TO: Wazir Ishmael, Ph.D.
City Manager

VIA: Adam Reichbach ^{DS}AR
Assistant City Manager for Finance and Administration

VIA: Gus Zambrano ^{DS}GZ
Assistant City Manager for Sustainable Development

THRU: Steve Stewart ^{DS}SS
Director, Procurement and Contract Compliance

FROM: Vincent Morello, P.E. ^{DS}VM
Director, Public Utilities

SUBJECT: Recommendation to Approve the Issuance of a Purchase Order to Lanzo Construction Company for the Emergency Repair of the 48-Inch Sewer Gravity in the Amount Not to Exceed \$4,083,120.00. The Procurement Method used is Emergency.

ISSUE:

City Manager's approval is required to implement an emergency repair of the 48-inch sewer gravity pipe that receives the City of Dania Beach Force Main and a portion of the City's sewer collection system into the Southern Regional Wastewater Treatment Plant ("SRWWTP"). The location of the leak is just west of the SRWWTP in the main drive entering the plant.

EXPLANATION:

A sinkhole developed adjacent to the guard house at the entrance to the SRWWTP and was backfilled with flowable fill in October 2022. The Department of Public Utilities ("Department") staff continued to monitor the site for the causes of the sink hole. On Thursday, December 15, 2022, Department staff noticed that the 48-inch sewer gravity pipe started surcharging. It is suspected that the pipe has sustained damage due to an internal blockage of debris, and the internal damage is the source of a suspected growing leak.

The Department initiated an emergency response to this incident, including the following tasks:

- Department staff investigated the 48-inch sewer gravity pipe and located blockage in the pipe. It indicated that the pipe was broken.

FILE: PU-23-33

SUBJECT: Emergency Repair of the 48-Inch Sewer Gravity Main at the Entrance to the SRWWTP

Page 2

- Based on sewer hydraulic modeling analysis, the City installed a 3 MGD bypass pumping system to bypass the backup sewer into the 60-inch sewer interceptor.
- An automatic level indicator was installed in the sewer manhole upstream of the 48-inch pipe to provide proactive monitoring and alarm.
- On Friday, December 16, 2022, the Department met with three contractors with extensive experience in projects of similar nature to submit proposals for the emergency repair, based on the bid table prepared by Department staff.

On December 19, 2022, the Department received three bids as listed below:

<u>Contractor</u>	<u>Base Bid Total</u>
1) Lanzo Construction Company	\$4,083,120.00
2) Man-Con Incorporated	\$4,167,308.44
3) Ric-Man International	\$6,450,715.95

Department staff thoroughly evaluated the submitted bids. On January 3, 2023, Department staff met with Lanzo Construction Company and clarified construction details and products to be utilized for the repair. City staff concluded that awarding the repair to the Lanzo Construction Company is in the best interest of the City.

AUTHORITY:

§ 38.41 COMPETITIVE SOLICITATIONS REQUIRED: EXCEPTIONS

(C)(1) Emergency purchases:

*In urgent cases of compelling emergency that require the immediate purchase of goods, supplies, materials, equipment or services, the CPO is authorized to secure, when possible, emergency goods, supplies, materials, equipment, or services by open market procedure. **All such emergency purchases must receive prior administrative approval except for the most urgent situations presenting a clear and present substantial threat to life or property where immediate action is required.***

Pursuant to Section 38.38 of the [Procurement Code](#), the City Manager or designee will have authority to approve and execute contracts up to \$100,000.00 as such this item will be presented in front of City Commission after the fact.

Funding for the repair work is available in an account to be determined.

FILE: PU-23-33

SUBJECT: Emergency Repair of the 48-Inch Sewer Gravity Main at the Entrance to the SRWWTP

Page 3

RECOMMENDATION:

The Director of Public Utilities and Director of Procurement and Contract Compliance recommends that the City Manager authorizes the issuance of a Purchase Order to Lanzo Construction Company for the emergency repair of the 48-inch sewer gravity pipe in the amount not to exceed \$4,083,120.00, through emergency repair approach.

RE: Bid Proposal - 48" Gravity Sewer Main Emergency Repair

Dear Jean Joinville,

We are pleased to provide our proposal for the 48" Gravity Sewer Main Emergency Repair located at the entrance to the SRWWTP. Our proposal includes a payment and performance bond in the full amount of our bid and all insurances as required by the City of Hollywood.

It is our intent to immediately place our sanitary sewer bypass into place and take control of the site upon NTP. Our bypass will be installed below ground to reduce impacts as much as feasible to access to the plant and offices can be maintained 24/7. Both our sewer by pass and dewatering system will include a secondary bypass pump maintained 24/7 by a member of our team. A light tower will be added and maintained 24/7 to provide added security. Once our bypass is in place, we will focus our efforts in removing any and all fill material that has entered the gravity sewer system.

We will pull all available resources to reduce the total duration of this repair.

Thank you,

A handwritten signature in blue ink, appearing to read "Anthony Mancini", written over a blue ink scribble.

Re: Man-Con, Incorporated

To Whom It May Concern:

Please let this letter serve as a bonding reference for our valued client, Man-Con Incorporated. We find this firm to be very well qualified, capably managed, well-staffed and organized, reputable, cooperative, and extremely credit worthy. Westfield is willing to consider bonding programs of \$60,000,000 single project, \$100,000,000 aggregate or greater if requested.

Our approval of any request would be conditioned upon applicable underwriting considerations at the time of the bond request. This letter is not an assumption of liability nor is it a performance bond. We have issued this letter only as a bonding reference requested by our client.

I trust this to be a satisfactory reference, but if additional information is needed, please feel free to contact our office. For your further reference, Westfield Insurance Company, a member of Westfield Group, is a multi-line property and casualty insurance company, and is currently rated "A" by A.M. Best and combined with other companies in our group, has a Treasury Department single project qualification of more than \$200 million.

Sincerely,

John Eilar
Regional Surety Leader
Westfield Insurance

RE: Letter of Reference
Man Con Incorporated

To whom it may concern:

I am pleased to offer this letter of reference for Man Con Incorporated (MCI). MCI has been the prime contractor on many Broward County water and wastewater projects of varying size and scope. Projects were always completed on or ahead of the planned schedule and within the specified budget. MCI is a very knowledgeable firm and has always performed in the best interest of the County. MCI is responsive to emergency situations that arise and will stay engaged until the needed repairs have been made. I would recommend them for any future project.

Should you have any questions or need any additional information, please do not hesitate to contact me.

Sincerely,

Gregory M Balicki, P.E., Director
Water and Wastewater Engineering Division

October 31, 2022

To Whom It May Concern:

Man Con Inc has performed exceptional work for the Town of Lauderdale-By-The-Sea on numerous projects including recently the E. Terra Mar Drainage Project and The Palm Club Septic to Sewer Conversion Project. They consistently finish projects ahead of schedule and are extremely skilled at dealing with resident concerns. Their “white glove” approach to handling issues ensures a smooth project where all stakeholders are satisfied during and after projects are finalized. They have a good understanding of the importance of value engineering projects and truly treat every project uniquely. The Town continues to look forward to utilizing their expertise on future projects.

Best Regards,

February 25, 2011

To Whom It May Concern,

I am writing to confirm that **Man Con, Inc.** managed eleven (11) utility projects for the City of Ft. Lauderdale over the course of two years within the **WaterWorks 2011** program. Projects were implemented by the City, within a "General Services" program, containing work in several historical, residential and important commercial areas.

Contracts were awarded based on successful performance of previously assigned work. **Man Con, Inc.** assisted project staff with design elements / changes to provide the best value to the City and was responsible for management of all trades, materials procurement, site control, installation of sanitary sewer systems, force mains, water mains, testing, reconstructive paving and landscaping. Upon completion of the program, MANCON was regarded as one of the best utility contractors in the \$690M **WaterWorks 2011** program.

I recommend **Man Con, Inc.** for their considerable ability to perform utility work within a "CM at Risk" or direct contracting format.

Sincerely,

CH2MHill
