Dear Dr. Ishmael:

Subject: FPID#: 434672-1-52-01
Project Description: Johnson Street from North 31st Court to US-1
Confirmation of Local Funds Commitment

This letter is to inform you of decisions and documentation needed from the City of Hollywood regarding the Johnson Street Mobility project. This project is being designed by FDOT in coordination with the City and the Broward Metropolitan Planning Organization. To maintain the current schedule, FDOT must receive a signed Proposed Roadway Typical Section Package by January 10, 2017 and receive a local funds commitment letter by February 15, 2017. The project is in jeopardy of losing its funding if these deadlines are missed. Please indicate the City's agreement with the project scope by having the City Engineer sign the attached typical section package.

The construction for the project is funded with MPO attributable funds. By agreement with the MPO, the right-of-way acquisition must be funded with City funds. The roadway typical sections have been revised to reduce the right-of-way impacts, but the anticipated cost is \$6 million. This will be refined once the Department receives the signed Proposed Roadway Typical Section Package. We would then need a commitment letter for the Locally Funded Agreement by February 15, 2017. The execution of the Locally Funded Agreement would need to occur by April 15, 2017 to begin the right-of-way acquisition process.

If you require further information, please do not hesitate to contact the Project Manager, Mr. Brad Salisbury, PE at (954) 777-4160 or via email at brad.salisbury@dot.state.fl.us

Sincerely,

Stacy Miller, PE
Director of Transportation Development
