Minimum Installation Fee of \$1,000.00

Installation is calculated based on retail list price of equipment, then discounted.

Example Installation Calculation in Alabama, \$50,000.00 retail list price equipment multiplied by .35 = \$17,500.00 multiplied by discounted rate .95 = \$16,625.00 net discounted installation price.

Installation rates do not include site preparation and assume a fully prepared and ready site inclusive of a level dirt site, free of overhead and underground obstacles and in the case of surface mount equipment, the prepared concrete slab.

Installation rates do not include offloading equipment, storage, security, bonds or permits.

Installation rates assume free and clear access for vehicles.
