- D. Applicant's rationale for the amendment. The Planning Council requests a condensed version for inclusion in the staff report (about two paragraphs). Planning Council staff may accept greater than two paragraphs, if submitted in an electronic format.**

The amendment site is located along Oakwood Boulevard, east of I-95, south of Stirling Road, and north of Sheridan Road. The existing property is comprised of retail, service and office uses including a series of surface parking lots, including Oakwood Boulevard which is a private roadway. The applicant proposes to redevelop portions of the site to add hotel rooms, multi-family dwelling units, retail and meeting spaces with the goal of enhancement and further support the existing non-residential uses.

This application serves as a request is to change the future land use designations of the amendment site. Specifically, the current designations of General Business and Open Space and Commerce and Open Space (per the City and County Land Use Plans) are requested for amendment; to Oakwood Activity Center. The requested amendment is intended to facilitate the development of a mixed-use property consisting of retail, office, hotel and residential uses. Furthermore, the proposed Oakwood Activity Center Land Use designations promote a compatible mix of uses within a limited geographical area while increasing access to multi-modal transportation options. The integration of these proposed uses has been shown to create opportunities for shared trip ends between consumers and to provide concurrent opportunities for residents to live and work in the same center, thereby reducing potential traffic impacts to the wider area. As an added benefit, the residential component of the amendment site is within comfortable walking distance of the existing transit corridor serving this development. The proposed residential multi-family units will additionally contribute to a variety of housing options needed in the City. Overall, the project is designed for residents, employees, and non-local consumers to share access to multi-modal mobility options, integrated pedestrian-friendly promenades and shops, and open spaces. The approximate 2.50 acres of open space will be incorporated into the overall 112.50 gross acres as a wet pond/dry pond or other allowed use.

3. AMENDMENT SITE DESCRIPTION

- A. Concise written description of the general boundaries and gross acreage (as defined by BCLUP) of the proposed amendment.**

The amendment site encompasses 112.50 gross acres. The survey and legal descriptions depict a total of 111.65 net acres in the City of Hollywood. This has been confirmed as shown in the acreage determination letter located in **Exhibit N**. The amendment site includes Oakwood Boulevard which is a private roadway, and is generally located east of I-95, west of existing the existing lake, south of Stirling Road and north of Sheridan Street.

B. Sealed survey, including legal description of the area proposed to be amended.

The survey and legal descriptions of the amendment site is provided. See **Exhibit A**.

C. Map at a scale clearly indicating the amendment’s location, boundaries and proposed land uses.

The location map indicating the amendment site boundaries and proposed land use is provided. See **Exhibit B**.

4. EXISTING AND PROPOSED USES

A. Current and proposed local and Broward County Land Use Plan designation(s) for the amendment site. If multiple land use designations, describe gross acreage within each designation. For Activity Center amendments, the proposed text indicating the maximum residential and nonresidential uses must be included.

For the Broward County Land Use Plan, the amendment site is currently designated Commerce (110.9 gross acres) and Recreation and Open Space (1.6 gross acres). For the City of Hollywood Land Use Plan and the same gross acreages, the amendment site is designated General Business and Open Space and Recreation. The applicant is proposing to change the designation to Activity Center for the County Land Use Plan and Regional Activity Center for the City Land Use Plan. The approximate 2.50 acres of open space will be incorporated into the overall 112.50 gross acres as a wet pond/dry pond or other allowed use. The survey and legal descriptions depict a total of 111.65 net acres in the City of Hollywood See **Table 1** below.

TABLE 1: LAND USE	
EXISTING LAND USE	Gross Acres
COUNTY: Commerce and Recreation and Open Space	112.50
CITY: General Business and Open Space and Recreation	112.50
PROPOSED ACTIVITY CENTER (Maximum)	
Retail: 1,200,000 square feet	
Office: 1,890,000 square feet	
Residential: 3,800 multi-family dwelling units	
Hotel: 625 rooms	

Maps of the current City and County future land use designations are provided. See **Exhibit C**.

B. Indicate if the flexibility provisions of the Broward County Land Use Plan have been used for adjacent areas.

The flexibility provisions have not been utilized for the adjacent areas.

C. Existing use of amendment site and adjacent areas.

The existing uses of the amendment site and adjacent areas are provided in **Table 2** below:

D. Proposed use of the amendment site including proposed square footage (for analytical purposes only) for each non-residential use and/or dwelling unit count. For Activity Center amendments,

also provide each existing non-residential use square footage and existing dwelling units for amendment area.

The uses within the proposed Activity Center will be limited to those in the **Table 3** below:

TABLE 3: PROPOSED USES		
Activity Center	Proposed Intensity	Existing SF/DU
Retail	1,200,000 square feet	1,638,000 square feet
Office	1,890,000 square feet	3,276,000 square feet
Residential	3,800 multi-family units	0 units
Hotel	625 rooms	0 rooms

- E. Maximum allowable development per local government adopted and certified municipal land use plans under existing designation for the site, including square footage/floor area ratio/lot coverage/height limitations/ for each non-residential use and/or dwelling unit count.**

Based on the existing City land use plan designation and applicable zoning regulations, the amendment site area designated as General Business (112.50 gross AC) is zoned IM-3. This would allow development of one or more industrial structures with a maximum building footprint of approximately 4,282,000 square feet and a maximum height of 35 feet.

5. ANALYSIS OF PUBLIC FACILITIES AND SERVICES

A. Potable Water Analysis

- 1. Provide the potable water level of service per the adopted and certified local land use plan, indicating the adoption date of the 10 Year Water Supply Facilities Workplan.**

The City of Hollywood potable water level of service standard is the Florida Department of Environmental Protection permitted capacity of the city’s potable water treatment facilities. The City adopted its most recent Water Supply Facilities Work Plan in January 2015. The amendment site is served by the City of Hollywood water treatment plant (“HWTP”) with a capacity of 59.5 MGD. Current and committed demand comprise approximately 14.7 MGD. There are no planned expansions at this time. Both City wellfields and the Broward County South Regional Wellfield provide water from the Biscayne and Floridan aquifers. The City’s maximum permitted withdrawal is 30.7 MGD from the Biscayne Aquifer and 8.7 MGD from the Floridan Aquifer. SFWMD Water Use Permit 06-00038-W expires on April 10, 2028.

- 2. Identify the potable water facility serving the area in which the amendment is located including the current plant capacity, current and committed demand on the plant and planned plant capacity expansions, including year and funding sources. Identify the well field serving the area in which the amendment is located including the South Florida Water**

Management District (SFWMD) permitted withdrawal and expiration date of the SFWMD permit.

The existing solid waste collection and disposal is handled under an agreement between the owner and Corporate Services Consultants (CSC). CSC hires a hauling company that takes the solid waste to the Pembroke Park Transfer Station, which is owned by Waste Connections Inc, located at 1899 SW 31st Ave, Hollywood, FL 33009. Then it is transported to a JED Landfill located at 1501 Omni Way, Saint Cloud, FL 34773 which is owned by Waste Connections Inc. The existing JED Landfill has approximately 43 years of airspace capacity remaining. The Pembroke Park Transfer station has a capacity of 1350 tons per day with a demand of 265 tons per day. The JED landfill has a permitted capacity of 81,687,993 cubic feet. The current demand is 22,473,038 cubic yards as of 3/22/2019 which is 27.5% of capacity. There are no current and future plans through 2030 for expansion of existing facilities.

D. Drainage Analysis

- 1. Provide the drainage level of service per the adopted and certified local land use plan.**

City of Hollywood

The land use plan amendment site will be required to comply with the standards contained in Chapter 154.50 Building and Structures Section (C) of City of Hollywood Code of Ordinances for flood damage prevention as follows, or as agreed upon with the City:

- (1) Minimum building elevations.
 - (a) Residential buildings. New construction and substantial improvement of residential buildings shall have the lowest floor, including basement, elevated to or above the elevation required in the Florida Building Code, Residential or Florida Building Code, Building, as applicable, or at least 18 inches above the highest point of the crown of all streets adjacent to the plot upon which such buildings are located or in accordance with a system or method of design admitting of rational analysis in accordance with well-established principles of mechanics and sound engineering practices as determined by

the Director, Public Utilities.

(b) Nonresidential buildings. New construction and substantial improvement of nonresidential buildings shall have the lowest floor, including basement, elevated or dry floodproofed to or above the elevation required in the Florida Building Code, Building or at least six inches above the highest point of the crown of all streets adjacent to the plot upon which such buildings are located or in accordance with a system or method of design admitting of rational analysis in accordance with well-established principles of mechanics and sound engineering practices as determined by the Director, Public Utilities.

(2) Minimum lot elevation - finished grade. The minimum lot elevation after finished grading shall not be less than the crown of the adjacent street or top of sidewalk, whichever is higher. Lots shall be provided with drainage facilities as required by the Florida Building Code, to avoid drainage onto adjoining properties. The finished grade at the perimeter of residential buildings shall be a minimum of six inches below the minimum building elevation as specified in this section.

The proposed redevelopment must obtain drainage permits for site development from the Broward County Planning and Environmental Regulations Division prior to obtaining a building permit from the City of Hollywood for work that qualifies for licensing.

Broward County LOS Standard

The land use plan amendment site will be required to comply with the level of service standards contained in the Broward County Comprehensive Plan – Drainage and Natural Aquifer Groundwater Recharge Element for drainage facilities as follows:

Broward County Environmental Protection and Growth Management Department reviews and approves stormwater plans within the City to ensure that level of service standards is met. These regulatory requirements are applied to all new and redevelopment projects, unless qualifying for an exemption under the Broward County code as this project does, thereby maintaining consistency with the level of service standards for stormwater. The City has adopted the following level of service standards for stormwater per the South Florida Water Management District Requirements:

- Primary Drainage System – 25-year – 3-day storm event. Cumulative rainfall total of 13.98”.
- Secondary Drainage System – 3-year storm event with varying time of concentration duration. Cumulative rainfall derived from Florida Department of Transportation (FDOT).
- Rainfall Intensity Duration – From existing permits.
- Roadways – Except for emergency access roadways these shall have one-half (1/2) of their total width above the flood elevation of the 10-year, 1-day storm event.
- Parking lots/drive aisles/dumpster enclosure pads without floor drains – These shall be above the flood elevation of the 5-year, 1-day storm event.
- Building Structures – The flood level shall not exceed the finish floor elevation of all building structures within the study area during the 100-year, 3-day storm event as

established by existing permits.

FEMA

- North:
 - Existing: Generally, buildings are within Flood Zone X, with stormwater pond and parking lot in Flood Zone AE elevation 6.00' NAVD. The canal is AE elev. 4.00'.
- South:
 - Existing: The stormwater pond is in Flood Zone AE elev. 5.00'. Portions of the buildings are in Flood Zone X. The Flood Zone AH with a Base Flood Elevation (BFE) of 7.00' is on the south side of the parcel near the theater. The canals are at 3, 4, and 5.

2. Identify the drainage district and drainage systems serving the amendment area.

Drainage in the City of Hollywood is served by South Florida Water Management District (SFWMD) and Broward County; the subject site is served by SFWMD.

3. Identify any planned drainage improvements, including year, funding sources and other relevant information.

The subject property was not identified as having any existing drainage issues and no capital improvements are proposed for the associated drainage basin in this area.

4. Indicate if a Surface Water Management Plan has been approved by, or an application submitted to, the SFWMD and/or any independent drainage district, for the amendment site. Identify the permit number(s), or application number(s) if the project is pending, for the amendment site. If an amendment site is not required to obtain a SFWMD permit, provide documentation of same.

The property currently has, and is subject to, existing SFWMD permits and Broward County Surface Water Licenses as listed below:

Oakwood Plaza North (71.94 acres) (ERP):

- Application # 11014-B Permit # 06-00639-S

A SFWMD permit modification and a Broward County Surface Water License including drainage analysis for the proposed qualifying redevelopment project work using already established permit conditions will be completed as part of the site plan development and stormwater permitting process.

5. **If the area in which the amendment is located does not meet the adopted level of service and there are no improvements planned (by the unit of local government or drainage authority) to address the deficiencies, provide an engineering analysis which demonstrates how the site will be drained and the impact on the surrounding properties. The information should include the wet season water level for the amendment site, design storm elevation, natural and proposed land elevation, one-hundred-year flood elevation, acreage of proposed water management retention area, elevations for buildings, roads and years, storage and runoff calculations for the design storm and estimated time for flood waters to recede to the natural land elevation.**

The subject site is located within City of Hollywood. The redevelopment within the site will be required to meet the drainage standards of the City, SFWMD, and Broward County Department of Environmental Protection and Growth Management based on existing established permit conditions.

6. **Correspondence from local drainage district verifying the information submitted as part of the application on items 1-5 above. Correspondence must contain name, position and contact information of party providing verification.**

See Exhibit F for Drainage Letter

E. Recreation and Open Space Analysis

1. Provide the recreation level of service per the adopted and certified local land use plan.

The adopted level of recreation and open space standard in the City of Hollywood is 3 acres of park space per 1,000 population. The LOS requirement is achieved by the approximate 633 acres of park space available in the City. Based on the 2006 population of 144,431 residents, Hollywood had approximately 4.4 acres of recreation and open space for every 1,000 residents. The adopted level of recreation and open space standard for Broward County is 3 acres per thousand persons.

For amendments which will result in an increased demand for “community parks” acreage, as required by the Broward County Land Use Plan, an up-to-date inventory of the municipal community parks inventory must be submitted.

No new acreage is associated with this amendment. See Exhibit G for the City Park Inventory.

2. Identify the net impact on demand for “community parks” acreage, as defined by the Broward County Land Use Plan, resulting from this amendment.

The approximate 2.5 acres of open space will be incorporated into the overall 112.5 gross acres as a wet pond/dry pond or other allowed use. The following below is the impact on demand for the multifamily units.

TABLE 10: RECREATION AND OPEN SPACE IMPACT			
	Use	Calculation	Total
Proposed	3,800 multi-family units	8,892 people ⁽¹⁾ x 0.003 ac pp ⁽²⁾	= 26.7 acres
		Change	+ 26.7 acres

(1) 3,800 units x 2.34 person/du = 8,892 people

(2) Source: Hollywood Comprehensive Plan

3. Identify the projected “community parks” acreage needs based on the local government’s projected buildout population.

TABLE 11: COMMUNITY PARK NEEDS			
Planning Horizon	Population	Demand	Available
2020 (Short)	169,943	x 0.003 = 509.8 acres	633 acres
2030 (Long)	237,920	x 0.003 = 574.4 acres	633 acres
