Subject: Project No. 16-9417 Hollywood SRWWTP Cryogenic Compressors Medium Voltage Solid State Reduced Voltage Starters Replacement – Bid Review

Dear Mr. Jiang:

Hillers Electrical Engineering, Inc. (HEE) conducted a technical review of the two (2) bid proposals for the above referenced project. The bid proposals were submitted by Edwards Electric Corp. and Mills Electric Service, Inc. Mills Electric Service, Inc. submitted the lowest bid at \$346,233.00, which is approximately 1% below the engineers estimate. Edwards Electric Corp. submitted a bid of \$385,000.00, which is within approximately 10% above the engineers estimate. Both bidders did not specifically identify experience with medium voltage soft starters, but did identify experience with medium voltage systems. HEE is familiar with both contractors and are of the opinion that both are qualified to do the work of this contract. Based on our analysis, Hillers Electrical Engineering, Inc. recommends award to the lowest responsive bidder, Mills Electric Service, Inc.

Sincerely,

Hillers Electrical Engineering Inc.
