Education Advisory Committee - Questions*

The Educational Advisory Committee should actively monitor the quality of schools located in the City of Hollywood. It is important to maintain high standards so that our current and new residents will continue to want to live and work here.

The paramount priority for today's schools must be school safety. School and city administrators must work together to find efficient and cost effective solutions to ensure that all students are educated in the safest and most innovative environments.

The curriculum must be relevant to the 21st century and meet the needs of today's students. One goal must be to successfully complete high school and be prepared for college or the current job market.

Answer to Questions 1-5

1. I have had the Privilege & Honor of serving on the Planning & Development Board. In looking back at the years I've been on the board, I have come to realize that it's not just the knowledge of my particular field, but understanding the reasons and justifications given by staff's presentation, the comments of my other board members and input & concerns of the public. All parties have taken their time to review the agenda item, through their own point of view. So we as a board must take "All" this input.

2. I have personally attended many City Commission, CRA, and Community meetings over the years. As the President of Hollywood North Beach Association, I hear the issues that communities are dealing with, when changes such as developments affect their personal life styles neighborhoods. This personal connection allows me to truly hear their concerns. As a developer, I also have reach out to the community that I am planning to build in, in an effort to share my plans and ask them to share their thoughts. This way it's hopefully a win –win for All.

3. The balance of growth within the City can at times be very challenging. In an older city as ours, people can be very apprehensive to change. But change must occur as a city adapts to its growth. These changes within our city are a balance of new homes, new commercial business, new roads, new parks, new unities systems, etc. All these have an effect on a City's tax base and costs.

4. I have a very special development that is personal to me, that I am most proud within the City. I have dedicated the last three years, in developing my Seaside Village project in the North Beach Community. By what I think is an example of working with the community a development is built in, Seaside Village has been embraced by its surrounding neighbors, has been successful in sales and has help the City increasing its tax base. " Win –Win "

5. Comprehensive Plan....What the City Commission, City Manager and Staff, layout as a detailed plan of development throughout the City, for its future growth.

General Obligation Bond Oversite Advisory Committee - Questions*

1) This is a very big endeavor that the City is taking on and its needs to be successful for further necessary funding in the future. The City undertook many months of meeting with residents and finding out what areas the citizens would like to see funded by the general obligation bond through residents taxes. The residents are the backbone of what was determined to be the most vital needs, as a long time resident and civic and business leader, I feel qualified to be part of this team
2). My real estate experience allows me to understand the development of certain projects that will be undertaken,as well as my experience for many years on the historic preservation board and currently on the planning and development boards. In addition, as a trustee in the Hollywood Chamber and former President of the Chamber, the business and the residential community must both be included in the upcoming projects.
3) Neighborhoods and resiliency, go hand in hand with public safety and open space - a perfect of all three needed to make the community we want to live and work in. A beautiful neighborhood, without public safety is not good. Neighborhoods without sidewalks, open spaces and parks cannot be vibrant. So, it all goes hand in hand.
4) In order to sustain our City, we need a strong and growing tax base- future of the City depends on this. Always a balancing act between old and new is the difficulty. Having served on neighborhood associations as well as the Hollywood Historical Society, I know and understand the importance of preservation, however to attract new business, new young people, we must also have newer and different styled development. Walking, biking and public transportation are goals to attract people to live and work in the downtown areas. We must strive to have the charm of the old and the economic growth to sustain our City.

Please answer these four questions above. Why do you want to join the GO Bond Oversight Advisory Committee? 2. Explain how your personal and/or professional experiences will contribute to the meeting the goal(s) of the Board or City. 3. Which Bond interests you the most? Public Safety? Hollywood Housing Authority - Questions*

1)Prices rise and fall with the demand in the area. I am not sure how you are going to stop rising or falling prices in rental market. What I would say is that the rentals must all be legal rentals and not illegal conversions that do not have legal up to code remodels. Many are unsafe. However, if you crack down on those, then those people would not be able to afford residences under normal market values. In my real estatepractice and while doing my property management work, I have seen unbelievable rental units that are definitely not up to code standards. The City should continue to find properties that they can buy and continue to build affordable housing for Hollywood residents. With the money coming in from Broward County, we should put our efforts in this development. I would love to be a part of this movement.
2) Most skilled in property management and however, having served for 8 years on the Community Development Board, I am a strong advocate for affordable housing.
3) Most passionate in my work in property management, and fair housing. I have seen to many times when people of color, or with young children have been passed over in housing market for rentals.
4) I have been volunteering since I was a child - going around for Unicef and choclate bar sales for my various clubs and activities. I have a passion in helping and making a difference in my community. I recently was selected to receive from the Hollywood Chamber lifetime recognition award for community service. I am so pround of this award as it represents who I am.
5) As a City, we are as diverse as this Country. This area with its amazing beaches and broadwalk brings people from all over who want to be here. We have so many of our friends from Canada renting for the season, In addition, Hollywood is attracting people renting all year round from Russia, Latin America, South America and all over the U.S. As a realtor and property manager, I come into contact with so many.

Planning & Development Board - Questions*

I have served on Planning & Development Board for the last three years. I have learned so much from the City Staff about how they make their decisions on development. My colleagues are so knowledgable and with so many varied careers contractors, architects, developers - it is an amazing group. We learn and teach each other with our own unique insights that we come to meetings prepared to discuss.
2) My work as a realtor all over our City and as property manager with buildings all across the area from the Hillcrest area, to the beach, I have a unique set of skills that I feel I add to the group. I live on the beach and work in the Hills area, I understand the various parts of the City as far as developmental challenges, the weaknesses and their strengths. I understand where the City's vision is for development to strengthen our tax base and improve our City.
3) Many of our buildings are old, they need improvement and updating. New development can only bring higher values and a better quality of life to residents. I believe in sustaining growth with neighborhood input from the civic associations. I am a member of the Hollywood Beach civic association and on their steering committee. While I live in an older small building, right next to me is the Hollywood Beach Resort. It is sad that such an historic building has fallen into such disrepair. This is a good example of how we can improve a property from a blighted property to a gem that the beach and Hollywood can be proud of. As long as properties keep in character with the surrounding properties, I cannot see why growth cannot be hand in hand with existing properties in the neighborhood. 4) I am most proud in our area of Margaritaville, Seaside Village and the Circ Hotel. All have brought new people to this area and I think they are all excellent representatives of what Hollywood is all about. 5) Comp plan is a mission statement of where we want to take our City in development, transportation et

General Obligation Bond Oversite Advisory Committee - Questions*

1. I believe in the power of tax dollars to do great things in the community. Unfortunately, there is a huge level of mistrust of government in this day and age due to many reasons. Some of this mistrust is valid. However, some of this mistrust is simply the public's lack of knowledge regarding what is going on in government. Committees like this, if engaged and dedicated, can go a long way to ease this mistrust by adding a layer of accountability. I would like to help the projects supported by these bonds be successful while ensuring that the public's trust is upheld.
2. I am a strong believer in public service. I served in the U.S. Navy as a submarine nuclear power plant operator for six years and now am a senior executive for a non-profit dedicated to educating the public on science and technology through informal learning. I have a bachelor degree in mechanical engineering from Georgia Tech and before coming to South Florida was director of operations for an engineering firm headquartered in Atlanta and specializing in the construction, start up and operation of high tech facilities such as bio-containment labs and highly energy efficient buildings throughout the Country. I have a lot of experience in the design and construction of large projects and understand costs associated with constructing a major project in today's economy. I understand the construction process fully, from bidding through completion.
3. I am interested in all three bonds as I believe all three bonds provide a piece of what it means to have a great quality of life for a community. My professional experience lends more towards the public safety and Neighborhoods & Resiliency bonds.
4. I believe that as citizens, we need to invest in our communities in order to better them. This could be financially or by volunteering time or other resources. I do not believe that our City can be great without this type of investment. However, it has to be done right.

1 As a Hollywood resident who owns a business in Hollywood, I'm eager to be involved in some of the decisions that will effect how I live and make my living in the City.
2 & 3- I'm an avid golfer who plays every week but I find that I have to travel outside my city to spend my time and cash because of the lack of affordable facilities in Hollywood. I also find it awful that I have to send customers from the Pub to Plantation, when they ask me my advice on affordable gold courses that are decent and playable. That is why I'd like to put my name fwd for the Parks/Golf/open Spaces element.
4 Growing up in a rural area of Ireland i feel it's imperative to everyone of all ages that we continue to support and invest in green areas that also provide entertainment of a physical nature. Golf Courses - when properly run- offer both a community healthy option and can greatly contribute to businesses in the neighboring areas. Hotels, Restaurants, Car rental and other local tourism businesses will all do better with a local good quality Golf Course which will grow employment and tax income for the City.

Explain how your personal and/or professional experiences will contribute to the meeting the goal(s) of the Board or City. 3. Which Bond interests you the most? Public Safety?
