City of Hollywood
Office of the City Clerk
2600 Hollywood Blvd., Room #220
Hollywood, FL 33020

**Re: Request for Qualifications RFQ-4436-14-RD
Continuing Contract for Architectural Design Services**

Dear City Clerk,

Bermello Ajamil & Partners, Inc. (B&A) is pleased to present its professional qualifications for Continuing Contract for Architectural Design Services to the City of Hollywood pursuant to the referenced RFQ.

In response to your specific needs, we have assembled an exceptionally experienced team of licensed architects, engineers and planners, many of them LEED accredited, that we believe have the unparalleled local knowledge and experience necessary to meet all of the City's needs. We would be delighted to serve the City in its Architectural design endeavors.

B&A is one of the largest award-winning multi-disciplinary firms located in South Florida that has been in continuous existence since 1939 providing complete planning, environmentally sensitive design and construction services in the disciplines of architecture, engineering, planning, interior design and landscape architecture. B&A has provided services to numerous cities and agencies including the City of Pompano Beach, City of Hallandale Beach, City of Coral Gables, City of Doral, North Bay Village, City of Miami, City of Aventura, City of North Miami Beach, the City of Homestead, the City of Sunny Isles and the City of Hialeah, to name a few.

Having worked for many municipalities in South Florida, our team understands the uniqueness of municipal work and the inherent complexities, as well the varied nature of the work. B&A is adept at quickly grasping the desired scope for each assignment, selecting the appropriate team members to participate, and moving quickly through the design and approval processes for design while maintaining Owner's concurrence on decisions made during the process. Following development and approval by the Owner of the design, we will manage the permitting approval process, assist the Owner with bidding and evaluation of bids, and ultimately provide construction administration services.

B&A will provide exemplary service to the City of Hollywood; starting with our careful selection of team members, each who understand how to tackle multi-task projects of varying size and complexity from concept thru construction.

Mr. Luis Ajamil, P.E. will be the Principal in Charge of this project and **Mr. Scott Bakos** the Project Manager. Mr. Bakos has over 20 years' experience in Architectural Design, permitting, project management and construction services focused in projects for both private and municipal clients. Both myself and Scott will be the direct contact

Bermello Ajamil & Partners, Inc.

19. RELEVANT PROJECTS			
a.	(1) TITLE AND LOCATION (City and State) Port Miami Terminals D&E Miami, Florida	(2) YEAR COMPLETED	
		PROFESSIONAL SERVICES 2012	CONSTRUCTION (if applicable) 2012
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm LEED Administrator. LEED NC Certification in progress for the repairs, upgrades and new construction. The project consists of a two story addition on the west side of Terminal D to handle incoming passengers and a waiting area on the second level. The LEED certification has evolved through a concerted effort of the project team (Bermello Ajamil & Partners), owner/client (GSA, Miami-Dade County) and tenant (Carnival Cruise Lines). The challenges involve project budget, time frame for completion and how to obtain LEED certification for an existing facility that did not meet the needs of the client and went through several design options before the expansion was approved. B&A is the LEED Administrator on this project and is seeking for basic LEED Certification. We have completed the LEED Design Phase and are in the process of reviewing LEED submittals, Action Plans, Waste Management Plan for LEED compliance. Mayra is the LEED Administrator and is overseeing the entire LEED certification process.		
b.	(1) TITLE AND LOCATION (City and State) South Miami Hospital Clinical Expansion South Miami, Florida	(2) YEAR COMPLETED	
		PROFESSIONAL SERVICES Ongoing	CONSTRUCTION (if applicable) 2014

a.	(1) TITLE AND LOCATION (City and State) Salvadore Park and Tennis Center Improvements Miami, Florida	(2) YEAR COMPLETED	
		PROFESSIONAL SERVICES 1999	CONSTRUCTION (if applicable) 1999
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm Project Manager for the redesign of the Salvadore Park and Tennis Center in Coral Gables. This project involved complying with Mediterranean architectural guidelines along with budgetary considerations of the City of Coral Gables.		
b.	(1) TITLE AND LOCATION (City and State) Morgan Levy (formerly Doral Park) Park & Community Center Doral, Florida	(2) YEAR COMPLETED	
		PROFESSIONAL SERVICES 2007	CONSTRUCTION (if applicable) 2007
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm QA/QC. Responsible for the design review process for the renovation of this 14-acre Park which incorporates an active and passive community center including tennis courts, a recreation building and a parking lot.		
c.	(1) TITLE AND LOCATION (City and State) Athalie Range Park Improvements Miami, Florida	(2) YEAR COMPLETED	
		PROFESSIONAL SERVICES 2007	CONSTRUCTION (if applicable) 2007
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm Provided architectural and engineering services for the development of construction documents, bid/negotiations and construction administration. The project scope included the remodeling of the existing pool facility, including office, bathrooms, pool and pool equipment. Construction cost - \$1.5 million.		
d.	(1) TITLE AND LOCATION (City and State) Miami-Dade Expressway Authority (MDX) Headquarters Miami, Florida	(2) YEAR COMPLETED	
		PROFESSIONAL SERVICES 2003	CONSTRUCTION (if applicable) 2005
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm Project Manager- Included programming, production & coordination of construction documents and construction administration services on all phases. Phase 1 - Remodeling of a 3,600-sf single story office building. Phase 2 - Addition of 2,200-sf of single story office space. Phase 3 - New 15,000-sf two office building.		
e.	(1) TITLE AND LOCATION (City and State) Joseph Caleb Center New Courthouse Annex/Additions and New Parking Garage, Miami, Florida	(2) YEAR COMPLETED	
		PROFESSIONAL SERVICES In Process	CONSTRUCTION (if applicable)
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm QA/QC. A new 2-story Courthouse, three-story parking garage and retail located at the Caleb Community Center. Once completed, B&A will seek Silver certification, at a minimum, under the LEED Green Building Rating System of the U.S. Green Building Council New Construction. The new two story courthouse has approximately 39,000 SF of public, semi-public spaces and private. The new three story parking garage will contain 475 parking spaces and approximately 190,000 SF of constructed area to accommodate parking booths, control gates and approximately 20 private spaces on the ground floor area.		

E. RESUMES OF KEY PERSONNEL PROPOSED FOR THIS CONTRACT (Complete one Section E for each key person.)			
12. NAME Maria Zapata, P.E.		13. ROLE IN THIS CONTRACT Civil Engineer	
		14. YEARS EXPERIENCE a. TOTAL 26	b. WITH CURRENT FIRM 1 Month
15. FIRM NAME AND LOCATION (City and State) Bermello Ajamil & Partners, Inc., Miami, Florida			
16. EDUCATION (DEGREE AND SPECIALIZATION) Administration, Kellogg School of Management, Northwestern University, Evanston, FL, 2011 Master of Science, Civil Engineering, University of Massachusetts, Amherst, MA, 1983 Bachelor of Science, Civil Engineering, University of Massachusetts, Amherst, MA, 1982		17. CURRENT PROFESSIONAL REGISTRATION (STATE AND DISCIPLINE) Professional Engineer, State of Florida & California	
18. OTHER PROFESSIONAL QUALIFICATIONS (Publications, Organizations, Training, Awards, etc.) Member of American Society of Civil Engineers			
19. RELEVANT PROJECTS			
a.	(1) TITLE AND LOCATION (City and State) North Plantation Key Vacuum Sewer Improvements IslaMorada, Village of Islands, Florida	(2) YEAR COMPLETED	
		PROFESSIONAL SERVICES 2010	CONSTRUCTION (if applicable) 2011
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input type="checkbox"/> Check if project performed with current firm Senior Civil Engineer. Evaluation and design. Project consisted of the replacement and upsizing of approx. 7,385 LF of vacuum main system; including installation of piping, valve pits and appurtenances.		
b.	(1) TITLE AND LOCATION (City and State) Tomoka Golf Village Ormond Beach, Florida	(2) YEAR COMPLETED	
		PROFESSIONAL SERVICES 2005	CONSTRUCTION (if applicable) N/A
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input type="checkbox"/> Check if project performed with current firm Senior Civil Engineer. Design and permitting of a planned residential development "Tomoka Golf Village" including residential homes, condominiums, club house, tennis center, and associated infrastructure.		
c.	(1) TITLE AND LOCATION (City and State) Lowes, Homestead Florida	(2) YEAR COMPLETED	
		PROFESSIONAL SERVICES 2005	CONSTRUCTION (if applicable) 2006
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input type="checkbox"/> Check if project performed with current firm Senior Civil Engineer. Construction of 170,000 SF store in City of Homestead, FL including rezoning, site plan approval, re-platting, and design & permitting of stormwater, utilities, signal improvements, offsite roadways improvements and relocation of high tension transmission FPL line.		
d.	(1) TITLE AND LOCATION (City and State) Lowes, Kendall Florida	(2) YEAR COMPLETED	
		PROFESSIONAL SERVICES 2007	CONSTRUCTION (if applicable) 2009
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input type="checkbox"/> Check if project performed with current firm Senior Civil Engineer. Reconfiguration of an existing site for the construction of a 115,500 SF store including design and permitting of associated infrastructure replacement and improvements.		
e.	(1) TITLE AND LOCATION (City and State) SunTrust Banks, Various Locations throughout Florida	(2) YEAR COMPLETED	
		PROFESSIONAL SERVICES 2005-2010	CONSTRUCTION (if applicable) 2006-2010
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input type="checkbox"/> Check if project performed with current firm Senior Civil Engineer. Planning, design and permitting of several 4,000 SF banks located in South Florida. Services included agency research, site plan approval, civil design, project permitting, site construction observation and certifications.		

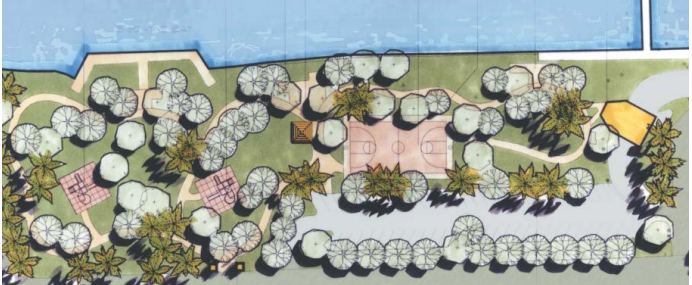

F. EXAMPLE PROJECTS WHICH BEST ILLUSTRATE PROPOSED TEAM'S QUALIFICATIONS FOR THIS CONTRACT (Present as many projects as requested by the agency, or 10 projects, if not specified. Complete one Section F for each project.)		20. EXAMPLE PROJECT KEY NO. 1	
21. TITLE AND LOCATION (City and State) Wittkop Park Homestead, Florida		22. YEAR COMPLETED PROFESSIONAL SERVICES 2010 CONSTRUCTION (If applicable) 2012	
23. PROJECT OWNER'S INFORMATION			
a. PROJECT OWNER City of Homestead	b. POINT OF CONTACT NAME Dennis Maytan	c. POINT OF CONTACT TELEPHONE NUMBER 305.224.4570	
24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)			
<p>The new Wittkop Neighborhood Park includes a number of recreational opportunities and alternatives for local residents. Within the park are two professional level basketball courts, two separate age defined tot lots, two handball courts, a walking trail, picnic areas with shelters and restroom facilities.</p> <p>In addition, the park has been provided with convenient on-street parking on both the north and south sides and a new lighting system which provides a safe and attractive environment for residents at night. Period light fixtures have been selected to light both the on-street parking and all pedestrian walkways in the park.</p> <p>The project is located on 2.5 acres adjacent to the City's Water Tower in the City of Homestead.</p>

F. EXAMPLE PROJECTS WHICH BEST ILLUSTRATE PROPOSED TEAM'S QUALIFICATIONS FOR THIS CONTRACT (Present as many projects as requested by the agency, or 10 projects, if not specified. Complete one Section F for each project.)		20. EXAMPLE PROJECT KEY No. 2	
21. TITLE AND LOCATION (City and State) Scavo Park Hallandale Beach, Florida		22. YEAR COMPLETED PROFESSIONAL SERVICES In Process	
23. PROJECT OWNER'S INFORMATION			
a. PROJECT OWNER City of Hallandale Beach	b. POINT OF CONTACT NAME Jennifer Frastai	c. POINT OF CONTACT TELEPHONE NUMBER 954.457.1300	
24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)			
<p>The renovation of an existing 7.25-acre community open space was challenging for design professionals, municipal staff and community leaders. The residents were very specific during the master planning process that they desired the park to remain passive with limited active recreation opportunities. A compromise was brokered which permitted the inclusion of limited recreation uses including a basketball court, covered playgrounds and restroom facility.</p> <p>An extensive tree management plan was necessary in order to create open lawn areas for passive play as well as an organizational tool for walkway alignment. Of particular interest in the development of the park was the inclusion of dog park areas within the park, while at the same time local ordinances prohibited dogs in parks. Particular care and consideration was used during the site planning process to provide functional access that was acceptable to all..</p>			
			
			
25. FIRMS FROM SECTION C INVOLVED WITH THIS PROJECT			
a.	(1) FIRM NAME Bermello Ajamil & Partners, Inc.	(2) FIRM LOCATION (City and State) Miami, Florida	(3) ROLE Planning, Landscape Architecture, Engineering, Architecture

a. PROJECT OWNER City of Hallandale Beach	b. POINT OF CONTACT NAME Jennifer Frastai	c. POINT OF CONTACT TELEPHONE NUMBER 954.457.1300			
24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost) <p>This project includes the complete renovation of one of two beach front parks in the municipality. The existing 3.5-acre site, aside from the parking lot, was covered with Category I Invasive Australian Pine Trees that were removed for environmental reasons, making way for a variety of opportunities.</p> <p>With community input during the master planning process the park use and amenities were reimagined. The park is divided into four quadrants accessible via bisecting palm shaded walkways. Each quadrant has its own identity and use, from sand volleyball to bocce courts as well as covered playgrounds with safety surface to a large beach front concession building. This facility is the focal point of the park and as designed as two buildings separated by a breeze way; which frames a focused view of the Atlantic Ocean. One building is a restroom facility while the other is a built out shell ready to be leased to a snack bar type vendor/concession.</p> <p>The project scope included extensive coordination and ultimately the acquisition of development permits from Florida Fish and Wildlife and Florida Department Environmental Protection Bureau of Beaches and Coastal Systems.</p>

a. PROJECT OWNER Pompano Beach CRA	b. POINT OF CONTACT NAME Horacio Danovich	c. POINT OF CONTACT TELEPHONE NUMBER 954.7867834			
24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)					
<p>Bermello Ajamil & Partners, Inc. (B&A) was tasked by the Pompano Beach CRA to analyze the beach's existing concession building, aptly named the "Kiosk" Building, for transformation both functionally and aesthetically into a prime destination for public beach amenities. The program includes men's and women's bathrooms and 3 different concession venues: one for freshly made sandwiches, one for selling beach sundries, and the last as a large corner bar. All of these were designed into the existing footprint of the building; the building carefully integrated into the new Pompano Beach Improvements design along a prime pedestrian pathway with a large deck area for café style tables and chairs.</p> <p>Located east of Atlantic Boulevard in the heart of Pompano's prime beach district, the Kiosk building was originally considered for demolition to pave the way for the new Pompano Beach Improvements. With the help of Pompano Beach's CRA, however, the Kiosk building is one of very few existing structures east of the coastal construction line deemed too valuable to remove. One key requirement in redesign was the need to completely remove and replace the existing and deteriorated flat roof. B&A designed a taller sloping standing seam metal roof that provides greater shade for the building while providing more verticality and allowing it to be seen from greater distances along the beach. B&A and its sub-consultants provided all new design, architecture, mechanical, electrical and plumbing systems, and structural upgrades for this project.</p>

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)			
<p>Bermello Ajamil & Partners, Inc. (B&A) developed the Citywide Parks Master Plan for the City of Miami Beach which called for improvements to 6 of the City's parks and facilities: North Shore Open Space, North Shore Park, Lummus Park, South Pointe Park and a maintenance yard.</p> <p>B&A carried out a Parks and Facilities Needs Assessment and evaluated the conditions and recreational uses of each park in order to arrive at a list of required improvements. This project was carried out with extensive community involvement in order to incorporate in the Master Plan the community's needs and preferences. Subsequently, B&A also acted as the owner's representative in construction and budgetary issues relating to the work performed by consultants on the City's remaining 15 parks.</p>

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)					
<p>Bermello Ajamil & Partners, Inc. (B&A) developed three distinct design schemes for renovation of this 14-acre Park, a neighborhood recreational area in the recently incorporated City of Doral, Florida. In designing the renovations, B&A had to incorporate both active and passive recreation facilities, working within the confines of the existing site layout which included tennis courts, a recreation building and a parking lot.</p> <p>B&A has provided plan development, preparation of design documents, and maintenance standards and will assist the city in the bidding and negotiation phases as well as administration of construction. B&A was also responsible for the renovation of another site, the 14-acre Doral Meadow Park, as well as the master plan for another 3-acre park.</p>

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)					
<p>Bermello Ajamil & Partners, Inc. (B&A) was retained by Miami-Dade County to provide the architectural and landscape architectural design of additions to the Caleb Center Courthouse and the design of its new Parking Garage facility. Over time, the Center has become increasingly crowded and the judicial space allocation within the larger facility increasingly insufficient and inadequate.</p> <p>The new judicial building is intended to provide office space for resident judges, visiting judicial officers, court administration staff and programs, and public service and operational spaces for an expanded Clerk of Courts operation. B&A will provide the programming and schematic design of the 37,000 SQFT addition, including construction documentation and administration. The same services will apply for the new parking facility which will contain 475 parking spaces and approximately 190,000 SQFT of constructed area to accommodate parking booths, control gates and approximately 20 private spaces on the ground floor area.</p>					
 <p>Currently, B&A has registered this project with the U.S. Green Building Council and is awaiting completion of the project to complete the LEED "Silver" certification process.</p>

H. ADDITIONAL INFORMATION

30. PROVIDE ANY ADDITIONAL INFORMATION REQUESTED BY THE AGENCY. ATTACH ADDITIONAL SHEETS AS NEEDED.

B&A has carefully selected project team members to provide **Architectural Design Services for Continuing Contract Projects for the City of Hollywood.**

Each project at B&A is headed by a Partner-In-Charge and a Project Manager. We pride ourselves on personal attention to each project and maintaining a high level of quality throughout design and construction. Within each group, projects remain under the control of a single core team from design start to occupancy. The benefit to our clients is better service, absolute account-ability, and continuity in communication, management and design.

Team Coordination Plan**1. Commit Leadership to the Project**

We begin with the commitment of senior staff to the project. The project leaders start the project and stay with it through completion.

2. Keep the Team Together for the Duration of the Project

As each project begins, we mobilize the entire team, who from day one become familiar with the project goals, criteria, and client.

3. Identify a Single Point of Contact for the Project

Our Project Manager will be the single focal point of day-to-day contact for the project. He will be responsible for meeting the project schedules and budgets and for leading and coordinating communications with the client.

4. Listen to the Client

At the beginning of the project, we work with the client to set project goals and expectations and identify key issues. Together, we then develop conceptual alternative solutions that address the issues, and test each alternative against the goals and criteria to ensure complete and balanced decisions.

5. Document the Process and Decisions Rigorously

Process and decisions are documented in Significant Communication which identify action items, due dates, and responsible personnel. Accurate record keeping and communications avoid misunderstandings and costly backtracking.

6. Conduct Methodical Plan Checks and Reviews

Reviews are regularly scheduled with pre-published agendas, checkpoints, and criteria checks. Any changes are corrected immediately. These reviews ensure coordination and accuracy among all documents, which in turn provide a sound basis for effective cost and quality control.

12. AUTHORIZED REPRESENTATIVE

The foregoing is a statement of facts.

Keith and Schnars is a firm dedicated to the timely and cost-efficient delivery of our services. In fact, in 2007, when the Florida Department of Transportation released its annual summary of design overruns (time and money), Keith and Schnars ranked among the best of the over two hundred firms surveyed. In the six-year period studied, Keith and Schnars designed and surveyed twelve projects with a construction value in excess of \$120 million. Our average cost overrun for the period was only 4%, while our average construction time overrun was 1%. **No other firm selected by FDOT in that six-year period completed this volume of work, and maintained such low overruns in cost and time.**

This commitment to customer service and high professional standards has also earned us other peer and industry recognition. For instance, last year (for the third year in a row) we took home a **Best Places to Work Award** at an event co-sponsored by Polk Works Workforce 2020 and the United Way of Central Florida. In 2007, the Florida Chapter of the American Planning Association selected one of our planning projects, the *South Miami-Dade Watershed Study and Plan*, for a prestigious **FAPA Award of Excellence**; McGraw-Hill Companies, publisher of *Business Week Magazine*, selected Keith and Schnars as one of the Southeast's **Top 50 in Design**; and *Engineering News Record* named Keith and Schnars one of the nation's **Top 500** engineering firms, for the fifth year in a row. The year before that Keith and Schnars took home two of the twelve **Best in Construction Awards** given out by the Florida Transportation Builders' Association, a 73-year old non-profit organization that many consider the "the voice" of Florida's road and bridge building industry.

As these awards indicate, we are a firm dedicated to our staff, to our communities, and to providing high quality consulting services across a broad range of disciplines.

H. ADDITIONAL INFORMATION

30. PROVIDE ANY ADDITIONAL INFORMATION REQUESTED BY THE AGENCY. ATTACH ADDITIONAL SHEETS AS NEEDED.

Delta G Consulting Engineers, Inc. was founded in 1992. We are registered with the USGBC. We are a full service consulting engineering firm dedicated to providing our clients with the highest quality Electrical, HVAC, Plumbing and Fire Protection engineering services at a competitive cost.

Delta G office has a total of 21 engineers and support staff; including four Registered Professional Engineers, two C.I.P.E.'s, 13 LEED Accredited Professional and 13 designer/engineers. We have average of 14 years of experience per engineer.

We are experienced in low-rise, mid-rise and high-rise residential building design, fire stations, airports, K-12, library, municipal, retail, hotel, and single family custom homes design. The Delta G is centrally located to serving clients in Miami-Dade, Monroe, Broward and Palm Beach Counties. Possessing a firm understanding of large-scale projects, Delta G professionals bring to the design team strong relationships with major institutional clients and an in-depth knowledge of the market. Clients trust us to conduct research, present options, and deliver thorough, accurate, timely documents.

We possess excellent engineering, project management and leadership skills which allow us to enhance our accountability to our clients.

19. RELEVANT PROJECTS

(1) TITLE AND LOCATION (City and State)	(2) YEAR COMPLETED	
FDOT – Ft. Lauderdale Amtrak Train Station (Historic Renovation)	PROFESSIONAL SERVICES 2012-2013	CONSTRUCTION (If Applicable) N/A
a. (3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE Structural engineering services for the renovation, restoration and reinforcing of the FDOT Amtrak Train Station located in Fort Lauderdale. The original station was constructed in 1926 and is considered an Historic Building. TRC provided design of repairs and strengthening to upgrade the wind resistance of structural members. Project Role: Project Manager, Structural Design Services	<input checked="" type="checkbox"/> Check if project performed with current firm	
(1) TITLE AND LOCATION (City and State) Broward County Emergency Operations Center - Structural Study Plantation, FL	(2) YEAR COMPLETED PROFESSIONAL SERVICES 2012 CONSTRUCTION (If Applicable) N/A	
b. (3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE TRC Worldwide Engineering, Inc. was requested by Broward County to perform a structural analysis of the existing building in an effort to determine its lateral capacity based on the current building code wind pressures. TRC analyzed all of the structural elements, including the exterior wall system, and determined the maximum building code and Saffir Simpson wind speeds that the existing structural system could withstand. TRC then designed retrofit strengthening recommendations to further increase the lateral capacity of the building. Project Role: Project Manager, Structural Design Services	<input checked="" type="checkbox"/> Check if project performed with current firm	
(1) TITLE AND LOCATION (City and State) Deerfield Beach Elementary School Auditorium (Historic Renovation) Deerfield Beach, FL	(2) YEAR COMPLETED PROFESSIONAL SERVICES 2012 CONSTRUCTION (If Applicable) N/A	
c. (3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE Structural engineering investigation, assessment, evaluation, Project Management and full construction documents for the necessary repairs of this beautiful, 85 year old, historic building. Project Role: Project Manager, Structural Design Services	<input checked="" type="checkbox"/> Check if project performed with current firm	
(1) TITLE AND LOCATION (City and State) Pompano Air Park City of Pompano Beach, FL	(2) YEAR COMPLETED PROFESSIONAL SERVICES 2009 CONSTRUCTION (If Applicable) N/A	
d. (3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE Under a Continuing Services Contract with the Architect and the City of Pompano Beach, TRC provided foundation design for a pre-manufactured metal building. Project Role: Project Manager, Structural Design Services	<input checked="" type="checkbox"/> Check if project performed with current firm	
(1) TITLE AND LOCATION (City and State) School Board of Broward County, FL Broward County, FL-Continuing Services for Structural Engineering	(2) YEAR COMPLETED PROFESSIONAL SERVICES 2002 CONSTRUCTION (If Applicable) N/A	
e. (3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE Under a Continuing Services Contract, TRC was authorized to conduct a window inspection at Kathleen C. Wright Center for the Department of Education's Enhanced Hurricane Protection Areas (EHPA) certification. At the completion of our inspection, we presented our findings and recommendations in a written report to Broward County Schools. Project Role: Principal-in-Charge, Structural Design Services	<input checked="" type="checkbox"/> Check if project performed with current firm

(1) TITLE AND LOCATION (City and State)	(2) YEAR COMPLETED	
Jonathan Dickinson State Park – Environmental Education Research Center Jupiter, FL	PROFESSIONAL SERVICES 2003	CONSTRUCTION (If Applicable) 2005
a. (3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE \$1.84 million, 15,400 square foot, environmental education research center near the Loxahatchee River. The center includes an exhibit hall, auditorium, classrooms and laboratories to conduct research and educate visitors about the diverse bio-communities within the park. Project Role: Project Manager, Structural Engineering Services		
Indian River County Emergency Operations Center Vero Beach, FL	PROFESSIONAL SERVICES 2005	CONSTRUCTION (If Applicable) 2006-2007
b. (3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE New, \$2.2 million, single story, 16,000 sq.ft. hardened structure designed for 200 MPH wind speed. The structure consists of tilt-up concrete wall panels with interior steel columns supporting steel beams and steel bar joist roof. The structural roof deck consists of 4" concrete slab cast over a steel form deck supported on the bar joist and steel beam framing. Foundations are shallow, grade supported concrete spread footings with a concrete slab-on-grade ground floor. Project Role: Project Manager, Structural Engineering Services		
St. Lucie County Fire District – Administrative Office Building Fort Pierce, FL	PROFESSIONAL SERVICES 2004-2005	CONSTRUCTION (If Applicable) 2005-2007
c. (3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE New, \$3.5 million, two-story, 30,000 sq.ft. office building that will include a council chambers meeting room. Roof structure is framed with steel beams supporting steel bar joists with perimeter mansard trusses; two tower elements extend up and framed with pre-engineered wood trusses; second floor is composite concrete joist and concrete deck floor system; exterior walls are load bearing concrete masonry; shallow grade foundations; concrete slab-on-grade Project Role: Project Manager, Structural Engineering Services		
Indian River County – Administration Building Vero Beach, FL	PROFESSIONAL SERVICES 2004-2005	CONSTRUCTION (If Applicable) 2005-2007
d. (3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE The \$30 million project includes two (2) new two-story administrative office buildings for Indian River County – Building 1 has 93,576 GSF; Building 2 has 65,958 GSF; the structural system includes concrete masonry exterior walls, interior concrete beams and columns, concrete slab and precast joists, and roof framed with sloping beams and bar joists. Project Role: Project Manager, Structural Engineering Services		
Martin County Community Services Building Stuart, FL	PROFESSIONAL SERVICES 2005	CONSTRUCTION (If Applicable) 2005-2006
e. (3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE Structural design services for a new single story, 8,500 sq.ft. building; structure has steel joist roof framing system supported on CMU walls with concrete tie beams; foundations are shallow grade supported concrete spread footings; ground floor is a concrete slab-on-grade; designed per the 2001 edition of the Florida Building Code for 140 MPH wind speed Project Role: Project Manager, Structural Engineering Services

19. RELEVANT PROJECTS

(1) TITLE AND LOCATION <i>(City and State)</i>	(2) YEAR COMPLETED	
a. Nova Southeastern University - Nova Center for Collaborative Research Fort Lauderdale, Florida	PROFESSIONAL SERVICES Structural Engineering	CONSTRUCTION <i>(If Applicable)</i> 2009-2011
(3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE Structural engineering design, construction administration and threshold inspection services on this \$26 million research facility. The project consists of a new six-story, 200,000 square foot office and laboratory building and a 90,000 square foot addition to the existing parking garage, designed by us in 1994. Project Role: QA/AC Review, Structural Design Services		
b. Environmental Monitoring Laboratory (seeking LEED certification) Environmental Protection & Growth Management Department Broward County, Florida	PROFESSIONAL SERVICES Structural Engineering	CONSTRUCTION <i>(If Applicable)</i> 2008-2009
(3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE Structural engineering design, construction administration and inspection services on this new single story laboratory and office building. Environmental Monitoring is responsible for designing and conducting scientific surveys and investigations; supporting agency efforts in resource protection and environmental compliance; serving as a County-wide environmental laboratory resource; and providing technical and scientific support for other governmental and private sector entities. The facility is NELAC-certified which ensures that the highest standards of environmental sample analyses are met. Project Role: QA/AC Review, Structural Design Services		
c. Florida International University – School of Law Miami, Florida	PROFESSIONAL SERVICES Structural Engineering	CONSTRUCTION <i>(If Applicable)</i> 2005-2006
(3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE Structural engineering design and construction phase services on this \$25 million college of law campus. The project is 151,368 total gross square feet with 45% of assignable space allocated to the Law Library. There are also 2 mock courtrooms that include a Judge's bench equivalent in size to the U.S. Supreme Court. Project Role: QA/AC Review, Structural Design Services		
d. Technology Center of the Americas (TECOTA) Miami, Florida	PROFESSIONAL SERVICES Structural Engineering	CONSTRUCTION <i>(If Applicable)</i> 2001
(3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE Structural engineering design and contract administration services on this ultra fast-track (topped out in 25 weeks) facility that serves as a central connectivity point for providers of telephone, Internet, cable and other telecommunications lines. Only six stories high with floor-to-floor heights of 17 feet, the structure has the same height as a 16-story building, and occupies a city block in Miami. Designed to withstand Category 5 hurricanes, it sits 14 ft. above sea level, but is located outside the 500-year flood plane. Project Role: Principal-in-Charge, Structural Design Services		
e. Florida International University – Lakeview Housing Miami, Florida	PROFESSIONAL SERVICES Structural Engineering	CONSTRUCTION <i>(If Applicable)</i> 2006
(3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE Structural engineering design, construction administration and threshold inspection services for the University's new \$33 million undergraduate student housing development; two, six-story buildings designed to house 825 residents and supporting space; also includes 12,880 square feet of study/social/recreational use, 2,640 square feet for a reception/lobby area, office and mailroom, and 3,680 square feet for laundry and storage space. Project Role: QA/AC Review, Structural Design Services

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)				

TRC Worldwide Engineering, Inc. provided structural engineering design, construction administration and inspection services on this new \$3.5 million, 11,000 square foot single story laboratory and office building. Environmental Monitoring is responsible for designing and conducting scientific surveys and investigations; supporting agency efforts in resource protection and environmental compliance; serving as a County-wide environmental laboratory resource; and providing technical and scientific support for other governmental and private sector entities. The facility is NELAC-certified which ensures that the highest standards of environmental sample analyses are met.

The project is LEED (Leadership in Energy and Environmental Design) Silver green building certified. Sustainable, green design produces a more efficient, higher-quality workplace environment.

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT *(Include scope, size, and cost)*

TRC Worldwide Engineering, Inc. provided structural engineering design and construction administration for the University's new \$25 million College of Law located on the University Park Campus in Miami. The new Law School includes an auditorium, teaching laboratories, study centers, offices and campus support services. The project is 151,368 total gross square feet with 45% of assignable space allocated to the Law Library. The 60- and 80-seat classrooms are designed with tiered seating, and there are also two mock courtrooms, that include a Judge's bench equivalent in size to the U.S. Supreme Court.

Key Structural Components

- Floor system is a reinforced concrete slab on precast concrete joists
- High-strength, load bearing concrete masonry unit exterior walls
- Shallow spread footing foundation system
- Reading room is supported by long-span, composite steel wide flange beams that float 50 feet above the auditorium below
- Auditorium walls are 35 feet high with considerable glazing, and are constructed of a structural steel frame supporting long span, open web, steel roof joists

**Award:**

- 2006 Best of - Colleges & Universities Category
McGraw Hill / *Southeast Construction*

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)		

TRC Worldwide Engineering, Inc. provided structural engineering design and construction administration services on this five-story, 57,000 square foot Clerk of Court office building for St. Lucie County. The construction cost was approximately \$10 million, and work was completed in late 2009. The building is a concrete frame structure with precast concrete joists and composite concrete floor and roof slabs. The foundations are shallow concrete spread footings based on vibro-compaction improved soils. There is a freestanding pedestrian sky bridge connecting the new building to the existing St. Lucie County Courthouse building at the third level (see photo at right).

H. ADDITIONAL INFORMATION

30. PROVIDE ANY ADDITIONAL INFORMATION REQUESTED BY THE AGENCY. ATTACH ADDITIONAL SHEETS AS NEEDED.

TRC Worldwide Engineering, Inc. (TRC), founded in Fort Lauderdale in 1967 as Jenkins & Charland, provides structural engineering services to a wide variety of clients throughout the United States. The Structural Division of TRC has offices in Fort Lauderdale, Fort Myers, Fort Pierce, Jacksonville, Sarasota and Tampa FL, Atlanta GA, Nashville TN, Indianapolis IN, Dallas TX, and Scottsdale AZ, and current professional structural and support staff of forty-nine people.

TRC is actively involved in the design of new construction and keeps current on state-of-the-art design techniques. Through knowledge of conventional construction practices, our engineers apply those techniques for a cost-effective, constructable project.

With more than forty-seven years structural experience, TRC has built its professional reputation on sound technical abilities, preparation of thorough contract documents, and complete contract administration services. TRC's philosophy has always been to integrate cost effective structural design solutions into the overall design process, and maintain a close client and regulatory coordination throughout the life of the project and beyond.

The Fort Lauderdale office of TRC, established in 1967, has worked on a number of continuing service structural engineering projects over the past twenty-plus years. Currently, the Fort Lauderdale office of TRC has structural continuing service contracts with Broward County Sheriff's Office, City of Hollywood, City of Homestead, City of Miami Gardens, and the City of Marathon; and provided structural engineering design and contract administration services for the \$35 million City of Sunrise Public Safety Complex - hardened to withstand a low Category 5 hurricane, and includes facilities for the Police Department, Fire-Rescue Administration, a Municipal Emergency Operations Center (EOC) and a joint Training Center that includes a Weapons Firing Range.

As professional engineers, the firm endorses and follows the highest ethical standards of professional engineering principles and is proud of the professional relationships we have maintained with the clients who have engaged our services.

We believe that teamwork and diversity results in design solutions tailored to meet each client's goals. Through experience, our clients know TRC doesn't simply complete the project, but also builds strong, long-term relationships.

In addition to "typical" structural design services, TRC established the Restoration Division in 1992 to focus on existing structures and the unique issues that are separate from new construction - issues such as the environment, particularly in coastal areas. Within the past nineteen years, TRC's Restoration staff has helped building owners from Tallahassee to Key West with resourceful, cost-effective solutions to improve and maintain their property.

TRC's design professionals constantly monitor, evaluate and improve management, technology, and project delivery systems to ensure our clients receive the most current and appropriate project solutions. We are known for quality control and quick response and have expertise in many complex analysis platforms such as ETABS, Ram Steel, RISA-3D, SDS/2, AutoCAD and REVIT. Rated in the top 500 by *Engineering News Record*, TRC prides itself in upholding the spirit of its philosophy - **Service – Innovation – Quality**.

	(1) TITLE AND LOCATION (City and State)	(2) YEAR COMPLETED	
	Broward Addiction Recovery Center/ Sexual Assault Treatment Center Facility, Fort Lauderdale, Florida	PROFESSIONAL SERVICES 2013	CONSTRUCTION (If applicable)
a.	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm Mr. Krishnasamy was the principal in charge of the geotechnical engineering study for the proposed BARC/SATC Facility (two 2 story buildings and associated parking lot) located at the northeast corner of SW 4th Avenue and SW 28th Street in Fort Lauderdale, Florida. Provided report summarizing groundwater/subsurface conditions. Also provided geotechnical engineering recommendations regarding site preparation, foundation design, floor slab, utilities, construction excavation/dewatering, flexible pavement design, and other construction considerations.		
	Supervisor of Election Building Plantation, Florida	PROFESSIONAL SERVICES 2012	CONSTRUCTION (If applicable)
b.	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm Mr. Krishnasamy was the principal in charge of the geotechnical study for the proposed Supervisor of Election Building (2-story structure, cover an area of approximately 74,000 SF) to be constructed at Plantation Technology Center. Provided report summarizing subsurface/groundwater conditions. Also provided geotechnical engineering recommendations for foundation design (shallow foundations), utilities, construction excavation/dewatering, site preparation, and flexible asphaltic concrete pavement design.		
	Terminal 4 Improvements Port Everglades, Florida	PROFESSIONAL SERVICES 2013	CONSTRUCTION (If applicable)
c.	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm Mr. Krishnasamy was the principal in charge of the geotechnical engineering study for the improvements to Terminal 4. Improvements included 1) interior remodeling, 2) construction of internal roadway and parking lots, 3) installation of two loading bridges dockside, 4) installation of canopies at drop-off areas around Terminal 4, and 5) extending slip #2 by dredging. Additionally, Auger Cast-in Place (ACIP) piles were being considered to support the bridge structures, and the existing grades in parking areas were to be raised 2 to 4 feet. Provided recommendations regarding site preparation, trench excavations, trench backfill, foundation design for buildings, foundation design alternatives for canopies (shallow/mat foundations vs. deep foundation/ACIP pile design), passenger loading bridge foundation including ACIP pile design criteria, cofferdam soil parameters, flexible pavement design for parking lot/driveway areas, and other construction considerations.		
	Animal Care Adoption Facility Fort Lauderdale, Florida	PROFESSIONAL SERVICES 2012	CONSTRUCTION (If applicable)
d.	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm Mr. Krishnasamy was the principal in charge of the geotechnical study for the Animal Care Adoption Facility (1-story masonry structure with parking lot) to be located at southwest corner of SW 42nd Street and SW 23rd Terrace. Provided report summarizing groundwater/subsurface conditions. Also provided geotechnical engineering recommendations regarding site preparation, foundation design, floor slab, utilities, construction excavation/dewatering, flexible pavement design, and other construction considerations.		
	City of Lauderhill Performing Arts Center and Library Broward County, Florida	PROFESSIONAL SERVICES 2011	CONSTRUCTION (If applicable) 2013
e.	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm Mr. Krishnasamy was the principal in charge of the geotechnical study for the Performing Arts Center and Library (47,000 SF). Provided geotechnical recommendations for foundation design, construction excavation/dewatering, lateral earth pressure/retaining walls, pavement design, drilled shaft foundation for light poles, and general site development. During construction, TSF also provided an inspector to observe the footing subgrade.

2011							
b.	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm Mr. Vedula was the senior geotechnical engineer for the safety improvement project included installation of mast arms at the following intersections: SR 820 (Hollywood Boulevard) and NW 35th Avenue, SR 845 (Powerline Road) and NW 40th Court. Performed a geotechnical engineering study to explore the subsurface conditions within the general vicinity of the intersections and provide geotechnical recommendations to guide the design and construction. Provided recommendations for drilled shaft foundation design as well as construction considerations.						
	(1) TITLE AND LOCATION (City and State) Terminal 26 Expansion Port Everglades, Florida	(2) YEAR COMPLETED <table style="width: 100%; border: none;"> <tr> <td style="width: 50%; border: none;">PROFESSIONAL SERVICES</td> <td style="width: 50%; border: none;">CONSTRUCTION (If applicable)</td> </tr> <tr> <td style="border: none; text-align: center;">2012</td> <td style="border: none;"></td> </tr> </table>		PROFESSIONAL SERVICES	CONSTRUCTION (If applicable)	2012	
PROFESSIONAL SERVICES	CONSTRUCTION (If applicable)						
2012							
c.	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm Mr. Vedula was the senior engineer for the geotechnical engineering study for the Terminal 26 Expansion, which included 1) expansion of the interior southward into existing warehouse with existing concrete slab, 2) adding interior partition walls and few columns, 3) installation of one passenger loading bridge dockside, and 4) reconfiguration of the vehicular area on the building's west side. Provided report summarizing subsurface and groundwater conditions. Also provided geotechnical recommendations for site preparation, foundation design including ACIP pile design criteria, floor slab, retaining walls, trench excavations, utilities, and other construction considerations.						
	(1) TITLE AND LOCATION (City and State) Terminal 3 Modernization - Fort Lauderdale-Hollywood International Airport, Broward County, Florida	(2) YEAR COMPLETED <table style="width: 100%; border: none;"> <tr> <td style="width: 50%; border: none;">PROFESSIONAL SERVICES</td> <td style="width: 50%; border: none;">CONSTRUCTION (If applicable)</td> </tr> <tr> <td style="border: none; text-align: center;">2014</td> <td style="border: none;"></td> </tr> </table>		PROFESSIONAL SERVICES	CONSTRUCTION (If applicable)	2014	
PROFESSIONAL SERVICES	CONSTRUCTION (If applicable)						
2014							
d.	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm Mr. Vedula was the senior geotechnical engineer for the Terminal 3 Modernization, which consists of remodeling at 18 separate areas. Evaluated the use of shallow and deep foundations for support of the proposed building addition. Provided geotechnical recommendations for shallow foundation design, alternate deep foundation (auger cast pile foundation) design option, ground floor slab, utilities, dewatering/excavations, passenger loading bridge foundation design, and site preparation.						
	(1) TITLE AND LOCATION (City and State) International Swimming Hall of Fame Fort Lauderdale, Florida	(2) YEAR COMPLETED <table style="width: 100%; border: none;"> <tr> <td style="width: 50%; border: none;">PROFESSIONAL SERVICES</td> <td style="width: 50%; border: none;">CONSTRUCTION (If applicable)</td> </tr> <tr> <td style="border: none; text-align: center;">2013</td> <td style="border: none;"></td> </tr> </table>		PROFESSIONAL SERVICES	CONSTRUCTION (If applicable)	2013	
PROFESSIONAL SERVICES	CONSTRUCTION (If applicable)						
2013							
e.	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm Mr. Vedula was the senior engineer for the geotechnical engineering study for the development of a 5 story structure with swimming pool and grand stand at the roof level. At the time of the study, the site was currently occupied by two swimming pools, 1 to 2 story structures, and associated driveway and parking lot. Provided geotechnical recommendations regarding foundation design, including Augercast-In-Place piles, ground floor slab, below grade walls, utilities, construction excavation and dewatering.						

H. ADDITIONAL INFORMATION

30. PROVIDE ANY ADDITIONAL INFORMATION REQUESTED BY THE AGENCY. ATTACH ADDITIONAL SHEETS AS NEEDED.

Company Profile

Tierra South Florida, Inc. is a multi-disciplinary geotechnical, materials engineering and inspection firm, offering professional engineering and associated consulting services to both the public and private sectors. The primary service areas are:

1. Geotechnical Engineering
2. Field and laboratory construction materials engineering inspection and testing
3. Threshold/Special Inspections

The geotechnical and materials engineering services provide clients with the comprehensive range of siting, planning, design, construction and quality control disciplines required for major construction projects.

Mr. Raj Krishnasamy, P.E. qualifies as a minority by Federal Guidelines. Mr. Krishnasamy is a licensed Engineer with 27 years of experience in geotechnical, material engineering and inspection services.

Geotechnical Engineering

Tierra South Florida can provide a complete range of geotechnical engineering services. These services include site assessments, planning, field and laboratory investigations, design specifications and recommendations, quality control, instrumentation and performance studies. Applications are for all types of buildings, airport facilities, transportation systems, landfills, dams, and other civil and private projects. Tierra South Florida's primary market is minority business set aside by City, County, State and Federal agencies.

Construction Materials Engineering and Testing

Tierra South Florida offers materials engineering, testing and inspection services applicable to the governmental, construction and manufacturing industries. Tierra South Florida will evaluate and then develop recommendations regarding both existing structures and new construction. During construction, monitoring and quality control services will cover every phase of construction and all materials used.

Laboratory Facilities

Tierra South Florida operates its own laboratory facilities in order to better meet the needs of its clients. This laboratory provides specialized testing services associated with geotechnical, engineering, and construction materials. Tierra South Florida's laboratory facilities are designed and operated to provide fast, reliable information to assure the meeting of client's needs. The geotechnical operations of Tierra South Florida are supported by state-of-the-art soil testing capabilities. Tierra South Florida has a laboratory for the testing of non-contaminated soils and materials. The trained and certified laboratory staff will routinely perform physical properties testing of soil, rock, concrete, steel, asphalt, and composite building materials. These testing services are performed in support of all project phases, including site investigations and assessments, design, and construction.

Corporate and Project Management Philosophy

The Tierra South Florida organization is committed to minimizing corporate administrative control which allows both branch management and specific technical teams to take correct and timely actions to meet the objectives of their clients. Employees stress quality, responsive services in which they will take a great deal of pride. Client satisfaction with the quality of Tierra South Florida's work, past and future, will result in a large percentage of work to be performed for repeat clients.

Interaction with Regulatory Agencies

Tierra South Florida has an excellent working relationship with the Florida Department of Transportation as well as the South Florida Water Management District. When working within right of way of these agencies, Tierra South Florida will submit an application for request of work permit and obtain the proper authorization prior to proceeding with work. Tierra South Florida will then follow up with a meeting to explain the scope in detail, and notify the agency at completion.

F. EXAMPLE PROJECTS WHICH BEST ILLUSTRATE PROPOSED TEAM'S QUALIFICATIONS FOR THIS CONTRACT (Present as many projects as requested by the agency, or 10 projects, if not specified. Complete one Section F for each project.)		20. EXAMPLE PROJECT KEY NUMBER 1		
21. TITLE AND LOCATION (City and State) City of Lauderhill Performing Arts Center and Library Broward County, Florida		22. YEAR COMPLETED <table border="1" style="width: 100%; border-collapse: collapse;"> <tr> <td style="text-align: center; padding: 2px;">PROFESSIONAL SERVICES 2011</td> <td style="text-align: center; padding: 2px;">CONSTRUCTION (If applicable) 2013</td> </tr> </table>	PROFESSIONAL SERVICES 2011	CONSTRUCTION (If applicable) 2013
PROFESSIONAL SERVICES 2011	CONSTRUCTION (If applicable) 2013			
23. PROJECT OWNER'S INFORMATION				
a. PROJECT OWNER Westlake Reed Leskosky	b. POINT OF CONTACT NAME Mr. Jason Adolff	c. POINT OF CONTACT TELEPHONE NUMBER (202)296-4344		
24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost) <p>Performed a geotechnical exploration and evaluation of the subsurface conditions to enable an evaluation of acceptable foundation systems for the construction of the proposed Performing Arts Center and Library, a 47,000 SF facility to be located near the intersection of Sunrise Boulevard and US 441 in the City of Lauderhill, Florida. The project has two components, a performing Arts Center and a Library. The Performing Arts Center will have a 1200 seat theater and will also include an art gallery, meeting/classrooms, and banquet/reception facilities. A 10,000SF library will be attached to the Performing Arts Center. The purpose of the geotechnical engineering study was to explore the subsurface conditions at the site to enable an evaluation of acceptable foundation systems for the proposed construction. Field work included the drilling of eight (8) Standard Penetration Test (SPT) borings to depths of between 30 and 50 feet below the surface, five (5) auger borings to a depth of 10 feet, and two (2) Borehole Permeability (BHP) tests. Provided geotechnical recommendations for foundation design, construction excavation/dewatering, lateral earth pressure/retaining walls, pavement design, drilled shaft foundation for light poles, and general site development. Project was completed on time and within budget.</p> <p>During construction, TSF provided an inspector to observe the footing subgrade at the Orchestra Pit. After observing footing that the subgrade was wet and the gravel was being placed on top of the wet sand and compacted, we recommended that the Orchestra Pit footing subgrade be dewatered and compacted to at least 95% of the material's maximum dry density; and then gravel could be placed on top of the tested sand, and compacted</p>				

25. FIRMS FROM SECTION C INVOLVED WITH THIS PROJECT

a.	(1) FIRM NAME Tierra South Florida, Inc.	(2) FIRM LOCATION (City and State) West Palm Beach, FL	(3) ROLE Geotechnical Engineering & Inspection Services

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost) <p>Performed a geotechnical engineering study for the project which included the proposed development of a Football Stadium with 30,000 seats to accommodate football and other sports and entertainment events. Field work included Standard Penetration Test (SPT) borings and BoreHole Permeability (BHP) tests. TSF provided geotechnical recommendations regarding: foundation soil preparation requirements; foundation types, depths, allowable bearing capacities, and an estimate of potential settlement; and comments regarding factors that may impact construction and performance of the proposed construction.</p> <p>During the construction phase, TSF provided inspections during auger-cast pile installation, and provided materials testing, laboratory, and specialty testing services for compliance with project specifications. Our field technicians sampled concrete and provided density tests on foundation, slabs, sidewalks, parking areas, utility backfill. Our laboratory provided Proctor, LBR tests, as well as reporting concrete breaks. Our inspectors are visited the site to provide specialty testing services, i.e. fireproofing, pull tests, moisture tests, and floor flatness tests.</p> <p>The projects were completed on-time and within budget – geotechnical engineering services in 2010 and construction material testing and inspection services in 2011.</p>

23. PROJECT OWNER'S INFORMATION				
a. PROJECT OWNER Palm Beach County	b. POINT OF CONTACT NAME Mr. John Chesher	c. POINT OF CONTACT TELEPHONE NUMBER (561) 233-0266		
24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost) <p>Performed a subsurface exploration and geotechnical engineering services for the Belle Glade Library (17,000 SF). Field work included 5 Standard Penetration Test (SPT) borings to 25 feet; 2 auger borings to a depth of 10 feet; and one Bore Hole Permeability (BHP) test. The geotechnical exploration completed for the Belle Glade Library confirmed that the site at the time of the study was not suitable for the planned construction when viewed from a soil mechanics and foundation engineering perspective. The soft organic soils would consolidate over time and would not provide safe support to shallow spread foundations, and slab-on-grade systems. Provided report with geotechnical recommendations for either removing the muck and replacing with compacted fill or a deep foundation system. For the shallow foundation alternative, TSF provided recommendations for necessary site preparation and conventional spread foundations based in engineered fill. For the deep foundation alternative, recommendations included utilizing either Mandrel piles or Auger-Cast Piles. Report also included a discussion of construction considerations for both Mandrel piles and Auger-Cast piles. To reduce construction costs for the County, TSF provided recommendations for utilizing biaxial geogrids (with muck-in-place) in the pavement areas. Also provided recommendations for flexible pavement design. Also provided material testing (soils and concrete), asphalt inspections, de-mucking inspections, and threshold inspection services during construction.</p> <p>The project was completed on time and within budget.</p>

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost) <p>TSF performed a geotechnical engineering study for the Public Safety Training Center for PBSC. The construction consisted of single-story buildings which included: General Education building, EMT/Paramedic building, Fire Science Technology building, Criminal Justice building, Tactics & Training Gymnasium/Wellness Center and Law Enforcement Center/Firing Range. The proposed structures were to cover approximately 125,000 square feet per floor. Field work included 26 Standard Penetration Test (SPT) borings to a depth of 10 - 35 feet below grade and 8 BHP (Borehole Permeability) tests. TSF provided geotechnical recommendations on foundation site preparation requirements (demucking, fill, proofrolling, etc.). Also provided geotechnical recommendations regarding foundation design (shallow foundations, potential Vibro-flotation options, etc.) and pavement design. TSF also provided comments regarding factors that may impact construction and performance of the proposed construction.</p> <p>During the construction phase, TSF provided materials testing, laboratory, and inspection services for compliance with project specifications. TSF's field technicians sampled concrete, masonry grout, and provided density tests on foundation, slabs, sidewalks, parking areas, utility backfill. Laboratory provided Proctor, LBR tests, as well as reporting concrete breaks. TSF's structural inspectors visited the site to observe steel erection, provide bolt and torque inspections.</p> <p>The project was completed on time and within budget.</p> <div style="display: flex; justify-content: space-around;">   </div>

23. PROJECT OWNER'S INFORMATION		
a. PROJECT OWNER Port Everglades	b. POINT OF CONTACT NAME Mr. John Foglesong	c. POINT OF CONTACT TELEPHONE NUMBER (954) 523-3404
24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost) <p>Performed a geotechnical engineering study for the improvements to Terminal 4. Improvements included 1) interior remodeling, 2) construction of internal roadway and parking lots, 3) installation of two loading bridges dockside, 4) installation of canopies at drop-off areas around Terminal 4, and 5) extending slip #2 by dredging. Additionally, Auger Cast-in Place (ACIP) piles were being considered to support the bridge structures, and the existing grades in parking areas were to be raised 2 to 4 feet. Provided recommendations regarding site preparation, trench excavations, trench backfill, foundation design for buildings, foundation design alternatives for canopies (shallow/mat foundations vs. deep foundation/ACIP pile design), passenger loading bridge foundation including ACIP pile design criteria, cofferdam soil parameters, flexible pavement design for parking lot/driveway areas, and other construction considerations.</p> <p>The project was completed in time and within budget.</p>

F. STAFFING EXPERIENCE

F. STAFFING EXPERIENCE

Luis Ajamil – Principal

Luis Ajamil is President and CEO of Bermello Ajamil & Partners, Inc., an award-winning international multidisciplinary design firm. Under his leadership, B&A has expanded its worldwide presence to become one of the preeminent firms in its field. A consummate visionary who believes in providing service on a global scale, Mr. Ajamil strategically expanded operations to include B&A offices across the United States from Florida to California and abroad in Dubai - embracing the opportunity to serve that burgeoning market. Mr. Ajamil is a Planner and a Professional Engineer with an impressive portfolio of innovative master planning projects for waterfront projects. Long recognized as a national and international expert in the Maritime field, Mr. Ajamil has served as keynote speaker and panelist at many conferences all around the world.

Scott Bakos – Project Manager

B&A's Project Manager for this agreement, Scott Bakos, has over 20 years of experience in the field of architecture with specialization in Architectural Design, project management, consultant coordination, production of construction documents, permitting and construction administration. As a project manager, Mr. Bakos collaborates on a variety of public and private sector-projects including municipal and government facilities, park and recreational complexes and commercial commissions. He will be the primary point of contact with the City and will be responsible for all projects assigned to B&A. Mr. Bakos has been the Project Manager on miscellaneous A/E contracts for a great number of municipalities throughout his career at B&A. Mr. Bakos has an established and prolific working relationship with the entire project team (in- house and sub-consultants) and has successfully worked with and completed projects with all proposed team members.

Jorge Ferrer – QA/QC Manager

Mr. Ferrer has over 20 years of experience in architecture and interior architecture for a variety of clients, including government, commercial office, parks, and hospitality facilities. He has served as project manager coordinating project teams and engineering consultants from project inception through implementation. One of Mr. Ferrer's primary responsibilities is to ensure that all projects developed at B&A go through our rigorous document review and coordination process. He, along with his team of professionals, reviews all projects for completion, correctness, and compliance with established design criteria and governing codes. As the QA/QC Manager, Mr. Ferrer will oversee and coordinate our proposed QA/QC Team which is composed of individuals with backgrounds and experience that include architecture, construction management, landscape architecture, structural and MEP engineering. A diverse QA/QC team ensures that projects are reviewed and checked from multiple points of view to:

- Ensure compliance with program requirements
- Ensure conformance with applicable codes
- Ensure constructability
- Ensure conformance with project budget
- Ensure that the long term operation and maintenance of the project is consistent with the City's expectations

Todd Osborn – Architect of Record

B&A's Architect of Record for this agreement, Todd Osborn, has over 25 years of experience in the field of architecture with specialization in project and program management, consultant coordination, production of construction documents, permitting and construction administration. As Architect of Record, Mr. Osborn oversees a variety of public and private sector-projects including municipal and government facilities, park and recreational complexes and commercial commissions. He will be involved on each project assigned under this agreement and will be responsible for all projects assigned to B&A along with our Project Manager, Mr. Bakos. Mr. Osborn has been the Architect of Record on miscellaneous A/E contracts for a great number of municipalities and other government entities throughout his career. Mr. Osborn has an established working relationship with the entire project team (in- house and sub-consultants) and has successfully worked with and completed projects with all proposed team members.

Mayra Cohen-Mora – Interior Design

Ms. Cohen-Mora has 27 years of experience in the architectural profession, specializing, during the last 21 years, in Interior Architecture and Interior Design. Her various roles have included project architect, project designer, senior designer, project manager, and design director and her experience covers all aspects of project management from project administration to design and construction. She has held a number of these positions with some of the top 100 Architectural and Interior Design firms in South Florida. Ms. Cohen-Mora has worked on projects locally and nationally as well as internationally in South America and the Middle East. Her project experience encompasses corporate, banking, government, educational, retail, hospitality, residential, healthcare/medical and aviation. Mayra's bachelors curriculum was focused on the rapidly expanding field alternative technologies related to eco-friendly architecture 30 years ago. Ms. Cohen-Mora became LEED AP in September of 2009.

Randy Hollingworth – Master Planning

Randy Hollingworth has more than 30 years experience as an urban and landscape designer. His specialty is the design and development of mixed use projects and their integration within the urban fabric. With a comprehensive understanding of the needs and requirements of various land uses, Mr. Hollingworth has prepared development plans for a wide range of project types. He has developed master plans and design guidelines for commercial and retail areas, office parks and residential communities in numerous waterfront locations throughout Florida. In addition to his extensive urban design and planning experience, Mr. Hollingworth has worked on a wide variety of landscape design oriented projects.

Maria Zapata – Civil Engineering

Maria Zapata is an Engineering Professional with over 25 years of experience. Her accomplishments and leadership are in multi-million dollar projects involving strategic planning, design and construction management of civil infrastructure, urban developments and industrial facilities. Ms. Zapata's experience includes project management, project development, consulting, water resources, entitlements and land development for commercial, residential and industrial facilities; water and wastewater infrastructure; and road projects.

G. PROPOSED TEAM

G. PROPOSED TEAM

Involvement of individual team members in terms of hours is entirely dependent on the quantity and type of projects assigned. B&A is fully committed to providing staffing of appropriate team members up to 100% of their time in order to provide quality design services within the project schedule. Our Project Manager, Scott Bakos will assess each assignment and dedicate the appropriate professional and support staff to achieve timely completion of all project milestones.

Details regarding our key staff members level of field experience can be found in **Section F** of this submittal.

South City Beach Park, Hallandale Beach, FL

H. MUNICIPAL STAFF SUPPORT

H. MUNICIPAL STAFF SUPPORT

In the course of provided professional design services for the City of Hollywood, interaction and guidance will be needed from the municipal staff. B&A will coordinate and adapt to the existing municipal staff structure to ensure a smooth and efficient chain of communication.

Specific municipal staff support anticipated will include assignment of a City of Hollywood staff member to serve as the Owner's project manager. This individual would be expected to be the primary point of contact for B&A for assigned projects to ensure a consistent means of communicating with the City for the purposes of project related matters. This individual would be expected to assist B&A in coordinating with end user departments of the City for individual projects and provide guidance and advice regarding City Standards, processes, scheduling presentations to review boards, etc.

B&A takes full responsibility for assigned design projects, however, it is imperative to have input and guidance from the Owner and particularly the end users of facilities in order to ensure successful projects.

Miami-Dade Water & Sewer Dept. Facility, Miami, FL

I. APPROACH TO WORK

I. PROPOSED APPROACH, METHODOLOGY AND DESIGN PHILOSOPHY

For many years, B&A has assisted governmental agencies and municipalities with all aspects of the design and construction process. At B&A we consider project completion on time and within budget to be a requisite component of project execution.

Our design philosophy strives to achieve our Client's needs and vision while reflecting our passion for innovation and design excellence. It is founded on the principle that only through gauging and thoroughly understanding a Client's needs and goals can projects be effectively completed. Successful projects to B&A are those that: meet or exceed the Client's goals; are welcomed by the public and its users; are technically and environmentally sound in their design and execution; are cost effective and affordable to the Client; and are completed on-time and within budget. B&A prides itself on having fulfilled this mission for a great number of past and current Clients.

- **Understanding the Client's Need and Goals** - We believe that our clients are our best source of information and therefore we partner with them early in the process to develop realistic scope, goals and expectations that become the cornerstone of a project's deliverables with respect to design, scheduling and available construction budget.

- **Design Fees** – Each project will be independently evaluated and fees established based on the City's project design budget and scope. We will meet with the City to evaluate the program and scope of each project, determine the “wants” and “needs” and finalize the scope of the project. Each project fee will be determined using a minimum of 2 fee-determining methods – itemized by task based on work effort required and design fee based on percentage of estimated construction cost. We are also experienced in delivering projects based on various fee delivery methods including lump sum and time and materials, and will work with the City to determine the most cost and time-effective method for each assignment.

- **Existing Conditions** - We develop solid technical innovative designs based on a thorough understanding of the existing site conditions through the review of surveys, geotechnical testing reports, as-built plans, existing reports, utility markups and public sentiment.

- **Permitting** - An understanding of the regulatory permitting requirements and the limitations that these requirements pose on the design of the project will be clearly identified prior to engaging in the design of the project. We will identify and understand these requirements and build into the project the necessary components to avoid cost over runs and construction delays associated with regulatory permitting.

- **Budgetary Constraints** - We design to meet our Client's budgetary constraints. We will assist the City in establishing project budgets, tracking and cost-controls through all phases of the work and, if needed, value engineer the project to ensure that it is within the established project budget. We have included CMS as part of our team to specifically address all costs associated with each project. They will evaluate each project at the designated phases and provide up-to-date market costs to ensure that our project is being designed within budget.

- **Scheduling** - We develop flexible project schedules that are based on realistic goals, task identification and task interrelationships. We will confirm that each task fits within the overall project and target dates and provides for contingencies within the work plans. B&A will be performing all of the scheduling tasks for the project. We will develop and update the project design and construction schedules and monitor them throughout the duration of the project.

DESIGN PROCESS

Our design process is based on proven processes. Specifically, we carry out assignments and design projects according to the following steps:

- **Project Team Selection** - Our Project Manager will evaluate the needs of the specific assignment and determine, in conjunction with the discipline managers, the necessary staff and technical resources required to deliver the project.
- **Development of QA/QC Plan** - We will prepare a project specific Quality Assurance/ Quality Control (QA/ QC) Plan and a Quality Control Officer will be selected. This plan will establish the protocols and QA/QC review intervals throughout the planning, and design of the project. Our QA/QC Plan is built into the project not an added component.
- **Data Collection** - We will engage in the collection of all available data that is vital to analyzing the current conditions and upon which the design criteria of the project will be based.
- **City of Hollywood and B&A Partnership Meeting** - We will meet with the City staff to discuss in detail the needs and goals of each assignment. We will explain our preliminary findings with respect to data and permitting constraints and present our preliminary deliverable schedule. We will obtain a clear understanding of the City's construction budget, scheduling needs and discuss in concept possible solutions that are acceptable to the City.
- **Design Criteria Report Preparation** - We will review the collected data in detail, evaluate the current conditions and develop a design approach. A report will be prepared for submittal to the City of Hollywood and once accepted by the City, it will establish the criteria by which the project will be designed. The report will contain assumptions, limitations, and constraints associated with the project as well as list the regulatory agencies having jurisdiction over the project from which permits will be required. This report will be the basis upon which the construction documents will be developed and the foundation for the project.
- **Preparation of Design and Construction Documents** - We will prepare design and construction documentation beginning from preliminary design, schematic design and design development thru construction documents based on a traditional project delivery schedule. As such, we will submit documents at key project design milestones such as schematic design, design development, and 50%, 90% and 100% construction documents for review by the City of Hollywood staff. However, if necessary, we can compress the schedule of deliverables by reducing the number of review submittals. We can also assign staff to work at the City of Hollywood where City staff can conduct reviews together with our staff and shorten the review period.

QUALITY CONTROL/ QUALITY ASSURANCE PROCEDURES

B&A has developed and implemented a thorough and comprehensive Quality Control plan that ensures the minimizing of errors and omissions on projects. At B&A, project quality is built-in not added on. Quality work is the direct result of careful, properly sequenced production, and continuous Responsible Professional checking of each work element for completion and correctness. This process also includes the concurrence of the designated Quality Reviewer on concepts and presentation of each work element.

The Responsible Professionals and supporting engineers, designers and technicians working under their direct supervision, will originate the designs, plans and/or reports, utilizing thorough quality-oriented Responsible Professionals to perform detailed checks for accuracy, errors and omissions prior to substantial completion and before each phase submittal review. The standard checking procedure in our Quality Control Manual shall be utilized for production checking. The Project Manager and the Responsible Professionals are to continuously monitor and coordinate all aspects of the project and check the work for inclusion of client review comments and requirements. In addition, a Quality Assurance Quality Control (QA/QC) team will review all work products prior to delivery to the City.

Quality Assurance and Quality Control Team

Our proposed QA/QC Team is composed of individuals with backgrounds and experience that include architecture, construction management, landscape architecture, structural and MEP engineering. A diverse QA/QC team will ensure that the projects are reviewed and checked from multiple points of view to:

- Ensure compliance with program requirements
- Ensure conformance with applicable codes
- Ensure constructability
- Ensure conformance with project budget
- Ensure that the long term operation and maintenance of the project is consistent with the City's expectations

MANAGEMENT OF THE PERMITTING PROCESS

The B&A team has extensive experience in processing and obtaining permits from municipal, county and state agencies. We will work with the City of Hollywood's Building and Zoning Department to ensure that all design work is compliant to the latest codes and regulations and be available to meet with the City's staff during the permit process to expeditiously resolve any questions/comments that may arise during the permit/plans review process. The B&A team also has experience with environmental regulatory agencies such as the South Florida Water Management District (SFWMD), the Florida Department of Environmental Protection (DEP), the US Army Corp of Engineers (COE) and DERM's Coastal and Fresh Water Wetlands sections. B&A has implemented a streamlined permitting management approach based on the following basic steps:

- Assign Permit Coordinator and Set Up Tracking Software
- Pre-Submittal Meeting with Agency Having Jurisdiction
- Parallel Processing Permit Approach
- Check Modifications Requested by Agencies
- Documentation to Assure Permitting Continuity from One Reviewer to Another

B&A WORKLOAD AND TECHNOLOGY

B&A is prepared to fully commit itself and the resources of its sub-consultant team to fulfill the needs of the City of Hollywood as they arise under the stewardship of this Architectural Design Services Agreement. We are ready to address with upmost priority any project assigned under this contract, and attend to it as quickly as the City requires. We pride ourselves on providing every Client with responsive and immediate assistance and have the manpower and team of professionals to provide many of the potential services identified in the City's RFQ in-house. B&A employs the latest computer technology and operating systems available for plan production, graphic illustration and project management, including Building Information Modeling (BIM).

FTP Site and Client Portal

B&A has the capability of establishing project specific FTP sites should the City require. The FTP Site can be used as a depository for plans, reports and calculations for the purpose of providing secured access to the City, the B&A Team and consultants working for the City of Hollywood. B&A uses FTP sites on a regular basis when partnering with Clients on projects both locally and anywhere in the world.

B&A also has the capability of establishing a Client Portal. A Client Portal is not just a depository of plans, calculations and reports, but it can also be a management tool for the City. The Portal can be set up to provide notices to the City when a permit application has been submitted, when regulatory agency RFI's have been received and when the consultant response was issued. In addition, project schedules can be posted on the Portal. In essence, the Client Portal is a project management tool that can allow the City to exchange information with the design staff and maintain the pulse of the project throughout the planning, design, permitting and construction phase of the project.

Conclusion

The aggregate of the items described in the Approach section of this proposal demonstrates the B&A teams normal mode of operations to accommodate the varying needs of our clients, and the specific needs of each individual project. This proven process and methodology provides for timely completion of projects with a very high degree of design and document quality.

FAILURE TO SIGN THIS SOLICITATION WHERE INDICATED BY AN AUTHORIZED REPRESENTATIVE SHALL RENDER THE BID/PROPOSAL NON-RESPONSIVE. THE CITY MAY, HOWEVER, IN ITS SOLE DISCRETION, ACCEPT ANY BID/PROPOSAL THAT INCLUDES AN EXECUTED DOCUMENT WHICH UNEQUIVOCALLY BINDS THE BIDDER/PROPOSER TO THE TERMS OF ITS OFFER.

ANY EXCEPTION, CHANGES OR ALTERATIONS TO THE GENERAL TERMS AND CONDITIONS, HOLDHARMLESS/INDEMNITY DOCUMENT OR OTHER REQUIRED FORMS MAY RESULT IN THE BID/PROPOSAL BE DEEMED NON-RESPONSIVE AND DISQUALIFIED FORM THE AWARD PROCESS.

RFP CHECKLIST

Please check each line item after the completion of the appropriate item.

- ☒ I verify that the signature on page number one (1) is the signature of the person authorized to bind the agreement. (Preferably in blue ink)
- ☒ I acknowledge reading and signing the Hold Harmless Statement.
- ☒ I have included all information, certificates, licenses and additional documentation as required by the City in this RFP document.
- ☒ I have checked for any addendums to this RFP, and will continue to check for any addendums up to the due date and time of this RFP.
- ☒ I have submitted one (1) original and eight (8) copies and one (1) electronic copy (CD) of the entire proposal with addendums.
- ☒ I have verified that the outside address label of my RFP package is clearly marked to include my company's name, address, RFP number and date of RFP opening.
- ☒ I have read and completed (if applicable) the "Disclosure of Conflict of Interest".
- ☒ I am aware that a Notice of Intent to award this bid shall be posted on the City's website at www.hollywoodfl.org and on the Procurement Services bulletin board in room 303 at City Hall, and that it is my responsibility to check for this posting. Also, I have provided my email address, as the City, at its discretion, may provide me information by such means regarding this procurement process.
- ☒ I have submitted all supporting documentation for local preference eligibility, which must be received with the bid package prior to the bid opening date and time (if applicable).

**SWORN STATEMENT PURSUANT TO SECTION 287.133 (3) (a) FLORIDA
STATUTES ON PUBLIC ENTITY CRIMES**

THIS FORM MUST BE SIGNED AND SWORN TO IN THE PRESENCE OF A NOTARY PUBLIC OR
OTHER OFFICIAL AUTHORIZED TO ADMINISTER OATHS

1. This form statement is submitted to City of Hollywood
by Scott Bakos for Bermello Ajamil & Partners, Inc.
(Print individual's name and title) (Print name of entity submitting sworn statement)
whose business address is 900 SE 3rd Ave. Suite 203 Fort Lauderdale, FL 33316
and if applicable its Federal Employer Identification Number (FEIN) is 59-1722486 If the entity has no FEIN,
include the Social Security Number of the individual signing this sworn statement.

2. I understand that "public entity crime," as defined in paragraph 287.133(1)(g), Florida Statutes, means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or with the United States, including, but not limited to, any bid, proposal, reply, or contract for goods or services, any lease for real property, or any contract for the construction or repair of a public building or public work, involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misinterpretation.

3. I understand that "convicted" or "conviction" as defined in Paragraph 287.133(1)(b), Florida Statutes, means a finding of guilt or a conviction of a public entity crime, with or without an adjudication of guilt, in an federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, nonjury trial, or entry of a plea of guilty or nolo contendere.

4. I understand that "Affiliate," as defined in paragraph 287.133(1)(a), Florida Statutes, means:

1. A predecessor or successor of a person convicted of a public entity crime, or
2. An entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public entity crime. The term "affiliate" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

5. I understand that "person," as defined in Paragraph 287.133(1)(e), Florida Statutes, means any natural person or any entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which bids or applies to bid on contracts let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, executives, partners, shareholders, employees, members, and agents who are active in management of an entity.

6. Based on information and belief, the statement which I have marked below is true in relation to the entity submitting this sworn statement. (Please indicate which statement applies.)

☒ Neither the entity submitting sworn statement, nor any of its officers, director, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, nor any affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

☐ The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

_____ The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime, but the Final Order entered by the Hearing Officer in a subsequent proceeding before a Hearing Officer of the State of the State of Florida, Division of Administrative Hearings, determined that it was not in the public interest to place the entity submitting this sworn statement on the convicted vendor list. (attach a copy of the Final Order).

I UNDERSTAND THAT THE SUBMISSION OF THIS FORM TO THE CONTRACTING OFFICER FOR THE PUBLIC ENTITY IDENTIFIED IN PARAGRAPH 1 (ONE) ABOVE IS FOR THAT PUBLIC ENTITY ONLY AND THAT THIS FORM IS VALID THROUGH DECEMBER 31 OF THE CALENDAR YEAR IN WHICH IT IS FILED. I ALSO UNDERSTAND THAT I AM REQUIRED TO INFORM THAT PUBLIC ENTITY PRIOR TO ENTERING INTO A CONTRACT IN EXCESS OF THE THRESHOLD AMOUNT PROVIDED IN SECTION 287.017 FLORIDA STATUTES FOR A CATEGORY TWO OF ANY CHANGE IN THE INFORMATION CONTAINED IN THIS FORM.

**CERTIFICATIONS REGARDING DEBARMENT, SUSPENSION AND OTHER
RESPONSIBILITY MATTERS**

The applicant certifies that it and its principals:

- (a) Are not presently debarred, suspended, proposed for debarment, declared ineligible, sentenced to a denial of Federal benefits by a State or Federal court, or voluntarily excluded from covered transactions by any Federal department or agency;
- (b) Have not within a three-year period preceding this application been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State, or local) transaction or contract under a public transaction, violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
- (c) Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State, or local) with commission of any of the offenses enumerated in paragraph (b) of this certification; and
- (d) Have not within a three-year period preceding this application had one or more public transactions (Federal, State, or local) terminated for cause or default.

DRUG-FREE WORKPLACE PROGRAM

IDENTICAL TIE BIDS - Preference shall be given to businesses with drug-free workplace programs. Whenever two or more bids which are equal with respect to price, quality, and service are received by the State or by any political subdivision for the procurement of commodities or contractual services, a bid received from a business that certifies that it has implemented a drug-free workplace program shall be given preference in the award process. Established procedures for processing tie bids will be followed if none of the tied vendors have a drug-free workplace program. In order to have a drug-free workplace program, a business shall:

1. Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.
2. Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violations.
3. Give each employee engaged in providing the commodities or contractual services that are under bid a copy of the statement specified in subsection (1).
4. In the statement specified in subsection (1), notify the employee that, as a condition of working on the commodities or contractual services that are under bid, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.
5. Impose a sanction on, or require the satisfactory participation in a drug abuse assistance or rehabilitation program (if such is available in the employee's community) by, any employee who is so convicted.
6. Make a good faith effort to continue to maintain a drug-free workplace through implementation of these requirements.

As the person authorized to sign the statement, I certify that this firm complies fully with the above requirements.

NAME OF COMPANY

SOLICITATION, GIVING, AND ACCEPTANCE OF GIFTS POLICY

Florida Statute 112.313 prohibits the solicitation or acceptance of Gifts. - "No Public officer, employee of an agency, local government attorney, or candidate for nomination or election shall solicit or accept anything of value to the recipient, including a gift, loan, reward, promise of future employment, favor, or service, based upon any understanding that the vote, official action, or judgment of the public officer, employee, local government attorney, or candidate would be influenced thereby." The term "public officer" includes "any person elected or appointed to hold office in any agency, including any person serving on an advisory body."

The City of Hollywood policy prohibits all public officers, elected or appointed, all employees, and their families from accepting any gifts of any value, either directly or indirectly, from any contractor, vendor, consultant, or business with whom the City does business.

The State of Florida definition of "gifts" includes the following:

- Real property or its use,
- Tangible or intangible personal property, or its use,

8. ADDENDUMS

City of Hollywood, Florida

PROCUREMENT SERVICES RM. 303
P. O. Box 229045 ZIP 33022-9045

NOTICE TO PROPOSERS

NOTICE IS HEREBY GIVEN, that the City Commission of the City of Hollywood, Florida is advertising for Sealed Request for Qualifications, which will be received by the City Clerk of the City of Hollywood, Florida until **3:00 P.M., November 6, 2014**, at which time they will be opened and publicly read in the Procurement Services Division, Room 303, City Hall, 2600 Hollywood Boulevard, Hollywood, Florida. FOR: **Continuing Contract for Architectural Design Services (PW14-016)**

RFQ NO. 4436-14-RD
ADDENDUM NO. 1

Please make the following changes (additions, deletions or corrections) in the above named RFP.

Questions submitted in regards to the above RFP and corresponding answers:

Q1: Are we required to include sub-consultants for services that we cannot provide in-house?

A1: **Sub-consultants for services that you cannot provide in-house should be included in the submittal. The selection of the Architectural firm however does not guarantee that the services of the sub-consultants will be utilized.**

Q2: If so, are we required to submit a 330 for each sub or can we combine them under one?

A2: **A 330 for each sub-consultant should be included.**

Q3: Are looking for a design team which includes engineering consultants or just qualifications for architectural services?

A3: **This is an RFQ for Architectural Services, that said it is understood that the architectural firm would have a preferred group of sub-consultants that they would prefer to work with and have a successful record of working together.**

Q4: If we are to submit with a design team can we include a firm that currently has a continuing contract with the City/

A4: **Your submittal can included sub-consultants that currently have a continuing contract with the City.**

Q5: Is it permissible to print on both sides of the paper?

A5: **It is permissible to print on both sides of the paper provided that the binding is such that it is easy to view the back side of the page.**

**RFQ NO. 4436-14-RD
ADDENDUM NO. 1**

Q6: Are soft cover bindings for original and copies acceptable?

A6: Soft cover bindings are acceptable.

Q7: When putting my team together are you looking for a full Architectural and Engineering Team, or just Architectural Services? Other than mentioning Testing there isn't any mention of services other than architectural.

A7: Please review the answers to Question #1 and Question #3.

Q8: Is there a page limit?

A8: There is not a page limit but the submittal should be concise.

All other specifications, terms & conditions remain the same.

MAILED RFQ'S

If you have already submitted your printed Request for Qualifications, it will be retained in the City Clerk's Office until the Proposal opening time and date. If you wish to pick up your RFP that has already been submitted, you can do so by showing proper identification, in the Office of the City Clerk, 2600 Hollywood Blvd, Room 221, Hollywood, Florida 33020.

Please sign and return with your RFQ.
