Issue Date: May 17, 2017

City of Hollywood, Florida
Solicitation # RFQ-4521-17-RL

Contractor's License Number(s):

Clyde A. Biston, General Contractor, CGC062981

Clyde A. Biston, Asbestos Contractor, CJC049572

If applicable, list up to a combined total of three State, County, or other Agencies in which your Organization is qualified to perform work by mean of pre-qualification:

DATE	AGENCY NAME	TRADE APPROVED	AMOUNT APPROVED
1.- 4/2/2015	FDOT IV	Demolition	\$250,000
2.- 9/5/2014	FDOT VI	Demolition	\$250,000
3.- 05/19/2017	FDOT III	Demolition	\$50,000

PART II SECTION I – PRE-QUALIFICATION QUESTIONS – Business History and Organizational Performance (16 questions).

- 1. Is your organization licensed to do business in Florida as a Contractor under your present business name and license number?
 Yes No
 If yes, how many years? 29
 List officers and responsible managing employees. Clyde A Biston; John Tostanoski; James Smith; Sharon Rosenbauer
- 2. Is your firm, owners, partners or any principal of the company currently the debtor in bankruptcy case?
 Yes No
- 3. Was your firm, owners, partners or any principal of the company in bankruptcy any time during the last five years?
 Yes No
- 4. Has any contracting license held by your firm or its Responsible Managing Employee (RME) or Responsible Managing Officer (RMO) been suspended within the last five years?
 Yes No
- 5. At any time in the last five years, has your firm been assessed and paid liquidated damages after completion of a project, under a construction contract with either a public or private owner?
 Yes No
 If yes, list project owner and amounts.

-
- 6. In the last five years has your firm, or any firm with which any of your company's owners, Officers or partners was associated, been debarred, disqualified, removed or otherwise prevented from bidding on, or completing, any government agency or public works project for any reason?
 Yes No

NOTE: "Associated" refers to another construction firm in which an owner, partner, or officer of your firm held a similar position, and whom are listed as owner, partner or officer of your firm in response to Page 1 on this form.

- 7. In the last five years, has your firm been denied an award of a public works contract based on a finding by a public agency that your company was not a responsible bidder?
 Yes No

NOTE: The following two questions refer only to disputes between your firm and the owner of a project. You need not include information about disputes between your firm and a supplier, another Contractor, or subcontractor. You need not include information about "pass-through" disputes in which the actual dispute is between a sub-Contractor and a project owner.

Issue Date: May 17, 2017

8. In the past five years, has any claim **against** your firm concerning your firm's work on a construction project, been **filed in court or arbitration?**
 Yes No
If yes, how many? _____
9. In the past five years, has your firm made any claim against a project owner concerning work on a project or payment for a contract, and **filed that claim in court or arbitration?**
 Yes No
If yes, how many? _____
10. At any time during the past five years, has any surety company made any payments on your firm's behalf as a result of a default, to satisfy any claims made against a performance or payment bond issued on your firm's behalf in connection with a construction project, either public or private?
 Yes No
If yes, how many? _____
11. In the last five years, has any insurance carrier, for any form of insurance, refused to renew the insurance policy for your firm?
 Yes No
If yes, how many? _____
12. Has your firm, or any of its owners, officers, or partners ever been found liable in a civil suit, or found guilty in a criminal action, for making any false claim or material misrepresentation to any public agency or entity?
 Yes No
If yes, how many? _____
13. Has your firm, or any of its owners, officers or partners ever been convicted of a crime involving any federal, state, or local law related to construction?
 Yes No
If yes, how many? _____
14. Has your firm or any of its owners, officers or partners ever been convicted of a federal or state crime or fraud, theft, or any other act of dishonesty?
 Yes No
If yes, how many? _____
15. If your firm was required to pay a premium of more than one per cent for a performance and payment bond on any project(s) on which your firm worked at any time during the last three years, state the percentage that your firm was required to pay. You may provide an explanation for a percentage rate higher than one percent, if you wish to do so.

16. During the last five years, has your firm ever been denied bond credit by a surety company, or has there ever been a period of time when your firm had no surety bond in place during a public construction project when one was required?
 Yes No
If yes, how many? _____

PART II SECTION II – PRE-QUALIFICATION QUESTIONS – Compliance with Applicable Laws (11 questions).

1. Has the State of Florida cited and assessed penalties against your firm for any "serious," "willful" or "repeat" violations of its safety or health regulations in the past five years?
 Yes No
If yes, attach a separate signed page describing each penalty?

NOTE: If you have filed an appeal of a citation and the Occupational Safety and Health Appeals Board has not yet ruled on your appeal, you need not include information about it.

2. Has the Federal Occupational Safety and Health Administration cited and assessed penalties against your firm in the past five years?
 Yes No
If yes, attach a separate signed page describing each citation?

NOTE: If you have filed an appeal of a citation and the appropriate appeals Board has not yet ruled on your appeal, you need not include information about it.

3. Has the EPA, or a State of Florida Agency/Department cited and assessed penalties against either your firm or the owner of a project on which your firm was the Contractor, in the past five years?
 Yes No
If yes, attach a separate signed page describing each citation?

NOTE: If you have filed an appeal of a citation and the Appeals Board has not yet ruled on your appeal, or there is a court appeal pending, you need not include information about the citation.

4. How often do you require documented safety meetings to be held for construction employees and field supervisors during the course of a project?
A meeting is held at the beginning of the project and if any changes happen during the course of the project.

5. List your firm's Experience Modification Rate (EMR) workers' compensation insurance for each of the past three premium years:
Current year: .59 Previous year: .64 Year prior to previous year: 1.00

If your EMR for any of these three years is or was 1.00 or higher, you may, if you wish, attach a letter of explanation.

NOTE: An Experience Modification Rate is issued to your firm annually by your workers' compensation insurance carrier.

6. Within the last five years, has there ever been a period when your firm had employees but was without worker's compensation insurance or state-approved self-insurance?
 Yes No

If yes, attach separate signed page describing time period without worker's compensation insurance.

Issue Date: May 17, 2017

7. Has there been any occasion during the last five years on which your firm was required to pay either back wages or penalties for your own firm's failure to comply with the prevailing wage laws?
 Yes No

NOTE: This question refers only to your own firm's violation of prevailing wage laws. It does not pertain to violations of the prevailing wage laws by a subcontractor.

8. During the last five years, has there been any occasion on which your own firm has been penalized or required to pay back wages for failure to comply with the Federal Davis-Bacon prevailing wage requirements?
 Yes No
If yes, list occurrences

9. Provide the name, address, and telephone number of all apprenticeship program sponsor(s) (approved by the State of Florida) that will provide apprentices to your company for use on any public works projects for which you are awarded a contract.

n/a

10. If your firm operates its own State-approved apprenticeship program:
- a. Identify the craft or crafts in which your firm provided apprenticeship training in the past year.
 - b. State the year in which each such apprenticeship program was approved, and attach evidence of the most recent approval(s) of your apprenticeship program(s).
 - c. State the number of individuals who were employed by your firm as apprentices at any time during the past three years in each apprenticeship and the number of persons who, during the past three years, completed apprenticeships in each craft while employed by your firm.
11. At any time during the last five years, has your firm been found to violate any provision of Florida apprenticeship laws or regulations, or the laws pertaining to use of apprentices on public works?
 Yes No

If yes, provide the date(s) of such findings, and attach copies of the final decision(s).

**SWORN STATEMENT PURSUANT TO SECTION 287.133 (3) (a) FLORIDA
STATUTES ON PUBLIC ENTITY CRIMES**

THIS FORM MUST BE SIGNED AND SWORN TO IN THE PRESENCE OF A NOTARY PUBLIC OR
OTHER OFFICIAL AUTHORIZED TO ADMINISTER OATHS

1. This form statement is submitted to City of Hollywood, Florida
by Clyde A. Biston, President for Cross Environmental Services, Inc.
(Print individual's name and title) (Print name of entity submitting sworn statement)
whose business address is P.O. Box 1299, Crystal Springs, FL 33524
and if applicable its Federal Employer Identification Number (FEIN) is 59-2866646. If the entity has no FEIN,
include the Social Security Number of the individual signing this sworn statement.

2. I understand that "public entity crime," as defined in paragraph 287.133(1)(g), Florida Statutes, means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or with the United States, including, but not limited to, any bid, proposal, reply, or contract for goods or services, any lease for real property, or any contract for the construction or repair of a public building or public work, involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misinterpretation.

3. I understand that "convicted" or "conviction" as defined in Paragraph 287.133(1)(b), Florida Statutes, means a finding of guilt or a conviction of a public entity crime, with or without an adjudication of guilt, in an federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, nonjury trial, or entry of a plea of guilty or nolo contendere.

4. I understand that "Affiliate," as defined in paragraph 287.133(1)(a), Florida Statutes, means:

1. A predecessor or successor of a person convicted of a public entity crime, or
2. An entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public entity crime. The term "affiliate" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

5. I understand that "person," as defined in Paragraph 287.133(1)(e), Florida Statutes, means any natural person or any entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which bids or applies to bid on contracts let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, executives, partners, shareholders, employees, members, and agents who are active in management of an entity.

6. Based on information and belief, the statement which I have marked below is true in relation to the entity submitting this sworn statement. (Please indicate which statement applies.)

Neither the entity submitting sworn statement, nor any of its officers, director, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, nor any affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an

Issue Date: May 17, 2017

affiliate of the entity has been charged with and convicted of a public entity crime, but the Final Order entered by the Hearing Officer in a subsequent proceeding before a Hearing Officer of the State of the State of Florida, Division of Administrative Hearings, determined that it was not in the public interest to place the entity submitting this sworn statement on the convicted vendor list. (attach a copy of the Final Order).

I UNDERSTAND THAT THE SUBMISSION OF THIS FORM TO THE CONTRACTING OFFICER FOR THE PUBLIC ENTITY IDENTIFIED IN PARAGRAPH 1 (ONE) ABOVE IS FOR THAT PUBLIC ENTITY ONLY AND THAT THIS FORM IS VALID THROUGH DECEMBER 31 OF THE CALENDAR YEAR IN WHICH IT IS FILED. I ALSO UNDERSTAND THAT I AM REQUIRED TO INFORM THAT PUBLIC ENTITY PRIOR TO ENTERING INTO A CONTRACT IN EXCESS OF THE THRESHOLD AMOUNT PROVIDED IN SECTION 287.017 FLORIDA STATUTES FOR A CATEGORY TWO OF ANY CHANGE IN THE INFORMATION CONTAINED IN THIS FORM.

**CERTIFICATIONS REGARDING DEBARMENT, SUSPENSION AND OTHER
RESPONSIBILITY MATTERS**

The applicant certifies that it and its principals:

- (a) Are not presently debarred, suspended, proposed for debarment, declared ineligible, sentenced to a denial of Federal benefits by a State or Federal court, or voluntarily excluded from covered transactions by any Federal department or agency;
- (b) Have not within a three-year period preceding this application been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State, or local) transaction or contract under a public transaction, violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
- (c) Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State, or local) with commission of any of the offenses enumerated in paragraph (b) of this certification; and
- (d) Have not within a three-year period preceding this application had one or more public transactions (Federal, State, or local) terminated for cause or default.

DRUG-FREE WORKPLACE PROGRAM

IDENTICAL TIE BIDS - Preference shall be given to businesses with drug-free workplace programs. Whenever two or more bids which are equal with respect to price, quality, and service are received by the State or by any political subdivision for the procurement of commodities or contractual services, a bid received from a business that certifies that it has implemented a drug-free workplace program shall be given preference in the award process. Established procedures for processing tie bids will be followed if none of the tied vendors have a drug-free workplace program. In order to have a drug-free workplace program, a business shall:

1. Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.
2. Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violations.
3. Give each employee engaged in providing the commodities or contractual services that are under bid a copy of the statement specified in subsection (1).
4. In the statement specified in subsection (1), notify the employee that, as a condition of working on the commodities or contractual services that are under bid, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.
5. Impose a sanction on, or require the satisfactory participation in a drug abuse assistance or rehabilitation program (if such is available in the employee's community) by, any employee who is so convicted.
6. Make a good faith effort to continue to maintain a drug-free workplace through implementation of these requirements.

As the person authorized to sign the statement, I certify that this firm complies fully with the above requirements.

NAME OF COMPANY

SOLICITATION, GIVING, AND ACCEPTANCE OF GIFTS POLICY

Florida Statute 112.313 prohibits the solicitation or acceptance of Gifts. - "No Public officer, employee of an agency, local government attorney, or candidate for nomination or election shall solicit or accept anything of value to the recipient, including a gift, loan, reward, promise of future employment, favor, or service, based upon any understanding that the vote, official action, or judgment of the public officer, employee, local government attorney, or candidate would be influenced thereby." The term "public officer" includes "any person elected or appointed to hold office in any agency, including any person serving on an advisory body."

The City of Hollywood policy prohibits all public officers, elected or appointed, all employees, and their families from accepting any gifts of any value, either directly or indirectly, from any contractor, vendor, consultant, or business with whom the City does business.

The State of Florida definition of "gifts" includes the following:

- Real property or its use,
- Tangible or intangible personal property, or its use,
- A preferential rate or terms on a debt, loan, goods, or services,
- Forgiveness of indebtedness,
- Transportation, lodging, or parking,
- Food or beverage,
- Membership dues,
- Entrance fees, admission fees, or tickets to events, performances, or facilities,
- Plants, flowers or floral arrangements
- Services provided by persons pursuant to a professional license or certificate.
- Other personal services for which a fee is normally charged by the person providing the services.
- Any other similar service or thing having an attributable value not already provided for in this section.

Any contractor, vendor, consultant, or business found to have given a gift to a public officer or employee, or his/her family, will be subject to dismissal or revocation of contract.

As the person authorized to sign the statement, I certify that this firm will comply fully with this policy.

Email: henry.verdugo@dot.state.fl.us

- 1. Q: What was the dollar value of the contract?
A: 3,000,000 - 3 year - option for renewal
- 2. Q: Have there been any change orders, and if so, how many?
A: Life of contract - four / 0 only
- 3. Q: Did they perform on a timely basis as required by the agreement?
A: CES performed in a timely basis
- 4. Q: Was the project manager easy to get in contact with?
A: YES, very good
- 5. Q: Would you use them again?
A: ABSOLUTELY
- 6. Q: Overall, what would you rate their performance? (Scale from 1-5)
A: 5 Excellent 4 Good 3 Fair 2 Poor 1 Unacceptable
- 7. Q: Is there anything else we should know, that we have not asked?
A: CONTRACTOR WILL MEET DIFFICULT DEADLINES.

The undersigned does hereby certify that the foregoing and subsequent statements are true and correct and are made independently, free from vendor interference/collusion.

RE: Bondability Letter for Cross Environmental Services, Inc.
PROJECT: Demolition Contractor Pre-Qualification

To: Whom it may concern,

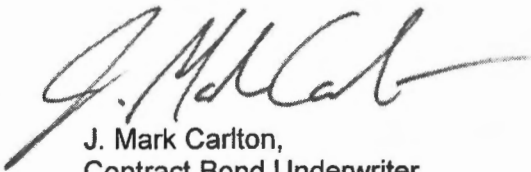

Tokio Marine HCC - Surety Group is a leading provider of surety bonds; comprised of American Contractors Indemnity Company, U.S. Specialty Insurance Company and United States Surety Company. Our underwriting companies are rated AA- (Very Strong) by Standard & Poor's and A++ (Superior) by A.M. Best Company.

Tokio Marine HCC is a leading specialty insurance group underwriting more than 100 classes of specialty insurance in approximately 180 countries. Headquartered in Houston, Texas, the company is made up of highly entrepreneurial teams equipped to underwrite special situations, companies and individuals. Tokio Marine HCC is part of Tokio Marine, a premier global company with a market cap of approximately \$30 billion.

Cross Environmental Services, Inc. is a surety client of Tokio Marine HCC - Surety Group. We understand that you are considering them for future projects. Although we have not set a maximum single bond limit, we will consider the company for payment and performance bonds of \$4,000,000 single limit within a \$6,000,000 aggregate program.

Please be advised that execution of all final bonds is subject to review and acceptance of the final contract terms, conditions, and financing by our client and Tokio Marine HCC - Surety Group at the time of each request. This letter does not guarantee the execution of any final bonds. The information contained herein is furnished as a matter of courtesy for your confidential use and is merely an expression of opinion as of the date of this letter. If you have any questions please do not hesitate to contact me at (863)316-2375.

Executive Summary

Cross Environmental Services, Inc. (“CES” or the “Company”) is a specialty environmental contractor with primary focus on abatement and demolition work. After being organized in 1988 by current President and CEO, Clyde A. Biston, CES has grown into one of the largest asbestos abatement firms in the State of Florida. From its four offices, the Company has performed and continues to pursue projects in the 12 states where licensing is maintained. Office locations include Tallahassee, FL; Ft. Walton Beach, FL; Crystal Springs, FL; and Davie, FL. The Crystal Springs, FL office serves as our corporate headquarters.

After approximately 25 years of successful operation, CES transitioned ownership from private to public in order to ensure that growth could continue uninhibited. During November 2013, CES became a wholly owned subsidiary of CES Synergies, Inc. (OTCBB: CESX). Shares of the Company are freely traded, but Mr. Biston retains a majority interest in CESX.

CES has maintained steady growth over the past 29 years by consistently creating value for customers by placing emphasis on quality and timeliness of work, as well maintaining a partnership with the customer during the course of a project. The positive reputation that CES enjoys in and around the industry is a product of that philosophy, and the credibility gained through successful completion of a number of large/key projects. Having employees aligned with the Company’s philosophy has been, and continues to be, critical to success. In recognition of that, considerable time and energy is devoted to hiring and retaining individuals with those qualities in addition to the skills and experience necessary to perform under contracts such as this.

Our in house capabilities include decades of hands-on project experience involving the design and implementation of remediation projects, asbestos/lead abatement, hazardous material removal, demolition, engineering and reconstruction. The information contained in this proposal will demonstrate to you the strength, experience and depth of CES in the areas of environmental contracting services.

CES has developed and will utilize innovative methods for the installation of specialized containment systems and the removal of asbestos containing materials. Such methods minimize the risk of environmental impact and personal exposures to construction personnel, building occupants and the general public from material contaminants.

Proposer's Management Plan

Administration and Management:

CES's approach to successfully perform this project is primarily based on the simple principle of having the necessary resources readily available.

The labor intensive nature of this type of work requires the contractor to maintain a work force large enough to perform several projects simultaneously. CES employs over 80 certified abatement workers, as well as, certified asbestos supervisors, heavy equipment operators/drivers, general laborers, and demolition supervisors; of which several are also asbestos certified and trained.

A second resource required for the successful completion of projects like that of this proposal is having and owning an adequate amount of equipment in good working condition. CES possesses equipment sufficient enough to perform a great deal of abatement and demolition at any given time. Our fleet of modern specialty demolition equipment can be mobilized on a short notice.

From the corporate office in Crystal Springs, we maintain an inventory warehouse and service equipment for both abatement (all) and demolition (limited). A third-party mechanic is located on the property for repairs not performed by CES staff. We employ several full time employees who are trained and qualified in the maintenance and repair of all of the equipment utilized in our asbestos abatement and demolition operations.

A third resource necessary for successful completion of projects is ready access to the various items of "soft inventory" (e.g. plastic sheeting, disposal bags, respirator filters, etc.). Our experience has shown us that maintaining an adequate inventory on hand rather than ordering such items as-needed gives us the ability to respond to fast-paced or even emergency projects without waiting for supplies to arrive. By way of our commitment to this concept, our inventory is in excess of \$100,000.00 at any given time.

To facilitate communication, all administrative and management staff, as well as our on-site supervisory personnel, shall carry cellular phones throughout the duration of each project. This will allow office administration, management and other personnel to communicate with any supervisor on a job-site, and allow the crews to communicate directly with the client.

A project phone directory will be provided with all cellular and emergency telephone numbers for those employees involved with this project. This will allow the client to contact any representative of CES under nearly any circumstance.

Most of our Supervisors have been employed with CES for many years and are required to have experience as a Worker and Foreman before they are trained as a Supervisor. Many of our Supervisors have more than eight years of supervisory experience.

It will be the responsibility of the Supervisor assigned to each project to familiarize his foreman and crew with the tasks that have been assigned to them. The Supervisor will assign his crew to the individual tasks before him to insure that excellent work and safety habits are maintained.

The Supervisor assigned to each project will be responsible for conducting on-site tool box safety meetings and preparation of daily logs, exposure logs, waste manifests, etc.

The Supervisor will serve as the direct point of contact on the job-site and will maintain lines of communication between the City, CES's Operations Manager and our Project Manager.

Demolition Supervisors:

Andy Sicotte
Tim Boeh

Damon Reditt
Ernie Houle

Enrique Martinez
Todd Helbring

Safety and training are an important part of our philosophy. We have an onsite Director of Safety and Health Mr. Tim Grobe whose resume is included in this submission. Our current EMR is .59 which is attributed to our efforts to educate our team members.

Another area that Mr. Grobe plays an instrumental part in planning is a site specific safety plan. He will conduct a site inspection survey to determine what is necessary to keep everyone safe.

Our full-time staff consists of over 130 employees including management and administrative professional, supervisors, operators, drivers and laborers. At CES we pride ourselves on our ability to always be able to respond to increases in workload with our in- house resources and without sacrificing safety, health or the timeliness of project completion.

Here at CES we perform a majority of our own work. On occasion we may be required to utilize sub-contractors to meet the SBE/WBE/MBE requirement of a contract. This is approximately 5% of our overall volume. All bonding is provided by our agent, Bowen, Mickette & Britt of Florida, LLC and written through United States Surety Company which is Best Rated A++, XII and has a Treasury Listing XV (\$2 Billion or greater).

Cross Environmental Services, Inc. utilizes the U.S. Department of Homeland Security's E- Verify system in accordance with the terms governing use of the system. This system is used to confirm the employment of all CES employees and subcontractors utilized by CES. Our E-Verify customer ID is 309505. CES is currently registered in the State of Florida's My Florida Market Place System. Proof of registration is included in this section of the proposal along with a State of Florida certificate of good standing.

With our firm's total resources and construction equipment & personnel, we are certain that we have the ability to self- perform all elements required within the scope of work for this contract. Based upon past project experience we feel confident in the dedication and availability of our entire project team.

**Resumes of Key Personnel:**

Clyde A. Biston, President/CEO

Cross Environmental Services, Inc.

P.O. Box 1299
Crystal Springs, FL 33524

www.crossenv.com

813.783.1688
cab@crossenv.com

Experience:

Mr. Biston is a pioneer in the environmental contracting business. He started in the construction industry in 1972 and through hard work and innovation has progressed to being an industry leader in environmental contracting services. Mr. Biston is the sole owner of Cross Environmental Services, Inc. (CES) which is the largest domestically housed asbestos abatement, lead paint remediation, interior demolition and structural demolition firm in Florida. Incorporated in February of 1988, CES has progressed from humble beginnings into a well-regarded and esteemed firm that focuses on the specialty environmental and demolition trades. Mr. Biston has a broad range of experience, some of which include large scale environmental and demolition projects.

Many of the techniques utilized in the asbestos abatement industry were developed in the field as the industry progressed. Mr. Biston helped develop or facilitated development of what currently is the industry's state of the art asbestos removal procedures. In doing so, he has also established and understands the production rates and man-hour loadings that are essential to the profitability of a project.

Mr. Biston has over 40 years' experience in the general construction and environmental contracting industry. Prior to entering the abatement profession, he operated a masonry contracting business. Subsequent to the incorporation of CES, Mr. Biston has supervised the removal of more than 40 million square feet of asbestos containing materials on projects in Florida and Georgia, as well as, many large-scale demolition and remediation projects.

Mr. Biston's experience and pioneering efforts give CES perspective and leadership that our competitors cannot aspire to.

John Tostanoski, Vice President Cross Environmental Services, Inc.

P.O. Box 1299
Crystal Springs, FL 33524

www.crossenv.com

954.583.9528
jt@crossenv.com

Experience:

Mr. Tostanoski has over forty years of experience in the environmental consulting and contracting industry, including project management, analytical testing, contamination assessment and remediation, asbestos and lead assessment and remediation, indoor air quality, expert testimony and regulatory intervention. Previous experience as President of both public and private environmental firms has included the management and responsibility of all aspects of administrative, financial, marketing, personnel, and quality oversight disciplines.

As General Manager for Cross Environmental Services, Inc., Mr. Tostanoski has been responsible for business development, operations and project management in a thirteen-county area in South Florida as well as providing administrative project oversight for multiple Parishes in Louisiana related to the ongoing Hurricane Katrina and Rita cleanup.

Mr. Tostanoski has served as a principal environmental consultant to several Fortune 500 companies, developing baseline and compliance monitoring programs, designing and performing contamination assessment and remediation, establishing hazardous waste management plans, indoor air quality surveys and monitoring, large scale asbestos surveys and abatements, industrial waste permitting and pretreatment design. He has developed and implemented several national assessment and remediation programs for major retailers regarding asbestos remediation, underground tank retrofits and removals, and groundwater remediation programs. He has served as a project manager on multiple EPA superfund site investigation and remediation projects.

Director of Safety & Health/EEO/AA Officer

Cross Environmental Services, Inc.

P.O. Box 1299
Crystal Springs, FL 33524

www.crossenv.com

813.783.1688
safetywork1@crossenv.com

Experience:

As a Certified Safety Professional (CSP) Mr. Grobe is responsible for Cross Environmental Services, Inc.'s safety program development, site inspections, training, audits and incident investigations. He has the authority to issue stop work orders to prevent mishaps for the protection of life and property. In addition to his safety, health and environmental skills he is a technical photographer and writer. He provides internal and external consultation for safety, health and the environment, and manages projects involving special or unusual hazardous materials, biological or physical hazards.

His safety and health inspections are mostly unannounced, with results passed on to other senior managers as a review of current procedures, and also to make corrective actions, Tim produces site-specific, general and special area safety and health plans which are foundations to good and proper safety actions and responses. His more than 30 years of varied industrial, institutional, university and construction site experience gives him a solid foundation of core knowledge for a company of more than 200 employees. Prior to the passage of the OSH Act of 1970 he worked as part of a disaster response team for fires, explosions, chemical releases and structural failure incidents. He is a former State of Florida Municipal Fire Inspector as well as a former Administrative Fire Chief. As part of his administrative duties, he is the company EEO/AA officer and investigates employee complaints and in many cases starts disciplinary investigations and recommends corrections, as necessary.

Tony Overstreet

Operations Manager

Cross Environmental Services, Inc.

P.O. Box 1299
Crystal Springs, FL 33524

www.crossenv.com

813.783.1688
toverstreet@crossenv.com

Experience:

Mr. Overstreet has been with Cross Environmental Services, Inc. since 1993. Initially, Tony was employed as a carpenter and within a very short time was promoted to supervisor in charge of some of CES's larger projects including, but not limited to, the Miami FAA Control Center, Louisiana Land Trust, Tampa Airport, and Saint Bernard Parish.

Tony has spent the last two years in our Louisiana office supervising and workforce of approximately 40 employees. Tony is responsible for the employee schedules, proper disposal of materials and occasional bidding. He has supervised the abatement of over 3,000 slabs and structures for the Louisiana Land Trust project working closely under Louisiana DEQ.

While working in Florida, Tony supervised the Brooksville Hospital, a 3-story abatement project that was completed while the hospital activities continued. He also worked the Tampa Airport project which covered airside A, C, D and E of over 100,000 square feet of concrete. Mr. Overstreet worked closely with the Department of Environmental Quality to ensure that all concrete from the job was recycled. He has also been a part of countless jobs on various military bases throughout the southeast region of the United States.

Technical Plan

Upon receipt of written "Task Authorization" from the City, CES will proceed with notifying the appropriate Federal, State and/or Local Agency(ies) (EPA, FDEP, County, etc.) by submitting all required notifications and documents. Pre-job submittals, pursuant to specifications, will be prepared. The Project Manager will coordinate with the Operations Manager to ensure that all necessary labor, material, and equipment are available for the project. Permits, if required, will be obtained during this period.

CES will mobilize to the job site on the date indicated on the DEP notice. The crew will be informed of any special conditions and the Supervisor shall conduct a safety meeting. The Supervisor will assign tasks to his crew. Barrier tape and warning signs will be placed to limit access to work area

Demolition Plan

PRELIMINARY ASSESSMENT

CES will provide preliminary assessments on all structures to be demolished. A project manager will conduct a site visit for each project and carefully review the Pre-Demolition Survey. The survey serves as a guide allowing CES Project Manager to cover all regulatory and technical bases for our customers. Upon completion of the Pre-bid Survey, CES will proceed with demolition prep work for the project. This includes filing the required NESHAP notice with the appropriate government entities. Procurement of demolition permits, including septic tank, well abandonment, plumbing, and electrical.

UNDERGROUND UTILITY DEMOLITION

Subsequent to permit procurement, underground utilities will be abandoned in accordance with the City Requirements. Specifically, we will isolate the potable water supply at the locations requirements. Potable water lines will be cut and capped and left intact 18 inches below grade. Some potable feeder lines will require hand excavation so they can be exposed and abandoned. These feeder lines are generally in close proximity to structures that are to remain. Sanitary sewer lines will be cut and capped as required. Subsequent to being cut and capped sanitary sewer lines will be abandoned in place

BULBS, BALLAST, & MERCURY CONTAINING DEVICES

Our forces will remove all waste fluorescent bulbs and PCB containing ballasts prior to any demolition activities. Removal of waste bulbs and mercury containing devices will be completed in accordance regulations. All material will be manifested and transported for recycling by Lighting Resources of Ocala, FL. CES is duly licensed by the State of Florida as a Small Quantity Handler Facility for Universal Waste Lamps and Devices.

FREON REMOVAL

Prior to demolition, CES will remove Freon gases and oils from air conditioning units. All materials will be removed in accordance with State of Florida regulations. After extraction the Freon and compressor oils will be filtered and containerized for reuse at a recycling facility.

ASBESTOS ABATEMENT

If the pre demolition survey identifies asbestos CES would follow our abatement protocol. Installation of critical barriers, negative air/exhaust piping to building exterior. Set-up decon as required, micro monitor, temporary electric and lighting. Install 2 layers of 6 mil poly for friable materials or 1 layer for non-friable material.

Asbestos Removal:

- Wet work areas and begin gross removal of asbestos containing materials.
- Perform OSHA personnel monitoring; bag asbestos debris simultaneously with removal.
- Clean work areas where asbestos has been removed
- Remove first layer of poly
- Load out waste material
- Final clean
- Second stage final clean
- Visual inspection performed by consultant,
- Encapsulate
- Final air testing performed by consultant.
- Receive clean air results

Asbestos Disposal

All materials found to be asbestos containing will be double bagged (two layers) and transported to a facility designated to receive such waste materials. Non-hazardous construction debris will be contained in a customary, industry-accepted, manner and delivered to an appropriate waste facility. Transportation of both types of material will be accomplished using CES-owned vehicles and equipment, so that all Waste Shipment Records will be available at nearly any time.

Care will be taken to ensure that any non-hazardous concrete and metal will be recycled.

Demobilization

Clean work area, tear down decon unit. Remove field personnel and equipment. Clean and inspect work area/perform walk-through inspection. Preparation of Post-Job Submittals and Invoice to follow.

The most common potential problems that may arise on the job site are water leaks and airborne fiber contamination. We take precautions and perform extra steps to avoid such problems, but in the event these problems do arise we will follow the steps/procedures outlined in our contingency plan to resolve them.

DEMOLITION

Demolition of structures will be facilitated by utilizing a tracked hydraulic excavator that has been specially equipped for demolition. In addition, CES will provide support equipment on an as needed basis. Equipment will be dispatched on an as needed basis depending on the size and complexity of task authorization.

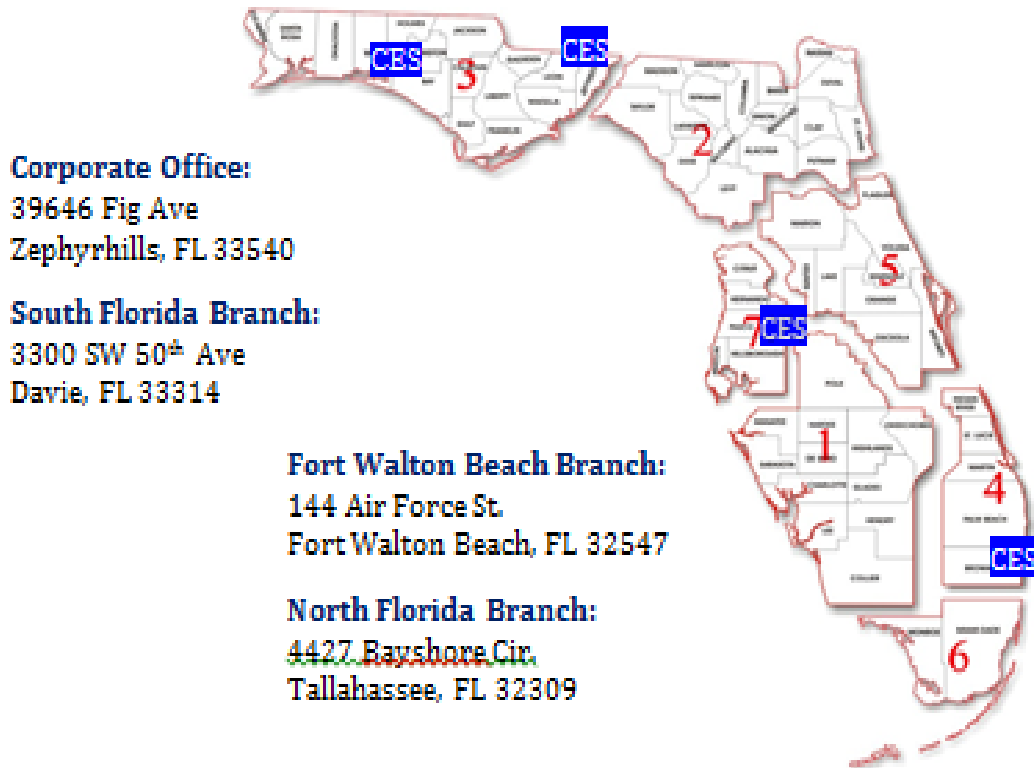

Structures will be conventionally wrecked. Construction and demolition debris will be processed and reduced in volume to minimize loads. All construction and demolition debris will be removed from the job site via roll off or semi dump trailers. Debris will be transported and lawfully disposed of at a state registered construction and demolition debris landfill.

Upon removal of construction and demolition debris, concrete decks, footings, floors, and driveways will be removed. Concrete materials will be processed on site to the extent possible and transported to a concrete recycling facility.

Subsequent to concrete removal, lots will be raked with the excavator and graded to a reasonable extent. Grading may substantially level the lot, however the process is designed to eliminate holes and excavation that could be deemed an attractive nuisance.

Facility Capabilities:

Our corporate office consists of approximately 12,000 square feet of office & warehouse and approximately 6 acres of yard & laydown area which houses a complete inventory of asbestos abatement supplies, materials and equipment and in excess of 100 pieces of heavy demolition equipment, and 80 trucks, vehicles & trailers.

Demolition Equipment:

#	Excavators
2	Caterpillar 320L w/ grappler
1	Case 888 w/ thumb
4	Linkbelt Q2700 w/ thumb
1	Caterpillar 312 w/ thumb
