This Resolution seeks authorization for the appropriate City officials to issue a purchase order between GOVConnection, Inc. and the City for the purchase of two (2) Simplivity hyper-converged server platforms and accessories in an amount not to exceed \$145,798.00.

The Information Technology Department, on behalf of the Department of Public Utilities, desires to purchase two (2) Simplivity hyper-converged servers with accessories to expand the City's existing Simplivity platform. The migration of the Utility servers will provide consolidation and centralization of data management, improving efficiency, increasing resource utilization, lowering costs, and removing any single point of failure for all servers running on the Simplivity platform.

Section 38.40 (C)(5) of the City's Purchasing Ordinance states that "when it is in the best interest of the city, the Director may procure, without following formal contract procedure, all supplies, materials, equipment and contractual services which are the subject of contracts with the state, its political subdivisions, the United States government, other governmental entities, or a corporation not for profit whose members are governmental entities, public officers, or any combination thereof; provided, however, that this subsection shall apply only if (i) the supplies, materials, equipment or contractual services are the subject of a price schedule negotiated by the state or the United States government, or (ii) the supplies, materials, equipment or contractual services are the subject of a contract with another governmental entity or a corporation not for profit whose members are governmental entities, public officers, or any combination thereof, which contract is based strictly on competitive bids or competitive proposals and not on any preference.
