SCOPE OF WORK

1. CONSULTANT shall provide to CITY professional engineering (including design, planning, permit application and construction administration) services in all phases of the work to which this Agreement applies.
2. The exact nature and magnitude of the required professional services cannot be defined precisely at the time of entering into this Agreement. The services to be performed by CONSULTANT will be set forth in the scope of services described in Work Orders to be issued by CITY from time to time.
3. The services to be provided by CONSULTANT are generally described herein. The CITY reserves the right to add or delete component parts when preparing Work Orders or to issue work in phases. The Work Orders, as issued, represent the entire scope of services between CITY and CONSULTANT.
4. Work to be performed under this contract will be authorized on a case-by-case basis through the issuance of individual Work Orders. A detailed scope of services will be incorporated into each Work Order. A written Work Order shall be issued approving a proposal for any Work Order under this Agreement. Work Orders shall be considered part of this agreement, and will be appended hereto.
5. At the CITY's Request for Proposal, CONSULTANT shall provide a written description of services proposed to be provided under a Work Order. CONSULTANT shall respond to Requests for Proposal in a timely manner.
6. CONSULTANT's Work Order Proposal shall be based on the CITY's Request for Proposal, discussions with CITY's staff, CONSULTANT's knowledge of similar work, local conditions, and field investigations. As a minimum, the proposal shall consist of a background of problem, scope of work, schedule and cost of services. To the extent applicable, CONSULTANT's Proposal shall be prepared substantially in accordance with this Agreement. The Work Order proposal shall provide comments on the scope of services, as well as a detailed staff hour estimate where appropriate, a fee proposal in standard format, and support for all costs contained in the fee proposal. The supporting information must be adequate to determine a factual basis for all costs contained in the proposal.
7. Sufficient documentation must be provided with the fee proposal to support the basis for all proposed direct expenses. Written quotes from vendors, invoices reflecting prices paid on previous purchases, copies of catalog pages, etc. may be used as support for the proposed prices. Verbal quotes from vendors may be acceptable if adequate supporting documentation (name and telephone numbers of the person furnishing the price quote) is provided. The acquisition of any individual item costing more than \$1,000 shall be supported by at least two quotes, when competition exists.
8. Each Work Order shall be subject to a separate written "Notice to Proceed" to be issued by CITY. Work shall not commence until issuance of the appropriate written "Notice to Proceed."
9. An amendment to a Work Order must be completed if the project schedule, project scope or the construction budget is changed. This document will also be used to authorize additional services if required.
10. Services by Consultant's Own Staff: The services to be performed hereunder shall be performed by CONSULTANT's own staff, unless otherwise authorized in writing by the CITY. The employment of, contract with, or use of the services of any other person or firm by CONSULTANT, as independent consultant or otherwise, shall be subject to the prior written approval of the CITY. No provision of this Agreement shall, however, be construed as constituting an agreement between the CITY and any such other person or firm. Nor shall anything contained herein be deemed to give any such party or any third

party any claim or right of action against the CITY beyond such as may otherwise exist without regard to this Agreement.

11. CONSULTANT shall cooperate with CITY, its designees, and Contractor in furthering the interests of CITY.

12. The fees for Professional Services for each Authorization to Proceed shall be determined by one of the following two methods or a combination thereof, as
