Any such dispute shall be brought, if at all, before the City Manager within 10 days of the occurrence, event or act out of which the dispute arises.

The City Manager may base this decision on such assistance as may be desirable, including advice of experts, but in any event shall base the decision on an independent and objective determination of whether Contractor's performance or any Deliverable meets the requirements of the Agreement and any specifications with respect thereto set forth herein. The effect of any decision shall not be impaired or waived by any negotiations or settlements or offers made in connection with the dispute, whether or not the City Manager participated therein, or by any prior decision of others, which prior decision shall be deemed subject to review, or

by any termination or cancellation of the Agreement. All such disputes shall be submitted in writing by the Contractor to the City Manager for a decision, together with all evidence and other pertinent information in regard to such questions, in order that a fair and impartial decision may be made. The parties agree that whenever the City Manager is entitled to exercise discretion or judgment or to make a determination or form an opinion pursuant to the provisions of this Article, such action shall be deemed fair and impartial when exercised or taken. The City Manager shall render a decision in writing and deliver a copy of the same to the Contractor. - B. Nothing in the Agreement shall be construed for the benefit, intended or otherwise, of any third party that is not a parent or subsidiary of a party or otherwise related (by virtue of ownership control or statutory control) to a party.
- C. In those situations where the Agreement imposes an indemnity or defense obligation on the Contractor, the City may, at its expense, elect to participate in the defense if the City should so choose. Furthermore, the City may at its own expense defend or settle any such claims if the Contractor fails to diligently defend such claims, and thereafter seek indemnity for costs and attorney's fees from the Contractor.

1.60 SUBCONTRACTUAL RELATIONS

- A. If the Contractor will cause any part of the Agreement to be performed by a subcontractor, the provisions of this Contract will apply to such subcontractor and its officers, agents and employees in all respects as if it and they were employees of the Contractor; and the Contractor will not be in any manner thereby discharged from its obligations and liabilities hereunder, but will be liable hereunder for all acts and negligence of the subcontractor, its officers, agents, and employees, as if they were employees of the Contractor. The services performed by the subcontractor will be subject to the provisions hereof as if performed directly by the Contractor.
- B. The Contractor, before making any subcontract for any portion of the services, will state in writing to the City the name of the proposed subcontractor, the portion of the Services which the subcontractor is to do, the place of business of such subcontractor, and such other information as the City may require. All subcontractors are required to protect the confidentiality of the City and City's proprietary and confidential information. Contractor shall furnish to the City copies of all subcontracts between Contractor and subcontractors and suppliers hereunder. Within each such subcontract, there shall be a clause for the benefit of the City permitting the City to request completion of performance by the subcontractor of its obligations under the subcontract, in the event the City finds the Contractor in breach of its obligations, and the option to pay the subcontractor directly for the performance by such subcontractor. Notwithstanding, the foregoing shall neither convey nor imply any obligation or liability on the part of the City to any subcontractor hereunder as more fully described herein.
- F. Contractor is solely responsible for all acts and omissions of its Subcontractors. Nothing in the Contract Documents creates any contractual relationship between any Subcontractor and the City. Contractor is responsible for the timely payment of its Subcontractors and suppliers as required by Florida Statute Chapter 218.735. Failure to comply with these payment requirements will place the Contractor in default of the Contract.
- G. Contractor shall utilize the Subcontractors identified in its Bid and shall not replace, add or substitute any Subcontractors without the prior written approval of the Project Manager.

Until the City receives such assurances the City may request an adjustment to the compensation received by the Contractor for portions of the Services which the Contractor has not performed. In the event that the Contractor fails to provide to the City the requested assurances within the prescribed time frame, the City may:

1. Treat such failure as a repudiation of the Agreement;
 2. Resort to any remedy for breach provided herein or at law, including but not limited to, taking over the performance of the Services or any part thereof either by itself or through others.
- C. In the event the City shall terminate the Agreement for default, the City or its designated representatives may immediately take possession of all applicable equipment, materials, products, documentation, reports and data.

In the event the City is required to reduce contract costs due to budgetary constraints, all services specified in this document may be subject to a permanent or temporary reduction in budget. In such an event, the total cost for the affected service shall be reduced as required. The Contractor shall also be provided with a minimum 30-day notice prior to any such reduction in budget.

Pursuant to the requirements of Section 255.05(1)(a), Florida Statutes, as may be amended from time to time, Contractor must ensure that the bond(s) referenced above must be recorded in the public records and provide City with evidence of such recording.

Alternate Form of Security:

A surety company that is rejected by the City may be substituted by the Bidder with a surety company acceptable to the City, only if the Bid amount does not increase.

2.13 CONTRACT TERM

The prices and conditions stated in this Bid shall be in effect for a period of three (3) years from the date of the issuance of a letter of award, or date of executed contract, whichever is later, and may be renewed for two (2) additional years on a year to year basis, unless Contractor is otherwise notified by the City. Any extension to this Agreement shall be in writing. The City Manager is authorized to extend or terminate this Agreement on behalf of the City.

2.14 SITE INVESTIGATION AND REPRESENTATION

It is the responsibility of the Contractor to satisfy itself as to the nature and location(s) of the Work under a Work Order prior to commencement of Work on a Project, the general and local conditions, particularly those bearing upon availability of installation, transportation, disposal, handling and storage of materials, and all other matters which can in any way affect the Work or the cost thereof under the Contract Documents.

Work site(s) may have existing utilities, such as, but not limited to, irrigation, phone, water and sewer, CATV, traffic signals, electrical, and storm sewer. Known utilities and structures adjacent to or encountered in the Work will be shown on the Drawings, if any. The locations shown are taken from existing records and the best information available from existing plans and utility investigations; however, it is expected that there may be some discrepancies and omissions in the locations and quantities of utilities and structures shown. Those shown are for the convenience of the Contractor only, and no responsibility is assumed by the City for their accuracy or completeness. No request for additional compensation or Contract time resulting from encountering utilities not shown will be considered.

It is the responsibility of the Contractor to verify the location of all such utilities, structures, etc., by hand excavation or other appropriate measures before performing any Work. The Contractor shall call Sunshine State One Call of Florida, Inc. and other appropriate agencies, as applicable, prior to the commencement of any excavation or digging to determine the locations of existing utilities prior to the commencement of any Work. The Contractor shall be responsible for any and all claims resulting from the damage caused to any utilities, identified or not.

Should the Contractor identify any utilities, structures, etc., which will or may be encountered during the performance of the Work, the City must be consulted immediately in order for a decision to be made on the potential relocation or other action(s) to be taken as it relates to the work.

Should the City direct the Contractor to relocate any utilities that would be impacted by any Work then the City shall compensate the Contractor for such relocation in accordance with the Change Order provisions of the Contract.

The Contractor shall not purposefully disrupt or disconnect any type of utility whatsoever without first obtaining the prior written approval of the City or applicable utility owner. Requests for any disconnection, including those required of other utilities shall be in writing and received by the City at least seventy-two (72) hours prior to the time of the requested interruption. The City may require that the Contractor notify, in writing, any property owners to be impacted by service interruptions to their utilities.

Any failure by the Contractor to familiarize itself with any utilities that may impact the performance of the Work shall not relieve Contractor from responsibility for properly estimating the difficulty or cost of performing the Work and will not entitle the Contractor to any additional compensation.

2.15 CONTRACTOR TO CHECK PLANS, SPECIFICATIONS AND DATA

Contractor shall verify all dimensions, quantities and details shown on any plans, specifications or other data received from Project Manager and must notify the Project Manager of all errors, omissions and discrepancies found therein within three (3) calendar days of discovery. Contractor shall not be allowed to take advantage of any error, omission or discrepancy, as full instructions will be furnished to the Project Manager. Contractor shall not be liable for damages resulting from errors, omissions or discrepancies in the Contract Documents unless Contractor recognized such error, omission or discrepancy and knowingly failed to report it to Project Manager.

2.16 METHOD OF PERFORMING THE WORK

The apparent silence of the Contract Documents as to any detail, or the apparent omission from them of a detailed description concerning any Work to be done and materials to be furnished, shall be regarded as meaning that only the best general practice is to prevail and that only material and workmanship of the best quality is to be used, and interpretation of the Contract Documents shall be made upon that basis.

Contractor must comply with the manufacturer's applicable instructions and recommendations for the performance of the Work, to the extent that these instructions and recommendations are more explicit or more stringent than requirements indicated in the Contract Documents or applicable Work Order.

The Contractor must familiarize itself with normal City's operations where the Work is to be performed so that it can conduct the Work in the best possible manner to the complete satisfaction of the Project Manager.

The Work to be performed shall be done in such a manner so as not to interfere with the normal City operations. The manner in which the Work is performed will be subject to the approval of the Project Manager, whom if necessary, shall have the authority to require changes in the manner in which the Work is performed. There must be no obstruction of City services without the prior written approval of the Project Manager. All requests for such interruption or obstruction must be given in writing to the Project Manager twenty-four (24) hours in advance of the interruption of City operations.

If the Project Manager or Consultant reasonably determines the rate of progress of the Work is not such as to ensure its completion within the designated completion time, or if, in the opinion of the Project Manager, the Contractor is not proceeding with the Work diligently or expeditiously or is not performing all or any part of the Work according to the Project schedule accepted by or determined by the Project Manager, the Project Manager shall have the right to order the Contractor to do either or both of the following: (1) improve its work force; and/or (2) improve its performance in accordance with the schedule to ensure completion of the Project within the specified time. The Contractor must immediately comply with such orders at no additional cost to the City. (3) The City at its sole option may also have Work performed by a third party contractor and deduct such cost from any monies due the Contractor.

Contractor is responsible to control dust and prevent it from becoming a public nuisance or causing off-site damage. Contractor must take all necessary and prudent measure to control dust.

2.17 SHOP DRAWINGS AND SUBMITTALS

Contractor may be required, based on the Scope of Work of a Project, to submit shop drawings, sketches, samples or product data. A Work Order may state if shop drawings or other submittals are required if they are not required by the Building Code or regulatory agencies.

Contractor shall responsible to submit such documents or samples in a timely manner for review by the Project Manager. Shop Drawings are to be complete in every detail and clearly identify any deviation from what is required by the Work Order. It is the responsibility of the Contractor to submit sufficient information to allow the Project Manager to properly evaluate and accept the submittal or shop drawing. Receipt of the shop drawings or submittals does not constitute acceptance.

Where professional calculations or certification of performance criteria of materials, systems, and or equipment are required, the Project Manager or Consultant are entitled to rely upon the accuracy and completeness of such calculations and certifications submitted by the Contractor. Calculations, when required, shall be submitted in a neat clear and easy format to follow.

Contractor shall be solely responsible for the accuracy of all shop drawings and submittals and any approval by Project Manager will in no way relieve the Contractor from said responsibility for full compliance with the Contract Documents.

2.18 SUBSTITUTIONS

Substitution of any specified material or equipment require the prior written acceptance of the Project Manager. It is the sole responsibility of the Contractor to provide sufficient information and documentation to the Project Manager to allow for a thorough review and determination on the acceptability of the substitution. Approval of a substitution does not waive or mitigate the Contractor's sole responsibility to meet the requirements of the Contract Documents and the requirements of a Work Order. The City may require an adjustment in price based on any proposed substitution.

The Contractor may request the City to approve substitution where the specified materials are not available. Such requests must be submitted in writing to the Project Manager in advance with sufficient information to evaluate the substitution. The Contractor shall provide the substitute materials plant designation, type, grade, quality, and size. Acceptance of substitutions shall be at the sole discretion of the City. The City may require an adjustment in price based on any proposed substitution.

2.19 DIFFERING SITE CONDITIONS

In the event that during the course of the Work on a Project the Contractor encounters subsurface or concealed conditions at the Project site which differ materially from those shown in the Contract Documents, and from those ordinarily encountered and generally recognized as inherent in work of the character called for in the Contract Documents, Contractor, without disturbing the conditions and before performing any Work affected by such conditions, shall, within twenty-four (24) hours of its discovery, notify the Project Manager and Consultant in writing of the existence of the aforesaid conditions. Project Manager or the Consultant will typically attempt, within two (2) business days after receipt of Contractor's written notice, investigate the site conditions identified by Contractor. If, in the sole opinion of Project Manager or the Consultant, the conditions do materially so differ and cause an increase or decrease in Contractor's cost of, or the time required for, the performance of any part of the Work, whether or not charged as a result of the conditions, Project Manager or Consultant shall recommend an equitable adjustment to cost of the Work or the time to complete the Work, or both. If the Project Manager and Contractor cannot agree on an adjustment in the Contract Price or Contract

Time, the adjustment shall be referred to the City's Chief Procurement Officer for determination. Should the City's Chief Procurement Officer determine that the conditions of the Project site are not so materially different to justify a change in the terms of the Contract Documents, the Chief Procurement Officer shall so notify the Project Manager, Consultant, and Contractor in writing, stating the reasons, and such determination shall be final and binding upon the parties hereto.

No request by Contractor for an equitable adjustment to the Contract Documents under this provision shall be allowed unless Contractor has given written notice in strict accordance with the provisions of this Article. No request for an equitable adjustment or change to the Contract Price or Contract Time for differing site conditions shall be allowed if made after the date certified by Consultant or Project Manager as the date of Substantial Completion.

2.20 PROTECTION OF PROPERTY, UTILITIES, AND THE PUBLIC

The Contractor must continuously maintain adequate protection of all its Work from all losses or damage and must protect public and private property, and utilities from injury or loss arising in connection with the Work, and take all necessary precautions to prevent accidents, injuries, or damage to persons or property on or near the Work.

Contractor is solely responsible to restore all areas impacted by the Work, including but not limited to swale areas, existing structures, driveways and approaches, landscaping, drainage, and lighting to pre-existing conditions to the satisfaction of the Project Manager.

2.21 CONTRACTOR'S RESPONSIBILITY FOR UTILITY PROPERTIES AND SERVICE

Where the Contractor's operations could cause damage or inconvenience to telephone, fiber optic, television, electrical power, oil, gas, water, sewer, or irrigation systems, the Contractor must make all arrangements necessary for the protection of these utilities and services or any other known utilities.

Notify all utility companies that are affected by the construction operation at least forty-eight (48) hours in advance. Under no circumstance expose any utility without first obtaining permission from the appropriate agency. Once permission has been granted, locate, expose, and provide temporary support for all existing underground utilities and utility poles where necessary.

The Contractor and its Subcontractors shall be solely and directly responsible to the owner and operators of such properties for any damage, injury, expense, loss, inconvenience, delay, suits, actions, or claims of any character brought because of any injuries or damage which may result from the construction operations under the Contract Documents.

Neither the City nor its officers or agents shall be responsible to the Contractor for damages as a result of the Contractor's failure to protect property encountered in the Work.

In the event of interruption to domestic water, sewer, storm drain, or other utility services as a result of accidental breakage due to construction operations, Contractor shall promptly notify the owner, any required regulatory authority, and the Project Manager. Such Field Directive(s) shall be issued in writing and the Contractor is required to comply with the directive. Then Contractor will be entitled only to a time extension and no compensation for the delay.

Contractor is entitled to a time extension of the Contract time for each day the Work is delayed due to Excusable Delay. Contractor must document its claim for any time extension as provided in the Contract.

Failure of Contractor to comply with the timeframes established by Article 2.32, Extension of Time, as to any particular event of delay will be deemed conclusively to constitute a waiver, abandonment or relinquishment of any and all claims resulting from that particular event of delay.

2.35 EXTENSION OF TIME

Any reference in this Article to the Contractor will be deemed to include suppliers, and permitted Subcontractors, whether or not in privity of contract with the Contractor for the purpose of this Article.

If the Contractor is delayed at any time during the progress of the Work beyond the time frame or date of completion under a Work Order by the neglect or failure of the City or by a Force Majeure, then the Contract Time set forth in the Contract shall be extended by the City subject to the following conditions:

- The cause of the delay arises after issuance of a Notice to Proceed or commencement of the Work, and could not have been anticipated by the Contractor by reasonable investigation before proceeding with the Work;
- The Contractor demonstrates that the completion of the Work shall be actually and necessarily delayed;
- The effect of such cause cannot be avoided or mitigated by the exercise of all reasonable precautions, efforts and measures whether before or after the occurrence of the cause of delay.

A delay meeting all the conditions of the above, will be deemed an Excusable Delay.

The City reserves the right to rescind or shorten any extension previously granted if subsequently, the Project Manager determines that any information provided by the Contractor in support of a request for an extension of time was erroneous; provided however, that such information or facts, if known, would have resulted in a denial of the request for an Excusable Delay. Notwithstanding the above, the Project Manager shall not rescind or shorten any extension previously granted if the Contractor acted in reliance upon the granting of such

extension and such extension was based on information which, although later found to have been erroneous, was submitted in good faith by the Contractor.

The request for an Excusable Delay shall be made within five (5) calendar days after the time when the Contractor knows or should have known of any cause for a specific event, for which it may claim an extension of time and shall provide any actual or potential basis for an extension of time, identifying such causes and describing, as fully as practicable at that time, the nature and expected duration of the delay and its effect on the completion of that part of the Work identified in the request. The Project Manager may require the Contractor to furnish such additional information or documentation, as the Project Manager will reasonably deem necessary or helpful in considering the requested extension.

The Contractor shall not be entitled to an extension of time unless the Contractor affirmatively demonstrates that it is entitled to such extension.

The Project Manager shall endeavor to review and respond to the Contractor's request for Excusable Delays in a reasonable period of time; however, the Contractor is obligated to continue to perform the Work required regardless of whether the Project Manager has issued a decision or whether the Contractor agrees or disagrees with that decision.

With regard to an injunction, strike or interference of public origin which may delay the Project, the Contractor shall promptly give the Project Manager a copy of the injunction or other orders and copies of the papers upon which the same was granted. The City shall be afforded the right to intervene and become a party to any suit or proceeding in which any such injunction has been obtained and move to dissolve the same or otherwise, as the City may deem proper.

Where the Contractor is delayed for any period of time by two or more of the causes mentioned in in Article 1.93, Force Majeure or Article 2.31, Excusable Delay, Non-Compensable, the Contractor shall not be entitled to a separate extension for each one of the causes, only one period of extension will be granted for the delay.

Any extension of time granted by the City shall be processed through the Change Order provisions of the Contract.

The permitting of the Contractor to proceed with the Work subsequent to the date specified in the Contract (as such date may have been extended by a change order), the making of any payment to the Contractor, the issuance of any Change Order, shall not waive the City's rights under the Contract, including but not limited to the assessment of Liquidated Damages or declaring Contractor in default.

Any such order shall be specifically identified as a "Stop Work Order" issued pursuant to this paragraph. Within the period of ninety (90) days (or the lesser period specified) after a Stop Work Order is delivered to the Contractor, or within any extension to which the parties have agreed the City shall either:

- Cancel the Stop Work Order; or
- Terminate the Work covered by such order as provided in Article 1.64, Termination for Convenience.

If a Stop Work Order issued under this Article is canceled or the period of the order or any extension thereof expires, the Contractor shall resume the Work without compensation to the Contractor for such suspension other than extending the time to complete any Work under the Contract or extending the Contract Term to the extent that, in the opinion of the Project Manager, the Contractor may have been delayed by such suspension. In the event the Project Manger determines that the suspension of Work was necessary due to Contractor's defective or incorrect Work, unsafe Work conditions caused by the Contractor, or any other reason caused by Contractor's fault or omission, the Contractor shall not be entitled to an extension of time or Contract Term or (Time) as a result of the issuance of a Stop Work Order.

Suspension of the Work caused by a threatened or actual storm event, regardless of whether the City has directed such suspension, shall entitle the Contractor to additional Contract time as non-compensable, Excusable Delay, and shall not give rise to a claim for compensable delay.

If a Project requires work that includes non-pre-priced work then the Project Manager will request a written Work Order Proposal ("Proposal") from the Contractor. Upon receipt of the Proposal from the Contractor the Project Manager will review the Proposal and either accept, reject or negotiate the Proposal. Once finalized the Project Manager will issue a Work Order for the Work to be performed.

The Project Manager shall not be responsible for construction means, methods, techniques, sequences or procedures, or for safety precautions and programs in connection with the Work, and will not be responsible for the Contractor's failure to carry out the Work in accordance with the Contract Documents. The Project Manager shall not be responsible for the acts or omissions of the Contractor, any Subcontractor, or any of its agents, employees, or any other persons performing any of the Work.

1.56 CLAIMS/DISPUTES

- A. The Contractor must, in the final instance, seek to resolve every difference concerning the Agreement with the Project Manager. In the event that the Contractor and the Project Manager are unable to resolve their difference, the Contractor may initiate a dispute in accordance with the procedures set forth in the section below. Exhaustion of these procedures shall be a condition precedent to any lawsuit permitted hereunder.
- B. In the event of such dispute, the parties to the Agreement authorize the City Manager or designee, who may not be the Project Manager or anyone associated with this Project, acting personally, to decide all questions arising out of, under, or in connection with, or in any way related to or on account of the Agreement (including but not limited to claims in the nature of breach of contract, fraud or misrepresentation arising either before or subsequent to execution hereof) and the decision of each with respect to matters within the City Manager's purview as set forth above shall be conclusive, final and binding on parties. Any such dispute shall be brought, if at all, before the City Manager within 10 days of the occurrence, event or act out of which the dispute arises.

The City Manager may base this decision on such assistance as may be desirable, including advice of experts, but in any event shall base the decision on an independent and objective determination of whether Contractor's performance or any Deliverable meets the requirements of the Agreement and any specifications with respect thereto set forth herein. The effect of any decision shall not be impaired or waived by any negotiations or settlements or offers made in connection with the dispute, whether or not the City Manager participated therein, or by any prior decision of others, which prior decision shall be deemed subject to review, or

by any termination or cancellation of the Agreement. All such disputes shall be submitted in writing by the Contractor to the City Manager for a decision, together with all evidence and other pertinent information in regard to such questions, in order that a fair and impartial decision may be made. The parties agree that whenever the City Manager is entitled to exercise discretion or judgment or to make a determination or form an opinion pursuant to the provisions of this Article, such action shall be deemed fair and impartial when exercised or taken. The City Manager shall render a decision in writing and deliver a copy of the same to the Contractor. Except as such remedies may be limited or waived elsewhere in the Agreement, Contractor reserves the right to pursue any remedies available under law after exhausting the provisions of this Article.

Contractor must continue to perform all Work under the Contract during all disputes or disagreements with Town, including disputes or disagreements concerning a request for a Change Order and Work must not be delayed or postponed pending resolution of any disputes or disagreements without the prior written approval of the Project Manager.

1.56 MUTUAL OBLIGATIONS

- A. The Agreement, including attachments and appendices to the Agreement, shall constitute the entire Agreement between the parties with respect hereto and supersedes all previous communications and representations or agreements, whether written or oral, with respect to the subject matter hereto unless acknowledged in writing by the duly authorized representatives of both parties.
- B. Nothing in the Agreement shall be construed for the benefit, intended or otherwise, of any third party that is not a parent or subsidiary of a party or otherwise related (by virtue of ownership control or statutory control) to a party.
- C. In those situations where the Agreement imposes an indemnity or defense obligation on the Contractor, the City may, at its expense, elect to participate in the defense if the City should so choose. Furthermore, the City may at its own expense defend or settle any such claims if the Contractor fails to diligently defend such claims, and thereafter seek indemnity for costs and attorney's fees from the Contractor.

1.57 QUALITY ASSURANCE/QUALITY ASSURANCE RECORD KEEPING

The Contractor shall maintain, and shall require that its subcontractors and suppliers maintain, complete and accurate records to substantiate compliance with the requirements set forth in the Scope of Services. The Contractor and its subcontractors and suppliers shall retain such records, and all other documents relevant to the Services furnished under the Agreement for a period of three (3) years from the expiration date of the Agreement and any extension thereof.

1.58 AUDITS

The City, or its duly authorized representatives or governmental agencies shall, until the expiration of three (3) years after the expiration of the Agreement and any extension thereof, have access to and the right to examine and reproduce any of the Contractor's books, documents, papers and records and those of its subcontractors and suppliers which apply to all matters of the City as needed. Such records shall conform to Generally Accepted Accounting Principles requirements, as applicable, and shall only address those transactions related to the Agreement.

The Contractor agrees to grant access to the City's Auditor to all financial and performance-related records, property, and equipment purchased in whole or in part with government funds. The Contractor agrees to maintain an accounting system that provides accounting records that are supported with adequate documentation, and adequate procedures for determining the allowability and allocability of costs.

1.59 SUBSTITUTION OF PERSONNEL

In the event the Contractor wishes to substitute personnel for the key personnel identified by the Contractor's Proposal, the Contractor must notify the City in writing and request written approval for the substitution at least ten (10) business days prior to effecting such substitution.

1.60 SUBCONTRACTUAL RELATIONS

- A. If the Contractor will cause any part of the Agreement to be performed by a subcontractor, the provisions of this Contract will apply to such subcontractor and its officers, agents and employees in all respects as if it and they were employees of the Contractor; and the Contractor will not be in any manner thereby discharged from its obligations and liabilities hereunder, but will be liable hereunder for all acts and negligence of the subcontractor, its officers, agents, and employees, as if they were employees of the Contractor. The services performed by the subcontractor will be subject to the provisions hereof as if performed directly by the Contractor.
- B. The Contractor, before making any subcontract for any portion of the services, will state in writing to the City the name of the proposed subcontractor, the portion of the Services which the subcontractor is to do, the place of business of such subcontractor, and such other information as the City may require. The City will have the right to require the Contractor not to award any subcontract to a person, firm or corporation disapproved by the City.
- C. Before entering into any subcontract hereunder, the Contractor will inform the subcontractor fully and completely of all provisions and requirements of the Agreement relating either directly or indirectly to the Services to be performed. Such Services performed by such subcontractor will strictly comply with the requirements of this Contract.

D. In order to qualify as a subcontractor satisfactory to the City, in addition to the other requirements herein provided, the subcontractor must be prepared to prove to the satisfaction of the City that it has the necessary facilities, skill and experience, and ample financial resources to perform the Services in a satisfactory manner. To be considered skilled and experienced, the subcontractor must show to the satisfaction of the City that it has satisfactorily performed services of the same general type which is required to be performed under the Agreement.

E. The City shall have the right to withdraw its consent to a subcontract if it appears to the City that the subcontract will delay, prevent, or otherwise impair the performance of the Contractor's obligations under the Agreement. All subcontractors are required to protect the confidentiality of the City and City's proprietary and confidential information. Contractor shall furnish to the City copies of all subcontracts between Contractor and subcontractors and suppliers hereunder. Within each such subcontract, there shall be a clause for the benefit of the City permitting the City to request completion of performance by the subcontractor of its obligations under the subcontract, in the event the City finds the Contractor in breach of its obligations, and the option to pay the subcontractor directly for the performance by such subcontractor. Notwithstanding, the foregoing shall neither convey nor imply any obligation or liability on the part of the City to any subcontractor hereunder as more fully described herein.

F. Contractor is solely responsible for all acts and omissions of its Subcontractors. Nothing in the Contract Documents creates any contractual relationship between any Subcontractor and the City. Contractor is responsible for the timely payment of its Subcontractors and suppliers as required by Florida Statute Chapter 218.735. Failure to comply with these payment requirements will place the Contractor in default of the Contract.

G. Contractor shall utilize the Subcontractors identified in its Bid and shall not replace, add or substitute any Subcontractors without the prior written approval of the Project Manager.

H. Bidders that will be using a temporary labor company to provide staffing for the Project must complete Attachment B and include it with the Bid Submittal. Failure to include this form may result in the Bid Submittal being rejected as non-responsive.

1.61 ASSUMPTION, PARAMETERS, PROJECTIONS, ESTIMATES AND EXPLANATIONS

The Contractor understands and agrees that any assumptions, parameters, projections, estimates and explanations presented by the City were provided to the Contractor for evaluation purposes only. However, since these assumptions, parameters, projections, estimates and explanations represent predictions of future events, the City makes no representations or guarantees, the City shall not be responsible for the accuracy of the assumptions

presented, the City shall not be responsible for conclusions to be drawn there from, and any assumptions, parameters, projections, estimates and explanations shall not form the basis of any claim by the Contractor. The Contractor accepts all risks associated with using this information.

1.62 SEVERABILITY

If the Agreement contains any provision found to be unlawful, the same shall be deemed to be of no effect and shall be deemed stricken from the Agreement without affecting the binding force of the Agreement as it shall remain after omitting such provision.

1.63 TERMINATION FOR CONVENIENCE AND SUSPENSION OF WORK

A. The City may terminate the Agreement if an individual or corporation or other entity attempts to meet its contractual obligation with the City through fraud, misrepresentation or material misstatement.

B. The City may, as a further sanction, terminate or cancel any other contract(s) that such individual or corporation or other entity has with the City. Such individual, corporation or other entity shall be responsible for all direct and indirect costs associated with such termination or cancellation, including attorney's fees.

C. Contractor acknowledges and agrees that ten dollars (\$10.00) of the compensation to be paid by the City, the receipt and adequacy of which is hereby acknowledged by Contractor is given specific consideration to Contractor for City's right to terminate this Agreement for convenience.

D. The City, through its City Manager, and for its convenience and without cause, terminate the Contract at any time during the term by giving written notice to consultant of such termination; which shall become effective within fifteen (15) days following receipt by the Contractor of such notice. If the Contract is terminated for convenience by the City, the Contractor shall be paid for any services satisfactorily performed up to the date of termination; following which the City shall be discharged from any and all liabilities, duties, and terms arising out, or by virtue of, this Contract.

E. The foregoing notwithstanding, any individual, corporation or other entity which attempts to meet its contractual obligations with the City through fraud, misrepresentation or material misstatement may be debarred from City contracting in accordance with the City debarment procedures. The Contractor may be subject to debarment for failure to perform and all other reasons set forth in Chapter 3 of the City's Purchasing Policies and Procedures Manual.

In addition to cancellation or termination as otherwise provided in the Agreement, the City may at any time, in its sole discretion, with or without cause, terminate the Agreement by written notice to the Contractor and in such event:

F. The Contractor shall, upon receipt of such notice, unless otherwise directed by the City:

1. Stop work on the date specified in the notice ("the Effective Termination Date");
2. Take such action as may be necessary for the protection and preservation of the City's materials and property;
3. Cancel orders;
4. Assign to the City and deliver to any location designated by the City any non-cancelable orders for Deliverables that are not capable of use except in the performance of the Agreement and which have been specifically developed for the sole purpose of the Agreement and not incorporated in the Services;
5. Take no action which will increase the amounts payable by the City under the Agreement.

G. In the event that the City exercises its right to terminate the Agreement pursuant to this Article the Contractor will be compensated as stated in the payment Articles, herein, for the:

1. Portion of the Services completed in accordance with the Agreement up to the Effective Termination Date; and
2. Non-cancelable Deliverables that are not capable of use except in the performance of the Agreement and which have been specifically developed for the sole purpose of the Agreement but not incorporated in the Services.

H. All compensation pursuant to this Article is subject to audit.

1.64 EVENT OF DEFAULT

2. The Contractor has refused or failed, except in any case for which an extension of time is provided, to supply enough properly skilled staff personnel;
3. The Contractor has failed to make prompt payment to subcontractors or suppliers for any Services;
4. The Contractor has become insolvent (other than as interdicted by the bankruptcy laws), or has assigned the proceeds received for the benefit of the Contractor's creditors, or the Contractor has taken advantage of any insolvency statute or debtor/creditor law or if the Contractor's affairs have been put in the hands of a receiver;
5. The Contractor has failed to obtain the approval of the City where required by the Agreement;
6. The Contractor has failed to provide "adequate assurances" as required under subsection "B" below; and

7. The Contractor has failed in the representation of any warranties stated herein.

B. When, in the opinion of the City, reasonable grounds for uncertainty exist with respect to the Contractor's ability to perform the Services or any portion thereof, the City may request that the Contractor, within the time frame set forth in the City's request, provide adequate assurances to the City, in writing, of the Contractor's ability to perform in accordance with terms of the Agreement. Until the City receives such assurances the City may request an adjustment to the compensation received by the Contractor for portions of the Services which the Contractor has not performed. In the event that the Contractor fails to provide to the City the requested assurances within the prescribed time frame, the City may:

1. Treat such failure as a repudiation of the Agreement;
2. Resort to any remedy for breach provided herein or at law, including but not limited to, taking over the performance of the Services or any part thereof either by itself or through others.

C. In the event the City shall terminate the Agreement for default, the City or its designated representatives may immediately take possession of all applicable equipment, materials, products, documentation, reports and data.

1.65 REMEDIES IN THE EVENT OF DEFAULT

If an Event of Default occurs, the Contractor shall be liable for all damages resulting from the default, including but not limited to:

- B. The Contractor shall be liable and responsible for any and all claims made against the City for infringement of patents, copyrights, service marks, trade secrets or any other third party proprietary rights, by the use or supplying of any programs, documentation, software, analyses, applications, methods, ways, processes, and the like, in the course of performance or completion of, or in any way

connected with, the Work, or the City's continued use of the Work, including and equipment, parts and materials furnished hereunder

- C. In the event any Deliverable or anything provided to the City hereunder, or a portion thereof is held to constitute an infringement and its use is or may be enjoined, the Contractor shall have the obligation, at the City's option, to (i) modify, or require that the applicable subcontractor or supplier modify, the alleged infringing item(s) at the Contractor's expense, without impairing in any respect the functionality or performance of the item(s), or (ii) procure for the City, at the Contractor's expense, the rights provided under the Agreement to use the item(s).
- D. The Contractor shall be solely responsible for determining and informing the City whether a prospective supplier or subcontractor is a party to any litigation involving patent or copyright infringement, service mark, trademark, violation, or proprietary rights claims or is subject to any injunction which may prohibit it from providing any Deliverable hereunder. The Contractor shall enter into agreements with all suppliers and subcontractors at the Contractor's own risk. The City may reject any Deliverable that it believes to be the subject of any such litigation or injunction, or if, in the City's judgment, use thereof would delay the Work or be unlawful.

1.80 PROHIBITION OF INTEREST

No contract will be awarded to a bidding firm who has City elected officials, officers or employees affiliated with it, unless the bidding firm has fully complied with current Florida State Statutes and City Ordinances relating to this issue. Bidders must disclose any such affiliation. Failure to disclose any such affiliation will result in disqualification of the Bidder or termination of the agreement, removal of the Bidder from the City's bidder lists, and prohibition from engaging in any business with the City.

1.81 NO CONTINGENT FEES

Vendor warrants that it has not employed or retained any company or person other than a bona fide employee working solely for the Vendor to solicit or secure the

Agreement, and that it has not paid or agreed to pay any person, company, corporation, individual, or firm, other than a bona fide employee working solely for the Vendor any fee, commission, percentage, gift, or other consideration contingent upon or resulting from the award or making of the Agreement. Contractor shall be responsible for complying with the E-Verify requirements in the contract and using the U.S. Department of Homeland Security's E-Verify system to verify the employment of all new employees hired by Contractor during the Agreement term. The Contractor is also responsible for e-verifying its subcontractors, if any, pursuant to any agreement between the City and a State Agency, and reporting to the City any required information. Contractor acknowledges that the terms of this paragraph are material terms, the breach of any of which shall constitute a default under the Agreement.

Known utilities and structures adjacent to or encountered in the Work will be shown on the Drawings, if any. If, in the sole opinion of Project Manager or the Consultant, the conditions do materially so differ and cause an increase or decrease in Contractor's cost of, or the time required for, the performance of any part of the Work, whether or not charged as a result of the conditions, Project Manager or Consultant shall recommend an equitable adjustment to cost of the Work or the time to complete the Work, or both. If the Project Manager and Contractor cannot agree on an adjustment in the Contract Price or Contract

Time, the adjustment shall be referred to the City's Chief Procurement Officer for determination. Should the City's Chief Procurement Officer determine that the conditions of the Project site are not so materially different to justify a change in the terms of the Contract Documents, the Chief Procurement Officer shall so notify the Project Manager, Consultant, and Contractor in writing, stating the reasons, and such determination shall be final and binding upon the parties hereto.

Such expenses shall also include repayment to the City for any and all expenses or costs incurred by it, including employee salaries or related cost, in connection with such uncovering, taking down, replacing and restoration at the Project site.

2.32 DEFECTIVE OR NON-COMPLIANT WORK

The Project Manager shall have the authority to reject or disapprove Work that is found to be defective or not in compliance with the requirements of the Contract or Work Order. If required, the Contractor shall promptly either correct all defective or non-compliant Work or remove such defective Work and replace it with non-defective/non-compliant Work. Contractor shall bear all direct, indirect and consequential costs of such removal or corrections.

Re-examination of any of the Work may be ordered by the Project Manager and if so ordered, the Work shall be uncovered by Contractor. If such Work is found to be in accordance with the Contract Documents, the City shall pay the cost of reexamination and replacement by means of a Change Order. If such Work is not in accordance with the Contract Documents, Contractor shall pay such cost.

Should Contractor fail or refuse to remove or correct any defective or non-compliant Work or to make any necessary repairs in accordance with the requirements of the Contract Documents within the time indicated in writing by the Project Manager, the Project Manager shall have the authority to cause the defective/non-compliant Work to be removed or corrected, or make such repairs or corrections as may be necessary at Contractor's expense. Any expense incurred by the City in making such removals, corrections or repairs, shall be paid for out of any monies due or which may become due the Contractor. In the event of failure of the Contractor to make all necessary repairs promptly and fully, the City Manager or designee may declare the Contractor in default.

If, within the warranty period required by the Contract Documents, or by any specific provision of the Contract, any of the Work is found to be defective or not in accordance with the Contract Documents, Contractor, after

receipt of written notice from City, must promptly correct such defective or nonconforming Work within the time specified by City, without cost to City. Should the Contractor fail to take such action the City may take any necessary and appropriate action and hold the Contractor liable and responsible for all costs. The City may take any action allowed under this Contract or in law to recover all such costs. Nothing contained herein will be construed to establish a period of limitation with respect to any other obligation which Contractor might have under the Contract Documents, including but not limited to, any claim regarding latent defects.

Failure to reject any defective Work or material does not, in any way, prevent later rejection when such defect is discovered, or obligate the City to accept any defective Work.

2.33 FIELD DIRECTIVE

The Project Manager may at times issue Field Directives to the Contractor based on visits to the Project Site. Such Field Directive(s) shall be issued in writing and the Contractor is required to comply with the directive. Where the Contractor believes that the directive is outside the scope of the Work, the Contractor shall, within 48 hours, notify the Project Manager that the work covered by the Field Directive is outside the scope of the Work. At that time the Field Directive may be rescinded by the Project Manager or the Contractor may be required to submit a request for a change to the Contract. Where the Contractor is notified of the City's position that the Work is within the scope and the Contractor disagrees, the Contractor may notify the Project Manager that the Contractor reserves the right to make a claim for the time and monies based on the Field Directive, in accordance with the requirements of the Contract. At no time will the Contractor refuse to comply with a Field Directive. Failure to comply with a Field Directive may result in a determination that the Contractor is in default of the Contract.

2.34 EXCUSABLE DELAY, NON-COMPENSABLE

Excusable Delay is either (i) caused by circumstances that could not be foreseen and are beyond the control of Contractor, its subcontractors, or suppliers, or is (ii) caused jointly or concurrently by Contractor or its subcontractors, suppliers or vendors and by the City. Then Contractor will be entitled only to a time extension and no compensation for the delay.

Contractor is entitled to a time extension of the Contract time for each day the Work is delayed due to Excusable Delay. Contractor must document its claim for any time extension as provided in the Contract.

Failure of Contractor to comply with the timeframes established by Article 2.32, Extension of Time, as to any particular event of delay will be deemed conclusively to constitute a waiver, abandonment or relinquishment of any and all claims resulting from that particular event of delay.

2.35 EXTENSION OF TIME

Any reference in this Article to the Contractor will be deemed to include suppliers, and permitted Subcontractors, whether or not in privity of contract with the Contractor for the purpose of this Article.

If the Contractor is delayed at any time during the progress of the Work beyond the time frame or date of completion under a Work Order by the neglect or failure of the City or by a Force Majeure, then the Contract Time set forth in the Contract shall be extended by the City subject to the following conditions:

- The cause of the delay arises after issuance of a Notice to Proceed or commencement of the Work, and could not have been anticipated by the Contractor by reasonable investigation before proceeding with the Work;
- The Contractor demonstrates that the completion of the Work shall be actually and necessarily delayed;
- The effect of such cause cannot be avoided or mitigated by the exercise of all reasonable precautions, efforts and measures whether before or after the occurrence of the cause of delay.

A delay meeting all the conditions of the above, will be deemed an Excusable Delay.

The City reserves the right to rescind or shorten any extension previously granted if subsequently, the Project Manager determines that any information provided by the Contractor in support of a request for an extension of time was erroneous; provided however, that such information or facts, if known, would have resulted in a denial of the request for an Excusable Delay. Notwithstanding the above, the Project Manager shall not rescind or shorten any extension previously granted if the Contractor acted in reliance upon the granting of such

extension and such extension was based on information which, although later found to have been erroneous, was submitted in good faith by the Contractor.

The request for an Excusable Delay shall be made within five (5) calendar days after the time when the Contractor knows or should have known of any cause for a specific event, for which it may claim an extension of time and shall provide any actual or potential basis for an extension of time, identifying such causes and describing, as fully as practicable at that time, the nature and expected duration of the delay and its effect on the completion of that part of the Work identified in the request. The Project Manager may require the Contractor to furnish such additional information or documentation, as the Project Manager will reasonably deem necessary or helpful in considering the requested extension.

The Contractor shall not be entitled to an extension of time unless the Contractor affirmatively demonstrates that it is entitled to such extension.

The Project Manager shall endeavor to review and respond to the Contractor's request for Excusable Delays in a reasonable period of time; however, the Contractor is obligated to continue to perform the Work required regardless of whether the Project Manager has issued a decision or whether the Contractor agrees or disagrees with that decision.

With regard to an injunction, strike or interference of public origin which may delay the Project, the Contractor shall promptly give the Project Manager a copy of the injunction or other orders and copies of the papers upon which the same was granted. The City shall be afforded the right to intervene and become a party to any suit or proceeding in which any such injunction has been obtained and move to dissolve the same or otherwise, as the City may deem proper.

Where the Contractor is delayed for any period of time by two or more of the causes mentioned in in Article 1.93, Force Majeure or Article 2.31, Excusable Delay, Non-Compensable, the Contractor shall not be entitled to a separate extension for each one of the causes, only one period of extension will be granted for the delay.

Any extension of time granted by the City shall be processed through the Change Order provisions of the Contract.

The permitting of the Contractor to proceed with the Work subsequent to the date specified in the Contract (as such date may have been extended by a change order), the making of any payment to the Contractor, the issuance of any Change Order, shall not waive the City's rights under the Contract, including but not limited to the assessment of Liquidated Damages or declaring Contractor in default.

2.36 STOP WORK ORDER

The City may, at any time, by written order to the Contractor, require the Contractor to stop all, or any part, of the Work for a period of up to ninety (90) days (or any lesser period), commencing no sooner than the date the order is delivered to the Contractor, and for any further period to which the parties may agree. Any such order shall be specifically identified as a "Stop Work Order" issued pursuant to this paragraph. Within the period of ninety (90) days (or the lesser period specified) after a Stop Work Order is delivered to the Contractor, or within any extension to which the parties have agreed the City shall either:

- Cancel the Stop Work Order; or
- Terminate the Work covered by such order as provided in Article 1.64, Termination for Convenience.

If a Stop Work Order issued under this Article is canceled or the period of the order or any extension thereof expires, the Contractor shall resume the Work without compensation to the Contractor for such suspension other than extending the time to complete any Work under the Contract or extending the Contract Term to the extent that, in the opinion of the Project Manager, the Contractor may have been delayed by such suspension. In the event the Project Manger determines that the suspension of Work was necessary due to Contractor's defective or incorrect Work, unsafe Work conditions caused by the Contractor, or any other reason caused by Contractor's fault or omission, the Contractor shall not be entitled to an extension of time or Contract Term or (Time) as a result of the issuance of a Stop Work Order.

Suspension of the Work caused by a threatened or actual storm event, regardless of whether the City has directed such suspension, shall entitle the Contractor to additional Contract time as non-compensable, Excusable Delay, and shall not give rise to a claim for compensable delay.

2.37 HURRICANE PREPAREDNESS

During such periods of time as are designated by the United States Weather Bureau as being a hurricane warning, the Contractor, at no cost to the City, shall take all precautions necessary to secure any Work in response to all threatened storm events, regardless of whether the Contractor has given notice of same.

Compliance with any specific hurricane warning or alert precautions shall not constitute additional work.

2.38 RELEASE OF LIENS/CONSENT OF SURETY

The Contractor warrants and guarantees that title to all Work, materials and equipment covered by an invoice, whether incorporated in the Project or not, will pass to the City upon the receipt of payment by the Contractor, free and clear of all liens, claims, security interests or encumbrances and that no Work, materials or equipment will have been acquired by the Contractor or by any other person performing Work at the site or furnishing materials and equipment for the Project, subject to an agreement under which an interest therein or an encumbrance thereon is retained by the seller or otherwise imposed by the Contractor by a Subcontractor or supplier or any other interested party.

The Contractor must, starting with the second (2nd) Invoice, provide the Project Manager completed Partial or Final Releases of Lien/Subcontractor's Statement of Satisfaction Form for the Project for any Project that includes multiple payments. As an option the Contractor may also submit a Consent of Surety if a payment bond has been provided, authorizing the release of payment by the Surety. Failure to submit such documentation will result in rejection of the invoice.

Conditional Release of Liens are not accepted by the City.

2.39 OWNERSHIP OF THE WORK

The Contractor is solely responsible for all Work, until Final Completion of a Work Order. Contractor is liable for all damage, theft, maintenance, and safety until such time as the City issues a notice of Final Completion of a Work Order.

2.40 WORK ORDERS/AWARD OF PROJECTS OR WORK

Work Orders will be issued to the City for all Work. A Work Order may consist of one or more Projects. Work Orders will be issued in one of two ways.

- Where a Project is based solely on pre-priced line item pricing the Project Manager will calculate the cost of the Project(s) by multiplying the estimated quantities for each line item times the line item price. The Project Manager will then provide the Contractor a written Work Order for a Project(s) and provide it with the spreadsheet used for the calculations (if one is required), the timeframe for completing the Project(s), and available drawings (if any), and any additional contract terms and conditions specific to the Project(s) or the Work Order, including but not limited to additional insurance, liquidated damages, etc.
- The Contractor is responsible to visit the site, review any drawings and the spreadsheet, to confirm that the proposed quantities and value stated in the Work Order for the Project(s) is correct. The Contractor may request that the Project Manager meet in the field to review the Work Order. If the Contractor believes that either the quantities, line items, scope or other details are incorrectly stated on the Work Order the Contractor is to notify the Project Manager in writing of their findings within forty-eight (48) hours or the City will consider the Work Order as accepted by the Contractor. The Project Manager will review any recommended revisions and if necessary make any revisions. Once revised and forwarded to the Contractor, the Contractor will have twenty-four (24) hours to accept or reject the Work Order. If rejected the City may have the Work performed by others. Repeated rejections of Work Orders may result in termination of the Contract.

If a Project requires work that includes non-pre-priced work then the Project Manager will request a written Work Order Proposal ("Proposal") from the Contractor. Upon receipt of the Proposal from the Contractor the Project Manager will review the Proposal and either accept, reject or negotiate the Proposal. Once finalized the Project Manager will issue a Work Order for the Work to be performed.

The Work Order shall serve as the Contractor's Notice to Proceed unless otherwise stated in the Work Order.

2.41 PRE-CONSTRUCTION MEETING

Prior to or after the issuance of a Work Order and City and the Contractor shall agree upon a date and time for a

pre-construction meeting, if one is deemed necessary. The Contractor shall attend and also have any appropriate subcontractors attend the meeting. Contractor shall keep and distribute the meeting minutes.

2.42 MATERIALS, INSPECTION, AND RESPONSIBILITY

The City shall have a right to inspect any material to be used in carrying out this Contract. The City does not assume any responsibility for the availability of any controlled materials or other materials and equipment required under this Contract. The Contractor shall be responsible for the quality and standards of all materials, components or completed Work finished under this Contract. Materials, components, or completed Work not complying therewith may be rejected by the City and shall be replaced by the Contractor at no cost to the City. Any materials or components rejected shall be removed within a reasonable time from the premises at the entire expense of the Contractor, after written notice has been mailed by the City to the Contractor that such materials or components for Work have been rejected.

2.43 PROGRESS MEETINGS

The applicable City Project Manager shall schedule and hold regular on-site progress meetings at least weekly, and at other times as requested by the City Project Manager. The City, Contractor, and all subcontractors active on the site shall be represented at each meeting. City or Contractor may request attendance by representatives of suppliers or manufacturers. The purpose of the meetings will be to review the progress of the Work, maintain coordination of efforts, discuss changes in scheduling, and resolve problems which may develop. Contractor shall be responsible for all meeting minutes, including their distribution and revision.

2.44 PROGRESS PAYMENTS

Based on Applications for Payment submitted to the City by the Contractor, and Certificates for Payment issued by the Architect/Engineer or City, the City shall make progress payments to the Contractor based on the Schedule of Values and percentage of completion, or units completed. A retainage of ten percent (10%) will be deducted from the monthly payment.

Applications for Payment shall indicate the percentage of completion of each portion of the work, or the volume, area, or linear measurement of work completed as of the end of the period covered by the Application for Payment. The period covered by each Application for Payment shall be one calendar month no more than payment application shall be submitted per month. All payments shall be made in accordance with the Local Government Prompt Payment Act.

2.45 COST ADJUSTMENTS

The cost for all items as quoted herein shall remain firm for the initial three (3) years term of the Contract. Costs for subsequent OTR term(s) shall be subject to an adjustment in an amount that shall not exceed 3% per year, or the increase in the Consumer Price Index ("CPI"), whichever is less

The Contractor may request an adjustment to the Wage Rates for each OTR year, on an annual basis. The City may also adjust the pricing where the City Manager determines that extenuation circumstances exist. The maximum the CPI increase shall be based on the Miami – Fort Lauderdale Consumer Price Index issued by the U.S. Department of Labor, Bureau of Labor Statistics. Such adjustment shall be calculated the percentage of change for the current year against the preceding year. In no event shall the Wage Rate increase by more than three percent (3%) in any one year period and any increase granted will not be made retroactively.

In the event the CPI or industry costs decline, the City shall have the right to receive from the Contractor reduction in costs that reflect such cost changes in the industry.

2.46 SUBSTANTIAL COMPLETION

The Work under a Work Order will be Substantially Complete when the Project Manager accepts all of the Work performed under a Work Order. Where the Project Manager determines that additional Work is required to complete a Work Order the Project Manager will create a Punch List containing all of the Work to be performed to achieve Substantial Completion of the Work Order. Substantial Completion cannot occur without all final approval of all permits have been issued and the Punch List Work is complete.

The Punch List is to be signed by the Project Manager and the Contractor confirming that the Punch List contains the item(s) necessary to complete the Work. The failure or refusal of the Contractor to sign the Punch List does not relieve the Contractor from completing the remaining Work to the satisfaction of the Project Manager.

The Project Manager and the Contractor will agree on the time reasonably required to complete all remaining Work included in the Punch List.

2.47 FINAL ACCEPTANCE

The Final Inspection shall be made only after the City is satisfied that the Work described in the plans and specifications has been completed in accordance with the intent of these specifications and the Contractor has been notified of Substantial Completion by the Project Manager. The acceptance of the Work shall not in any way prejudice the City's rights to demand replacement of defective materials and workmanship.

2.48 FINAL COMPLETION

Subsequent to Substantial Completion and submission and acceptance of all required documents and training that may be required by the Contract Documents the Project Manager will notify the Contractor that the Project has achieved Final Completion.

The Contractor shall obtain all applicable permits and call for inspections required for each Project. The Building Department is mandated to charge fees. The City will however, reimburse the Contractor for permit fees incurred. The Contractor shall be responsible for the payment of the following fees (when applicable) including but not limited to: State BPR Building Certification Fee, State DCA Surcharge, County Code Compliance Fee, Microfilm Fee, and Structural Examination Fee. The City shall reimburse Contractors for actual cost of these fees. Fees for re-inspections shall be charged to the Contractor at normal rate and all costs shall be borne by the Contractor. The amount of Contractor's overhead and profit allowed for any change order, whether increase or decrease, shall not exceed the following

limits for work by the Contractor:

Overhead Limit: 10% of direct cost;

Profit Limit: 5% of the sum of direct cost and overhead cost.

For any portion of the work for a change order that is performed by a Subcontractor or a Sub Contractor, Contractor's combined overhead and profit limits allowed will not exceed 5% of the actual direct cost of the work. The A/E of Record will verify the Change Orders compliance, the determination of the final completion status, and the reception of all due related documents, including his/her approval of the updated record drawings, etc.

2.55 CLEAN UP

At the completion of Work at a work site(s), Contractor must remove all its excess materials, waste materials and rubbish from and about the Project(s) as well as any tools, equipment, machinery and surplus materials or supplies. If Contractor fails to clean up during the performance of the Work or at the completion of the Work, City may do so and the cost incurred will be charged to the Contractor. In the event of a delay in completion beyond the date established in the Work Order, the Contractor must pay to the City for each and every calendar day of unexcused delay, the sum stated in the Work Order, which is hereby agreed upon not as a penalty but as liquidated damages. The Contractor will be notified of any exceptions. The total amount of liquidated damages will not exceed the value of the Work Order.

The City has the right to deduct liquidated damages assessments from any payment due or which may thereafter become due to the Contractor under any contract the Contractor has with the City. In case the amount available under contracts the Contractor has with the City is less than the amount of liquidated damages due the City, the Contractor must pay the difference upon demand by the City. Should the Contractor fail to compensate the City for any liquidated damages, the City will consider this as a form of indebtedness and may deny any future Work under the Contract or any other City contract until such indebtedness is paid in full to the City.

4.7 DRUG-FREE WORKPLACE PROGRAM

IDENTICAL TIE BIDS - Preference shall be given to businesses with drug-free workplace programs. Whenever two or more bids which are equal with respect to price, quality, and service are received by the State or by any political subdivision for the procurement of commodities or contractual services, a bid received from a business that certifies that it has implemented a drug-free workplace program shall be given preference in the award process. Established procedures for processing tie bids will be followed if none of the tied vendors have a drug-free workplace program. In order to have a drug-free workplace program, a business shall:

1. Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.
2. Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violations.
3. Give each employee engaged in providing the commodities or contractual services that are under bid a copy of the statement specified in subsection (1).
4. In the statement specified in subsection (1), notify the employee that, as a condition of working on the commodities or contractual services that are under bid, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.
5. Impose a sanction on, or require the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.
6. Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

As the person authorized to sign the statement, I certify that this firm complies fully with the above requirements.

4.8 SOLICITATION, GIVING, AND ACCEPTANCE OF GIFTS POLICY

Florida Statute 112.313 prohibits the solicitation or acceptance of Gifts. - "No Public officer, employee of an agency, or candidate for nomination or election shall solicit or accept anything of value to the recipient, including a gift, loan, reward, promise of future employment, favor, or service, based upon any understanding that the vote, official action, or judgment of the public officer, employee, or candidate would be influenced thereby."... The term 'public officer' includes any person elected or appointed to hold office in any agency, including any person serving on an advisory body."

The City of North Miami Beach policy prohibits all public officers, elected or appointed, all employees, and their families from accepting any gifts of any value, either directly or indirectly, from any contractor, vendor, consultant, or business with whom the City does business. Only advertising office stationery or supplies of small value are exempt from this policy - e.g. calendars, note pads, pencils.

The State of Florida definition of "gifts" includes the following:

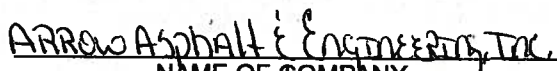

Real property or its use,
Tangible or intangible personal property, or its use,
A preferential rate of terms on a debt, loan, goods, or services,
Forgiveness of indebtedness,
Transportation, lodging, or parking,
Membership dues,
Entrance fees, admission fees, or tickets to events, performances, or facilities,
Plants, flowers or floral arrangements

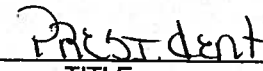

Services provided by persons pursuant to a professional license or certificate. Other personal services for which a fee is normally charged by the person providing the services. Any other similar service or thing having an attributable value not already provided for in this section. To this list, the City of North Miami Beach has added food, meals, beverages, and candy.

Any contractor, vendor, consultant, or business found to have given a gift to a public officer or employee, or his/her family, will be subject to dismissal or revocation of contract.

As the person authorized to sign the statement, I certify that this firm will comply fully with this policy.
