Dear Joel,

Per our phone conversation. According to the current production lead times, the delivery time of these two units are as follows:

Petersen Loader: Total delivery time from time of order, 10 months

Altec Aerial: Total delivery time from time of order, 11 months

Please note that lead times in the truck and truck equipment industry in general continue to extend almost on a monthly basis. We hope these two manufacturers "specifically" can sustain the promise date but we cannot guarantee it and this estimate will need to be revisited at the time that the purchase order from the City of Hollywood is received.

Thank you and let me know if you have any additional questions.

Subject: Proposals on Altec Aerial & Petersen Loader

Dear Joel,

Sorry that these proposals took a long time.

Attached you will find the proposals for both the Petersen Loader truck and the Altec Aerial. We extended the warranty on the Petersen unit hydraulics for two years instead of the standard one year. Both units have vehicle and engine warranty to 60 months 150K miles. The Transmission warranty is standard at 3 years unlimited miles.

Please let me know if you have any questions or if I can help you with anything else.

Thank you!

30,000 LB GVWR CAB & CHASSIS (DUAL REAR WHEEL) - 4X2 SPECIFICATION #13

2019 International MV

The International MV purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	Northern	Central	Southern
BASE PRICE:	\$64,750.00	\$63,750.00	\$63,450.00	\$62,700.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.
