Subject: Variance Request for Non-Conforming Lots 824 POLK STREET  
Folio numbers 5142 14 02 42 71 and 5142 14 02 42 70

To whom it may concern,

I am writing to formally submit a variance petition for the property located at [Property Address], in accordance with the quasi-judicial procedures outlined by the Historic Preservation Board. The variance sought pertains to the division of the existing property into two residential parcels, each measuring 50 feet wide, contrary to the established zoning requirement of 60 feet width for conforming residential lots. It is important to emphasize that these lots are classified as non-conforming lots.

In alignment with the variance criteria stipulated by the Historic Preservation Board, I hereby address each requisite as follows:

**a. That the requested Variance maintains the basic intent and purpose of the subject regulations, including the Historic District Regulations, Design Guidelines for Historic Properties and Districts, and Resolutions, particularly as it affects the stability and appearance of the city.**

Response: the requested Variance maintains the foundational intent and purpose of the pertinent regulations, including the Historic District Regulations, Design Guidelines for Historic Properties and Districts, and Resolutions, particularly concerning the stability and aesthetic coherence of the city.

**b. That the requested Variance is otherwise compatible with the surrounding land uses and would not be detrimental to the community.**

Response: The requested Variance is intrinsically compatible with the prevailing land uses in the surrounding area and does not pose any detrimental impact on the community. This compatibility is underscored by the historical configuration of the property and the prevalence of similarly sized lots in the vicinity, thus ensuring neighborhood cohesion.

**c. That the requested Variance is consistent with and in furtherance of the Goals, Objectives, and Policies of the adopted Comprehensive Plan, as amended from time to time, the applicable Neighborhood Plan, and all other similar plans adopted by the city.**

Response: The requested Variance is demonstrably consonant with and supportive of the Goals, Objectives, and Policies delineated in the adopted Comprehensive Plan, the pertinent Neighborhood Plan, and all other akin plans sanctioned by the city. By promoting efficient land utilization and preserving historical character, the variance aligns with the city's overarching development objectives.

**d. That the need for the requested Variance is not economically based or self-imposed.**

Response: The necessity for the requested Variance does not stem from economic motivations or self-imposed constraints but rather from the intrinsic non-conformity of the property's historical platting. This non-conformity predates existing zoning regulations and necessitates a variance to address the property's unique characteristics.

**e. That the variance is necessary to comply with State or Federal Law and is the minimum Variance necessary to comply with the applicable law.**

Response: The variance sought is indispensable for achieving planning and zoning approval at the municipal level, acknowledging the property's status as a non-conforming lot. By granting the variance, the city ensures compliance with local regulatory mandates while preserving the historical integrity of the property.

In summary, I respectfully petition the Historic Preservation Board to deliberate upon and grant approval for the variance application concerning the property split at [Property Address]. The requested deviation from the standard lot width represents a necessary

measure to rectify the non-conforming status of the property while honoring its historical context.

Thank you for your careful consideration of this matter. Should further elucidation or documentation be requisite, please do not hesitate to contact me at [Your Phone Number] or [Your Email Address].

Sincerely,

Yoann Andreu
