

RESOLUTION NO. R-2025-223

A RESOLUTION OF THE CITY COMMISSION OF THE CITY OF HOLLYWOOD, FLORIDA, APPROVING IMPLEMENTATION OF LONG-TERM LARGE CAPITAL IMPROVEMENT PROJECTS, URGENT INTERIM CAPITAL IMPROVEMENT PROJECTS, AND ADDITIONAL RENEWAL AND REPLACEMENT PROJECTS PER THE STORMWATER MASTER PLAN APRIL 16, 2025, IMPLEMENTATION WORKSHOP.

WHEREAS, the Public Utilities Department ("Department") owns and maintains the City's complex stormwater system that includes catch basins, drainage pipes, exfiltration trenches, outfalls, swales, retention ponds, and stormwater pump stations; and

WHEREAS, the Department plans, improves, maintains, operates, and repairs this system to safeguard public health and safety; and

WHEREAS, a Stormwater Master Plan ("SWMP") is necessary to: effectively comply with regulatory requirements at federal, state, county, and local levels; address sea level rise and storm surge concerns; provide a high level of service to residents; accommodate growth and economic development; and protect public health, safety, and the environment; and

WHEREAS, to most effectively and efficiently fulfill these responsibilities, the Department has developed an updated SWMP; and

WHEREAS, the SWMP includes long-term large capital improvement projects ("CIP"), urgent interim CIP projects, and additional Renewal and Replacement ("R&R") projects per the Stormwater Master Plan Implementation Workshop on April 16, 2025; and

WHEREAS, a key component of the Interim Stormwater Project budget is the strategic allocation of funding for fast-tracked infrastructure needed to bridge the gap between the SWMP and other major City of Hollywood capital initiatives; and

WHEREAS, high-priority projects, such as those under the City's General Obligation Bond ("GOB") program or funded through competitive grants, are moving forward on independent schedules; and

WHEREAS, without early stormwater intervention, these projects risk worsening flooding in areas lacking infrastructure; and

WHEREAS, to address this, the SWMP includes provisions for expedited design and construction of interim stormwater projects that offer essential flood protection and integrate into the future permanent system; and

WHEREAS, these improvements are intended to reduce near-term flood risk and allow City projects to proceed safely and efficiently; and

WHEREAS, to support these efforts, \$10 million of the \$75 million Interim Project budget is allocated to fast-tracked projects and enables the City to:

- Align stormwater upgrades with GOB and grant-funded timelines
- Prevent flood hazards from premature surface development
- Avoid stranded investments by ensuring SWMP compatibility; and

WHEREAS, this approach demonstrates the City's commitment to coordinated infrastructure, fiscal responsibility, and proactive flood mitigation in vulnerable areas; and

WHEREAS, long-term large CIP projects include:

1. North and South 14th Ave Corridor:
 - D1-3 Hollywood Lakes South (Moffett Neighborhood)
 - D1-7 Hollywood Lakes North (Eco GC Neighborhood)
 - D1-5 Hollywood Lakes Central (N&S of Hollywood Blvd)
 - D1-4 Hollywood Lakes South Lake
 - D1-6 Hollywood Lakes North Lake
2. D2-1 Oakwood Hills (Liberia Neighborhood)
3. D3-2 North Central South (Sunset Park Neighborhood)
4. D3-1 North Central North (Phase I - West); and

WHEREAS, urgent interim CIP projects include:

1. D1 SW08/SW07 and Discharge Pipe Improvements (Moffett Area)
2. D1 HBCG Stormwater Pipe and Swale Improvements (East Johnson, Grant, Hayes, N. 14th Avenue)
3. D1 Eco Grande GC Stormwater Ditches (Taft, Harding, Coolidge, Scott)
4. D1 Arthur St and W Lake Park Entry Dr Backflow Valves (Hollywood Lakes North)
5. D1 East Washington Street Stormwater Pipe Outfall Connection
