### 3. Contractor shall provide a summary of its experience in LEED Construction Projects.

#### FIRST LEED PLATINUM SCHOOL IN FLORIDA

Our approach to sustainable design and construction and LEED certification is successful and proven. Pirtle was recently named an ABC National Certified Green Builder, first in the state of Florida to receive this recognition and we built Florida's first LEED Platinum school - Galaxy Elementary.

As an organization, sustainability is very important to us. Internally we employ initiatives to focus on reducing, reusing and recycling. Our headquarters was designed and constructed with sustainability on the forefront and achieved a LEED Silver Certification. The building's water and energy consumption were highly reduced and a lot of focus went into maintaining high levels of indoor air quality. Our employee resource manual includes our recycling policies throughout

our offices and jobsites. For all our projects we incorporate sustainability by requiring construction debris recycling and focusing on indoor air quality. Our employees are all given training on sustainable measures to be taken in and out of the office and are kept updated on current sustainable accreditations such as LEED and Green Globes.

#### Pirtle's commitment to LEED starts with our staff:

- 11 LEED Accredited Professionals and 1 GAC on Staff
- Over 35 South Florida LEED Projects
- Founding Member of Treasure Coast/Palm Beach Chapter of USGBC
- Member of USGBC

#### We offer you the following benefits:

- Dedicated Sustainability Personnel
- Subcontractor Buy-In Through Education
- Construction Credits Implementation & Documentation
- Commissioning Coordination

## 35+ LEED PROJECTS

Pirtle Construction has been the contractor for 36 LEED Projects. Through these projects we have served in the roles of being LEED Administrator and LEED Consultant as well as being responsible for the construction credits for the project. Our experience allows us to work closely with the architect and owner to maximize the return on investment through proper material selection and achieve higher certification levels without affecting budget and time.

It is our experience that the entire project team must be committed to achieving LEED certification. As the Construction Manager, our involvement is not limited to a few certain credits. We are responsible for all LEED documentation/submittals, material and resources, indoor air quality, and coordination with all subcontractors, consultants and Owners.

PROJECT	DESIRED	RECEIVED
FAU Pine Jog Environmental Education Center	Certified	Gold
FAU / UF Joint Use Science Research Facility	Silver	Gold
Broward College Science Center	Certified	Silver
Broward College Environmental Sciences	Certified	Gold
Young at Art Museum	Silver	Gold
Doral Police/Public Works Facility	Silver	Gold
Pine Crest Lower School	Certified	Gold
Palm Beach Gardens EOC	Certified	Silver

It is critical that the project plans and specifications reflect the exact products that will be required, and that each section references the LEED requirements of the project. We will ensure that LEED materials and methodologies are thoroughly and accurately referenced. Subcontractors need to be aware of the LEED requirements upfront and we will take the time to educate them on sustainable practices and supervise their material choices to enforce compliance with specifications.

Pirtle uses sustainable construction techniques on all of its projects, implementing an Indoor Air Quality Plan and Construction Waste Plan. Through the adherence to these plans, Pirtle diverts over 75% of construction debris from landfills and creates a healthy indoor air environment for the occupants of the building.

For this reason, the WCIRB cautions against using EMR as a direct measure of the safety performance of a company or using it in any way beyond its intended purpose.

NAME OF COMPANY

**SOLICITATION, GIVING, AND ACCEPTANCE OF GIFTS POLICY**

Florida Statute 112.313 prohibits the solicitation or acceptance of Gifts. - "No Public officer, employee of an agency, local government attorney, or candidate for nomination or election shall solicit or accept anything of value to the recipient, including a gift, loan, reward, promise of future employment, favor, or service, based upon any understanding that the vote, official action, or judgment of the public officer, employee, local government attorney, or candidate would be influenced thereby." The term "public officer" includes "any person elected or appointed to hold office in any agency, including any person serving on an advisory body."

The City of Hollywood policy prohibits all public officers, elected or appointed, all employees, and their families from accepting any gifts of any value, either directly or indirectly, from any contractor, vendor, consultant, or business with whom the City does business.

The State of Florida definition of "gifts" includes the following:

- Real property or its use,
- Tangible or intangible personal property, or its use,
- A preferential rate or terms on a debt, loan, goods, or services,
- Forgiveness of indebtedness,
- Transportation, lodging, or parking,
- Food or beverage,
- Membership dues,
- Entrance fees, admission fees, or tickets to events, performances, or facilities,
- Plants, flowers or floral arrangements
- Services provided by persons pursuant to a professional license or certificate.
- Other personal services for which a fee is normally charged by the person providing the services.
- Any other similar service or thing having an attributable value not already provided for in this section.

Any contractor, vendor, consultant, or business found to have given a gift to a public officer or employee, or his/her family, will be subject to dismissal or revocation of contract.

As the person authorized to sign the statement, I certify that this firm will comply fully with this policy.
