, the licensee shall notify EPGMD within twelve (12) hours. Within five (5) working days of the event, the licensee shall submit a written report to EPGMD that describes the incident, its cause, the measures being taken to correct the problem and prevent its reoccurrence, the owner's intention toward repair, replacement, and reconstruction of destroyed facilities, and a schedule of action leading toward operation within the license conditions.
4. The issuance of this license does not convey any vested rights or exclusive privileges, nor does it authorize any injury to public or private property or any invasion of personal rights, or any violations of federal, state or local laws or regulations.
5. This license must be available for inspection on the licensee's premises during the entire life of the license.
6. By accepting this license, the licensee understands and agrees that all records, notes, monitoring data and other information relating to the construction or operation of this permitted source, that are submitted to EPGMD, may be used by EPGMD as evidence in any enforcement proceeding arising under Chapter 27, except where such use is prohibited by § 403.111, F.S.
7. The licensee agrees to comply with Chapter 27, as amended.
8. Any new owner of a licensed facility shall apply by letter for a transfer of license within thirty (30) days after sale or legal transfer. The transferor shall remain liable for performance in accordance with the license until the transferee applies for, and is granted the transfer of license. The transferee shall also be liable for performance in accordance with the license.
9. The licensee, by acceptance of this license, specifically agrees to allow access to the licensed source at reasonable times by EPGMD personnel for the purposes of inspection and testing to determine compliance with this license and this Chapter 27.
10. This license does not constitute a waiver or approval of any other license that may be required for other aspects of the total project.
11. If the licensee wishes to renew a license or extend its term, the licensee shall make application sixty (60) days prior to its expiration. Expired licenses are not renewable.
12. In addition to the general conditions set forth above, each license issued by EPGMD shall contain specific conditions determined by site conditions and requirements pursuant to the regulations as determined by the director of EPGMD. The licensee agrees that specific conditions are enforceable by EPGMD for any violation thereof.
13. Enforcement of the terms and provisions of this license shall be at the reasonable discretion of EPD, and any forbearance on behalf of EPD to exercise its rights hereunder in the event of any breach by the licensee shall not be deemed or construed to be a waiver of EPD's rights hereunder.

Being a part of Jackson Street and a Part of Block 77 of "HOLLYWOOD LAKES SECTION", bounded on the North by the South line of Lot 12 and the West 40.00 feet of Lot 13, Block 53 of said Subdivision, on the South by Block 76, "HOLLYWOOD LAKES SECTION" otherwise described as South Lake of said Subdivision; on the East by the East line of the West 40.00 feet of Lot 13, Block 53 extended in a Southerly direction to said Block 76, and on the West by the West line of Lot 12, Block 53, extended in a Southerly direction to Block 76, as shown on the Plat of "HOLLYWOOD LAKES SECTION" as recorded in Plat Book 1, Page 32 of the Public Records of Broward County, Florida, being all of that parcel of land lying South of Lot 12 and the West 40.00 feet of Lot 13, Block 53 "HOLLYWOOD LAKES SECTION", extending to the South Lake of said Subdivision.

### General Notes:

- Licensed Contractor shall verify the existing conditions prior to commencement of the work. Any conflicts or omissions between existing conditions or the various elements of the working drawings shall be brought to the attention of the Engineer prior to the commencement of the work. The Licensed Contractor and all subcontractors are responsible for all lines, elevations, and measurements.
- Do not scale drawings for dimensions.
- All unanticipated or unforeseen demolition and/or new construction conditions which require deviation from the plans and notes herein shall be reported to the Engineer prior to commencement of work.
- Licensed Contractor to verify location of existing utilities prior to commencing work.
- The Licensed contractor to install and remove all shoring and bracing as required for the proper execution of the work.
- Licensed Contractor to obtain all permits as necessary from all Local, State, and Federal agencies.
- For all prestressed piles, extend pile strands a min. of 18" into cap steel or cut strands even w/ top of pile & dowel & epoxy (2) #5 L-bars, 24" long w/ 12" bend, into top of pile, w/ a min. of 4" embedment.
- Existing seawall panels, new batter pilings and new king pilings to have a minimum 4" penetration into the new seawall cap forms.
- Concrete piling to be 12"x12" prestressed piles with (4) 7/16" strands.
- Piles to be driven a minimum of 8' into berm with a minimum bearing capacity of 10 tons.
- Piles to be driven with a drop hammer or gravity hammer. The hammer weight shall not be less than 3,000 lbs and the fall shall not exceed 6 feet.
- Concrete to be min. 5000 psi @ 28 days, .40 water/cement ratio.
- Reinforcing steel shall be in conformance with the latest version of ASTM A615 Grade 60 Specifications. All reinforcement shall be placed in accordance with ACI 315 and ACI Manual of Standard Practice.
- Splices in reinforcing bars shall not be less than 48 bar diameters and reinforcing shall be continuous around all corners and changes in direction. Continuity shall be provided at corners or changes in direction by bending the longitudinal steel around the corner 48 bar diameters.
- Owner shall employ and pay for testing services from an independent testing laboratory for concrete sampling and testing in accordance with ASTM.
- All framing materials to be pressure treated, southern pine, grade 2 or better, min. Fb = 1450 psi or better.
- All hardware to be galvanized or stainless steel.
- Elevations shown are based on the national geodetic vertical datum of 1929.
- Design in accordance with 2010 Florida Building Code.

DEPARTMENT OF BUILDING AND ENGINEERING SERVICES

ENGINEERING DIVISION

June 25, 2003

Mr. Henri Camillo  
1006 N. Southlake Dr.  
Hollywood, Florida 33019

**Re: Process No. 51600**  
**Replacement of existing asphalt driveway with concrete pavers**

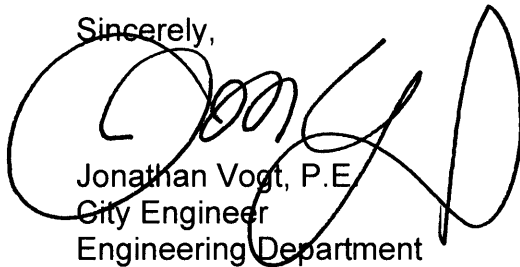

Dear Ms. Camillo:

This is to confirm approval of an Administrative Variance for your proposed replacement of existing asphalt driveway and apron areas at 1006 N. Southlake Dr. with concrete pavers.

This approval recognizes the existing legal non-conforming status of your current driveway and a determination of consistency with the purpose and intent of Code Section 155.08.

Your plans reflect this approval and we wish you success with your project.

Sincerely,

Jonathan Vogt, P.E.  
City Engineer  
Engineering Department

Application is hereby made to obtain a permit to do work and installations as indicated. I certify that no work or installation has commenced prior to the issuance of a permit and that all work will be performed to meet the standards of all laws regulating construction in the City of Hollywood, Florida. I understand that a separate permit must be secured for ELECTRICAL WORK, PLUMBING, SIGNS, WELLS, POOLS, BOILERS, TANKS, AIR CONDITIONERS, ETC.

OWNER'S AFFIDAVIT: I certify that all the foregoing information is accurate and that all work will be done in compliance with applicable laws regulating construction and zoning.

**WARNING TO OWNER: YOUR FAILURE TO RECORD A NOTICE OF COMMENCEMENT MAY RESULT IN YOUR PAYING TWICE FOR IMPROVEMENTS TO YOUR PROPERTY. IF YOU INTEND TO OBTAIN FINANCING, CONSULT WITH YOUR LENDER OR AN ATTORNEY BEFORE RECORDING YOUR NOTICE OF COMMENCEMENT.**

**WARNING TO OWNERS ACTING AS THEIR OWN CONTRACTOR:** FLORIDA STATUTE 489.115 REQUIRES CONSTRUCTION TO BE DONE BY A LICENSED CONTRACTOR. 489.103(7) F.S. ALLOWS OWNERS OF CERTAIN TYPES OF RESIDENTIAL AND COMMERCIAL PROPERTY, TO OBTAIN PERMITS FOR REPAIRS OR IMPROVEMENTS TO THEIR OWN PROPERTY. IN ORDER TO QUALIFY UNDER THIS EXEMPTION YOU MUST BE BOTH THE OWNER AND THE OCCUPANT. YOU MUST PROVIDE DIRECT ON SITE SUPERVISION. YOU MAY NOT HIRE AN UNLICENSED PERSON TO ACT AS YOUR CONTRACTOR OR TO SUPERVISE PEOPLE WORKING ON YOUR BUILDING. ANY PERSON WORKING ON YOUR BUILDING WHO IS NOT LICENSED MUST BE EMPLOYED BY YOU, WHICH MEANS THAT YOU MUST DEDUCT F.I.C.A. AND WITHHOLDING TAX AND PROVIDE WORKERS' COMPENSATION FOR THAT EMPLOYEE, ALL AS PRESCRIBED BY LAW. IF YOU SELL OR LEASE A BUILDING YOU HAVE BUILT OR SUBSTANTIALLY IMPROVED YOURSELF WITHIN 1 YEAR AFTER THE CONSTRUCTION IS COMPLETED, THE LAW WILL PRESUME THAT YOU BUILT OR SUBSTANTIALLY IMPROVED IT FOR SALE OR LEASE, WHICH IS A VIOLATION OF 489.103(7) F.S. BE FURTHER ADVISED THAT, IN ACCORDANCE WITH FLORIDA ATTORNEY GENERALS' OPINION AGO 91-5, A CORPORATION CANNOT QUALIFY FOR AN OWNER/BUILDER EXEMPTION UNDER 489.103(7) F.S. UNLESS THEY POSSESS THE APPROPRIATE LICENSE. **SEE SEPARATE DISCLOSURE STATEMENT FOR COMPLETE DETAILS.**

*EFFECTIVE DATE OF BUILDING CODE: Master Permit Applications received prior to March 1, 2002 and related sub permits received thereafter, are subject to the South Florida Building Code, Broward Edition. Master Permit Applications received after March 1, 2002, including related sub permits are subject to the Florida Building Code, 2001 edition.*

Within 15 working days after plans and/or specifications are submitted and accepted for a building permit, the applicant will be notify in writing that a permit is ready for issuance or that additional information is required. Not more that 60 days after the date of such notification, where such additional information has not been submitted or the permit has not been purchased, the application and/or the permit shall become null and void. Where an application has become null and void, an applicant may again apply as set forth in Section 104.6 of the Florida Building Code. However, such application shall be processed as though there had been no previous application. **Florida Building Code, Section 104.6.1.6**

OWNER'S AFFIDAVIT: I certify that all the foregoing information is accurate and that all work will be done in compliance with all applicable laws regulating construction and zoning.

**WARNING TO OWNER: YOUR FAILURE TO RECORD A NOTICE OF COMMENCEMENT MAY RESULT IN YOUR PAYING TWICE FOR IMPROVEMENTS TO YOUR PROPERTY. IF YOU INTEND TO OBTAIN FINANCING, CONSULT WITH YOUR LENDER OR AN ATTORNEY BEFORE RECORDING YOUR NOTICE OF COMMENCEMENT.**

#### DISCLOSURE STATEMENT

Owners of property when acting as their own contractor and providing all material supervision themselves, when building or improving farm outbuildings or one-family or two-family residences on such property for the occupancy of use of such owners and not offered for sale or lease, or building or improving commercial building at a cost of under \$25,000 on such property for the occupancy or use of such owners and not offered for sale or lease. In an action brought under this part proof of the sale or lease, or offering for sale or lease, of more than one such structure by the owner-builder within 1 year after completion of same is prima facie evidence that the construction was undertaken for purposes of sale or lease. This subsection does not exempt any person who is employed by such owner and who acts in the capacity of a contractor.

Within Fifteen (15) working days after the plans are submitted and accepted for a building permit, the applicant will be notified in writing that a permit is ready for issuance or that additional information is required. Sixty (60) calendar days after the date of such notification, where such additional information has not been submitted or the permit has not been purchased, the applicant and/or the permit shall become null and void. Once the permit application package has become null and void it will be discarded by the Building Division, S.F.B.C. 302.1f.

Application is hereby made to obtain a permit to do work and installations as indicated. I certify that no work or installation has commenced prior to the issuance of a permit and that all work will be performed to meet the standards of all laws regulating construction in the City of Hollywood, Florida. I understand that a separate permit must be secured for ELECTRICAL WORK, PLUMBING, SIGNS, WELLS, POOLS, BOILERS, TANKS, AIR CONDITIONERS, ETC.

OWNER'S AFFIDAVIT: I certify that all the foregoing information is accurate and that all work will be done in compliance with all applicable laws regulating construction and zoning.

**WARNING TO OWNER: YOUR FAILURE TO RECORD A NOTICE OF COMMENCEMENT MAY RESULT IN YOUR PAYING TWICE FOR IMPROVEMENTS TO YOUR PROPERTY. IF YOU INTEND TO OBTAIN FINANCING, CONSULT WITH YOUR LENDER OR AN ATTORNEY BEFORE RECORDING YOUR NOTICE OF COMMENCEMENT.**

All the above to be filled in by applicant where possible:

THE DATE OF THE CODE IN EFFECT: SFBC OF 1988.

All prime contractors should be aware that all of their sub-contractors MUST be properly licensed, certified and insured. It is advisable that all subs are properly registered with the building division in order to avoid any delays in the permit processing and issuance of the "certificate of occupancy".

\* \_\_\_\_\_ PROOF OF WORKERS' COMPENSATION SHOWN \* \_\_\_\_\_ IF WORKERS' COMPENSATION NOT REQUIRED, THE SOLE PROPRIETOR MUST NOTARIZE THE FOLLOWING:

I am a sole proprietor, or a partner who devotes full time to the proprietorship or partnership and have no employees and have not elected to be included in the definition of employee for the purposes of securing Workers' Compensation. F.S. Sec. 440.02 (11)(c), 440.02 (14) (B) 2, 440.10 (1) (1987) and S.B. 896 (1989).

Sworn to and subscribed before me this \_\_\_\_\_ day of \_\_\_\_\_ 1989.
