- (i) Beginning on the Commencement Date, the City shall direct the City’s Contract Hauler to deliver all Program Recyclables to the Designated Recycling Facility during the scheduled receiving hours specified herein. Program Recyclables will be delivered Single Stream. The City makes no assurances or guarantees regarding the quantity of Program Recyclables that will be delivered to the Designated Recycling Facility.
- (ii) Beginning on the Commencement Date, the Contractor shall accept deliveries of Program Recyclables at the Designated Recycling Facility between the hours of 6:00 a.m. and 6:00 p.m. Monday through Friday and 6:00 a.m. and 4:00 p.m. on Saturday or other hours, approved in writing, by the Contract Administrator. - (iv) The Designated Recycling Facility shall be operated to facilitate delivery vehicle access during operations. The daily average delivery vehicle turnaround time from arrival at the facility site to exit from the facility site shall not exceed twenty (20) minutes. Delays caused by equipment failure not due to negligence of the Contractor or other fault of the delivery vehicle shall not be included in the turn-around time computation. The Contractor will provide the City with access to its records to verify vehicle turnaround time within twenty-four (24) hours' notice.
- (v) The Designated Recycling Facility shall be equipped with adequately-sized legal-for-trade truck scales and computerized recordkeeping systems for weighing and recording all incoming Program Recyclables delivery vehicles. Such scales shall be permitted and in compliance with Section 531.60, Florida Statutes. Contractor shall calibrate and certify scales no less frequently than annually.

The City shall have access to such books, records, documents, and other evidence for inspection, review, and copying during normal business hours. The Contractor will provide proper facilities for such access and inspection. - (iv) The Contractor will maintain and allow access to books, records, data, documents, and reports relating to this Contract for five (5) years following the conclusion or termination of this Contract.

6.1.5. Reporting

- (i) Prior to the fifteenth (15th) calendar day of each month during the term of this Contract, the Contractor shall submit a report electronically to the Contract Administrator, in a format approved by the Contract Administrator. The report shall provide the total tonnage of Program Recyclables received at the Designated Recycling Facility during the previous month, as well as a breakdown by delivery date and time, vehicle number, and quantity.
- (ii) Within thirty (30) days of the end of each Contract Year, the Contractor shall provide the Contract Administrator with a report summarizing the total Tons of Program Recyclable delivered to the Designated Facility during the Contract Year and the net tonnage diverted from disposal. Additionally, the Contractor shall submit a copy of the annual report submitted to FDEP summarizing Recyclable Materials deliveries by type, quantity, and source.
- (iii) At least thirty (30) days prior to the end of each Contract Year during the term of this Contract, the Contractor shall ensure and certify to the City that all required documents are current and on file with the City. Such documents include, but are not limited to, certificates of insurance and performance bond.

6.1.6. Public Education and Information

- (i) The Contractor shall, at no cost to the City, provide an educational presentation and educational materials for distribution at up to two (2) events per Contract Year as requested by the City.
- (ii) The Contractor shall, at no cost to the City, provide tours of the Designated Recycling Facility upon at least seven (7) calendar days' notice by the City. The Contractor shall provide personnel (trilingual upon request) to lead the tour and all necessary personal safety equipment. Designated areas for tour-group participants to safely observe the operations of the facility will be jointly agreed to by both the City and the Contractor prior to conducting any tours.

6.1.7. Program Recyclables Revenue

- (i) The Contractor shall pay the City monthly for each Ton of inbound Program Recyclables delivered to the Designated Recycling Facility, as determined by the Designated Recycling Facility's scales. The payment per Ton shall be calculated as follows and as in the Bidder Response Form for Recyclables Processing:
 - (1) Each month, the Contractor shall calculate the Average Market Value (AMV) of the Program Recyclables, defined as the sum of the Southeast USA regional average commodity prices (U.S. Dollars per Ton) first posted in the month for which payment is being made in RecyclingMarkets.net multiplied by the composition percentages as defined in the Bidder Response Form for Recyclables Processing. If at any time during the term of this Agreement RecyclingMarkets.net no longer posts or otherwise fails to provide the applicable market indices, then the parties shall mutually select an appropriate replacement source for the required information from among the sources recycling industry professionals utilize to obtain reliable Recovered Material pricing information.
 - (2) A Contractor's Fee of fifty dollars (\$50.00) per Ton shall be deducted from the AMV. The Contractor's Fee of fifty dollars (\$50) shall remain the same through the first Contract Year. At the beginning of the second Contract Year and each subsequent Contract Year during the term of the Contract, the Contractor's Fee shall be adjusted based on seventy-five percent (75%) of the percentage change in the Consumer Price Index (CPI) between the month of April in the previous year and the month of April in the current year. The CPI will be the Consumer Price Index for the South Urban Region, All Items – All Urban Wage Earners and Clerical Workers, (series ID #CWURO300SA0) published by the United States Department of Labor, Department of Labor Statistics. The total adjustment to the Contractor's Fee in any given year shall not exceed two percent (2%) of the previous year's Contractor's Fee. If the CPI Index is discontinued or substantially altered, the City may select another relevant price index published by the United States Government or by a reputable publisher of financial and economic indices. The fee(s) in any subsequent term(s) shall be calculated in the same manner as in the initial term.

- (3) The Contractor shall pay the City a percentage, as provided in Bidder Response Form for Recyclables Processing, of the remaining amount, for each Ton of inbound Program Recyclables delivered to the Designated MRF during that month.
- (4) If the AMV is less than the Contractor's Fee of fifty dollars (\$50.00), the Contractor shall make no payment to the City and the City shall make no payment to the Contractor. At no time shall the City make payment to the Contractor for accepting, processing, or marketing Program Recyclables, regardless of the AMV.
- (ii) The City or Contractor may conduct a composition study of Program Recyclables delivered to the Designated Recycling Facility. The party requesting such study shall pay for the study unless otherwise agreed upon. The final methodology and selection of a qualified entity to conduct the study must be approved by the City. The City reserves the right to have a representative onsite throughout the recycling composition study. Study results are subject to final approval by the City, which shall not be unreasonably withheld. If approved by the City, adjustments to the composition percentages provided in Bidder Response Form for Recyclables Processing shall be made and shall become effective for the following month and the remainder of the Contract, or until further adjusted in a future composition study.
- (iii) The Contractor acknowledges and accepts that the formula outlined in Section 6.1.7 shall be used for calculating revenue throughout the term of the Contract. It is intended to reflect the current value of Program Recyclables, but might not be an exact calculation of that value. If the commodity revenue received by the Contractor differs from the market index or the Contractor's Fee does not accurately reflect the Contractor's cost for accepting, processing, and marketing Program Recyclables, the Contractor shall have taken such items into consideration when bidding the percentage of the AMV less the Contractor's Fee that it will pay to the City. Any and all costs associated with accepting, processing, marketing, and transporting Program Recyclables shall be the responsibility of the Contractor.

6.1.8. Invoicing and Payment

- (i) No later than the fifteenth (15th) day of each month, the Contractor shall submit a monthly report, in a form acceptable to the City, detailing the total revenue due to the City for the Program Recyclables delivered to the Designated Recycling Facility during the previous month.
- (ii) The Contractor shall remit payment of said revenue, as detailed in the monthly report, within thirty (30) calendar days from the end of the month for which the payment is due.

6.2 PERFORMANCE BOND

Prior to commencing services, the Contractor shall furnish to the City, and keep current for the full duration of the Contract and any renewal, a Performance Bond for the faithful performance of this Contract and all obligations arising hereunder in an amount equal to six (6) months of Recyclables Revenue as estimated in the Bidder's Response Form for Recyclables Processing.

6.3 LIQUIDATED DAMAGES

The City may assess liquidated damages against the Contractor for failing to provide recyclables processing services in compliance with requirements of this IFB. It is hereby agreed that the City may deduct from any monies due, or which may become due to the Contractor, liquidated damages, and not as a penalty, in the following amounts:
