Re: Relocation of existing Hotwire Communications aerial facilities for the City of Hollywood project: Phase IV Undergrounding of Overhead Utilities. Rev 08-22-2022

Scope of Work:

Relocate to underground approximately 2180' of existing Hotwire Communications aerial facilities, existing in two aerial sections. This proposed work is along S Ocean Dr, and between Harrison St and Magnolia Terrace, in the City of Hollywood, FL. This proposed relocation is required by the City of Hollywood project and triggered by the City project: Phase IV Undergrounding of Overhead Utilities.

Refer to "Exhibit A - Hotwire Communications 06.21.22 - Phase IV Undergrounding of Overhead Utilities" for a sketch depicting the proposed work recommended to maintain the existing functionality.

The estimated cost for design and permits is \$9,063.60, and the estimated cost for construction and cutovers is **\$86,340.40**, for a total of \$95,404.00,

Sincerely,

A handwritten signature in black ink, appearing to read "Elena M. Fabra Estefan", written over a horizontal line.

Elena M. Fabra Estefan, P.E.
