Andria, if you are still working on the backup, please include the attached. If not please accept as to further my submission.

The Applicant has placed their meeting notice sign, behind a trashcan under the canopy. I do not believe this constitutes posted notice, as this cannot be seen by ANY right of way.

In addition, attached please find photographs of Dr. Locks fixing the front door of the building. This area is the ONLY location where deliveries are made, and is constantly in use. An attempt to share this entry with school traffic is impossible.

Regards, Keith
