TO PROVIDE ARCHITECTURAL DESIGN SERVICES
TO THE CITY OF HOLLYWOOD**

I. INTRODUCTION:

The City's voters recently approved a General Obligation Bond, which included funding to renovate the Hollywood Beach Golf and Country Club. The championship par-70 18 hole course designed by renowned architect Donald Ross in 1924 is located at 1650 Johnson Street. The 104 acre parcel is bounded to the east by N 14th Ave, to the west by N 17th Ave, to the north by Johnson Street and to the south by Polk Street.

This RFQ is for an Architect of Record to create an overall Site Development or Master Plan, Site Plan, Design Development, Construction Plans and Specifications and Architectural Services during construction.

The subconsultants scope may include but not be limited to Planning, MEP Engineering, Structural Engineering, Civil Engineering, Landscape Architecture, Survey Services, Geotechnical Engineering and Testing, and Environmental Testing.

II. SCOPE OF SERVICES:

The intent of this "Request for Qualifications" is for the City to enter into a contract with an architectural firm to provide complete architectural and engineering design services for the new Hollywood Beach Golf Course Clubhouse, perimeter path and its accessory buildings within the parcel. The contract term will be for the duration of the design and construction phase of the project, until project close out, estimated to be approximately 60 months.

The golf course is in need of improvement and realignment as required to accommodate the new clubhouse location in the southwest corner of the property. Course work will include drainage, irrigation system, putting greens, tee boxes, fairways, bunkers and cart paths. The clubhouse should be approximately 6,000 square feet incorporating a pro shop, dining room and meeting room. Code requires that a building of this size be green certified. The City would like to achieve the highest rating possible for a facility of this type.

A new parking lot would need to be constructed. A separate maintenance building of 5,000 square feet and a new cart barn of 5,000 square feet will also be constructed. A remote restroom building will also be included.

The Architectural Consultant shall meet with City staff to obtain background information and define the specific scope of services for each individual proposed project.

The Consultant shall not proceed with work on any assignment without written authorization from the City. This work authorization will stipulate the fees and time schedule for each phase of the project. The assignment of projects will be determined solely by the City, in keeping with the City's best interest and are only related to the Hollywood Beach Golf Clubhouse construction.

The types of consulting services to be performed can include, but shall not be limited to the following:

- Develop preliminary schedules, drawings and cost estimates showing the proposed improvements for review and approval by City staff. Any revisions will then be incorporated in the final set of construction drawings and specifications. Progress reviews may be required at the 50%, 90%, and 100% design stage.
- Provide the necessary architectural consulting services to complete the project identified.
- Prepare and submit signed and sealed construction drawings to the Hollywood Building Division and any other applicable agencies for review and make any revisions required for the issuance of a building permit.
- Provide the construction documents necessary to bid the project identified, in accordance with City requirements, and assist the City in the bidding and bid review process. Drawings are typically requested in AutoCAD, and the technical specifications in CSI format.
- Just prior to bidding, the Consultant shall provide a detailed final cost estimate for the aspects of the project for which the firm is responsible.
- Participate in the construction administration of a project on an as-needed basis determined by the City, providing services such as submittal review, attending pre-bid conferences, pre-construction conferences and weekly construction meetings, conducting daily field observations, resolving on-site problems and answering technical questions as construction progresses, handling change orders and performing payment request reviews.
- Upon completion of construction, deliver to the City one set of reproducible "As-Built" drawings, incorporating into the permit plans all permit and field revisions, and specifications, along with electronic copies on computer disks, incorporating any changes that were made during the construction process.

III. CLARIFICATIONS:

Upon obtaining all necessary approvals of the Construction Documents, and approval by the City of the latest Statement of Probable Construction Cost, the Consultant shall assist the City, where applicable, in obtaining bids and awarding construction contracts or coordinating with the Construction Manager for same.

- b. The Consultant shall prepare addenda, if any are required, for the City to issue to all prospective bidders. No addendum shall be issued without the City's approval.
- c. The Consultant shall be present at the bid opening, with the City's representatives.

- c. Direct the Consultant to revise the Project scope or quality, or both, as approved by the City, and rebid the Project, or

d. Suspend or abandon the Project.

NOTE: Under item (3)c above the Consultant shall, without additional compensation, modify the Construction Documents as necessary to bring the Probable Construction Cost within the budgeted amount. The providing of such service shall be the limit of the Consultant's responsibility in this regard, and having done so, the Consultant shall be compensated in accordance with this Agreement. The City may recognize exceptional construction market cost fluctuations before exercising option (3)c above.

It is agreed that any "Statement of Probable Construction Cost" or Detailed Cost Estimate prepared by the Consultant or the Construction Manager (if applicable) represents a reasonable estimate of cost in the Consultant's or Construction Manager's best judgment as a professional familiar with the local construction industry, and that neither the Consultant, Construction Manager nor the City, has any control over the cost of labor, materials, and equipment, bidders' methods of determining bid prices, competitive bidding, or market conditions. Therefore, the Consultant cannot and does not guarantee that bids will not vary from the final Statement of Probable Construction Cost or Detailed Cost Estimate prepared by the Consultant or Construction Manager, if applicable.

If the Latest Statement of Probable Construction Cost exceeds the budgeted amount, the Consultant shall review the materials, equipment, component systems and types of construction included in the Contract Documents and may recommend changes in such items and/or reasonable adjustments in the scope of the Project (to be made at no additional cost to the City) that will result in bids within the available funds.

Evaluations of the City's Project budget, preliminary estimates of construction cost and detailed estimates of construction cost prepared by the Consultant or Construction Manager (if applicable) represent the Consultant's or Construction Manager's best judgment as a professional familiar with the construction industry. Prior to authorizing the Consultant to proceed with preparation of the Final Design, the City may establish and communicate to the Consultant a maximum sum for the cost of construction of the Project ("Construction Budget"). If the City has not advertised for bids within ninety (90) days after the Consultant submits the Final Design to the City, the estimate of the cost of construction may be adjusted. The Consultant cannot and does not guarantee that bids or negotiated prices will not vary from any estimate of construction cost or evaluation prepared or agreed to by the Consultant. Notwithstanding anything above to the contrary, the City may require the Consultant to revise and modify Construction Documents and assist in the re-bidding of the Work at no additional cost to the City if all responsive and responsible bids received exceed the Construction Budget.

2.01E Phase V – Administration of the Construction Contract:

On the basis of on-site observations, the Consultant shall endeavor to guard the City against defects and deficiencies in the work. The Consultant will not be required to make extensive inspections or provide continuous daily on-site inspections to check the quality or quantity of the work unless otherwise set forth in this Agreement.

The Consultant will not be held responsible for construction means, methods, sequences or procedures, or for safety precautions and programs in connection with the Work, nor will the Consultant be held responsible for the Contractor's or Subcontractors', or any of their agents' or employees' failure to perform the Work in accordance with the Contract Documents.

The Consultant and the Subconsultants shall ascertain that the Contractor is making timely, accurate, and complete notations on the "as-built" drawings.
- 5) Based on observations at the site and consultation with the Project Manager, the Consultant shall determine the amount due the Contractor on account and shall recommend approval of such amount. This recommendation shall constitute a representation by the Consultant to the City that, to the best of the Consultant's knowledge, information and belief, the Work has progressed to the point indicated and the quality of the Work is in accordance with the Contract Documents subject to:
- a. An evaluation of the Work for conformance with the Contract Documents upon Substantial Completion.
 - b. The results of any subsequent tests required by the Contract Documents.
 - c. Minor deviations from the Contract Documents correctable prior to completion.
 - d. Any specific qualifications stated in the Payment Certificate and further that the Contractor is entitled to payment in the amount agreed upon at the requisition site meeting.

By recommending approval of a Payment Certificate, the Consultant shall not be deemed to represent that the Consultant has made any examination to ascertain how and for what purpose the Contractor has used the money paid on account of the Construction Contract Sum.

- 6) The Consultant shall be an interpreter of the requirements of the Contract Documents and the judge of the performance thereunder. The Consultant shall render interpretations necessary for the proper execution or progress of the Work with reasonable promptness on written request of either the City or the Contractor,

and shall render written decisions, within a reasonable time, on all claims, disputes and other matters in question between the City and the Contractor relating to the execution or progress of the work or the interpretation of the Contract Documents.

- 7) Interpretations and decisions of the Consultant shall be consistent with the intent of, and reasonably inferable from, the Contract Documents and shall be in written or graphic form. In the capacity of interpreter, the Consultant shall endeavor to secure faithful performance by both the City and the Contractor, and shall not show partiality to either.
- 8) The Consultant shall have authority to recommend rejection of work which does not conform to the Contract Documents. Whenever, in the Consultant's reasonable opinion, it is necessary or advisable to insure compliance with the Contract Documents, the Consultant will have authority to recommend special inspection or testing of any work deemed to be not in accordance with the Contract, whether or not such work has been fabricated and delivered to the Project, or installed and completed. The Consultant shall provide such normal mechanical, electrical, structural, landscape or other related inspection expertise as necessary to determine compliance with the Construction Contract.

The Consultant shall prepare color boards or illustrative renderings to review the color selections, landscape/lighting/hardscape site furniture, material palette, for all finish materials with the Director of the Department of Development Services and furnish the approved colors to the Contractor in a timely manner so as not to delay the construction progress. Changes or substitutions to the Contract Documents shall not be authorized without concurrence of the Project Manager.
- 10) The Consultant shall initiate Change orders for the City's approval as required by the Consultant's observations, or requested by the City; and review and recommend action on proposed Change Orders within the scope of the Project initiated by others.
- 11) The Consultant shall examine the Work upon receipt of the Contractor's Request for Substantial Completion Inspection of the Project and shall, prior to occupancy, recommend execution of a Certificate of Acceptance for Substantial Completion after first ascertaining that the Project is substantially completed in accordance with the contract requirements. A punch list of any defects and discrepancies in the Work required to be corrected by the Contractor shall be prepared by the Consultant and the Subconsultants in conjunction with representatives of the City, and satisfactory performance obtained thereon before the Consultant recommends execution of a Certificate of Final Acceptance and final payment to the Contractor. The Consultant shall obtain from the Contractor all guarantees, operating and maintenance manuals for equipment, releases of claims and such other documents and certificates as may be required by applicable codes, laws, and the specifications, and deliver them to the City.
- 12) The Consultant shall provide assistance in obtaining the Contractor's compliance with the Contract Documents relative to 1) initial instruction of CITY's personnel in the operation and maintenance of any equipment or system, 2) initial start-up and testing, adjusting and balancing of equipment and systems and 3) final clean-up of the Project.
