PLANNING DIVISION**

**DATE:** October 19, 2017

**TO:** Planning and Development Board/Local Planning Agency

**FROM:** Leslie A. Del Monte, Planning Manager 

**SUBJECT:** The City of Hollywood requests a Text Amendment to the Zoning and Land Development Regulations; to create new Transit Oriented Corridor (TOC) Districts and Subdistricts (established permitted uses, development regulations, development standards, and applicable definitions); to define new uses, establish development and parking standards for such uses (City-wide); and further, to rezone certain properties within the Transit Oriented Corridor (TOC).

**REQUEST:**

Text Amendment to the Zoning and Land Development Regulations; to create new Transit Oriented Corridor (TOC) Districts and Subdistricts (established permitted uses, development regulations, development standards, and applicable definitions); to define new uses, establish development and parking standards for such uses (City-wide); and further, to rezone certain properties within the Transit Oriented Corridor (TOC).

**RECOMMENDATION:**

The Planning and Development Board, acting as the Local Planning Agency, forward a **recommendation** of Approval to the City Commission.

**BACKGROUND**

In an effort to promote the use of public transportation and provide an adequate mix of uses, in 2005 the City of Hollywood created the Transit Oriented Corridor and Transit Oriented Development Land Use Categories. As stated by the City's Comprehensive Plan, *the TOC Land Use designation encourages redevelopment or development of significant areas. The major purposes of this designation are to facilitate multi-use and mixed-use development, encourage mass transit, reduce the need for automobile travel, provide incentives for quality development, and give definition to the urban form.* This form of land use is characterized by mixed-use neighborhoods or projects, within a quarter-mile walking distance of a transit stop, premium transit or bus transfer stations. It is especially designed for corridors such as State Road 7. As such, in 2010 an amendment to the Future Land Use Map designated State Road 7 as a Transit Oriented Corridor (TOC).

**REQUEST**

The text amendment proposes Zoning Regulations which are consistent with, and in furtherance of, the existing Transit Oriented Corridor (TOC) Land Use Designation and the City's Comprehensive Plan.

Establishing a vision for the future, as a Land Use designation, the Transit Oriented Corridor allows for mixed-uses; encouraging attractive and functional mixed living, working, shopping, education, and recreational activities. The Zoning, which is the regulatory tool to further control development capacities, then dictates appropriate locations and intensities for these uses. The existing underlying zoning, however, is not consistent with those objectives and poses an array of issues related to the limitation of uses; and the adjacency and lack of transition between uses. While the SR7 Zoning Overlays (2004) begin to

address some of those issues, they were adopted prior to the Land Use amendment; as such, their geographic boundary does not create sufficient depth to promote desirable uses.

The purpose and intent of the proposed Zoning Regulations is dual purpose; by creating concentrated areas of higher intensity which attract significant commercial and residential development (increasing the tax base), employment centers, and basic services, all which benefit the community as a whole; while also serving to protect residential neighborhoods by preventing commercial intrusion and sprawl. The objective of the rezoning is to ensure adequate safeguards are created to protect the neighborhoods as the City prepares for more intense development along the corridors. The concept of concentrating growth within a compact walkable core is also a Smart Growth strategy with significant environmental impacts. Concentrating densities and allowing for mixed-uses within close proximity helps prevent urban sprawl, promotes the efficient use of resources, and protects the natural environment.

The proposed regulations focus development and intensity along the corridors, providing adequate scale transitions to the neighborhoods. The attached maps and data depict and detail the location of the various intensities and typologies; and the appropriateness of the transitions (of uses, scale, and character).

Additionally, the current request also proposes the following district specific and city-wide amendments to the Zoning and Land Development Regulations:

- Elimination of unnecessary zoning districts; and references to such districts. The proposed regulations would replace and eliminate these portions of the existing regulations;
- Consolidation of definitions to avoid confusion and eliminate discrepancies, the text amendment proposes to consolidate all definitions for the Regional Activity Center, Downtown and Beach Community Redevelopment, and Transit Oriented Corridor Districts;
- Addition of new definitions. As technologies, industries, and markets change, cities are faced with the incorporation of definitions which are not addressed by existing codes.
- Elimination of perimeter wall requirement for any use that sells food or gas.
- Clarification for the location tandem parking regulations;
- Replacement of general references to existing districts with proposed districts throughout the Zoning and Land Development Regulations.

In preparation for adoption of the regulations, and in an effort to provide information and solicit feedback, the City has held several public meetings, focusing on a broad constituency of impacted stakeholders. Presentations were made to all impacted Civic Associations. Citywide and Business Community Workshops were also held, where the public had the opportunity discuss the proposed regulations and voice concerns.

- *Design standards regarding sign regulations, façade treatment and adequate buffers.*
- *Land use and zoning alternatives.*
- *Coordination with business owners along the US 441/SR 7 Corridor to receive their input regarding the corridor.*
- *A market study to determine the success of economic development strategies along the US 441/SR 7 Corridor.*

## **Transportation Element**

**Policy 2.2.11:** Promote the development of US 441/SR 7 as a major transit corridor (CWMP Policy 1.47)

**Policy 5.2.3:** The City of Hollywood, in conjunction with Broward County and affected municipalities, the MPO, the FDOT, and the Florida DCA, shall support the development of Transit Oriented Corridors by:

**Policy 2.2.4:** Work with FDOT, SFRPC and adjacent governmental agencies to implement plans for US 441/SR 7 that make the highway improvement an asset to all communities. (CWMP Policy 1.25)

**Policy 2.1:** The City shall establish parking strategies that will promote transportation goals and objectives. The City will coordinate with Broward County, the Broward County MPO, Broward County Mass Transit Division, SFRTA, and FDOT, including South Florida Commuter Services, to accomplish this effort. These strategies include, but are not limited to,

- a. Revise the City's Land Development Code to establish incentives that reduce parking requirements for redevelopment and development projects described in 'b'. The goal of these incentives will be to promote the use of public transit and reduce single occupancy and single purpose vehicle trips.
- b. Identify appropriate locations within the City to encourage greater densities and intensities to

*promote mixed use developments such as the transit village concept....*

**Policy 2.2.3:** *Continue to coordinate with the Florida Department of Transportation regarding the redesign and reconstruction of the US 441/SR 7 Corridor through the City of Hollywood to ensure that FDOT's redesign plans complement and support the City's plans. (CWMP Policy 1.27)*

- g. *In consultation with FDOT, provide enhanced pedestrian/bicycle linkages from US 441/SR 7 into the neighborhoods at safe and appropriate locations with specific consideration given to CPTED principles (CWMP Policy 1.32 & 1.45)*
- h. *Enhance existing and develop new multimodal accesses between adjacent sites located along US 441/SR 7.*

**Policy 2.2.6:** *Continue to coordinate efforts with the City of Miramar, Town of Davie, the City of West Park and other Broward County Cities that front on this roadway, to improve design quality along US 441/SR 7 Corridor. (CWMP Policy 1.28)*

**Policy 2.2.8:** *Continue to work with FDOT and other governmental agencies to expedite construction of the US 441/SR 7 segment adjacent to Seminole Lands to accommodate the impacts of redevelopment. (CWMP Policy 1.31)*

**Policy 3.2.1** *The City shall revise its Land Development Code and develop programs to promote the use of alternative transportation modes, including but not limited to, bicycle, pedestrian, and waterways (blueways). Strategies to promote the use of alternative transportation modes will be developed in coordination with the Citizens Transportation Committee and the Broward County Advisory Board. These strategies will be implemented into the City's Land Development Code and will include but will not be limited to:*

- a. *Incentives to promote mixed-use projects, including residential, with facilities such as bicycle lockers and showers. Examples of these incentives are density bonuses and parking bonuses granted through the concurrency review process.*
- b. *Require bicycle/pedestrian connections between residential and non-residential developments or redevelopments as a condition of developmental approval.*
- c. *Coordinate with the Hollywood Business Council, Greater Hollywood Chamber of Commerce, and Community Redevelopment Agency (where applicable) to encourage individual employers or business districts to provide bicycle parking for their employees and customers.*
- d. *Coordinate with the Broward County mass Transit Division and Tri-county Commuter Rail Authority to ensure pedestrian/bicycle connections to existing and proposed Tri-Rail stations, park and ride lots, and bus transfer stations located within the City of Hollywood. This coordination effort shall be linked to Sub-policies a, b, and c.*

**Policy 5.2.2** *The City shall coordinate land uses with the transportation system through implementation of, but not limited to, the following programs, activities or actions:*

- d. *Residential densities in the Medium High (25 dwelling units/acre) and High 50 dwelling units/acre)*

*ranges should be located with adequate access to major and minor arterial roadways, expressways and public transit routes.*

Implementation of the TOC land use designation along State Road 7 will allow for a wide range of uses within walking distance for residents. By incorporating amenities such as parks, benches and bus shelters within mixed-use developments, residents will be able to use mass transit or walk to their destination instead of driving. Inclusion of amenities such as these will allow staff to work with developers to provide incentives, such as reduced parking requirements, for these projects.

### **Housing Element**

**Policy 1.1.1:** *The City shall continue to update and amend the Zoning and Land Development Regulations to improve affordable housing opportunities in mixed residential districts. (CWMP Policy CW.75)*

**Policy 3.2:** *The City shall continue to implement the policies described in the City-Wide Master Plan by revitalizing the Central Residential Neighborhood Improvement District and the 441 Corridor, and will make recommendations for upgrading conditions in those areas.*

Implementation of TOC zoning regulations will spur numerous mixed-use projects. This will allow Hollywood to take on a new form of development, and will vastly improve one of the largest corridors of the City by permitting development in mixed-use concentrations.

### **APPLICABLE CRITERIA**

**Analysis of Criteria and Findings for Text Amendments** as stated in the City of Hollywood's Zoning and Land Development Regulations, Article 5.

**CRITERIA 1:** The proposed change is consistent with and in furtherance of the Goals, Objectives and Policies of the adopted Comprehensive Plan as amended from time to time.

**ANALYSIS:** The proposed amendment is consistent with multiple policies of the City's Comprehensive Plan as outlined previously in the Consistency section of this Report. Furthermore, the proposed text amendment allows for the creation of zoning districts which are compatible and in furtherance of the Transit Oriented Corridor Land Use designation as established by the City's Comprehensive Plan; which indicates the City's housing demand should be met through the TOC.

**FINDING:** Consistent

**CRITERIA 2:** That conditions have substantially changed from the date the present zoning regulations were established.

**ANALYSIS:** The existing underlying zoning is not consistent with those objectives and poses an array of issues related to the limitation of uses; and the adjacency and lack of transition between uses. While the SR 7 Zoning Overlays (2004) begin to address some of those issues, they were adopted prior to the Land Use amendment; as such, their geographic boundary does not create sufficient depth to promote desirable uses. The proposed regulations are reflective of the changes in development demands placed on the State Road 7 Corridor and its surrounding areas; and ensuring such adequate areas are established for such development to occur.

**FINDING:** Consistent

**Analysis of Criteria and Findings for Rezoning** as stated in the City of Hollywood's Zoning and Land Development Regulations, Article 5.

**CRITERIA 1:** That the petition for a change of zoning district will not result in spot zoning or contract zoning.

**ANALYSIS:** The purpose of the rezoning is to provide standards for redevelopment consistent with the TOC Land Use designation. Proposed uses allow for a mix of residential, commercial, and office uses in areas where these uses were previously primarily segregated. These were evaluated and proposed comprehensively throughout the TOC, ensuring adequate transitions were provided. Therefore, the change will not result in spot or contract zoning.

**FINDING:** Consistent

**CRITERIA 2:** That the proposed change is consistent with, and in furtherance of the Goals, Objectives and Policies of the City's Comprehensive Plan.

**ANALYSIS:** As previously stated in other sections of this report, the proposed changes are consistent and in furtherance of the Goals, Objectives, and Policies of the City's Comprehensive Plan.

**FINDING:** Consistent

**CRITERIA 3:** That conditions have substantially changed from the date the present zoning district classification was placed on the property, which make the passage of the proposed change necessary.

**ANALYSIS:** The establishment of the Transit Oriented Corridor along State Road 7 in 2010, created the need for consistent and corresponding zoning districts. As the City continues to experience positive growth, the current objective is to move forward with the implementation of Zoning Regulations which are consistent with, and in furtherance of, the existing Transit Oriented Corridor Land Use Designation and the City's Comprehensive Plan.

**FINDING:** Consistent

**CRITERIA 4:** The proposed change will not adversely influence living conditions in the neighborhood.

**ANALYSIS:** The purpose and intent of the proposed Zoning Regulations is dual purpose; by creating concentrated areas of higher intensity which attract significant commercial and residential development (increasing the tax base), employment centers, and basic services, all which benefit the community as a whole; while also serving to protect residential neighborhoods by preventing commercial intrusion and sprawl. The objective of the rezoning is to ensure adequate safeguards are created to protect the neighborhoods as the City prepares for more intense development along the corridors. The concept of concentrating growth within a compact walkable core is also a Smart Growth strategy with significant environmental impacts. Concentrating densities and allowing for mixed-uses within close proximity helps prevent urban sprawl, promotes the efficient use of resources, and protects the natural environment.

**FINDING:** Consistent

**CRITERIA 5:** That the proposed change is compatible with the development(s) within the same district/neighborhood.

**ANALYSIS:** The objective of the rezoning is to ensure adequate safeguards are created to protect the neighborhoods as the City prepares for more intense development

along the corridors. Establishing locations for the various intensities and typologies and creating appropriate transitions (of uses, scale, and character), ensures compatibility and promotes the desired vision for each district.

The additional height shall result in an increase in open space and preservation of environmentally sensitive lands.	Any Use which is not listed as a Permitted Use.	Any Use allowed in C-1 District.  Maximum retail floor area: 2% of site.  Retail area must be approved as part of site plan by the City Commission.

E. NBDD North Beach Development District (NBDD-DD and NBDD-CZ).

1. District purpose: to provide for and encourage appropriate residential, resort, hotel, motel, tourist uses (including ecotourism), and accessory uses within a coastal environment with unique natural, physical and man made features.

2. District objectives:

- a. To provide for a development pattern and intensity that allows reasonable use of land considering the environmental resources and limitations that constrain development of the district;
- b. To ensure that public access, both physical and visual, to the beach and associated natural resources, is maintained or enhanced;
- c. To ensure that the environmental quality of the area is maintained and is not degraded by potential development;
- d. To maintain or enhance the ocean, beach, dune and natural vegetation systems and to minimize any detrimental or adverse effects to these systems that might be occasioned by potential development;
- e. To encourage a desirable mix of development uses, types and intensities that are harmonious with each other and with the natural characteristics of the area;
- f. To utilize land efficiently and to promote high quality design and development;
- g. To provide for adequate open space areas; and
- h. To provide adequate transportation and circulation systems to meet the needs of the area, while preventing the overburdening of internal and through streets, including Highway A1A.

3. Establishment of zones: In order to achieve the above objectives and intent of the district, the NBDD is divided into two zones:

- a. The North Beach Development District Development Zone (NBDD-DZ); and
- b. The North Beach Development District Control Zone (NBDD-CZ).

4. Transferable development rights. Any owner of property in the North Beach Development District Control Zone may, in lieu of developing their property, dedicate it to the city for maintenance as public open space in exchange for which the owner may sell or transfer their unused development rights to property in the North Beach Development District Development Zone; however, the minimum parcel size to be dedicated and for which development rights may be transferred shall be one lot. Unused development rights for purposes of transfer or sale will be computed according to the following:

- a. Property dedicated to the city for maintenance as public open space: 32.5 dwelling units per acre. In order to make use of this provision, the owner of property in the Control Zone must dedicate the property to the city in accordance with procedures and legal requirements designated by the City Attorney and on forms prescribed by the Attorney. All documents must be recorded with the Clerk of the Circuit Courts of Broward County, Florida;

b. Development rights pursuant to this section shall be deemed to “run with the land”; shall survive condemnation by the city; and shall be transferable by the city or by private property owners. The City Commission shall formulate and adopt appropriate regulations to guide the implementation of this provision consistent with the language herein and the intent of this article; and

c. Any owner of property in the Development Zone who is the recipient of transferred development rights, may thereafter develop his/her property at the maximum density permitted including the amount of acquired dwelling units. In all cases, however, the property owner in the Development Zone must conform with the development standards in this section.

5. Planned unit development. Any owner of property in excess of two acres, in the Development Zone only, may develop pursuant to the Planned Unit Development District (See § 4.16). Where any provision of these regulations imposes restrictions different from those imposed by the Planned Unit Development ordinance, whichever provisions are more restrictive or impose higher standards shall control. An application for Planned Unit Development in the development zone shall include all contiguous holdings of the applicant under the same ownership with an indication of the portion proposed to be subdivided, re-subdivided or developed immediately and that proposed for later phases of development. A general plan shall be submitted for all such contiguous land at the time of initial application. For the purpose of this section, land separated only by public right-of-way shall be deemed to be contiguous.

**ACTIVE USE, GROUND FLOOR.** An Active Use that attracts pedestrian activity; provides access to the general public; and conceals uses designed for parking and other non-active uses if present. (See Appendix 1: Diagram 1)

**ACTIVE USE, LINER.** An Active Use that serves to conceal uses designed for parking and other non-habitable uses. (See Appendix 1: Diagram 1)

**ACTIVE USE, NON-.** Building uses that are generally not intended for human occupation. Non-active uses include, but are not limited to, parking and building service areas such as storage, mechanical, electrical, and trash.

**ARCHITECTURAL TREATMENT.** The provision of architectural and/or landscape elements on a facade which serve to visually screen Non-Active Uses.

**ARTICULATION.** The composition of building elements, shape, mass, and form that modulate the rhythm of a facade, improving the overall composition and aesthetic quality. The following treatments are permitted, but shall not fulfill the requirement for architectural treatment: the application of paint and faux treatments; scoring, construction joints or material projections less than four (4) inches in height, width, or depth.

**BALCONY.** A horizontal projection above the ground floor that is unenclosed and designed for human occupation.

**BASE.** The area of a structure below the tower setback, as indicated by the Building Requirements Table in each district or subdistrict. For purposes of the Beach Community Redevelopment Districts, Section 4.6.B., the maximum allowable height of the Building Base is 25 feet. (See Appendix 1: Diagram 3)

**BLANK WALL.** Any portion of a facade that has an area greater than 20 percent of the entire facade elevation and is absent of fenestration and/or of articulation. (See Appendix 1: Diagram 4)

**BUILDING FRONTAGE.** The horizontal linear measurement of a building facade that is generally parallel, facing, or oriented toward a street or right-of-way. (See Appendix 1: Diagram 5)

The calculation of floor area for unit sizes is measured from the centerline of a party wall to the interior face of an exterior wall. The floor area shall include all areas except for any floor area associated with accessory off-street parking; any floor area associated with service and loading; and unenclosed porches, and balconies.

**FLOOR AREA RATIO (FAR).** The ratio of the floor area of a building or buildings on any lot or site divided by the net area defined by property lines of the lot or site. The floor area ratio defines the maximum allowable floor area on a given lot.

4  
5 **§ 2.2. Terms Defined.**

6  
7 **BICYCLE SHARING.** The practice of sharing a bicycle for on demand regular commuting. In a kiosk  
8 system, bikes are secured to and rented from secure docking stations. These stations may range in  
9 sophistication from simple bike racks with key lockboxes to digital automatic locking kiosks with  
10 integrated rental systems.

11  
12 **MIXED-USE, VERTICAL OR HORIZONTAL.** A type of pedestrian oriented development incorporating a  
13 combination of multiple and district uses and functions, such as residential, commercial, office,  
14 hospitality, cultural, institutional, industrial and associated amenities, within one building or site.

15 **VERTICAL MIXED-USE** refers to a type of urban development where compatible uses and functions are  
16 layered and physically and functionally integrated within a single building. **HORIZONTAL MIXED-USE**  
17 refers to a type of walkable and connected development combining single or multiple use buildings,  
18 public amenities, and utilities functionally within a site.

20 **ARTICLE 4: SCHEDULE OF DISTRICT, USE AND SETBACK REGULATIONS**

21  
22 **§ 4.6. Regional Activity Center, Downtown and Beach Community Redevelopment, and Transit**  
23 **Oriented Corridor Districts.**

24  
25 **§ 4.6.C. State Road 7 Transit Oriented Corridor Districts.**

26  
27 1. Intent. The State Road 7 Transit Oriented Corridor (TOC) Land Use designation is intended to  
28 facilitate a balanced and interconnected mix of land uses, encourage mass transit and non-  
29 motorized transportation, reduce the need for automobile travel, provide incentives for quality  
30 development, and give definition to the urban form. Development patterns shall generally reflect  
31 planning and design principles that support mixed-use development to integrate housing,  
32 employment, retail, recreation and local and regional community facilities with a primary  
33 orientation toward a multi-modal transportation system. To this objective, the corresponding TOC  
34 Zoning Districts are intended to:

- 35  
36 a. Establish an identity for the State Road 7 Transit Oriented Corridor Districts;  
37 b. Facilitate mixed-use development, including a wide-range of housing types, office, retail, and  
38 service oriented uses;  
39 c. Incorporate design features promoting the safe and convenient movement of pedestrians,  
40 including wide interconnected sidewalks, bicycle lanes, connectivity to transit stops and  
41 stations;  
42 d. Provide adequate transitions from mixed-use development to residential neighborhoods.

43  
44 The purpose of the TOC Zoning Districts is to concentrate density in specific areas, protecting  
45 adjacent residential neighborhoods from excessive growth and commercial intrusion; while  
46 accommodating a diverse range of housing types, heights, and intensities, which is ideal for  
47 sustainable growth. The Districts facilitate the transition from one District to another and to the

1 adjacent neighborhoods; providing adequate and compatible transitions in scale, character, and  
2 uses to adjacent residential neighborhoods. The State Road 7 Transit Oriented Corridor area consists  
3 of the following zoning districts:  
4

20 2. Administrative Regulations Applicable to All Districts.  
21

22 a. District boundaries. The district and subdistrict boundaries shall be indicated by the district and  
23 subdistrict maps. In cases where uncertainty exists as to the boundaries of a district or subdistrict,  
24 the following conditions shall apply:

25 (1) Boundaries are intended to parallel street lines, rights-of-way, or to follow existing lot lines.

26 (2) Where a boundary follows a public right-of-way, street, or alley, the centerline shall be the  
27 boundary.

28 (3) In the event of further uncertainty, the City Manager or designee shall determine the  
29 boundary location.

30 (4) The density capacity for lots that have more than one district or subdistrict designation shall  
31 be calculated separately for each portion of the lot according to its respective density.  
32 Development for each portion of the lot shall be in conformance with the applicable district or  
33 subdistrict Building Requirements Table.  
34

35 b. Phased Development.

36 (1) All land included for the purpose of development within a Phased Development shall be  
37 under the control of the applicant (an individual, partnership or corporation, or group of  
38 individuals, partnerships, or corporations). The applicant shall present satisfactory legal  
39 documents to constitute evidence of the unified control of the entire area within the proposed  
40 Phased Development which shall be certified by the City Manager or designee.

41 (2) The Phased Development Master Plan shall illustrate the boundaries of each phase and  
42 intended phasing sequence.

43 (3) Each phase of Phased Developments shall autonomously comply with these regulations and  
44 district requirements. Site plans, elevations, and massing diagrams shall be provided for each  
45 phase and shall indicate the function and improvement of undeveloped portions of land for

1 independent review and approval. Undeveloped land shall be improved pursuant to the General  
2 Landscape Regulations set forth herein.

3 (4) Vacant non-historic and non-contributing structures; and structures which are not eligible  
4 for historic designation and are not intended for incorporation in the final development Master  
5 Plan shall be demolished prior to commencement of construction of Phase I.

6 (5) No phase, or portion of phase, of a Phased Development shall be dependent upon the  
7 completion of a subsequent phase. Each phase shall be autonomously functional and provide  
8 adequate parking, landscape, articulation and associated amenities at the time of completion of  
9 that phase and shall not be contingent on future phases.

10 (6) Any building amenity, or portion thereof, that will service the current phase under  
11 development shall be completed in its entirety and shall receive a Certificate of Occupancy prior  
12 to the issuance of a Certificate of Occupancy for the remaining phase components or uses.

13 (7) Each phase shall provide temporary or permanent transitional features, buffers, or  
14 protective areas in order to prevent any adverse impact on completed phases, future phases,  
15 and adjacent properties.

16 (8) The applicant shall have up to 24 months from the issuance of the final Certificate of  
17 Occupancy for any given phase to obtain all necessary building permits required to proceed with  
18 construction on subsequent phases. If the applicant fails to obtain said building permit(s) within  
19 the time period, all staff and Board approvals shall be null and void and the applicant shall be  
20 required to re-initiate the development review process.

21 (9) Changes and deviations from an approved Phased Development Master Plan which  
22 constitute a substantial alteration to the character of the development or an individual phase  
23 require that the requested changes be reviewed and approved by the appropriate Board.  
24 Substantial changes would include:

- 25 (a) Any change in the phasing boundary or sequence;
- 26 (b) An increase or decrease in density;
- 27 (c) A change in the use or character of the Phased Development;
- 28 (d) An increase in overall coverage of structures;
- 29 (e) An increase in the intensity of use;
- 30 (f) An increase in the problems of traffic circulation and public utilities;
- 31 (g) A reduction in required open spaces; and
- 32 (h) An increase or decrease in the amount of off-street parking and loading spaces.

33 (10) Any changes or deviations from an approved Phased Development Master Plan which are  
34 not listed as substantial and do not depart from the principal concept of the approved Phased  
35 Development Master Plan shall constitute a minor change and may be approved by the City  
36 Manager or designee.

37  
38 3. General Development Regulations Applicable to All Districts.

39 a. General building requirements.

40 (1) Development intensities shall be established and pursuant to the Building Requirements  
41 Table for each district or subdistrict and the following:

- 42 (a) No variances to Density shall be granted.
- 43 (b) Established development thresholds are intended to provide flexibility in building  
44 massing. As such, when combined with other regulations and potential site constraints,  
45 maximum capacities may not always be achieved. In such cases, the other building  
46 requirements shall prevail.

47 (2) All uses, including automobile oriented uses, shall be designed in a manner that reinforces  
48 the urban form.

- 1 (3) Buildings shall have a recognizable entrance facing rights-of-way. Entrances shall be visible
- 2 to pedestrians and vehicular traffic. For corner lots, corner entrance features are encouraged.
- 3 (4) The finished floor of ground floor commercial and retail uses shall be generally flush with the
- 4 sidewalk elevation. (See Appendix 1: Diagram 7)
- 5 (5) Ground floor residential uses shall be raised a minimum of 18 inches above the sidewalk

- 37 maintenance of the building or structure itself such as, but not limited to, cooling
- 38 towers, elevator, stair and mechanical penthouses, vent stacks and antennas shall be
- 39 enclosed and screened in such a manner that the enclosure is designed as an integral
- 40 part of the overall building design

(ii) Building base parapets shall have a maximum height of 20 percent of the maximum building base height, not to exceed 10 feet. Tower parapets shall have a maximum height of 15 feet.

(iii) Enclosed or covered rooftop amenities are permitted to exceed the maximum height for not more than 30 percent of the gross rooftop area. For the purposes of calculating the maximum area, enclosed or covered structures shall not include enclosures for screening mechanical systems. The following restrictions apply:

(11) Articulation requirements.

(a) Building facades shall incorporate breaks in the horizontal and vertical wall plane to provide articulation and reduce visual mass.

(b) Blank walls visible from adjacent streets, public areas or adjacent buildings shall not be permitted and shall incorporate facade articulation. A portion of the façade proportionate to the building massing may be permitted.

(3) For ground floor commercial active uses, 50 percent of the storefront facade area shall provide transparency. Transparency may be provided through the use of windows and door glazing as well as unobstructed openings in the building facade. (See Appendix 1: Diagram 14)

23 inches, excluding street signage, lighting and other public improvements and provided that  
24 it does not occupy more than 30 percent of the setback.

25 (c) Not include the encroachment of any ramps and/or stairs associated with any ground  
26 floor uses, other than residential. (See Appendix 1: Diagram 7)

27 (2) Maximum setback areas shall be applicable to all building components, excluding open  
28 space, driveways, and porte cocheres. Variations in the building frontage where portions of  
29 facades do not meet the building maximum setback are permitted, as long as the intent of the  
30 regulation is met and the majority of the façade meets the requirement.

31 (3) Conflicts between vehicles and pedestrians shall be minimized or eliminated. Clear and safe  
32 pedestrian connections shall be provided.

47 percent, except:

48 (i) Through the use of structured parking (garage); or

2 or similar mechanical systems, which do not increase the overall building massing,  
3 pursuant to Article 7.
- 4 (c) Guest parking shall be provided pursuant to the parking requirements table in each  
5 district or subdistrict as set forth herein. Designated guest parking shall not be assigned or

17 physical obstruction, the stall widths shall be increased by one (1) foot. Where there is an  
18 obstruction on both sides of the stall, the stall widths shall be increased by two (2) feet.
- 19 (d) Driveways may be a minimum 11 feet for one-way traffic and a minimum of 22 feet for  
20 two-way traffic.
- 21 (e) Driveway entrances not adjacent to parking stalls may be a minimum of 20 feet.
