DATE: April 12, 2016

FILE: CID 16-17

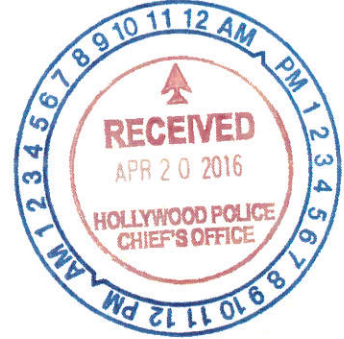

TO: Tomas Sanchez
Chief of Police

FROM: Lieutenant Jeff Devlin
SWAT Commander

J. Devlin #2622

VIA: CHAIN OF COMMAND

SUBJECT: Replacement of Swat Vests and Rifle Plates

ISSUE: Replacement of 30 expired tactical vests and 30 rifle plates used to provide ballistic protection to SWAT personnel.

EXPLANATION:

The Hollywood SWAT Team is utilized in various high risk situations, to include the following: hostage rescue, anti-sniper protection, barricaded persons, dignitary protection, active shooter, warrant service, building entry, and the protection of the Field Force in times of civil disturbance. The SWAT Team has also been utilized to execute high-risk search warrants for Federal, State, and local jurisdictions as well as provide support to the Regional Domestic Security Task Force.

In order to maintain the highest level of Officer safety when engaged in high-risk operations, SWAT personnel are equipped with a Level IIIA Tactical Vest and Level III Plus Rifle Plate. Standard body armor is only designed to stop handgun ammunition. The Level IIIA Tactical Vest, with III Plus Rifle Plate, is designed to stop most rifle rounds. This level of protection is necessary when SWAT personnel are deployed in high-risk situations. The ballistic vests the SWAT Team is currently using are due to expire by October 2016.

Sergeant Paul Laskowski and Officer Charles Burrows conducted tests and analysis on numerous different vests. After careful consideration of three different companies, the Paraclete Vest was determined to be the most complete vest on the market, to fit the SWAT Team's diverse tactical needs. The other vests tested, the Titan Assault Vest with Advanced Webless System by Protech and the Atlas T7 Full Coverage vest by Gatorhawk, although very similar in design and performance, did not have the bushido COBRA HALO quick release cummerbund system which allows for an easier and faster donning and doffing of the tactical vest in an emergency situation. This feature enhances Officer safety, particularly the ability to quickly shed the vest if the Officer is suddenly submerged in a body of water and in a potential drowning situation, a hazard

4/20/16 CS

routinely faced year round by South Florida Officers, i.e. pools, lakes, the Intercostal Waterway and Ocean. The previous mentioned vests are also not available in gray, the Team's preferred color. The Paraclete Vests are equipped with the bushido COBRA HALO quick release cummerbund system, a strong, ballistic neck collar, bicep protection, and groin plate for extra Officer protection. The vests are designed with an extended ballistic side and vertical wrap, which allows one size to fit a small or large Officer. SWAT Team Members also found the overall comfort of the Paraclete Vests to be superior to that of the other vests tested. Federal Eastern International is the vendor providing the vest and rifle plates under State of Florida contract Number: 680-850-11-1. The company is able to produce and deliver the vests in a 4 to 5 week timetable.

RECOMMENDATION:

I respectfully request the approval to purchase 30 Paraclete FTOC KXP IIIA Ballistic vests and 30 Paraclete Speed Plate Plus 10X12 SC SC stand-alone Rifle Plates utilizing LETF Funds. The total cost of the items requested is \$72,590.00.
